Lady, you'll just love flameless electric cooking ...it costs so little a meal

When you cook the modern electric way you cook for pennies. It costs an average of only about 3c a meal. Surface units on an electric range use heat thriftily, cooking by direct contact with utensil bottoms. The electric oven, insulated all around including the bottom, keeps heat inside where

it belongs. And once the oven reaches the baking temperature you select. it uses electricity only about onefourth of the cooking time. The low cost of cooking delicious, wholesome meals for your family is another of the many reasons why you'll just love flameless electric cooking.

pointment of Mr. John B. Swint of the White Elephant Cafe as chairman of the Eastland chapter of the National *ederation of Independent Business was made recently by Frank A. Graham, district manager of the Federation in

this area. Each business and professional member of this organization maintains a voting membership, and is polled by ballots regularly throughout the year, on bills and issues which affect independent busi-ness at national and state

To maintain the American way of life and our competi-tive enterprise system, the businessmen express their opinions on the ballots each month, and give them to Mr. Swint, who tabulates the

votes.

These tabulations are sent, with the signed ballots, directly to Congressman Omar Burleson at Washington, D. C., and State Senator Tom Creighton. These ballots are the only method by which independent business and pro-fessional people can keep in organized, direct personal contact with their national and state legistators on measures which affect free enterprise opportunities.
