A Small City with Big Industry - A Bright Spot for New Industry

RANGER, TEXAS, SUNDAY, JANUARY 14, 1962

PLAN YEAR'S WORK-Loy Plumicy, left, newly named manager of the Ranger Cham- Miss Patricia Renfro of San Saba, Best kernels-E. W. Darilek, Seber of Commerce, and Dick Henderson, president of the organization, are pictured as a senior in San Saba High School. guin, Schley-Carmicheal cross, they make plans for the new year. Directors of the Chamber of Commerce will meet She is the dughter of Mr. and Monday night in the Chamber office to complete plans for projects for the year and also Mrs. Frank Edwards. set a date for a meeting of the entire membership of the Chamber. Plumley and Henderson reminds everyone that membership drive is now underway, and that if you are not a member, you will be contacted in the near future

O. G. Lanier **Gives Rotary** Program Wed.

O. G. Lanier was guest speaker at the regular Ranger Rotary Club meeting held Wednesday noon in the Ranger Junior College

Lanier's topic was on taxes, a very timely subject for this time of the year when everyone is pre paring income tax forms. He exined that a number of changes and been enacted this year for the first time. In all, 13 new res dutions have been passed by con-

Lanier said that in the future all individuals will be assigned a number by the Internal Revenue Service. Firms with more than five employees have had a number for several years, and how each individual will receive a number Lanier said that this would greatly increase the efficiency of the Internal Revenue Service in keeping track of the millions of taxpay-

He also told the Rotarians that form 1040-A was to be used by individuals in filing their income was not over \$5,000. Form 1040 is for use by individuals with in-come over \$5,000 or if they have income other than a straight salary of over \$200.

Rudy Florez Suffers Burns On Right Leg

Rudy Florez, 10 year old son of Chico Florez, suffered first and second degree burns on his right leg when a gasoline fed trash fire exploded Wednesday afternoon. Rudy was burned below the knee

Rudy was burned below the knee as flames from the explosion shot up his trousers leg. Somehow the fire did not even scorch the pants.

He was rushed to the Ranger Clinic for first aid treatment and then was admitted to Ranger Gender of the was admitted to Ranger Gender

Margaret Ann Drake Becomes Bride of Jess W. Paul Jr.

Mr. and Mrs. Edwin E. Drake of Glenrock, Wyoming, formerly of Monahans and Wickett announce the marriage of their daughter, Margaret Ann, to Jess W. Paul Jr., son of Mrs. Harriet Paul of Casper, Wyoming and the late Mr. Paul.

The couple, attended by Mr. and Mrs. Jack Varis of Casper, were married in a double ring ceremony in the evening of Desember 22 at Deadwood, South

For her wedding, Mrs. Paul chose a red, Rose Marie, three piece suit with white fur accessories. The muff which she carried was accented by red satin ribbons rose buds and silver wedding bells. Her corsage was a white orchid. Mrs. Varis wore a pale blue suit with blue and white accessories, and her white carnation corsage

TUU LAN BE SURE OF **ABUNDANT** HOT WATER WORRY FREE!

INSTALL A MODERN FLAMELESS

Important advantages:

SAFE - NO FLAME

Perfectly safe in any location, an electric water heater has no flame to blow out, no fuel to leak, no pilot light or flue to worry about. And the outside of an electric water heater is always cool.

HIGH EFFICIENCY

Electric heating elements are in the water, inside the tank. The tank is completely insulated, even on the bottom, to prevent heat loss. And no heat is wasted up a flue. You get hotter water faster and it stays hot longer.

29 95

LONG LIFE With an electric water heater, the tank

bottom is not subjected to the corrosive action of flames. There are no valves to stick, no moving parts to get out of order. An electric water heater assures you many years of trouble-free service.

INSTALL ANYWHERE

Because an electric water heater requires no flue, it can be installed anywhere in the house, close to the point of greatest use. This saves long pipe runs and consequent waste of heat due to water cooling in the pipes.

SUNSHINE CLEAN

With an electric water heater, there are no by-products of combustion to soil walls or ceilings. No unpleasant fumes, No flue to accumulate soot. An electric water heater provides the cleanest method known for heating water.

MODERN - COMPACT

Choose from round or table top models at your plumber's or appliance dealer's. Compact round models require only four square feet of floor space. Table top models provide additional counter space in hitchen or launder. in kitchen or laundry.

Guaranteed by Uncle Sam:

A retirement plan that will return \$1.93 for every \$1.00 you put in

Would you like to be sure that every dollar you put aside for retirement will pay you \$1.93 later on? It can be done, and here's an example:

Buy a \$100 Savings Bond (for \$75) each month for 17 years and 9 months. (This is exactly ten years longer than the official maturity period for Bonds, and means extra interest earnings.) At the end of that time, you can cash in a Bond every month for the *next* 17 years and 9 months, and each one of them will pay you \$145.

This works out to \$1.93 for every \$1.00 you put in Bonds—and please note—the \$75 figure is only an example. You can put as little or as much as you like into this retirement plan. See the chart.

Your money can't be lost or stolen. The Treasury will replace your Bonds, free, if anything happens to them.

You save more than money. You help save the peace with every Bond you buy. Peace costs money—money for science, education, military strength, And the money you save helps keep our nation's economy strong.

Pick the amount you would like to receive each month for 17 3/4 years

	\$36 ²⁵	\$7250	\$14500	\$29000	₹725°°
You save each month for 17 years, 9 months	18 ⁷⁵	3750	75 [∞]	15000	375∞
At maturity, 7 years, 9 months from issue date, each bond will be worth	2500	50°°	10000	20000	500∞
		Hold each b	ond for anoth	er 10 years	
You collect each month for 17 years, 9 months	36 ²⁵	7250	14500	290°°	725°°

Tables based on assumption that 3-1/4% rate will be in effect 17 years and 9 months from original purchase date of each bond.

SOME ADVANTAGES YOU MIGHT THINK ABOUT

You can save automatically with the Payroll Savings Plan. Tell your company how much to set aside from your pay for Bonds. This way you won't forget to save and your savings will add up automatically.

You now get 33/4% interest, at maturity. This new rate, which went into effect June 1, 1959, makes your Bond money grow faster. Series E Bonds now mature 14 months earlier than before—in just 7 years, 9 months. Bonds bought before June 1, 1959, earn more, too—an extra ½% from then to maturity.

You can get your money, with interest, any time you want it. Bonds are a ready reserve that you can cash any time at any bank. But it pays to keep them.

Your money is guaranteed by the U.S. Government. Bonds are an absolutely riskless investment. The Government promises you that the cash value of your Bond will not drop—it can only grow.

U.S. Savings Bonds
Buy them where you work or bank

The U.S. Government does not pay for this advertising. The Treasury Degartment thanks, for their patriotic
