HERE IT IS annual Public Schools Week in our town and Texas. And it is very fitting for all of us to pause for a moment to pay tribute to those who make our fine school program a good success.
It goes without saying that our school facilities are a real credit to the community. This is due, of course, to taxpayers who care enough to pay the bills.
We can all be proud of the staff of teachers of the school system. These folks are dedicated men and women who deserve more reward for their fine work than the salaries they are drawing.
It is always timely to express appreciation to the men who make up the governing board. They are business and civic leaders who are doing a job as volunteers in public service. Their only compensation is the knowledge that they are rendering a real service to their community.
We know that you'll want to join us in expressing sincere appreciation to everyone who is having a part in our fine public school program.

LYNN GENTRY

(Continued from page 1)

bus run because of sickness or accident. He missed eight days in 1965 due to hospitalization but has not missed before or afterwards.

His present bus route is 35 miles per morning total of which 13 miles of it is pure dirt or sand and unimproved. Driving time is about an hour each morning unless the weather is bad. Parents along the route can almost set their clocks by him in good weather.

"My first concern in driving a bus has always been and always will be the safety of the child," Gentry says. "I haven't done anything heroic in that 22 years of driving a bus," Gentry said.

According to Supt. James Clark one reason Gentry has not done anything heroic is that he has worked constantly to prevent an accident from ever happening.

"Doc" has often stopped his bus and personally led small children across a busy road,

Clark said. Sometimes he has made long detours to avoid crossing dangerous streams and bridges.

On one occasion he stopped at a swollen creek that was out of its banks. He got a high school boy to go with him and they each walked a bridge to the bridge and felt the rut to the bridge and ascertained it was safe.

Then they went back to the bus, stationed two large boys at the emergency rear door which they opened, instructed everyone what to do if they stuck or overturned, then proceeded to cross without trouble. Every child was able to reach home safely that day.

On another occasion "Doc" stopped at a swollen creek and borrowed a horse and rode them across one at a time behind him until three children were able to meet their father on another horse.

On yet another occasion he broke down once and walked a half mile to borrow a car and stock trailer with a tarp on the top. He returned to the bus and loaded the children in the stock trailer and safely delivered his load to their homes.

In the early days Gentry had to stop and fill up mud holes with rocks and brush before he could make his bus route in the bad weather.

The past twenty years Gentry has been maintenance man for the buses as well as driver and has done an excellent job Clark says.

When he first began servicing and fixing buses he had nine buses to keep up. Now the district operates five buses on regular runs and has one spare bus.

He has taken the Future Homemakers to the Dallas State Fair or the band for a total of 17 times. He has driven the band also to Austin, Corsicana, Wichita Falls, San Angelo, Sweetwater, Fort Worth, McCamey, Denton, Snyder and Stamford.

Gentry recalled one occasion when he was driving out of Brownwood one night and coming down a long hill when

the lights on the bus went out. Supt. Rush was a passenger on that bus and he tried to look for the road but could not see it.

Gentry braked the bus to a gradual stop within 1 1/2 side of the road to the relief of the students and chaperones.

In 1965 Gentry was awarded a plaque and a scroll making him an honorary member of the Ranger FFA chapter because of his service the vocational agriculture classes over the years.

Gentry's garage is next door to the agriculture shop and he has helped instruct the boys many times in welding or garage work.

The award was made in a special high school assembly by Beverley S. Dudley, Jr., vocational agriculture teacher in the Ranger system.

Gentry is now driving his second generation on his bus.

Presently he is transporting 10 children whose parents were hauled several years ago. There are probably more, Gentry said, but he was sure of this number.

The very fact that Gentry has not performed any heroic or life saving deeds in his 22 years of driving and bus maintenance is a tribute to his ability and his love for children, Supt. Clark said.

Gentry does not permit children to stand up in the bus or walk in the aisle while the bus is in motion. Neither does he permit them to exit through the emergency door for the fun of it nor lean out windows of the bus.

"I have always tried to take care of the children just like they were my own," Gentry said. "The safety of the child has always been first with me and I have tried never to take a chance with someone else's child."

Mr. and Mrs. Albert Huffman were in Fort Worth Monday to attend funeral services for their nephew, Gerald A. Douglas.

The deceased was the husband of Erma Jo Wilkes, daughter of the late Roy Wilkes, long-time Ranger resident.

School Buses Travel Total Of 31,081 Miles

Ranger Public Schools operates a total of five school buses with four of them approved for reimbursement by the Texas Education Agency.

The four approved buses cover a total of 176.6 miles each day for about 176 days or 31,081 miles per year.

Last school year the State sent Ranger ISD \$2,312.00 to operate its buses for approved routes. This amount must cover all salaries, operating and maintenance costs and new buses when needed Supt. James R. Clark said.

Last school year the district spent \$8,476.98. This was divided with \$4,870.00 for salaries, \$33 for insurance, and \$3,573.98 for gasoline, parts, grease, oil and other maintenance costs.

This school year more will be spent than comes in due to the purchase of a new school bus chassis which was delivered this week in Jacksonville ready to change the body from the existing chassis. The chassis is a 1966 Chevrolet with V8 engine, no-spin differential, 2 speed rear axle and was bid in at \$2,330.00 by the State.

It will cost \$150 to remount the old body of Dan Mitchell's bus onto the new chassis and about \$600 to renovate the old body into top shape.

It is this item plus the \$669 repair job on a bus recently turned over that will make the expenses exceed the income Clark said. Ordinarily income covers normal operating expenses.

Income from the State is based on the number of pupils that ride the bus who live more than two miles from the school building they attend.

Lynn Gentry drives a 1962 Dodge bus on route one southeast of town. His route covers 63.4 approved miles per day.

Albert Harris drives 28.6 miles per day on Route 2 which is East Highway 80 and by Hagan Lake. He drives

a 1956 Ford. Roddy Carter drives a 1952 Chevrolet on Route 3 by Evergreen Cemetery into Stephens County and back by Breckenridge Road. He drives 30.2 miles per day.

Dan Mitchell drives a 1955 Ford 39.4 miles a day north of town to the Stephens County line on FM 717.

Graveled and blacktopped roads make up 125.4 miles of the 176.6 while 51.2 is pure dirt, Clark said.

Ernest Dempsey makes a city route in a 1961 Chevrolet bus but this route is not approved by the State and cannot be counted.

Pupils must live over two miles from their school to be eligible to ride the bus, Clark said, although a school is permitted to pick up others. A bus may not make a turn off a main route unless the house serviced is over three-quarters of a mile off the main road. If a school elects to break this rule the distance may not be counted as a part of the approved route.

Ranger needs to trade or sell a 1955 model bus next school year Clark said but unless the local tax picture improves the district probably cannot buy a new one next year.

others. There are 14 stages in all.

The pageant will portray the Life of Christ from birth through the resurrection with some 135 people in the cast and stage crews. Rehearsals began Feb. 1 and have been held twice weekly since that time. Most of the costumes, which are as authentic as possible, have been finished. Members of the cast live throughout this region. All are volunteers.

Mr. Kendrick said arrangements are being made to park several thousand cars and for many thousands of people to find seats in the area in front of the stages. There will be no charges for the pageant. Cost of construction, building and buying props, and so forth has been paid by the Kendrick family "as our donation to the Lord's work," Mr. Kendrick said.

The family — Mr. Kendrick and sons Phil, Pierre and Bill — own and operate one of the state's largest egg farms. They have some 50,000 hens in production at this time. They have been singing as a quartet for over 20 years. Mickey Kendrick, 13-year old son of Pierre, now is a member of the quartet, and Mr. Kendrick serves as their master of ceremonies.

Kendrick quartets are in demand the year around for concerts and programs. Four concerts are scheduled in New Mexico next month.

The pageant has a total of 43 scenes, 12 of which were enacted for the special press preview last Sunday. In addition to the annual pageant, which is expected to grow with the years, the family sponsors an annual musical jamboree and will have other seasonal shows.

After the two-hour preview Sunday afternoon, members of the cast and others present were served refreshments at the Kendrick home.

MAHON ISSUES STATEMENT IN HIS BID FOR CONGRESS POST

Eldon Mahon, Abilene attorney and businessman, has issued the following statement concerning his candidacy for the office of U. S. Congressman from the 17th District:

"I feel that there is a definite need for a change in our district's representation in Washington. If I didn't feel this way — and if I had not found a substantial amount of agreement among voters with whom I've talked — I wouldn't be making the race.

"My reasons for feeling that we need a change are based on my belief that our district has not always been represented in the past with the kind of initiative and enthusiasm I think is required to get the results our district needs and deserves.

"If elected, I will start working immediately upon my arrival in Washington to be assigned to those committees which deal with the problems directly affecting our new district, and in this way endeavor to get something concrete accomplished for it.

"The scene of action is now in the National Congress. We of the new 17th district must make our voice heard in Washington, stronger than it has been in the past. We need a representative who is truly concerned with the new 17th district's needs, one who will listen closely to all the people, then champion their interests in an aggressive, effective manner. If elected, I intend to be that kind of Congressman.

"Although I have been a Democrat all my life, I will not be a 'rubber-stamp' Congressman for the Administration's programs. Nor, on the other hand, will I be a rubber-stamp opponent of measures that mean real progress . . . saying 'no' automatically each time a worthwhile new proposal comes up.

"I believe that too much control of our government's affairs has passed out of the hands of Congress, and into the hands of the regulatory and administrative agencies.

"One of my most important objectives is to get something done about our district's water situation. There is no greater problem facing the new 17th district than the need for adequate water, now and in the future. I will work for and support any feasible legislation that promises to create greater water resources for our area.

"The oil and gas industry is, of course, vital to all of us in the district — and as a Congressman — I would support legislation aimed toward putting it in a healthier condition. Oil and gas is a prime business — an indispensable business — and contributes heavily to the welfare of the district. I am in full accord with the 27 1/2 per cent oil depletion allowance, and would resist any measure that would seek to change it.

"As to my position on government spending, I might point out that I have always been opposed to excessive federal spending, and see no excuse whatever for the kind of waste in government that we have tolerated in the past. There is no justification for deficit spending except during times of national emergency. These are prosperous times and it is now that we should be paying the national debt, rather than creating more of it. After all, if we don't pay off our debt during good times, when do we pay it?"

ELDON MAHON

"Regarding Viet Nam, I will always support an unyielding stand against communism, and I feel that there is no other tenable position for us to take in Asia than that which the President has taken. We simply cannot afford to be soft toward an ideology that has set out to destroy our own way of life."

Mahon is running for the congressional seat now held by Rep. Omar Burleson of Anson. He is a native of Lorraine, Texas, son of a pioneer West Texas family, and a graduate of McMurry College and the University of Texas.

A former district judge and district attorney, Mahon is a partner in the Abilene law firm of Mahon, Pope and Glandon, and is a partner and general manager of radio station KVMC in Colorado City, in addition to maintaining farming interests in Mitchell County, Texas. His wife is a registered nurse, a graduate of Hendrick Memorial Hospital School of Nursing in Abilene, where they own their own home.

Mahon is on the board of trustees of McMurry College, is active in the Chamber of Commerce, the Lions Club and many other civic organizations, and is an overseas veteran of World War II.

The Viet Nam war was brought closer to home last week with the news that Sergeant Ray E. Sue, 23-year-old Ciscoan, was with the young soldier, who fell on a live Viet Cong grenade to save his buddies.

Sgt. Sue, son of Mr. and Mrs. Ray T. Sue of Cisco, suffered a badly injured left leg when a slug from a .50 calibre VC machine gun hit him in the same action. He now is at Darnell Hospital in Fort Hood and his parents visited him there Thursday, March 3, for the first time after his return to the states.

The newspapers gave considerable coverage to the Feb. 18th incident at Cu Chi, South Viet Nam, in which Danny Fernandez of Las Lunas, N. M., chose death by throwing his body across a live grenade to save the lives of four comrades, one of whom was Sue.

The same news stories mentioned Sgt. Sue being injured. Telephone calls began coming into the Cisco home of the Sue family at 1008 Avenue H. It was several days before the Red Cross was able to tell Sue's parents he had a leg injury and was being flown home.

Sgt. Sue stopped first at Travis AFB, California, and then was flown to Kelly Field, San Antonio, and on to Fort Hood. His parents made one trip there to see him before Sgt. Sue arrived. Accompanied by their daughter, Martha, 11, the family spent Thursday there.

Hospital authorities told the Sue family that the sergeant's leg had badly torn muscles and bone fractures. He must remain in traction for three months. Unless bone grafts are necessary, and none are indicated at this time, the career Army man will be able to visit at home in three or four months.

The Ciscoan was awarded a Bronze Star and a Purple Heart for his part in the Viet Nam action. Previously, he had been awarded an Air Medal and other decorations.

It was Sgt. Sue's second tour in Viet Nam and he had been back one month and two days when he was injured. During a previous seven-month stay, he flew over 900 combat hours as a gunner on helicopters. His outfit for the last tour was Company C, 1st Battalion, 5th Infantry, 25th Division.

Sgt. Sue joined the Army Dec. 15, 1959, after attending high school at Ranger where the family lived for five years before moving to Cisco in 1960. After training at Fort Carson, Colorado, and Fort Ord, Calif., Sue was sent to Korea for a 13-month stay. He then spent a year at Fort Hood and six months in Hawaii before his first Viet Nam tour.

A single man, Sgt. Sue has no plans other than to return to Army duty after his injured leg heals.

What does he think of Viet Nam? "There are none but the bravest on duty there."

GORMAN HOSPITAL AFFILIATES WITH NURSING CLASS

The Blackwell Hospital, Inc. at Gorman has become affiliated with the vocational nursing course offered by Cisco Junior College, announced Mrs. Veneta Mitchell, instructor.

For 32 weeks of the year-long nursing course, students work in the affiliating hospitals. Hospitals now affiliated with the course are Blackwell, Graham of Cisco, Rang-

he told his father. His address is: Sgt. Ray E. Sue, RA-18583705, 5th Floor, Unit G, Fort Hood, Texas.

Mr. and Mrs. Sue returned Thursday night after spending a day with their son. They plan to return as often as they can. Mr. Sue is a member of the city police force in Cisco.

SOLUTION BELIEVED NEAR IN RECENT AREA BURGLARIES

Indications from the Eastland County law office are that the numerous burglaries (14) occurring in the county within the past month may soon be solved.

Sheriff Lefty Sublett said he and other officials are inclined to believe that all 14 burglaries have been done by the same party or person.

A list of these crimes was reported by Sheriff Sublett as follows:

On Feb. 2, Lakeview Country Club in Eastland was burglarized. Besides damages to the place, about \$112 cash was taken.

On Feb. 13, four parties were burglarized: Bill Partens home was broken into and \$100 cash was taken; An cash was taken from Eastland Livestock Sales Barn; About \$40 in property dam-

ages occurred at Hollywood-Vassarette; and an undetermined amount of cash was taken from Ranger Auction Company.

It was four days after Ranger Auction was robbed (Feb. 18) that three other burglaries took place. Dairy Treat No. 1 in Cisco lost \$45 in cash; Dairy Treat No. 2, Cisco, received about \$40 worth of property damages and lost an undetermined amount of cash; and damages were done at American Legion Hall, Eastland, when it was robbed of \$10 cash.

On Feb. 22, three other places were "hit." Anderson Jewelry Store in Cisco lost \$700 in merchandise plus receiving damages to the store. Magic washateria in Cisco lost an undetermined amount of cash and received heavy damages. Only property damages were reported when Walton Electric Company, Cisco, was burglarized.

Open 1966 Baseball Campaign

The Cowtown nine inning clash is the first of 24 games listed on the Purple & White's spring baseball combat card.

Members of the Rangers diamond squad, recently selected by Coach Allen, include:

Infielders — Joe Bob Taylor, Dallas, Larry Robies, Dallas, Mike Leach, Fort Worth, and Mearl McBee, Fort Worth.

As March 22 draws near, excitement and activity increases in the girls dormitory. Final plans are underway for the Gallup, N. M. trip for Rangemans. Girls are finding that their schedules need more than 24 hours daily as they work out for basketball, their campus jobs, study, and spend as much time as possible on money-making projects to pay expenses to the national AAU Women's Basketball Tournament.

To date, they have raised one-half the necessary funds for 10 team members, manager and sponsor. If the girls make this trip, it will be a fine reward to the girls basketball team in RJC history. Coach Ronald Butler feels that this trip will bring recognition and spur interest in the college basketball program.

Fund-raising projects include a dance in the Student Union Building last Tuesday evening; an all-campus talent show in RJC Gym at 7:30 p.m. March 14, with tickets available \$1.00 for adults and 50 cents for students; game night, March 16 which features a progressive cake auction.

During the interim of these events, the girls are selling coat hangers, pop bottles, and taking orders for cakes. Anyone wishing to buy any type of cake may contact any of the team members at MI 7-9363.
