### TO THE VOTERS OF RANGER

A. H. (Addie) Williams Makes Statement Concerning His Candidacy for Water and Sewer Commissioner in Coming Election.

In filing for the office of Water and Sanitary Commissioner to be filled in the City Election April 5, I had no selfish motive or grievance in so doing. I am interested in water treatment and in water problems in general and am certified as a Water Operator by the State Health Department. I hold a C Surface and a B Surface license, and a certificate of compentency from the State Health Department. I am affiliated with the Texas Water and Sewage Works Association, and am past president of the Central Texas Water Works Association, of which organization I am at present secretary and treasurer.

I believe that "He who serves most, serves best" and it will be my aim to serve all the people of Ranger. I think that your problem, or your complaint should have due consideration however small it may seem. If elected, I will insist upon efficiency and economy, and will seek to avoid strife and confusion in the Department as well as in City Administration. That was my policy during the four years it was my privilege to serve you from 1949 to 1953, and I know that I am even better qualified to carry out that policy today than I was at that

In reality the City is a large corporation, constituting one of the largest businesses in Ranger, and your Mayor and Commissioners serve as your directors in handling the affairs of the City, in that capacity I shall always be guided by your wishes, subject only to the limitations of the City Charter and our financial

Without co-operation, love for one another, and consideration for the well be-

ing of our fellow citizens we cannot prosper and progress. May we all co-operate and pull together for a bigger and better Ranger.

If marked ballots are handed out that suggest a vote for me I want you to know that I will appreciate the vote, but I have not joined with any group to instruct the voter.

Thanks

A. H. (Addie) WILLIAMS

## THIS LUXURIOUS RANCH-STYLE HOME CAN BE BOUGHT AT GREAT SAVINGS

Located On Highway 80 West - Ranger. Just 4 Miles North of Lake Leon

\$15,000.00 or more loan available, 20 years to pay, 185-foot frontage, 350 feet deep. Big oak trees. One year old. Front yard well sodded with grass. This beautiful home has never been occupied. All utilities are connected.

McAlister, builder and owner, states this is the first in a series of buildings planned for the area to be known as the McAlister Addition to Ranger. Future plans include the construction of more dwellings, a tourist court, super service station and others, he said.

McAlister has, in recent years, developed two additions to Stephenville and

The new house is of mixed brick veneer and frame construction. It has a living room, dining room, kitchen, three bedrooms, two baths, hallway, den, and utility room. Also, it has a double carport facing the highway; a patio at the rear of the house, and a tile covered front porch.

There are two front entrance doors, one into the living room and one into the master bedroom. Outside doors at the rear of the house lead from both the utility room and the den onto the concrete patio.

The usual amount of closet space, with each of the three bedrooms having

The baths are elaborately tiled, and the fixtures and fittings are ultra mod-

Embossed plywood is used a lot throughout the house for walls and decorative purposes. It is equipped with floor furnaces for heating.

The utility room is large enough to be used as a family laundry and hobby shop or work shop. The den is already wired for television. Window screens are one-piece and flexible, and are of the design that allows clear vision from the inside to the outside, but shuts out some of the sunlight.

### TO THE VOTERS OF RANGER

In malling my decision to file my name as a candidate for the post of Finance Commissioner, I considered many things, among them being what I felt to be my qualifications for an efficient and intelligent approach to the problems and limitations confronting the City Commission, the demands that would probably be made upon my time, and, since one cannot hope to please everyone, the possibility of offending some of my friends. After honestly and seriously considering all of these things I still felt a desire to serve my town and my community, especially since every thing I have is invested here in my business and my home and other interests, and I have no plans other than making Ranger my permanent residence, so naturally I am vitally interested in the growth and de-

For the benefit of those who do not know me personally; I am married and have two sons; Gerald, who is a student of Ranger Junior College, and Gene, who is a student of Ranger High School. I, with my partner, John Roberson, own and operate the Bagwell-Roberson Motor Company, the Ford agency. We have staked our money and our faith in the expanding future of Ranger.

I have not made any promises to anyone, I am not pledged to do, or not to do any particular thing. It is my sincere belief that a man who seeks to be a member of your City Commission should, and in most cases does, have only one object in so doing; that of serving his town to the very best of his ability, fairly, and without discrimination against any individual or group, whether they be tax-payers or living in a rented home. They are all citizens and residents of our town, and as such are entitled to every consideration.

I pride myself on my ability to get along with people and I know that I would be able to serve harmoniously with any combination of candidates elected who were dedicated to a policy of progress, efficiency, and a constant mindfulness of the common good of our citizens.

I know that I am qualified by education, experience, and temperament to carry out the things I have stated here as being aim and motivation, and I am very sorry that I have not been able to talk personally with each of you. Had I been able to do so I know that I could convince you of my sincerity in making these statements and my ability to carry them out.

I sincerely hope that you will give me an opportunity to serve you by casting your vote for me in the election April 5. Thank you.

# An Open Letter to the Voters of Ranger

Dear Voter:

One of my opponents, Mr. Lee Dockery, is making flowery and impossible to fulfil promises to the voters about how he is going, if elected, to save the taxpayers thousands of dollars through efficient and economical operation of the Citys' affairs. Now, Mr. Dockery was your Mayor for two years beginning May first, 1947, and ending April 30, 1949, so lets take a look at his record for those two years and see just how efficiently and economically he does operate your city business.

On May 1st, 1947, the day Mr. Dockery took office as Mayor, the City had cash on hand and in the bank \$26,540.27, and only owed in current debts \$1,593.53, which simply means that the City had in cash and in the bank \$24,946.74 more money than was owed. On May 1st, 1949, the day he went out of office just two short years later we find that the City had cash on hand and in the bank the total of \$858.41, they owed in current bills \$4.594.55, they owed a bank note of \$10,000.00, and because Mr. Dockery had failed to put the amount required by Federal Court decree into the Sinking Fund, they owed that account \$7,226.83, making a grand total currently owed of \$21,821.38, or in simple terms they owed \$20,962.97 more than they had. Now, if you add together the money they had when Mr. Dockery entered the office of Mayor to the money they didn't have when he left office you get the startling amount of \$45.909.71 which Mr. Dockery's "efficient and economical" operation had cost the taxpayers in just two short years. In addition to the very revealing figures given above when Mr. Dockery assumed the office of Mayor the tax bond indebtness was \$530,-800.00, when he went out of office the amount was \$603,640.00 — efficient and economical? Please bear in mind that I took these figures from the audit reports and records of the City of Ranger, and those records are open to anyone wishing to verify these statements.

Another item that Mr. Dockery is making a big issue out of is the amount of salaries paid by the City, so lets take a look at HIS record in that regard. During the month of April, 1949, the last month Mr. Dockery held the office of Mayor the total sum paid out for salaries to regular employees was \$4,623.80, and for the month of February this year the amount paid out for salaries was \$4,568.34, in other words Mr. Dockery actually paid out more monthly for salaries than is being paid at present.

Another part of the record I should like to call to the voters attention is the fact that Mr. Dockery is not now, nor has he ever owned his home in Ranger, he has never paid any real estate taxes in Ranger. He did, however, after deciding to run for Mayor in 1947, go to the City Hall and pay delinquent personal property taxes on his car covering a nine year period. The amount he paid was \$67.75, covered by delinquent receipt No. 4250 and 790. AND he paid them on March 3, 1947, after filing for Mayor on February 28. 1947, just three days earlier.

Mr. Dockery has in the past, in attempting to explain how he took over the affairs of your City with money and savings bonds totaling \$26,540.27. and in two years went out of office leaving the City in the hole to the tune of \$20,962.97, by stating that "We went through a water shortage during that period which necessitated the expenditure of extra money". However, the only person in Ranger that got any benefit from money spent in that connection was a member and cohort in his own City Council who got the best stock tank in the County built absolutely free to him on his ranch which is out of the city limits.

Voters in view of the facts presented here can you place any confidence in a platform purporting to be based upon an efficient and economical administration by Mr. Dockery? I think not. And can you, after allying ourselves with the Lone Star Gas Company, a Company whose pledged support to Ranger in gaining new industry could very well be a determining factor in our effort to progress, place at the head of your City Government a man who is antagonistic toward the Company? I believe that you will agree that would not be good business.

I have not, and do not intend to make my campaign on the basis of my opponents disqualifications, but fellow citizens these are facts, and I believe that the voters of Ranger are entitled to the facts. If I am elected to the office of Mayor I promise to diligently and faithfully conduct the affairs of the City to the limit of my ability, and I know that I am qualified, through education and actual experience with City business, to give you an honest, capable and progressive administration,

Yours very truly, O. G. LANIER
