# Cost Of Living Reaches All Time High

this Myh-hitter job. We are getting all the good water we want DENVER, while visiting over here, and as Long as Joe's credit is not over-ion of the East, heard the first strained we are going to get all the hamburgers we want. One publicans on his latest statement thing about it, there are more than one Cafe here, and the two we have been patronizing, seem to be in a good humor, and smile evertime we walk in.

Some fellow mentioned th word "glutton" the other day and we have been wondering if he had us in mind while talking. If it doesn't rain pretty soon there won't be anything here that would tempt us to eat.

the future. Should Joe run out on us some day, we might get mighty do things we should do to wir hungry before we got back to the war.' our wife's red beans. That's why we paid the Commercial State harsh criticism would come from some Republicans but at least ing. Just wanted to see what they looked like, examine their blood ed to Eisenhower's support.

Sen. James H. Duff of Pennsy pressure, watch their reactions to other prospective "loan customers," and do a little private calculating for ourself.

We fell right into the arms of W. F. Creager, and he gave us a very all welcome. (Our shirt was aloan eker.") Don't know whether we fooled him or not-can't tell, but we will have to be pretty hungry before we go to him for a loan. He was very courteous, and a nice gentleman, but intuition tells us that we would come nearer buying Saving Bonds from the postoffice on the credit, than we way at Kermit, August, 19, were would "floating" a loan from the bank. We shan't try either, as it cemetery in Ranger, at 2 p.m. Fri-

We'll just go over to Eastland and let Guy Parker do the job. We in the area, having lived here and have heard him say "no" so many times that it no longer embarasses

While dragging about over town today, we noticed a lot of cars that will be on "cold storage" with ters. Mrs. Irene Wagner of Wood Kansas top temperature was 80 in the next few days unless their owners manage for a little "Yellow Sticker." The State Highway Department will begin enforcing the law after September, 6th.

This may not be as bad as i seems, for we twisted our old wreck around, kicked it a couple of times and it passed the "official test" with flying colors. At least it is worth a trial even if it is turned down. All they will tell you is that this is not the day of wood burners, and that if you will equip it with spark plugs and go to burning gas, it will be alright. Of course some of these old "mechanical cookroaches" may fail the test from now on. In that case the courteous examining official will tell you that you are going to have to jack up the radial? cap and run a new car under i

before you get a sticker.

But until this heat wave has passed we prefer riding to walking, even if it is only a wheelbarrow we ride.

We are just suffering to work off a little of our private brand of politics on Times readers, but we must get just a little better acquained before we begin. We must know whether all the Democrats over here are going to vote for Ike, or whether they are going to follow the old ticket even though it leads them to purgatory. Person ally, are not going to appeare Har by longer, even if it is through Stevenson, poor

Adlai would give half of his worldly possessions if Harry would just quit helping him. He doesn't erave his support.

We told you yesterday we would teil you today why Ranger doesn't have a population of 100,-000. As much as we regret it, are going to tell you the truthwe just don't know. And Ranger has water, too, which is more than most towns can boast.

We were 61 years old yesterday, and this is the first time we have
