From the above it is clear that any book containing more than he Bible contains too much, therefore dangerous. Any book con taining less than the Bible contains too little, therefore dangerou Hence, no sense can be made in religion until all DISCIPLINES BOOKS OF PRAYER, MANUALS, CONFESSIONS OF FAITH CATECHISMS, etc., are completely abandoned. All these progate division. Never can they serve to bring the religious world to gether. They picture religious conflict. Conflict breeds nothing bu conflict that reaches the very core of religious morals. It is the degeneration of religious morals that has caused diminshed confidence religion. It then loses its power for good.

Because the Bible is an all-sufficient book in any age, (when udied), because it condemns the use of more or less than it ow ntent in religion, the church of Christ will speak only where speaks and remain silent where the Bible is silent. The church of hrist calls Bible things by Bible names, does Bible things in Bible rays. It will do no more, no less. Can there be a better way?
