

DESDEMONA

Miss Lois Howell left Saturday for a week's visit with her sister, Mrs. V. C. Moser, at Lometa.

M. P. Williams and Dr. J. M. Wright drove up to Palo Pinto Friday afternoon and brought back Lee Wright, who was ill.

Mrs. Roy Rushing returned Tuesday night from Cromwell, Okla., where she spent two weeks with her sister, Mrs. E. B. Stewart.

Mr. and Mrs. Plummer Ashburn left Sunday for Cisco where they will make their home for two months while he is working as tool dresser for Gallagher & Lawson. They will be located in an apartment at the home of Mr. and Mrs. John Elkins.

Mr. and Mrs. C. M. Bratton and daughter, Clea Jean of Gregory, came in Saturday evening for a few days visit with her parents, Mr. and Mrs. A. C. Robert. They were transferred last spring from here to the East Texas oil fields.

Mrs. Millie Emde and son, Clay Emde, came in Monday from Kilgore and are looking after their property and visiting their many friends.

Prayer services at the community tabernacle, conducted by the Church of God, are increasing in interest and attendance. The next time, Rev. Campbell, and the Rev. W. M. Ford, are expected to come for the saving of souls. The music at the services is unusually good.

Mr. and Mrs. Robert Snead drove over to De Leon Saturday evening and attended the wedding of Harry Sims and Miss Lucile Kea, which took place at the home of Mrs. Smith, aunt of the bride. The groom is a step-brother of Mr. Snead.

Mr. and Mrs. T. L. Acrea visited his aunt at Lovita, Sunday.

Desdemona public schools opened Monday with good enrollment and prospects for a good year. Supt. M. L. Cobb and Principal C. A. Shipping, and Misses Johnnie Buchan and Pollie Brumelow, together with several new teachers were present and ready to do the work assigned them.

While the patrons and friends of the school expect that several of our former teachers found it to their interest to go elsewhere, they are expressing a welcome to the new members of the faculty and wishing them success in their work.

Rev. O. F. Sensabaugh, presiding elder of Cisco District, will preach Sunday morning at the Desdemona Methodist church, after which dinner will be spread. All members and friends of the church are invited to come and bring a well filled basket. Members of the Olden church as well as the rural churches belonging to the Desdemona-Olden charge, are invited to be the guests of the Desdemona church at dinner at 2 o'clock in the afternoon. Rev. Sensabaugh will hold quarterly conference for this charge.

Rev. William Howell, son of Rev. Z. L. Howell, preached at the Methodist church Sunday morning while his father filled his regular appointment at Olden. William has recently accepted the pastorate of a Methodist church in Dallas.

Mrs. J. E. Derrick and daughter, Mrs. Style McEntire and baby James Edward, visited Mr. and Mrs. W. R. Neill near Lingville Sunday.

Mr. and Mrs. I. N. Williams drove to Breckenridge on business Saturday.

Mr. and Mrs. William David and four children left Saturday morning for their home in Tulsa, Okla., after a visit of several weeks with Mr. and Mrs. Roy Ashburn.

Mrs. W. E. Barron, secretary of Cisco District Methodist Missionary Societies, Mrs. I. N. Williams, president of Desdemona society, and Mrs. W. C. Bedford, study superintendent, drove over to Rising Star last Tuesday and attended a training day for study superintendents of both the Cisco and Brownwood Districts.

The Rising Star society furnished a delicious fried chicken dinner for the seventy-nine delegates. Mrs. Barron presided over the meeting being assisted by Mrs. Hal Cherry, secretary of Brownwood district. Instruction was given to the study superintendents by Mrs. Gid Bryan of Waco, who is conference superintendent. The book for study this fall is "Suzuki Looks at Japan," and is a very interesting study of various phases of Japanese life.

W. F. MacDermott and Floyd Evans of Fort Worth were here Monday looking after their oil and gas business. One of their wells on the Brown was being cleaned out and the work was just finished.

CATTLE RUSTLING STILL THRIVES IN IDAHO

POCATELLO, Idaho.—Cattle rustling may have lost its glamor of the early days, but not commercial rustling is a thriving business. However, Max D. Cohn, president of the cattlemen's association, reported improvement in the situation in southeastern Idaho this season. Modern "rustlers" use motor trucks.

Jobs For Many Due to Housing

Thousands of idle men put to work this fall—millions of dollars in circulation—more comfortable, more beautiful and more desirable homes for Americans—a better morale and a better standard of living. These are among the reasons which the federal housing administration hopes to accomplish through the modernization plan. It is a plan designed to stimulate more than 500 related industries which have remained inactive while other trades, industries and businesses are on their feet.

The better housing program, the step of the federal housing administration to be offered to the public, enables owners of homes and other buildings to have needed repairs and desired alterations improvements made on an active loan basis. The loans are obtainable from local financial institutions, authorized by the government to advance the money; no security is necessary except a faith and proof that the borrower's income can take care of the subsequent payments. Property owners have the advantage of reasonable rates of credit without any down payment and recurring renewal.

This repayment plan is one of the easiest ever evolved for this type of loan.

The centering of this plan around

Former Ranger Stars On Texarkana Team

TEXARKANA, Sept. 6.—With 21 having been issued uniforms during the first opening of the Grim park dressing rooms, the Texarkana College Bulldogs were prepared Friday for their opening workout of the fall football season at 5 p. m., Saturday.

One of the largest crop of out-of-town delegations was on hand for the first day's workout.

The first to receive uniforms were Joe Briley, 169; Ray Cole, 164; Jack Driscoll, 143; Will Forehand, 164; Bob Frix, 166; Leslie Haygood, 165; Henry Head, 167; Morris Herring, 162; Harrell Hoffman, 163; Jimmie Jones, 160; Elmer Lacewell, 170; B. B. Lawson, 159; Gloyd Lyon, 170; Millard Mercer, 140; M. P. Miroir, 135; Howard Montgomery, 136; Hooks Reed, 149; John Riola, 160; Hugh Stevens, 176; J. B. Williamson, 155; W. A. Woods, 145.

Gloyd Lyon, Ray Cole and Joe Briley, from Ranger, are the latest additions to the camp. All three are backs.

"Treasure Island" at Arcadia Monday

Wallace Beery and Jackie Cooper in "Treasure Island," which comes to the Arcadia Theatre Monday.

Winsett Spring A Real Oasis In Very Dry Land

Men have always sought two things—gold and pure water—and the prospectors of '49 found that without pure water gold was as useless as dead sea fruit. Men are still seeking both, trying to wrest both from nature, and even in Ranger the desire for good, cold spring water send many people daily to Winsett spring, east of town.

During an hour's stay there yesterday afternoon dozens of people were counted who came with five-gallon bottles, milk cans and fruit jars for the spring water that has not ceased to flow since the memory of anyone in these parts.

According to J. M. Winsett, who owns the property on which is situated the spring, it was originally called "Anthony spring," taking its name from a sheep herder who pitched his tent there when this country was open range. When the Winsett family bought the property some 23 years ago, the name gradually changed to "Winsett spring." However, before the sheepherder, the Indians must have had a name for it, as it undoubtedly was at one time a favorite Indian camp ground. Mr. Winsett says that in plowing he has often struck things with his plow, that upon investigation would prove to be some Indian implement, bread tray, or weapon, and that he has also found many arrowheads, and other pertinent signs of Indian habitation.

During the boom in Ranger the water was used extensively, being sold by wagon loads in the city and it was also piped into some of the company camps.

The beautiful natural setting of the spring has been changed somewhat due to the piping of water for the purpose of selling it, but the quality and the volume of the water has never decreased.

Nobody knows from where it

SPINACH KILLED KITTEN

LEDYARD, Conn.—Mrs. Frederick Mantheater's vegetarian kitten died because it ate too much spinach, lettuce, carrots and potatoes. A veterinarian blamed the cat's distaste for milk for its demise.

That Georgia Golfer who missed a rattlesnake with his first brassie swing and killed it with the second seems to need a little coaching on his choice of clubs.

That Georgia golfer who missed a rattlesnake with his first brassie swing and killed it with the second seems to need a little coaching on his choice of clubs.

Large Diamonds Now in Demand

LONDON.—Hatton Garden diamond merchants complain bitterly that the demand for big stones has grown to such dimensions that they cannot meet it.

"The big stones are being doled out too slowly," said one merchant. "The policy of the diamond syndicate is, of course, to hold supplies off the market until demand revives, but our experience indicates that the demand has been reviving for the past several months and it actually is difficult today to fill orders for exceptional diamonds."

"And I am inclined to think, too, that the diamond syndicate ought to catch the tide by a judicious lowering of the price. That would stimulate demand considerably. However, everybody has been saying that to the diamond syndicate ever since the crash of 1929 without converting them, apparently, so I don't look for any change."

"But with business picking up nicely here, it seems strange to read of Kimberley being still prostrate—so prostrate that the South African government is setting up

new industries in that town to take care of the unemployed diamond miners. Seems to me that the slump in the world markets for diamonds is definitely over and that production on a modest scale might usefully start in Kimberley. "Trade is still fluctuating somewhat, but each month sees an improvement on the month before."

Hunters Used Auto As Trap for Sage Hen

RED LODGE, Mont.—Ever trap sage hens with an automobile for bait? Four men did near here recently.

They were Dr. L. A. Gates, James Hughes, John Johnstone and Ellis Shriver. With but one gun among them, they trapped from their car in pursuit of a flock of hens. They shot three, but the gun jammed.

When they returned to the machine some hours later, however, they found that the birds had pecked a hole through the rear window and were roosting in the car.

They plugged up the hole, and brought 'em back alive.

PROVES HERSELF A LADY

Frances Drake pays close attention to Cary Grant in Paramount's new farce comedy, "Ladies Should Listen," in which both are featured with Edward Everett Horton, George Barbier, Nydia Westman and Charles Ray. The picture opens Saturday at the Arcadia Theatre.

Two Men With Same Name Often Get Mail Mixed

PALESTINE, Texas.—When E. A. Miller of the AAA announced he had some mail for E. A. Miller of the AAA he wasn't talking about himself.

Both Millers visited Palestine recently, each on business for the AAA, but did not meet face to face. Their trails have crossed often, however.

One E. A. Miller, a former Texan, is assistant to C. A. Cobb, chief of the cotton section of the AAA. He is headquartered at Washington but makes numerous trips into the field.

The other E. A. Miller is an extension service agronomist at College Station, Texas, and is engaged in cotton allotment work in Texas under the Bankhead Control act.

"Once," said E. A. Miller the agronomist, "I received a government check. It was made out to me but was for work I hadn't done. I sent it back."

The two men occasionally get mail intended for the other.

Adventurers Plan to Make Sailing Breeze

VANCOUVER, B. C.—An attempt to circle the globe in a 32-foot sailing craft equipped with a home-made auxiliary power plant is to be made by Ian McDonald, of Calgary, and William Banks, of Vancouver.

The two adventurers rigged the power plant from an airplane propeller and an old motorcycle engine. When they are becalmed they will make their own breeze by putting into use a "kicker" rigged up from the propeller and engine.

Busy With Harvest Of Russian Thistles

GREAT BEND, Kan.—A new and strange kind of harvest is under way in some parts of Kansas as a result of the drought. It is the Russian thistle harvest.

The thistles, usually considered among the worst of the weed plagues, as being put up extensively for cattle roughage during the winter. This plant is about the only one that grew well this summer, and some farmers have harvested a considerable crop.

Agronomists say the thistles make good hay if cut before they are too mature.

Officer and Convict Both In Hospital

DALLAS, Sept. 6.—An Oklahoma jail breaker and a Texas deputy sheriff were in a Dallas hospital with bullet wounds after a gun battle at a farmhouse six miles from Eastwood, Van Zandt county. The Oklahoman was Millard Bouch, who officers said escaped from an Oklahoma prison farm with "Red" Marlor. Marlor was in jail at Trenton, Texas.

The injured officer is Harlon Burnett of Van Zandt county. He was wounded by a machine gun slug fired by Marlor, who for a time held officers at bay from a hay loft in a barn.

Scientists Seek Trace Of Old Civilization

LAKEVIEW, Ore.—Six scientists from the University of Oregon and Stanford University today were exploring for evidence of prehistoric life in the Guano Lake ranch region.

They hoped to discover how far north the "Great Basin" culture of prehistoric races was established. A wide variety of Indian

rock writings and other signs of prehistoric races have been found in the region.

HEAT BROUGHT SUIT

KANSAS CITY, Kan.—The summer's record-breaking heat wave was the cause of something new in damage suits. Fred Young, 15, and Rose Marie Efinger, 7, seeking relief from high temperatures, slept one night in a hallway between their respective apartments. A milkman failed to notice the sleeping girls and stopped on their faces. Now their mothers have sued the delivery man's company for \$5,000 each.

Church Meeting At Rising Star

Rev. H. H. Stephens, pastor of the Central Baptist church, Ranger, was elected moderator for the ensuing year, at the annual meeting of the Cisco Baptist association, held at Rising Star Thursday.

Among the outstanding speakers at the session were Dr. R. L. Scarborough, president Baptist Southwestern Theological seminary, Fort Worth, who talked on "World Wide Missions"; Dr. Pool, representing Baylor college, Waco; Dr. N. R. Moore, representing Simmons-Hardin college, Abilene, and Rev. E. S. Jones, pastor of First Baptist church, Cisco.

Former Missionary H. D. Blair was re-elected. The attendance was splendid, the hospitality most cordial, reports from various churches were encouraging, and the meeting as a whole was one of the best annual meetings for some time.

Charter Arrives for Spanish War Vets

Word was received in Ranger today by Bob Hansford, commander of the Spanish-American War veterans in this district, that the charter of that organization has arrived and he is urging every veteran to be present Friday night at the American Legion hall, Ranger, for a program that has been arranged for the occasion and to take care of business that must be looked after. All veterans are urged to attend.

Giant Tortoises Will Be Shipped

HOUSTON, Tex.—One of the 12 Galapagos tortoises kept in the Houston Zoo for the New York Zoological society has been sent to Toledo, O.

The giant tortoise, weighing 115

pounds, was shipped to the Toledo Zoological Society under instructions of the New York Society, Park Superintendent Clarence L. Brock said. The turtle was sent to ascertain how it will fare there.

When brought to Houston in June, 1928, it weighed eight pounds. It will be considered mature when it weighs about 200 pounds, Brock said.

All-Weather Road To Island Sought

BEAUMONT, Tex.—Necessity of an all-weather highway between High Island and Beaumont from a safety standpoint as well as a convenience has been urged here.

Quick exit from High Island, Caplen and Gilchrist area also is necessary when a storm strikes. A hurricane immediately after a heavy rain would find many persons trapped along the beach with an impassable road between them and Beaumont, it was pointed out.

UNIVERSITY GETS SOIL

LAWRENCE, Kan.—Two thousand cubic yards of Kaw river bottom soil were removed to the site of old Snow Hall at the University of Kansas to insure growth of foliage used in landscaping the tract. Soil on the crest of Mount Oread, where the university is situated, was found to be too sterile for even hardy plants.

What Is Meant By Rehabilitation

By rehabilitation is meant the creating of an opportunity for people to satisfy that desire in every human heart to become an acknowledged part in the operations of their respective community.

Funeral Services for Train Victim Held

Funeral services for Mrs. Clara Smith of Odessa, who was killed Saturday morning when struck by a freight train while crossing the railroad tracks in the Odessa yards, were held Monday afternoon at the First Baptist church.

Gulf Coast Farms Should Profit On Winter Vegetables

By THOMAS O. HURST
United Press Staff Correspondent
HOUSTON, Tex.—Texas gulf coast farmers should grow prosperous from sale of fall and winter vegetables crops to cities of the drouth-stricken Midwest, where farmers will not be able to prepare gardens, J. C. McDowell, agricultural agent for federal rural rehabilitation, said here.

"Prospects have never been brighter for the gulf coast farmer to raise vegetables for shipment," McDowell said. "There will be a ready market for as much of the crop as the farmer wishes to sell."

McDowell said he bases his opinion upon a recent survey made by his office of the drouth area as far north as Canada and as far south as the Rio Grande.

"Texas vegetable farmers also are especially favored on account of the adequate transportation enabling them to get their crops to market quickly," he added.

"Midwest farmers simply will not be able to raise vegetables this fall and winter. They are going to look elsewhere for a supply. Vegetables are an essential food, and now is the chance the gulf coast farmer has been waiting for."

McDowell said the gulf coast area and as far as Harris county and eastward have enough moisture and rainfall at present to produce green vegetables, and there should be a quick move to get in as many acres of this type of planting as possible for Northern and Eastern shipping.

"I firmly believe the farmers will profit from such a move," he said. "There ought to be a campaign put on immediately to encourage the farmers to raise vegetables."

He suggested the establishment of a co-operative shipping center and a state-wide advertising campaign to promote the growing of vegetables in the gulf coast area.

"I believe such a campaign would get a money crop this fall, and at the same time assist materially in getting hundreds of people of the relief rolls in South Texas," McDowell said.

"If for no other reason, there should be a move made to raise vegetables by the relief agencies to be sent and distributed to the needy of other sections, thus cutting down the general cost of maintaining and care of the destitute throughout the United States."

"South Texas and the gulf coast section are especially adapted to growing of vegetables and has enough rainfall to practically guarantee growth to maturity," he added. "Vegetables can be grown the year round in these sections."

Highways Proving Popular In Mexico

EAGLE PASS, Tex.—Finding its program of highway promotion meeting with an enthusiastic reception among Coahuila people, the recently-formed international Traffic Commission met in called session to plan enlargement of its monthly magazine, "Coahuila."

Started with 16 pages three months ago, the magazine was increased to 24 pages for the July and August issues. The September issue will contain between 28 and 36 pages, the Commission stated.

The magazine is not sold on the news stands, but is distributed to all persons who favor the Commission's purpose of constructing a paved highway from Piedras Negras to a point south of Saltillo to connect with the Pan-American Highway. The Commission is endeavoring to concentrate State and Federal funds on the extensive project so that it can be completed in 1936, the year of the Texas Centennial Celebration. The Celebration is expected to attract thousands of visitors to Texas, many of whom will go on to Mexico City over the Pan-American highway.

Already some four hundred laborers are at work along the 332-mile route, widening the right of way and laying gravel. This work will be speeded in 1935 by an appropriation of 800,000 pesos that the Federal government has promised the state of Coahuila. Additional funds from an 8 centavos gasoline tax and from a 2 per cent import tax are expected to go toward financing the state's road-building campaign.

The International Highway Commission was organized in June of this year by the Eagle Pass and Chambers of Commerce. "A paved highway by 1936," is the slogan it is sounding in extending its organization to include six other towns along the route, besides Saltillo. They are Morelos, Alameda, Musquiz, Monclova, Sabinas and Rosita.

The magazine published by the Commission serves to inform the towns of progress being made in Coahuila highway construction. Also, it contains articles of interest to tourists, describing the places of scenic beauty, exhibiting maps of the state, and detailing changes in hunting and fishing regulations. The Commission maintains its headquarters in the Piedras Negras Chamber of Commerce.

THIS CURIOUS WORLD By William Ferguson

FOR YEARS, EUROPEANS BELIEVED THIS BIRD TO BE LEGLESS, BECAUSE ALL THE SKINS IMPORTED FROM THE BIRD'S NATIVE ISLANDS HAD NO LEGS... THE DEALERS HAVING CUT THEM OFF BEFORE SHIPPING.

IN ORDER TO KEEP GOOD TIME, THE INTERVAL BETWEEN TICKS OF A WATCH MUST NOT VARY MORE THAN ONE SECOND.

LOP-RIDED METEORS WABBLE THROUGH THE AIR LIKE A POORLY-SIFTED HIGH-EXPLOSIVE SHELL.

EUROPEANS even believed that the bird of paradise was hatched without wings, and was able to float through the air. The female was believed to make her nest and rear the young among the tail feathers of the male.

Diversification Makes Farm Pay

SCHULENBERG, Tex.—Diversified farming is expected to feed a family of 10 and pay off the farm mortgage on the farm of Henry J. Petrash, two miles south of here.

Petrash bought 108 acres at the high 1924 prices—\$185 an acre—and when the cotton, peanuts, potatoes and truck is market this fall he expects to call the farm his own.

Diversification, excluding only ducks and geese which Petrash said, aren't worth their keep, is the rule on this farm.

"I believe I have a little of everything," he said. He pointed to his truck patch which four of his eight children were clearing of spring plants and vines that had ceased to produce.

Petrash has 12 milch cows, and a drove of Duroc hogs on the farm.

Six of his children assist in picking 24 acres of cotton. Already six bales have been ginned from the acreage.

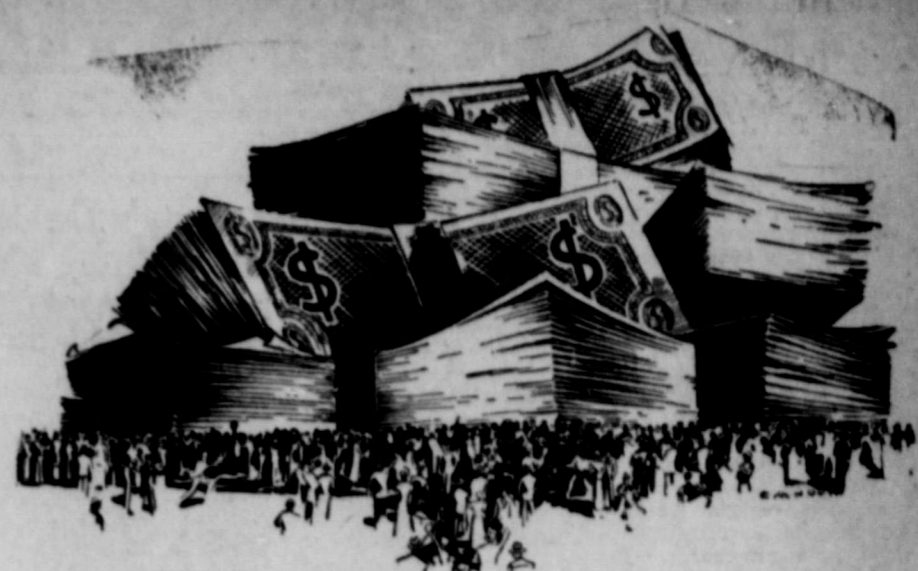

Two acres of peanuts are growing well despite the drouth.

Petrash claimed that his system of changing the crops to a different acreage every year has made the crops on his farm good despite the drouth. He explained he has 30 acres of corn that will give him half a crop while most corn fields have burned to the ground in the dry weather.

Petrash has 325 peach trees in his orchard but there are also pear, plum apple and other fruit trees including berries.

There is not a rooster in a flock of 350 hens that supply infertile eggs to buyers from miles around for which now a three-cent premium is being paid.

A check-up of the Petrash farms showed besides the above mentioned crops 14 acres of heira, 15 acres in Sudan grass, nine pure-bred hogs, three acres for truck and garden, a dozen sheep, two teams of work stock, a pit silo for a dairy ensilage, a spacious home in a grove of trees and sufficient pasture for livestock.

175 MILLION DOLLARS Paid to Texas People

THE LEGAL RESERVE life insurance companies of Texas have paid to Texas people \$175,000,000.00 in cash . . . as death claims, surrender values, endowments and annuities. The amount so paid out increases each year. Such payments in 1933 amounted to \$20,000,000.00.

These Texas companies make it easy and convenient for the people of Texas to practice thrift and thereby provide for their own future needs. That the people of Texas appreciate this service is evidenced by the fact that 1,200,000 are policyholders, owning insurance in the amount of \$1,150,000,000.00.

Texas legal reserve life insurance companies have assets of \$184,000,000.00 so invested as to safeguard the interests of policyholders as well as to contribute largely to the progress of Texas.

When you buy life insurance in a Texas legal reserve company you become a participant in the program to make Texas a better state in which to live and make a living.

Letter From The Stratosphere Seen

PHILADELPHIA.—A letter designated as "stratosphere mail" and carried aloft more than 60,000 feet in the gondola of the National Geographic Society Army Air Corps balloon, is on display in the physics section of the Franklin Institute Museum.

The document was sent to Dr. W. F. G. Swann, director of the Bartol Research Foundation of the Franklin Institute, who supervised the construction of instruments used in the stratosphere trip made recently from North Dakota.

It is signed by the three airmen, Major W. E. Kepner, pilot; Captain A. W. Stevens, scientific observer, and Captain O. A. Anderson, alternate pilot.

The letter to Dr. Swann follows: "This letter brings you cordial greetings from the stratosphere. It was carried aloft by us in the airtight gondola attached to the largest free balloon ever built and upon our descent was dispatched to the post office nearest to our point of landing to be forwarded to you by air mail. The altitude attained on the flight, which will be determined officially by the National Bureau of Standards, also was attained by this cover."

"This letter conveys to you the sincere greetings and good wishes of the National Geographic Society and the United States Army Air Corps, and our own personal salutations."

(Signed)
W. E. Kepner, Major Air Corps, Pilot.
A. W. Stevens, Captain, Air Corps, Scientific Observer.
O. A. Anderson, Captain, Air Corps, Alternate Pilot.

NEED MORE ENERGY?

Get a LIFT with a Camel!

REX BEACH TELLS YOU how to get back vim and energy when "Played Out!"

"I have taken my share of big sailfish, marlin, and tuna," says Rex Beach, sportsman and noted writer. "I know what a rod-and-reel contest with these heavy fighters does to a man's vitality. When I've gotten a big fellow safely landed my next move is to light a Camel, and I feel as good as new. A Camel quickly gives me a sense of well-being and renewed energy."

"As a steady smoker, I have also learned that Camels do not interfere with healthy nerves."

Thousands of smokers will recognize from their own experience just what Mr. Beach means when he says that he lights a Camel when tired and "feels as good as new." And science adds confirmation of this refreshing "energizing effect."

That's why you hear people say so often: "Get a lift with a Camel." Camels aren't flat or "sweetish." Their flavor never disappoints. You can smoke just as many Camels as you want—their finer, MORE EXPENSIVE TOBACCOS do not get on the nerves!

FROM LONG KEY TO NOVA SCOTIA, the famous sportsman and writer, REX BEACH, has matched his skill and vitality against the big game fish of the Atlantic! Below he tells how he lights a Camel after fighting it out with a heavy fish—and soon "feels as good as new!"

PHONE OPERATOR. Miss Marion Erickson says: "I smoke a lot! Since I changed to Camels, I find I never have to think about nerves. And Camels are so mild and taste so good, too!"

SALESMAN. Kenneth B. Logan says: "I smoke most of the time—but I smoke only Camels, and I'll tell you why I say 'only Camels! Camels don't set my nerves—and my cigarette can match Camels on flavor, either.'"

TOBACCO EXPERTS ALL SAY:
"Camels are made from finer, More Expensive Tobaccos—Turkish & Domestic—than any other popular brand."

Camel's Costlier Tobaccos never get on your Nerves!

Consumption Of Lumber Was Low In Year 1932

WASHINGTON—The estimated consumption of lumber in the United States in 1932 decreased to a new low point unprecedented since 1893, the forest service, U. S. department of agriculture, reports.

"There is reason to believe, however," it was stated, "that this low point marked the bottom of the depression curve in the lumber industry, as the preliminary figures for 1933 show an increase in production of approximately 30 per cent over 1932."

The forest service's latest biennial study of lumber distribution and consumption, just completed with the co-operation of the U. S. census bureau and the dominion bureau of statistics of Canada, showed an apparent U. S. consumption of lumber for 1932 totaling 11,677,624 M feet, board measure. This compares with a total consumption of 23,342,708 M feet for 1930 and of 35,380,901 M feet for 1928. Of the total lumber consumption in 1932, softwoods accounted for more than nine billion feet, and hardwoods for a little less than two billion.

Per capita consumption in 1932 dropped to 94 board feet, as compared with 190 feet in 1930 and 295 in 1928.

The forest service analysis showed that 30 states had to depend on outside sources for the greater part of their lumber. Many of these states, however, had considerable areas of forest lands capable of producing a larger share of the local timber requirements under an adequate program for rehabilitation and protection of the areas.

Among the forested states which obtained the greater part of their lumber requirements from outside their own borders were Kentucky, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New York, Ohio, Pennsylvania, Tennessee, Virginia, and Wisconsin. Several of these states were at one time leading lumber producing states of the country. New York cut more than a billion feet at its peak, and Michigan cut more than five billion.

California showed the largest total consumption, 1,457,610 M board feet, followed by New York with 1,047,748 M feet. Highest per capita consumption rates were in Oregon and Washington, with

SISTER MARY'S KITCHEN

BY MARY E. DAGUE
NEA Service Star Writer

Do you know how to get a good dinner in thirty minutes? If you don't, now is the moment to learn. Ordinarily, dishes that can be cooked on top of the stove or broiled in the broiler are the quickest to prepare. However, any concoction that can be made while the oven is heating and baked in individual molds demands less attention than foods cooked over a hot fire.

At first thought, chops and steaks seem to be the only quick cooking meats, but a little concentration on the meat question reveals a fairly wide variety. Liver, brook salmon, pork tenderloin, beef tenderloin, broiled ham, turkey, thin sliced veal and the smoked pork products that can be purchased all can be quickly prepared.

Fish Also Available
The way fish is packed and shipped nowadays makes it possible to cook it with practically no preliminary preparations. Oysters are a standby for last-minute dinners in stew, scalloped, creamed or toast on brochette, baked with macaroni and mushrooms, or done as pigs in blankets—oysters are always delicious and with the exception of the macaroni mixture may be prepared and cooked in thirty minutes or less.

Small fish, fish steaks and fillets of fish may be baked, pan fried or deep-fat fried, pan-broiled or broiled in a broiler in the minimum of time.

First courses for quick dinners are easy. Soups need only reheating and seasoning. Vegetable juice cocktails come in bottles ready to be served. Only remember to get the bottle in the refrigerator.

549 and 477 feet of lumber per capita consumed, respectively. A part of this high per capita consumption, however, was represented by local conversion of lumber into other products, such as cash, millwork, and boxes much of which were shipped out-of-state. Lowest rate of consumption was in Alabama and Oklahoma, both states showing a per capita consumption of only 34 board feet.

Total imports of lumber from foreign countries to the United States in 1932 amounted to 391,913 M board feet, of which 341,495 M feet came from Canada. The United States exported a total of 1,197,283 M board feet during the year. Of the exports, 955,484 M feet were softwoods and 241,799 M feet were hardwoods.

VOTED FOR HORACE GREELY
VERSAILLES, Mo.—Jack Williams, 85 years ago, cast his first ballot for Horace Greely more than six decades ago and has been voting ever since—always in the same precinct here. He is a former state legislator.

JULIAN, Cal.—J. D. McCain, rancher, thought it was a raccoon when he took aim at a patch of fur and fired through the branches of a tree. Down tumbled a six-foot female mountain lion. The beast had been preying on McCain's cattle.

Tomorrow's Menu
BREAKFAST: Cubed fresh pineapple, cereal, cream, crisp broiled bacon, raisin muffs, milk, coffee.
LUNCHEON: Tomato bouillon, salad of fresh fruits in halves of cantaloupe, rolled cheese sandwiches toasted, milk, tea.
DINNER: Veal birds with brown sauce, scalloped macaroni and tomatoes, baked corn, celery hearts and carrot straws with home-made relishes, grape bavarian cream, milk, coffee.

Easy-to-prepare vegetables are essential for the quick dinner or you may use canned ones. Cauliflower, brussels sprouts and broccoli, which must be soaked in salt water for thirty minutes before cooking, do not lend themselves to hurry-up meals, but celery, tomatoes and carrots that can be used without cooking are a boon to the business woman who cooks.

Salads are not difficult, although their choice is rather limited for last minute preparation. Lettuce, endive (both French and curly), tomato, Chinese cabbage and plain cabbage can be used alone with a variety of dressings or as the base for fruit and vegetable salads.

It is impossible at this time to forecast with much certainty the number of cattle and calves that will be shipped from these states by the Federal Relief Agency, partly because the total that will be bought is not yet definitely determined and partly because the proportion of those bought that will have to be condemned and killed cannot now be foreseen. On the basis of present feed conditions in the different drought states and the number and character of the cattle purchased to the middle of August, the disposition of these, it seems probable that between 5,000,000 and 6,000,000 cattle and calves will be shipped by the relief agency. In addition to this number, probably between 2,500,000 and 3,000,000 head will be shipped through regular channels, making a total of about 8,500,000 head, compared with about 4,200,000 head shipped during the last five months of 1933 and a five-year average shipments of about 4,500,000 head.

The feed situation in the '37 States covered by the report is the most serious ever known. With the exception of the Pacific Coast States, all or nearly all the counties in all the states have been designated as emergency drought counties, in which purchases of

Cattle Shipments Will Be Largest In Nation's History

WASHINGTON — Shipments of cattle and calves from the 17 States in the western cattle area extending from North Dakota to Texas and westward during the five month August to December, will be 100 percent larger this year than last, and will be the largest ever made during these months, according to the report issued by the United States Department of Agriculture. This estimated movement this year in addition to shipments made through regular marketing channels, also covers cattle bought by the Agricultural Adjustment Administration as a part of the Federal Relief activities of the Federal Government and shipped to commercial establishments for slaughter or to other states for feed, but does not cover cattle bought, condemned and killed or cattle turned over to small local plants for processing for local relief.

It is impossible at this time to forecast with much certainty the number of cattle and calves that will be shipped from these states by the Federal Relief Agency, partly because the total that will be bought is not yet definitely determined and partly because the proportion of those bought that will have to be condemned and killed cannot now be foreseen. On the basis of present feed conditions in the different drought states and the number and character of the cattle purchased to the middle of August, the disposition of these, it seems probable that between 5,000,000 and 6,000,000 cattle and calves will be shipped by the relief agency. In addition to this number, probably between 2,500,000 and 3,000,000 head will be shipped through regular channels, making a total of about 8,500,000 head, compared with about 4,200,000 head shipped during the last five months of 1933 and a five-year average shipments of about 4,500,000 head.

Carrots and Turnips as the French Cook Them

By Ann Pryor

CARROTS and turnips, like spinach, are excellent foods, but many children and grownups, too, seem to find them hard to take. Here are two simple recipes, in the French manner, which will interest those who wish to impart new and appealing flavor to these two vegetables.

Sweetened Turnips—Scrape small turnips, or divide large ones into halves or quarters. Heat them in a saucepan with butter for about 20 minutes. When they become light brown sprinkle with one or two teaspoonfuls of sugar and moisten with about two tablespoonfuls of meat stock or gravy. Cover and let them simmer for about one hour.

Creamed Carrots—Scrape small carrots and place them in boiling salted water to which three lumps of sugar have been added. Cook for about 45 minutes. Small carrots may be left whole; larger ones should be cut into round slices.

Prepare a white sauce with a lump of butter the size of a walnut, two heaping teaspoonfuls of flour and a cup of the water in which the carrots have been cooked. Drain carrots and place them in sauce just before serving; add four table spoonfuls of cream.

largely exceed the number now estimated.

Twelve Cases Set In District Court

Twelve cases have been set for trial in the 91st District Court for the week commencing Monday, Sept. 17.

Cases set: Joe Ferguson, burglary; Joe Ferguson, theft; W. H. Lay, possession of liquor; E. C. Randolph, theft; Paul Tomlin, theft; Pat Sellers, theft; Frank Brown, theft; Marion Bell, theft; Evelyn Houston, theft; Fred Turman, theft; J. J. Baer, theft and Harlan Massey, theft.

Grand Jury For 88th Empaled

Empanelment of a grand jury was made Monday for the September session of the 88th District Court.

District Attorney Grady Owen has said that investigations of the recent Clarence D. Herring and L. F. Threst alleged murders would "very likely" be made.

MONTANA FAIR BREAKS RECORDS

GREAT FALLS, Mont. — All attendance records for the North Montana fair were shattered here this month when 195,238 visitors clicked through the turnstiles. This attendance was greater than that ever recorded at a Montana fair and exceeded previous local records by 50,000.

We're still waiting to hear if General Johnson lost his Blue Eagle for trying to fire his NRA union chief and failing to get away with it.

HUNTED PRIZED GIFT WATCH

CLEVELAND — Mrs. Julius Gaehl, searched dozens of downtown stores until she was footsore hunting an old-fashioned yellow gold wrist watch she had lost. "It isn't valuable," she said, "but it was the first present my children gave me. I have had it 35 years and it means everything to me." She didn't find it.

Try a WANT-AD!

I have been using Dr. Miles Anti-Pain Pills for thirty years. No matter what kind of pain I have, they stop it almost instantly. Never without them in the house.

Mrs. Chas. W. Webb, Indio, Calif.

You're The Loser

WHEN you allow Headache, Neuralgia, Muscular, Rheumatic, Sciatic or Periodic Pains to keep you from work or pleasure. You can't go places and do things when you are suffering—and the work or good times won't wait for you.

Why allow Pain to rob you of Health, Friends, Happiness, Money?

DR. MILES ANTI-PAIN PILLS have been used for the relief of pain for more than forty years. They taste good, act quickly, do not upset the stomach, nor cause constipation, leave no dull, depressed feeling.

Thousands have used them for twenty, thirty, forty years, and still find that nothing else relieves pain so promptly and effectively. Why don't you try them? Once you know how pleasant they are to take, how quickly and effectively they relieve, you won't want to go back to disagreeable, slow acting medicines.

You too may find quick relief. Why wait forty minutes for relief when Dr. Miles Anti-Pain Pills will relieve you in ten to twenty minutes?

As a household remedy I have never found anything that equalled Dr. Miles Anti-Pain Pills.

Mrs. Susan D. Keller, Pottsville, Pa. I never found anything that was so good to stop pain as Dr. Miles Anti-Pain Pills. I have told many about them and I find they are all using them.

Mrs. Martha Lacy, Davenport, Iowa I have been using Dr. Miles Anti-Pain Pills for years. I keep them on hand all the time. I can certainly recommend them for pain.

Miss Andra Seybold, 2417 W. 2nd St., Dayton, Ohio. Your Anti-Pain Pills have been a wonderful help to me. I have used them for three years and always keep them on hand.

Mrs. E. Pierce, Lapwai, Idaho I have used quite a lot of Dr. Miles Anti-Pain Pills. They are fine pills to stop pain.

Mrs. J. L. Kester, Shickelinn, Pa.

How Refreshing!

Luckies

They Taste Better

The clean Center Leaves— these are the mildest leaves They Cost More

"It's toasted"

Year throat protection— against irritation— against cough

In every way they taste better! Luckies are round, Luckies are firm, Luckies are fully packed with only the clean center leaves—and the clean center leaves are the mildest leaves—they taste better.

AVOID ACCIDENTS

BY KEEPING YOUR CAR READY FOR EMERGENCIES

THE PENALTY OF CARELESSNESS

Accidents are caused by carelessness and neglect. There are many parts in your car which can wear dangerously thin when lubrication is neglected. See that your car is lubricated correctly. Bargain grease jobs only lead you into a false feeling of security.

Guard against dangerous unseen wear with . . .

MAGNOLIA SPECIALIZED LUBRICATION

ACCIDENTS happen quickly and without notice. To avoid them your car must respond instantly . . . perhaps a sudden turn to the left or right . . . a quick spurt ahead . . . an instant stop!

Worn parts can't stand this strain. If lubrication has been neglected a vital part might snap when you need it most. When you have your car lubricated at a Magnolia Station, error and neglect are eliminated as far as it is humanly possible. The man who lubricates your car works from a detailed chart of your car and applies exactly the right amount of the special Mobilgrease as recommended by your car manufacturer. Not a single grease fitting is slighted and your car is lubricated as it should be.

The difference in cost between Magnolia Lubrication and the average "hit-or-miss" grease job is negligible. For your own protection and the safety of your family and friends who ride with you, have your car lubricated at Magnolia Stations and Dealers.

Be Sure You Get ALL 4 SAFETY FACTORS

- 1—PROPER TRAINING . . . Magnolia Men are thoroughly schooled in the responsibility and application of correct lubrication. They know their business!
- 2—ACCURATE CHARTS . . . The Charts used in Magnolia Stations are prepared in cooperation with the engineers who built your automobile.
- 3—CORRECT EQUIPMENT . . . Every Station has complete modern equipment, selected after extensive research by Magnolia Engineers.
- 4—RIGHT GREASES . . . Several different Mobilgreases are used to meet heat—water—pressure. Mobilgrease stays on the job!
