CASTRO COUNTY EXHIBITS WIN AT TRI-STATE FAIR

If there has ever been any doubts as to the quality of Castro County farm products, they were dispelled this week when the county booth took top honors at the Tri-State Fair in Amarillo. Winning products exhibited at the Castro County Fair Saturday were exhibited this week at the Tri-State Fair. The exhibit included 23 agricultural products grown in the county.

Castro County exhibits taking first place at the Amarillo Fair were: Alfalfa sheaf, Kafir heads, Milo heads, Hegeri grain, Pinto beans, Yellow corn, Peaches, Tomatoes, Wheat sheaf, Wheat grain. Second place: Cotton, Peppers, Sudan sheaf, Alfalfa bale, Pop corn. Third place: Peas, Onions, Watermelons. Fourth place: Milo grain.

Castro County Fair visitors saw the best that the Tri-State Fair had to offer.

ANTHONY ACKER SHOWS GRAND CHAMPION SWINE AT AMARILLO

There's nothing to it, all you have to do is raise the best hog in the Tri-State area and you are a cinch to show the Grand Champion. Castro County Club boys have taken top honors at so many swine shows that it has become routine, and just to keep the continuity of Castro County grand champions intact, Anthony Acker of Nazareth huddled the champions of all breeds, at the Tri-State Fair in Amarillo, with his Chester White barrow and gathered in another Grand Championship to continue the long line of successful showings for Castro County swine. Anthony, son of Mr. and Mrs. Philip Acker, probably met the strongest competition ever assembled at a Plains swine show, to win his latest honors in the field of swine breeding. All told he has 44 ribbons and trophies from Junior livestock shows over the Southwest.

Dimmitt's Largest Crowd Here Saturday Night

On Saturday night, September 20, the largest crowd of people ever to assemble in Dimmitt came from far and wide for the big Street Dance. The dance was held as the closing entertainment of Fair Day on the street directly in front of the Courthouse. From the opening number until Home Sweet Home the whole city block was packed with dancers and spectators who were having a good time after a busy day.

The music was furnished by Elbert Newton and his gang of fiddlers. Arrangements for the dance had been placed in the hands of George Behrends, resulting in one of the best pieces of entertainment ever had in Dimmitt. Cooperating with him was Woody Sullivan, Town Marshal, who not only helped with the arrangements but did an excellent job throughout the day in making the Fair a success.

Fair Rodeo Is Great Success

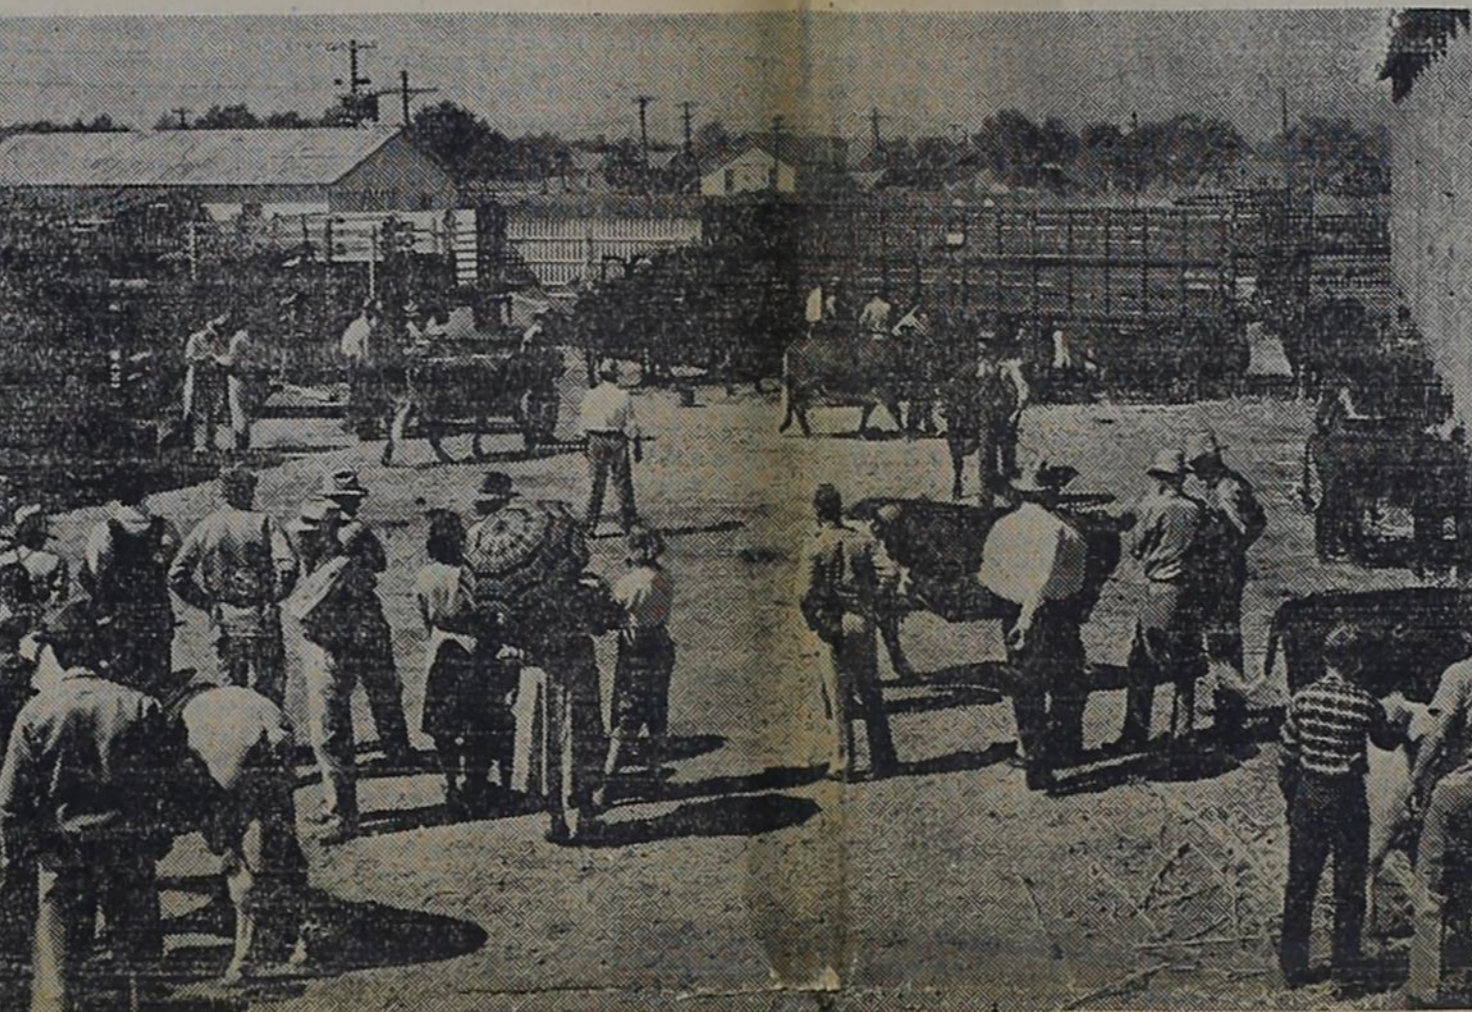

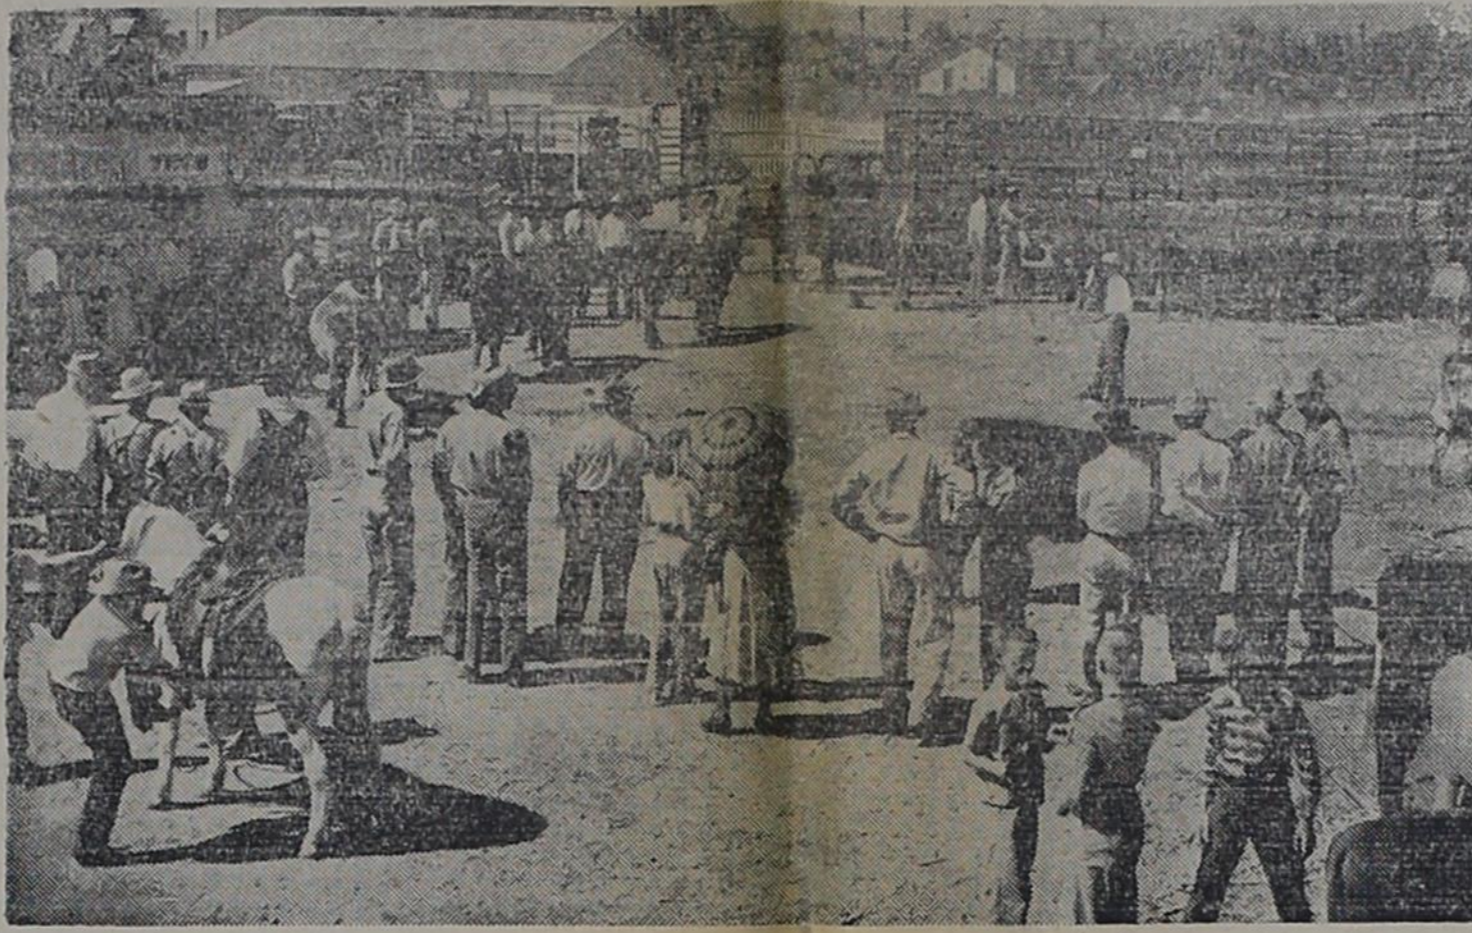

The big western style rodeo which was held September 20, 1947 in conjunction with the County Fair, and under the sponsorship of the Chamber of Commerce, was an unqualified success. By having over 450 paid admissions it ranks as one of the biggest rodeos ever held in Castro County. The riders who competed for the various prizes numbered over 35 and came from all sections of the Southwest. These experienced and spirited riders gave the crowd one thrill after another in the rodeo arena east of Dimmitt.

In the afternoon's stiff competition the following were the winners of the various events: Calf roping, Bill Kellar, Pete Kellar and Price Hamilton; Ribbon roping, Herb Mayfield, Bill Kellar and Pete Keeling; Bucking horses, Lavell Chisum, Ace Winders and Paul Coulter; and Wild mule race, Clifford Layman.

The rodeo contests were reeled off with a minimum of delay under the able announcing and management of Elbert Newton, Reuben Mayfield, Brad Fulfer and George Behrends. Aside from these the whole Rodeo Association cooperated to the limit to help make this an interesting portion of the full day's entertainment.

CASTRO COUNTY SEMI-ANNUAL SINGING CONVENTION AT BETHEL

The Castro County Semi-Annual Singing convention will be held at Bethel Sunday, September 28, beginning at 11 a. m., according to an announcement made this week by officials of the organization. Lunch will be served by ladies of the Bethel community at the noon hour. A number of singers from adjoining counties are expected to attend, and everyone has a cordial invitation.

Pictured above are scenes from the Livestock show, during the judging of dairy cattle on Castro County Fair Day last Saturday. Interested spectators look on as three Milking Shorthorn breeders, Harry Rothwell, Morgan Dennis

and Leo Witkowski, vie for honors with some of the finest cattle in this area. In the center of the show ring is Mr. J. D. Strickland of Plainview who served as judge in all departments of the stock show. The large sound truck in the pic-

tures was used during the day through the courtesy of the Southwestern Public Service Co. The stock show was conducted in the Higginbotham - Bartlett Lumber Yard. —Photos courtesy Amarillo Times.

NAZARETH SCHOOLS OPEN WITH COMPLETE FACULTY AND LARGE ENROLLMENT

The Nazareth schools opened early in September with a complete faculty and one of the largest enrollments in the history of the schools. According to a statement by Sister Victoria, Superintendent, 165 students are enrolled in the school—49 in high school and 116 in grade school.

Two new teachers have assumed their duties on the Nazareth school faculty, Sister Liguori, 1st and 2nd grades and Sister Florence, high school. Other teachers are Sister M. de Chantal, high school; Sister Dolores, 7th and 8th grades; Sister Stella, 5th and 6th grades, and Sister Donata, 3rd and 4th grades.

HEAVY EXPENDITURES FORESEEN IN COUNTY FOR NEW FARM HOMES

Farm families in Castro county will spend more than \$344,000 for new housing in the next three to five years, according to a forecast released by the Tile Council of America.

"As a result of high incomes during the last few years, farmers in every part of the nation are prepared to invest record amounts in new home construction and in general farm improvements," said F.B. Ortman, chairman of the Council's residential construction committee.

Pointing out that the comforts and conveniences of urban living are now available to farm families, Ortman said that new rural homes will incorporate such features as water pressure systems, tiled bathrooms and modern kitchen facilities.

Rapid electrification of rural areas of Texas is making possible the incorporation in new homes of many labor-saving and comfort-providing devices undreamed of a generation ago, according to Ortman. Rural Electrification Administration estimates disclose that more than 55 per cent of all farms in the state now receive central station electric service. Refrigerators, electric washing machines and deep freezing plants, as well as plumbing systems, will go into many new homes as a consequence.

THREE INJURED IN HIGHWAY MISHAP

Three people narrowly escaped serious injury Monday afternoon at about 5 o'clock, when the new Ford in which they were riding overturned just north of Dimmitt on Highway 51, near the stock pens. Occupants of the car were Mr. and Mrs. J. E. Howry of Littlefield and her brother, Mr. Jack Attaway, of Lubbock. Witnesses declared that the car rolled over a number of times, possibly six, before it came to rest on its top. The accident occurred when the driver applied his brakes to avoid hitting another car, which had the right-of-way, as it was passing a third car, all of which were headed south. The wreck victims were given emergency treatment at the Plains Memorial Hospital for shock and minor cuts and bruises. Mr. Howry sustained a broken arm, and at his request was taken to Lubbock for treatment. The car was totally wrecked.

GIRL SCOUT DIRECTOR HERE

Miss Melvina Jarrott, Executive Director of Southwest Plains Area of Girl Scouting was in Dimmitt this week and conducted a training course for leaders of Girl Scouts. Meetings were held Monday afternoon and evening with the following leaders present:

Monday evening: (Those marked 4 hours were present for both, morning and evening sessions.) Mesdames Henry Stalcup, Marvin Witt, 2 hrs; Pat Hardy, 2 hrs; Floyd Smith, 4 hrs; Bill Burnam, 4 hrs; E. C. Caudle, 4 hrs; O. B. Trimble, 4 hrs; Orrin Howe, 2 hrs; R. J. Ramey, 2 hrs; D. Wright, 4 hrs; Earl Hembree, 4 hrs; Woodson Brown, 4 hrs.

Present for the evening training: Mr. D. Neumayer, 2 hrs; Mesdames Dan Boothe, 2 hrs; W. A. McElroy, 2 hrs; C. W. Walker, 2 hrs; L. C. Lee, 2 hrs; Homer Hyatt, 2 hrs; John Alldridge, 2 hrs.

Miss Jarrott was guest speaker at the meeting of the Dimmitt Lions Club at their regular meeting Tuesday.

Large Crowd Witness Parade

Hundreds of people lined the downtown streets of Dimmitt on Saturday afternoon to witness the annual Fair Day Parade. The parade formed near Hays Implement Co. and marched east on the main street of the town on schedule. Led by the Town Marshal and mounted flag bearers it received a generous ovation from the spectators.

The Heeford High School Band, its members colorfully outfitted in their maroon and gray uniforms, marched briskly and played both well and spiritedly. This was one of the highlights of the parade and the spectators enjoyed having this band as the day's featured guest. Before leaving for Hereford the band also lent its services to the opening of the rodeo.

Aside from this the parade was composed of dozens of riders in colorful Western costume, the winning livestock from the Fair, mobile agricultural equipment and decorative floats. Through the courtesy of Southwestern Public Service Co. its famous Reddy-Kilowatt float also participated to the enthusiasm of the youngsters who got a kick from the voices that came from nowhere.

The Chamber of Commerce prizes for the best three floats were awarded to the 4-H Club, Senior High School Class and the Girl Scouts of America.

NANCY LADONE KEMP BADLY BITTEN BY DOG

Nancy Ladone Kemp, little daughter of Mr. and Mrs. Carl Kemp, was badly bitten about the face Friday while playing with a pet dog at the home of her aunt, Mrs. James Drake at Kress. The little girl was injured to the extent that a number of stitches were necessary. She returned home Monday and is recovering satisfactorily from her harrowing experience.

E. A. McJollum and John Jarrott left Wednesday for a bear(?) hunting trip to Cuba, N. M.

NAZARETH VETERANS VOCATIONAL SCHOOL GETS UNDERWAY

The Veterans Vocational School, which was recently organized at Nazareth, got off to a good start and according to Mr. I. H. Turney, coordinator of vocational schools of Tulsa, is the first school in this area to be full at the very start. Following is an excerpt from a letter from Mr. Turney in regard to the school.

The veterans' vocational school at Nazareth, Texas, is now getting started, and the teacher, Mr. R. H. Wells of Tulsa, Texas, reports a great amount of interest on the part of the members of the class. Some of these boys are working very worthwhile farm plans to be used within the next three years. The class is meeting in the high school, and everyone is helping to make the program a success. This class will meet twice a week at night, and during the week, in the daytime, they have group meetings. Anyone interested in this work is welcome to visit the class from time to time.

Following is a list of the boys in attendance:

"William H. Bellinghausen, Ernest G. Brockman, Charles J. Braddock, Herman J. Birkenfeld, Martin J. Brockman, Urban E. Klemm, Eugene L. Hochstein, Elmer J. Schulte, George R. Heck, Louis H. Brockman, Francis G. Wilhelm, Marvin F. Jones, Perry L. Hoyler, Andrew J. Schumacker, Laverne H. Wilhelm, Vincent C. Huseman, Lawrence J. Huseman, Robert W. Huseman, Alvin B. Huseman, and James T. Wethington."

Mr. and Mrs. J. O. Ayers and granddaughter, Yvonne Barton, left Monday for Brownwood to be with Mr. Ayers' father, Mr. J. R. Ayers, who is critically ill in a hospital at that place.

Bobcats Down Morton 32-6

Showing superiority in most phases of the game, the Bobcats eleven sweated out a 32-6 victory over the Morton Eagles Friday evening, September 19. However, the victory was not of the easy variety, and the boys to the South never quit fighting until the final whistle.

Although there was nothing sensational about the game, the systematic way the Cats went to work was pleasing to local football followers. Rice, Howell, Ziegler, and Warren all picked up plenty of yardage through gaping holes in the Eagle's forward wall, and one on the defensive side of the ledger, W. Thompson, Martin, Miller, and Fulfer played better than average games.

This Friday afternoon the local gridders journey to Canyon to do battle with the Calves of the West Texas High School; and though Coach Blaine's boys have two scalps tucked securely away, he is singing the blues this week to the tune of "Everything Happens to Me". First, Royce Dowell, nice reserve halfback, suffered a foot injury at Morton; next, fullback Herbert Howell is missing daily practices to show his shorthorns at the Tri-State Fair; but to cap it all off, Wade Thompson, standout end, is nursing an injured hip and will be out for some time. On top of this, West Texas High is no an ordinary worry. Airhart, 180 fullback, is the big boy in their offense which rolled over Dumas 20-18 the past week end.

Mr. and Mrs. J. O. Ayers and granddaughter, Yvonne Barton, left Monday for Brownwood to be with Mr. Ayers' father, Mr. J. R. Ayers, who is critically ill in a hospital at that place.

CHOICE is the keynote of today's career

Would you go to Europe, Japan or Korea?

Or would you stay near home? Any man who has had prior service in the Armed Forces may elect to do any of these things if he enlists in the Army now for 3 years or more. He can choose to be assigned directly to duty in Europe or with one of five famous Infantry divisions in the Far East. Or he may choose to be stationed near home for the first full year of his enlistment (where there are vacancies). Men with or without prior service may choose one of the famous combat divisions in Japan or Korea.

Would you select a career in aviation?

This you can do, and be guaranteed the training you choose before you enlist! Only requirements beyond regular physical and mental examinations are that you be a high school graduate, or that you are in the Air Force and can qualify. It's today's great opportunity to write your own ticket in the Air Force.

Would you want to learn to fly? If you are

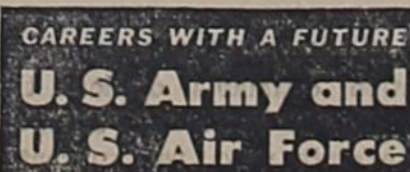

single, 20 to 26½, and have had two or more years of college education or the equivalent, you can become an Aviation Cadet with the U. S. Air Force. Nowhere else can you get better training, for nowhere else is aviation advancing as fast or as far as in our own Air Force.

Would you go to a leadership school?

If you have qualities of leadership, would you want to develop them to their fullest? U. S. Army Leadership Schools are now selecting likely candidates from servicemen to take these valuable courses.

The Army and Air Force are doing everything possible today to help each individual develop along the lines that he picks for himself. Army and Air Force training is thorough and take-home pay is better than most civilian jobs. Opportunities for advancement are wide open to every man in uniform. Make your choice today at your U. S. Army and Air Force Recruiting Station.

World's Largest Jersey Herd

SANDIA, TEXAS—The world's largest Jersey herd, owned by the four Knolle Brothers here, and containing approximately 2,500 cattle, has recently been classified for type under the supervision of The American Jersey Cattle Club, Columbus, Ohio.

A total of 394 milking cows, and 13 herd bulls were individually inspected by J. W. Ridgway, Dairy Specialist and G. G. Gibson, Extension Dairyman. Three days were needed for this work of comparing each animal with the breed's score card allotting 100 points for a perfect animal. The 407 animals classified averaged 83.96%, well above the average of the breed.

During the past year nearly 15,000 registered Jerseys in the United States were inspected for type under this program.

Walls Can Make Room Cozy or Cold

Wall board of several colors was used to turn unfinished attic into an attractive room for a child. Scalloped border was cut from the board.

WALLS can change the whole appearance of a room. As a background they play up or detract from the furnishings—make them look cozy or cold, writes Tharen Petersen in nationally-circulated Capper's Farmer.

"Choose colors, textures and patterns that will do the most for your home," she advises homemaker readers of the well known farm magazine.

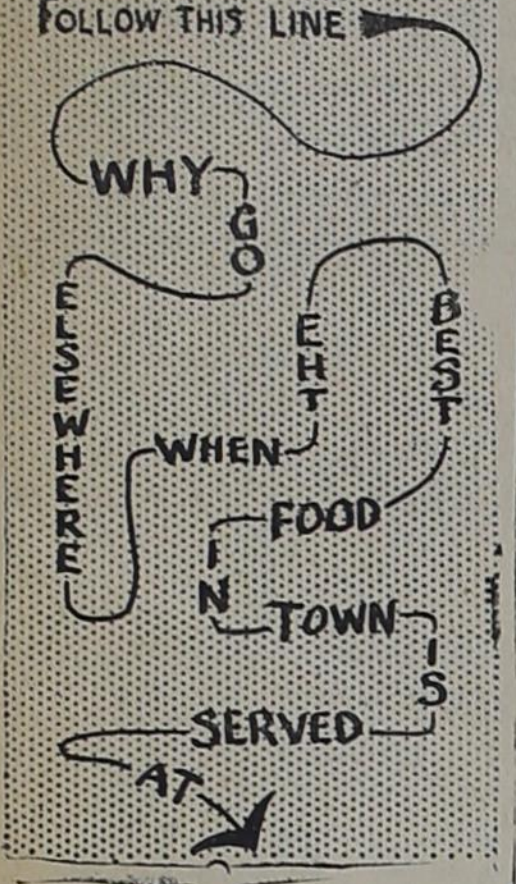

"For a warm, cheery atmosphere, you'll like walls covered with wood. If you hanker for modern, plywood is a possibility. For bathrooms or kitchen walls, take a look at plastic-coated wall paneling.

"Composition wall boards, usually made of wood fiber, come in various colors and sizes of panels. You can arrange them so the joints make vertical or horizontal lines, block or geometric designs. For a novel effect, use 2 colors together. Many of the wallboards insulate as well as decorate.

"For that clean, polished look in bathroom or kitchen, there's tile or tile-patterned board, in several colors.

"Wall linoleum is made with a tile pattern as well as in plain and variegated colors. Thinner than floor linoleum, it shapes to curved surfaces easily. It may be put on any sound, dry wall, around the tub and lavatory in the bathroom, and between the floor and wall cabinets in the kitchen."

Remodeling Erases Years From Old House

THIS cheerful, modern-equipped black, white and red kitchen with inlaid linoleum covering chromium-edged counter surface, is an example of what can be done to erase years from an old house by a smart remodeling job.

The Elmer Klever family did just that when Mr. Klever bought a farm in Scott county, Iowa, four years ago, Betty Lindsay points out in an article in Capper's Farmer, a leading farm magazine. The old-fashioned house was gloomy and run down. It had few conveniences.

So mother and dad and the three children, Marilyn, Joan and Al made plans for modernizing the house. Soon carpenters were at work.

The kitchen is just one instance of what was done inside and out, Miss Lindsay tells the readers of the

farm northeast of town. It is still very dry here. Even the Fall Equinox couldn't stir the weather to action.

WAYLAND HAS LARGEST ENROLLMENT IN ITS HISTORY
Plainview, Texas, September 21. Wayland College has enrolled 490 students for the fall semester. This announcement was made by President J. W. Bill Marshall who stated that this number represented the largest attendance in the thirty-eight year history of the institution.

Wayland is in the midst of an expansion program. McDonald Hall, a dormitory for men erected at a cost of some \$200,000 is open for the first time this fall. New departments in music, photography and industrial arts have been installed. Twelve new faculty members are on the campus.

Immediate enlargement plans include a forty acre demonstration farm, a new dining room, a new dormitory for girls and additional classroom space.

OH BOY!—Enough pies to satisfy any sweet tooth in the country and baked by the best cooks in Castro county. So you can see it is hard for J. Ryan Faust to make up his mind about what he wants. Eleanor Riley attempts to turn his head and, as often told, the stomach wins over beauty. Attempting to help the little man out are Mrs. L. B. Scarborough and Mrs. E. H. Bishop, both of Flag, and Mrs. Glen May of Jumbo. Ryan is the son of Mr. and Mrs. Maurice Faust of Dimmitt. Eleanor is the daughter of Mr. and Mrs. Furcha Riley of Spring Lake. News From The CASTRO COUNTY WIND EROSION DISTRICT

SUPERVISORS—Barber Eubanks, Chairman; R. A. Axtell, Secretary; W. V. Boston, Orbin Nowell, Florance Ball.

The following farmers received assistance in the laying out of their irrigation systems during the past week: Roy Vermillion, Bill Graham, Jr., L. G. Youts, Joe Collins, E. E. Mick, and D. W. Dieter. These farmers are among the many cooperators of the Castro County Wind Erosion District which is being assisted in the planning and application of conservation practices by technicians of the Soil Conservation Service.

Locations for the drilling of new irrigation wells were made the past week by technicians of the Soil Conservation Service on farms belonging to the following farmers: L. W. Farris, Roy Cluck, and Lawrence Schmucker.

L. G. Youts, Roy Cluck, Leo Witkowski, and E. E. Mick have recently worked out complete and coordinated farm plans for the appli-

cation of a program of conservative measures to their farms. Such plans include the working out of a crop rotation to keep the soil built up, stubble management, the retirement of thin land and sloping land, and terracing of sloping fields where necessary. These farms, as new cooperators of the Castro County Wind Erosion District, will receive further help in establishing these plans from technicians of the Soil Conservation Service, whose office is located in the Court House in Dimmitt. Such help will include running of terrace and contour lines, laying out irrigation systems, and receiving information and other assistance that may be available at the time the work is to be done.

An application for assistance in soil conservation work was received the past week from Lawrence Schmucker.

TULIA RITES FOR W. J. CARRUTH

Funeral services for W. J. Carruth, 70 years old, who died Friday night in Swisher County hospital, were held at 3 o'clock Sunday afternoon in Tulia's Central Church of Christ.

The rites were conducted by two ministers, M. C. Cuthbertson and James A. Fry.

Interment was in Rose Hill Cemetery under the direction of the Wallace Funeral Home.

Mr. Carruth, who was born Oct. 8, 1887, at Van Alstyne. He was married September 12, 1897, at

Farmington to Miss Julia Davis. The couple came to the Panhandle in 1901 and engaged in farming.

The Carruths lived in Pampa until five years ago when they moved to Tulia.

Besides the widow the surviving relatives include four sons, Otis, Glen and Ferral, all of Tulia and Clyde of Pampa, and two daughters, Mrs. Royal Crawford of Tulia and Mrs. Jack Mickel of Hydro, Okla. All 3 are active club members at present and have been for several years. This county is proud to be recognized at the convention. The ladies will return home on Saturday.

How to Defrost and Clean Your Home Freezer

HOME freezers can be easily defrosted and cleaned if a few simple rules are followed, points out the Country Home editor of Capper's Farmer, one of the best known farm magazines.

Here are some of her suggestions: For a complete cleaning, remove foods and place them in a cardboard container, or wrap them in newspapers. Scrape the frost from strips and liner walls with a spatula or piece of hard wood. Do not use an ice pick or any other pointed sharp instrument.

Clean the exterior regularly with a mild soap and water or a liquid wax which adds luster and protects the surface. Once a year—perhaps in the late spring—clean the surface of the condenser with a stiff brush or vacuum cleaner attachment.

To shut down a home freezer, turn it off. Remove the contents. Defrost and clean the interior, mopping water from the bottom. Leave the lid open so air circulates inside.

Lengthening Skirts

If hem creases are a problem when you lengthen skirts this fall, try steam-pressing, advises the Rural Home editor of nationally circulated Capper's Farmer. Press lightweight wool on the wrong side; a thick wool on the right side, she tells the readers of the farm magazine reaching 1,300,000 families.

Mustard Potato Salad A Hit for Club Lunches

An attractive platter of potato salad, cold cuts and deviled eggs will make a real hit at that next club luncheon, advises the Rural Home editor of Capper's Farmer, one of the best known farm magazines.

For added zest, make the potato salad with mustard cream dressing.

she writes. You can give it an extra tang, too, with diced raw cucumbers or crumbled fried bacon.

MUSTARD CREAM POTATO SALAD
1 medium potatoes
1/2 c. prepared mustard
1/2 c. evaporated milk
1/4 c. sugar
1/4 c. vinegar
1/2 tsp. salt
1/2 c. onions, chopped
1/2 c. celery, diced
1 tsp. celery salt

Cook potatoes in their jackets until tender. When cold, skin and dice. For dressing combine sugar, mustard, milk, vinegar and salt; beat thoroughly. Toss together lightly potatoes, onion, celery, celery salt and salad dressing to moisten. Chill before serving. Add hard-cooked egg if desired. Serves 6.

Cheese Ring Pleases Family's Eye and Palate

Give a salad a chance to star and it will, writes the Country Cooking Editor of Capper's Farmer, one of the leading farm magazines.

"This savory cheese ring, garnished with watercress, will please everyone's eye and palate," she points out in the magazine read by 1,300,000 farm families. "What's more, it is easily converted into a hearty main dish. Just add shrimp or tuna to the original recipe, or fill the center with a medley of fresh fruits."

SAVORY CHEESE RING

- 1 tbs. unflavored gelatin
- 1/2 c. cold water
- 1 tbs. sugar
- 2 tbs. lemon juice
- 1 tsp. salt
- 1 tsp. vinegar
- 1 pt. cottage cheese
- 1 c. evaporated milk
- 2 tbs. chopped pimiento
- 2 tbs. chopped green pepper
- 2 tbs. chopped parsley
- 2 tbs. minced onion
- 1/2 c. diced celery

Soften gelatin in cold water, then dissolve over hot water in double boiler. Add sugar, lemon juice, salt and vinegar. Blend cheese with milk; add to gelatin mixture. Chill until mixture begins to set, then fold in vegetables. Rinse ring mold with cold water, then pour in cheese mixture. Chill until set. Unmold, serve with Cooked Salad Dressing. Serves 9.

Glass Bricks, Chrome Modernize Bathroom

GLASS bricks, black and white tileboard and shiny chrome trimmings can help modernize rooms in even the oldest farm house, points out the Rural Home Editor of Capper's Farmer, one of the best known farm magazines.

Here a glass brick wall separates the bathroom from a small powder room adjoining. Plastic curtains repeat the green in the wallpaper.

Both bathroom and powder room were part of a remodeling job that

transformed an old-fashioned farm home into an up-to-the-minute residence, giving the family the most modern conveniences.

Calf Triplets At Sutton Farm

The following story from a Derbyshire, England, newspaper was received last week by Mr. John H. Wood, from his wife who is visiting her parents at that place:
An "Unusually Rare Occurrence"
CALF TRIPLETS AT SUTTON FARM

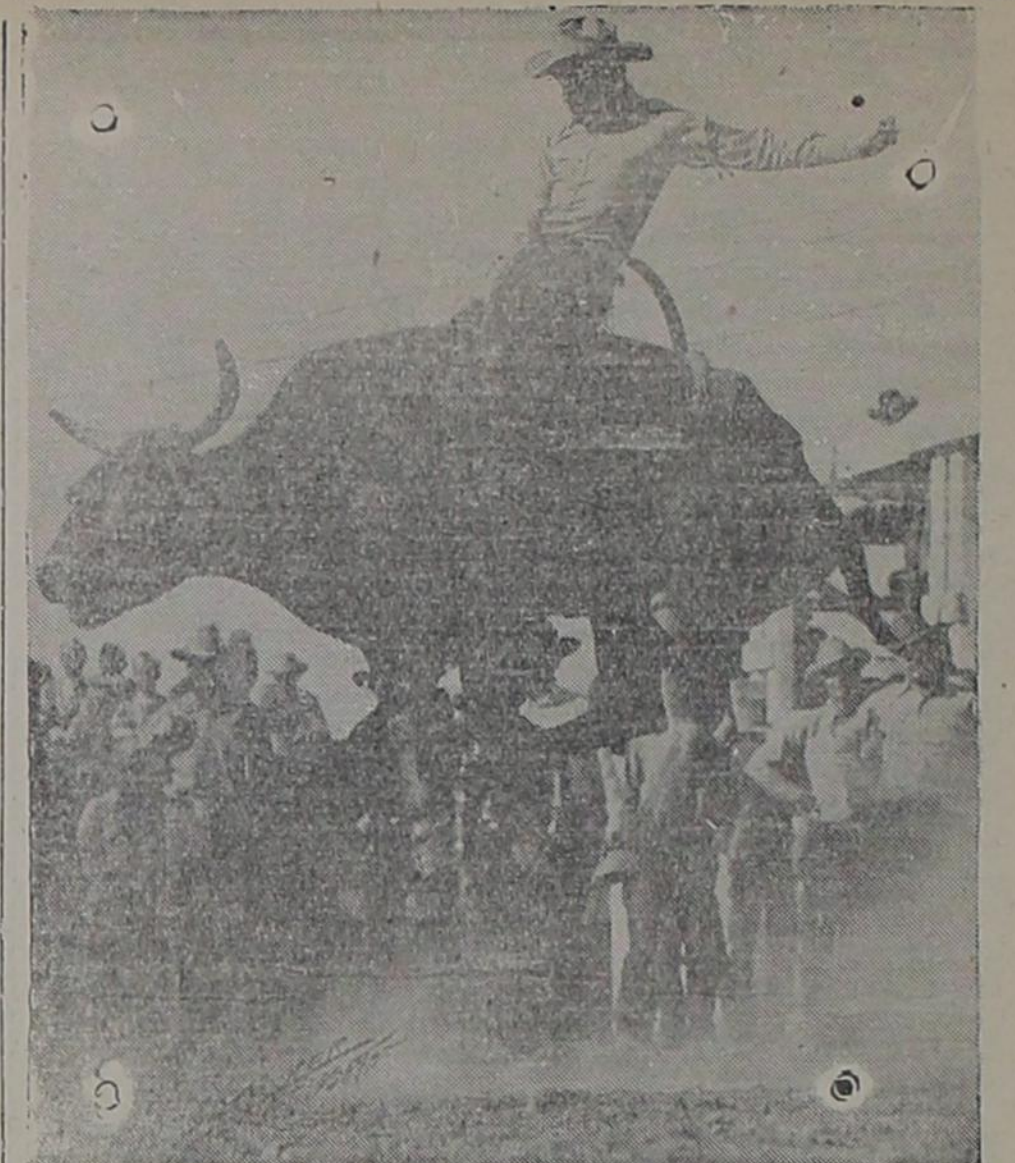

Triplets arrived at Sutton-on-the-Hill during the week-end when a Friesian-Shorthorn cross cow, belonging to Mr. Harold Goodall, of Fields Farm, gave birth to three perfectly formed black and white heifer calves.

The calves have already been named Fath, Hope and Charity by Mrs. Goodall, and today when they were allowed out for the first time they frisked about the paddock like three lambs.

The triplet calves are believed to be the first to be born on a Derbyshire farm, and although it is not unknown for a cow to have three calves, an official of the Derbyshire War Agricultural Executive Committee told a "Telegraph" reporter that it was an "unusually rare occurrence."

Mr. Goodall stated today that he almost expected twin calves—but not three.

Mr. Goodall's father was the first to see Fath, Hope and Charity. He went over to the cowshed in the early morning and found the three calves frisking round the mother and at first thought that more than one cow had calved.
Mr. Goodall will probably sell

Youngsters Shouldn't Drink Says Owner of Stork Club

Sherman Billingsley, above, owner of the famous Stork Club, believes it is not smart for teen agers to drink. He declares that young people who drink when they are not supposed to are only displaying their adolescence and immaturity.

"Don't drink because you think you are expected to," he states in an article which he wrote for July Good Housekeeping. "There is nothing particularly adult or sophisticated about drinking—there is something very juvenile and adolescent about drinking when you can't or aren't supposed to."

Why debate?.. OIL-PLATE!

Molecular Attraction can fasten a special lubricant in Conoco Nth Oil so closely to metal surfaces that your engine is actually Oil-Plated!

Molecular Attraction resists gravity, keeps Oil-Plating up on cylinder walls . . . so it can't all drain down, even overnight! That's why Nth Oil gives EXTRA protection from "dry" starts . . . EXTRA protection from carbon and sludge . . . to wear . . . EXTRA smooth, cool, silent miles!

Conoco Nth Oil-Plates. So, make a date to Oil-Plate . . . today!

TURNING Sour GAS INTO A Mighty INDUSTRY

Carbon black produced in the area we serve dominates the industrial scene.

Only in this area—with its vast resources of natural gas—is the mass production of this vital material possible. "Sour" gas, once considered worthless (on account of its high sulphur content), has become the basis of a great industrial operation. The automotive, rubber, paint and ink industries are but a few of those dependent on carbon black.

We have so much confidence in the carbon black industry—and other industries we serve, that we are investing 35 million dollars in a building program. This expansion program in our territory will bring more dependable electric service to industry and better living—electrically—to everyone!

YOUR CAR IS LIKE A BABY

It Deserves THE BEST OF ATTENTION

Phillips 66 Service Station

BOYCE HOUSE

Did you ever hear of "dropping the pigeon?" Back in Memphis, Tenn., when I was a young reporter, "dropping the pigeon" was frequently reported to the police. How the name was derived, I don't know but it was a swindle in which the sharpsters and the victims were negroes. The scheme worked in this way:

A cotton picker, with his season's earnings, alighted from a train and as he entered the railroad station, a well-dressed negro perceived from the new arrival's clothes and his gawking at the sights that he was a greenhorn so he stepped forward and said,

"Jedge Brown, when did you get to the city?" and then he said, "Ah begs yoah pa'don, suh, but you looks so much lak mah friend, Jedge Brown, de distinguished law-yah from Grenada dat Ah mistook you."

Of course, the rustic was flattered at having been mistaken for so distinguished a personage and then his new friend said, "Ah'm goin' to walk up town; ef you would care to accompany me, Ah'd be glad to point out de sights", an invitation which was accepted.

They had walked only a block or two when the city man stooped down quickly and picked up a bill-

Be Patient About Your Baby's Growth

IF YOU'RE concerned about how your baby is growing, just give him the best possible care and be patient, advises Beulah France in an article in Capper's Farmer, one of the leading farm magazines. He will develop only as rapidly as nature intends.

"How fast your baby grows depends on 2 things," she writes in the magazine read by 1,300,000 farm families. "One is heredity—traits he inherited from both sides of the family. The other is environment—baby's surroundings—which include the food he eats and the treatment he receives."

In the early months, once a week is often enough to weigh your baby, she says. Later, once a month will be sufficient. Baby usually doubles his birth weight in 6 months. At one year he should weigh about 3 times his birth weight.

Your baby may begin to sit alone for a moment or two at a time when he is 7 months old. But he must not be propped and left that way. He will sit without support

and walk alone when his bones, nerves and muscles are ready for the effort. Between 12 and 18 months he will try to walk. By a year and a half he may be toddling. Between the ages of 2 and 3 he'll become an accomplished walker.

Some babies repeat a word or two as early as 10 months. But they generally don't know what they are saying. By a year, your child may call several things by name, including his father and mother. But do not expect a child to use phrases before he is 18 months old. Even babies of 2 years may not speak clearly.

"Don't use baby talk with your child," Miss France cautions. "Speak slowly, correctly, as you want him to speak when he grows up. It's unfair to teach a child a language he must later discard."

fold, then jerked his companion into a doorway, saying, "Let's git in heah befo somebody sees what we found." In the billfold was a fifty dollar bill. "Huh, no name er address; we can't return it, so it's ouah's," said the finder. "You has brung me luck so we'll split it." But he didn't have change. The visitor however produced \$25, so his friend pocketed this and handed him the fifty-dollar bill. A few minutes later, the finder of the billfold shook hands with him cordially and told him goodbye. When the country negro made a purchase, he learned that the bill was counterfeit. The billfold had of course been dropped by a confederate of the smooth talker.

During a trial for theft, the de-

fendant suddenly changed his plea to guilty. The jury came back in a little while with a verdict of "Not guilty." The judge said, "But the defendant confessed." "Ashaw, judge", replied the foreman, "We all know Bill and we know what a big liar he is."

Rheumatic Heart Disease On Increase

Austin, Texas, September 25.—Rheumatic heart disease is now the first cause of death among children aged 10 to 14, and is second only to tuberculosis at ages 15 to 25. Despite the importance of this disease its epidemiology is not completely established. No vaccine such as those that prevent typhoid, diphtheria, smallpox, and whooping cough has yet been developed for its prevention or control. We do know, however, some of the danger signals and with the physician's accurate diagnosis results of the disease may be prevented.

Exposure to frequent chilling, damp or overcrowded living quarters, a poor diet, an attack of scarlet fever, a bad cold, or other infection caused by certain streptococcus germs are likely to be predisposing factors in the appearance of rheumatic fever.

Dr. Geo. W. Cox, State Health Officer, points out that in general the danger signals of rheumatic fever are pain and swelling in the joints of the knees, ankles, elbows, or wrists. The pain usually is felt in one of these centers and spreads to the others. Oftentimes a child will get irritable and cross without any visible signs of a good reason for this attitude; he may cry easily or develop habits of nervousness. A physician should be consulted at once in such a situation, for these symptoms may be the beginning of rheumatic fever.

According to Dr. Cox the best safeguards against this disease are to have each child examined at least once a year by a physician, to have the right kind of food and plenty of rest. When the disease is suspected of being present, a doctor should be consulted at once, and if he prescribes complete bed rest, his advice should be implicitly followed.

WILLIAM H. KEY ENROLLS AT SAN MARCOS ACADEMY

San Marcos, Texas, September—Cadet William Harold Key, 13-year old grandson of Mr. and Mrs. W. A. Wright of Dimmitt, has enrolled for the 1947-48 school year at San Marcos Academy, a private school for boys and girls from the first grade through high school.

During the year, he will be enrolled in small, restricted classes,

and will participate in a military program rated "Excellent" by regular Army officers.

Cadet Key first entered the Academy in 1946 and is now in the eighth grade.

Mrs. Ivan Hudson, daughter of Mr. and Mrs. Roy G. Smith, has returned to Dimmitt after undergoing a major operation in Hereford.

ON SAVING FOOD

ROBERT B. Hershey President Truman and the responsible leaders of both political parties have called upon the people of the United States to voluntarily conserve our food supply. This step is absolutely necessary if we intend to save those in foreign lands who would starve during the coming winter; it is essential too if we wish to keep those miserable and always hungry people from completely falling into the communist camp. Food may well become our most valuable and powerful weapon in the coming months. We will give from our surplus in a humanitarian way, but we will not overlook, in so giving, the practical aspects of the situation.

Now this plea from our government must apply to all of us, whether we live in a small town or large city. As individuals it may seem that our small savings will be insignificant, but collectively one day's saving from wasted food alone would be enough to relieve one foreign country several days. If all of us in the land refrained from eating meat one day we would save 55,000 steers. Imagine if you can how much that would aid some starving, undernourished land. Collectively and of our own initiative we can aid the balance of the world by eating and wasting less food each day, and in so doing we will in no way undermine our national health.

We, the most wealthy and at the same time most profligate nation in the world, are now face to face with the issue of starvation in the balance of the world. We must meet this challenge voluntarily, soberly and maturely in order that our responsibilities to a starving world can be met. If we do not, then our government may find it necessary to ration our food involuntarily as during the late war.

Austin, Texas, September—Conference B schools in the University of Texas Interscholastic League will have their own regional and state meets for the first time in 1948, Roy Bedichek, director, announced. Dates for the State Meet will be the same for Conferences AA and A, and BdMay 7 and 8, in Austin.

Now is the time to get your heating equipment ready

FOR WINTER

It should be thoroughly cleaned, checked, adjusted, and if necessary, repaired. Call your plumber or heating contractor NOW and have this done before the "big rush."

If you have a floor furnace, and wish to clean it yourself, it's easy this way: Lift the grill and remove accumulated dust and spiderwebs with vacuum cleaner and suction hose attachment.

Now is a good time, too, to light your gas furnaces

You'll be glad, later, if you go ahead now and light the pilot lights on your gas floor furnaces or central gas furnace. The quantity of gas burned by these tiny pilots is so small that you'll not be able to tell the difference on your gas service bill. Then when cold weather does come, you'll be ready.
