C. E. May's Junior Fire Marshals Bring Safety Lessons Into Homes

There are a lot of parents who know a lot more about fire prevention today than they did a bit earlier in the week.

The reason for the sudden understanding is the newly organized Junior Fire Marshals of Eastland. Sponsored by C. E. May and the Hartford Fire Insurance Co., the program went over big in Young and Hodges Schools. May distributed Junior Fire Marshal certificates to the third, fourth and fifth and sixth grades at Young and the fifth and sixth grades at Hodges and Slaughter Ward Schools.

Olden F. F. A. Gives Program

OLDEN (TNS) — The Olden chapter of the Future Farmers of America recently presented a program to Oldenites, giving them an idea of how the organization works.

A vast rain-forest encircles the earth between the tropics, says the National Geographic Society. It extends across northern South America, central Africa, parts of India and the Malay peninsula, the East Indies, and northern Australia. Half the continent of South America is covered by this forest belt.

Cover Crop Program Drawn Up By ASC

A cover crop program for Eastland County has been drawn up by the County Stabilization and Conservation Committee and forwarded to State headquarters for approval, Emmett Powell, head of the Eastland ASC office said Saturday.

Powell said the action came after an all-day meeting of the committee Thursday, at which time members of the Rising Star Chamber of Commerce, which recently issued a resolution calling for such a program, attended.

Powell said the meeting went off smoothly with the committee explaining to the Rising Star delegation just what they faced. The program has not been put into force before now because of the lack of funds. Powell said it would mean that farmers could get vetch and small grain for cover crops from the ASC office amounting to a fifth of the farmer's cropland, or not over 30 acres, if the State office approves the program as drawn up.

Commenting on a news story that appeared in Thursday's Telegram, Powell said that there is "certainly no fight with us and the Rising Star Chamber of Commerce." He said the Times' story was too strongly worded and held that he was misquoted as saying that the Rising Star group "just don't know the score." He said what he actually said was that the Rising Star group didn't have all the facts.

Eastland County has not had a cover crop program until the present time because of lack of funds, Powell explained. He said that the county committee is definitely in favor of such a program.

The county committee is composed of E. P. Blackwell, of Cheaney, W. R. Lantry of Cabarr and W. E. Cooper of Rising Star.

Powell said that both the ASC committee and the Rising Star Chamber of Commerce is working toward the same thing — the betterment of the county's farmers. He stressed that there was no hard feelings between the two organizations.

The Rising Star C-C passed a resolution which said in part, "The committee is of the opinion that the P.M.A. program in Eastland County does not include at the present time and does not intend to include during the remainder of 1954, a support-

ed legume program for cover crops. . . . The resolution went on to add, ". . . It is our opinion that such program in Eastland County is practically necessary and exceedingly advisable at this time in order that the soil conservation and soil building practices of our county may be carried on."

Chase Ends In Man's Arrest

A 19 year old New Mexico man is being held this morning in the Eastland County jail following his arrest yesterday. The man was arrested after a speeding chase on the Breckenridge highway.

Constable Porter Woods made the arrest six miles from Breckenridge after chasing the man all the way. He was tipped off by an Eastland feed dealer 15 minutes before the man passed what is believed to be a hot check.

Charges are expected to be filed today.

Second Half Spurt Gives Dogs Victory

Ranger's Bulldogs rode down a surprisingly hard to handle Eastland Maverick eleven 21-0 Friday night in a non-district game that saw the heavily favored Dogs fighting to hold their own in the first half.

Before a large, well-divided crowd of cheering fans, the Bulldogs ended the first two periods of play leading 7-0 as they were forced to go to the airways to cross the Maverick goal. It was perfect football weather at Ranger's Bulldog Stadium, and the two longtime rivals sent just about everyone away happy.

The scrappy bunch of visiting Mavericks, whose first team was composed of seven sophomores and four juniors, shocked the Ranger eleven in the second period of play when they sent hard-charging Jimmy Martin racing 96 yards for a touchdown. The Maverick fans halted their cheering quickly, however, when the referee began to step off a 15-yard clipping penalty against the red and black, pushing them back to their own 27 and rubbing out what would have been the first touchdown an Eastland team had scored on Ranger in four years.

Eastland bogged down on their 50, from where Ranger began their first scoring drive. The Bulldogs advanced to the Mav 45 by the penalty route and then drew a penalty back to their own 41.

Best half Bennie Robinson raced to the Eastland 43 from that point and then all-state prospect Scott Forney, who played great ball from his man-under spot, raced to the 38 on a keeper play. From their Forney faded back and hit Right-half Jerry Wharton on the 20.

Ruth Mariam To Return Home In About Two Weeks

According to information received by Mrs. Elsie Fraser, her daughter, Mrs. Ruth Mariam, Ranger trier rider, will not be able to make the trip home from Denver for at least two weeks.

Mrs. Mariam is still a patient in a Denver hospital, after being brutally beaten by an unknown assailant on September 4 near Denver.

Mrs. Mariam is able to be up for short intervals, but the wires and pins have not yet been removed from her broken jaw. She also has a nerve injury which has affected her left side temporarily, her mother stated.

The suspect which Mrs. Mariam was asked to view recently, was not her assailant, according to Mrs. Fraser.

DR. GRADY TICE OUTLINES RJC AGRICULTURE PROGRAM FOR LIONS CLUB MEETING

(Editor's Note: The following is a resume of the talk by Dr. Grady B. Tice at the Thursday meeting of the Lions Club, in behalf of the agriculture program at Ranger Junior College.)

Organizing and launching a program of agriculture in an educational institution is a challenge that most teachers of agriculture welcome. It is a treacherous undertaking though, unless it carries the support of all of the people involved.

The program, to be a functioning program must be a practical one; utilizing the available resources in attempting to develop manipulative skills that will enable the population of a community to be a self-relying and sustaining population. Farming is not an occupation that can be successfully operated from directions off a printed page, neither can it be taught effectively that way. It must be taught from and by actual field experience.

with a perfect peg off his good right arm. Wharton immediately sidestepped two Mavs at that point and then raced to the goal for the first score. Forney then converted his first of three successful extra points for the night. The score came nine minutes sleep in the second quarter.

An 81-yard drive gave Ranger their next tally. Fullback Tommy Sutton blasted his way over his own right tackle as Eddie Janet opened a big hole and found himself all by himself in the Mav secondary. He turned on the speed and raced 85 yards to paydirt. Forney again converted to put Ranger ahead 14-0.

The final score came in the fourth quarter. Eastland was backed up to the four yard line and Billy Upchurch attempted to kick kick. The middle of the Ranger line caved in the play and block the punt and James jumped on the ball behind the goal for the Ranger score. Forney's toe did it again and Ranger led 21-0.

Clyde Evatt, Eastland's left guard, played great ball on both defense and offense. Larry Tankersley, Lupe Herrera, Carl Freeze and Roy Don Harris turned in great defensive games.

For Ranger, John Rush, who played end and center, was a thorn

Vicksburg, Miss., Longview, Tex., and in Australia. On May 1, 1953, the Le Touneau Company sold its factories at Peoria, and Toccoa, and the Australia plant, together with the earth moving machinery manufacturing business, and Le Touneau began the development of a new business. At the present time, the Le Touneau Company is developing and manufacturing land clearing equipment, Marine vessels, cranes and a rubber tired diesel electric train which needs neither track nor road bed and which is destined to furnish transportation into many areas of the world where transportation is not feasible at the present.

The Le Touneau Foundation has sponsored many projects in this country and abroad. At the present time, chief among its activities are the Le Touneau Technical Institute of Longview; the East Texas Academy (a school for delinquent boys) of Longview; Lake Louise Christian Conference Grounds and an industrial missionary project in Liberia and a similar project in Peru. The African project got under way two years ago when Mr. Le Touneau leased 500,000 acres of land from the Liberian government. Several ship loads of heavy equipment have been transported to this project and much progress has been made in clearing land which has been developed for an agricultural project utilizing modern agricultural equipment and methods. The people manning this program are industrial missionaries whose duties include not only the teaching of the natives to handle the modern machinery, but also include the spreading of the Gospel of Christ in the dark continent.

The Peru project has been established since the beginning of 1954. Already more than 50 people have been transported to Tournavista, Peru, a town being built on one of the tributaries of the headwaters of the Amazon River. Through an agreement with the Peruvian government, Mr. Le Touneau has acquired a million acres of land which he is to clear and colonize. People engaged in work in Peru are, like those in Africa, industrial missionaries, to work diligently in spreading the Gospel in addition to their duties of building roads and clearing land.

Mr. and Mrs. Le Touneau have four sons, Richard, Roy, Ted and Ben, and one daughter, Mrs. Gus Dick. In addition to giving his money, Mr. Le Touneau also devotes his time to evangelistic work, spending every weekend in preaching the Gospel. He uses his own private plane for plant to plant journeys and for his weekend ministry. His famous address "Up From Bankruptcy" in which he tells the story of his own life, has been given in every state in the Union and continues to draw large audiences wherever it is announced. Mr. Le Touneau has spent only four weekends at home in the past seven years.

The automobile industry uses almost \$80 million worth of cotton in its products in one year.

It's Still the Thing To Do—
 ... even though it may be later than you think, to get an abstract to the property you bought recently or years ago without any knowledge of the title. Some folks wait too late to see their doctor or to catch the last train out and more of them commit errors in judgment when they buy real estate without an abstract. And the proper time to get an abstract is before you close the deal.

God points the way and gives the invitation... are you ready to hear? Is Sunday church attendance the extent of your religious life? Do you expect to give the least and get the most? Is your Sunday morning prayer your weekly talk with God? Are you as anxious to work "overtime" in Kingdom service as you are at the plant where you earn your living? God is everywhere. Christ expects your best seven days a week... not just on Sunday. Here is the church. He points the way. The invitation is for all; young people, old people and ages between. He says, "Follow Me."

You In The Church... The Church In You...
Form a combination for good. Every man, woman and child needs the influence of the church. Be a faithful worker. Attend every service.

calves on the ground are like MONEY IN THE BANK

It costs a lot of money to keep a cow. A lot of that money is lost if she fails to settle or drops small, weak calves that die or develop into "tail-enders."

BIG CROPS of husky calves are a must, if a fellow is going to make money ranching. This is especially true when the price of cattle is off.

Your range needs help. It takes more than grass alone to give your cows what they need to grow and drop the kind of calves that will bring top prices next fall.

PURINA RANGE CHECKERS have proved their worth in research tests and on thousands of ranches. This favorite range supplement has what it takes. Cattle love Checkers, do well on them. Cows stay up in good shape at calving time, have lots of milk for the calves, too.

More and more Southern cattlemen are planning their breeding program so that calves come in the late fall. These calves are ready to eat early grass—hit the early market, which is usually best.

Feed for big calf crops the Purina Way. Purina Range Checkers can help you keep your operation on the profit side of the ledger.
