Guess the firemen and other city employees got through their annual barbecue without being called out for a fire last night. And a good one it was according

to all reports we can get.

How they earn the money for the barbecue speaks well for the organization. They work at any and everything from parking cars at the rodeo to putting up flags and decorations for anything nearly that they can get to fill the treasury.

BUICK'S POWER STEERING? It's the big NEWS of the year

THERE is a host of things that endear a ROADMASTER to anyone who loves to

There's the might of its Fireball 8 Engine most powerful ever put in a Buick.

There's the thrift of its Airpower carburctor -a four-barrel automatic that literally brings increased power right out of thin air. There's its hushed and luxurious silence - its

poised and level ride that cost a million dollars to develop-and the infinite smoothness of its Dynaflow Drive. But the thing that has brought the most cheers

sion of Power Steering.* Gone is the tug of turning, parking, maneuver-

for this big and obedient beauty is Buick's ver-

ing in small space. Power Steering takes over the effort of turning the front wheels-makes it a one-hand operation.

Do you have to learn to drive all over again if you have this new Buick feature?

You definitely do not. On the open road, you have that same sure sense of command that you've always had. Coming out of a curve, you can loosen your grip, and the front wheels right themselves just as they do on every Buick.

But you'll notice this: When you suddenly hit loose dirt or sand-or a stretch of rough road-Power Steering smoothly goes into action helps take up the jerk - makes control of the wheel easier and driving safer.

Wouldn't you like to try out this newest wonder -on a ROADMASTER or a SUPER? You say the word, and we'll do the rest.

Equipment, accessories, trim and models are subject to change without notice. *Optional at extra cost on Roadmaster and Super only.
