

35TH YEAR

RANGER, TEXAS, TUESDAY, SEPTEMBER 14, 1954

PRICE FIVE CENTS

Bulldogs Entertain Brewer Bears Friday

The Ranger Bulldogs Monday began pointing toward the first home game of the season when they will meet the Brewer High School Bears of Fort Worth.

Coaches Boone Yarbrough and Stubby Warden started Monday's practice session with a blackboard drill on Brewer, and a review of the mistakes the Bulldogs made against the Wolves of Colorado City, Friday night as they took a hard drubbing.

The result of the Colorado City game, 35 to 6, was the largest margin of defeat for a Bulldog team in several years.

The Bulldogs made plenty of

mistakes in the opening game of the season, as their play of the night was a spotty. Yarbrough pointed out that four tackles at the proper time, which were missed, would have brought Colorado City to more even terms.

The Brewer Bears will be anything but easy, according to scouting reports of their Friday night session when they romped over a good Granbury High School eleven by a score of 27 to 0. This was the second victory for a Brewer football team.

Brewer High which is located in the section of Fort Worth generally known as White Settlement has fielded a football team only three years, but the game Friday night was the second time they had been on the winning side of a score. It is a Class AA team in District 10. Until Friday night had been looked upon as a team to be used as a stepping stone for the other top contenders of the district, including, Birdville, Diamond Hill, Handley, Northwest and Rosen Heights.

The Bulldogs can expect a real battle on their hands now that the Bears have a taste of victory and go onto the field with a group of boys who have had about three years of experience and have played the underdog all the way.

The Bears coach, John Bray has this year shifted a lad by the name of Stafford Reeves from end to tailback and it made a lot of difference in the game against Granbury. Four other players on the Bear team are reported to have stood out. These were Billy Howe, a sophomore halfback; Dan Laird a guard and William Roach a tackle.

The Bulldog coaches Monday had another worry — injuries — with Scott Forney, quarterback, suffering with a badly sprained left wrist and Bennie Robinson, halfback, with an injured ankle are the two most serious on the squad.

Rangeanns Have Array of Baton Twirling Talent

To lead its new organization — the Rangeanns — the Ranger Junior College, has enrolled seven girls who have outstanding records as baton twirlers. Included in the list is one girl who is recognized as one of the best in the southwest.

It is likely that no other college or university will have such an array of talent as the Rangeanns will have for the first year of their activities.

Miss Lanell Rowell is from Seymour and will display her unusual talent and ability in the handling of a baton, or more correctly stated, three batons at half-time periods of the Rangers football games this fall.

Lanell, a very beautiful little blonde with a sparkling personality, is a veteran twirler. After graduation from Seymour High school she was presented with the "Twirling Award" in recognition of having won both district and area contests. She was elected to "Who's Who in Baton Twirling" for 1953-54.

She is a member of the National Baton Twirler's Association and the All-America Drum Majors' Association. She has earned twelve first-place awards and one second-place in baton performances. Citations include the Chicago Vandercook School of Music Twirling Festival Queen in Austin this summer, and alternate state champion of Baton Twirler's of Texas for 1953. She is eligible to compete in the national contest.

She has attended twirling camps at Hardin-Simmons University, Midwestern, University of Texas, and at Grand Prairie, Texas. She was first in the Tri-State contest at Enid, Okla.

Lanell passed up offers of scholarships at the University of Texas, Hardin-Simmons and Midwestern and chose Ranger Junior College for her first two years of college study. She plans to major in Home Economics and will be library assistant at Cooper library.

There are six other twirlers. Pat Simpson from Eastland, was head majorette in high school; hand, sweetheart; speech, president; a member of the co-ed club and attended the all-state twirler convention.

Delia Joiner of Little River, was head twirler and drum majorette; president of the freshman class, and FHA; carnival queen, bank secretary and a member of the popular music club.

Mary Frances Cary of Vernon was head twirler and an honor roll student.

Nancy Hamilton of Moran, was a twirler and the most popular girl at high school.

Joyce Steel of Anson, was head twirler and band president, as well as being named most popular girl and best all around girl; FFA sweetheart, harvest festival princess, president of the sub-deb club, an officer in the FHA and an honor student.

Beverly Carey of Vernon was head twirler in high school; an outstanding band student and basketball queen. She won first place as a twirler at the T and O Fair and was in several other twirling contests.

AERIAL FARMHAND—Swooping low to show off its crop-dusting ability, the "Fletcher Utility" goes through its paces at Rosenond, Calif. It is said by its manufacturers to be the first plane specifically designed for farm work to be put into volume production. Of all-metal construction, and with a 42-foot wingspan, the aerial workhorse is designed to pick up a 1250-pound load from an 870-foot, unimproved flight strip.

Rangers Show Speed In Season's Opener

It was the Rangers all the way Saturday night as they broke open the 1954 season here against the Wharton Junior College Pioneers and left the visitors stunned by a 21 to 13 score. The score was not nearly so impressive as the playing of the field.

When Coach Dick Henderson and assistants, Sam Aills and Pat Thomas took the wraps off the new version of the fighting Rangers of the Ranger Junior College it was, for the fans, several surprise packages wrapped in one.

Ranger fans liked what they saw. It was a fast moving, charging crew of Rangers that didn't let up from the time of the kickoff until the closing seconds of the game when the third Ranger touchdown was run across the Wharton goal line.

Despite several threatening attempts in the first period it was not until the second quarter that the Ranger machine began to roll. The first two Ranger touchdowns came in rapid succession.

R. C. Smith, a former Ranger Bulldog, playing right end for the Rangers, set the stage for the first score when he recovered a Pioneer fumble at mid-field. Smith who

has spent the past four years in the Navy and has an outstanding record on service teams, played a wonderful game, both offensively and defensively.

As the Rangers took the offense with the recovered fumble, the forward wall opened a wide hole and the interference furnished a clear right of way to allow Herold Merryfield, the Rangers fleet-footed halfback to go the distance of 49 yards for the first tally. Merryfield, whose footwork was one of the standouts of the night, came to RJC from Ballinger.

Raymond Gilstrap, left end who

hails from Big Spring kicked the extra point.

It was a case of headsup football that set up the second touchdown for the Rangers. George Scott, tackle from Crowell, scrambled past the front wall of the Pioneers and intercepted a short pass. Quickly he lateraled to Gilstrap, who went from the Pioneer 30 to rack up the second touchdown. He again kicked the extra point.

Trailing 14 to 0 the Pioneers entered the second half and their only two outstanding plays of the night brought touchdowns, both of which were on long runs.

B. Williams of the Wharton squad took a punt on his own 20 yard line and managed to go all the way for a six-point score. Rench added the extra point.

Again in the fourth period the Wharton team scored. Rench took a short pass from Stauffacher on his own 15-yard line and managed to race 85 yards for a touchdown, but his attempt for the extra point was blocked.

With one second remaining before the final gun, Merryfield again brought the crowd to its feet. From the Wharton 22-yard stripe he sifted through the Pioneer defense and went across the goal line for another Rangers touchdown. Gilstrap then added another point with his third perfect boot of the night.

Offensively and defensively, the Rangers looked good throughout the game. They played a hard charging, blocking game, a n d demonstrated speed, and lots of fight and pep.

Time after time, the Rangers completely smothered the Pioneers, and dropped them for repeated loss of yardage.

There were a few ragged spots in the game, but the prospects for the Rangers of 1954 seem much, much brighter after their debut before the home fans.

Introduced to the good sized crowd was the membership of the (Continued On Page Six)

Peanut Growers Due Payments On 1953 Crop

Peanut farmers in Texas and the southwestern states, who marketed their 1953 crop through the Southwestern Peanut Growers' Association at German, are due to begin getting dividends from the association within a few days, it was learned today.

Beginning Wednesday payments will begin being mailed out at the rate of 1,000 daily until the estimated 15,000 to 16,000 checks have been sent to producers.

The payments will total approximately \$97,000 in cash and equity certificates to the producer. The cash payment of \$1.00 per ton of the 1953 crop marketed through the association is based on the net ton of farm stack peanuts. In addition there will be a 70 cent per ton equity certificate issued.

The 1954 peanut crop in the southwestern area is now estimated at approximately one half the crop last year. Latest government estimates place this year's crop at approximately 70,000 tons as compared with 140,000 tons produced a year ago.

Some areas which received rains during the summer have reported favorable prospects for a good crop, but on the whole the larger peanut producing areas in the southwest have suffered from drought conditions this year.

Dr. M. Jolly Is New President Community Chest

At a breakfast meeting of the Ranger Community Chest, held at 7 o'clock this morning, new officers and directors were elected.

Dr. M. E. Jolly was elected president, E. F. Arterburn, vice-president, W. F. Creager, treasurer, and Mrs. Hershel Angus, secretary.

The following were elected as directors: F. P. Brasher, Sr., Mrs. H. C. Croom, G. E. May, Dr. Price Ashton, J. A. Bates, Gaston Dixon, Dr. P. M. Kuykendall, W. H. Stevenson, J. E. Matthews, Dr. W. P. Watkins, Rex Mitchell, Calvin Lipkin and A. N. Larson.

W. F. Creager, J. A. Bates and J. E. Matthews were appointed to the advisory committee.

Tibbels Now Sole Owner Of Hardware Firm

The announcement was made Monday by John Tibbels that he is now sole owner of the Crawley and Tibbels Hardware at 116 W. Main in Ranger. The name of the store is being changed and will be operated hereafter as John Tibbels Hardware Store.

Tibbels said he had purchased all the interest of his partner A. E. Crawley. The partnership was established several years ago, but Crawley was not active in the business at any time.

Tibbels is widely known in the Ranger area. Prior to the time he established the present firm, he was engaged in the operation of an automobile parts store, and carried hardware lines.

Most of his business career has been spent in the hardware business, as he was employed by a Ranger hardware firm before operating his own place of business.

There will be no change in the store policies, he said, as the business has been operated under his sole management since it was established. Patrons will find the same high quality merchandise and service for which the store has become noted.

RANGER PUPS BEGIN DAILY DRILLS; 45 BOYS ON SQUAD

The Ranger Pups got off to a busy start Monday, as Coach Boone Yarbrough began working out the squads of Seventh and Eighth grade boys from which he hopes to build a team for the junior circuit of Ranger, Mineral Wells, Weatherford, Graham and Stephenville.

The Pups will play their first game at Mineral Wells on Sept. 28.

New equipment for all members of the team has been ordered as a project of the Quarterback Club. The boys show promise of developing into a fair team for their first season.

It will take a lot of work and hustle, the coach said, but they will get a lot of valuable experience that will help them when they get into high school.

At the present time Yarbrough is having to work out the Seventh grade squad in the morning and the eighth grade squad in the early afternoon. He hopes to give them the fundamentals and then combine them into one squad for games.

Eight Arrested For Being Drunk

Business has been picking up at the Ranger police department for the past few days. From Saturday through Monday night eight persons were arrested and placed in jail for being drunk. Three out of town men were arrested Saturday night when they were holding an impromptu beer party on Main Street.

Ranger Delegates At Mineral Wells Meeting

After Opening Games, Mineral Wells Grabs Spotlight In District 9-AA

The opening games of the 1954 football season for teams in District 9-AA on Friday night has produced more comment and head shaking than might have been anticipated.

The Mountaineers of Mineral Wells have garnered more spotlight attention than any of the rest by reason of their win over Lake Worth by a margin of 48 to 0.

Reports from the health city indicate that the Mountaineers are a team to be reckoned with for the rest of this season. Coach Pete Roach is carrying 33 men on his A squad, and some of them gave an exceptionally good account of themselves last Friday night. This despite the fact that Roach said they were ragged.

Perhaps the real test of the early season for the Mineral Wells boys will come Friday night when they journey to Comanche, to meet the

Indians on their own camp ground. Last year the Indians won over the Mountaineers by a score of 18 to 13. They are on top as a pre-season choice to take the Class AA state title for 1954. The tussle with Mineral Wells Friday night is, of course, a non-conference affair and might well determine the destiny of at least one of the teams for this season.

Cisco, another 9-AA team had little trouble with the Eastland Mavericks, winning by an easy score of 51 to 12. Cisco will entertain Brady Friday night. They won last year 12 to 6.

Graham opened the season against an arch rival and trimmed the Jacksboro eleven by score of 33 to 6. The Steers seemed to score easily in every period. Jacksboro's lone touchdown came by virtue of a completed pass. The Steers play Paschal High in Fort Worth Thursday night. The Paschal Panthers of 4A trimmed the Steers in 1953 by a score of 31 to 7.

Weatherford's Kangaroos of 9-AA managed for a 14-14 tie with Carter - Riverside of Fort Worth. The Kangaroos meet Hillsboro at Weatherford this week. They defeated Hillsboro last year by a score of 21 to 6.

To round out the list of District 9-AA teams, Stephenville went to Brownwood last Friday night and came away with the short end of a 13 to 0 score. Both Brownwood scores came in the first half of the game. This week Stephenville takes on Dublin at Dublin. Last week Dublin, a Class A outfit, lost to Hamilton by 19 to 0. Last year Stephenville defeated Dublin by a margin of 19 to 7.

Gulf Dealers Featuring New Type Gasoline

Two Gulf service stations in Ranger will be decked out with flying colors Wednesday to herald the introduction of a new Gulf gasoline to the motoring public. The two stations are the Meroney-Brown Tire and Supply, and Curtis Blackwell Gulf Service Station.

Morris George, distributor in Ranger for the Gulf Oil Corporation, said that all Gulf stations in the Ranger area would be featuring the new product Wednesday.

The new gasoline, advertised as the Super-Refined Gulf No-Nox, has been especially designed and produced to meet the need for better motor fuels in today's high compression automobile engines, George said.

In describing the new super-refined fuel, he said, it was designed to enable the car owner to obtain every ounce of performance and economy built into the modern engines, and maintain that performance and economy of many thousands of miles. The extra refining process refines out the dirty burning heavy end of ordinary gasoline. In addition to being super-refined, it is especially treated to give a complete range of protective extras. The new gasoline is stepped up to a level set high enough to eliminate pre-ignition and spark plug fouling in every model of engine now being manufactured and in the new higher compression engines which are to be introduced within the next few months.

Those who enlisted were Doyle Gentry of Ranger, Elmer Lowe of DeLeon, Gerry T. Snow of Graham, James D. McLeod of Breckenridge and Robert L. Lee of DeLeon.

Elmer and Robert Lowe are brothers and sons of Mrs. Josephine Chesser of DeLeon. Elmer was sent to Goodfellow AFB near San Angelo. Robert will receive his training at Lackland AFB along with Snow, McLeod and Gentry.

Four area men enlisted in the Air Force at the Eastland Recruiting Station last week, S-Sgt. Grady Hoyle reported today.

Those who enlisted were Doyle Gentry of Ranger, Elmer Lowe of DeLeon, Gerry T. Snow of Graham, James D. McLeod of Breckenridge and Robert L. Lee of DeLeon.

Mineral Wells (TNS) — Eastland County delegates, with a unit vote favoring Gov. Allen Shivers' conservative forces, arrived in Mineral Wells along with hundreds of other delegates today to attend the state Democratic convention.

The county's 23 votes were firmly lined up with the other more than 4,000 of the 6,186 total votes in favor of Shivers.

A state Supreme Court justiceship, 11 district judgeships and scores of key convention and party organization posts were at stake. In most cases, it was not a question of whether or not the jobs would be handed down to the governor's friends, but which friends, an Associated Press reporter said.

Chief Justice Clyde Grisson of the 11th Court of Civil Appeals in Eastland has been mentioned in many reports as a likely Supreme Court nominee. He has said he would not accept the post, but pay if it is offered to him. The vacancy was caused by the death of Judge G. M. Smedley. The nomination is expected to be made late today.

The liberals, who have 2,000 uncontested votes, have contested 750 more votes, but the credentials subcommittee, composed of backers of the Governor, is expected to award all of them to the conservatives.

As of now a scramble for choice plums of patronage is in swing by friends of the Governor.

Eastland delegates elected at the county convention were L. H. Hagaman, Ranger; Mrs. Jack W. Frost, Eastland; Mrs. John Love, Alameda; A. F. Thomas Jr., Ranger; H. L. Capers, Gorman; Mrs. John Turner, Eastland; and Morris Newman, Ranger.

Alternates were L. E. Clark, DeLeon; Mrs. Cyrus R. Frost Sr., Eastland; Virgil Seaberry Jr., Eastland; Mrs. C. G. Stubblefield, Carbon; H. C. Westfall, Eastland; Ronald Pruet, Ranger; and Dr. P. M. Kuykendall, Ranger.

Olden FFA Boys Elect Carroll Nelson President

OLDEN (TNS) — The Olden chapter of the Future Farmers of America elected Carroll Nelson president at a meeting held Friday night.

Rex Martin was name vice-president; Bill McCarter secretary; Phil Hilliard, reporter; and Jimmy Colburn, sentinel. G. P. Copeland is advisor.

This is the first year that Olden has offered vocational agriculture. Twenty-three boys have enrolled.

RANGERS NOW CONSIDERED THREAT IN PIONEER RACE

The Rangers' defeat of the Wharton College Pioneers on Saturday night has definitely centered more attention on the boys of the Ranger Junior College Camp. Wharton was rated in some quarters to take the fighting Rangers, and the account which the boys gave on the home field Saturday night was a distinct surprise to some.

The result has been that the Rangers are now being called a "definite title threat" in the Pioneer Conference race.

Only one other conference team, the San Angelo Rams were in action Saturday night against Blinn College of Brenham and won by an easy score of 57 to 6.

All Pioneer Conference teams will be in action this weekend against non-conference competition.

Billed as the banner game will be the tussle between the San Angelo Rams and the Apaches of the Tyler College in the Longhorn Conference. The game will be played at San Angelo.

Last week the Apaches won over the tough Paris Junior College Dragons by 19 to 13. Paris was a pre-season favorite in the Texas Conference.

Another outstanding game of the week will be the opener for the Arlington State College Rebels, 1953 Pioneer champs, as they meet the Wharton Pioneers at Wharton. This game should give the Monday morning quarterbacks some more material by way of comparison with the Rangers.

The Rebels have only six lettermen back and are depending upon a group of outstanding transfers

LIFESAVING "DOUGHNUTS"—Resembling huge doughnuts, with the holes left in, these round rubber lifesaving rafts are being used in harbor waters near London, England, as researches aboard a conventional raft, top left, check their performance. Usually inflatable, they have a shallow draft, high degree of seaworthiness, small storage volume, and can be propelled by oars, sails or an auxiliary motor. The smaller one carries ten passengers, the larger one 20 and is designed to do a maximum 34 knots under power.

Entertainment At State Fair To Include New Varied Attractions

Entertainment highlights of the 1954 State Fair of Texas, Oct. 9-24, include such varied and spectacular attractions as the following:

1. "The King and I," opening Friday night, the evening before the fair officially begins, for 24 performances in the air-conditioned State Fair Auditorium, seating 4,285. The sensational Broadway hit musical starring Yul Brynner and Patricia Morison of the New York cast will be presented at 8:30 p.m. nightly Oct. 8-23, with matinees on Saturdays, Sundays, and Wednesdays.

2. "Ice Cycles of 1955," also opening Oct. 8 in the Ice Arena. The brilliant skating extravaganza features a production of "Snow White and the Seven Dwarfs." The show will have 24 performances nightly at 8:30 p.m. except Sundays. Matinees are at 2:30 p.m. Oct. 9, 12, 16, 23, 24, and also at 1:30 and 5:30 p.m. Oct. 10 and 17. A special Rural Youth show will be presented at 10:30 a.m. Oct. 16.
3. The famous Cherokee Indian daredevil Jolee Chitwood will present his original thrill show in front of the Grandstand at 8 p.m. nightly except Oct. 11, 18, and 24, with matinees at 2:30 p.m. Oct. 9, 10, 12, 13, 15, 17, 22, 23, and 24, and at 1 and 3 p.m. on Oct. 16.

4. Free aerial acts will be presented high above the crowds at 2 and 7:30 p.m. daily during the fair atop the Magnolia Midway stage.
5. A free show for children, "Aladdin and His Wonderful Lamp," will be presented four times daily in the Theatre Building.
6. "Dancing Waters," the beautiful European attraction that has thrilled crowds all over the country with its delicate fountains of colored water dancing gracefully to soft music.

7. The million-dollar Midway will be bigger and better than ever, featuring such sensational thrill rides as the "Flying Cars," "Sky Wheels," "Rotor," the "Looper" and the "Round-up," in addition to dozens of permanent rides and top-notch sideshows.

There will be much free entertainment. For example, one automobile manufacturer will have a big floor show featuring a big game dance band and the East Texas Day show Oct. 19 will star Radio-TV singer Dennis Day.

If rain were as plentiful as fertilizer, the outlook for Texas farmers would be bright. There will be an abundant supply for 1955 crops, agricultural chemists say.

Texas Farmers Have Slightly Higher Income

Texas farmers' cash income for the first seven months of 1954 was slightly higher than the same 1953 period, the University of Texas Bureau of Business Research reports.

Total farm cash income through July was \$798,100,000, a rise of \$67,320, or 1 per cent, over 1953. Cash return on commodities remained fairly stable. Income from some crops increased significantly. Cotton income was up 35 per cent over 1953 figures. Peanuts income jumped 94 per cent. Appreciable gains also were made in grain sorghums, which climbed 12 per cent, and flaxseed, which edged upward 5 per cent.

Prices received in July by Texas farmers changed little from June levels. Minor gains in some commodities offset losses in others. July prices were 5 per cent below July, 1953.

Desdemona To Open Cage Season Tonight

Desdemona kicks off their season tonight against Lingvieve, in the high school gymnasium.

You read it right, it says in the high school gym. Desdemona, you see, is already busy with their basketball workouts, even as the grid season is just getting underway.

Practice got underway August 31 with 12 boys reporting for practice. Team prospects seem excellent this year, with four of last year's lettermen returning and several other top-notch prospects seeking starting posts.

New suits and equipment have been ordered and most of the playing equipment has been received. New suits are due in about two weeks. An excellent physical education program is being provided this year, with training beginning in the fifth grade.

W. L. Donahoe, formerly of Brownwood, will coach the high school, junior high and grade school teams. Donahoe formerly taught and coached at Putnam and Scranton.

The main problem Desdemona faces now is getting games. Any school interested in playing is urged to get in touch with Donahoe.

A paratrooper's chute costs the Army approximately \$170.

NINE HUNDRED ATTEND FARM BUREAU MEET

An estimated crowd of 900 adults and children were present Saturday evening for the annual meeting and barbecue held by members of the Eastland County Farm Bureau at the City Park in Eastland.

Dr. Herbert E. Stotts, professor of sociology in the Bluff School of Theology of the Denver University of Colorado, a retired Methodist minister, was speaker for the evening. His subject was "Learning to Live With One Another," which he summed up as "democracy at local levels."

Local musicians gave a concert before and during the serving of the meal. A. Z. Myrick, president, who presided, introduced S. E. Clossinger, manager of the Southwestern Peanut Growers Association, who made a short talk, called attention to the service given to farmers of the local area, and asked their cooperation in advertising the many uses of the Spanish peanut grown here.

Myrick introduced B. J. Gist of Abilene, president of district seven of the Farmer's Bureau, who spoke a word of greeting and introduced the speaker.

Myrick recognized committees of which J. M. Cooper was chairman. He also expressed his thanks to the various companies for food donated for the meal.

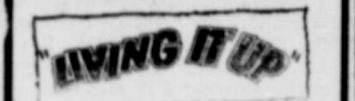

Fire is a constant threat during the cotton harvesting and ginning season. Farmers and ginners can help each other by the farmer keeping fire hazards out of the unginned cotton and the ginners by maintaining adequate fire control equipment in the gin, training employees to handle fire emergencies and keeping the gin plant reasonably clean.

Sleep Is Best Aid To Beauty; Midnight Chores Take Heavy Toll

Of all the beauty aids available to help achieve a dazzlingly clear skin, rosy complexion, shiny lustrous hair, and bright, unclouded eyes, the best one is absolutely free — good sound sleep and enough of it.

Be it sitting at a desk pounding a typewriter or caring for a home, husband, and three boisterous children, the day's activities produce considerable wear and tear on a woman's system. Only during sleep does nature receive a real opportunity to do her repair work.

How often, though, women ruthlessly and unnecessarily rob themselves of the hours of sleep so essential for beauty, health, and vitality. After everyone else has gone to bed, they prowl around the house doing odd tasks which could just as well be done the next day. They suddenly decide that their hair must be washed immediately, their nails polished, or a dress they might wear next week mended. Then, they wonder why they get premature wrinkles.

ladies" are tired to sleep when, they finally do get there. Over-exhaustion can have a deplorable effect upon the nervous system, making rest and relaxation next to impossible. In the morning, it's a wan and weary woman with circles or pouches under her eyes that listlessly stares back from the mirror.

A few consecutive good nights' sleep and what a change takes place! Eyes brighten. Unbecoming lines begin to fade. Vitality and disposition are at their peak. A sufficient quantity of rest alone however, is not adequate to produce these almost magical changes. Quality of sleep is a big item.

Physical requirements for restful slumber include good ventilation (window open from both top and bottom so the air can circulate); a level, resilient mattress and bedspring combination that is neither too hard nor too soft for individual comfort preferences; a fluffy, buoyant pillow; and bed covering that is neither too light nor too heavy.

"SO UPSET BY 'CHANGE OF LIFE' I SCREAMED AT MY HUSBAND!"

writes Mrs. A. W., New York, N. Y.
 "Now I don't suffer from 'hot flashes' and nervousness, feeling!"
 • Are you going through "change of life" . . . suffering the "hot flashes," nervous tension, irritability, weakness and other types of functionally-caused distress of this difficult time?
 Sure! You know that Lydia Pinkham's is scientifically modern in action! You know what it has done for others! But do you know what it will do for you? Not if you haven't experienced the relief of tension, "hot flashes" and irritability it so often brings at such times!
 Before another day has passed, try Lydia Pinkham's Vegetable Compound or new, improved Tablets with added iron . . . and discover how much easier your "change of life" may be!
 Younger women and girls—suffering from functional pains, monthly cramps and distress of menstruation—find Pinkham's wonderful tool! It contains no pain-killing drugs!
 It acts through sympathetic nervous system to relieve distress of "hot waves"!

How Often Have I Wondered—
 . . . why so many other people get along better than I. Ever have that feeling? If so, it's time for us to do a little soul-searching together. If we are day-dreaming or drifting along aimlessly without thought or reason, let's stop and about face. Let's begin to do things wisely. Let's guard against buying property with faulty titles. Investing in good titles is a sure way to get along better financially—better than those who don't. I will if you will!

Julia W. Butler v. W. Fred Butler, order of dismissal.

NO MONTHLY CRAMPS... not even on the VERY FIRST DAY!

Doctors' tests show amazing preventive relief of pain, backaches, nervous feelings.

Women and girls who suffer from the functionally-caused cramps, backaches and headaches due to menstruation—who feel upset and irritable on certain "particular days" every month—may be suffering quite needlessly!

Such is the conclusion from tests by doctors in which Lydia E. Pinkham's Vegetable Compound stopped or gave amazing relief of such distress in 3 out of 4 of the cases... even on the very first and worst day of the period!

Yes! Medical evidence proves Lydia Pinkham's mod-

ern in action. It exerts a remarkably calming effect on the uterus—without the use of pain-deadening drugs!

The effectiveness of Lydia Pinkham's needs no proof to the millions of women and girls whom it has benefited. But how about you? Do you know what it may do for you?

Take Lydia Pinkham's! See if you don't get the same relief from cramps and weakness... feel better both before and during your period!

Get either Lydia Pinkham's Compound, or new, improved Tablets, with added iron!

Lydia Pinkham's is wonderful for "hot flashes" and other functional distress of the "change of life," too!

Want a wonderful chocolate frosting? Want a perfect chocolate sauce? Want them both in quick and easy style? Then you need only one recipe, our Semi-Sweet Chocolate Frosting. With this recipe, you can make delicious frosting that has delicate, semi-sweet chocolate flavor. For a perfect chocolate sauce, just add more milk to the same basic recipe. It's that simple to complete either of the desserts in the photo, the chocolate-frosted sheet cake, or the cake à la mode with chocolate sauce.

Semi-Sweet Chocolate for Quick Desserts

Semi-sweet chocolate morsels are just right for quick chocolate cookery. This is the same chocolate that is used to stud Chocolate Crunch Cookies with morsels of candy-like chocolate flavor. As semi-sweet chocolate is already in small pieces, it melts readily for speedy chocolate cookery. This chocolate has such perfect, candy-like flavor that it requires few ingredients to make a frosting or sauce. In fact, you can't leave semi-sweet chocolate morsels around, or they'll be eaten as candy before you get a chance to use them in cookery. So hide a package, and make this delicious recipe.

Semi-Sweet Chocolate Dust (Frosting or Sauce)

1 package (1 cup) semi-sweet chocolate morsels
2 tablespoons butter or margarine
1 cup sifted confectioners' sugar
1 teaspoon vanilla
2 to 4 tablespoons hot milk, for frosting
1/2 cup hot milk, for sauce

In top of double boiler put semi-sweet chocolate morsels and butter. Heat until melted and mix until smooth. Remove from heat. For frosting, add milk and sugar alternately, adding enough milk to make a spreadable consistency. Stir in vanilla. For sauce, increase milk to 1/2 cup.

YIELD: Frosting for top of 10 x 15 inch cake, or 1 1/4 cups chocolate sauce.

BETTI'S BUDGET of HELPFUL HINTS

While the weather is still warm how about something different in the sberbert line? This is called Buttermilk Sherbert. Combine thoroughly 2 cups buttermilk, 1/2 cup sugar and 1 cup crushed pineapple. Freeze to a mush in refrigerator tray. Remove to chilled bowl and add 1 unbeaten egg white and 1 1/2 teaspoon vanilla. Beat until light and fluffy. Return to refrigerator tray and continue freezing until firm. Serves 4.

The new nylon sheets now on the market, both regular and contour, can be yanked off the bed, washed, dried, and put back on—all in the space of one hour.

The gala new petticoats in permanently pleated nylon taffeta are simplicity itself to keep sweet and dainty. Simply whisk them through lukewarm soapsuds and rinse after every wearing. Then hang them to drip-dry. They'll come through it all as crisply pleated as new.

When stewing or preserving pears, it's a simple matter to remove the core. Use the scoop you use for cutting melon balls. The neat little cavities are good for filling with honey and spice if you're planning to broil or bake the pear.

Did you ever wonder what the difference between "preserving" foods and putting up "preserves" is? Well — when fruits or a mixture of fruits are combined with an equal amount or 3-4 as much sugar as fruit and cooked until the syrup is quite thick with the fruit transparent or shiny, the product is called a preserve.

In a recent survey 56 percent of these 11 to 15 'tween age girls said they sew their own skirts; blouses are made by 35 percent and complete dresses by 31 percent. Two thirds of these junior seamstresses choose their own materials. Another 25 percent, at least, have a voice in the selection of fabrics. Mothers should encourage these efforts because the girls are learning early to be wise shoppers. Girls who learn early to make good homes do not later make bad news!

Carolyn Bell Circle Meets

The Carolyn Bell circle of the First Baptist Church met Monday afternoon at 3 p.m. with Mrs. Glen West.

Invocation was given by Mrs. Walter Arterburn. After a short business meeting, Mrs. Earle Pittman spoke on the theme for the Mary Hill Davis Week of Prayer.

Mrs. R. L. Hamrick concluded the review of the mission study book.

Royal Neighbors Meet Tuesday

The Royal Neighbors of America, No. 9059 met Monday evening at 7:30. The meeting was opened with Oracle May Smith presiding.

Routine business was transacted and sick reports given. The penny prize was furnished by Alberta Miller and won by Lena McDonough.

Present were Meses. Tillie Hicks, Rosalie Lee, Miller, Eary Wallace, Callie Lee, McDonough, Laura Melton, Lee Graham, Winnie Phillips, Edna Huffman, Smith, Claudia Alexander, Annie Mills and Eleanor Horton.

Nazarenes To Host Workshop And Rally Here

The Ranger Zone Church of the Nazarenes Sunday School Workshop and Rally will be held at the First Methodist Church in Ranger, Thursday, September 16. Fellowship time, with basket lunches served, will be from 6:30 to 7:30 p.m.

Information Time will be held from 7:30 to 8:45 p.m. This will consist of discussion groups led by members of church school board. These discussions will be on the subjects, "The Sunday School Superintendent in Action," "Teaching Techniques," "Caravan Program," and "Organizing for Greater Efficiency."

Inspiration Time or the evening message will be from 8:45 to 9:30 p.m. The Ranger Zone includes churches at Ranger, Eastland, Cisco, Breckenridge, Graham, Wizard Wells, Mineral Wells and Stephenville.

The host church and pastor, Rev. C. D. Buchanan wish to extend a cordial invitation to the general public to attend this service.

Hospital Report

New patients at Ranger General Hospital are: M. D. Span, Breckenridge, surgical; Mrs. Jesse E. Pitman, Olden, surgical; Mrs. W. W. Everett, Cisco, medical; and John Johnson, Ranger, medical.

New admissions at West Texas Hospital include: Nancy Kay Newnam, T. M. Jones and Wayne Brown, all of Ranger.

WSCS Circle 2 Meets Monday

Members of Circle No. 2 of the Woman's Society of Christian Service met at 3:30 p.m. Monday, September 13 in the home of Mrs. R. S. Balch.

Mrs. James Ratliff, leader, presided over the business meeting. The devotional was given by Mrs. Stanley McAnelly. Mrs. Gaston Dixon had charge of the program, which was a panel discussion. Those taking part were Meses. Joe Scott, Gler Hamner, Bruce Weaver and James Ratliff.

Mrs. Dixon closed the meeting with prayer. Refreshments were served to the fourteen members present.

The Earl Hortons had as their guests Sunday Mr. and Mrs. M. M. Reamy and children, Vayle, Gayle and Ricky of Woodson.

Mrs. E. M. Glaerner of Fort Worth is spending the week here visiting Mrs. Lottie Davenport.

Mr. and Mrs. John Osterhout and children of Tyler are here visiting his mother, Mrs. Margaret Osterhout.

Mrs. Edna Chambers has returned to her home after spending a few days in a Dallas hospital.

WMU Sponsored Week of Prayer Honor Paul Bells

A special program is being sponsored by the WMU in their "Week of Prayer", featuring a covered dish supper Wednesday night at 6:30 honoring Missionary Paul Bell and family who are here for a week and will preach at both services Sunday the 19th.

The Bells have been in Costa Rica and Guatemala for the past year and will return to the foreign field late this year.

Everyone is invited to the supper and immediately following the supper a special period for the teachers will be conducted, the lesson will be taught. This program Wednesday night is a shower for the Bells. There are several items they need on the foreign field that can be secured here, and it is the desire of many of the members of the First Baptist Church to assist in purchasing the many items needed.

The evening worship service Wednesday will be held in the main auditorium. Choir practice will follow the worship hour.

Visitors in the Felton Brashier home over the week end were Mr. and Mrs. O. K. Gray and children, Kay and Sammy and Mr. and Mrs. Bell of Brownwood.

Mrs. Alex Hudgens is scheduled to arrive Wednesday from Hungerford, Texas, for a visit with her daughter and family, the Pete Brashiers.

Mrs. Dudley Is Hostess, Mary Martha Group

The Mary Martha group of the First Christian Church met Monday afternoon at 3 p.m. for their weekly Bible study in the home of Mrs. B. S. Dudley, Sr. on Spring Road.

The lesson was "The Second Letter of Paul to the Thessalonians" and "The First Letter of Paul to Timothy."

Those present were Meses. O. R. Ervin, Dick Jones, Lottie Davenport, Richard Cox, B. G. Firkle, Ernest Glaerner and the hostess, Mrs. Dudley.

Gulf announces a completely new and different gasoline!

► Now—Gulf refines out the “dirty-burning tail-end” of gasoline—the No. 1 troublemaker in high-compression engines. Result: a cleaner-burning super-fuel that gives you thousands of extra miles of full engine power... free from knock or pre-ignition.

This lamp is burning the “DIRTY-BURNING TAIL-END” of gasoline which GULF refines out

This lamp is burning NEW SUPER-REFINED GULF NO-NOX, the cleaner-burning super-fuel

Proof:

Instead of trying to fight troublemaking deposits with so-called “miracle-additives”—inside your engine—Gulf believes in preventing them from forming in the first place.

That's why Gulf, in making new Super-Refined

NO-NOX, refines out the carbon-forming, “dirty-burning tail-end”—more than a cupful in every gallon. Just look at the plates the Gulf scientist is holding in the unretouched photo above and see what a difference Gulf super refining makes!

Starting with your first tankful, this new, super-refined, super-powered fuel will give you these immediate and lasting benefits:

- **More complete engine protection** than so-called “miracle-additive” gasolines. Why? Because Gulf refines out the “dirty-burning tail-end” of gasoline, the No. 1 troublemaker in high-compression engines—and then treats this new Super-Refined NO-NOX to give it a complete range of protective properties. It protects every part it touches against harmful deposits—carbon, rust, gum.
- **Extra gas mileage.** Why? Because new NO-NOX is specially blended for the short-trip, stop-and-go driving motorists do most.
- **No knock, no pre-ignition**—even in today's super-compression engines. Why? Because the anti-knock power of new Gulf NO-NOX has been stepped up to an all-time high.
- **Stall-proof smoothness**—no more worries about carburetor icing in chilly weather, or vapor lock on warm days. Instant starts, too—and fast, fuel-saving warm-up.

Road tests show: New Gulf No-Nox actually makes cars perform better than new... even after 15,000 miles!

TRUE! Under all conditions—Gulf test cars showed: Higher-than-new horsepower! Better-than-new on gasoline mileage! And not a single trace of carbon knock or pre-ignition at any time, even on the steepest mountain grades!

COMPLETELY NEW! SUPER-REFINED

New Gulf No-Nox

FOR WHOM THE BELL TOLLS!

Right now it's calling the children back to school. But it should warn us, too, that America's schools are more overcrowded than ever. And by 1960—enrollment will have increased another 25%.

To solve this, we must plan wisely and act boldly. We must have a long-range school plan that looks at least ten years ahead!

The school bell tolls this warning—It's later than you think!

Better Schools Build Better Communities

Published as a public service in cooperation with The Advertising Council

School Children Enjoy Improved Health Conditions

America's children returning to school this fall are enjoying better health than ever before in the country's history, statisticians for the Metropolitan Life report.

Extraordinary gains have been made over the past 20 years in reducing mortality at the school ages. Records show that between the ages of five to 14 years, the death rate for boys dropped nearly two-thirds, and the rate for girls declined even more sharply. Death rates have dropped 85 per cent or more for a number of diseases, including appendicitis, pneumonia and influenza, and tuberculosis.

Despite this progress, there are still about 15,000 deaths among children at school ages, with accidents being the greatest single menace to child life. Accidents account for more than two-fifths of the deaths among boys, and more than one-fourth of the girls. Second in rank as a death cause is cancer, which 20 years ago was a minor cause of death among children of school age.

Mother Goose In Texas

By Ray Wood

The raccoon's tail has rings all around;
The possum's tail is bare;
The rabbit has no tail at all,
Just a little bitty bunch of hair.

The Mother Goose lore of the old world has many rhymes about the cat, the dog, the pig, and other domestic animals. In this country new rhymes were made about these animals, but here Mother Goose found dozens of other interesting critters whose fancied characteristics suggested delightful rhymes. Nothing in the lore of the old world is quite equal to the charming fantasy created about these amazing creatures.

Among those appearing most frequently are the raccoon and the possum (just plain possum, if you please). To pioneer children these were so common as to almost kinship new rhymes were made about common opponent, the Houn' Dog, who had to work under a handicap. For while the critters had the whole woods to operate in, the houn' dog couldn't even go after them unless the man turned him loose. Just listen to this:

Raccoon, he's a choppin' wood;
Possum, he's a haulin';
O' Houn' Dog, chained to a log,
Is killin' hisself a-bawlin'.

Next Week: The "Houn' Dog."
Variants of these of similar rhymes will be recorded in the permanent collection of Mother Goose in Texas if addressed to Ray Wood at Raywood, Texas.

On Sunday, Mr. and Mrs. Homer Gay took their son, Johnny to Austin where he entered the University of Texas. They were accompanied by Mrs. Nath Finkle who remained in Austin to visit friends there.

Saturday visitors in the home of Dr. and Mrs. P. M. Kuykendall were Dr. and Mrs. Harrell Shelly and Mrs. Davenport, Banker and Waller, all of Fort Worth.

YESTERDAY — Wasn't very different from today, insofar as leisure-time garb is concerned, according to 2000-year-old mosaics recently unearthed near Piazza America, Italy. The ceramic artist of a long-gone age captured a contemporary beauty wearing a costume which looks almost exactly like today's Bikini swimsuit. Considering the dumbbell she's carrying, the girl apparently was taking exercises, perhaps for woman's favorite hobby—reducing.

Researchers Test Texas Kaolin Clay

University of Texas researchers have built and operated a small-scale industrial plant to show that fine china and whiteware can be made from Texas kaolin clays.

A new bulletin by Professor F. K. Pence explains exactly how the clays should be processed. The report climaxes 16 years research on Texas kaolin by Professor Pence and complements a bulletin published in 1949 detailing kaolin deposits in vast areas of Northeastern Central Texas.

Future Oil Uses Point to Increase

Estimated petroleum and petroleum product consumption in the U. S. in 1955 will be 23 per cent greater than in 1950, the Petroleum Administration for Defense says.

Projecting petroleum requirements into 1975, the President's Materials Policy Committee estimates that U. S. consumption will be 110 per cent above 1950.

Despite these authoritative projections on U. S. petroleum needs, U. S. petroleum needs, America's share of tanker cargo in world competition has dropped from 65 per cent in 1948 to only 38 per cent in 1952, according to the Commerce Report.

Feed Bag Pillow Cases Available

When was the last time you took an inventory of your linen closet? Counted your sheets and pillow cases and checked them for worn spots and tears?

If you are like most women, you no doubt consider this an important part of keeping house. You probably see that you have more

than enough of these items on hand and you also take advantage of every bargain that comes your way.

The National Cotton Council reports that you can now get a supply of pillow cases anytime you want or need them at your local feed store. A new cotton bag is designed to do double-duty, first as a 50-lb. container of feed and later as a bright bedroom accessory.

Cotton bags made of dress print material have long been a boon to women who sew at home. However, you don't even need to be handy with a needle and thread to convert the 50-lb. feed container into a pillow case. All you have to do is empty the feed, launder the bag, and put the pillow slip to work in

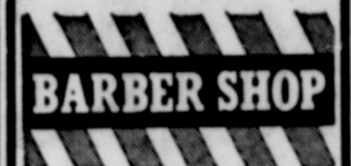

the bedroom or in reserve on the linen shelf.

If you happen to have more than enough pillow cases in good repair, then you can use the 50-lb. feed bag for home sewing. Ripped, the container provides a yard and one-sixth of material for making children's dresses, napkins or place mats, curtains, skirts, sun suits, and aprons. The pillow case bags are available in plain white, border trims, or all-over print patterns.

Pillow case containers have been used theretofore for packing 100 pounds of feed, but minor alterations were needed to make the bags useful in the bedroom.

Your appearance ... will be only as good as your barber!

"TOPS" FOR MOM — Just the thing for crisp, fall days: a shallow, head-bagging cloche with short, slanting brim which just skirts the hairline for full-face flattery. A tricolor grosgrain ribbon shows up well against the tan wool felt, which is now being modeled in New York City.

LADIES

Come in for this LOVELY SCARF ... only 25¢

when you buy your first 100 lbs. of any Purina Laying Chow during September. You don't have to buy the feed all at once. Keep the slips and get your scarf when they total 100 lbs. Exclusive design in your choice of 4 color patterns.

We make this offer to prove that you can get up to

40% MORE FALL EGGS than U. S. average THE PURINA WAY

Thousands of Purina feeders get up to 40% more eggs than average during fall and early winter—when egg prices are highest. Come in, and let us tell you about it.

Give Them A GOOD START Toward GOOD GRADES... with GOOD LIGHT!

Check Study Lighting When You Check Their School Supplies

You can give your child a good start toward a better school year by providing the proper study light. Proper lighting eliminates glare and shadows that cause eye fatigue and drowsiness... helps young minds to concentrate on homework.

It's simple and inexpensive to provide good lighting for your youngsters. In most cases, a good study lamp with a 150-watt frosted bulb will supply adequate light. For more specific suggestions, see the recipes for good lighting in the FREE booklet, "See Your Home in A New Light."

There's A Copy For YOU...

For helpful, easy-to-follow lighting recipes that will make seeing easier and every room in your home more attractive, phone, write, or come by our office for this free booklet, "See Your Home in A New Light."
