Water Conservation Meet At Fort Hood to Be Held Thurs., Sept. 28

A preliminary meeting of Castro County farmers and business men was held in the county court room Wednesday night to plan a general educational meeting for all the farmers of the county later in the month. The date for the general meeting was set

for Thursday, September 28, at 8:00 p. m.

The meeting Wednesday night and the one called for September 28, are the result of a general meeting held at Plainview recently, when representatives from practically all of the counties September 9 after a prolonged in the High Plains irrigation area met with members of the State illness. Mr. Schulte was born

New Faculty Memebers Introduced At Supper

The new members of the Dimmitt School Faculty were entertained at a buffet supper in the home economics department at the high school Tuesday evening, September 12. The faculty members who were in the school sys-

em last year were the hosts. Centerpieces of beautiful dahlias decorated the long tables.

After the supper the new teachers and guests were introduced. The new teachers present were Mr. and Mrs. James Day, Mr. and Mrs. S. T. Newman, Mrs. J. J. Boling, Miss Leota Fay Agee, and Messers. Aubrey Lester and James Bates. Other guests were the wives and husbands of the faculty members.

Large Number Enrolling In String Inst. Classes

A considerable amount of interest is developing in the string classes being offered this year by the Dimmitt Schools. In fact, the interest is most gratifying because, already, ther are thirteen students enrolled. The students are studying violin, viola, cello, and string bass.

Those who have already enrolled in the string classes are: Cecil English, Wayne Smithson, Kenneth McDermitt, Donnie Brock, Pat Youts, Wanda Cook, Winston Howell, Leon Crum, Eudora Gibson, Lindon Wolfe and Ronald

Mr. and Mrs. Morris Kimbell of near Ardmore, Okla., were visiting the Kimbells and George Blantons last weekend.

A total of 25,212 more pupils were carried by school buses during the last scholastic year than during the 1948-49 term. The in- ≥ crease was partly due to the consolidation of more school districts and more districts qualifying for state aid, but most of it was caused by increased enrollment. Nearly 5 per cent more children were in the public schools last year than in 1948-49. Transportation increased on 6 per cent. The nearly 6,000 buses in use throughout the state are valued at \$17,-

Wholesale Displacement—

Elsewhere _

While the United States and other Christian nations have been doing all in their power to create places, and new lives, for the displacement persons of Europe recent news stories in the daily papers reveal that Russia and other Communist nations are doing exactly the opposite. Hundreds of thousands of peoples of the Communists nations in Europe are being deported from their native, or adopted homes for political reasons, and others. Not only are these victims of the Russian purge being deprived of their property and homes but they are innocently working a hardship, in some cases almost unbearable, on the democratic states called on to offer them a haven of refuge. Supposition is that the Communists nations are dumping the unfortunate minority groups onto the other European nations to impose a strain on their economy, and to furnish a cloak for the infiltration of Communists who will carry on subversive activities wherever the Kremlin directs. In this respect, as well as on the battlefields of Korea, the Communist ideology is proving that mortal human beings are of no consequence in their scheme of the procedure whereby property things other than to serve as chattle to further the designs of the Comentern.

Road Controversy—

During recent months conflicting ideas have been ad- authority of the statutes governvanced as to the proper location of roads in the county to be ing escheat, the State through paved under the State and National Farm to Market Road program. The Commissioners Court has listened to argument and property formally and legally esconsidered petitions pointing out the advantage of paving this tablished in the State of Texas. or that county road, and in the final analysis they must be the due notice must be given of the ones, as the elected representatives of the various precincts, to same. An heir who hears of the say where the pavement will be placed. It is no easy task to same, may then enter his claim make the decision as every claim presented has merits, but it Court. If the heir does not hear will be up to the Court to make the final decision and that de- of the property until after the cision should meet with the approval of everyone concerned. It escheated property has been sold is possible that the paved roads of the county are the result of the cooperative effort of the people of the county, acting which the property was sold. through their Commissioners Court, and any road improvement programs in the future will be the result of the same procedure. YOUR LOCAL ATTORNEY. All of the roads of the county can't be paved in one or two years but taking what pavement we can get and continually working for more, the county will eventually solve its major road improvement program. If the pavement is not placed just GI returning from overseas, who where you think it should be, just remember that there are any remarked as he passed the Statue number of roads in the county, being used daily, that haven't honey, I'm home." been earmarked for paving. Dissention and quibbling can hinder the progress of our county. Positive and unified action will hasten and further its development.

School Kids Take Over-

With the beginning of school lost week the kids of the minds are cleaner. Maybe so, but Dimmitt school district took over the streets of our town as their they oughta be, they change them own to cross or use as they please. On their way to school many of them are not in too good humor. They believe that the rest of the world has connived against them to place them in bondage for nine months to teach them things they are not interested in than woman's fondness for dry learning. While in that frame of mind they may become careless and forget to look up and down the street before crossing. And then in the afternoons when school is out and a brief respite from Shaykh Achmed Abdullah Nodir studying and learning about things is offered, they are apt to wrote under the pen name of be over eager to get to their favorit spot of recreation, or home Achmed Abdullah. for a bite to eat, or any of the other things that would cause a kid to fail to look in both directions before crossing a street. That's the situation in Dimmitt today and for the next nine someone says we're a sap if we months. It's up to the motorists to look out for their welfore and do. see that they come safely through the period and later have an opportunity to use the knowledge they have been forced to if drivers would keep their eyes secure against their will. The kids will forget some of the traffic on the car behind the car in rules and regulations as they use the streets during the coming months, and motorists will be forced to give up some of their rights if tragedies are to be avoided. Give the kids a break, drive carefully, drive slow, don't try to figure out what the young'un is going to do, he probably doesn't know himself.

Extremes—

The common belief that West Texas weather is a substance nowadays that it has only one of extremes has been born out in the past twelve months. Be- side. ginning last fall and continuing into the spring one of the longest drouths in the history of the state held the area in its grasp. In the nick of time the rains came for the summer planting of row crops. Since the beginning of the wet cycle another extreme has been chalked up. Lack of moisture resulted in a wheat crop fall. failure and in the same year the area's row crops are being threatened by too much rain. The moisture being stored in the soil, however, brightens the outlook for the production of bump- They miss a lot of small talk. er crops next year, while drouths have never served any useful purpose.

Enlarging-

With the romoval of the M System Grocery to its new location in the Ramey building where all new equipment and fixtures have been added, along with enlarged stocks and the Piggly the hour.

Wiggly franchise all of the major Dimmitt grocery stores have Mr. and Mrs. W. C. Crick were moved into the Super grocery and market field. Dimmitt now Mr. and Mrs. R. E. Hughes from has some of the most modern and largest grocery stores in the Panhandle.

THE CASTRO COUNTY NEWS, DIMMITT, TEXAS THURSDAY, SEPTEMBER 14, 1950

Progress Day—

According to an announcement by John McFarlan I the Chamber of Commerce is considering the observance of a Progress Day for Dimmitt sometime during the fall months. The idea is a good one and if properly executed will be of great help to our town and area in pointing out the phenomenal development which has taken place in recent years. Then, too, while we are reviewing the many improvements that have taken place we will probably become conscious of other improvements that have been neglected and will bend our efforts to further developments. We believe the idea is a good one and that it merits consideration.

A Clean City—

Dimmitt is fast becoming one of the cleanest cities in the state. The recent employment of a full-time clean up crew by the city is paying off in dividends of cleanliness and a more beautiful and healthful city. For the clean up crews to render the maximum service the cooperation of the residents of the city will be needed. By placing trash and rubbish where they can find it you will not only be helping in the clean up efforts but will probably be assisting in preventing epidemics of sickness that might possibly sweep our community.

Sports Affeld Weds New Mexico Abilene Man Named Texas State Chairman For March of Dimes

The modern deep freeze is a hints: large game should be

pare fish and game properly and heart and kidney for three to six Rev. T. E. Avaritt. are disappointed to bite into un- months. Lean fish can be stored tasty meat. So here are some for six to eight months, the most list from Booneville, Arkansas, suggestions for freezing.

Immediately after your game four months. is bagged, bleed it, then dress it as soon as possible. Big game that your meat will be only as timate friends of the couple. should be aged to make it ten- good as the condition it is in when der; keep it for 8 to 10 days at you freeze it. a few degrees above freezing. Game birds should be cleaned and plucked—the wax method is best. Wash all meat thoroughly Tri-State Fair in cold running water. In the case of fish, keep them in water Opens Monday as long as possible before you clean and freeze them, Try to freeze fish the same day they're With Parade

You can use cellophane, plastic bags or aluminum foil for packaging; a stockinette over this keeps the package in better shape. Label with the kind of meat, date of catch, hunting license number and the freezing date. When first put in the freezer, leave some air space between

Game fish, birds and meat are thawed and cooked the same as domestic varieties. However, game should not be held, after thawing, for any great lenght of time before cooking.

It takes about two hours per pound to thaw meat at room temperature. If you're in a bigger hurry, it takes 45 miuntes per pound in front of an electric fan. If placed in a warm oven, at 200 to 250 degrees, it take only 25 minutes per pound. Uncooked meats should never be refrozen. Cooked meats can be refrozen for two to four weeks. Be sure and keep the meat in its unopened package while thawing so it will not be exposed to air and possibly become tainted.

Cook and season thawed game and fish the same way you would Panhandle. fresh foods.

Now here are a few additional

School, Your Paper, and Football

School is officially on its way with the senior thinking reminis- his favorite being chocolate pie. cently of starting the "end of the beginning," the juniors getting Grouchy people are not in his ready for another grinding school year, the sophomores getting to start school without free haircuts and initiations. But such is not the plight of the poor freshmen. We never saw so little hair on so school. For the past two summers many different shapes of heads. The clipping probably will be an of- he worked with the "Palo Duro ficial tradition from now on. Mothers, don't worry. It will go into Players", which for your inforyour son's memory later as a pleasant and harmless initiation. Besides mation is a summer theatre. A that, it's cool. It certainly beats peanut-pushing, belt-lines, graveyard few of the plays he appeared in

walks, and other such crude forms of hazing.

This is the first edition of the 1950-51 Bobcat Tales. It is going Wait", and his most enjoyable to follow quite a different pattern this year than in former years. We may make a few stabs at some Interscholastic League school paper prizes and some good sound journalistic patterns, but most of all we want to give you a paper you will want to and like to read. We will try to follow the same form, or pattern, every week. We want to give you a paper you will be proud of. Only in our Editor- attitudes. I know we are all hapials will we ever take sides on anything. Our stories will show no py to have Mr. Bates in Dimmitt, partiality or "editorializing." If you will notice, we have and will and appreciate his interest in us. have from now on, a feature story by some Bobcat Tales Staff Writer directly beneath the Editorials. If you, the reader, want to, you can also get a feature story in as long as it contains no harsh views or Question of the Wee anything of the sort. We will also take theme if any teacher wants an exceptional theme published.

There's not much need to tell you we won our 1950 season foot- and played basketball. ball opener against Silverton with a score of 33-0. But you don't know how different the story could have been. Had the other team run a more orthodox defense against us, they might have changed the picture. Had we not had so many good breaks we might have had a hard time. But we won, and that's what counted. There is a history behind the last touchdown, which Jack Dyer tallied. Jack, although he had run about 50 yeards for the first score and 40 his second, didn't want to be the "star" of the night, so when we got into scoring position for the last time, he kept running Weldon Warren, who also played a bang-up game and who had accounted for two touchdowns himself. Weldon knew what Jack's idea was, so when we went to ball, enjoyed myself. huddle the next time, Weldon took matters into his own hands, called a play on which Jack carried the ball, pushed a couple of players ahead of him from the huddle, and before Jack knew what Baptist church at Electra, Texas, the idea was, he had run nine yards for our last touchdown. That's and had 10 soft ball teams, and what keep a team's morale up-things like that by boys who don't loafed. think "I" but who think "we".

We meet Sundown on their field Friday night. They don't know what we have, and we don't know what they have, but we aren't going down there to lose.

Dr. Cox Identifies Symptoms Of Rheumatic Fever AUSTIN, TEXAS, September

14. While the specific cause of rheumatic fever has not been discovered, several factors associated with it and its onset and recurrence are now generally recognized, said Dr. Geo. W. Cox, State Health Officer.

Rheumatic fever is serious because it may affect the heart. Age is important. Rheumatic fever usually begins in childhood at about 5 or 6, although adults may have it. There is a susceptibility to the disease which causes rheumatic fever to be more common in some families than in others. The other factors which may favor its onset, combined with an individuals susceptibility, are frequent chilling, damp or over crowded living quarters and a poor diet.

The early signs and symptons may be slight. Some of them, which may occur singly or in combination are: failure to gain weight, poor appetite, pallor, repeated nosebleeds, low persistant fever, and frequent complaints of pain in the arms, legs or abdomen. These symptons do not necessarily mean that a child has rheumatic fever, but they do indicate that he is below par and should be examined by a physi-

cian and his advice followed. The more characteristic signs include painful, inflamed joints. The child may be irritable without good reason, cry easily, or develop other nervous habits.

It is vitally important to spare the heart unnecessary work for as long as the disease is active and for a period of convalescence afterwards. A child with rheumatic fever should remain in bed until, in the physician's opinion, it is safe for him to get up.

Lifting the burden of fear

Is there a way to be free from fear - for oneself, one's health and welfare, and concerning those one loves?

A mighty and increasing multitude can answer "We have found the way!" Men and women in all walks of life, in heartfelt thankfulness testify that Christian Science is showing them how to replace fear with confidence and assurance unshakable.

Through the thoughtful study of "Science and Health " with Key to the Scriptures" by Mary Baker Eddy they are proving step by step, in a plain and practical way, what real understanding of God does for man. This great book may be read or obtained at all Christian Science Reading Rooms. The coupon is also for your use.

CHRISTIAN SCIENCE READING ROOM 9th and Austin Street Plainview, Texas

3:00 to 5:00 Tues. and Fri. Tenclosed is \$3 for a copy of "Science and Health with Key to the

Scriptures" by Mary Baker Eddy.
