The Times gave credit to Rudy Mendoza in Sunday's issue for making a touchdown in the football game Friday night when the Bulldogs defeated Nolan.

The TD was made by Brad White. Brad has carried the ball well and has been in on several tackles. Keep up the good work, Brad.

There was a time when workers labored fourteen and fifteen hours a day — does anybody suggest that we go back to the "good old days?"

We congratulate Bill Herod for being appointed to the Hospital Board. Bill has been very active in civic clubs and church activities and we know he will do well on his new appointment.

Ranger will be celebrating its 50th Anniversary of the discovery of oil on October 28 with an unveiling of a historical marker and an afternoon parade and football game that night, so let all tell our friends about the event and be on hand at 10:30 a.m. for the unveiling ceremony.

(Last year the ratio was one doe to each 50 acres in a much larger area which also included section in Erath County. There will be no season in Erath this year, he said.)

Scholarship Test To Be Given Feb. 27

Ranger High School students who expect to complete their secondary school requirements and to enter college in 1969 can register now to participate in the 1968-69 National Merit Scholarship Program, Principal James W. Coughress announced this week.

The first step for all students who wish to enter the nation-wide competition is to take the National Merit Scholarship Qualifying Test (NMQST). The test will be given in the school at 9 a. m. Tuesday, Feb. 27, 1968.

When his NMQST scores are reported, each participating student will receive a handbook to help him evaluate his scores, compare his performance with that of other high school students across the country, and give him information on choosing a college and financing his education. The handbook and other interpretive materials are furnished as a part of reporting the test results.

The highest scoring students in each state will be named semichampions and will be eligible for Merit Scholarship consideration. In addition to the National Merit Scholarships (financed by donors, more than 300 business corporations, universities, colleges, professional associations, unions, trusts, other organizations, and individuals offer scholarships through the Merit Program.)

About 15,800 students have won Merit Scholarships in the twelve Merit Programs to date. Some 2,450 Merit Scholarships were awarded in 1967.

RJC Rangeanns To Meet at Reunion

Were you ever a Rangeann? If you were a student at Ranger Junior College in 1955 and 1964, you probably remember the Rangeanns—the high-stepping girls drill team which brought state-wide recognition to the college with its colorful performances at football games and in parades.

The Rangeanns—as a drill

team—no longer exists, but the memory is still strong in the minds of former members of the team and of the audiences who watched them.

Mrs. Mary Ann Wallace Cowan, herself a former Rangeann, was made chairman of a movement to get all the former Rangeanns together during the 1967 RJC Homecoming on Saturday, Oct. 28.

Mrs. Cowan is planning a reunion for the former team members and has urged all former Rangeanns to return to Ranger for the festivities. Activities will begin at 9 on the morning of the 28th, with a coffee meeting at the college cafeteria. At this time the Coming-Home Queen will be chosen.

Former Rangeanns are urged to contact Mrs. Cowan at her college for further information, or to let her know if they cannot attend the reunion.

\$10,000 In Bonds Are Purchased By City

Ranger has moved another step toward freedom from debt, it was announced by Mayor Morris Newnham during the regular meeting of the City Commission on Monday evening.

Mayor Newnham stated that the city was able to purchase \$10,000 in bonds for the sum of 67 1/2 cents on the dollar, bringing the total indebtedness retired since 1961 to \$182,000. From 1945 to 1961, there were no bonds retired against city indebtedness created in 1941.

Ranger Rangers Lose to Kilgore Junior College 27-0

The Ranger Junior College Rangers will be looking for their first win of the season Saturday night when they meet the Cardinals from Henderson County Junior College at 8 p. m. in Ranger Stadium.

Joe score came on an 80-yard run from scrimmage, one score was picked up on another long drive, and two touchdowns came on pass interceptions.

The Rangers will be out to

change their luck Saturday night and the pace will be fast and furious throughout the game.

Farm Writer 'Sees' a Good Peanut Yield Here

By JAMES E. VANCE

Texas farmers are digging enough peanuts to make peanut butter sandwiches for every school kid in the state.

And, probably there will be enough left over for a peanut party or two and salted nuts enough to keep kids near a drinking fountain until Christmas.

To the growers, however, the crop will mean about \$43 million, but will fall \$3 million short of last year's record \$46 million," explained Ross Wilson, "even at that it's a heckuva good crop."

Wilson is general manager of the Southwestern Peanut Growers Association at Gorman.

After a faulty growing season plagued by a lack of moisture, rains came in time to be of great benefit, particularly peanuts in non-irrigated fields and to replenish over-burdened irrigation wells.

"Rain postponed harvest in much of Central Texas," Wilson said. "However it meant the kernels will put on weight and permit late-planted fields of peanuts to mature. Quality also should improve."

AN ESTIMATED 60,000 tons had moved to market by late in the week. The crop was estimated at 185,000 tons, down about 10 per cent from last year's 202,000 tons. The state's allotment was 356,000 acres.

Yields per acre vary from 65 bushels to more than 100 bushels under irrigation. Dryland fields average slightly under 30 bushels per acre.

Wilson said peanuts were by far the biggest cash income crop in Comanche and Eastland counties. He said take home pay last year was \$9 million in Comanche, and \$5 million in Eastland.

"Peanut growers have a lot more in their favor now than when farmers turned to the crop as a replacement for cotton forced out by bollworms and bollweevils.

They have newer varieties; machines replaced most of the back-breaking labor and growers have a sure market.

The Surr variety Spanish peanut was developed at the Texas Agricultural Experiment Station at Stephenville. It's a heavier producer than predecessors under irrigated or dryland conditions.

"Not only was a new, badly needed variety developed, but the experiment station and the Texas Agricultural Extension Service do a whole of a peanut job finding out what peanut growers need, and in getting answers and new information to growers," Wilson explained. "There's no question about farmers using improved cultural practices."

Wilson estimated that bulk (mechanical) harvest freed as many as 16 pair of hands once needed to operate a digger, a combine, sack and stack, haul and handle at the market. Now one man can

handle the peanuts in the four phases from digging to destination. Burlap bags (60 pounds each) gave way to assembly lines and conveyors that move bulk peanuts.

"Two years ago probably 40-50 per cent of the farmers used the bulk harvest and marketing system," Wilson said. "Last year it increased to 65, and this year at least 80 per cent or higher will be handled bulk."

THE 25,000 growers in Texas and Oklahoma (\$25 million crop) were assured a government floor price of \$24 per ton for Spanish-type peanuts, or \$3.35 per bushel.

"There was no carryover in government or farm-owned stocks from the 1966 crop, Wilson said. "Only an estimated 20 per cent of the current crop will go under government loan and will be consumed later in export and domestic demands."

The Southwestern Peanut Growers Association handles about 25 per cent of the crop. Membership includes about half the growers in Texas and Oklahoma and some from New Mexico and Arizona. The association recently occupied a swank new headquarters facility. Jesse Leach of Holdenville, Okla., is president. E. A. Walker of De Leon is vice president.

Wilson explained that the association (a cooperative) assured members a competitive and ready market near home through a network of delivery points in the four states.

"Unfortunately Texas peanuts are not the type that sell in ball parks and amusement areas," Wilson concluded. "About half the Texas crop is processed into peanut butter, 30 per cent into candy, 15 per cent are salted and the other 5 per cent become oil and meal."

And that puts more than "peanuts" into the payrolls of buyers, warehousemen, processors and food stores.

Teachers Urged To Be Concerned About Students

Miss Antoinette Miller of Houston, vice-president of the Texas State Teachers Association spoke to unit leaders of District VII during the annual workshop in Haskell, Oct. 8.

Since the 1967-68 T.S.T.A. theme is "Be Concerned with Their Education," Miss Miller reminded her listeners that "concern" is "one teacher quality that cannot be computerized" and that teachers must continue to have feeling for the individual needs of students. She also urged that teachers be more concerned about their profession and re-

commended closer public relations and better understanding of professional services offered by the state organization.

LOOKING

At Agriculture
By GILBERT MEREDITH
(This is one of a series of articles dealing with agricultural programs in Eastland County).

Peanut harvest is getting started in Eastland County. I visited Gorman on Oct. 3 and several loads of peanuts had been received that day, from discussing the 1967 peanut yield with farmers, indications are that we will have an average of below crop. The 5-year average for Eastland County is 759 pounds. The 1966 average yield was 1,259 pounds, which broke all records.

1967 peanut marketing cards are prepared and may be picked up at this office. They may be mailed on request from producers.

A total of 176 farms overplanted their farm peanut allotment for 1967. Many will hog them off and many will grind them for feed. Complete instructions for approved methods and areas to be disposed of were furnished individual farmers with their notice of acreage.

Mr. Jim Goad, member of the State ASC Committee, visited our office for about two hours on Oct. 4 on his way to a meeting in Vernon. Mr. Goad has been a member of the State Committee for several years. He is a cotton and feed grain farmer from Rosebud, Texas. We always welcome a visit from our state officials.

We are working at the present time on 1967 wheat yields for the county for 1965. No changes in preliminary 1967 yields were made. Indications are that our 1968 projected yield will not be as high as 1967 due to a new 3-year average. Notice of yields and rates for the 1968 program will be mailed our 246 wheat farmers as soon as they are approved by our state office.

Work has just been completed on the 1958 ACP county handbook. Those who participated in the development of the handbook were R. G. Lyera, Paul Norris, Charles Little, DeMarquis Gordon, O. M. Boyle, E. E. McAllister, Joe Criswell, and John Lee. The handbook will be reproduced soon and will be available for distribution.

The Eastland County USDA County Defense Board and TAP Committee, composed of heads of all USDA agencies will have their regular monthly meeting on Wednesday, Oct. 11 in the ASCS office.

Payments for 1967 wheat, cotton, and feed grain are almost completed for this year. This has been the first year for automatic processing of payments through the computer located in New Orleans. We regret that we are running about two week behind schedule on the payments this year. Your patience on this matter has been appreciated greatly. We hope to furnish faster service next year.

MAYOR AND MRS. NEWNHAM RETURN FROM ACAPULCO

Mayor and Mrs. Morris Newnham have returned from that there has been little progress, generally speaking, since their visit there 15 years ago.

All in all, it was a good trip, the Newnhams agreed. The all-expense trip was an award of the Gibson Appliance Co. for exceeding the sales quota of freezers and air conditioners. The goal for next year is a trip to Venezuela.

Boarding a chartered Braniff Airways plane at Love Field in Dallas, the party arrived at their destination for a stay which Mrs. Newnham describes as "different."

Lodging at Las Brisas included a private swimming pool for each apartment and a pink jeep for transportation, the latter a necessity because of rocky terrain. Still feeling the effects of Beulah, sections of Main Street were still under water. This added to the heat, humidity and lack of sanitation added little to the comfort of guests.

Nurses Invited To Apply For AF Commissions

Registered nurses who are within one year of a degree in nursing may be eligible for commissions as officers in the U. S. Air Force Nurse Corps. Under the Air Force Sponsored Program for Registered Nurses, a nurse can be commissioned, ordered to active duty, and assigned to finish work on her degree.

While in school, the nurse receives full pay and allowances according to her rank, but must pay her own tuition and college expenses.

To be eligible for the program, a nurse must be enrolled in an accredited program leading to a bachelors or masters degree in nursing. No change in preliminary 1967 yields were made. Indications are that our 1968 projected yield will not be as high as 1967 due to a new 3-year average. Notice of yields and rates for the 1968 program will be mailed our 246 wheat farmers as soon as they are approved by our state office.

MRS. NORMAN CHRISTIAN

Mrs. Norman Christian Is Elected New President of Beta Sigma Phi

Editors Note: This is seventh in a series of articles about presidents of women's clubs and church organizations in Ranger.

It requires an energetic person to be successful as president of an organization and by that criterion, the Rho Phi Chapter of Beta Sigma Phi will experience an outstanding club year under the leadership of newly-elected president Mrs. Norman Christian.

Mona Washington was born in nearby Erwin County and is a graduate of Alexander High School. She became the bride of Norman Christian in Stephenville.

Norman is an employee of Southwestern Bell Telephone Co. which has entailed a series of "moving days", but in each location they have earned for themselves a large circle of friends. They lived in Eastland for six years prior to moving to Ranger last year.

The couple has five children; Debbie, now Mrs. Freddy Blackwell, Shirley, Dale, Gary and John.

Housework is a family chore at 704 W. Main St. where all join in, especially since Mona accepted an office position with Montgomery Ward.

Individual recreation for Mona includes club membership and bowling on the Johnson. Appliance team where she helps to keep it in the "winning lane." Family circle activity centers around visits with relatives, football games and faithful attendance at services of First Baptist Church.

Sharing responsibility with Mrs. Christian in Rho Phi is a capable state of officers and a group of enthusiastic members - the right combination for a successful club year.

The heat stays on the job and you stay cooler with fast, direct gas infra-red broiling.

Modern infra-red broiling is the best thing that ever happened to kitchens... it's cooler! Cooler because it's faster - up to 30% faster than ordinary broiling. No slow warm-ups. Flame fed infra-red rays go to work instantly, and are concentrated directly onto the broiling surface for deep, even heat penetration.

(With speeded-up broiling food stays moist, tastes better.) And only gas offers closed door broiling too, because the flame consumes smoke. See the new gas ranges with infra-red broiling at your nearest gas appliance dealer or LONE STAR GAS.

GI On-the-Job Training Plan Being Studied

WACO—Texas officials are now working with the Veterans Administration to establish standards for G. I. Bill on-the-job apprenticeship and farm cooperative training under the new law that became effective Oct. 1, according to Jack Coker, manager of the Veterans Administration Regional Office in Waco.

Monthly payments for this type of training were provided by Public Law 90-77, recently signed by the President, for veterans who had military service since February 1, 1955.

Interested veterans should contact the VA Regional Office at 1400 North Valley Mills Drive, Waco, Texas 76710, to see what institutional training has been approved in their area, and to learn how they can participate in on-the-job and apprenticeship training.

The new law requires the approval of the states involved and VA officials have been meeting with Texas officials so programs can get started as rapidly as possible, Jack Coker said.

Veterans with no dependents who enroll in full-time apprentice or on-the-job training will receive \$80 a month for the first six months. Veterans with one dependent will receive \$90; two or more dependents, \$100. Smaller payments are provided for additional six month periods.

Under the farm cooperative program, a veteran must attend an approved school for at least 12 clock hours a week taking courses that relate to agricultural work in which he is now engaged. Payments range from \$105 a month for veterans without dependents to \$145 with two dependents plus \$7 for each additional dependent.

Fourth Division Commander B. McDaniel of Mineral Wells will bring greetings. Committee reports will be heard from the following chairmen: Troy Bowen, Roscoe; Dr. C. B. Cathey, Hamilton; Garth Bills, Breckenridge; Horace Rowe, Abilene; O.L. Barry, Hamilton; Frank Pietzsch, Roscoe; Frank Stephenson, Snyder; Leo Rendessy, Hamilton; Robert Buchanan, Breckenridge; Basil Wright, Mineral Wells; E. L. Jackson, Cisco; Greely Aston, Abilene, and Joel C. Casey, Abilene. District Vice Commander Arnold Pieper of Roscoe will lead a discussion pertaining to membership.

STATE Capital NEWS

BY VERN SANFORD

Gov. John Connally dropped a political bombshell on the state capitol scene by reportedly telling 46 top supporters in a meeting at the Mansion that he has about made up his mind not to run for reelection.

Word of his unexpected reluctance promptly leaked to newsmen. Connally confirmed that the meeting was held and the possibility of a fourth term was discussed.

"My mind is not finally and irrevocably made up," he stated. "I have a pretty firm idea that I am going to do, but I am not prepared to announce the decision. I may decide within the next few days, but I think it will be longer — two weeks or later."

Backers began deluging the

governor's office with telephone calls and some newspapers are sounding editorial appeals for the governor to run "just one more time."

U. S. Sen. Ralph Yarborough's name figures increasingly in the list of prospective gubernatorial candidates following a disagreement between Connally and the senior senator over flood aid.

Li. Gov. Preston Smith, who already has announced as a candidate for the top spot, continues his campaigning in East Texas where he is conducting a "listening tour."

Atty. Gen. Waggoner Carr has stated repeatedly he might run for governor if Connally does not.

House Speaker Ben Barnes says he will run for lieutenant governor regardless of Connally's ultimate decision.

State high court race, are assured more than ordinary attention in 1968 primaries by the early announcements of three incumbent judges that they will not seek re-election.

Court of Criminal Appeals Judge Wesley Dice is the latest to reveal plans to step aside at the end of his present term. States Attorney Leon Douglas immediately announced as a candidate for the place.

Earlier announcements were made by State Supreme Court Associate Justices James R. Norvell and Meade F. Griffin that they will retire after next year. Potential candidates to succeed them include Austin District Judge Tom Reavley, Chief Justice James G. Denton of the Amarillo Court of Civil Appeals, Associate Justice Matt Davis of the Texas Court of Civil Appeals and Houston District Judge Sears McGee.

Auto inspections, expanded by the new State law, are underway at 5,500 stations and will continue through April 15. Don't be surprised at the additional items covered by the new \$1.75 fee. They will include:

Figure compares with 977 for October, 1,180 for September, 1,421 for August, 974 for July and 975 for June.

National call totals 22,000, all for the Army.

State draft boards will forward 4,650 men in November for pre-induction examination, compared with 4,000 for October.

SHORT SNORTS—New Texas calendar of events, listing 300 fairs, festivals and celebrations for fall, winter and early spring, is now available through the state highway department and its tourist bureaus.

Dr. James B. Henderson of Coleman was named new executive director of the Texas Animal Health Commission to succeed Dr. S. B. Walker who resigned to re-enter private practice.

Charles Murphey, executive director of the Texas Aeronautics Commission, was elected regional vice-president of the National Association of State Aviation Officials, representing Texas, New Mexico, Oklahoma, Arkansas and Louisiana.

RJC Band Performs At State Fair

Members of the Ranger Junior College Marching Band were guest performers at the State Fair of Texas on Saturday, Oct. 14.

The band played a 45-minute concert on the Fair Park Esplanade across from the Hall of State.

A scheduled appearance in the torchlight parade of bands Saturday night was cancelled because of rain.

The band was accompanied by RJC Band Director Alton Roan and Choir Director Edmond Lewis.

BULLDOG BAND NEWS

by TERESA DUDLEY

Last Friday evening the Bulldog Band was not sitting comfortably in theater seats. Bulldog Stadium temperature was not a steady seventy-two degrees with a one mile per hour wind. Even though the band was not at the Astrodome, band members were content to watch the invincible Bulldogs crush Nolan 34-12.

Last week we began working on the contest show. Music for marching contest will be Spanish marches "La Donna", "El Gaucho" and others. To insure the best techniques of the instruments sections, rehearsals will be held after school for each section. Contest will be held Nov. 18.

A pre-game show was given by the band Friday evening and thanks were expressed to all responsible for our receiving the sharp handsome uniforms. The concert uniforms look very formal with the trousers, white shirt, continental tie and tuxedo-style coat. We are very proud and grateful to wear these uniforms.

At half-time the band played "The Sound of Music" as it formed marching diamonds; also "Tara's Theme" from "Doctor Zhivago" as Betty Jo Weeks was crowned football sweetheart.

This week the Ranger High School Band will perform at the Albany game on Friday evening and on Saturday evening at the Ranger Junior College game.

LACASA NEWS

The Lacasa Home Demonstration Club met Oct. 12 at 1:30 at the Community Center.

An announcement was made of a meeting on Christmas Gifts at the Eastland High School Cafeteria Nov. 14 at 2:30 p. m. There will be an interesting demonstration.

Mrs. Sharon Struve brought a study of Laundry Aids, having samples of old and new products. Each member was given a card with information

Caution Urged In Bus Passing

Quite a few instances of drivers failing to comply with state law regarding the passing of stopped school buses have been reported in this county by Department of Public Safety Sgt. Roger Sosebee.

"Our patrolmen are watching this closely and we urge the cooperation of all drivers to be especially careful in this respect to prevent what could be a tragic incident," the sergeant said.

The law requires that drivers come to a full stop, when overtaking or meeting a school bus that is stopped to take on or let off passengers. It is permissible to start again, and pass a bus, after first determining that all is clear and that there are no children in danger, at speeds of up to ten miles per hour.

Mrs. Perry Pittman has returned to her home in Archer City following a visit in the home of Mr. and Mrs. Geo. Robinson. The ladies spent Saturday in Abilene.

Mrs. R. R. Phillips is recovering from a broken arm sustained in a fall at her home recently.

He's Goofy.
But you're not.

Yet chances are you haven't done some of the things on this list. That shouldn't be. That's why the Walt Disney organization lent us one of his most famous characters. We figure he'd help you remember how completely goofy it is not to exercise every advantage the American heritage offers. So look that list over. They're not big things, really. But have everyone do everyone of them and you've got a big thing going. For freedom.
