HERE IS GOOD NEWS

The results and interest shown in our VM Music Center, which we opened last Spring have been great. Since then we have remodeled our display and demonstration area, also increased our stock.

Our aim is to sell electronic euipment which is not normally stocked or sold in this area. No longer is it necessary to drive to one of our large neighboring cities to purchase this type of article. Value for value our prices are the same or lower and we do take trade-ins.

We invite you to come in for a demonstration of our fine equipment.
