## MAD DOG KILLED IN NORTH SIDE AREA

### CITIZENS ARE ASKED TO TAKE PRECAUTIONS AGAINST RABIES

In the Terry Apartment Area a dog was killed that acted strange and was foaming at the mouth, by Frank Amos, City Employee.

Dr. W. F. Watkins stated to The Times today that "there is not a single case on record where a person infected by the bite of a mad dog obtained cure after the period of effective anti-rabi treatment had passed. The results in every case was death." The Doctor stated "the worst place to receive a bite is on the hands, feet or

head. If bitten in those places death comes quick. The Doctor stressed that all dogs should be vaccinated at once and if the dog cannot be vaccinated then it should be destroyed to safeguard the welfare of the city. He added, "if your dog acts strange, pen it up at once, and keep a watch over it so that it cannot escape. Call the proper authorities so that the animal can be examined and disposed of. Please keep it away from young children who cannot protect themselves."

Defined by Joseph Welfeld, M. D., F.A.C.S., Associate Prof. of Loyola University of Medicine: Rabies is an extremely fatal infectious disease communicated to man by bite of a rabid animal, usually a dog. The period of incubation is six days to one year. The symptoms are difficult to swallow, malaise, chronic spasms of respiratory muscles, anxiety, depression, increased irritability, pulse and temperature, delirium, paralysis, coma, and finally death.

There has never been a recovery.

If you have a dog have it vaccinated now. Your dog may be very kind and playful but if infected it will have a changed personality. It is not worth the risk to have your children play with an animal that could be rabid.

If anyone is bitten he or she should at once contact their doctor and start taking treatment. A vaccine has been developed if it is started early enough.

### WRESTLING TO BE HELD EACH WEEK IN AREA

A new recreation center will be opened in Eastland Monday, April 5, Henry Pullman, owner, announced today. Pullman said that the center would be called the Sportsarena. It is located in the building formerly occupied by the Eastland Auto Parts.

Pullman said that a nationally famous wrestling card would be brought to Eastland on that date. "We are going to bring top-notch wrestling cards to Eastland each Monday from now on," the prominent Eastland businessman said. "If it's recreation Eastland wants, it will be recreation that Eastland will get."

Pullman said that Eastland would receive the same top cards that the larger cities get. He termed the Sportsarena a project for Eastland county.

Pullman said that he also hopes to bring other sports events to Eastland in the near future. One thing that is definitely planned is a big musical show one night each week. Skating and other sporting events are also being planned.

In the main event Duke Keomuka will take on Cowboy Carlson in a two out of three fall, 60 minute time limit.

In the semi-final event, a two out of three falls, 45 minute time limit affair, Super Sto will meet Joe Scarpello.

Big Humphrey and Larry Hamilton meet in the opener, a one fall, 20 minute time limit.

Workmen have been busy for two weeks getting the building into shape. The building will have a seating capacity of 1,400. Included are 800 single reserved seats.

Pullman said, "It's our desire to bring Eastland top-notch recreation. We plan to offer clean, wholesome events for the entire family."

A modern concession stand is being installed. Refrainments will be available whenever the Sportsarena is open.

### PAN AMERICAN DAY WILL BE CELEBRATED

The Ranger American Legion post will celebrate Pan American Day here this year.

Pan American Day is to promote good will between the United States and its neighbors south of the border.

Highlights for the day will be a parade scheduled for four o'clock on April 15th, in downtown Ranger. The parade will be sponsored by the American Legion Post and everyone in this city has been asked to participate. Any business house, organization or individual that would like to enter a float in this parade, please contact American Legion members by calling number 1 or 245.

First and second place awards will be presented to the best two floats in the parade.

### Garden Ideas for All Town Farmers

Urban dwellers who have a yen to leave the city for life in the country can put many recommended farming practices to use in their own home gardens.

Pointing to March as garden planting month, John E. Hutchison, extension horticulturist, says yields of many common vegetable crops can be boosted substantially by following a program of garden management.

Take white potatoes, for example, Hutchison says. They are fairly hardy to cold weather and may be planted four to five weeks before the last average killing freeze.

Certified planting seed which have met certain high standards are recommended and insured against introducing seed borne viruses and other diseases into garden plots.

Potato seed pieces weighing about one and one-half ounces should be planted. That's about a quarter of the average size spud, Hutchison says, and blocky seed pieces are recommended over wedged shaped types.

They should be planted 12 to 15 inches apart, three to four inches deep and in rows three and one-half feet apart.

Deep plowing of eight to 10 inches is essential in preparing a seedbed for potatoes. It loosens up

**CAPITAL POWWOW**—George Osceola, councilman of the Seminole Indian tribe in Florida, rests during his visit to Washington, D. C. Osceola, and other Seminoles, came to the Capital to discuss the proposed ending of federal supervision of Seminole affairs. The majority of Seminoles do not favor the proposed legislation.

## Pair Seized In Eastland With Illegal Dope

Charges of possession of marijuana were filed against two California men in Eastland late Monday afternoon following their arrest by Eastland City Police Sunday.

### PLAY BALL!! LITTLE LEAGUE

There will be a meeting tonight at seven thirty at the First Baptist Church in Ranger for the purpose of starting a little league baseball team in this city.

The little league activity is nationally famous and it needs the support of every group in this city to make it a success.

The Little League had its beginning in 1938, in Williamsport, Penn., with Carl E. Stotz. The next year, 1939, the idea took form; and with a few friends to help him Mr. Stotz organized a three team league. Since the end of World War II Little League has had an amazing growth. For there are now 200,000 boys in uniform; and there are leagues in forty eight states, in the Philippines Canal Zone, Hawaii, Alaska, Cuba, Korea, and in Canada.

Little League is more than an opportunity for boys to have fun playing baseball and for their young friends and grownups to have fun watching them. There is a bigger idea back of it than this. "Little League baseball represents the real spirit of play. It is the spirit of free man in his own free country, willing to compete against another free man and letting the better man win."

Boys who belong to the little league have a very high standard of behavior set for them in the contract that they must sign and have countersigned by their parents. For instance, players must keep themselves clean physically and mentally (some definite instructions are given); they must be gentlemen at all times (no rudeness for these young players) they must have high moral ideas.

Little league is big baseball adapted to the mental and physical capacities of young players. The regulations have been carefully thought out and planned. For instance, bases are sixty feet apart instead of the regular ninety feet; special bats have been designed; steel cleated shoes are barred; a regulation game is six innings. There are many other strict rules to provide for the welfare of the youngsters.

Each league is a unit in itself, a community project.

No fee is charged for admittance to the games and they are not allowed to pass the hat.

Every year there is a world series, that takes place in the original Little League Base Ball Park at Williamsport, Penn.

Robertson was fined in Justice of the Peace Jim Bogrus' court Monday for drunkenness and a n d Barton was fined for driving a car with an out of date license plate. Both were assessed fines of \$15 plus court cost of \$14.50 and \$15.

Robertson said he and Barton started out from Porterville in a 1947 Chrysler sedan. He told of picking up a man and his wife who were hitchhiking and of stealing two automobile batteries in Arizona. Then he said the four went to Juarez, Mexico where a "Mexican who I didn't know offered to sell me the marijuana for \$2."

Robertson said he put the dope in his coat and then the four started out for Fort Worth. He stated he was alone when he bought the marijuana.

Between Baird and Cisco, Robertson said he stole another battery from "what I thought was an army truck." The four drove on to Cisco where they stopped for gas. Robertson and Barton jumped in the car after servicing it and left the two hitchhikers behind. The hitchhikers phoned Cisco police and told them that Robertson and Barton had taken their baggage. The Cisco police radioed ahead and Patrolman Johnson made the arrest when they drove into Eastland. The pair were searched and the marijuana and a bottle of liquor were seized.

District Attorney Nuesse said he would recommend that bonds of \$5,000 be placed on each of the two suspects.

Robertson was fined in Justice of the Peace Jim Bogrus' court Monday for drunkenness and a n d Barton was fined for driving a car with an out of date license plate. Both were assessed fines of \$15 plus court cost of \$14.50 and \$15.

Mrs. Crim inherited 1,100 acres of Rusk county farm land, and it was there that the giant East Texas oil field's second discovery well was drilled and set off the fabulous East Texas boom. There are now seven producing wells in the yard. Nearly 200 wells were drilled on the property.

**LIFE AS A SENATOR**—One of the most controversial figures in the government today, Sen. Joseph R. McCarthy of Wisconsin, shakes hands with his police motorcycle escort as he returns to a Chicago hotel after a speaking engagement in that city. A recent anonymous threat against the senator has caused police to take extra security measures wherever he goes.

### Youth Activity Meeting Tonite

There will be a meeting tonight at the Ranger Chamber of Commerce office in Ranger at 7:30 p. m. of all civic organizations of this city for the purpose of discussions on the Youth Center.

Dr. W. F. Watkins announced to The Times today that the meeting will be adjourned in time for the Little League Baseball meeting to be held at the First Baptist Church.

It is necessary that all civic organizations have representation at this youth meeting.

### Mrs. Crim Dies At Kilgore Home

Mrs. Lou Della Crim, 86, an East Texan since 1900, died at 2:40 p.m. Sunday in her Kilgore home. She had been ill for several months. Mrs. Crim was the sister of Mrs. Saunders Gregg and L. N. Thompson of Ranger.

Funeral services were conducted at 2 p.m. Monday at First Presbyterian Church in Kilgore with Rev. S. C. Guthrie officiating, assisted by Rev. Cecil H. Lang of Dallas, Mrs. Crim's former pastor. Burial was in the Thompson family cemetery at Laird Hill near Kilgore.

Survivors include three sons, J. Malcolm, John T. and Liggett Crim, all of Kilgore; a daughter, Mrs. P. K. McIntosh of Eldorado; two brothers, Haxie H. Thompson of Trinity and Liggett N. Thompson of Ranger; two sisters, Mrs. Saunders Gregg of Ranger and Mrs. J. C. Kelly of Waco.

Mrs. Crim, known to Kilgore residents as "Mama Della," was a charter member of First Presbyterian Church in Kilgore and bore the honorary title of "grand old lady of the congregation."

She was the daughter of Capt. John Martin Thompson, founder of an East Texas lumber empire. Her husband, W. R. Crim, died in 1918.

Mrs. Crim inherited 1,100 acres of Rusk county farm land, and it was there that the giant East Texas oil field's second discovery well was drilled and set off the fabulous East Texas boom. There are now seven producing wells in the yard. Nearly 200 wells were drilled on the property.

Warden also showed the first place bull in the class of one to two-year-old Hereford sires.

A Southdown owned by Mark Kirkin of Cisco, was named grand champion of the fat lambs class. The class was graded only on a packer basis. All other fat lambs were grouped into classifications of prime, choice, good and medium.

Oscar Penny of Cisco and Leo Smith of Eastland took top honors in the swine division, showing the grand champion female and grand champion male, respectively.

Jerry Sims of Eastland showed the reserve champion of the dairy division. His cow, a three-year-old Jersey with a three months old calf, was given to him as a calf by the Ranger Junior Chamber of Commerce in its county-wide dairy youth program.

Adults were eligible to compete in the show, but received only

### Last Rites For Robert Adams Held Sunday

Funeral services were held Sunday at the Eastland church of Christ for Robert Adams, 56, who died Saturday while visiting a neighbor about three miles east of Eastland.

Mr. Adams was a well known farmer and rancher.

Services were conducted by F. Fulbright, formerly minister of the church of Christ in Olden, where Mr. Adams was a member. Burial was in Alameda Cemetery with Hamner Funeral Home in charge.

Survivors include his wife, a son, Bill, of Fort Worth and two grandchildren.

## Hereford Steer Was Named Grand Champ

A 1,040-pound 12-month-old Hereford shown by Clayton Steker of Eastland, was named grand champion steer at the Eastland County Livestock Show Saturday and an 11-month-old, 970-pound Shorthorn showed by Charlotte Hilley, took reserve champion honors.

The grand champion steer in the junior beef cattle division was bred by J. W. Jones of Eastland. Charlotte's reserve champion was bred by her grandfather, C. M. Carraway Sr., of DeLeon. Last year Miss Hilley's calf won top honors at the Eastland show.

Judge Walter Rice, field representative of the Fort Worth stock yards, praised the fat steer field. He termed the two top animals as slip and tuck, but said he believed that the grand champion calf "will show a higher dressing percentage."

McCain was general show superintendent and Luther Wilson and Bob Lavender, both of Eastland, were his assistants.

Observers termed the show the most successful ever staged in Eastland county.

## RATE CHANGE ANNOUNCED ON HAIL AND WINDSTORM CLAUSE

Paul H. Brown, Fire Insurance Commissioner announced today three new tables of rates will be in force on the hail and windstorm deductible clause.

Under the new table the \$50 deductible clause will be slightly higher. The \$100 deductible clause will be at a reduced rate under the new tables and the cost of full coverage has been slightly reduced. Full coverage is still higher than both the deductibles.

The deductible clause came into existence because of heavy losses under this coverage several years ago. Several insurance companies moved out of the state because of the losses they were taking under the extended coverage part of the fire insurance policy. Most of the heavy losses were reported in the coastal area.

### Homespun

By UNCLE BOB

Hold on just a minute while I get down off my horse. Whoa! Boy!

Well it shure is spring of the year. I went out yesterday with a jack hammer and four sticks of dynamite to dig some fishing worms. At two thousand feet I met the first worm. Believe it or not I didn't take him. He had calouses all over from struggling down 2,000 feet to find moisture.

Public interest should not be allowed to die down until another wave of juvenile delinquency a-rouses it again. We must make plans for our youth. Tonight there will be a meeting at the First Baptist Church for the purpose of starting a little league baseball club here in Ranger. This is a wonderful program and every civic minded mother, father, man and woman of this city should be there. That is if you think anything about your children. If you do, be there, and lets start the ball rolling.

Things shure change. It use to be that Amos 'n Andy were good for a laugh, five nights a week over radio, but that's old fashioned now. People are now televisioners. Those days are gone forever. Well, it was good while it lasted. At Providence, Rhode Island a television screen the size of a postage stamp attracted thousands when put on display. The picture was sharp and clear. I am considering one to carry in my watch pocket so that I want miss anything.

Those two suspects picked up in Eastland Sunday with the Mezcal (genuine Mexican liquor) are probably kinda sick at their stomachs. When police examined the bottle they found a nice juicy inch-long worm.

Moral: Don't drink with your eyes shut.

I have an awful hard time spelling. The reason that you seldom see the word impecunious in this column is that I can't spell it, and don't like the sound of it.

Before I get on my horse and slowly ride away here is your thought for today.

The test of civilization is not the cities, nor the size of the cities, nor the crops—no, but the kind of man the country turns out—Ralph Waldo Emerson.

### Donald Brooks Completes His Basic Training

Donald C. Brooks, 19, son of Mr. and Mrs. Charles F. Brooks, 609 St. Meira, Eastland, is completing his Air Force basic military training course at Lackland Air Force Base, the "Gateway to the Air Force."

Lackland, situated near San Antonio, is the site of Air Force basic military training for men and women, headquarters of the Human Resource Research Center, and home of the USAF Officer Military School.

His basic military training is preparing him for entrance into Air Force technical training and assignment in specialized work. The course includes a scientific evaluation of his aptitude and inclination for following a particular vocation and career.

### Weather

The weatherman predicted much colder weather for Eastland county tonight and Wednesday with scattered showers and thunder-showers today and Wednesday. The low tonight is expected to dip to about 40.

### Champion Cherry Pie Baker

An 18 year old high school senior, Beverly Jones of Ogden, Utah, displays her prize winning pie. Beverly entered and won the 22nd Annual Cherry Pie Baking Contest held in Chicago over other champion cherry pie bakers representing every state in the Union.

Beverly, who is an accomplished cook, used the following recipes in her outstanding cherry pie:

- Filling For Two Pies**
- 1 1/2 cup sugar
  - 1/2 teaspoon salt
  - 1 cup cherry juice
  - 1/2 cup cornstarch
  - 1/2 cup cherry juice
  - 2 tablespoons lemon juice
  - 4 tablespoons butter
  - 1/2 teaspoon nutmeg
  - 1/2 cups red sour cherries
  - Red coloring if needed
- Heat in a saucepan the sugar, salt, and one cup juice. Mix together cornstarch and remaining juice and stir into the first mixture. Cook 5 minutes. Remove from heat and add lemon juice, butter, nutmeg and coloring, if needed. Carefully mix in the well-drained cherries. Pour into two pastry-lined pie pans (recipe below). Moisten the pastry around the edge with water before placing the top pastry on pies. Trim off any surplus pastry and crimp. Bake at 425° F for 30 minutes.**
- Crust For Two Pies**
- 3 cups sifted flour
  - 1 1/2 teaspoon salt
  - 2 tablespoons sugar
  - 1/2 teaspoon soda
  - 1 cup Swift's Silverleaf Lard
  - 1 egg
  - 2 tablespoons lemon juice
  - 4 tablespoons water (about)
- Sift into mixing bowl, flour, salt, sugar, and soda. Add lard and cut with a pastry blender until the mixture is in even bits no larger than peas. Beat together in a bowl, egg, lemon juice, and water and add a small amount at a time, to the flour mixture. Toss lightly with a fork after each addition of liquid. Continue the procedure until the pastry mixture is moist enough to form a ball when patted together. Divide the dough into 4 parts. Roll each part on a floured canvas to 1/8 inch thickness. Line two pie pans with two of the circles. Cut remaining circles in 1/2" strips for lattice-top.**

### Light Your Piano By Tested Recipe

Good lighting may not improve your natural talents at the piano but, if you follow music, it can make your playing easier. For a "new look," try a pair of torches with spinet pianos. Not only do these lighting units provide a graceful decorative note but, when placed as recommended in General Electric's piano lighting recipe, they'll evenly light the entire keyboard and music rack. Choose torches at least 66 inches tall. Shallow reflectors which should be dense and white inside must be between 12 and 16 inches in diameter. For best lighting results make sure they use 100-200-300-watt three-life bulbs. Place torches in line with the lower edge of the music rack, 34 inches to the left and right of the center of the keyboard. When not using the piano, lighting specialists point out that lamps may be turned down to the low level. When on low the torches will give soft amounts of light for conversation.

### The tire sensation in 1953!

Now Goodyear announces still greater improvements!

### New 1954 All-Nylon Cord Super-Cushion

Costs only a few dollars more than a standard tire!

No other tire at or near its price can match it!

- Hits test curb at 55 mph! Not a cord broken! This is just one of the punishing tests this All-Nylon Cord Super-Cushion has taken! In fact impact blowouts are almost unheard of with All-Nylon Cord Super-Cushions.
- Up to 12% more mileage! This mileage boost comes right on the heels of a 21% increase in 1953. Total... almost 1/3 more safe mileage than most motorists ever experienced before! That's a real saving in your driving costs.
- Quieter ride! 15% greater traction! That squeal on turns has been practically eliminated by a new anti-vibration tread design. And this new tread has 1806 inches of non-skid edges, 880 deep-cut safety slots for 15% greater skid resistance.

Even more mileage than last year!  
Quieter ride - less squeal on turns!  
Much greater skid protection.

There's a big difference in Nylon cord!  
Only Goodyear has Triple-Tempered 3-T Nylon!

Nylon is the best tire cord - if the stretch can be controlled. To control the stretch in Nylon cord, Goodyear has developed an exclusive process of chemically treating the cord and then putting it through a triple tempering process involving Tension, Temperature and Time. The result - Goodyear's Triple-Tempered 3-T Nylon Cord - the Nylon cord that is fully controlled at its point of maximum strength and resiliency.

**Music Festival Attracts Many Contestants To Ranger**

The Junior Music Festival of the Sixth District of Texas Federation of Music Clubs met at the First Methodist Church in Ranger, Saturday, March 27, for its annual meet at 9:15 a.m. with approximately four-hundred present, including two hundred and twenty-five contestants.

The morning program was composed of "The Prelude - Scherzo" from "Suit for Organ" by De Lamarter, by Cecil Lynn Robinson; the invocation by Dr. Finis A. Crutchfield of the First Methodist Church; National Junior Hymn and The Collect by the assembly; welcome to the visitors by Dr. Price R. Ashton, president of Ranger Junior College; welcome to visiting cities by Dr. Calvin C. Harris, mayor of Ranger; a message to the juniors by Mrs. Coleman, district junior counselor and by Mrs. H. Leo Tucker, sixth district president.

The festival events began at 9:30 with the following judges: for piano, Winston Redwine of Tarleton State College, Charles Kiker of Breckenridge, Mrs. Waddell of Putnam, Miss Hightower of Ranger; Mrs. George Bledsoe of Eastland; for voice, Charles Vandervoort of Tarleton State College; for violin, Mrs. George Bledsoe of Eastland; for piano, James Hobbs of Abilene; essay Mrs. R. L. Hamrick of Ranger Junior College; for dance, Mr. and Mrs. J. T. Varner of Ranger.

The noon luncheon was presided over by Dr. Price R. Ashton who introduced Miss Vivian Simmons, soprano, who sang "Indian Love Call" and Mrs. Fred Steffy who gave a cornet solo which showed marked ability in lip control. The tables had most interesting place cards of a young lady seated at a grand piano. The inside of fold carried the program. At each place were piano symbols, the sharp, the flat, the bass and treble cleff signs, made of black drawing paper and fastened to a toothpick which was inserted in a gum drop. Chrysanthemums, irises,

and jonquils were placed at intervals on the tables.

The afternoon program began at two o'clock with Miss Mary Ellen Deffebach playing "Toccata in 4 minor" on the organ. Mrs. H. Leo Tucker, sixth district president, told the group that "Texas our Texas" was submitted to fifteen judges during the governorship of Pat M. Neff. It was one of seven songs of a group of three hundred which was held over for consideration during a change in administration. The next call brought in thirteen-hundred songs. Again "Texas our Texas" by Marsh and Wright was submitted. This time it was selected as the best song and was adopted by the 1929 Legislature as the state song. This is its silver anniversary of adoption. The group then sang the song. The club pledge was next on the program followed by Sweetwater's accordion ensemble which played "Gay Accordion"; string

**Biggest Bargain**

in your FAMILY BUDGET

Electric service is the biggest bargain in your family budget. While most other living costs have soared sky high, the price of electricity is substantially the same as it was before the war.

Most folks have taken advantage of low-cost electricity. They have added many new appliances for better living. The average household today uses much more electricity than a few years ago.

Your increased use of electricity, our modern power system and the "know how" of the men and women at Texas Electric Service Company are the biggest reasons we've been able to keep the price of electric service down.

The price you pay for electricity hasn't gone up like other living costs. If your electric bill is higher, it's because you're using more electricity, to save time and energy and enjoy new comforts.

That's why we say, "Electric service is the biggest bargain in your family budget."
