Success Of Salk Vaccine Heralded Over Entire Nation In Final Report

The Pathfinder
by Lee Harr

Musicians: Do you know the motif in that Russian composition they are playing?
Friend: By the sound I should judge it was revenge.

The Times printing shop was honored this past week with a visit of the fifth grade class of Young School, their teachers and chaperones. The group was shown each machine in the plant as it performed its assigned task and each visitor was presented with his name set in type on a lead slug and given a scratch pad printed at this office.

When a group such as this is gathered at one place at one time, one can nearly always expect a classic statement.

This was no exception. As one of the employees here was printing circulars on a job press one youngster approached and asked, "Who's going to deliver those?"

Seems that a pilot stopping here to refuel Monday morning searched in entirely the wrong place to renew his gas supply.

As he landed his plane at the airport, he taxied down the college's practice track strip and over to the National Guard Armory and practically on inside the building.

However, he was directed back to the airport hanger where he refueled and continued on his airborne journey.

How hard it is for a rich man to enter heaven concerns us less than how hard it is for a poor man to remain on earth.

Gads, income tax time is almost upon us. All through the year we say "How nice it will be to get our income tax returns. Old Uncle Sam is going to owe us a pot of money this year." Then we turn it over to a person who understands that maze of lines and figures and all that governmental gobbledegook, and he says, "Oh, you're getting off light this year, it will only cost you \$49.25." Guess, its just no use. Bet if you gave those boys half of your pay check each month for a year, you would still owe them at income tax time.

State Safety Inspection Sticker Deadline Nears

"Motor Vehicle Safety Inspection deadline is drawing near," Captain G. L. Morahan of the Abilene Texas Highway Patrol District office warned here today. The last day that a motor vehicle can be operated on the gold safety inspection sticker is April 15. The new safety inspection stickers are green and must be displayed on all vehicles by April 16.

Capt. Morahan stated that enforcement by Highway Patrolmen will start on April 16. Anyone operating a vehicle without the new Safety Inspection sticker displayed will be subject to a fine of \$1 to \$200 plus court costs.

Inspection of vehicles has been moving at a rapid pace the last few weeks, but there are still a number to be inspected, stated Capt. Morahan. He urged the owners of these vehicles that have been inspected to secure their safety inspection stickers before the deadline to avoid the possibility of having to pay a fine.

They may be obtained at any authorized inspection station.

.65 Here Wind, Lightning, Thunder Sweep In Blowing Rain

Amidst wide spread tornado warnings that were lifted only after 6 a.m. this morning, .65 inches of hard wind-swept rain pelted this area late last night.

The most recent rain brought the total to 1.40 inches here in the past few days.

Only damage reported from the wind storm that accompanied the rain in some areas was from a mile west of Trent where it knocked down a utility pole, and a twister destroyed a barn in Noddy.

The spring storm approached from the west and was preceded by a calm period before unleashing its full fury of rain, small bits of hail, thunder and lightning and gusty winds.

Cattle Generally Strong After Spring Rains

Cattle held generally strong in the face of spring buying at Monday's regular weekly auction at the Ranger Livestock Commission Exchange.

More than 400 cattle and 100 hogs were sold in the day's activities that saw fat calves bring as much as \$22.50 and stocker calves sell for as high as \$17.50.

Prices included: fat calves, \$17-\$22.50; common to medium calves, \$13.50-\$17.50; fat cows, \$11-\$13.50; canners and cutters, \$8-\$11; bulls, \$11-\$14.50; stocker calves, \$16-\$19.50; cows and calves, \$10-\$15.00 a pair; hogs, tops at \$18.50 and sows \$14-\$16.50.

English Buyers Purchase Mohair From Vicinity

More than 150,000 pounds of mohair this year, P. T. Smith, manager of C. P. Cloud Wool and Mohair Co., said here today.

He added that the year's largest production of wool would be handled in May and another crop of mohair would be available in the fall.

Portions of the mohair crop is shipped to various points within the United States while some goes as far away as England. One shipment of 66,000 pounds was sent there last week. Smith said that the largest portions of the local supply is routed to Boston, New York, and Pennsylvania.

It takes nearly 50,000 goats to produce this much mohair, Smith figured.

"1954 SHIELD" FOR HIGHWAY COURTESY is presented to H. E. "Sonny" Box, Most Representative Hobbs Knight of the Road, at the awards program's April 5 banquet in Austin. After describing how Box had rendered assistance to two women and two small boys at an accident three miles south of Valley Mills last year, Colonel Homer Garrison Jr., director of the Department of Public Safety, at right, said, "Only consideration for his fellow man prompted Box's action... he's the kind of driver I wish we had behind the wheel of every commercial vehicle in the state." At left is W. E. Grace, vice president and general manager of Hobbs Manufacturing Company, Fort Worth trailer building firm which together with the Texas Safety Association and the public safety department's License & Weight Division sponsors the program that singled out 65 truck drivers for courteous acts last year.

Ranger Golfer, Earl Pittman Is On Winning Pro-Amateur Team

Weatherford, Breckenridge, Ranger, Eastland and Cisco were represented on the winning team in the Lakeside Country Club pro-amateur tournament.

Thirteen teams from about this area participated in the Saturday afternoon tourney, which was cut short — at the end of 9 holes of play — by rain.

The victorious team, which received golf merchandise, consisted of Pro Bill Dill of Weatherford, Dr. W. E. Barrow, Eastland; Bob Cunningham, Breckenridge; Earl Pittman, Ranger, and Buzz Sawyer, Cisco. Their winning low total was 199, for the nine holes.

Dill, incidentally, tied with Col. Rearse of Mineral Wells for medalist of the tourney, with one-under par 35.

Players participating in the links meet came from Weatherford, Mineral Wells, Cisco, Ranger, Eastland and Breckenridge.

Lakeside Manager John Lively stated that the club, which holds four or five such tournaments in the course of a year, will stage its next one July 7.

Fire Whistle Causes Tornado Alarm Here

A false alarm sent city citizens scurrying for storm cellars and to their telephones for information last night near midnight in the height of the thunderstorm that lashed the city.

Persons here realized that the fire whistle would be the first warning in case of a tornado reported in the area via the police radio.

During the lightning that accompanied the rain and thunder, the wires connecting the fire whistle developed a short circuit and set the whistle sounding the alarm.

Funeral services were held Sunday in the Morris Chapel for A. A. Roby, 902 Foch St., Ranger, who died Saturday in a Ranger hospital.

Mr. Roby moved to Ranger in 1921 and was a member of the First Christian Church, and the Oddfellow Lodge. He was born in Canton, Ohio, Oct. 8, 1863.

Immunity May Be Possible In 2 Shots

Secret papers concerning the success of the Salk polio vaccine were aired today at 10:20 a.m.

In tribute to the late Franklin D. Roosevelt, a polio victim who founded the National Foundation for Infantile Paralysis, the success of the vaccine was heralded world wide.

Some guessed that the vaccine's effectiveness would range from 90 percent upward but there was absolutely no confirmation of any figures.

Dr. Jonas E. Salk, the vaccine's discoverer, when asked if the vaccine was "an unqualified success," only shook his head negatively.

Dr. Thomas Francis, Jr., the vaccine's judge, announced the findings of the year long field test at a scientific session at the University of Michigan.

At the news conference in Michigan, both doctors agreed that to expect 100 percent protection from the vaccine would be far too optimistic, but that it wouldn't need to be 100 percent effective to be a successful vaccine.

They pointed out that smallpox vaccines, one of the best out now, is 95 percent effective.

The vaccine is made of the virus from all three types of polio which cause human paralysis. The virus is carefully eliminated so that it cannot cause disease, but it still keeps the power to stimulate a person's body to defend itself against the virus.

Evaluation of the effectiveness of the vaccine is based on a year-long field trial after 440,000 received the serum last year.

Other findings of the tests were that possibly only two shots were needed instead of three to give at least temporary immunity.

Before today's official acceptance of the vaccine, only Dr. Francis knew of the test results. Not even Dr. Salk had an inkling as to what turns the reports would take.

If only two shots instead of three are required for immunity then protection could possibly be increased from 18,000,000 to 27,000,000.

Funeral Services Conducted For A. A. Roby

Funeral services were held Sunday in the Morris Chapel for A. A. Roby, 902 Foch St., Ranger, who died Saturday in a Ranger hospital.

Mr. Roby moved to Ranger in 1921 and was a member of the First Christian Church, and the Oddfellow Lodge. He was born in Canton, Ohio, Oct. 8, 1863.

He was married to the former Miss Mary Anne Hamilton in Missouri in 1883. She predeceased him in death in 1942.

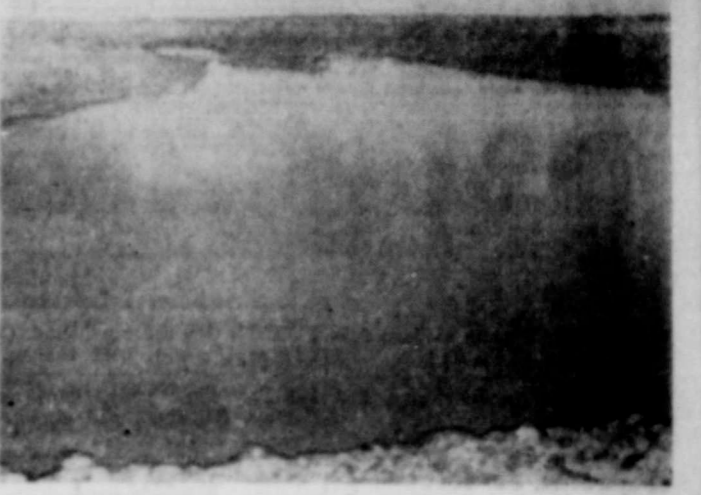

Rev. Don Fordyce, pastor of Ranger's First Christian Church, officiated at the services and interment was held in the Evergreen Cemetery.

Mr. Roby is survived by a niece, Mrs. Raymond West, Sr., of Ranger; three grand nephews, Robert Barr, Odessa; Raymond West, Jr., and Richard West, both of Fort Worth.

Funeral services were held in the First Baptist Church in Ranger, and Rev. H. D. Blain, Cisco, officiated at the services and interment was at the Colony Cemetery.

He is survived by four daughters, Mrs. O. M. Padgett, Madisville; Mrs. C. G. McHardy, Chandler, Okla.; Mrs. T. J. Boyd, Odessa; Mrs. J. W. King, Oklahoma City; three sons, Carl and Allen Eakin, both of Ranger; J. D. Eakin, Mineral Wells; 30 grandchildren and 17 great grandchildren.

A daughter and two sons have predeceased him in death.

YES, IT'S WATER, IN LEON—Although that big rain hasn't come yet, there's water in Lake Leon (as shown by this photo snapped lately by Gene Rhodes, from the lake dam.)

193 May Get Vaccine Here

Plans for a community polio vaccination program, which have been underway for many weeks, in Ranger, will go into action.

On that day the first inoculations of a three shot series required for protection against paralytic polio will be given to 193 children in the first and second grades of all public, private and parochial schools in this community.

The "go ahead" was given by the Federal Government today when it announced the successful licensing of the Salk polio vaccine field tests.

Vaccine for this program, which is being operated by state and local health officials, is being supplied by the National Foundation for Infantile Paralysis. At the same time, physicians will be making arrangements for the vaccination of children not included in this program, using vaccine purchased through usual channels. Vaccination is both instances is entirely voluntary.

The March of Dimes organization contracted for \$9,000,000 worth of vaccine before it was known that it prevented paralytic polio, so that manufacturers could keep in production and thus have vaccine for distribution soon after licensing. This financial risk, made possible by contributions of millions of Americans to the March of Dimes has now "paid off." The vaccine is ready to be used to launch a worldwide program of protection against crippling polio.

In this country, vaccine is being offered to approximately 9,000,000 school children in high-incidence age groups. Their parents have been asked to sign request forms for its use. Doctors, nurses, teachers and National Foundation volunteers will help in its administration.

Parents of children not included in the community program who wish to have them vaccinated should consult with their family physician soon.

The supply of commercial vaccine is substantial, although probably insufficient immediately to meet the demand.

Dr. L. C. Brown, county health officer, said that the report concerning desire for the vaccine was incomplete. The method is for parents to make known their wishes to the teachers.

He did have practical reports from localities including Eastland and Cisco. Dr. Brown's information led him to believe that at least two-thirds and perhaps more of the eligible children in Eastland would take it and early reports from Cisco showed 220 out of 250.

G. B. Rush, superintendent of schools in Ranger, who is in charge of compiling the lists of parental consent for the vaccination said (Continued On Page Five)

Ex-Ranger Man Is Royal Arch Mason In England

Capt. James Calvert, serving with the Air Force's 2919th Air Police Squadron in Faringdon, England, is the first American Master Mason to become an English Royal Arch Mason, in the Wiltshire Provincial Grand Lodge of England.

The ancient ceremonies of the Royal Arch Chapter were conferred on Captain Calvert in the Wiltshire Chapter of Royal Arch Masons, No. 355, Seindon, Wiltshire on March 23.

Capt. Calvert is a native of Ranger and attended Ranger Junior College, the American Herwitz and the University of Maryland.

He entered the armed forces in 1943 and saw action in the Ardennes, the Rhineland, and the battle of Central Europe.

During his service, he was awarded the Air Medal with four (Continued On Page 2)

Patrons Brace Bitter Weather For Bargain Days

Merchants here experienced one of the most vigorous Bargain Day episodes that has been felt since the monthly program was implemented last year.

One businessman summed up the situation "a phenomenal weekend."

Some attributed the large success to the number of customers who came here from surrounding cities and counties. One merchant said that most of his business was taken from out-of-town patrons over the two day period.

Streets during the two days, especially Saturday, were lined with parked cars and nearly congestive traffic at times despite bitter weather.

Probably at no other time, with the exception of the Christmas season, was the event such an outstanding success.

Clean-Sweep Victory—Alderman-elect Charles H. Weber of Chicago, Ill., will sweep into office on this motorized street-sweeper. It was the promise that his 45th ward would see one of the gadgets in service that helped him win the nomination. Appearance in the Bavarian costume fulfills another promise—to let his constituents see him in the outfit, a gift from the late mayor of West Berlin, Ernst Reuter.

CLEAN-SWEEP VICTORY—Alderman-elect Charles H. Weber of Chicago, Ill., will sweep into office on this motorized street-sweeper. It was the promise that his 45th ward would see one of the gadgets in service that helped him win the nomination. Appearance in the Bavarian costume fulfills another promise—to let his constituents see him in the outfit, a gift from the late mayor of West Berlin, Ernst Reuter.

Huntz Hall and Leo Gorcey enjoy harem life very much with Joan Shawnee in their latest Bowery Boys comedy for Allied Artists, "Bowery to Bagdad," the current hit the Ranger Drive-In Theatre.

Traffic Accidents Claim 400 Children Yearly

Being normal people, most of us are moved with compassion when we see pictures of child victims of war or famine. We pity the poor children who grow up in countries less fortunate than ours. At such times we're likely to think of the many advantages most American children enjoy... good food, clothing, housing, education... freedom from want... freedom from fear.

We lose sight of the fact that those well fed and often pampered American youngsters are exposed every day to an enemy as vicious as any invading army... an enemy that annually takes the lives of over 4,000 children and injures over 200,000 more. This enemy? Traffic Accidents!

We can't even lay the blame for this child slaughter at the door of the criminal element in our society. The vehicles that snuff out the lives of our children are, for the most part, driven by ordinary, law abiding citizens. Most of these people have the welfare of the nation and its children at heart. Yet, through sheer carelessness, they rob countless children of life... bring grief to parents... and rob the country of its most precious possession—its future citizens.

What's the explanation? The only explanation is they don't realize that careless driving breeds traffic accidents. As long as drivers cherish this blind spot, we'll continue to have traffic accidents—many of them involving children.

All of us who drive should wake up and face the facts. It's criminally careless to drive an automobile (1) when you're ill, worried or fatigued, (2) after you've been drinking, (3) at a speed that's not safe for conditions.

None of us can say we've never been guilty of careless driving in the past. But we can resolve to mend our ways in the future. Now.

Electric Cooking is CLEAN

..... your utensils will REFLECT the cleanliness of your modern Electric Range

Clean electric cooking makes it possible for you to have bright and shiny cooking utensils after years of use... without the messy job of scouring and polishing outer surfaces. It also helps keep your kitchen curtains and walls fresh and color-bright with less cleaning.

Why? Because electric surface units transmit heat by direct contact with cooking utensils for maximum efficiency and cleanliness. Electric ovens, too, are designed to help keep your kitchen clean.

Find out for yourself about clean electric cooking, and learn about its other advantages... coolness, accuracy and economy.

TEXAS ELECTRIC SERVICE COMPANY
A. N. LARSON, Manager Phone 189

COOK ELECTRICALLY
It's white-glove CLEAN

Your favorite appliance store has the electric range that fits your needs and budget. Select yours now and enjoy CLEAN cooking electrically.

"PHFFT" foursome above are Judy Holliday and Jack Lemmon, Jack Carson at right and curvy Kim Novak, new blonde star discovery. The quartet appears in Columbia Pictures' "Phfft," now at the Tower Theatre. George Axelrod, author of the Broadway hit, "The Seven Year Itch," wrote the new romantic comedy.

FORE!
"Fore!" yelled Glen Glibb as he sized up the fairway in front of him. "Petter wait," cautioned another member of his foursome. "Those people aren't out of range yet."

"Well, they're too slow," growled Glen. "I'll just crack one over their heads—that'll speed 'em up a little."
There was a resounding crack as Glen drove, and the golf ball out low and hard along the right side of the fairway. As the players watched, admiring the fine shot, the ball began to curve to the left, hooking toward the two men and two women in the fairway. "Fore," Glen yelled frantically, and one of the women moved desperately to one side, ducking her head. The ball struck her on the arm.

Warning Necessary
In all of his conduct which might result in harm to another player, or to a lady, the golfer must exercise reasonable and ordinary care, according to the circumstances. It is well known that driven balls do not always travel in the straight course intended, but the player must reasonably foresee the likelihood of injury to others from his driven ball, and use the care necessary to prevent such injury.

One duty of a golfer is to give timely warning of an intended drive if the other player is not aware of such intention, but in some cases a mere warning is not enough. The golfer is not necessarily an insurer of the safety of others with references to the balls he drives, nor is he guilty of negligence merely because the ball deflects from its intended course, but he must have in mind the possibilities of dangers to others.

Ordinary Care Needed
In the case above, Glen was at fault. The players were obviously in a danger zone, and the mere shouted warning was not sufficient to protect them, especially since their backs were to Glen, and they were proceeding ahead of him, in a place where under the rules of the game, they had a right to be.

On the golf course, remember, use just ordinary reasonable care to see that other players are protected. Be sure they know when you are going to drive, if they are in a danger zone, and don't deliberately drive into the people ahead of you.

Delightful Play Is Presented By Olden Seniors

Captivating a sizable audience, a three-act comedy, "He Couldn't Marry Five," was presented by the Senior Class of Olden High School at the high school gym Thursday night.

The cast was well chosen and capably directed by Principal and Mrs. J. T. Weaver, of Olden High. Roles were enacted by Betty Smith, Frances O'Brien, Maxine McCotter, Shirley Matlock, Wilma Elliott, Thelma Edwards, Wanda Yielding, Dale Norton, Alvis Rodgers and Linda Needham.

The appreciative audience represented Eastland, Ranger, Olden, Staff and other nearby communities.

In line with the custom, proceeds from the rollicking play will go toward defraying the expense of the annual senior trip, this year projected for New Orleans.

SONS HOME FOR EASTER

Guests in the R. E. Johnson home over the Easter weekend were their sons and families.

Mr. and Mrs. Alvin Johnson and boys, Terry and Sid are from Brownfield, Texas and the Robert Johnsons and son Warren are from Fort Worth.

REUWERS HAVE GUESTS

Miss Betty Reuwer of Fort Worth, is spending the Easter Holiday here with her parents, the W. A. Reuwers.

House guests in the Reuwer home over the weekend were Lt. Jack Cook and Lt. Bob Guyan of Carswell Air Force Base in Fort Worth.

MRS. BAILEY ILL IN SAN ANTONIO

Mr. and Mrs. Odell Bailey of Ft. Worth spent the weekend here with his father, W. M. Bailey.

Mr. Bailey left by train for San Antonio Monday morning to visit his wife who is ill at the home of their daughter, Mrs. Claude Stroud. He was accompanied by Odell from Ft. Worth.

HD County Council Plans Spring Programs At Meeting In Eastland

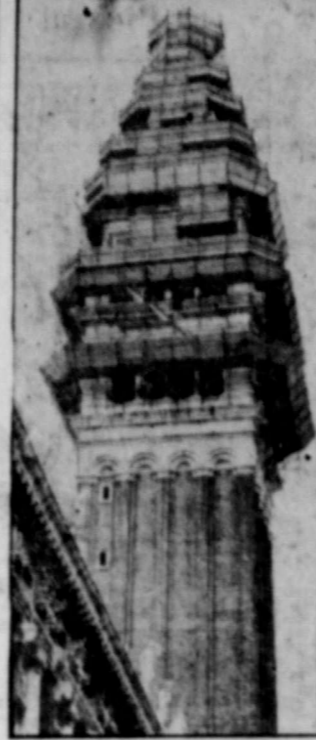

The Eastland County Council of Home Demonstration Clubs held its regular monthly meeting Wednesday in the Texas Electric Clubroom.

Eight clubs were represented with 16 present. Plans were made for an impersonation party and tea to be held in honor of National Home Demonstration Week in May. Named to take care of plans was a committee composed of Mrs. Bernard Campbell, Carbon; Mrs. Johnny Burns, Okra, and Mrs. Will D. Hazel, Cisco. Each club has some form of entertainment of its own that week. The finance committee chairman, Mrs. R. W. Gordon, read recommendations for the year.

Mrs. Will Ware of the North Star Club, Rising Star; Mrs. Ernest Schaefer of the Word Club, Cisco; and Mrs. Bill Tucker of Cheaney, vice president of District 8, gave reports of the district convention of the Texas Home Demonstration Association, held March 30-31 at Temple. Miss Minnie Mae Billingsley, County Home Demonstration Agent, reported also on the convention.

Mrs. Melvin Shell of the Town and Country Home Demonstration Club of Gorman was named by the agent to be Council reporter.

The 4-H Club Rally Day, slated for April 23, was announced by Miss Julia LaFaye Mason, Assistant County Home Demonstration Agent. The 4-H girls dress review will be staged April 30, she said.

VENETIAN PAGODA — St. Mark's Campanile, in Venice, Italy, assumes the appearance of a pagoda with its temporary ornamentation of scaffolding. The world-famous bell tower in San Marco Square is undergoing a perennial cleaning of its marble facing.

First Methodist Spring Revival To Begin Friday

The Rev. Ervin Gathings, pastor of St. Luke's Methodist Church in Fort Worth, will preach the spring revival at First Methodist Church beginning Friday, April 15 at 7:30 p.m. Services will also be held Saturday evening, with regular services Sunday.

The Rev. Jack Payne, pastor of the Ferris Heights Methodist Church in Waxahachie will lead the singing.

Morning services will begin at 7 a.m. Monday and continue through Friday. Breakfast will be served each morning.

Martha Dorcas Class Meets For Luncheon

Members of the Dorcas Sunday School class of the First Baptist Church met recently in the home of Nettie Sudderth for a covered dish luncheon. Mrs. Matt Robinson was co-hostess.

Mrs. Joe Tullos conducted a short business session in the absence of the president.

There were 18 members present and three visitors, Amy Brown, Mrs. Lee Mitchell and Robbie Robinson.

HERE FROM ABILENE

Mrs. Tinnie Gibson of Abilene arrived Sunday to spend a few days with Mrs. Emma Dyer and Mrs. Mollie Townzen.

Ranger Couple To Be Married Next Sunday

Mr. and Mrs. H. C. Edwards of Ranger announce the engagement and approaching marriage of their daughter, Novilla, to C. W. (Bill) Templeton, son of Mr. and Mrs. A. O. Templeton of Ranger.

The double ring ceremony will be read by the Rev. W. E. Hallenback at the First Church of God in Eastland, Sunday, April 17.

Miss Edwards is a graduate of Ranger High School and Central Technical Institute of Kansas City, Mo.

Mr. Templeton is a graduate of Breckenridge High School and Ranger Junior College.

After a short wedding trip the couple will make their home in Big Spring where he is employed by Varel Mfg. Co.

Elite Study Club To Meet Thursday Noon

Members of the Elite Study Club will meet at Oddfellows Hall at noon Thursday, April 14, for a covered dish luncheon and business session.

All members are urged to be present.

SOUTHWESTERN BELL INSTALLS

TWO MILLIONTH TELEPHONE IN TEXAS

SOUTHWESTERN BELL'S two millionth telephone in Texas was placed in service early this month... just 77 years after the first telephone installation in the state.

This two millionth telephone is a far cry from the two telephones installed in 1878 connecting Col. A. H. Belo's office at the Galveston News with his nearby home.

Not quite eight years ago—in August, 1947—Southwestern Bell installed its one millionth telephone in Texas. Thus, we have added as many telephones in the past eight years as during the previous 69.

Yet, the big story is not in the number of telephones—but what the telephone means to the state and nation. As telephones are added, miles shrink and the range of the human voice overcomes time and distance.

Two million Southwestern Bell telephones in Texas form a bridge of understanding that strengthens the social and economic ties between all the people within and beyond the boundaries of the Lone Star State.

The growth of a telephone system within a state is a good indication of the state's progress and prosperity. For instance, in 1925

TEXAS TELEPHONE MILESTONES

- 1876 — First telephone connect Col. A. H. Belo's office in the Galveston News with his home.
- 1879 — First telephone exchange in Texas opened in Galveston.
- 1883 — First long distance telephone line connects Galveston and Houston.
- 1899 — First 100-line rotary switchboard installed in Dallas.
- 1927 — Telephone calls to Europe possible for Texans.
- 1929 — Ship-to-shore telephone service started.
- 1938 — Southwestern Bell's 500,000th telephone installed.
- 1946 — First telephone in moving vehicles.
- 1947 — Southwestern Bell installs one millionth telephone in Houston home of Mr. and Mrs. Gustav W. Kautler.
- 1952 — Operator long distance dialing introduced.
- 1953 — Customer long distance dialing possible from Fort-Worth to 13 Valley cities.
- 1955 — Two millionth Southwestern Bell telephone installed.

Southwestern Bell served Texans with \$58 million in telephone property, by 1940 this had grown to \$139 million; and by 1955, the company served Texans with \$650 million in telephone plant. Because telephone growth is made possible by money invested by citizens in all walks of life, the two millionth Southwestern Bell telephone in Texas is a symbol of trust and confidence in the future of the state.

We are still growing and expanding with Texas—building more and better telephone equipment throughout the state... planning to meet the telephone needs of the future—whatever they may be.

Yes, we're proud of our two million telephones in Texas. But to a greater degree, we are grateful for the friendship of the people of Texas through the years.

SOUTHWESTERN BELL TEXAS

30 - Year School Board Veteran Looks Back on Changing Times

After thirty years of service to the schools of Eastland County as a member of the County School Board, W. P. Roach, who was elected to another term on the board Saturday, can look back upon a period that has seen the most rapid and radical change in the history of the public school system.

His service began in the fading years of an era so well commemorated by the lines of a familiar little poem, some of which goes like this:

"Readin' and writin' and 'rithmetic,
Taught to the tune of hickory stick—"

In the more than a quarter of a century since he first took up his duties as a county school board member in 1925, the common school district with its one-, two-, and three-teacher school, has disappeared. There were 40 such common school districts in the county when he first began serving as a board member. Today all districts of the county are into

nine districts administered under the high standards and strict regulations of the Gilmer-Aiken laws. All of these districts are under the supervision of the County School Board and the county school superintendent.

Mr. Roach has had an important part in bringing about this change. As a result of it he has seen equal education opportunities extended to the children of all sections under the guidance of teachers whose pay has been increased to levels more commensurate with their service, without discrimination between districts.

The change has not been easy. The old common school district, steeped in tradition and jealous of its local prerogatives, did not die easily.

"It was pretty rough, back there when we were making those consolidations," Mr. Roach recalls.

Under the Gilmer-Aiken school laws, it is mandatory that the County Board consolidate dormant districts into active independent districts or common school dis-

tricts. In cases where voting was indecisive or negative, the board ordered the dormant districts involved to be joined to adjacent independent districts or common school districts. There was a considerable outcry from some quar-

W. P. ROACH

ters, but the reorganization has been accepted as best for the schools and an inevitable development, it was pointed out.

"We have better schools, better teachers and better facilities," said Mr. Roach. "The children of the county, all of them, now have better educational opportunities. Terms are no longer limited by the tax resources of the little districts and every district, no matter how small, can attract highly qualified teachers because standard salaries are paid."

But even if the demand for better schools had not dictated the death of the old dormant school district, the shifting pattern of the population would have done so, Mr. Roach points out.

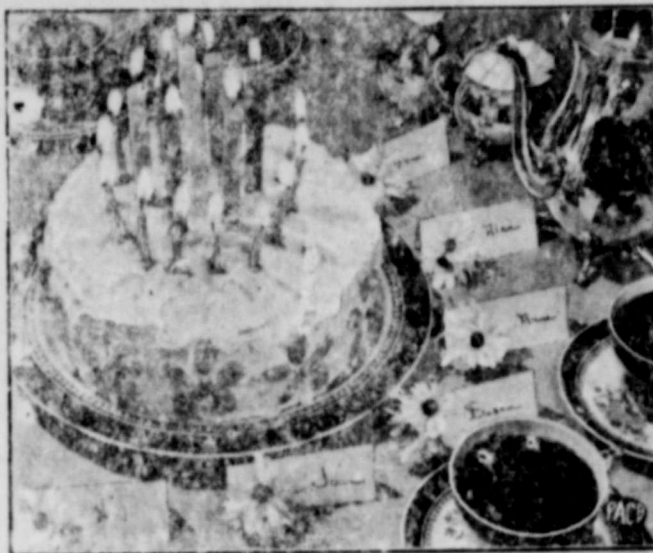

"There are a lot fewer people living on the farms now," he said. "Farm families have moved into the towns and commute between their town homes and the farm, in many cases."

The same good roads which make this "commuting" possible, make it easy and practicable to group the old districts into one large district and transport the students by buses.

Although much has been accomplished in the direction of improving the schools and their organization, much remains to be done, Mr. Roach believes.

The veteran County Board member is not a native of the Rising Star area, although he came within three months of being so. His parents took him to that community from Navarro county when he was that age, and he has lived all of his life since in the Rising Star area. Mrs. Roach, the former Miss

In the Pink at the Birthday Party!

FIGURED the pretty cake, all pale-pink, daisy-decked icing on the outside; all deep-dark chocolate chiffon richness on the inside. Here are the candies in varying shades of pink, graded in size and gathered into a mound of shimmering light. The guest of honor cannot fail to blow them out with one big "woosh." And here's the traditional custom to wait for a special, fragrant "Welcome to the party, everyone!"

Now, we don't say that this is a "world's best" in the world to make it last! But you'll find it well worth the effort to produce. It's as pretty as a picture and light as a cloud—a chocolate cloud that's faintly permeated with the subtle flavor of almonds. And the texture, for all its lightness, pays a velvety tribute to the heavy of good things that go into the cake's making.

When you serve a cake such as this, be sure that you have plenty of coffee in the pot for seconds— or maybe even thirds. It's going to take many an appreciative cup of the steaming brew to keep it company right down to the very last, delectable crumb.

Chocolate Chiffon Birthday Cake

2 eggs, separated
1 1/2 cups sugar
1/4 cup oil
1/2 teaspoon baking soda
1/2 teaspoon vanilla
1/2 cup almond extract
1 cup butter-milk
2 squares (2 oz.) unsweetened chocolate, melted
1/2 cup almonds, almond extract

Beat eggs to "70" "F." (medium "T")

LANGFORDS HAVE HOLIDAY GUESTS

Mr. and Mrs. Keith Langford and sons had as visitors over the Easter Holidays Mr. and Mrs. A. P. Dooley of Denton, Mr. and Mrs. C. R. Langford of Lawn, Mrs. Raymond Bristow and boys of Mineral Wells and Mrs. John Prusley of Jacksboro. Mrs. C. R. Langford is spending this week with them.

SAVE 1 1/4 bu. grain PER PIG

PURINA SOW and PIG CHOW

The average hog man already has an investment of 2 1/4 bushels of corn in every pig the day pigs are farrowed. But the man who feeds his sows Purina Sow and Pig Chow on the Purina Program has an investment of only 1 bushel of corn per pig when pigs come—that's a difference of a couple of dollars per pig to start with.

Here's why—Purina Sow and Pig Chow has everything sows need to keep them up in condition and help them to grow and farrow big litters. Purina Farm farrowing records show better than 3 more pigs per litter than average. Many Purina Program feeders get equally good results.

And sows are ready with lots of milk... to start them right. Let us tell you more about Sow and Pig Chow and the Purina Hog Program. Come see us soon at Your Store with the Checkerboard Sign.

Growth and Problems are Twin Companions—

... and go along together in the evolution of Progress. Two years ago in a Western city we witnessed the processing of 4400 County Clerk documents into the records of a large title plant. Every day it was the same. Every instrument filed added another entry to someone's abstract and another problem in the abstracter who processed it. And as we walked away we thought of our big responsibility in preserving your title records even in this small county. Yes, it's a problem, but Progress is in action!

BEST BUY NEW; BETTER TRADE-IN, TOO!

LONGEST, ROOMIEST

Plymouth Suburbans—biggest in the low-price 3!

Plymouth's six new Suburbans are here—and they're the longest, roomiest cars of their type ever offered in the lowest-price field! Each offers you the most cargo space however you measure, plus a tail gate that folds flat to extend carrying capacity.

And each is strikingly beautiful, inside and outside. Compare the figures below—consider Plymouth's other bonuses in styling, power, economy and safety—then come in and drive one of these big, versatile beauties. Do it today.

6 STUNNING CHOICES	PLYMOUTH BEATS THE "OTHER 2" IN ALL DIMENSIONS!			WHY PAY UP TO \$500 MORE FOR A CAR SMALLER THAN PLYMOUTH?
	PLYMOUTH	LOW-PRICE CAR "A"	LOW-PRICE CAR "B"	
Over-all length (in.)	208.8	197.1	197.6	Don't be fooled by the claims of so-called medium-price cars that they cost practically the same as Plymouth. When you compare price tags you'll find that, model for model, Plymouth sells for much, much less than medium-price cars, and gives you more car for your money!
Length loading deck (in.)*	53.8	46.3	51.0	
Total loading area (sq. ft.)*	28.8	27.9	26.0	
Loading area, 2nd seat up (sq. ft.)*	20.0	16.2	17.7	
Loading area behind 3rd seat (sq. ft.)*	10.0	No 3rd seat	8.7	
Maximum width of cargo space (in.) . . .	64.0	60.0	58.3	
	*Not including tail gate 14-door models only			

ALL-NEW PLYMOUTH
