The Fellow Who Sees Flying Saucers-

may be somewhat like the one who buys real estate without an abstract—he sees and believes but he never knows! The land looks fine, so do the improvements, but how about the title? The title itself is invisible, but there is an easy way to find out about it. Land and it's possessions are one thing, titles thereto are quite another. Yes, brother, when you puy real estate without an abstract you may be seeing things and it could be flying saucers!
