The lane lines in most cases are limited to metropolitan areas where there are high volumes of traffic. The reflective markers are placed at 40-foot intervals with 15foot lines of white non-reflective button markers centered in between.

The arrows are placed on exit ramps to two-way frontage roads, exit ramps that have any history of wrongway entry, and exit ramps where the design of the connection with the cross street or highway is such that traf-fic may have on easy access to the exit ramp for wrongway movement.

A big advantage of these markers over paint or other devices, says a Highway De-partment spokesman, is that they are just as good when wet as when dry. This means that the reflectors can be seen during rainstorms

"The Texas Highway Department is concerned about wrong-way accidents on our freeways," explained State Highway Engineer D. C. Greer, "We hope these new markers will help by warning motorists that 'Red mean's

What happens when the grass turns brown?...

With the addition of some minerals, most treen grasses are just about as good for beef cows as any ration you can find. But when he gress turns brown, its nutritional value drops. And in order for cows to maintain their bodies and produce heaithy calves, they need a protein-packed supplement.

They need Purina Range-Checkers.

Why? Because Range Checkers contain high quality protein sources-cottonseed meal, soybean oil meal and linseed oil meal . . . plus many minerals, vitamins (especially vitamin A) and tasty sugar molasses.

Before winter rolls in this year, stop in and see us. We'll help you plan your winter feeding program-with Purina Range Checkers

Don't tell me it won't cost a fortune to modernize my heating system! I wasn't born yesterday, you know!

Excuse us, Ma'am, but your gas heating contractor or Lone Star Gas may have a pleasant surprise for you.

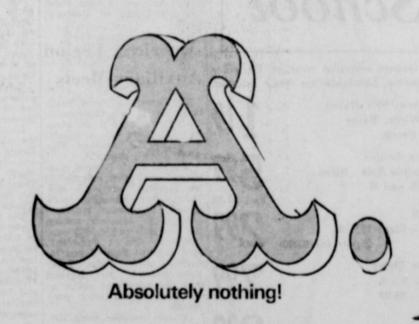

Let's be realistic. You're just going to have to spend some money to modernize your heating system. But it will probably be a lot less than you think. Especially now during August and September when gas heating contractors have more time to make installations and are offering special savings. There's a wide variety of modern, automatic gas heating equipment to take care of any situation-whether you're heating one coom, several rooms or your entire home. Why not get a free estimate? Talk to a gas heating contractor or the folks at Lone Star Gas

What does one do to defrost a modern refrigerator-freezer?

That's right. You don't even have to lift a finger. Frost never forms in either the refrigerator or the freezer section. and since there's no frost, there's nothing o defrost. Think what that saves in time and work for you. Thea hurry down and see the roomy no frost refregarator-freezers at your favorite ar, ance dealer's soon.
