GO TO CHURCH SUNDAY

NEW "SAFETY-FLOW RIDE"-stability and safety never possible before! Even when you unexpectedly encounter violent bumps, dips, waves, or holes in the road, you enjoy a smooth and steady motion. You have complete control of the car at all times. "Safety-Flow Ride" comes from new Oriflow shock absorbers working with other engineering features.

NEW ELECTRIC WINDSHIELD WIPERS, unlike vacuum wipers, clean at a fast, constant speed, even

when the engine is under a heavy load. They're standard equipment and with them you're not required to buy a vacuum booster. You enjoy better vision all around, with narrower front corner posts and a 15% larger rear window.

NEW BUMPERS, GRILLE, HOOD. The lowsweeping new hood permits a better view of the road close to the car. Individual grille units are replaceable, so you don't need a whole new grille if only one part is damaged. Also, all four fenders are bolted on; they cost less to repair or replace than fenders which are parts of the body.

NEW INSTRUMENT PANEL AND HAND BRAKE. The new vertical-grain dash harmonizes with a variety of rich interior fabrics and trim. The new "T-handle" hand brake pulls easily, sets positively, and releases at a turn of the handle. The ignition key does three things at once; turns on the ignition, starts the engine, and puts the automatic choke in operation!

NEW ENGINE FEATURES. A new radiator pressure cap increases cooling capacity when you need it most and also helps keep the water or anti-freeze from boiling away. A new by-pass cooling system, standard on all models, gives fast warm-up and yet circulates the coolant so that the engine is fully protected under all starting and driving conditions.

AND MORE GOOD NEWS-AT YOUR PLYMOUTH DEALER'S

This doesn't even begin to tell you the Plymouth Value Story. Your Plymouth dealer wants to tell you more, and he'd like to demonstrate the sensation new "Safety-Flow Ride." So why not stop in, or phone him, today or tomorrow?
