

# RANGER DAILY TIMES

West Texas—Partly cloudy through Friday. Widely scattered afternoon thundershowers in the Del Rio-Eagle Pass area Thursday. No important temperature changes.

34TH YEAR

RANGER, TEXAS, THURSDAY, SEPTEMBER 18, 1952

PRICE FIVE CENTS No. 78

## SEEN OR HEARD

The world is a heck of a place at four o'clock in the morning. We were out at that time groping around through the physical and mental fog on our way to the police station to see their latest boarders, which included two drunks as well as the three held in the stolen car.

From the looks of things and the gum and cigarettes they had they were sure going to indulge in a lot of 'chewin' and smokin', what the work gloves were for we never could decide.

We learned that it doesn't pay to look sneaky in the least around town at night, for if you do the police will be all over you like a wet blanket. They've sure been busy the past few nights on car thieves.

We think Ralph Veal can smell a stolen car when it reaches the city limits the way he and his fellow officers are tracking them down.

Last night's rain may slow down football a little on the local field at the RJC-Midwestern game. A fog that came after the rain if recurring would hamper driving and make the weather cooler and slightly damp.

Cooler weather will put more life into the players than you would have seen had the weather remained warmer.

Wayne White, from down close to Staff says it rained 2.50 inches in his neck of the woods yesterday. We don't know whether that's Chamber of Commerce measurement or the real thing.

But he did say his tank on the place was about half full of water from the overflow. If a lot of tanks caught water we know some tired backs that'll get rest now.

They're still taking pledges for blood from the ones who want to do their bit for the armed forces. In fifteen minutes you can do wonders.

If you'll be careful and not enter a truck meet for a day or two you'll never tell your lost the pint, but some guy will sure be able to tell that he gained one in a time of need.

Why not fill out the pledge card on this page and take or mail it to the Ranger Chamber of Commerce.

The way the city cops are operating now could be improved with the addition of the radios the commission was asked to buy by City Manager Crossley.

They spend enough in telephone calls inquiring on stolen property to pay for the radios in a short time.

Hagaman Lake caught two inches of water from the rains. We don't know how long that much would last, but at the rate it is going here, not long.

### 1.18 Inches Rain Falls In Ranger

The abnormal heat that has lingered on in the Southwest past its regular season fell in disgrace before a line squall moving across the state that brought rain to this section so badly needing water.

Ranger received 1.18 inches in two showers that fell Wednesday afternoon and evening. Oldie was seemingly in the center of the squall and received approximately 3.45 inches and four miles away Eastland only reported 1.50.

The short but hard downpour will probably do little to relieve the critical water shortages in lakes and tanks, if any at all. Eastland received little additional water in their fast dwindling water supply being doled out on an emergency basis. While the area immediately around Oldie may have been helped.

### Farmers Paying Off FHA Loans; Plan Big Asset

On October 9, 1952, at ceremonies to be held in the New Livestock Arena, State Fair grounds, Dallas, recognition will be given to the achievements of more than 300 Texas FHA farm families who have repaid their loans this year. Certificates of achievement signed by R. L. Thornton, President of the State Fair of Texas; and L. J. Cappelman, State Director of Farms Home Administration will be awarded those farmer whose loans have been paid this year from agricultural income.

An address pointing up achievements of those farmers will be given by the Honorable Lyndon B. Johnson, United States Senator from Texas. Senator Johnson will be introduced by the National Administrator of Farms Home Administration, Dillard B. Laster, W. M. Barkes, Chief of Farm Ownership Division in Texas, will present the certificates to the Farmers. The Senator, chairman of the Senate Preparedness Subcommittee, is also scheduled to open the State Fair October 4, with an address.

Johnson, whose home is Johnson City, received the H. H. Arnold trophy from the Air Force Association for "statesmanship of the highest order." The other Senator to share the award was Joseph C. O'Mahoney of Wyoming.

The citation said Johnson helped bring to light many valuable military facts upon which sound air power legislation could be based.

The 44 year-old son went to the Senate in 1948 after serving 12 years as a congressman from the Texas 10th District. During World War II, he was a lieutenant commander from December 19, 1951 to July 16, 1942. He was state director of the National Youth Administration in 1935-37.

The ceremonies will begin promptly at 1:00 p.m. October 9. County Supervisor, George I. Lane announced this week. The farm families to be recognized will include two from Eastland County, he said. He is making plans to accompany a delegation of six farm families to Dallas for the event, which will be the Fifth Annual Achievement Day observed by Farmers Home Administration. Of the more than 6,000 loans made in Texas under the Bankhead-Jones Tenant Purchase Act, more than half have been paid off; and the farms are now owned, debt free, by farmers who were at one time tenants.

### Chest Meeting Called Friday

Incumbent president Charles Owen has announced that a meeting will be held Friday afternoon at five o'clock in the Chamber of Commerce office to elect officers for the Community Chest for the forthcoming year.

A nominating committee was appointed and has its recommendations to make to the directors of the chest. The directors are representatives of the various member organizations, some 10 of them at present. One new member, the USO, has applied for admission.

### Rangers Seek Second Victory Tonight Against Midwestern "B"

"Stayput" Ranger football fans will see the curtain lifted on football in Ranger tonight with the meeting of the Midwestern "B" team and the 1952 "Rangers" eleven.

The Rangers go into the fray tonight with a 1000 batting average. How they perform before the home-town folks will determine what it will be Friday morning. Last week the Rangers scampers over under and through the Decatur Indians for 26 digits and a opening victory.

Two former all-stars and members of the 1951 Class A state champion New Castle squad joined the Rangers earlier in the week and will bolster the fortunes of the squad.

Center Lee Otis Clayborn who can press the springs down to 185 pounds and lend his all-star known-how to the middle line-backer slot on defense and 170-pound Charles Blanton, former all state fullback with New Castle's trophy winning eleven are on hand.

### Taft Makes First Speech Supporting Ike For President

SPRINGFIELD, Ohio, Sept. 18 (UP)—Sen. Robert A. Taft labored Gov. Adlai Stevenson a "caricature" of the Truman administration Wednesday night and urged Americans to vote for Dwight D. Eisenhower for president.

Taft called for support of Republican candidate down the line in the first speech of his personal campaign for the five-star general who beat him out of the Republican presidential nomination in Chicago last July.

"Mr. Republican" told an enthusiastic crowd of 2,100 in Memorial Hall here that Eisenhower had "proved his capacity to lead, his sound knowledge of men and world conditions, and his grasp of the fundamental principles of American free government."

"Well, it's started now," he beamed afterwards. He will join Eisenhower at Cincinnati next week for a three-day whistle stop tour of Ohio. He plans a series of 30 speeches in 19 states on behalf of Eisenhower before election day.

The senator drew his loudest applause when he said: "There is only one way to change the philosophy of government spending and power, and that is to elect General Eisenhower and let him create a new administration, with new faces and new thoughts."

Manager R. V. Galloway contacted the commission and has been notified that the agent is in the county courthouse on every other Thursday.

The dates of the visits are Sept. 18, Oct. 2, 16, and 30, Nov. 13, and 27, and December 11 of this year.

### TEC Agent In Eastland On Two Thursdays

Several persons have tendered inquiries at the Chamber of Commerce concerning the days the representative of the Texas Employment Commission would be in Eastland County.

### CARRIERS WANTED

Wanted at once boys with bicycles for Ranger Daily Times routes. Any boy interested in securing one of the routes should contact Mrs. Joe Dennis at the Times office any time.

### PLEDGE CARD

Certainly you can count on me to give blood for the defense of our country. Specified age limits—18 to 60. Under 21—written consent of both parents or husband or wife. These rules are NOT flexible.

## U.S. Could Use Guided Missiles In Korean War

### South Korean Troops Retake Finger Ridge

By Robert Udick  
SEOUL, Korea, Sept. 18 (UP)—Patrie-toughened South Korean troops recaptured the advance position on Finger Ridge Thursday from Chinese Reds, whom they have battered for 12 days.

The South Koreans and the Chinese have fought a no-holds barred battle since the Reds seized the ridge and nearby Capitol hill after a tremendous artillery, mortar and infantry onslaught Sept. 6.

Capitol hill was recaptured by troops of the proud Capital division Sept. 10 and held in the face of four savage assaults which cost the Communists nearly 3,000 casualties.

The final attack on Finger Ridge was launched early Thursday morning with South Korean troops, following a series of air and artillery poundings of the Chinese-held position, knifing into the hill from three sides.

Two groups of South Koreans worked along the ridgeline after another force had penetrated deep into Chinese territory to cut off reinforcements.

Chinese troops on their peak were killed or driven off finally at 6:30 a.m. (3:30 p.m. CST Wednesday) and five minutes later the Reds tried a counter-attack. It was broken up by artillery and never fully developed," according to an Eighth Army spokesman.

Fifth Air Force planes, besides helping the South Koreans retake Finger ridge, ranged behind enemy lines and reported destruction of one 20-carat target—a gold mine.

The mine, near Wotan on the western front, was attacked by P-50 Shooting Stars that wrecked six buildings and halted gold production for the day, at least.

B-29s smashed a prime supply target at Spop, 12 miles northeast of the Red Capital of Pyongyang.

## RANGER POLICE RECOVER CAR STOLEN WEDNESDAY IN DALLAS

Two men and a woman were arrested in Ranger this morning in a 1949 Mercury stolen in Dallas between nine and nine-thirty Wednesday from 112 South Storey St. Policeman Ralph Veal and Ed Freeman took from the car money and contraband believed to have been part of the loot from a robbery.

Freeman and Veal investigated the intentions of the three occupants of the Mercury after watching them pull into the Roy McCleskey Service Station on Highway 80. The two men and the woman were held by the police for investigation.

A check with the Dallas police verified their suspicions as to the car being stolen. The Mercury is owned by James W. Gregory of the Dallas address from which it was missing. The Dallas officer asked that the trio be held for return to Dallas.

Numerous cigarettes, cigars, beer, work gloves, gum, and \$105 in pennies, nickels, dimes and quarters were recovered from the stolen car.

Being held for extradition to Dallas are Willie R. Edwards, about 30, of Terrell, W. D. Thompson, about 31, of Dallas and formerly of Mineral Wells, and Henry M. Barlow, about 25, of Hanley Station, Ft. Worth.

FAMILY KILLED IN CRASH—Austin, Texas police examine the wreckage of a passenger car in which eight were killed when a freight train struck their car. The car was thrown 125 feet from the crossing and scattered over a 60 foot area on both sides of the track. The dead included four children and teenaged boy. (NEA Telephoto).

### Bond Hearing Slated Today For Two Held In Jim Wells Slaying

ALICE, Tex., Sept. 18 (UP)—A bond hearing will be held Thursday for Mario El Turko Sapate, who was identified Wednesday as "the leader of the killers" who shot 23-year-old Jacob S. Buddy Floyd Jr., by mistake.

Jacob S. Floyd Sr., testified Wednesday that Nago Alaniz, law partner of the district attorney, said to him that "this man Sapate is the leader of the killers."

Floyd testified he was told that he and District Judge Sam G. Reams were marked for murder by "the leaders of the new party in Rio Grande City."

Young Floyd was shot from ambush in the driveway of his home Sept. 8. At the time, the senior Floyd was meeting Alaniz in an Alice cafe. It was then that Alaniz told him he and Reams were marked for murder.

Alaniz and Sapate have both been charged with technical murder, being accomplices to murder and conspiring to murder.

Told of Break-in  
The name of George Parr, sheriff and "duke" of Duval county, was injected into the hearing Wednesday.

Floyd testified Alaniz told him at the cafe meeting: "Jake, I want you to believe me, you don't know how close I am to George Parr. Do you remember two years ago when we had an election and the county clerk's office was broken into?" I said, "No, you mean six years ago."

"And he said, 'I do I mean two years ago. Jake, I did that. George made me do it.'"

The Jim Wells county clerk's office was broken into in 1950 after the July election but officers never determined that the vaults where ballots were stored were entered.

"I said, 'You didn't get inside the vault. You got into the county clerk's office.' No, he said, 'I got into the office. We bribed one of the deputies.'"

Floyd said he pressed Alaniz for the names of the persons who were going to kill him.

"Had to Have Alibi"  
Floyd testified: "I said, 'Nago,

### LARGE-SCALE WARFARE NOT A PROBLEM

TOKYO, Sept. 18 (UP)—The United States has enough guided missiles "immediately available" to launch large-scale push-button warfare in Korea, the navy leading guided missile expert in the Far East said Thursday.

He said some pilotless planes could carry an atomic bomb. Lt. Cmdr. Warren A. Lurtz, commanding officer of the first guided missile unit to fight in the Korean war, said missiles already used against the Communists are a "forerunner" of what will come.

He said it is possible that "missile-to-missile" and "continent-to-continents" air techniques will replace present-day dog-fighting and bombing by living pilots.

"You can strike anywhere in the world with guided missiles and the first indication the enemy would have is when the plane dived down," Lurtz said.

He did not venture to guess how far along the Russians might be in their guided missile program.

"It is possible that the Communists have a similar weapon, but I can't think of any defense they can devise for it," Lurtz said.

He said none of the missiles launched from the carriers in Korean waters has been shot down.

The Navy has used obsolescent Grumman Hell Cats equipped with television transmitters and 2,000-pound bombs for its missile program in the Korean war. They have been in service since late August.

Lurtz said these planes could be used in strafing, rammings other planes or bombing, as desired.

"It is possible that a fleet of guided missiles controlled by a single mother plane could be used in large-scale war in Korea," he said.

Lurtz said the number of guided missiles the Navy can use in push-button warfare depends on the number of over-age aircraft the Navy has. He would not disclose how many World War II planes the Navy has on hand.

"Any plane can be drone converted to a guided missile and it can be done very quickly," Lurtz said.

"It is possible guided missiles will be used in large-scale in Korea. If used, they could change the nature of the air war.

"These are over-age planes, but we could equip a large number of them as very effective weapons."

Lurtz said, "We have enough guided missiles immediately available to launch large-scale attacks."

He said specially-equipped planes without pilots actually would be more effective in dogfighting with other planes than the same aircraft manned by pilots. The plane can stand violent dives and turns that a man cannot.

Lurtz added that the plane could ram enemy aircraft within range of its television viewer.

### Bell Helicopter Sets New Record

NIAGARA FALLS, N. Y., Sept. 18 (UP)—Pilot Elton J. Smith set a new record for the Bell Helicopter Corp. by flying a record-breaking 1,234-mile helicopter flight here from Ft. Worth, Texas, in one position for 12 hours and 57 minutes.

The smiling, 32-year-old father of three surprised a welcoming committee by emerging from his Bell Aircraft Corp. helicopter Wednesday night apparently untired by the non-stop flight.

"I feel fine," he said. Company President Lawrence D. Bell asked him if he was very hungry. "Not especially," he replied.

Representatives of the Civil Aeronautics Administration checked Smith at both ends of the solo flight to certify his performance as an official record.

### Desdemona Woman Fined \$500, Gets 6 Months In Jail Thurs.

Thursday a 91st District Court jury found Mae King, about 60, of Desdemona guilty of illegal sale of four quarts of beer to Ahilene Liquor Control Board agent W. E. Russell on April 28, and the defendant was fined \$500 and sentenced to six months in jail for the violation.

### Stevenson On 'Propeller Stop' Campaign Tour

By Merriman Smith  
SPRINGFIELD, Ill., Sept. 18 (UP)—Gov. Adlai E. Stevenson was ready to head his "propeller stop" campaign into the East Thursday with his first major statement on atomic energy scheduled Thursday night at Hartford, Conn.

Stevenson's campaign plane was to make its first stop at Bridgeport, Conn.

Atomic energy, normally a delicate subject for political discussion, was chosen as the topic for the Democratic nominee's main Connecticut speech for two apparent reasons:

1. Stevenson's advisers are still wrestling with the task of getting their candidate well-known and on record on as many basic questions possible before the pace of the presidential race is stepped up in October.

2. Connecticut is a highly atomic-conscious area. The first atomic submarine is being built at New London. This was also the home state of the late Sen. Brian

### Five Crewmen Killed In Mine Blast Aboard U. S. Destroyer

TOKYO, Sept. 18 (UP)—A Communist mine blew in the bulkhead protecting the forward fireroom of the destroyer Barton, killing five men and injuring seven, the Navy announced Thursday.

The accident took place Tuesday night while the Barton was plowing through the Japan Sea serving as a screening vessel for a task force built around the aircraft carriers Bon Homme Richard and Princeton.

A tremendous explosion on the starboard side heeled the 2,200-ton vessel over to port and knocked out its power.

Crewmen raced to the forward fireroom, helped seven injured men to safety and sealed off the chamber because of seawater pouring in through a five-foot gap in the Barton's side. The bodies of the five dead men had to be left behind.

The ship's power was restored within an hour, and the Barton crawled back to Sasebo, Japan, where she is due Friday.

It was the second fatal accident for the destroyer. On Aug. 10, shore batteries off Wonsan killed one sailor and wounded another.

The Barton explosion was the 63rd incident since the beginning of the Korean War in which American ships have been sunk or damaged by mines, enemy shore fire or other causes.

The Barton is commanded by Cmdr. Harvey D. Seim of Bridgeport, Conn.

The casualty list included mostly Easterners.

### Lebanon Under 3 Man Rule In Military Coup

BEIRUT, Lebanon, Sept. 18 (UP)—Commander in chief of Lebanese army, Gen. Fouad Shehab, headed a provisional three-man government Thursday after seizing power in a bloodless coup.

President Bechara El-Khoury announced his resignation Wednesday night after turning over the government to Shehab.

Before resigning, Khouiry issued three decrees according to Radio Beirut. One accepted the resignation of Premier-Designate Saeb Salam. A second appointed his former army commander premier and head of the defense and interior ministries.

The third decree named former Prime Minister Nazek Akkari and former Minister of Finance Basil Trad to make up a provisional government with Shehab, the broadcast, monitored in Cyprus, said.

The new cabinet will rule until parliament meets shortly to elect a new president.

Khouiry had been president for nine years. He was first elected in Sept. 1943, and was re-elected in May, 1948.

"I and my two ministers will take over the government in accordance with the constitution following the resignation of the president," Shehab said in a broadcast over Radio Beirut. He appealed to the populace for quiet.

Late last week a series of strikes in protest against government corruption began in the capital and walkout leaders have been trying to get the workers to return to their jobs.

Shehab's assumption of power climaxed more than a week of political maneuvering which began Sept. 9 when the government of Premier Sami Bay El-Solh resigned under charges it was riddled with corruption.

A provisional government, headed by Akkari as prime minister, was set up by Khouiry. Akkari also held the portfolios of the interior and foreign affairs. Trad was minister of finance, economy, public works and health in the same cabinet.

### U. S. Red Leaders Rounded Up By FBI In 7 States

WASHINGTON, Sept. 18 (UP)—The U. S. Communist party appears headed for a leaderless future as the government lops off the new heads which crop up to take over the Red hierarchy.

The FBI's arrest Wednesday of 18 Red leaders in Michigan, Washington and Missouri was another step in the government's campaign to cripple the Communist party by systematically eliminating its leadership.

The government started off with the American "politburo" in 1949. Since then it has concentrated on eliminating "second team" Communists.

Justice Department officials refused Thursday to speculate about any future FBI round-ups, but conceded that rank-and-file Communists who move up in party ranks to fill the vacancies left by jailed or arrested leaders might find themselves the next targets of the anti-subversive drive.

FBI agents swooped down on 18 prominent Reds in seven states Wednesday. The drive—largest single roundup in the three-year war against Communists—was directed at the party organization in Michigan, Missouri and Washington.

All were charged with conspiring to teach and advocate the violent overthrow of the government in violation of the Smith Act.

Has Fish Pound At Home MILWAUKEE (UP)—Jerry Mundt, caught a nice mess of fish, took them home alive and put them in a tub in his basement. That night heavy rain flooded the basement, providing Jerry with a fish pond right at home.

### SUGAR AT ITS BEST!

#### The Next Best Thing—

... to a clear conscience and a good night's sleep is the feeling of security in owning your own home with a clear title. Peculiar to the real estate field values are based on land and the improvements thereon, if any. But values on these are based on the title. The title then becomes the most important item to be considered when purchase of real estate is contemplated. So be careful to buy only good titles based on an abstract of title.

## Two Hundred Old Cars To Make Voyage

By Harman W. Nichols  
WASHINGTON, Sept. 18 (UP)—A revival of the "horseless carriage" days will be witnessed here

next Wednesday. Some 200 cars, which once fought for roadspace with the horse and buggy, will parade down Constitution Avenue. Old timers will roll back the many years in memory.

It's part of the annual Glidden tour. The ancient vehicles will converge from eight different directions. They'll arrive here on Tuesday, in tribute to the golden

Jubilee convention of the American Automobile Association. The tour is co-sponsored by the AAA and the Veteran Motor Club Co. of America.

It's always quite a sight when these rattling old cars stack up in line on the highways and streets. The drivers act the part, too. They wear dusters, caps and goggles. Most of the cars are open seaters.

Starting points of the tour will be Boston, Springfield, Hartford, New York, Watkins Glen, Pittsburgh and Cleveland. A contingent will also set forth from Washington, heading north and then to Harrisburg, where all the groups will start the final run back to Washington.

Ever hear of some of these makes?

The Simplex, Peerless, Maxwell Chalmers, and Locomobile. There will be scores of steamers, including the once famed Stanley, the White, Grout and Doble.

Oldest car in the field will be a 1900 one-cylinder De Dion Bouton. It'll be driven by Sully Garaganze, of Shrewsbury, Mass. Second oldest will be a 1902 Holman, driven by D. S. Baker of Burlington, W. Va.

Keeping up a stable of old cars is a full-time hobby—almost. An expensive hobby, too.

James Melton, a singer, will be aboard his 1907 Rolls Royce. He has one of the largest collections in the country.

Some of the cars, because of their age and runability, have considerable value.

For example, Melbourne Brindie, an artist of Bridgeport, Conn. has a 1915 Crane-Simplex, valued at \$33,000, although he likely would not take that for it.

A veteran of the original Glidden tour is Col. Augustus Post of New York, who was chairman of the AAA committee which supervised the first tour back in 1904.

Although the colonel is past 80 he never misses a tour when the Gliddensites foul up traffic in their annual run. Post now prefers to be a passenger instead of a driver.

The puffing old cars will be followed by a tire service truck.

July's month-long heat wave brought a drought causing \$500,000,000 crop loss to a large area of the northeast and south. Corn, cotton, vegetables, tobacco and cattle all suffered in areas shown on the above newchart. Farmers Home Administration's offices advanced quick credit to growers in official disaster sections. Freight-rates were lowered on live-stock feed sent into states lacking enough hay because of the worst drought in 20 years. New England, suffering from grain losses and lowered milk production, tried seeding clouds with dry-ice to make rain.

## NEWS FROM CARBON

Sgt. Virgil Barton, who has been stationed in North Carolina is visiting his parents, Mr. and Mrs. W. G. Barton.

Mr. and Mrs. Jack Stubblefield and daughter of Bartlesville, Okla., are visiting their parents, Mr. and Mrs. F. J. Stubblefield and Mr. and Mrs. A. C. Underwood.

# PLUG 'N TRIGGER

These hot humid days and nights have a way of leaving marks on unprotected gun metal. It might be a good idea to get out old betas and check her over for rust in the barrel and mechanism, and corrosion in the bore.

It might seem rather silly to talk about hunting and shooting irons in these days of hot weather, and closed seasons on game. The next couple of months will roll around plenty fast and you'll find yourself in the middle of a hunting season in Oklahoma and Texas.

Take a cue from the dove season, that opening day slipped up on most of us like a bolt of lightning out of a clear blue sky, caught us unprepared with rod and reel in one hand and tackle box in the other. Little or no time was devoted to betay prior to that opening day.

Giving your guns a good going over will do no harm. On the contrary the handling of it will be a refreshing tonic to your hunting soul in the form of a revival of pleasant memories of days gone by afield.

It's surprising what an oily rag, the smell of powder solvent, and

the donning of your hunting rifle or shotgun can do to pep up the lagging spirits of a hunter.

While you're at it, bring out the old hunting coat, game bag, boots and trousers and give them a good checking and airing to rid them of that moth ball odor.

These hunting boots no doubt could stand a good bath with saddle soap and then a good rub down with Neatfoot oil or any other good waterproofing preservative.

If you're a nitwit that detests after big game such as the elusive white tail deer you know from past experience that this is one sport you can't afford to take a chance on with poor or neglected equipment.

A little plinking practice with .22 rifle is certainly in order as well as blasting away with the old cannon itself occasionally just to be sure sights, and your shooting eye, are okay and ready for opening day.

Practices such as this will be advantage of opening day assures a coordination of reflexes and complete confidence in yourself and equipment that pays dividends when Mr.

## School Days Fashions for Children

BY GAILE DUGAS, NEA Woman's Editor

NEW YORK—(NEA)—Going back to school may be a task for the college girl, but it's a real trial to the small fry, whether she's returning or just getting started. That's why, for the small girl on her first day at school, a dress that's fun to wear, in which she feels pretty, is a great aid to morale. It will, just as in the case of her big sister, give her confidence and help her to get through the day with ease.

The little girls shown here have been dressed by their mothers according to this very sound principle. Small girl (left) wears a green cotton by Kate Greenaway

that includes some genie apple-polishing in its design. The bodice has an applied "For Teacher" and two red apple pockets. Crisp white pique is used to band the puffed sleeves and form the collar.

Her friend (center) wears a quilted button-on bib jumper from this same house. It's in school-book print cotton over a simple, short-sleeved blouse.

Small artist (right) likes separates. She wears a three-piece outfit that combines bleated plaid skirt, white blouse and red pique sleeveless jerkin that is gathered at the back waistline by means of a buttoned belt.

Small artist (right) likes separates. She wears a three-piece outfit that combines bleated plaid skirt, white blouse and red pique sleeveless jerkin that is gathered at the back waistline by means of a buttoned belt.

### Alabama Woman Wins Dr. Pepper Oil Royalties

Mrs. John Smith of Sheffield, Ala., was handed royalties in 44 East Texas oil wells in Dallas by Gov. Allan Shivers of Texas at the launching of a program by Dr. Pepper Co. to awaken the nation to the need for investment in, exploration and conservation of our natural resources for the benefit of today's children and the children of the future.

Mrs. (Esther) Smith, 38 year old housewife, won the royalties after being selected from 100,000 grass-roots families who indicated their interest in owning a piece of the country in response to a six-month, \$150,000 program undertaken by the soft drink company in 39 states. She will enjoy a life-time income, according to conservative estimates of leading geologists, of a minimum of \$100 to \$200 per month with increases dependent upon government regulations and the price of crude oil.

"Now I can pay off our mortgage and give my three children an education," she said after making a tour of the producing wells in the "fairway" of the East Texas fields in Rusk County.

Oil reserves in the property in which she owns royalties amount to 5,052,788 barrels according to the geologists, and they said the current value of her royalties at today's market is equal to \$22,463 investment.

Gov. Shivers, who came to Dallas for the occasion, stated while making the presentation of her royalties, "one of the greatest assets of our country is its natural resources. The far-seeing Dr. Pepper Co. is to be complimented on this dramatic method of underlining the need for their preservation. Every Texan should be

proud that the resources of this great state were selected to lead off this public-spirited campaign, particularly in the light of the current misunderstanding in Washington regarding tideland rights. Texas, which has the greatest mineral resources of any state in the nation, is proud that family in Alabama, another tideland state, has thus become a part owner of them, and I hereby make you, your family and heirs, honorary citizens of Texas."

Leonard Green, president of Dr. Pepper Co., said their "Invest in America" program, which was quietly begun six months ago, used a widely heralded contest formula to reach the greatest number of grass-roots families as possible in a way in which they could most easily participate. He said the "Invest in America" program was being launched nationally in coordination with schools, colleges, banks, investment firms, parent-teacher groups and via a broad nationwide educational program to reach family units in their homes and in their community.

### Nature Defies Statistics

DETROIT (UP)—The chance of being struck by lightning in the United States and surviving is about once in 375,000. However, three Detroit-area residents were struck by lightning and all lived.

**OPPORTUNITY**

**Are you the type for type? . . .**

You may be just the right type for the printing business

The handling of type, which is the basis of printing, requires skill and alertness.

Why try to get into the overcrowded professions when a career awaits you in one of the world's greatest industries?

No trade or business offers higher wages, more prestige, or greater opportunity for advancement to executive positions than printing. We have several jobs for every graduate.

Write now for information.

**IT'S THE LAW in Texas**  
A public service feature of the Ranger Times

**Stop, Then Pass Halted School Bus at 10 MPH, Law Says**

School buses over the state have now begun the task of carrying thousands of children to and from their studies. Soon to be expected are the inevitable tragic reports of deaths and injuries occurring when impatient youngsters dash across busy highways to greet their waiting parents or to board the bus. Most of such accidents could be avoided if motorists would adhere strictly to the letter of the law pertaining to the passing of school buses.

Most Texans are aware of the law which requires a driver to come to a complete stop when overtaking from the rear a school bus which has stopped to receive or discharge school children. After stopping immediately behind the bus, he is then allowed by law to proceed past same at a speed "which is prudent, not exceeding ten (10) miles per hour, and with due caution for the safety of such children."

What many persons do not realize is that the very same rules applies when MEETING a stopped school bus. While everyone is interested in protecting our children, unthinking violators of this simple safety rule greatly outnumber those who comply. Failure to follow the law in this case can lead to fines up to \$200 even when no accident occurs. Following an accident in which some child is injured or killed, the penalties are naturally much more serious.

Although the above rule does not apply when passing a stopped school bus in a business or residential district of a town, the necessity for extreme caution even in those locations is obvious.

When it comes to overtaking and passing moving vehicles, exercise of ordinary common sense will generally keep a driver within the law. For instance, when passing a car it is only common sense to proceed on past it a safe distance before cutting back to the right side of the highway. Also, any driver would realize the danger of increasing his speed while another is attempting to pass him.

In the same category is the prohibition against passing on the right under most ordinary conditions. Of course, you may legally pass on the right in a few specific instances, such as when the vehicle overtaken is making or about to make a left turn, or upon a one-way street with two or more lanes, or upon a four-lane highway.

However, our traffic laws state that even when passing on the right is allowed, it shall be done only under conditions permitting such movement in safety. And, in no event should such a passing be accomplished by driving off the pavement or main-traveled portion of the roadway.

Even when not engaged in

passing another vehicle, a driver is prohibited from driving to the left of the center of the roadway in many instances. Familiar to all are the no passing zones designated by dash lines placed to one side of the center stripe on our highways.

Not so well known are the restrictions against crossing the center line when approaching within 100 feet of any bridge, viaduct or tunnel. The prohibition also applies when approaching within 100 feet of or when traversing any "inter-city" or "inter-state" grade crossing. A driver should never cross the center line of a highway when the left side of the road is not clearly visible and free of oncoming traffic.

(This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts, because the facts may change the application of the law.)

**NEWS FROM CHEANEY**  
Mrs. Bill Tucker

The Cheaney Home Demonstration club met Thursday, September 11 in a regular meeting with four members present. Mrs. John Love presided and conducted the round table discussion on "Legal Document and Wills."

Each one gave some example of the importance of a knowledge of legal procedures concerning their own family and property.

Roll call, in keeping with September, was "My First Day in School."

Coffee and cake squares were served to the following mesdames: John Love, Bill Tucker, Gene Ferrell, and the hostess Mrs. Thelbert Jones.

Club members will meet next with Mrs. John Love on Oct. 9.

Mrs. Cicero Rogers has had several restful days since the cool showers. All of the children have been here to visit her.

The 3 sons, Carlie and wife from Wt. Ord, California; Roy and his wife, also from Calif., and J. H. The three daughters, Letty Craddock, Gladys Bibby and Veda Burns, and of course the grandchildren whom the patient enjoys so much.

Guests over the week-end in the Will Underwood home were Mr. and Mrs. D. C. Hall, brother to Mrs. Underwood. Mr. Hall is an automobile and insurance dealer in Waco.

Mrs. Bessie was able to go to Ranger on Saturday for a check-up. She is recovering from recent surgery.

Mrs. Sophie Freeman also reports she is feeling splendid. Her visitors Sunday were Mr. and Mrs. Frank Weekes of Ranger and the

Dick Weekes family of Comanche.

Loresta Wallace spent Sunday afternoon with Hel and Charlene Blackwell.

Frank Butler, who spent the summer with his son in Chicago, came for an indefinite stay with his brother, Mr. and Mrs. Joe Butler, before returning to his home in Winchell, near Brownwood.

Visitors Sunday afternoon in the John Love home were Mr. and Mrs. Joe Bob Browning of Gorman.

Junior Davis and sister Faye and Mrs. Rufus Buckley of Desdemona were Monday morning callers in the John Love home.

Hatched By Refrigeration

**SOCIETY**

**Women Urged To Register For Bloodmobile Visit October 2**

War have taken on broader concepts in this and the last generation—more often than not women play a major part in the conflict, both at home and abroad.

Ahead, they serve in the armed forces relieving men to engage in the actual battle by holding down supply, clerical and medical jobs.

At home they roll bandages, take over the duties of men called to fight, watch for the approach of enemy planes, act as fire wardens, anything that their husbands could do were they at home and sometimes doing them better.

Within the near future, in fact this coming Oct. 2, the women of Ranger, have an equal chance with the men to do their part in helping American kids in Korea. The kids that yesterday were playing football for the Bulldogs while their mothers sat in the stands with their hearts in their throat and the cheers of others in their ears.

This time they can't let others do the "chore," they must give their sons a boost themselves. How? By pledging a pint of their blood to the bloodmobile coming here on Oct. 2.

Imagine your son, in a dimly lighted make-shift hospital somewhere in Korea, the tired young doctor and his Korean nurses fought a losing battle to save the life of the youthful soldier who had been riddled with bullets while on the front lines. The surgeon had few implements to work with and the supply of plasma had long since been exhausted. Realizing that they could be of no more help to the soldier, they turned to the next bed where the small, emaciated figure of a Korean boy lay huddled under the one thin blanket. The lad was a victim of the ravages of war and had been found lying in a gutter near death. Some kind hearted passerby had brought him to the emergency hospital only to be told that the medicines did not have the necessary supplies with which to save the life of the innocent youngster.

This scene was re-enacted countless times during those days of terror and despair and time after time the underserved medical staff worked desperately trying to save the life of some soldier, realizing from the start that their efforts were in vain because they did not have the one thing so vital to a wounded person—BLOOD.

The scientific geniuses of the modern world have developed substitutes for almost anything needed but have never perfected

anything that will take the place of human blood. Absolutely the only thing that can be used is blood given by another person.

The Allied forces fighting in Korea have suffered more fatalities during the two years of fighting than they did during the entire four years of World War II. Facts and figures prove that they are in critical need of plasma.

The Red Cross and other worthy organizations have begun a concerted drive to supply plasma to your sons, husbands and fathers who are giving their lives that you may live in peace, happiness and prosperity.

The American people should not have to be begged to give blood. They should volunteer with one another for the first chance to prove that genuinely interested in the welfare of their fighting men.

The process, through which one must go to give blood, is not a complicated matter, and the time needed is only about ten minutes. Ten minutes for a painless procedure such as that is a small price indeed compared with what our soldiers must pay during their months and years on the battlefield.

The Bloodmobile will be in Ranger on Oct. 2 between the hours of 10 a.m. and 4 p.m. to receive blood from any person who is physically able to give it. Each person registering to donate blood will be carefully examined by trained personnel to be absolutely sure that no ill effect will be suffered by the donor.

The quota for Ranger has been set at 150 pints, meaning that at least 250 persons must volunteer to give ample leeway for those who are turned down due to the condition of their health. Those wishing to register may call the Chamber of Commerce office, phone number 21.

Remember our fighting men and give a few minutes of your time and a pint of your blood that they might live.

**PERSONALS**

Dr. and Mrs. P. M. Kaykendall are in Austin attending a medical meeting.

Mrs. Saunders Gregg has returned from Shreveport, La. where she visited her son, Saunders Gregg and family.

Mrs. Fat Hinkson and son, Dan, and Mrs. Christine Foston of Strawn were in Ranger Wednesday on business.

Mr. and Mrs. Richard Ivy and H. O. Woods, Jr., spent Tuesday in Wichita Falls, visiting the Ivy's daughter, Mrs. Harden Bridges.

Mr. and Mrs. J. I. Kim and daughter, Kay, have moved to Fort Worth, where Mr. Kim has accepted employment at Consolidated Vulture.

Word has been received from S-Sgt. Bill Judy, stationed with the Army Air Force in North Africa, stating that he expects to return to the States in October and will be stationed at Carswell AFB. Bill is the son of Mr. and Mrs. Dick Judy of Ranger. Another son, Jack, is serving with the Navy in Korea.

Mr. and Mrs. Frank Weekes had as guests in their home Wednesday Mr. and Mrs. Ray Bishop of Breckenridge.

**Stevenson—**  
(Continued From Page 1)

McMahon who was chairman of the joint congressional Atomic energy committee.

Stevenson left his Illinois base of operations with the advice and counsel of a new, if temporary, adviser, Sen. J. William Fulbright (D-Ark.). Fulbright after long talks with Stevenson, told reporters candidly that Stevenson faced a "tremendous problem in getting the people acquainted with the kind of man he is, the way he thinks."

Members of the Stevenson staff

Miss Nancy Phillips is in Fort Worth where she will complete her senior year studies at TCU.

Mr. and Mrs. O. G. Lanier have received word from their son, O. G., Jr., stating that he is in Fort Riley, Kans., on a special assignment "Scientific Technical Personnel", from Fort Sill, Okla. Following eight weeks of boot training he will be sent to a special school for six weeks.

Mr. and Mrs. Leonard Johnson were in Ranger shopping recently.

Howard Henegar of Gordon was in Ranger recently on business.

Mr. and Mrs. Nath Pirkle and Mrs. E. L. McMillan will spend the weekend in Brownwood visiting relatives.

Gene Reedy and Richard Ivy left last week for Austin where they will enter their junior year of work at the University of Texas. They are both majoring in psychology.

Mrs. E. F. Arterburn and Mrs. E. T. Boyd were among those from Ranger attending funeral services for William Lummus in Moran Wednesday. Mr. Lummus was the father of Carl Lummus of Ranger.

Mrs. R. J. Taylor is in Tucumcui, Okla., visiting with her mother, Mrs. Nina Ward.

**Ike's Stand On Union Big Wigs**

WASHINGTON, Sept. 18 (UP)—Dwight D. Eisenhower held out an olive branch Thursday to 13 million members of the American Federation of Labor.

They were ready to knock it out of his hand.

The Republican presidential candidate caused some lifted eyebrows in political circles here by telling the AFL national convention he realized the Taft-Hartley law might be used for "union busting."

But Eisenhower flatly said he opposed repeal of the law—regarded as "the slave labor act" by

much of organized labor—and that an overhaul job by Congress could fix things up.

**Expected to Back Demo**  
The AFL with its 13 million members was expected to endorse Eisenhower's rival, Gov. Adlai E. Stevenson, after the Democratic nominee addresses the convention Monday, Stevenson spoke out on Labor Day for outright repeal of Taft-Hartley.

The CIO Political Action Committee, representing about five million members, already has endorsed Stevenson and will ring doorbells aplenty for him this fall.

Though endorsement by both of the big labor unions is regarded in both political camps as a prize plum, there is no telling how much an endorsement means in actual votes.

**'Delivery' Is Spotty**  
It often is remarked that John L. Lewis can "do anything with the mine workers but tell them how to vote." This may very well be true among the followers of AFL President William Green and CIO boss Philip Murray, too. If the AFL does come through with its Stevenson endorsement it will be the first time in history that the organization has endorsed a presidential nominee.

have stated the problem similarly—a problem of combatting the nation-wide fame of Dwight D. Eisenhower, the GOP nominee, with a candidate who was not well known in many parts of the country before his nomination.

As Stevenson laid out a plan to invade the home states of two of his chief Republican targets, Sen. Robert A. Taft (R-Ohio) and Sen. William E. Jenner (R-Ind.), Fulbright underlined the Democratic plan of attack.

He said he feared that what he called the "Taft-Eisenhower coalition" would mean that in event of Eisenhower's election, the Ohio senator "would be in a dominant position for at least four years and, I assume, under their agreement would have a lot to do with the appointment of the cabinet and other officials of the government."

He said he saw no analogy in President Truman's position with Stevenson should the governor win.

"Mr. Truman will be completely out of office," he said. "I don't know how a man can disassociate himself any more from political power."

He sought to disassociate Stevenson from any of the corruption that occurred under the Truman administration.

"I don't think the sins of the father should be passed on to the child," he said.

**IF YOU DID NOT FINISH HIGH SCHOOL YOU CAN STUDY AT HOME IN SPARE TIME AND ACTUALLY EARN AN AMERICAN SCHOOL DIPLOMA!**

IF YOU CLIP AND MAIL COUPON PROMPTLY WE WILL SEND YOU AT NO EXPENSE TO YOU AMERICAN SCHOOL'S SAMPLE LESSON AND 42-PAGE BOOK!
