HOSPITAL GETS MORE BUILDING FACILITIES

The management of the Plains Memorial Hospital was notified Wednesday by the War Assets Administration that their bid, for a additional hospital building at the Hereford Prisoner of War Camp, had received final approval of the Washington office. The recently acquired building will add an additional 26x84 feet of floor space to the plant and should be sufficient to meet immediate needs of the organization. Re-roofing of the present build-

ing is under way and plans are being made for the moving of the new building. As soon as the architects plans are ready work on the interior arrangements of the structure will get under way.

SHRINRRS INCREASE AID TO AMERICA'S CRIPPLED CHILDREN

The Shriners of North America are very active in their work with crippled children, said Mr. Edgar Ramey. More and more cases regardless of race, creed, or color are being treated. While the Shriners of North America are financing this most worthwhile humane activity, they feel that others may want a part; and it is now possible for anyone outside of the organization to buy a Voluntary Contributing Life Membership in the Shriners Hospitals for Crippled Children. A beautiful certificate is issued to everyone purchasing one of these membershps, said Mr. Ramey.

to every citizen of Texas to give serious thought to the preservation of his own health and that of his community.

"We have much to be thankful Carol Ziegler and Mary Dalmont for in that our national health level has remained high despite the nervous tension,, the sacrifices, the deprivations of a post-war pericd," stated Dr. Cox. "Ohr people have maintained a remarkably high

health level and even under existing conditions, Texas has shown a continued decline in maternal and infant deaths.

"The people of Texas have reason to be thankful for the steadily increasing interest and cooperation being shown in matters pertaining to general sanitation and control of communicable diseases," Dr. Cox asserted. "Responsibility for advancement of the public health program lies not with the State Health Department primarily but with the people who support and encourage the local community efforts exerted and who apply in their own_ individual lives the health rules with which they have become acquainted through public

OIL-PLATES Your Engine!

CTUALLY a soap bubble is an ex-A tremely sheer net of molecules (held together by a strange attractive force) enclosing a sphere of air. And by pioneering in fields of molecular forces, Conoco scientists bring out new and better oils.

For instance, by molecular attraction, a special ingredient in Conoco Nth motor oil is bonded to working surfaces of your engine. Unlike the soap bubble which vanishes when pricked, Conoco Nth oil's ingredient holds on-is OIL-PLATED to cylinder walls and other parts.

OIL-PLATING stays up where it belongs . . . doesn't all drain down to the

crankcase, even overnight . . . gives you these benefits:

added protection when your engine starts up

added protection from corrosive action added protection from wear that leads to fouling sludge and carbon

added smooth, silent miles

That's vhy to OIL-PLATE now . . . at Your Co oco Mileage Merchant's. Look for the r. d triangle. Continental Oil Co.
