

Despite zooming general living expenses, the cost of liquefied petroleum gas has remained relatively stable, "spot survey" by LP-Gas Information Service, Chicago, among nation's dealers reveals. In contrast to an average rise of 63% in all items contained in U.S. Bureau of Labor Statistics cost of living index, LP-Gas rates increased only 7% in ten-year period ending April 15, 1952. Also known as butane, propane, bottled and tank gas, the fuel is used principally in farm, small town and suburban areas.

Here's One Bright Ray in Living Cost Spiral—LP-Gas Prices up Only 7%

CHICAGO—In the face of skyrocketing living expenses in practically all major categories, the cost of liquefied petroleum gas, used principally in rural, small town and suburban areas, has advanced only 7% since 1942. This was revealed by the LP-Gas Information Service, Chicago, following a nation-wide "spot survey" among leading marketers of the fuel.

In the same ten-year period (April 15, 1942, to April 15, 1952), the average of all items included in the cost of living index released by the U. S. Bureau of Labor Statistics climbed 63%. Food prices registered the sharpest gain with a 92.3% rise. Other increases were as follows: house furnishings—49%; apparel—60.2%; miscellaneous—54.6%; fuel, electricity and refrigeration—39.3%, and rent—28.6%.

Industry leaders attribute the stability of LP-Gas rates in contrast to the general rise in living costs to several factors. Among these are: (1) The tremendous growth in public acceptance and use of the fuel with resulting distribution economies; (2) the sharp increase in number of LP-Gas bulk plants throughout the country and consequent reduction in the area served by each; (3) the "incentive" rates offered to customers by most dealers to stimulate the use of new appliances, and (4) various technical and service advances contributing to greater efficiency and economy. Currently rated by many authorities as the nation's fastest growing industry next to tele-

vision, the LP-Gas business has registered its greatest advance since World War II. Total gas marketed has nearly quadrupled, spurring from 4,528,230,960 pounds in 1945 to an estimated 17,284,000,000 pounds last year. Approximately two-thirds of the 1951 output went for household and farm use. The balance was consumed for industrial, chemical and miscellaneous purposes.

Striking evidence of the industry's rapid growth was given in a recent consumer survey by the LP-Gas Information Service which revealed that two-thirds of the families who now have LP-Gas ranges have been cooking with the fuel less than eight years.

The range is the No. 1 appliance in the millions of homes all across the nation equipped for LP-Gas service. Other domestic uses of the fuel are water heating, refrigeration, clothes drying, incineration and air conditioning. There are also hundreds of agricultural, commercial, industrial and transportation applications.

LP-Gas, the lusty "baby" of the petroleum family, is also known as butane, propane, bottled and tank gas. It is extracted at natural gasoline plants and refineries, compressed into liquid form for ease and economy of transportation and shipped in pressure vessels by rail, highway and water. Sizeable quantities are also transmitted from producing centers by pipeline.

EAST MEETS WEST—Molder 1st Class Carter B. East admires Mae West in newly-colored "Mae West" life jacket. Miss West thought the jacket a "disgusting warble", but Navy claims the new color is "orange, just off red." The new color can be seen for 16 miles on a clear day and improves rescue operations. Jacket was tested at the Groton, Connecticut, submarine base as Miss West looked on. (NEA Telephoto)

HE HAS A "HOT FOOT" FOR IKE—There's a long, long trail winding between New York and Chicago, and Abraham Nathanson, of Brooklyn, N. Y., covered every mile of it on foot. It took the Eisenhower admiral 33 days to tramp the trail leading to the Republican National Convention.

ULTRA SECRET—The Navy's ultra-secret, highly refrigerated Douglas Skyrocket was reported to have flown 1300 miles an hour, twice the speed of sound, near the Moffett Field, Calif., Naval Air Station. (NEA Telephoto).

WATER-BORNE RAILROADER—Hubert Woods, of Fenton, Ill., a railroad worker, paddles his rubber raft into the Mississippi River, at Davenport, Iowa, en route to St. Louis. Woods had launched the craft, made of inner tubes, at Fenton, on Rock River.

575,000 4-H'ers Get Training to Cut Farm Accident Toll

Farm safety surveys made by 4-H'ers show that matches within reach of small children and stairways littered with toys and other articles were much in evidence as fire and accident hazards in rural homes.

Chicago—(Special)—More than 575,000 4-H Club boys and girls throughout the nation are receiving training in farm accident and fire prevention this year. The outstanding feature of this training in the National 4-H Farm and Home Safety program is to check and remove from farms and homes any conditions likely to cause fire, accidents or injuries. These 4-H surveys are acclaimed a valuable contribution to the nation-wide campaign to reduce the annual toll of 15,000 farm people dying and 1,300,000 being injured as a result of rural accidents each year.

Here is a report, made by a 4-H girl on behalf of her local club, after making a safety survey of every home in the community:

"In all homes having stairways that we visited, the stairs were full of toys, jars, tools and other articles," she stated. "In many homes people used kerosene to build fires. They also had oily cloths and papers stored close to the stove and flue. Matches and unlabeled bottles of poisonous liquids were within reach of small children.

"On several farms visited, boards with rusty nails pointing upward were much in evidence. In our local schoolhouse, the ceiling plaster in the classroom was loose. If it fell it would cause severe injuries to the pupils.

"After we had made our survey, we called a community meeting. Attention was called to the hazards we had found. Immediately following the meeting everyone present began work necessary to make our community a safe one. Every hazard we had found was corrected."

Medals of honor are presented to five county winners having the best 4-H records in safety work, and a trip to the National 4-H Club Congress in Chicago is awarded to the State champion. Eight of the latter will be selected as national winners, who will each receive a \$300 college scholarship. Awards are provided by General Motors for the eighth consecutive year. The program is conducted under the direction of the Cooperative Extension Service.

FIRST SINCE CZARS—Jim Fuchs, American shot put champion, shows his injured hand to Nina Dumbadze, Russia's discus champion, during a visit to the Otaniemi Camp in Helsinki. For first time since the days of the Czars, Russia will enter the Olympic games scheduled to begin July 19. (NEA Telephoto).

THEY'LL HEAR THAT GAVEL—Walter Fuchs is making sure that delegates to the Republican National Convention in Chicago will hear the chairman's gavel over all the fuss and furor on the floor. He's installing the 10-foot oak sounding post which will touch the floor of the convention hall and carry those rappings for order to all present.

OPPORTUNITY

To parents who wonder . . .

Are you wondering what your high school son is to become?

Is he headed for the overcrowded profession?

If these questions bother you, consider this:

PRINTING, one of the world's oldest crafts and one of the greatest industries, needs trained men.

Your boy doubtless can be trained for this interesting and profitable calling. It offers the greatest opportunity of any industry, the highest pay, and a wonderful opportunity for advancement to executive positions.

Write for information.

SOCIETY

Royal Neighbors Given Coffee

The Carnation Camp 9959 members of the Royal Neighbors of America were invited to a coffee and kitchen shower in the home of Mrs. Leona Arterburn, Wednesday, July 16.

All attending brought something useful for the kitchen of the lodge hall. A donation of \$2.00 was given for the cafeteria at Hodges Oak Park School.

Rebekahs Have Business Meet

Members of the Ranger Rebekah Lodge No. 224 met at the Odd Fellows Hall, Tuesday evening for a business meeting, which was presided over by the Noble Grand, Sammie Flowers.

Several members were reported sick. Mrs. Tillie Hicks was initiated as a new member.

Plans were made to entertain the District Supervisor, Mrs. Kathleen Hinds of Baird, next Tuesday evening. Mrs. Alberta Miller was installed color bearer.

Talks were made by several members. The penny prize, furnished by Mrs. Lucy Kendrick was won by Mae Hunt.

Refreshments were served on the dining table after the meeting closed, to the twenty-five members present.

PERSONALS

Mrs. W. H. Gay, Jr., and son Bill have returned to their home in Kermit, after being rodeo guests of her parents, Mr. and Mrs. R. W. Gordon. While here they also visited Mr. and Mrs. W. H. Gay, Sr.

Visiting over the week-end in the home of Mr. and Mrs. L. H. Taylor, were Mr. Taylor's two brothers, Mr. and Mrs. M. L. Taylor of Waco, and Mr. Lamar Taylor of Houston.

Winifred Hatton and Ralph Gay, students at the University of Texas, are expected home this week-end to visit their parents and attend the rodeo.

Mrs. Norman Dennis and daughter, Joan, are visiting Norman's and her parents, Mr. and Mrs. Joe Dennis, Ranger and Mr. and Mrs. F. Jones of Strawn.

Sgt. Bobby G. Jones, son of Mr. and Mrs. C. F. Jones of Strawn reports for Fort Sill, Oklahoma tomorrow. He has been on a month's furlough, after being in Korea for the past thirteen months.

Visiting with Mrs. Jasper Massee this week are Mrs. Massee's sister and husband, Mr. and Mrs. W. G. Hanson of Artesia, New Mexico. Mrs. Massee's brother and family, Mr. and Mrs. Bud Lindsey, Milton and Betty Lou from Loco Hills, New Mexico, have been with Mrs. Massee, and Charles has accompanied them to Lake Texoma on a fishing trip.

F. S. Pearsall has just returned from Houston, where she is visiting her son and daughter and Mrs. J. F. Pearsall and her son, David.

It is something wonderful, restoring air to the bronchial tubes, clearing the lungs without trying MENDIACO, which draws the blood to reach bronchial tubes and lungs. Usually helps nature quickly bring and aids free breathing and better sleep. Get MENDIACO from drug store. Satisfaction or money back guaranteed.

NATIONAL POLITICS STEAL SHOW FROM STATE STUMPERS

By United Press National political maneuvers recaptured the spotlight from Texas office seekers Friday.

Rival "Loyalist" and "regular" Texas delegations to the Democratic national convention appealed to a credentials subcommittee for formal recognition at next week's convention. It set off the second Texas delegate fight in three weeks.

Gov. Allan Shivers, seeking reelection in the July 26 first Democratic primary, was at Chicago to lead the unattracted "Regular" delegation in its fight for recognition and the right to cast Texas' 32 Democratic presidential nominating votes.

Speaker of the House Sam Rayburn, who has opposition this year after 40 years Congressional service, also was in Chicago, where the 70-year-old lawmaker from Bonham will be chairman of the Democratic convention.

Candidate Tour State Stay-at-home candidates in the coming primary continued swarming around the state, however, despite discouraging weather conditions.

And harmony began to look more like reality for Texas Republicans. The "new guard," swept into power with Gen. Dwight D. Eisenhower, yielded to pleas from the deposed Henry Zweifel forces to cooperate fully in making Monday's "harmony" meeting a success.

National committee Jack Porter of Houston agreed to interrupt his previously planned vacation to attend the session.

Candidates for the U. S. Senate, to succeed retiring Sen. Tom Connally, were most active of campaigners in the lukewarm primary final stretch.

Daniel Calls for Preparedness At Corpus Christi Thursday, Attorney General Price Daniel called for a preparedness program "free of both waste and politics."

Daniel campaigned Friday in Brownsville, Harlingen, Mercedes, Weslaco, Donna, Alamo, Pharr and McAllen.

E. W. Napier, Wichita Falls attorney also running for the Senate, struck out through Central Texas toward Houston. He spoke Friday at Hillsboro, Waxahatchie, Waco, Temple, Georgetown, Round Rock and Austin.

The third senatorial candidate, the Democratic Lindley Beckworth of Glasewater, was aided by both his father, O. J. Beckworth, and his wife in his continued statewide marathon speaking schedule.

Civil Rights Shapes Up As Chicago Issue

CHICAGO, July 18 (UP)—New Deal Democrats whooped up the civil rights fight Friday as the big issue on which they hope to grab control of next week's convention and write their own ticket for November.

The Dixie Democrats appeared to be in full retreat, putting out compromise feelers in an effort to avert an open break in the party. They refused to put any witnesses of their own before the Democratic platform-writing subcommittee, on the long chance that the fire might die out if they left it alone.

They withdrew—but silently—Thursday was a parade of spokesmen for labor, liberal and Negro organizations demanded the 1948 civil rights plank plus a new Democratic pledge to end the Senate filibusters that have blocked anti-discrimination laws in the past.

Work On Other Planks The platform writers laid aside the civil rights issue Friday to take testimony from a long list of witnesses on such varied subjects as women's rights, taxation, air transportation policy and farm programs.

The subcommittee plans to finish hearings Monday afternoon, and write a tentative platform for submission to the full, 108-member platform committee which may revise it at will. The finished product goes to the convention floor next Wednesday for approval by the delegates.

If it contains the civil rights plank the New Dealers want, the southerners may bolt, as they did in 1948 over the same issue.

Put Dixiecrats in Spot The New Dealers expected the subcommittee to come up with a compromise containing no compulsory Fair Employment Practices Commission FEPC and no ban on the filibuster. But they were confident the full committee would reverse that and predicted the convention itself would back them up.

"I think we're going to win the civil rights fight in the committee and the Dixiecrats will have to work from the convention floor," said Sen. Hubert H. Humphrey of Minnesota. "It will be 1948 upside down."

At the 1948 convention in Philadelphia, the Democratic platform committee rejected the New Dealer's civil rights proposal but Humphrey brought it to the floor as a minority report and won. That was when the southerners walked out.

Tire Maker Buys Crosley Co. CINCINNATI, Ohio, July 18.—Powell Crosley Jr. Sold the Crosley Motors, Inc., Thursday to General Tire & Rubber Co., Akron, Ohio, in a stock exchange deal because the small car firm lost too much money in recent years.

Crosley had become an industrial giant in control of several manufacturing companies and the Cincinnati Reds baseball team.

Police Foil Suicide WEST PALM BEACH, Fla., July 18 (UP)—Paul Wiecekover, a 47-year-old construction worker, didn't quiet get over the brink in his suicide attempt Thursday.

Police found him with one leg dangling over the sill of a 10th floor window of a downtown building. He was holding a package of sleeping pills in his hand.

Iran's Newest Premier Seeks Oil Settlement

TEHRAN, Iran, July 18 (UP)—Iran's new premier, Ahmed Qavam, announced Friday that he will settle the Anglo-Iranian oil dispute or resign.

Qavam said his ultra-nationalist predecessor, Mohammed Mossadegh, who resigned Wednesday night, had "sacrificed the ends for the means" in his attempt to vindicate Iran's "rights" in the oil controversy.

The new premier made known his resolve to reach a settlement with Britain in his first communication since accepting Shah Mohammed Reza Pahlavi's mandate Thursday to form a new government.

Mossadegh had provoked the dispute with Britain by seizing Iranian oil wells leased by the British-owned Anglo-Iranian Oil Co. only to find that none of the company's old customers would buy oil from him.

Cut off from his multi-million dollar oil revenues, Iran is near bankruptcy. Thousands of oil workers are idle, the huge Abadan refinery has closed and the government is hard put to find funds to

pay government employees and meet even day-to-day expenses. A London dispatch said British sources were hopeful that a compromise could be worked out with Qavam where efforts to reach a settlement with Mossadegh had failed.

Qavam, known as Iran's "strong man" because he steered the country safely through a series of post-war crises with Russia, was taking over as premier for a fifth time.

Iranian army Sherman tanks still patrolled Tehran streets Friday and troops and police were stationed strategically throughout the capital to put down any violent demonstrations by Mossadegh's rabid followers.

Marriage Ends Charge COLDWATER, Mich., July 18 (UP)—Justice of the Peace Irving L. Stasen wiped an assault and battery case off his books Friday. The complaining parties have gotten married.

Game Commission To Set Hunting Dates At Meeting

AUSTIN, July—The Texas Game & Fish Commission will meet in Austin Friday to determine some fall hunting dates NOT set by State law and to recommend seasons on waterfowl and doves which are set by Federal authorities.

The Executive Secretary of the Commission said the Commission will arrange 1952 seasons on deer, turkey and quail and some other species in the 28-county Panhandle area which, by request of North Texas sportsmen was placed under regulatory authority of the Commission.

The Commission also will fix hunting seasons in the nine-county area West of the Pecos, acting under regulatory authority given by the State Legislature. The regular seasons out there include deer, turkey and quail. The Commission will consider a limited season on antelope in the Big Bend country.

In recommending waterfowl and mourning dove seasons to the United States Fish & Wildlife Service, the Commission will study results of a state-wide sportsmen's poll in which approximately 11,000 Texans participated.

The bulk of North Texas hunters asked for a mourning dove season beginning September 1, the same as last year, and a waterfowl season beginning in early November. (Texas traditionally is zoned for mourning doves.)

South zone participants in the poll preferred a dove season beginning about mid-October instead of November 15 as was set last year. They also favored a mid-November opener for ducks and geese.

Hollywood Film Shop

By BEN COOK
HOLLYWOOD UP—It's a small world, all right.

Two of the latest persons to find out are Kathryn Grayson and Virginia Mayo, among the more beautiful members of the film colony.

They compared notes on the Warner Bros. studio lot, where both are working, and discovered they grew up only a few blocks from each other in the west end section of St. Louis.

"Both of us played in Forest Park when we were kids," Miss Grayson said.

"Just think, we probably used the same seater totter," Miss Mayo chimed in.

It was only after they became famous as movie stars that they discovered they both have fond memories of the big city on the Mississippi River. In fact, they had not even met until Kathryn showed up at Warners to star in the Technicolor musical, "The Desert Song."

Hit Them Young bright in both—eachRAICndfe—Virginia, at the same time, was just finishing her starring role in "The Iron Mistress" at the same studio, where she has been a star for several years.

It was while they still were youngsters in St. Louis that theatrical ambitions began to burn bright in both girls. Each found a sponsor to help nurture that ambition.

With Miss Grayson, it was Frances Marshall of the Chicago Civic Opera Company, who was visiting in St. Louis. She recognized in Kathryn's voice a promising musical talent and urged her to take vocal lessons.

With Virginia, it was her aunt, Mrs. Alice Jones Wientge, who operated the Wientge school of dramatic expression in that city. She gave Virginia a personal supervision which provided the young girl with a firm foundation for her acting career.

Stock Exchange Alters Hours NEW YORK, July 18—The New York stock exchange Thursday voted to go on a five day week and to lengthen the daily trading period by one-half hour starting Sept. 29.

Whitewing Again In Comeback Bid

AUSTIN, July.—The Assistant Director of Wildlife Restoration for the Texas Game & Fish Commission said reports from the Rio Grande Valley indicated a slight increase in white-winged doves nesting this summer.

He said estimates place the South Texas nesting population at approximately 200,000 birds this year. The 1951 summer census showed a nesting force of only slightly in excess of 100,000 whitewings.

The Assistant Director said the drop last year was "startling" since the 1950 population was placed at about 900,000. The 1950 harvest was estimated at 228,000 birds contrasted with only 58,000 last year.

The big reduction was attributed to a freeze that killed more than half of the Valley's citrus trees which had become the principal nesting area for the whitewings.

The citrus orchards still are far below the 1950 status but some of the whitewings are switching to remaining ebony trees in populated areas and other utilizing available citrus trees.

The Assistant Director who said the whitewings remain at "a dangerous population level," pointed out that the birds originally had nested in ebony thickets and had changed to citrus after the ebony growth had been leveled to make way for the orchards.

He added that Commission biologists who recently surveyed the whitewing population in Northwest Mexico found a "fair number of birds with a possible slight increase over last year."

The whitewing season, usually held on a week end in mid-September, is popular among Valley residents and also attracts hunters from many other states.

Explosion Kills Two Men Working Clearing Land

ACKERLY, Tex., July 18 (UP)—A tractor plowed over an exposed section of an abandoned pipe line supposedly containing only water, setting off an explosion and fire which burned to death two men and critically injured a third.

The resulting fire burned 12 hours after the explosion Thursday on a farm seven miles southwest of Ackerly, about 35 miles northwest of Big Spring.

The dead men were identified as Bill Oakes, driver of the tractor, and J. I. Brown, owner of the farm, who, with Holly Alejandro Canares, was picking up stumps already broken from the ground by the deep plow.

Canares was critically burned on about 20 per cent of his body.

Wind had blown off soil covering the slight rise in the pipeline. It had been used by Shell Oil Co. to transport butane gas, but was abandoned four months ago and supposedly was filled with water.

Will Eastland County Voters Forget THE WALKER DEAL?

THE DEAL WITH HORACE WALKER TO COLLECT EASTLAND COUNTY TAXES THE DEAL THAT SHOWED, ACCORDING TO THE STATE AUDITOR'S OFFICIAL AUDIT, THE STAGGERING SHORTAGE OF

\$101,900.00!

According to the Audit Still Remains Unpaid to Eastland County!

AS A PUBLIC OFFICIAL HE COULDN'T COLLECT— BUT AS ASSISTANT TO HORACE WALKER—!!

On Page 353, Volume 13, Commissioners Court Records of Eastland County there is filed a waiver by Earl Conner, Jr. then County Attorney, executed under date of June 19, 1945, in which Mr. Conner—now a candidate for District Judge—refused to file and prosecute suits against delinquent taxpayers in Eastland County because, as the waiver indicated, he couldn't make any money at it under the law fixing his official compensation. Under the law the County Attorney is charged with the prosecution of suits for collection of delinquent taxes.

But immediately after his term as County Attorney ended, Mr. Conner joined Horace Walker and assisted Walker for 3 or more years of tax prosecutions in Eastland County, helping file and prosecute suits against Eastland County property owners and to collect a sum of money of which more than \$101,000 due the County of Eastland was never paid to the County, as shown by the official audit.

So successful was Mr. Walker's delinquent tax program—so far as he was concerned—that Walker went into Limestone County, among others, where he made a similar tax collection deal.

Limestone County records disclose that, subsequently, Mr. Conner took tax deeds to 90 more or less tracts of Limestone County property, for which he paid as little as 34 cents per acre.

A list of titles in Limestone County transferred to Mr. Conner by tax deed, and certified to by the County Clerk of Limestone County appears on the right hand side of this page. Thus it appears that Mr. Conner not only received pay for his services as assistant to Mr. Walker in Eastland County, but he was also able, at small investment, to speculate for large profits in the results of the Walker prosecutions in Limestone County.

Mr. Conner is now a candidate for judge of the 91st District Court—the very court wherein, as assistant to Horace Walker, he helped to prosecute tax cases and collect the more than \$101,000.00 for which Walker and his bondsmen are being sued by Eastland County.

IT'S TIME TO REMEMBER

BEFORE YOU CAST YOUR VOTE FOR THE MAN WHO WILL SIT ON THE BENCH OF THE 91st DISTRICT COURT, WHOSE DUTY IT WILL BE TO PASS JUDGMENT IMPARTIALLY IN ISSUES INVOLVING PROPERTY AND PERSONS IN EASTLAND COUNTY AND ELSEWHERE—

LOOK AT THE RECORD!

The office of District Judge is the highest that Eastland County can grant to one of its citizens. The man who holds that office should be above reproach. He should be able to command the respect and confidence not only of the citizens of Eastland County but of the other courts of the State, and his past record should show a personal interest in the taxpayers whose vote he solicits.

It is important, therefore, that you consider very carefully the man you vote for as District Judge.

EVERY STATEMENT MADE IN THIS ADVERTISEMENT CAN BE PROVED BY COUNTY RECORDS!!

"Hot flashes" of Change of Life stopped or strikingly relieved

In 63-80% of the cases in doctors' tests!

Those suffocating "heat waves"—alternating with nervous, clammy feelings—and accompanied often by restless irritability and nervousness—are well-known to women suffering the functionally-caused distress of middle-life "change"! You want relief from such suffering. And—chances are—you'll get it. Thrilling relief! This is to two famous Lydia Pinkham medicines!

How Lydia Pinkham's works It acts through a woman's sympathetic nervous system to give relief from the "hot flashes" and other functionally-caused distresses of "change of life."

Thousands Have Benefited Amazing, you say? Not to the many thousands of women who know from experience what these Lydia Pinkham medicines can do!

Try Lydia Pinkham's on the basis of medical evidence! See if you, too, don't gain blessed relief from those terrible "hot

flashes" and weakness so common in "change of life."

Don't put it off! Get Lydia Pinkham's Vegetable Compound or new, improved Tablets with added iron (trial size only 59¢).

Wonderful—too—for the functional pains, cramps, "dragged-out" feelings and other discomfort of monthly menstrual periods!

YOUR GRAIN can grow BIG Early-Laying PULLETS

Straight grain doesn't grow big pullets that lay early. But it takes just a little Purina Chowder — per pullet — to turn your grain into a balanced growing ration.

LET US MIX YOU A GROWING RATION WITH PURINA CHOWDER

We use Purina Approved Formulas. We can grind your grain and balance it with Chowder to grow big pullets — FAST.

(Continued From Page 1)

quiring constant hydraulic pressure, such as a manure loader, the "live" power feature will save the operator up to 40 per cent of the time and effort formerly required in clutching and shifting gears. The new tractors have a higher speed hydraulic pump which increases the lifting capacities of the hydraulic system as much as 114 per cent over the older models.

New Quick-Change Wheel Tread

Rear Wheel-Tread adjustments are much easier to make in these new models. To adjust the rear tread, the operator jacks up one wheel at a time loosens three clamp screws, tightens two jack screws, and turns an adjusting nut to get the tread desired. Owen continued that when the desired tread is obtained, the jack screws are backed off and the three clamp screws tightened, locking the wheel in position. Both wheel hub and wheel clamp are tapered to assure positive locking.

New Type Tractor

Easier Steering, Improved Appearance

New Steering Ease has been provided through use of a highly finished full gear and worm gear which reduce friction. Increased gear ratio, one-joint construction, and a ball-thrust-bearing at the base of the pedestal also add to easier steering. A new front grille adds to the trim appearance of the new tractors. This grille is of fine mesh material which reduces clogging of the radiator core to a minimum. A longer hood permits use of larger fuel tanks, and the re-grouping of gear shift quadrant, steering shaft support and instru-

ment panel housing improve accessibility, ease of service and appearance.

The air intake is concealed under the hood and the exhaust muffler is offset to give the operator centerline visibility. Both models also are available with a special rear exhaust muffler to provide greater clearance where desired.

Other Features

The "50" and "60" Tractors offer all of the basic features of John Deere two-cylinder design and can be furnished with either gasoline or all-fuel engines. Models with gasoline engines have a hot and cold manifold adjustment that is designed to improve engine efficiency in varying temperatures.

M. Owen said the new tractors are available with five interchangeable front-end assemblies that increase adaptability to all crop and field conditions. The five front-end assemblies are: single front wheel, dual front wheels, Roll-O-Matic front wheels, 38-inch fixed-tread front end, and adjustable front axle. The Model "60" will also be available as a Hi-Crop model with more than 32 inches clearance at every point under both front and rear axles.

Both models have six forward speeds, 12-volt electrical systems, fully-adjustable, deep-cushion seat, individual foot-operated differential breaks, improved cooling system with water pump and thermostatically controlled radiator shutter, aluminum-alloy main bearings, replaceable connecting rod bearings, heavier, cast front-end support, larger-diameter rear axles and improved crankcase ventilation system.

The new Model "60" will be on display at Owen Implement Co. until July 19. They cordially invite every one to stop in at this store and see this new tractor.

IKE—

(Continued From Page 1)

Nielsen confided to reporters that he was interested in what the Democrats would do at their convention, even if his guest had not shown any particular interest. He said that in the next two or three days he would install a radio in the log cabin where he and Eisenhower are staying.

"After all, we want to know who the opposition will be," Nielsen said.

Like An Expert

Eisenhower had little more than arrived at the Nielsen ranch yesterday before he was getting into his hip boots and fixing up his fly rod. He waded into St. Louis creek determined to show newsmen and photographers how an expert goes about landing a trout.

But it wasn't his lucky day. After almost two hours of casting his fly line up and down the creek he finally pulled out a small rainbow trout, one that couldn't have been more than seven inches long.

He good-naturedly posed for photographers with his tiny catch, although he obviously would have preferred to wait for a better day.

Eisenhower said he was going to start his vacation by "sleeping about 48 hours." He hasn't had much time to himself since he returned from Europe in early June to start his campaign for the Republican presidential nomination.

When a newsmen said he hoped Eisenhower would have a good rest, the general smilingly replied: "I'm going to do nothing in a great big way. After all the fish can't misquote you."

CALL 224 FOR CLASSIFIED AD SERVICE

Judge A. R. Stout Of Waxahachie Solicits Votes

District Judge A. R. Stout of Waxahachie, one of four candidates for Associate Justice, Place No. 1, of the Supreme Court of Texas, in a formal announcement of his candidacy, lays stress upon his thirty years of preparation for this high office.

"In asking the citizens of Texas to vote for me for Associate Justice of the Supreme Court of Texas, I feel that the judiciary of our country, if our government is to long endure, cannot be awarded on any basis other than that of merit and qualifications; and it is upon this basis and in all humility that I earnestly seek this high office.

"Since graduation from The Law School of The University of Texas in 1923, the law has been my entire career as a practitioner, as a judge and, constantly, as a student. I have served as city attorney of Ellis, as County Judge of Ellis County, as a member of the Legislature, as an Assistant Attorney General and now in my 15th year as District Judge of Ellis County.

Three Known Dead In Jap Earthquake

OSAKE, Japan, July 18 (UP)—Three persons were killed and at least 82 were injured early Friday in a strong earthquake that rocked the city of Osaka and a 650-mile-area of central Japan.

Seismologists rated the strength of the quake as four on a scale of seven. They said the toll was relatively small because its epicenter was unusually deep-seated—about 25 miles below the earth's surface under the mountains of nara prefecture.

Police said 54 houses and buildings were seriously damaged or demolished. Rescue work and the task of cleaning up the debris were hampered by strong rains that did not let up until daybreak.

When the shock came at 1:10 a. m. (10:10 p. m. CST, Thursday) terrified residents sprang out of bed, but found they could not stand because of the swaying. Crawling on the floor they sought shelter under desks and in closets until the rocking stopped.

round. Fires broke out in scattered parts of the city but firemen, aided by the rains, soon put them out.

In Nara, one man died of shock and a second died in jumping from his second-story bedroom window. In Hyogo prefecture, a man was electrocuted touching a downed power line.
