A good terrace is one which will carry a flood and yet be easily farmed. Terraces inspected here by Paul Norris on his farm northeast of Carbon, are an example of terraces with a big water capacity and smooth flat side slopes adapted to modern farming equipment. Steps in the construction of these terraces are shown in the lower photos.

In this photo the bulldozer is making the first trip along the terrace pushing the dirt from the channel to the ridge of the terrace. Terrace channel has already been chiseled to loosen the soil.

This photo shows the second trip with the dozer. The next step is the final grading of the terrace channel and bridge by running the dozer lengthwise of the terrace.

### Terrace Construction Assistance Available Through SCS Office

Terraces are among the oldest of conservation measures, yet a large portion of the crop land in this area is still in dire need of terracing.

Much of this land needs new terrace systems as many old systems are impractical to farm and maintain with modern machinery, Upper Leon Soil Conservation Authorities say.

In recent years there has been an adaptation of terrace design to modern farming methods.

Terraces are being built with flatter side slopes and broader bases to fit bigger equipment.

They are being built with less height yet still retaining adequate water capacity to dispose of the heaviest of rainfall in a safe manner.

Another somewhat recent development in terrace design is the use of parallel terraces.

Paralleled terraces eliminate point rows and lesson turning in all farming operations.

Point rows were really not much problem in horse and mule farming, but with four row equipment they become a major hindrance.

Paralleled terraces are not practical on all cropland, but they can be installed on many fields with very little extra cost.

### Coleman Wins 20-8 Over Bulldogs To End Season

The Ranger Bulldogs, playing their last game of the season Friday night, took a 20-8 loss at the hands of the Coleman Bluecats. The district contest was played before a small crowd of shivering fans.

Punts	3 for 29

Coleman took the contest only after a hard fight. Score at half-time was 8-8 tie. Coleman's went ahead in the first minutes of the last quarter and put the clincher on the score in the last 15 seconds of the game.

The Bulldogs fought hard the entire game but were unable to stop the speedy Coleman backs as they ate up yard after yard on their own side.

Playing their last game for the Bulldogs Friday night were co-captains Joe Barker, Terry Townsend, Jean Merritt, Alfonso Vasquez, Donald Ray Lewis, David Lockwood and Richard Guest.

The Bulldogs first threatened in the first quarter when Joe Barker intercepted a Coleman pass and raced 68 yards down to the Coleman 5 yard line. The Bulldogs were unable to make the necessary yards and Coleman took over on their own seven.

The Bulldogs took first scoring honors 6 minutes deep in the second quarter. On their own 34, the Bulldogs were forced to punt. The ball traveled to the Coleman 40 yard line.

### Warning Lights Taken From Construction Job

Chief of Police Bob Patterson said today that two butane warning lights were removed by parties unknown Thursday night from construction warning barricades on Highway 80.

The two lights were found Friday morning, one on the steps of the girls dormitory and one at the boys dorm at Ranger Junior College.

Patterson said that the lights were probably taken as a joke, but that it was a very serious offense. He said that the lights cost \$45 each, which constitute a felony charge. The most serious thing, he said, is the fact that removal of the lights might cause someone to run into the barricade at night.

When actual construction on the road gets underway, it will be very dangerous to travelers at night if they are not warned that they are approaching highway construction and a serious accident could result if the warning lights are not in their proper place.

### Mrs. Oyler Is Registrar For County Draft Board

Mrs. Mae Belle Oyler of Ranger has been appointed registrar for the Eastland-Stephens county draft board in the Ranger area.

Boys who reach the age of 18 can register in Ranger by calling on Mrs. Oyler in her office in the City Hall, 318 Main Street, from 9 a. m. to 5 p. m., Monday through Friday, and from 9 a. m. to 12 noon on Saturday.

A registrar is maintained in the area so that men will not have to travel to the draft board at Eastland.

Colonel Morris S. Schwartz, state director of the draft system, expressed public appreciation of the services of Mrs. Oyler.

"People of the Ranger area should appreciate the services she renders to them," Colonel Schwartz said, "as she is doing the work without pay as a public service to her country."

All males are required to register under the draft law on their 18th birthday or within five days thereafter. Maximum penalties that can be applied for failure to register are 10,000 fine, or five years in prison, or both.
