RANGER WEEKLY TIMES

RANGER, TEXAS, FRIDAY, OCTOBER 19, 1934

The scientist who have succeeded in extracting gold from sea water, might now turn their energies to extracting gold from the bankers.

NUMBER 39

FT. WORTH CAB DRIVER TELLS OF EXPERIENCE

R. L. Teasley, driver for the Hurt & Steve Cab company, of Fort Worth, who was kidnapped from in front of the Texas hotel at Fort Worth Tuesday night by two bandits, was released five miles east of Ranger on Highway 1 about 2 o'clock Wednesday morning, according to a story he told Ranger police upon his arrival in Ranger.

According to the story told by Teasley he was summoned to the Texas hotel in Fort Worth about 9 o'clock. Two men quickly entered his cab, which was a 1934 model Plymouth sedan, struck a gun in his ribs and told him to start driving.

The two warned the driver that if he so much as tried to get a glimpse of their faces during the ride he would be knocked in the head and left on the side of the road.

With the gun in his ribs Teasley drove to Granbury, where gas was purchased at a filling station. The driver was warned, as they neared the town, that if any questions were asked he was to say that he was a service car driver who was driving his two fares on a regular call.

Between Granbury and Stephenville, the man said, they had a picture, and the two men made him put on the spare wheel. One of the men stood behind him with a flashlight, and when he turned toward him the hand turned the light in his eyes so he could not see.

One of the bandits then took the wheel, with Teasley beside him on the front seat, and the two made sure that he kept his head turned so that he could not see them. Teasley said at the police station early Wednesday morning that he was not able to get even a glimpse of either man's face, but that he knew one of the men was wearing light trousers.

Just outside of Stephenville the two bandits, with the driver still with them, turned off toward Thurber and had another flat. They stopped at a filling station and had the flat fixed, but the attendant at the station was so deaf that Teasley had no opportunity to say anything to him without his kidnapers hearing him.

Driving through Thurber the trio turned toward Ranger and when about five miles from town they stopped the car and prepared to tie the Teasley up to a tree. He told them that he had just had a bad case of pneumonia and that it was his first night on duty since his illness and prevailed upon them to let him out of the car. They searched him and found \$2.50 in his pockets, and asked him how much of the money was his. Teasley replied that 40 cents belonged to him and they returned that amount, keeping the \$2.49 belonging to the company.

After the kidnapers drove off Teasley started walking east, as he remembered that he had seen lights at the filling station at the top of Thurber Hill. He walked about 200 yards and saw either a coyote or a large dog in the road ahead of him. When he yelled at the dog it did not run, but looked as though it was going to approach the kidnap victim, so he turned west again. Just outside the city limits of Ranger he saw a light in a house and got a ride to Ranger and was taken to the police station.

After telling his story to the police he telephoned his company and some of the employees started to Ranger, arriving about 6 Wednesday morning. They picked up Teasley and started on a search through cities in this vicinity, hoping that they would find their car, if not the kidnapers.

Teasley, who is a small, slender man, said to the Ranger police that he was thoroughly frightened throughout the trip, and that he was afraid to try to get even a short glimpse of the kidnapers. He said that he could identify them only by their voices.

Teasley spent the time between his telephone call to Fort Worth and the arrival of his employees riding around with Ranger police trying to locate the stolen car, but it was not seen.

STATE SALES TAX BIG AID—SPRINGFIELD, Ill.—Illinois' state treasury will be enriched to the extent of approximately \$400,000 as a result of the application of the state sales tax to business done at a Century of Progress Exposition in 1934, it was announced recently.

Eastland and Ranger Will Play in Ranger

Weekly Times Is Growing Rapidly Over Its Section

The Ranger Weekly Times has been meeting with much encouragement over its subscription territory, as solicitors in the past two weeks have secured a large number of subscriptions in Gordon, Minguo and Strawn.

Practically all are new subscribers, though about 10 are renewals of old subscriptions, where the subscriber indicated that they did not want to be without the Weekly Times in the future.

Those who have subscribed in the past two weeks are:

Gordon
Fred Townsend, W. G. Webb, Hubert Hitt, Joseph F. Butler, H. W. Kluse, E. A. Jones, John McClure, Lewis C. Rogers, R. H. Krown, First National Bank, John Hart, J. Lloyd Clem, J. A. Stewart, Bertha Alley, C. A. Maddox.

Mingus
Lee Dyer, H. L. Mynard, H. W. Standiford, Cy Speegle, Lawrence Santi, P. G. Nader, W. L. Cole, W. L. Baker, Bill Pereto, A. Taromino

Strawn

Eastland County Cotton Ginnings Are 2,788 Bales

Eastland county ginnings prior to Oct. 1, 1934 show a decrease of 534 bales from figures for the same period last year, according to a report of the department of commerce in Washington.

Last year ginnings up to Oct. 1 were 3,322 bales and this year are 2,788. Figures for 69 counties in West Texas reveal that the area ginned 223,933 bales this year as compared to 326,293 last year.

An Omaha mail carrier charges his wife beat him with a whip, a hoe, a washboard, and a bat. She mustn't have done any baking.

County Relief Committee and Heads Of Organizations to Meet Saturday

Work projects should be submitted Saturday at a county-wide relief meeting to be held in Eastland, H. E. Driscoll, county administrator stated Wednesday.

The county administrator stated the following regarding the meeting: "On 10 a. m. Saturday Oct. 20 there will be held a meeting in the county commissioners court room at Eastland to which have been invited to sit in with the Eastland County Relief Committee and the county commissioners the following: the mayor of each community in the county, the president and secretary of each Chamber of Commerce, president of all Rotary and Lions clubs, all school superintendents and prominent business men of the county, for the purpose of advising ways and means wherein applications for work relief projects may be made up and submitted to the works division of the Eastland County Relief Board."

It is very imperative that more work relief projects be available at once. Due to the fact that the new state relief law was adopted by the fourth called session of the 43rd legislature provided that:

"At least thirty-five per cent of the state funds allocated to any county shall be expended on the construction, repair or main-

tenance of lateral roads, or other work projects."—Adam R. Johnson.

Driscoll continued with, "On our relief rolls we have 1,570 employable men and 166 employable women for which we must receive additional applications for work projects in order to comply with the above law."

"It can readily be seen how beneficent it would prove not only to relieve clients but to the merchants in the county as well. The meeting is called for the specific purpose of requesting new work relief projects."

Two Cars Stolen In Ranger Tuesday

Two automobiles were stolen in Ranger Tuesday night, according to police reports.

A 1928 model Chevrolet coach belonging to F. A. Able was stolen from in front of his home on West Main street, while a 1928 model Chevrolet cabriolet belonging to Sam Thomas was stolen from Main street, where he had parked it.

The Able car, here a Wichita Falls license, No. A11-255, while the Thomas car bore Eastland county license plates.

ONE PROBABLY WILL DIE FROM HIS INJURIES

One man was probably fatally injured and another was seriously injured in an explosion at the Brooks-Huntlon gasoline plant of the Lone Star Gasoline company at Breckenridge Thursday morning.

The most seriously injured are Herbert Shahan, repair man at the plant, who is so seriously burned that he is not expected to live, it was reported from a Breckenridge hospital, where he was taken.

L. A. Eubanks, engineer of the plant, was also seriously burned, but it was thought Thursday afternoon that he would likely recover.

The explosion occurred in the plant about 10 o'clock this morning, but the cause of the explosion was undetermined, though it was said that it was an explosion of gas vapor.

J. A. Bates, formerly of Ranger, is superintendent of the plant, but he was not injured in the explosion, according to reports.

Company officials were unable to give any direct cause for the explosion, other than that it was caused by ignition of gas vapors. The plant was partially damaged by the explosion.

Masons Hear Talk On the Holy Lands

Dr. L. B. Gray, pastor of the First Presbyterian church of Ranger, was the speaker at a meeting of the Masonic lodge, held Tuesday night and gave an interesting talk on his trip to the Holy Lands several years ago.

He exhibited pieces of rock he brought back from Solomon's quarries. His talk was very interesting and instructive. He was introduced by Rev. H. H. Stephens, pastor of the Central Baptist church.

Masons from Brownwood, Thurber and Eastland were present, as well as one from Kansas.

Refreshments were served at the conclusion of the meeting.

Ranger Home Was Robbed Tuesday

The home of Y. A. Wright, Main street, Ranger, was burglarized Tuesday night and several articles of clothing were stolen. It was reported to the Ranger police late Tuesday night.

After a checkup it was reported that a suit of clothes, six shirts, a hat and a number of handkerchiefs were missing.

Hassen Store Front Has Been Repainted

The front of the Hassen company store, Main street, has been repainted in white, trimmed in black.

The repainting has added much to the appearance of the store front, making it harmonize with the interior decorations and light fixtures.

Funeral Held For Nola Lois Sharp

Funeral services for Nola Lois Sharp, 19-month-old daughter of Mr. and Mrs. Frank Sharp, Ranger, route 2, who died in Ranger at 2:30 Tuesday afternoon, were conducted in Olden Wednesday afternoon, with burial in the Eastland cemetery following the services at the church.

Rev. K. C. Edmonds of Ranger conducted services at the Olden church.

Nitro Shot on Well Boosts Production

A 15 quart nitro-glycerin shot on N. A. Moore's M. E. Holcomb No. 2 well this week has boosted production from two to 48 barrels.

The well is located in Eastland county on the Holcomb lease, H. & T. C. survey, block 4, section 1. The shot went off at 1:35 p. m. Inner casing was set at 1283 feet. Depth to top of sand formation is measured at 1326 feet.

CAROLINAS EXPECT TOUGH 1935

RALEIGH, N. C.—With history repeating itself in 1935 if so, trading in moth ball futures will prove a risky business, while the overcoat market will be strong. In 1835, so history says, it "frosted" in North Carolina every month but one. That was July. The only crop raised in Tarheelia that year were Irish potatoes and corn—and corn was short.

If we must have another cut in the price of the dollar let's at least get it by having it put on the bargain counters.

Two Cars Stolen In Ranger Tuesday

Two automobiles were stolen in Ranger Tuesday night, according to police reports.

A 1928 model Chevrolet coach belonging to F. A. Able was stolen from in front of his home on West Main street, while a 1928 model Chevrolet cabriolet belonging to Sam Thomas was stolen from Main street, where he had parked it.

Fourth Quarterly Conference to Be Held at Flatwood

On Saturday, Oct. 27, Dr. O. F. Sensbath, the presiding elder of the Cisco district of the Methodist Church, South, will preside over the fourth quarterly conference for the Ranger circuit charge. The program for the day will be as follows:

10 a. m.—Devotional service, led by the P. E. report of pastor and other officers and committees.

10:45—Special study of new educational program, led by Rev. E. R. Stanford.

11:30—Sermon by the presiding elder.

Dinner served by local church.

1:30 p. m.—Quarterly conference business.

2:00—New financial plan, Rev. J. M. Bond.

2:30—Reports of stewards and other conference business.

3:00—Election of stewards and their consecration; financial business of the conference.

Adjournment.

There will be special music. Programs have already been mailed to the members of the several churches of the Ranger circuit charge, namely, Bullock, Mt. Zion, Staff, Kokomo, Flatwood.

The entire membership of the whole charge are urged to be present. The success of each of these rural churches depends upon the whole hearted co-operation of every person participating in the complete program of the church.

Written reports are to be presented by the Sunday school superintendents, trustees, and stewards. The entire membership of the churches are urged to co-operate with the stewards in closing the financial support of the year.

Housing Program May Become Part Of Relief Setup

WASHINGTON, Oct. 17.—President Roosevelt today gave the first inkling of the form his relief and social legislation plans for the next congress may take.

He indicated the housing program would be developed through legislation to the point where it will be a coordinated part of a relief setup designed basically to make those now on relief rolls self sustaining.

The substance of the relief idea now being experimented with, appeared likely to be brought into the housing program, probably through allocations of new PWA funds by congress.

Funeral Held For Nola Lois Sharp

Funeral services for Nola Lois Sharp, 19-month-old daughter of Mr. and Mrs. Frank Sharp, Ranger, route 2, who died in Ranger at 2:30 Tuesday afternoon, were conducted in Olden Wednesday afternoon, with burial in the Eastland cemetery following the services at the church.

Rev. K. C. Edmonds of Ranger conducted services at the Olden church.

Pythian Convention Plans Completed For Gathering On Nov. 5

Plans for the district Pythian Sisters convention to be held in Eastland Nov. 5 were completed this week in Eastland.

Members were present at the organization's meeting in Eastland Monday from Minguo and Breckenridge.

Those from Breckenridge were Mrs. Etta Mathias, Agatha Chastain, Mae Zinn, Rachael Vallis, Mary Pellizzari and Mae Pruitt.

GAME WILL BE STARTED AT 3 P. M. FRIDAY

Both Teams in Final Workouts Today For Big Game at Lillard Field.

The time for the Eastland-Ranger football game at Lillard field, Ranger, Friday afternoon, was definitely set for 3 o'clock today by officials of the schools.

It was first announced the game would be played at 3 o'clock, and tickets were printed and placed on sale in Ranger and Eastland. Later it was announced the game would start at 3:30, but this was changed again today when it was decided to have the game start at the time indicated on the tickets.

Tickets are on sale at the drug stores in Eastland, where it is reported that the advance sale is good, while in Ranger they are being sold by the Paramount Pharmacy, Oil City Pharmacy, and Swaney's Pharmacy. The price for adults is 50 cents, while children will be admitted for 25 cents.

Both teams were ready for their final workouts this afternoon, with some injuries on both teams, but none that is expected to prove much of a handicap to either team. The Mavericks are rated as a strong team this year, despite their setback at the hands of the Breckenridge Buckaroos, and are scheduled to prove tough for any team in the district.

The Bulldogs, rated early in the season by some as possible contenders for the Oil Belt championship, have won but one game in their first four starts, while Eastland, playing somewhat weaker teams, has won two of its four games. Both teams have defeated San Angelo, and the comparative scores indicate that there is not a great amount of difference between the two teams and either is likely to win.

The two pep squads, too, have been working out regularly, getting in fine form for the demonstrations between halves, with the hands working evenly as hard getting their part of the program arranged.

Pep rallies were scheduled in both Eastland and Ranger for tonight.

As this is the first game Ranger has played at home since the first start of the season, and since it is the first game the Mavericks have played so close to home, a large crowd is expected to be present. The Eastland Lions club is sponsoring a motorcade, which will form at the courthouse in Eastland, going direct to the football field, and a large delegation is indicated from the county capital to back their team.

Eastland Maverick boosters will gather in a motorcade Friday afternoon at 2:30 for the trip to Ranger.

The Lions aim for a 100 car motorcade to Ranger, John Burke and P. M. Kenny, chairmen of the motorcade, state.

Band and pep squad members will be arranged transportation to the game as they have at former out-of-town games.

The group will gather in front of the Texas Electric Service Co. on East Commerce street and it is desired all leave at the same time, Kenny states.

The Mavericks will not have the services of Johnny Garrison for the game, it was announced by school officials Wednesday although he is recovering rapidly and will be ready for play in the near future.

The Mavericks though not too confident are in the pink of condition for the game and the best encounter of Eastland to date is the promise of those connected with the team.

Passing attacks may be utilized by the Mavericks. It has been shown heretofore that with the

(Continued on page 3)

Suit Transferred to 91st District Court

The case of Farm and Home Savings Loan Association of Nevada, Mo., vs. the Cisco Banking Company and others, scheduled for trial in the 88th district court was transferred to the 91st court Thursday.

The case got under way Thursday afternoon. The 88th's occupation with a Rising Star man's suit against the M. K. & T. Railroad made the change necessary.

NATIVE OF THE WEST

Pauline Lord, who makes her film debut in Paramount's "Mrs. Wiggs of the Cabbage Patch," is a native daughter of California.

Eastland County Men Indicted at a Federal Court

Indictments against three Eastland county men were returned by a federal grand jury in San Angelo Wednesday.

Alton C. Westerman and Marvin C. Keller were indicted on charges of alleged possession and concealing un-taxed liquors in the county May 5.

Fred Tarver was indicted on a charge of alleged operation of an unregistered distillery and possession of un-taxed liquor.

Westerman was indicted in the 91st district court at Eastland Jan. 11, on charges of possession of liquor. Tarver was indicted Jan. 17 on two charges of possession of liquor in the 91st district court at Eastland.

Lions Sponsoring Motorcade Friday

The Eastland Lions club will sponsor a motorcade to Ranger on Friday when the Mavericks play the Bulldogs, it was announced at the club's meeting Tuesday by P. M. Kenny.

Lion McLamery addressed the group on one of the amendments to be voted on in the November election which is of concern to the schools.

Sixteen Lions were at the meeting.

Meeting Called to Select a Site For New Post Office

Dr. P. M. Kuykendall, president of the Chamber of Commerce, has called a meeting of all the members and directors of the Ranger Chamber of Commerce, to be held in the colonial ballroom of the Gholson hotel at 7:30 o'clock Monday night.

The purpose of the meeting is to get the membership to concentrate on one site for a postoffice for Ranger, and then to send the selected site, with its specifications, price and other information, to Congressman Thomas L. Blanton and to the postoffice department in order that the building might be started as quickly as possible.

It was pointed out this morning that the meeting should not last more than 30 to 40 minutes, so that those who had other engagements or who wanted to attend the weekly fights at the Elks arena could get away by 8 o'clock or shortly thereafter.

F.F.A. Members to Attend State Fair

Wednesday evening the Ranger Future Farmers of America chapter met and all plans were discussed for their trip to the State Fair. Over 25 boys are expected to go. The chapter will go in numbers for the first time since the organization of a chapter here. The "green bus" will carry the boys to the fair.

Saturday morning at 5 o'clock the bus will leave from in front of the school and all going will be there at that time. The boys will carry their lunch and have a regular picnic spread. Arriving at the fair grounds the boys will see all the exhibits and then at 1:30 will take part in an F. F. A. parade. Several of the boys are working on a local chapter sign for the parade.

After seeing the exhibits the boys will be allowed to go where they want providing they are back at the bus by 6 o'clock, ready to return home.

The boys elected Dean Walsh and T. C. Williamson to represent them as delegates at the State F. F. A. convention to be held at the fair.

Suit Dismissed at Plaintiff's Cost

H. H. Davis and others suit vs. the Colonial Building and Loan Association scheduled in the 88th district court was dismissed this week after agreement of both parties.

The suit was dismissed by the court at the plaintiff's cost.

HUGE CANTALOUPE GROWN

OGDEN, Utah.—A cantaloupe 26 inches long was grown here by Mrs. Marie Sparhawk. The melon was twice the size of the ordinary cantaloupe.

Both Sides of This Family Have Five Generations Alive

Mr. and Mrs. J. B. Eudy of Ranger can boast of five generations, both in the family of Mrs. Eudy and that of Mr. Eudy.

The couple is planning on having a picture made which will show the five generations on both sides of the family.

The five generations on one side consist of Mrs. Eudy, grandmother of J. B. Eudy, M. L. Eudy, his mother; Mrs. Jack Pockrus, his sister; Hubert Pockrus, his nephew, and Wanda Joy Pockrus, daughter of his nephew.

Mrs. Eudy's family's five generations consist of Mrs. M. E. Warren, her grandmother; V. A. Warren, son of Mrs. Warren; Mrs. Stella Connell, daughter of Mr. Warren; Mrs. Dorothy McLister, daughter of Mrs. Connell, and Connie Lazelle McLister, Mrs. McLister's daughter.

Bullock Church Is Painted by Group

Rev. Ephraim D. Conway, circuit rider of the Ranger district of the Methodist church, has announced that the exterior of the Bullock Methodist church has been given a coat of white paint, adding much to its appearance.

E. M. Howard of Ranger aided in the purchase of the paint and supervised the work, while the members of the congregation did the actual work.

The first few days the work was in progress the painters brought their lunches and had dinner on the ground to add diversion to the task of beautifying the church building.

OK Grocery Is Being Remodeled

The OK Grocery and Market, West Main street, is being completely remodeled both on the outside and inside.

A plate glass window is being installed in the front and the entire building is being re-walled on the outside, after which it will be newly painted.

On the inside new shelving is being installed and the interior is to be repainted and re-arranged so that it will be more modern and up-to-date in every respect.

Ferguson "Agin" Amendments and Allred For Some

AUSTIN, Oct. 18.—"Vote agin 'em all" was former Gov. James E. Ferguson's advice to the people on constitutional amendments to be submitted to vote Nov. 6.

The warning was issued in this week's copy of Ferguson's paper.

Incoming Gov. James V. Allred was to speak tonight over a radio hookup in favor of most of the amendments. He, too, opposes the one limiting taxation and appropriation to \$11.25 per capita per year.

Charges Prepared In Railroad Suit

Charges were to be prepared and delivered to the jury in the case of D. L. Hollis vs. the M. K. & T. railroad in the 88th district court Thursday.

Hollis of Rising Star, it is said, is suing the railroad out of charges that he suffered personal injuries by officers at a gas loading rack at Rising Star on the evening of June 25, this year.

Hollis is asking for a sum over \$10,000.

TWO FACING GOVT. CHARGE ON CATTLE SALE

LUBBOCK, Oct. 17.—Carroll E. Cannon, son of E. L. Cannon, Hockley county relief administrator, and his father-in-law, J. P. Brown, principal of the Levelland, Texas, school, today faced federal charges in connection with alleged sale of government property.

A complaint was issued charging the Springer Cannon and Brown with sale of cattle purchased by the government in the drought relief program.

Federal Commissioner Victor Lindsey said cattle inferior to those purchased were substituted in shipments.

Four sales were said to have been made Saturday. The Levelland school board asked Brown for his resignation.

Funeral Men Hear Code Supervisor

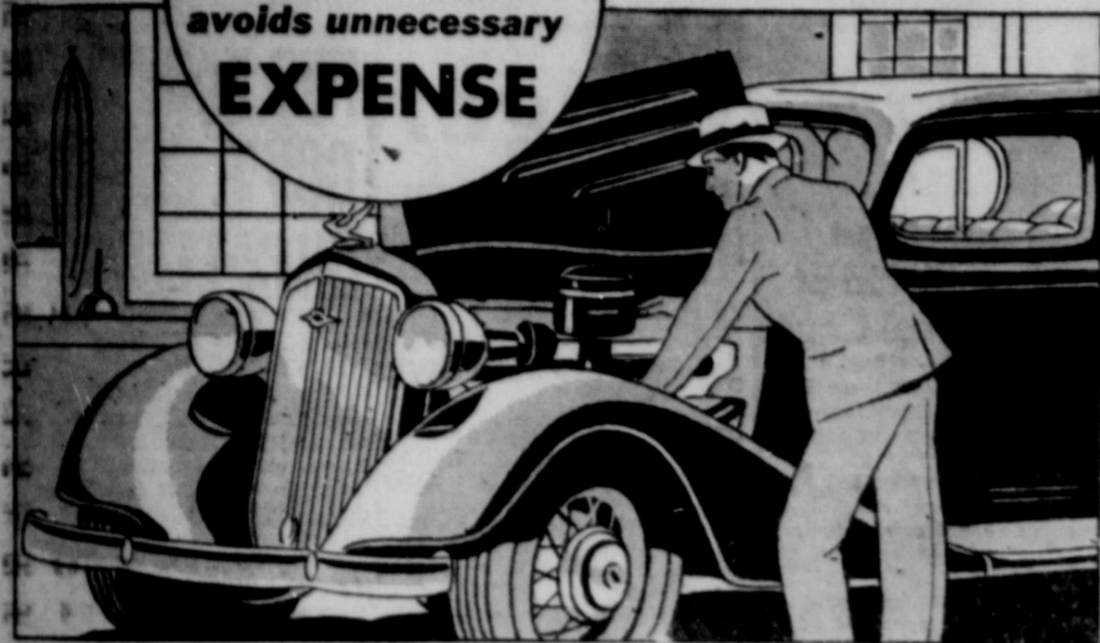

Heart of Texas Funeral Directors Association members in Brownwood last week were told by their code supervisor that free services and solicitation of business is strictly prohibited. George Williamson of Jacksonville, district supervisor and member of the state code authority, addressed the group. Enforcement of the code was voted for.

Members of the association from the immediate district who attended the meeting were: Ben E. Hamner, Eastland; M. P. Kiker, Breckenridge; Dan Laughter, Abilene; E. A. Vaustrin, Breckenridge; J. L. Warren, Abilene; J. L. Jolly, Strawn; A. S. Barrow, Abilene.

PREACHING AT KOKOMO METHODIST CHURCH

Rev. Ephraim D. Conway announces that he will meet his regular third Sunday appointment at Kokomo. There will be preaching Saturday night, sermon subject, "What Men Are Asking." Sunday morning, sermon subject, "Lifting Stumbling Blocks in the Way of the Kingdom." Sunday night, sermon subject, "

DID YOU EVER STOP TO THINK

By EDSON R. WAITE, Shawnee, Oklahoma

One does not like to pit his feeble wits against those of the brilliant Brain Trusters, but I cannot see how trade can be increased and work created by the raising of prices and getting them so high that the average citizen cannot pay and does without.

No matter what Brain Trusts or Economists may say, purchasers will buy as cheaply as possible, and if they can't buy at a reasonable price will do without, even in normal times. How much more does this apply in times of depression when wages are low?

Politicians and Brain Trusts are working day and night to turn things upside down in an endeavor to not only convince the world that there is over production, but to reverse all economic laws by insisting that the raising of prices will lead to larger consumption and bigger trade.

What is needed is a greater volume of trade—not to stifle it.

To Wrestle Here

Eddie O'Shea, 155-pound grappler, who will wrestle on the Elks Arena card Monday night.

FARM NEWS

Yard improvement demonstrators have one eye out for native shrubs as they go about the world these days. The plan is to mark them now while they can be identified and transplant them later.

Mrs. Hope Porter of the Maypearl home demonstration club in Ellis county did not find it hard to persuade her husband to put up pantry shelves to contain 1000 cans and jars of home-grown food after she had put up the products.

J. L. Gore of Bellefonte community in Wood county says that cutting the weeds in his pasture proved to be as profitable work as he did on his farm this year. Mr. Gore has a subirrigated area of one acre where he has a stand of carpet grass which has furnished grazing for three horses and two cows in spite of the drought.

The value of conserved moisture was proven again by Elmer Hitt in Garza county when he outwitted the drought by planting a cotton crop in the basin of what in ordinary years is a lake. Five acres of this are giving Mr. Hitt between three and four bales of cotton which he estimates is as much as the entire 32 other acres he planted will yield. With the help of the county agent he drained the excess water out to another portion of his farm and this caught by contoured rows was utilized to make a fairly good crop of matze.

CANYON—A one-way plow was used as a harvester on the ranch of J. J. Currie of Randall county by adjusting it so as to cut about one inch deep, according to W. H. Upehurch, farm demonstration agent. The plow was used on a field of sorghum which was seeded with a wheat drill for hay but grew only a few inches in height. The stalks were so short that an ordinary rake would not pick them up. The stalks, root and all, when cut by the one way plow were heavy enough to be picked up by a side delivery rake. The net re-

acres of permanent pasture, according to J. C. Yeary, farm demonstration agent. The pasture is now in its fourth year and Mr. Seruggs says that the saving due to its use is practically 30 per cent or an average of about \$30 per month.

BONHAM—That one good variety of cotton produced on a large scale will bring a premium that is worth seeking has been proved by the experience of J. R. Goss of Fannin county, according to V. J. Young, farm demonstration agent. "For the past three years I have grown Acala cotton on my farm of 4000 acres. I have always been able to get from \$7.50 to \$14 per bale premium on my cotton. I do not need to be convinced any further on this matter," Mr. Goss says.

SNYDER—Three hundred and forty-eight pounds of peas, radishes, and greens gathered from the Scurry county relief garden in one week have provided 48 families with fresh vegetables, according to Miss Nellie Ward, home demonstration agent. A total of 516 pounds have been received by 80 families since the garden came into production. The garden is subirrigated with concrete tile made by workers on the relief roll under the direction of Miss Ward. Rape and turnip greens are available in large quantities and lima and pinto beans have a heavy crop now in the making and will soon be ready for use.

PANHANDLE—In spite of the drought, 18 varieties of vegetables are being grown in the garden of Mrs. Tom Epting of Carson county. Three years ago Mrs. Epting installed subirrigation lath in her garden of 30 by 60 feet at a cost of \$2.40 and is still finding its use beneficial. On July 22 she planted 10 rows of pinto beans which came up on July 28, and on Sept. 11 she exhibited some of the fresh beans at the Carson county home demonstration exhibit. At that

sult was the saving of 25 or 30 tons of good sorghum hay.

GALVESTON—The feed cost on a herd of 40 cows has been reduced by T. C. Scavage of Galveston county by the use of 15

time she said she had a bountiful supply for canning and for fresh use.

MASON—The "Tom Hat" painted by Thomas Sully more than 100 years ago and reproduced on the cover of a recent issue of a fara magazine has solved the picture problem for Mrs. Arch Reeves, bedroom demonstrator for the Ten Mile Home Demonstration

Club of Mason county, she tells Miss Leah Cox, home demonstration agent. Mrs. Reeves chose a gold frame that blended with the colors of the picture. By cutting out the picture and framing it herself, she has a famous picture that means something to her and to her small daughter at a cost of only 29 cents.

OLDEN PERSONALS

By OLIVE STEPHENS, Special Correspondent

Special Correspondent

Miss Nanell Canafax, daughter of Mr. and Mrs. Dick Canafax of Millsp, visited over the week-end with Jean Adams and Mary Ford. Mr. and Mrs. Harvey Russell are moving to a lease near Throckmorton, where Mr. Russell has been transferred by the Magnolia Pipe Line company. Polk Valliant of Pampa is visiting friends in Olden at this time. A delightful surprise birthday party in honor of Pauline Gullett was enjoyed by the honoree and a number of friends at her home in Olden Saturday night. The guests had assembled when Pauline and her mother returned. During the evening many new games were played and delicious refreshments were served. Pauline received many birthday gifts to remind her of the occasion. Among the many Olden folks who enjoyed the Eastland county singing convention at Mangum Sunday were Messrs. and Mrs. T. M. Maxwell, J. P. Park, Robinson, Jim Woods, Charles Gullett, Jack Stephens, Mrs. V. M. Hamilton, Gorman Morton, and the Misses Doris and Katherine Stanton, Florine Reeves, Pauline Gullett, Corretta Watson, and Jackie Lee Koch and Mr. Walton Branscum. All reported an enjoyable time and exceptional singing. At the meeting Sunday afternoon the date for the next singing convention for Eastland county was set for Jan. 5 and the place New Hope, which is about half way between Carbon and Gorman on the old road.

Mr. and Mrs. Dixie Tate and Mr. and Mrs. Howard Chamberlain of Baird were Olden visitors Sunday for a short while. They stopped en route from Stephenville, where they had spent the week-end visiting relatives, to Baird where both Mr. Tate and Mrs. Chamberlain teach in the Belle Plains school. They visited the L. V. Ford family here.

Mrs. J. D. Fielding of Rising Star, who has been staying here with her daughter, Mrs. Fred Burke, who has been ill, expected to return to her home at Rising Star the first of the week if her daughter's health permitted.

Mr. and Mrs. George Humphrey of Conroe, who visited relatives here and in Ranger last week, have returned to their home in Conroe. Mr. and Mrs. Ed Buckley were Dallas Fair visitors Wednesday and Thursday of last week. A peculiar fire burned the redwood lining in a water well here one day last week. Mr. Teatsworth of Eastland discovered the fire as he drove along the highway, seeing smoke rolling up over the wooden derrick of the water well on the Jack Stephens place. He investigated and found the entire interior lining of the well in flames, down to the water level. John Ford and Mr. Teatsworth worked rapidly with fire extinguishers and were able to save the pump jack and engine but the derrick and wooden lining of the well were completely destroyed. No one has an idea as to how the fire originated.

J. P. Park killed a young rattlesnake in a shed at the back of his home here Monday afternoon. The snake was stretched out on a raft, evidently sunning itself when Mr. Park discovered it. Little James Park, small son of Mr. and Mrs. Park, had been playing in the yard and near the building most of the day, but luckily never happened upon the reptile. The Church of Christ here is being improved by new painted seats and other work. The new brick building, in which the first grade pupils will meet, is nearly completed. It stands apart from the original Olden school building, is built of red brick, as is the large building, and is a much needed improvement of the school, owing to the crowded conditions under which the school has operated in the past few years. Mrs. Timmons, first grade teacher, has been holding the classes in the Methodist church this fall and until the new building is ready.

Earl Miller of Baton Rouge, La., arrived Sunday for a visit with the G. L. Russell family. Mrs. Miller, who has been visiting her parents here for some little time, will accompany Mr. Miller back to their home in Baton Rouge soon. Mr. and Mrs. John Matlock left for a brief visit in Dallas Sunday.

Mr. and Mrs. Troy Milton visited Mr. and Mrs. B. A. Highsmith Sunday. Hubert Rainey of Desdemona visited E. H. Redwine Saturday.

CROSS ROADS

The people of our community are very busy taking up peanuts and threshing. Mr. and Mrs. J. H. Ainsworth and son D. Bert, visited their daughter, Mrs. Roy Thomas Sunday.

Mrs. F. E. Ferrell and daughter Mrs. Gene, visited Mrs. Elmer Daffern Sunday. E. M. Campbell and family were in Ranger Friday. Henry Browning of Ranger was in our community Wednesday.

Alex Parker of Thurber visited J. H. Ainsworth Saturday night. J. W. Kistner and family visited in the home of Elmer Daffern Sunday.

Vance Daffern and family and Mrs. Billie Daffern visited relatives in Liggerville Saturday and Sunday. Hutch Hale and mother, Elaine and Mazell Hale, attended church at Cheaney Sunday.

W. F. Barton were in our community Tuesday. Miss Bertha Yardley visited Miss Elaine Hale Friday. Nolan Lee of the CCC camp of Graham, visited his parents, Mr. and Mrs. Cam Lee this week.

Vance Daffern and son visited Mrs. V. E. Pedigo Tuesday. V. E. Pedigo and family attended church at Ranger Sunday. Mr. and Mrs. E. M. Campbell visited Carl Foreman and family Sunday.

Mr. and Mrs. Dave Hamilton and son Billie, spent Saturday night and Sunday with Mr. and Mrs. H. D. Browning. Miss Katie Griffith spent Friday night with Miss Eloise Pedigo. Bailey Wood and son of Wiles were in our community Saturday. J. T. Walton of Alameda visited his daughter, Mrs. F. E. Ferrell Saturday.

The daughter of Mr. Billie Daffern from West Texas, is visiting him.

Several families from the Colony community attended singing at Oakley last Sunday night.

Miss Audrey Carey, teacher, visited her father, Mr. W. L. Carey of Caddo, over the week-end. Mr. and Mrs. G. D. Carey and children attended the State Fair last Friday. Free tickets were given to all school children who wished to go on Friday. Friday was children's day at the fair.

Miss Gertrude Griffith, teacher here, attended the State Fair over the week-end.

Mrs. K. T. Smith, president of Colony Parent-Teacher association, attended the P. T. A. meeting at Ranger Tuesday afternoon.

Plans are being made for a Halloween carnival which is to be held at the Colony schoolhouse on Oct. 31. We want everyone to come and help us enjoy being "spooks" for one night. A small charge will be made for each booth, but in return you will get to see some of the queer things of nature. Don't miss it.

The Colony basketball boys and girls were defeated by Morton Valley last Friday afternoon on the Colony court. Even though we were defeated, we take it like real sports and work just a little harder in our practice.

Miss Viva Briscoe, primary teacher, visited Mr. and Mrs. Smith of Morton Valley Saturday. Mr. and Mrs. G. T. Smith, superintendent of school, visited Mrs. Smith's parents of Carbon Sunday afternoon.

Mr. and Mrs. Fred Crosland visited in Palo Pinto Saturday. Mr. Crosland is a teacher in the Eastland school, while Mrs. Crosland teaches at Colony. Colony has an active Parent-Teacher association which meets twice a month with Mrs. G. T. Smith as president. They will meet Thursday night of this week with a very interesting program.

Mr. and Mrs. A. A. Anderson are the proud parents of a baby girl, Joyce Kay. Mrs. Anderson is the daughter of Mr. and Mrs. G. J. Smith of this community. Miss Nelle Waters, teacher here, visited her parents in Cloaco over the week-end. Mr. and Mrs. Woodrow Speer and daughter, Ann, and Mrs. W. Speer of Carbon visited Mr. and Mrs. G. T. Smith Wednesday night.

Green Shirt. Every one is invited to come.

Bonnie Fay Highsmith visited Florence Rogers Sunday. Miss Lee Fonville and Davy Lee Abies and Mrs. John Fonville motored to Ranger on business Monday.

Mr. and Mrs. Troy Milton visited Mr. and Mrs. B. A. Highsmith Sunday.

Hubert Rainey of Desdemona visited E. H. Redwine Saturday.

SUNDAY SCHOOL LESSON

PICTURES OF SILVER

By BEULAH K. HICKS

THE CHRISTIAN AT PRAYER

Matt. 6:5-15; Eph. 3:14-21

"O God, thou art my God; early will I seek thee;" are the words of David in the Sixty-third Psalm where he portrays his soul's hunger and thirst to see the power and glory of the Lord.

This lesson of prayer was spoken as a part of the Sermon on the Mount in mid-summer of A. D. 28. Paul wrote the Epistle to the Ephesians during the two years, A. D. 61-62.

Christ took the public-minded man as an example, calling him a hypocrite. Such a one through beautiful prayers in public places, especially on the street corners where they could be seen from four different ways; yet they were of heart wiles. Their piety was for the eyes of men who only looked on outward appearances. God looks upon the heart.

Christ gave this great rule and promise to his disciples: "But thou, when thou prayest, enter thy closet and when thou hast shut thy door, pray to thy father which is in secret; and thy father which seeth in secret shall reward thee openly" (Matt. 6:6).

Prayer can be offered anywhere at any time. But in studying the prayer life of all great, outstanding Christians who have had a beautiful and fruitful prayer life, we find that they had their special time and place to shut the world out and commune with the Father alone. Christ often retired to quiet places where he might pray alone. Great afflictions where people have been shut in upon their beds have proven great blessings. In their loneliness they find that they are never alone in secret prayer. Christ is ever nearer and dearer to them in his sustaining power.

In this model prayer which Christ gives us, we first petition as a child, "Our Father," not my father, but our father of all rich and poor, strong and weak. After we have shown our dependence upon Him we worship. "Hallowed be thy name." That is to be kept holy and if not kept so our prayers are of no avail. "Thy kingdom come"—there must be a longing for greater love and usefulness which would express the spirit, causing Christ's will to be done on earth as it is in heaven.

We, as children, are to ask for our daily needs, not luxuries. "Give us this day our daily bread." We cannot ask forgiveness if we cannot forgive our fellowman. Christ cannot abide where there is hatred or scorn. "And lead us not into temptation." God does not tempt us. Christ was tempted by the devil and knew how frail human nature was. He taught us though tempted, we had a way of escape. God is faithful, who will not

leave us. In John 17:26, Christ prays for a oneness with the Father, himself, and all of his disciples through love and truth. "Thy word is truth."

And I have declared unto them thy name, and will declare it: the love where with thou hast loved me may be in them, and I in them (John 17:26).

So in this mad scramble of life seeking power and happiness, let the Christian stop, find a quiet place away from the rush of life and go to the Great Physician for an examination. Great stress is put upon people today to visit the dentist and physician to keep their bodies fit and able to stand this strenuous life. How much more necessary is it to keep the soul fit for much of the well being of the physical body depends upon the health of the soul.

So in humbleness and quietness seek the Great Physician through prayer and great beauty in usefulness and visions of service will revive the soul to a greater and newer radiance that will glorify God, the Father; God, the Son, and God, the Holy Spirit. Continuing Instant in Prayer. Romans 12:12. Golden Text.

sufter you to be tempted above that ye are able; but will with the temptation make also the way of escape, that ye may be able to endure it (I Cor. 10:13).

Public prayer is not ignored. It has its place if it is true and many previous promises are given as its reward. But this lesson deals with the development of the Christian's spiritual life through prayer. It is true that our Father knows all of our needs even better than we. But as a child comes with its joys and griefs to its father so our Father expects us to come to Him daily not with grief alone but in all things. Man cannot depend upon himself even though he be the most brilliant man of the world. For Christ has all power in heaven and earth.

In the Sixty-third Psalm we find that a seeking after God must be found in the heart. The prayer of Moses in Ex. 30:30-35 is an example of unselfishness. He asked to be blotted out of God's book if his people could not be forgiven.

Paul's prayer in Ephesians 3:14-21 is a beautiful prayer. He first expresses his humbleness and God's glory; requesting inner strength by the indwelling of the Holy Spirit. Paul knew if there was an abiding in Christ, that the Spirit would bring all the teachings to their hearts and open the mind to great visions of righteousness.

According to the depth the life was opened through study of the Word and prayer, would be the reward. He concludes the prayer with, "Unto him be glory in the church by Christ Jesus throughout all ages, world without end. Amen."

In John 17:17-26, Christ prays for a oneness with the Father, himself, and all of his disciples through love and truth. "Thy word is truth."

And I have declared unto them thy name, and will declare it: the love where with thou hast loved me may be in them, and I in them (John 17:26).

So in this mad scramble of life seeking power and happiness, let the Christian stop, find a quiet place away from the rush of life and go to the Great Physician for an examination. Great stress is put upon people today to visit the dentist and physician to keep their bodies fit and able to stand this strenuous life. How much more necessary is it to keep the soul fit for much of the well being of the physical body depends upon the health of the soul.

So in humbleness and quietness seek the Great Physician through prayer and great beauty in usefulness and visions of service will revive the soul to a greater and newer radiance that will glorify God, the Father; God, the Son, and God, the Holy Spirit. Continuing Instant in Prayer. Romans 12:12. Golden Text.

And I have declared unto them thy name, and will declare it: the love where with thou hast loved me may be in them, and I in them (John 17:26).

Are YOU HAPPY After Meals

Or Do Gas on Stomach and Sour Stomach make you Miserable?

Too much food, or the wrong kind of food, too much smoking, too much beer, make your body over-acid. Then you have distress after eating, gas on stomach, heartburn, sour stomach.

Alka-Seltzer relieves these troubles promptly, effectively, harmlessly.

Use Alka-Seltzer for Headache, Colds, Fatigue, "Morning After Feeling," Muscular, Sciatic and Rheumatic Pains.

Alka-Seltzer makes a sparkling alkaline drink. As it contains an analgesic (Acetyl-Salicylate) it first relieves the pain of everyday ailments and then by restoring the alkaline balance corrects the cause when due to excess acid.

Alka-Seltzer tastes like carbonated mineral spring water—works like magic. Contains no dangerous drugs... does not depress the heart... is not laxative.

Get a drink at your Drug Store Soda Fountain. Keep a package in your home medicine cabinet.

HELPS WHOLE FAMILIES

Attention, MOTHERS, to what every doctor knows to be a fact, and what they say to avoid

If you have children who are occasionally constipated, you should know this.

If you are "not yourself" because of a constipated condition, don't blame it on your blood condition, or your age, but first try this treatment that safely relieves sluggishness in children or adults.

The Proper Treatment

You can't safely relieve the bowels with any medicine if you can't regulate the dose. To regulate dosage, you should have a liquid laxative. When necessary to repeat, you can gradually reduce the dose. And that is the secret of safe relief from a sluggish, constipated condition at any age.

A liquid laxative can be measured. Its action can be thus controlled. If properly made, of such natural laxative elements as senna and cascara, it forms no habit—even in the youngest child. And such a laxative will help the bowels to help themselves.

Dr. Caldwell's Syrup Pepsin is an approved liquid laxative containing

BE CAREFUL

- If any laxative is dispetic (makes you thirsty).
- If it affects your appetite.
- If you need more today than the first time you took it.
- If it drains the system (by too watery a movement).
- If a bad "burning" is felt.
- If there is severe griping.

Try a WANTED-AD!

WAYLAND

**RANGER WILL
HAVE ANNUAL
SHOOT SUNDAY**

The American Legion Rifle club of Ranger will be host to an inter-city shoot next Sunday, Oct. 21, it has been announced by Jack Roach, secretary of the club. A large crowd of shooters from Eastland, Breckenridge, Abilene, and other nearby towns, with possibly some from Fort Worth and Dallas participating. Prizes will be cash, with an entrance fee charged for each event.

The event scheduled to begin at 10 o'clock Sunday morning. The complete program for the annual fall tournament:

Small Bore Section
Individual Short Range Match—Course of fire, 20 shot at 50 yards; arm, small bore rifle; sights, metallic; entry fee, 50 cents; prizes per schedule.

Kickers Handicap Match
Course of fire, 20 shots at 100 yards; arm, small bore rifle; sights, metallic; entry fee 50 cents; prizes, per schedule.

Competitors must name their handicap before firing and at time of entry. This figure will be added to their total score; in case the total score is over 100 then two points will be deducted for each point over the 100. Example: If competitor takes 10 points as his handicap and his record score totals 96, the 10 points will be added to the 96 making total score 106; 2 points for each point over 100 will then be deducted from 10 or total of 12 points which will leave actual score of 94; if competitor takes 10 for handicap and his record score totals 88 the 10 points will be added to the 88 making total score 98.

Big Bore Section
Individual 200-Yard Match—

GOOSE-FLESH IS DUCK SOUP FOR HANES UNDERWEAR

Course of fire, 10 shots at 200 yards arm, any rifle cal. 30.06 or larger; sights, metallic; ammunition, any; position, prone; entry fee, \$1.00; prizes, per schedule.

Running Deer Match—Course of fire, 10 shots at 200 yards; arm, any rifle cal. 30.06 or larger; sights, metallic; ammunition, any; position, offhand (standing); entry fee, \$1.00; prizes, per schedule.

Pistol Matches
Twenty-five Yard Slow Fire Pistol Match—Course of fire, two scores of five shots each, slow fire, one minute per shot; arm, any pistol or revolver; entry fee, 50 cents; prizes, per schedule.

Twenty-five Yard Novelty Pistol Match—Course of fire, 10 shots, slow fire, one minute per shot; arm, any pistol or revolver; entry fee, 50 cents; prizes, per schedule.

Cash prizes awarded as follows:
Class A—First 30 per cent of total entry fee.
Class B—First 30 per cent of total entry fee.
Class C—First 20 per cent of total entry fee.

Competitors in all matches will be classified after the firing has been completed for each match. Classifications to be based on the score of the competitor and will consist of three classifications in each match—A, B and C, respectively.

For example, if there were 15 entries in a match this would be divided into three classes after the match had been fired and targets score; the first five high scores would be in class A, the second five high scores in class B and the third five high scores in class C. The high score of the match would be first in class A, the sixth high score first in class B and the 11th high score first in class C, etc.

This method allows the tyros and who may be out of practice an opportunity to win cash prizes along with the others. In the Kickers handicap and the running deer match the tyro and anyone will have an even chance with the experts to win first prize.

AND we mean hot duck soup! Winter winds have no more nip nor zip than a zephyr—when you get yourself buttoned in HANES! Mister, you'll stay thawed-out all Winter. This is the Heavyweight Champion!

Poke your hand inside a HANES and get the feel of that warm, fleecy fabric. Roughen it up and put it smooth—even the seams are soft! Nothing itches and nothing hitches. CROSS ROADS
Special Correspondent

The Farmers of this community are still very busy taking up their peanuts and threshing. However, the cloudy weather is causing some uneasiness for fear of damage to their hay and peanuts.

Tim Woods, who lives near Strawn, was seen in this community Saturday looking after his cattle.

Mrs. Griffith and daughter, Cora Lee, of Alameda, attended Sunday school here Sunday. We hope they will attend regularly.

Mr. and Mrs. Jim Blackwell, Mr. and Mrs. Earl Blackwell and Mr. and Mrs. Willis Blackwell of this community attended Sunday school at the Church of Christ at Cheaney.

Mr. and Mrs. E. M. Campbell visited in the home of Carl Foreman Sunday afternoon.

Jesse Minter has returned home after a visit at Ballinger with his relatives and friends.

W. F. Barton was in this community Saturday on business.

Raymond Parks and his friend,

STAFF
Special Correspondent

Farmers of this section of the country are about through gathering their crops. Some have been turning the soil, making preparations for another crop, and some are sowing grain.

Mrs. Pearl Bottrland, Mr. and Mrs. M. O. Hazard and Maurice Hazard were guests of Mr. and Mrs. Berry Elliott of Olden last Sunday afternoon.

Rev. H. D. Blair of Cisco is conducting a revival meeting at the Baptist church. Rev. Blair is preaching some fine sermons, and those that fail to hear him are really missing something. Everyone is invited to attend these services and bring someone with them.

This locality is very much in need of rain. Grass and stock water are about a thing of the past. Some are out of drinking water and are hauling water.

Allen Crosby was a business visitor in Eastland last Monday. Mr. and Mrs. O. T. Hazard were Eastland visitors Tuesday.

Mrs. Holt of Breckenridge was a dinner guest of her parents, Mr. and Mrs. O. L. Pollard, last Sunday.

Mr. and Mrs. Robert Sneed, accompanied by Mrs. Bailey Stark, drove over to DeLeon Friday and attended the ball game between Hapilton and DeLeon.
Mr. and Mrs. John Perry of Gorman were guests of Mr. and Mrs. T. E. Sterling Sunday.
Mr. and Mrs. Reuben Ross and two children of Gorman came over Sunday and visited old friends.
Mr. and Mrs. T. E. Sterling and Mrs. M. E. Williams visited at Ranger Wednesday afternoon.
Rev. and Mrs. W. M. Ford drove up to Ranger Wednesday afternoon. They were accompanied by Mrs. S. E. Browning, Miss Capitola Browning and Mrs. Walter Henry.
Rev. and Mrs. Z. C. Chambliss are spending this week at Best, where he is conducting a revival at the Baptist church.
Mrs. Annie Daniel returned Wednesday from Eastland where she had visited for a week with her relatives, Mr. and Mrs. Bill Seed. She went up there and also re-

Henslee, called the meeting to order and after a short business meeting Mrs. Gifford Acree led the program, which was a Federation Day program. The first number was "Club Women in a National Crisis," Mrs. Mattie Henry. Next on program was Mrs. S. E. Snodgrass, who gave "History of the Texas Federation." The third number was from the regular course of study, "The Art of Living," and was a demonstration of "Rug-Making" by Mrs. Hager, who recently came to make her home with her daughter, Mrs. R. J. Krapf. She explained the making of hooked rugs and crocheted rugs and exhibited one of each kind. She then let all the members who wished to do so, make a few stitches on a rug she was making. This closed the program, but the members gathered around the piano and sang a number of familiar songs with Mrs. A. C. Robert, accompanist. The hostesses then served a tempting refreshment plate of congealed vegetable salad, cheese wafers, devil's food cake and iced tea and mints. Those present were Mrs. T. L. Acree and Mrs. Hager, who were guests, and the following members: Meses. A. B. Henslee, A. C. Robert, W. E. Barron, Mattie Henry, John Mendenhall, Arnold Anderson, C. W. Maltby, Gifford Acree, W. C. Bedford, S. E. Snodgrass, Roy Ashburn, Clarence Ragland, Plummer Ashburn, and A. C. Moore.
Mrs. W. E. Barron attended a meeting of the Brownwood district Methodist Missionary society at May, on Thursday. She was accompanied as far as Carbon by Mrs. Z. L. Howell and Miss Lois Howell, who spent the day there with friends.
Saturday afternoon Mrs. R. J. Krapf, while driving down Main street, had a narrow escape when the windshield of her car was smashed by a pipe extending from the trailer of a truck.
We are sorry to report that T. J. (Uncle Tom) Henry continues to be quite ill. His son, Dolph Henry, and wife, of Littlefield; his daughter, Mrs. Pierce Carruth from near Littlefield, and another daughter, Mrs. Charlie Daniel of Odell, spent Sunday and Monday with him. His many friends hope he may soon improve.
On Tuesday night of last week 14 from here attended the banquet and rally at the Methodist church at Ranger. Those who went from here were Rev. and Mrs. Z. L. Howell, Whit Richards, Arnold Anderson, W. H. Whitworth, Mr. and Mrs. W. E. Barron, Mrs. R. K. Gintant, Mrs. Charles Lee, Mrs. S. E. Snodgrass, Mrs. I. N. Williams,

Resumption Cattle Program Concluded Thursday Unlikely

No resumption of the cattle buying program in Eastland county which closed Thursday afternoon is expected, it was stated at the county agent's office.
Workers Thursday bought the few remaining on the 1,000 head order authorized last week. Cattle buying was transacted at shipping pens in various towns in the county on the final week.
Of the 1,000 head bought the final week, it is estimated that the number was purchased from 130 owners. Listing of the cattle continued until Thursday although the program ended upon that date. Between 5,000 and 6,000 head of cattle were untraced through the number was listed, clerks in the cattle buying headquarters state.
Over 7,600 head of cattle were bought during the program, it is estimated.
Dallas Man Wins In Parking Case
DALLAS. — Hyman Zelazny, Dallas, believes that where there's a law, there's a way.
Arrested for overparking, Zelazny, remembering the law which presumes a man innocent until he is proven guilty, pleaded not guilty and refused to testify.
The officer who had ordered his car impounded was unable to testify he had seen Zelazny park the car.
"Case dismissed," said the judge.
Judge Landis fined an umpire in the world series for use of improper language. If you ask the fans, the ump's ought to be fined after every game.

Smuggling Beans A New Profession

EL PASO, Texas, Oct. 15.—Uncle Sam has gone into a new business since July 1 when border smugglers turned their attention from contraband liquor to the lovely bean.
Customs patrol inspectors have seized 32,530 pounds of pintos, valued at \$1,969. The beans are auctioned to the highest bidder, usually bringing near market prices.
Smugglers buy the pintos in Juarez at two to three cents a pound and obtain six cents in El Paso.

Gobs Give Up Shore Leave to Work In 'Here Comes Navy'

Shore leave to a sailor in the navy is almost as valuable as a legacy from a deceased relative is to a landman.

But when James Cagney, Pat O'Brien and the Warner Bros. troupe making "Here Comes the Navy," which comes to the Arcadia theatre on Saturday and Sunday, arrived on the U. S. S. Arizona, with Lloyd Bacon as director, shore leave ceased to be the attraction for Uncle Sam's "gobs" that it is on most occasions.

They could get liberty to go ashore almost any time—here was their chance to see a real motion picture being made—the first chance that most of them had ever had, and perhaps the last chance they might ever have.

Even more exciting was the prospect of being chosen to help make up the lucky group of sailors who would play "extra" with Jimmy Cagney and Pat O'Brien in the scenes on the deck of the big battlewagon.

Most of the high-seas action of "Here Comes the Navy" takes place on the U. S. S. Arizona, but the entire United States battle fleet takes part in several stirring sequences of the production, including battleships, battle cruisers, submarines, destroyers and airplane carriers.

A Chance Remark Reopens Mystery In 'Dangerous Corner'

Big names—Virginia Bruce, Conrad Nagel, Melvyn Douglas and Ian Keith, with Erin O'Brien-Moore, Henry Wadsworth and Betty Furness—are marquee stop-lights for passersby when RKO-Radio's "Dangerous Corner" takes over the screen, playing Friday at the Arcadia.

In this "Dangerous Corner" the cars that come careening along or moving at a slow, tantalizing pace are human thoughts, and the clash is when other human beings demand the truth and prudence says "let sleeping dogs lie."

New Census Rule In Effect In Texas

AUSTIN.—A new ruling by the Federal Bureau of Census has just been put into effect in Texas and will be of interest to every community in the state, according to Dr. W. A. Davis, registrar, state Department of Health.

This new ruling is to the effect that the death of any person shall be credited to that person's legal residence. In the past the place where one died was charged with the death. New death rates for all towns and counties will show the true condition.

The towns in Texas that have a reputation as health centers have been unduly credited with more deaths than have occurred among their citizens. Now, whenever a health-seeker dies away from home, the place of his residence will be charged with the death.

The same holds true in the compiling of records for counties. In the past many towns had a death rate three or four times as high as the county. This was due to a variety of causes—principally, patients from the rural areas coming to town for medical and hospitalization and dying while there and giving their addresses as the town without specifying that their home is outside the city limits. The State Department of Health requests every one to give exact information for all births and death records.

Clyde Beatty Star Of 'Lost Jungle' Reveals His Trick

Clyde Beatty, world famous animal trainer, who is currently appearing in the Mascot serial, "The Lost Jungle," playing at the Columbia theatre Saturday, says that there is no such trick as putting your head in a lion's or tiger's mouth. A simple device, that of putting your face in the lion's mouth, creates the illusion and renders the stunt perfectly safe. The trainer catches the upper and lower jaws of the animal. His right hand rests securely on the

BLACK - DRAUGHT For CONSTIPATION

"I am 71 years old and have used Theiford's Black-Draught about forty years," writes Mr. W. J. Vanover, of Rome, Ky. "We are never without it. I take it as a purgative when I am bilious, dizzy and have swimming in my head. Black-Draught relieves this, and helps me in many ways.... Keep a package of this old, reliable, purely vegetable laxative in your home, and take it for prompt relief at the first sign of constipation."

Three Competent Barbers
LOVE BROS. BARBER SHOP

Two Gabbing Gobs

There's ten days in the brig if they're caught talking, but James Cagney and Frank McHugh risk anything for a laugh. They join the navy for Warner's latest gob-fest, "Here Comes the Navy," playing at the Arcadia Saturday and Sunday.

No Wonder Rome Fell for Them!

Eddie Cantor in "Roman Scandals," which plays a return engagement at the Columbia Sunday.

upper jaw, and he holds the lower jaw with his left hand; and, when he feels the slightest pressure, as though the animal had any ideas of his own about closing his jaws, the trainer quickly can withdraw his face.

One Film a Year Enough For Cantor

Eddie Cantor is the only star in pictures who consistently and successfully follows the practice of making one picture a year. "Roman Scandals" showing at the Columbia theatre Sunday, is his fourth annual screen musical comedy for Samuel Goldwyn. The other three were "The Kid From Spain," "Palmy Days" and "Whoopee."

Four years ago, Eddie announced that he was through with the stage. Taking up a picture career, he wanted to concentrate. That meant long and careful preparation for his single yearly film. And the spare energy it left him was valuable; he needed time for his literary, radio and philanthropic interests.

Fun Rivals Romance In New Film With Gaynor and Ayres

Monday and Tuesday the Arcadia theatre shows Fox Film's "Servants' Entrance," which brings again to the silver screen the sweethearts of "State Fair," Janet Gaynor and Lew Ayres. The two young stars are again cast opposite each other as screen lovers in an amusing and laugh-provoking comedy-drama in a modern setting.

The picture marks a departure from Miss Gaynor's usual type of role. Previously, she has always played straight romantic parts. But in "Servants' Entrance," she blossoms forth as an able comedienne and she reaches the heights of amusement in a very funny sequence with Ned Sparks, playing the part of a sour-dispositioned cartoonist, in which she flannily ends up by scoring a perfect bullseye with a pie which she has tried to serve Sparks for dinner.

DISAPPEARED IN OLD WELL. ROCKLAND, Me.—Fortunately for Maurice Derry, a companion accompanied him on a walk through his rock garden. Derry suddenly disappeared into the ground when an unknown well, 15 feet deep, caved in. He was rescued by his companion.

GORDON

Peace Officers to Have Short Course At A&M Oct. 22-25

Chief of Police Jim Ingram of Ranger, who is of the advisory committee of the short course for peace officers, to be held at A. & M. College, Oct. 22, 23, 24 and 25, has received a complete program of the course.

With Chief Ingram on the advisory committee are L. G. Phares, chief of the state highway patrol; R. D. Thorpe, chief of police of Austin and president of the City Marshalls and Chiefs of Police Union of Texas; H. B. Lewis, chief of police of Fort Worth, and Frank Mills, sheriff of Coleman county. A. & M. College members of the board are E. W. Steel, professor of municipal and sanitary engineering; E. L. Williams, professor of industrial education and H. R. Brayton, professor of inorganic chemistry.

Many topics which will be instructive to the peace officers attending will be taken up at the sessions of the school, with many talks and practical demonstrations in latest police tactics being presented by some of the leading peace officers from over the state, with talks by some of the leading district attorneys.

Teachers Association Name Their Officers

H. S. Fatheree of Abilene was re-elected president of the Oil Belt Foreign Language Teachers Association at Abilene Saturday. M. M. Ballard of Hardin-Simmons University, Abilene, succeeded H. L. Schug of Abilene Christian College as vice president and Mrs. Frank Coalson of Sweetwater was named secretary, succeeding Miss Myrtle Franham of Abilene High School. Miss Beth Myatt of McMurry college, Abilene, was elected publicity chairman.

Mineral Wells was selected as the site for the spring meeting which will be in conjunction with the general convention of the Oil Belt Teachers association.

Teachers from the immediate district who registered were: Mrs. A. H. Gattin, Abilene; Jennie Mae Hiett, Cisco; Maurine Ivison, Baird; Howard L. Schug, Abilene; Mrs. E. M. Randolph, M. V. Showalter, Myrtle Franham, Abilene; Dora Wesley, Ranger; Mrs. Rupert N. Richardson, Sue B. Mann, Mrs. Homer Simmons, Frank Suentes, J. W. Treat, Mrs. Clarence E. Bailey, Mrs. Helen Dow Baker, Gladys K. Lodge, Mrs. L. E. North, Beth Mett, Mrs. O. B. Hicks, all of Abilene.

Beer Election Is Ordered by Court

An election has been ordered by the commissioners' court for a vote for prohibition or permission of sale of 3.2 beer in Justice Precinct 8, Desdemona and Alameda, Oct. 20.

Beer proponents numbering 102 had petitioned the court for the vote. The commissioners having judged the 102 were duly qualified voters ordered the following printed on the official ballot: "For the sale of beer containing not more than three and two-tenths per centum (3.2) of alcohol by weight," and "Against the sale of beer containing not more than three and two-tenths per centum (3.2) alcohol by weight."

Desdemona Man Files Motion for New Trial

Motion for new trial has been filed by J. F. Stillwater of Desdemona and others, who last week were rendered to pay \$2,200 to Edgar Garrett for alleged injuries suffered by Edgar Garrett at a plant in Desdemona.

The case titled, Edgar Garrett vs. J. F. Stillwater et al, was tried three days in the 88th district court. Plaintiff and defendant reside in Desdemona and were represented by R. N. Grisham and Frank Judkins of Eastland, respectively.

CURFEW ORDINANCE SOUGHT

CANTON, O.—Passage of a curfew ordinance, directed primarily at children, but carrying an injunction to parents, has been proposed to City Council by Councilman William Farrell. Farrell said it was costing \$1,000 to \$2,000 annually for this city of 105,000 to repair playground equipment and buildings damaged by pranksters.

HUGE POTATO GROWN
FOXBOBO, Mass. — A potato dug by J. Montgomery White measured 14 inches around the ends and 1 1/2 inches across the center.

ANALYSIS OF RANGER WATER SHOWS IT IS STILL GOOD

Because of persistent rumors which have been heard around Ranger concerning the condition of the city water and the water supply on hand in Hagaman lake, the city commission sent two samples of water to the state department of health at Austin for analysis, in order to have a thorough check on the other reports received when the water has been analyzed.

One sample sent out was of raw water, as taken directly from the lake, and the other was of treated water, taken from the water supply system of the city.

After the analysis was completed the report was sent back to the city secretary from the state chemist, stating that both samples of water were free from bacteria. Both cards, containing the reports, were stamped "Good. No contamination."

These two cards, which show the report on the condition of the water, are in the office of the city secretary, and the public is invited to stop by the office and see them at any time.

A check on the amount of water being used at this time shows that less water is now being consumed than during the summer months, and based on the present consumption the water supply in the lake is enough to last until April 1, 1935, Roy Jameson, city secretary, stated today, even if there was

Carl Jansing, New Montgomery Ward Manager On Job

Carl Jansing from Huntville, Ala., arrived in Ranger late Saturday and Monday morning took over his new duties as manager of the Montgomery Ward local store in Ranger. Mrs. Jansing and the infant son of the new store manager accompanied Mr. Jansing on the overland trip to Ranger and will establish their home as soon as possible. At present they are staying in a local hotel until they can secure a suitable house.

Mr. Jansing relieved R. W. Fesmire, who has been manager of the local Ward store for the past two years. Mr. Fesmire was transferred to Sherman, where he reported Monday morning to take over his duties as manager of the store.

Mr. Jansing, when interviewed today, said that he had been in Fort Worth for a few days some two years ago, and that his short stay there and his reception in Ranger had thoroughly convinced him that he was going to like Texas, and especially Ranger.

"I have known several people in Huntville," Mr. Jansing said, "who had lived in Texas. They were unanimous in their opinion that I would like it here right from the start, and that the longer I remained the better I would like it. Mr. Fesmire also assured me that I would find Ranger a wonderful place to live, because the people are so friendly, and said that should I be transferred I would likely hate to leave just as badly as he did."

Before leaving for Sherman Mr. Fesmire said that he never hated to leave a town as badly as he hated to leave Ranger, but that he was glad to get an opportunity of advancement.

T. H. Chaffin, an employe of the local store, is expecting to leave Friday for Corpus Christi, which will be his headquarters for a time, at least, as he has been promoted to the position of merchandise checker over a large district.

Work Is In Progress On Oil Well Drilling

Work is in progress on the well of Alexander A. Walton of Eastland T. L. Brown well No. 1 on the new Andrew Kent 113 acre survey in Eastland county. Operator intends to drill to 2,800 feet. The well is located 150 feet west of the east line of the Brown lease and 300 feet from the north line.

Police School Will Be Held at A.&M.

COLLEGE STATION, Tex.—A four-day short course in police science, methods and administration will be held here Oct. 22 to 25, sponsored by Texas A. & M. College in cooperation with the League of Texas Municipalities. Subjects have been designed to provide training for policemen and will be conducted by leading police experts of the state.

Natural Resources Of State to Attract Centennial Visitors

DALLAS, Tex.—The tremendous natural resources of Texas, generally, even in sections other than those immediately adjacent to such points as San Antonio, Houston, Galveston, Brenham, Nacogdoches, Huntville and Dallas, which are planning co-ordinated celebrations of the State's centennial of independence will attract attention of visitors to those events in 1936. Texans themselves realize that a hundred years has given much to the understanding of men, relatives to the visible and the unexplored natural resources of this or any other State.

About 1850, a party of some eight or ten United States soldiers became lost on the high plains above the cap rock in West Texas and died of thirst at a point Southwest of Lubbock. The location has been designated as being on the New Mexico-Texas boundary line, not far from Brownfield.

At the spot where these soldiers are reported to have died—in a sandy and shinnery-spotted region—they could have excavated with their own hands for no more than ten feet into the sand to tap an inexhaustible supply of pure artesian water.

Although the Panhandle-Plains of Texas is almost completely devoid of native trees and few streams are to be found throughout that area, which is larger than the State of Pennsylvania, there is hardly a section of the region where water cannot be found from eight to three and four hundred feet below the surface.

Breck, Cisco Are Oil Belt Leaders

Breckenridge and Cisco at the present are leading all Oil Belt grid championship contenders with a percentage of 1000. Eastland in the conference standing ranks third and Brownwood fourth.

Al Capone Loses His Last Appeal

WASHINGTON, Oct. 15.—Al Capone today lost probably his last plea for liberty from the federal penitentiary, where he is serving 10 years of the 11 years of sentence imposed on him in Chicago for failing to pay his income taxes.

The supreme court, to which the premier of Chicago gangster carried his fight for release, turned a deaf ear to his habeas corpus fight which was begun while Capone was still in Atlanta penitentiary and which he lost in two lower courts.

Smuggling Beans A New Profession

EL PASO, Texas, Oct. 15.—Uncle Sam has gone into a new business since July 1 when border smugglers turned their attention from contraband liquor to the lowly bean.

Customs patrol inspectors have seized 32,830 pounds of pinto beans, valued at \$1,969. The beans are auctioned to the highest bidder, usually bringing near market prices.

Smugglers buy the pinto beans in Juarez at two to three cents a pound and obtain six cents in El Paso.

Youngest Student Registered at Tech

LUBBOCK, Texas.—Jim Tom Casey, 14, holds the record as the youngest student ever to enter Texas Technological college here.

Casey, a textile major, completed his preparatory work in the Hermleigh schools.

He is only four feet 11 inches tall and weighs 95 pounds. His shoe size is 6 1/2, collar 13, and suit size 28. He said he likes athletics, but enjoys "going to school more."

Dallas Man Wins In Parking Case

DALLAS.—Hyman Zelazny, Dallas, believes that where there's a law, there's a way.

Arrested for overparking, Zelazny, remembering the law which presumes a man innocent until he is proven guilty, pleaded not guilty and refused to testify.

PLANS MADE FOR A LOAN ASSOCIATION

A meeting of the directors of the Chamber of Commerce and a number of business men of the town met in the office of the Chamber of Commerce Monday night to make plans for the permanent organization of the First Federal Savings and Loan Association of Ranger, for which a federal charter has been granted.

A similar meeting is to be held Friday night in the colonial ballroom of the Gholson hotel, at which time Sam Strauss, a federal organizer, will be present and will aid with the formation of a permanent organization and will present the charter for Ranger.

The first committee, composed of A. N. Larson, C. E. May, Calvin Brown, R. S. Balch, Felton Brasher and J. E. Meroney is to contact all who have signed up for stock in the organization and to collect the down payment on the stock before Friday night.

The other committee, composed of Hall Walker, R. F. Holloway and John Hasen is to call on prospects to try to secure additional stockholders.

The meeting Friday night is for all stockholders, or all who have signed up to purchase stock on the installment plan.

Those present at the meeting Friday night were Dr. P. M. Kykendall, who presided; Walter Harwell, E. S. Balch, R. F. Holloway, J. C. Smith, W. D. Conway, D. Joseph, John Hasen, C. E. May, A. J. Ratliff, Felton Brasher, E. A. Ringold, W. C. Hickey, Hall Walker, H. P. Earnest, A. N. Larson, Dr. H. A. Logsdon, J. E. Meroney, Saule Perstein, and L. H. Flewelling.

County Tax Rate Is Set at \$1.30

Eastland county's tax rate on the 1900 valuation has been boosted from the \$1.20 mark of last year to \$1.30 for the coming year. Valuations have taken a drop from approximately \$24,500,000 to \$22,000,000, Tax Assessor Tom Tom Haley said Tuesday.

Removal by big oil companies of storage oil from the county is one of the reasons of the drop in valuations and the consequent rise in the tax rate, Haley said.

Co-Eds Have Trouble Getting Lost at The University of Texas

AUSTIN.—University of Texas' building program has developed so rapidly that a lot of students are all mixed up. One freshman co-ed applied for a vaccination certificate at a boys' dormitory. Another co-ed confronted a pajama-clad young man in a corridor early one morning, and demanded to know if her English class met there. She was in another boys' dormitory.

MAVERICKS PLAY BULLDOGS IN RANGER ON NEXT FRIDAY

The Ranger Bulldogs will play their first conference game of the season Friday afternoon at Lillard field, while the Mavericks will play their second start in two weeks with the two teams meet.

The Bulldogs have had four hard practice games in a row, and have come out of them with only minor injuries; and the team will be practically intact when it takes the field Friday, according to present indications.

The Mavericks may be more or less crippled, as rumors still have it that John Garrison, sparkplug of the Eastland team, may still be out with an injured shoulder.

The Bulldogs took on the McMurry college freshmen in their first start of the season and the game ended in a 0 to 0 tie. Next they encountered the Lubbock Westerners at Lubbock, being defeated by a score of 27 to 14. The following week they played the Central High School Panthers of Fort Worth at LaGrave field, Fort Worth, and again were defeated, this time by a score of 26 to 19. Their last game was at San Angelo, where they won by a score of 19 to 0.

The Mavericks have played four games to date, winning two and losing two. They defeated the San Angelo Bobcats at San Angelo by a score of 12 to 6 in their first start of the season. The following week they played the Stephenville Yellow Jackets at Stephenville, and were defeated by a score of 26 to 19. However, in this game it is rumored that the Yellow

Cupid Strikes Out Schoolboy Rowe

Schoolboy Rowe's big bat whiffed the air five times against Cardinal pitchers in the world series, but his biggest strikeout came when he faced 'D' Dan'l Cupid. The kid with his bow and arrow fanned Rowe easily and now the Schoolboy is a hubby, having married his childhood sweetheart, Edna Mary Skinner. Here are the newlyweds in a Detroit hotel just after the ceremony.

Doctor Says Whisky Or Castor Oil Not A Cure For Colds

HOUSTON, Tex.—Use of whisky as a cure for colds is just an alibi and excuse for someone to get a drink. Dr. John Lovett Morse Harvard Medical School professor, asserted in a talk here. "Neither whisky nor castoreo oil is going to do anybody's cold any good," said Dr. Morse, who is attending the Post Graduate Medical School of South Texas. "The two never had any power over colds and probably never will."

"There is no cure for a cold," he declared. "Use of whisky to cure a cold is just a plain alibi and excuse to get a drink."

"There's only one thing to be done when you get a cold and that is to go to bed."

Dr. Morse said there ought to be a law or something to make people go to bed with their colds and particularly send children to bed when they have the common affliction.

"An employer would save himself money if he would send his employees home to bed when they come to work with a cold," he added. "Colds are highly contagious and the chances of infecting others and reducing efficiency are very great."

Dr. Morse said the medical world still doesn't know anything about colds except that they are contagious and cannot be cured by medicine and whisky. Exposure as a cause of colds is only a secondary factor, he said.

He urged that parents keep children in bed at least two or three days with colds and then call a doctor. "Colds are one of the greatest dangers of babyhood" he asserted.

BABY GIRL

PAINESVILLE, O.—Nancy, 14-month-old daughter of Mr. and Mrs. Claude Bushnell, died after drinking kerosene oil accidentally.

OFFICERS OF MORRO CASTLE ARE BLAMED

NEW YORK, Oct. 16.—The inquiry board of the U. S. Steamboat Inspection Service, which conducted hearings into the fire on the Morro Castle today ordered acting Captain William F. Warm and four of his subordinates to show cause Oct. 29 why their licenses should not be suspended or revoked.

The five officers of the giant luxury liner which was beached off Asbury Park, N. J., after 154 persons drowned or burned to death, were criticized in the report.

Although the report did not assign a cause or fix responsibility because its powers extended only to determining if the officers were negligent, it took the stand that had the vessel been stopped and the SOS sent earlier the loss of life would not have been great.

In this connection it criticized the conduct of the crew, who, it found, after lowering themselves into the sea in lifeboats, failed to heed the appeals of passengers on the stern.

Five specific allegations of negligence were leveled against acting Captain Warm, including: delaying the COC, failing to stop the vessel, failing to have the fire hose connected and ready for use, neglecting to order fire screens doors closed, and failing to have the crew divided into equal watches.

Valley Ghost City to Stage Comeback

SAM FORDYCE, Tex.—This lower Rio Grande Valley "ghost city" may stage a comeback.

Sam Fordyce was the concentration point, as well as the "jumping off place" for thousands of American soldiers sent here in 1916 to conquer numerous bandit gangs then infesting one of Texas' last frontiers.

Sam Fordyce is slightly less than two miles east of the Wood discovery well, and spurs and siding used years ago by troop trains may once more find commercial use.

The town was founded in 1905, when the Missouri Pacific railroad then the St. Louis, Brownsville and Mexico, built its river division from Hargraves to Western Hidalgo county.

Sam Fordyce was on the western terminus of the road and was on the map long before the prosperous communities of Mission, McAllen, Donna and other Valley points developed.

The town seemed to sink hopelessly into the realm of "ghost" cities only a few months ago when the Interstate Commerce Commission granted the Missouri Pacific permission to close the depot because of lack of business.

Detective Reaches For Their Chins Not For His Hip

EL PASO, Tex.—Detective Sergeant Charles Matthews is an exponent of a "right to the chin" instead of lead from a .45 calibre pistol.

In his 35 years as a peace officer, Matthews has carried a gun during less than a half dozen cases.

He has retained his devastating punch of bare knuckles days when he flashed in the ring as Austrian Billy Smith. With it he has subdued dangerous criminals.

"I never got in the habit of reaching for my hip," he said. "The first thing that pops into my head when I am in danger is to throw a stiff jab at whoever it is the way."

Old Locomotives Found In A Creek

FORT WORTH, Tex.—An old Texas and Pacific railway company locomotive, buried in a creek near here, has been uncovered by Horace Boyles, manager of a farm through which the creek runs.

In 1876 the locomotive plunged through a bridge which had been weakened by a flood. The locomotive was never taken from the creek bed and its presence had been forgotten until Boyle, while cleaning out the channel of the creek, uncovered a part of the top of the locomotive.

Farm News of Interest to the Farmers of This Section

FARM NEWS

Delta county has gone in for onions. L. E. Foster made a net profit of \$40.50 on one-third acre. Five carloads were shipped from Cooper this year and the market for onion plants and seed is brisk.

P. T. Calhoun of Charco community in Goliad county says it does his heart good to watch his terraces work during a "gully washer" rain. He has some around 3,000 feet long and worked at first about their holding. But they have never even been in danger of break.

Wool sacks solved the drapery problems of Mrs. Julius Sadowsky for her small son's room. Mrs. Sadowsky who is a Van Horn home demonstration club woman used the sacks in their natural color with a design in shades of blue and orange worked in wool.

Elizabeth Carter, 12, food preservation demonstrator for the Blackwell 4-H club in Nolan county, has canned 343 containers of fruits, meats, pickles, relishes, preserves, jellies, fruit juices, and vegetables for use on the family table this year.

Out of the 19 4-H club boys feeding baby beef calves under the supervision of farm demonstration agent Jake Tarter in Wheeler county 12 have reported gains of weight on their calves which average 2.1 pounds per day over a period of 71 days.

SAN SABA—R. G. Murray from the Liveoak community in San Saba county will make two or two and one-half bales of cotton on six acres this year as a result of terraces constructed last year to prevent water logging, according to N. E. Scudder, farm demonstration agent.

The field belonging to Mr. Murray is low, flat and sandy and catches all the hillside water. In the past it has always been so wet and boggy in the spring that early planting and cultivation was impossible. The terraces on the hillside withheld the water this year, however, and left his flat field just moist enough for ideal planting and cultivation. When the dry weather set in there was sufficient moisture to make a good yield.

GILMER—"I am making more money from this one acre of truck than from any 15 acres of my field crops," S. R. Senn of Upshur county told W. M. Burkes, farm demonstration agent. Mr. Senn has dammed a spring branch so that he can deliver water to about two and one-half acres of bottom land. He killed out Bermuda sod in early July and then fertilized his seed bed and planted turnips, radishes, squash, beans, beets, cucumbers, mustard, peas, and okra. He sells his truck to people in the nearby oil fields.

HEBRONVILLE—"Extension methods enabled me to succeed at raising baby chicks," Tommy Williams of Jim Hogg county told G. W. Brown, farm demonstration agent. "I bought 1000 baby chicks this spring and just forget what I knew about them and decided to follow methods recommended by the farm demonstration agent and the Extension bulletins," he added. Mr. Williams raised 950 of the 1000 chicks to frying size and sold more than enough to pay all costs. He had more than 400 pullets left.

SAN ANGELO—A mattress pad of flour sacks and home grown cotton has been made by Mrs. C. D. Hannum of Tom Green county without any expenditure except for a spool of thread, according to Miss Nette Schultz, home demonstration agent. The two covers of the pad were made with flour sacks sewed together and filled with one and one-half pounds of cotton, quilted diagonally and hemmed around the edges. The pad is 75 inches long and 56 inches wide.

ANSON—Mrs. Walter Kelso of the Sixth Home Demonstration club in Jones county is moving, but she is taking her subirrigation tile with her because she attributes the supply of tomatoes in her garden this year to subirrigation, according to Miss Sue Bonner, home demonstration agent. The tile was laid in 1933 and proved its value then, but since the drought Mrs. Kelso says that it has doubled its worth. "I have had sufficient tomatoes for my family of five since July 6 and have approximately one and a half gallons daily since Aug. 10," she added.

CAMERON—"I have more than 400 cans and jars of food products on my pantry shelf for the winter—the most I have ever had in my life," Mrs. Tom Turner, pantry demonstrator for the Curry Home Demonstration club in Milan county told Miss Bertha Fae Strange, home demonstration agent. As a part of her first year as a home demonstration club

member, Mrs. Turner has added 24 feet of pantry shelving, with the 400 containers of food properly arranged on the painted pantry shelving, a pressure cooker, and a bulletin and recipe file. From the fall garden which she has planted, Mrs. Turner hopes to raise enough to complete her family budget.

Nation Has Food Supply Enough For Normal Needs

The nation's food supply is being rapidly adjusted as between deficit and surplus producing areas, and with sufficient food in the aggregate to meet normal consumption needs a slower rate of increase in retail prices is expected during the remainder of this year than occurred during the past three months, according to a report issued today by the Bureau of Agricultural Economics.

The Bureau points out that much of the reduction in the production of food crops in the drought areas has been offset to a large extent by a bountiful production in eastern and far western States and carry-over stocks from previous years. The nation's food supply as a whole will be ample this fall and winter, it is stated, although consumers will have to make certain shifts in their usual diet because of the scarcity of some foods and the abundance of others.

The full effect of the drought on retail food prices will not be felt until next spring, when supplies of meats, dairy products, and poultry products will be reduced. Nothing in the present situation, says the Bureau, indicates a reason for any substantial increase next spring and summer in prices for bread and flour, fruits, vegetables, and canned foods.

Since food prices in cities within the drought area have advanced no more than in cities outside the drought area, the Bureau believes that supplies are being distributed in such a way as to avoid local shortages. The Bureau finds, also, no indications as yet of any general widening of the spread between farm and retail prices since the beginning of the drought. Increases in prices to consumers since early summer have been closely in line with the prices paid farmers for food products.

Food prices for several years have been low in relation to prices of other commodities, says the Bureau. The latest cost of living index indicates that in June food prices were 9.1 per cent above the 1913 average, while clothing prices were 36.4 per cent above; household furnishings prices were 67.8 per cent above; fuel and lighting prices were 58.0 per cent above; and prices of miscellaneous items in the family budget were 95.9 per cent above. The recent advance has not brought about high food prices in relation to other commodities, but has somewhat reduced the disparity between prices of foods and prices of other things.

The total supply of wheat is large enough to take care of domestic requirements. The total meat supply, including meat produced for relief purposes, for the remainder of 1934, is expected to be not greatly different from that during the corresponding period last year, since the prospective decrease in pork production and the 15 per cent decrease in commercial storage stocks of meats on Aug. 1 are likely to be offset by increased supplies of beef, veal, and lamb.

The supply of fluid milk for sale is expected to equal that in recent years, since a larger than usual proportion of milk production will be diverted to fluid uses. Production of butter this winter, however, may be the smallest in seven years, but should prices rise sufficiently to encourage imports, the domestic supply may be increased from foreign sources.

Fewer eggs will be produced this winter, and the supply of poultry for consumption will be the smallest in ten years, says the Bureau. The market supply of fruits this fall, winter, and in the early spring months next year is estimated at about 5 per cent less than in 1933, and about 13 per cent less than the average in recent years. All of the shortage is in supplies of apples, grapes, and cranberries; production of pears and citrus fruits is larger this year than last. People in the drought area are expected to draw more heavily than usual upon commercial supplies of canned fruits, and this, says the Bureau, will tend to strengthen the demand for canned fruits in general.

The combined supply of vegetables available from storage and from early southern fields seems likely to be sufficient to meet all demands even in localities in drought areas where produce from home and local gardens has been seriously reduced. The total supply of canned vegetables is esti-

ated at about 11 per cent more than in 1933, but 11 per cent less than the average of recent years.

Acorns Fattening Wild Turkeys and Deer Near Kerrville

KERRVILLE, Tex.—The lowly acorn is coming to the aid of deer and wild turkey in the Kerr county section.

The dry season caused a short crop of young wild turkeys and fawns.

Deer already are fattening on several varieties of acorns. Turkeys, unable to feed off lowland acorns, have turned to small mountain acorns.

New grass also is expected to put deer into better condition before the hunting season opens in little more than a month.

Deer, forced from the ranges during the summer because of the drought, damaged irrigated gardens and grain fields more than usual, game wardens reported.

Young turkeys suffered from lack of bugs, grass seed and water. Fawns died because of scarcity of doe's milk.

This year's fawn crop was about two months late because of unfavorable conditions during the mating season. Fawns continued to appear up to the first of October. Ordinarily they all have appeared by the end of July.

J. J. Deent, Kerrville, state inspector of game preserves, said the transfer of 150 wild gobblers to Kerr county from South Texas replaced some of the turkeys lost on account of the drought.

The turkeys have been feeding on a partial crop of mountain grapes, cedar berries and early acorns.

CENTENARIAN OFFERS PROOF OF AGE

SALT LAKE CITY, Utah.—George Washington, a resident of Salt Lake City, claims he is 100. As proof he offers the facts he had lived through 25 presidential administrations, has seen 24 states enter the Union, and has survived four major wars in which the United States participated.

THREE TOWNS CLAIM INTEREST

MARTINS FERRY, O.—Martins Ferry Kiwanians believe in geographical variations. Loman H. Hartley, who lives in Wheeling, W. Va., and has his headquarters as telephone manager at Bridgeport, O., was named president of the Kiwanis Club here.

Gertrude Michael, now working in Paramount's "Father Brown, Detective," got her first job in a Broadway show by being able to play an obscure plano composition that none of the other candidates knew.

John Tarleton to Have Courses On Canning of Beef

STEPHENVILLE, Oct. 16.—There will be a supervised practice course in killing, dressing, curing, cutting, and canning beef, mutton and pork, and inspecting carcasses on the four Saturdays of November, from 9 to 12 a. m. and from 1:30 to 4:30 p. m., at John Tarleton College. Co-operating with the college is the State Board of Vocational Education.

The instructional staff for the course includes Mr. Neal Gerreard, director of school of agriculture; Miss Mattie Walker, director of school of home economics; Miss Ida Lou Nelson, associate professor of foods and nutrition; Mr. H. N. Smith, professor of animal husbandry; Miss Lela Vaughn, college dietitian; Mr. Verne Scott, professor of veterinary medicine, and Miss Ina Hensarling, canning specialist for the Kerr Glass company.

At the college farm beginning at 9 a. m., Nov. 2, the course includes killing and dressing two hogs and one yearling and inspection of carcasses; Nov. 10, beginning at 9 a. m., at the college dining hall, those taking the course will cut and cure two hogs and one yearling and identify and compare wholesale and retail cuts of pork and beef. Beginning at 9 a. m., Nov. 17, at the college farm, two sheep, one hog, and one yearling will be killed, and the carcasses inspected. Also in the dining hall basement there will be re-working of pork in cure. Nov. 24, at 8:30 a. m., in the dining hall basement, two sheep will be cut and wholesale and retail cuts will be identified and compared, also pork in cure will be re-worked. At 10 a. m. and through 4:30 p. m. in the home economics laboratory there will be the preparation and canning of meat and meat products, such as mince meat, beef stew, soup stock, liver paste, chili meat, swiss steak and meat loaf.

Enrollment for the course will be limited to eight teachers of vocational agriculture, so that each man will get the maximum of work-hand experience.

My floor has a much more even color now than it had before I finished it," says Mrs. G. C. Crosby of Schleicher county, according to Miss Lora Farnsworth, home demonstration agent. The hardwood floor had formerly been shellacked but the shellac had worn off and there were stains on the floor. Mrs. Crosby removed the shellac and

ON TEXAS FARMS

R. J. Kornfuehrer of Weesatche community still forges ahead along the land to greater and greater poultry profits.

Credit for getting "Richard" started in the right way should go to his brother-in-law, Max Weise, a poultry demonstrator.

The demonstration chain seems endless; Max Weise got his start from his brother, Willie Weise, the first poultry demonstrator in the neighborhood.

Anyway, Mr. Kornfuehrer started from scratch with a few mongrel buff leghorn hens from two to eight years old which roosted in trees, lived on a diet of corn and plenty of fresh air and succeeded in laying perhaps 70 eggs per year.

Mr. Kornfuehrer now is the proud possessor of 280 pullets of this year's raising and 150 yearling hens all of outstanding breeding.

He has consistently fed them in the proper manner since breaking away from the old regime, kept them free of body parasites and given them a dosing once or twice a year with gasoline for intestinal worms.

The next thing in order is another 20 by 30 foot house built strictly A. & M. way to supplement his first A. & M. house of the same dimensions.

TAHOKA—A contract to supply A. & M. college with 18,000 cans of black-eyed and cream peas has recently been awarded Mrs. R. W. Fenton, member of the Tahoka Home Demonstration club in Lynn county, according to Miss Sylvia Robb, home demonstration agent. The contract which will pay \$2,592 was awarded to Mrs. Fenton after her peas were declared to be the best from a number of sample cans sent to the college from all over the state. Her products have been standardized by the home industries specialist of the extension service. She will begin delivery at College Station about the middle of October.

ELDORADO—"My floor has a much more even color now than it had before I finished it," says Mrs. G. C. Crosby of Schleicher county, according to Miss Lora Farnsworth, home demonstration agent. The hardwood floor had formerly been shellacked but the shellac had worn off and there were stains on the floor. Mrs. Crosby removed the shellac and

cleaned the floor with denatured alcohol and steel wool. The floor was then washed with clear warm water. Two coats of an oak stain were applied and when this was thoroughly dry the floor was waxed.

CORPUS CHRISTI—From a six ounce sample of Honey June sweet corn, a variety developed at the Texas agricultural experiment station, Mrs. Carl Allen of Nueces county had a yield of 593 ears, according to Miss Dosca Hale, home demonstration agent. Of this number 10 ears were used fresh, 40 were canned, 270 were saved for seed, and a heavy rain caused the others to smut. Fresh corn was served to the club members at a meeting, and a can of corn and a sample of the seed were given to co-operators.

CHANNING—All 4-H club boys carrying on pig demonstrations have not been put out of business by the drought in Hartley county as the record of Ernest Guillou will prove, according to E. R. Duke, farm demonstration agent. A pure-bred Hampshire gilt was given to Ernest two years ago by the Shelton estate with the understanding that he would turn back two gilts at the age of six months to pay for the original gilt. The gilt raised six gilts and one barrow in the first litter and the Shelton estate was paid with two of the gilts. One was farmed out with a neighbor on the same plan and three were bred. The three gilts which were retained have raised 24 pigs this year and the one which was farmed out with the neighbor raised 10 pigs. With the increasing price of pork, Ernest is looking forward to finishing the 24 pigs at a profit.

CORSICANA—The crop insurance feature of the corn-hog program has been demonstrated in Navarro county this year in the \$8,000 which came into the county in 314 corn-hog checks, according to C. C. Morris, farm demonstration agent. W. S. Price, chairman of the county corn-hog control board, declared that this was virtually an insurance payment to each pro-

ducer because the corn crop this year was almost a failure and when the surplus hogs were disposed of during 1932-33 the price was so low that hogs were almost given away.

LA GRANGE—On a one-acre demonstration plot for his 4-H club, Edgar Walla of Fayette county has produced 117.63 bushels of corn, and on another acre he has produced 106.94 bushels, giving an average of 112.28 bushels to the acre, according to W. H. DaPuy, farm demonstration agent. Last year Edgar topped all boys in his county by producing 128.33 bushels to the acre. He attributes his success to good land; good seed; early, deep preparation; and side dressing with a fertilizer of high nitrogen content.

BAG AFFECTS BRAIN

NEW YORK—The noise of a paper bag bursting exerts more pressure on the brain than an injection of morphine, says a report of the New York City Department of Health.

President Roosevelt might have taken the complaints against the New Deal seriously, until Stalin came along and added his kick.

When we eat too much, our food does us in our bowels. Our friends smile at us coming out of our mouths and call it bad breath. We feel the poison of the leary all over our body. It makes us gloomy, groggy and no good for anything. Well, when we eat too much, our bile can't digest it. What is the bile juice? It is the most vital digestive juice in our body. Unless 2 pints of it are flowing from our liver into our bowels every day, our movements get hard and constipated and 1/2 of our food does us in our 28 feet of bowels. This decay sends poison all over our body every six minutes. When our friends smile at us, our breath (but we don't) and we feel like a whipped oxative. Get at the cause. Take Carter's Little Liver Pills which gently start the flow of our food down in our 28 feet of bowels. It may be a colored (mercury) pill, which causes teeth, gripes and sores the return to many people. Ask for Carter's Little Liver Pills by name and get what you want. No. 254, D.1934, C.M.C.O.

IF YOUR BREATH HAS A SMELL YOU CAN'T FEEL WELL

President Roosevelt might have taken the complaints against the New Deal seriously, until Stalin came along and added his kick.

NOW! GENUINE BAYER ASPIRIN AT DRASTICALLY REDUCED PRICES!

Big Price Cut on Bayer Aspirin!

POCKET TINS OF 12 NOW

15c

PAY NO MORE

ON SALE AT NEW LOW PRICES AT ALL DRUG STORES

Now—Pay Less and Get Real BAYER Aspirin!

So as to put the reliability and quick action of Genuine Bayer Aspirin within the reach of everyone, the price you pay has been drastically cut. Cut so low that nobody need ever again accept an unknown preparation in place of real BAYER Aspirin.

15c Now For 12
25c Now For 24

For instance, the pocket tins of 12 real Bayer Tablets have been cut to 15c. The popular 24 tablet bottles

have been cut to 25c. And the big, family size, 100 tablet bottles have again been reduced.

So—Always Say "Bayer" When You Buy

These new low prices make it a folly to accept unknown brands in order to save a few cents.

So—never ask for Bayer Aspirin by the name "aspirin" alone when you buy, but always say BAYER ASPIRIN and see that you get it.

ALWAYS SAY "BAYER ASPIRIN" NOW WHEN YOU BUY

THEY ALL NEED ENERGY... SO THEY "GET A LIFT WITH A CAMEL!"

THE fact that smoking a Camel does produce an increase in energy has drawn people in every walk of life to Camels.

On this page you will find Camel's "energizing effect" discussed by many smokers. They emphasize the fact that Camels do give them a healthful, enjoyable lift in energy when they are tired. They speak of the pleasure they get from Camel's mild, rich taste. And over and over comes word from steady smokers that Camels never interfere with healthy nerves.

And so—in light of the experiences of other smokers, and of the scientific evidence confirming Camel's "energizing effect"—turn to Camels yourself!

TABACCO EXPERTS SAY:
Camels are made from finer, More Expensive Tobaccos—Turkish and Domestic—than any other popular brand."

BUSINESS WOMAN: Miss Eve Miller says: "Camels give me a 'lift' when my energy is low."

SCIENTIST: Russell F. Mann says: "I like the mild flavor of Camels better and better!"

FARMER: I. A. Bailey says: "I smoke a Camel, and my energy is quickly renewed."

CIRCUS AERIALIST: Antoinette Concello: "I smoke Camels. They never upset my nerves."

PHARMACIST: W. A. Seaman says: "Nerves don't trouble me—and I don't ever want them to, either. I smoke a great deal in my line of work, and I stick to Camels. They never interfere with healthy nerves and just suit my taste."

CARTOONIST: Chon Day, well-known cartoonist, says: "I often work 10-11-12 hours at a stretch and am smoking Camels all the time. They help to increase my 'pep' when I feel tired or glum, and I also find that Camels never upset my nerves."

PRO FOOTBALL ACE: "Cliff" Montgomery says: "After a tiring game, or any time when I feel like it, I light up a Camel and get a swell 'lift'—soon feel 100% again. I am seldom without a Camel—they don't interfere with healthy nerves."

STEPHENCHASE RIDER: Crawford Burton says: "I'm a pretty incessant Camel smoker. Camels give me a 'lift' in energy and always taste so good! Camels never upset my nerves."

AIR HOSTESS: Says Miss Marian McMichael, R.N., who travels with the American Airlines: "A Camel quickly relieves any feeling of tiredness—and how good it tastes!"

EXPLORER: Capt. R. Stuart Murray, F.R.G.S., just back from Honduras: "Camels always give me a 'pick-up' in energy when I need it. And I prefer Camel's mild flavor above all others."

CHAMPION GOLFER: Tommy Armour, "Wizard of the Irons," says: "What do I think of Camels? They are my brand and have been for years. I must be sure that my nerves are healthy—that's why I prefer Camel."

CAMEL'S COSTLIEST TOBACCOES NEVER GET ON YOUR NERVES!

Girl Sets Example In Household Thrift

KERRVILLE, Tex.—Laura Oehler, 15-year-old Kerr county farm girl, has set an example in home thrift in preparing her household for the winter.

Athletic Hall Is Built at Canyon

CANYON, Tex.—A building designed to house the athletes of the West Texas State Teachers College and to serve as a recreational hall is being erected on the college campus here.

Indians May Have Farmed On Plains

DALHART, Tex.—Historians today believe that an ancient flint hoe found near here may indicate that an agricultural tribe of Indians farmed on the plains centuries before records of human life in the region were uncovered.

Mothers!

In treating children's colds, don't take chances—use VICKS VAPORUB. PROVED BY 2 GENERATIONS

A CHANGE Doctors are Recommending

The usual care that a thoughtful mother gives her child, can be offset by this one mistake. Don't make it!

THE "LIQUID TEST"

This is the way to relieve occasional sluggishness, or constipation in a child of any age: First: select a liquid laxative of the proper strength for children. Second: give the dose suited to the child's age, and condition. Third: reduce the dose, if repeated, until bowels are moving without any help at all.

WHO WAS FIRST? IN AMERICA

TYLER succeeded William Henry Harrison, who died April 4, 1841. Tyler served to March 3, 1845. Occasion for the first aid instruction was the annual encampment of the New York State militia.

AAA Cotton Plan Aims to Stabilize Southern Farming

Th survey of conditions in the chief foreign cotton producing countries, completed with this article which is the last of a series based on figures of the cotton section, agricultural adjustment administration, clearly indicates that there is not enough basis in fact for assertions that AAA cotton programs have put America on the way to losing her foreign cotton markets.

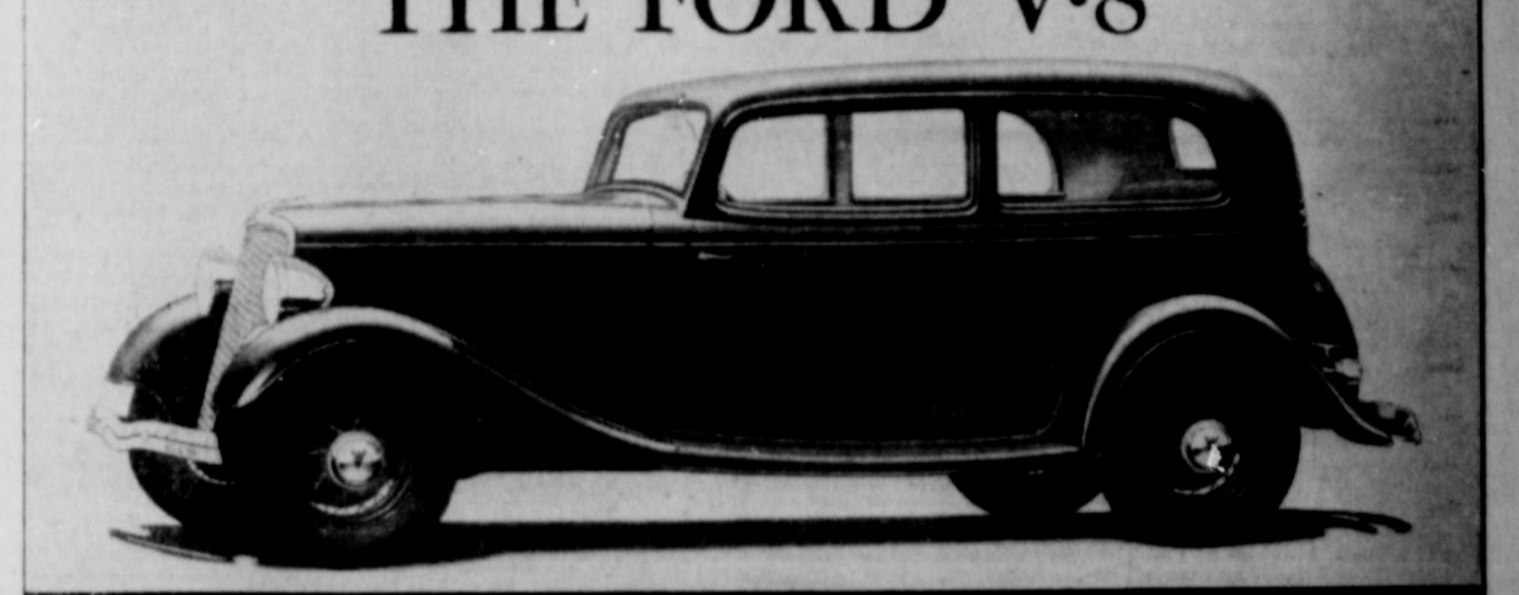

Drink Water With Meals Good For Stomach

Water with meals helps stomach juices, aids digestion. If bloated with gas add a spoonful of Adrika. One dose cleans out poisons and washes BOTH upper and lower bowels. Oil City Pharmacy.

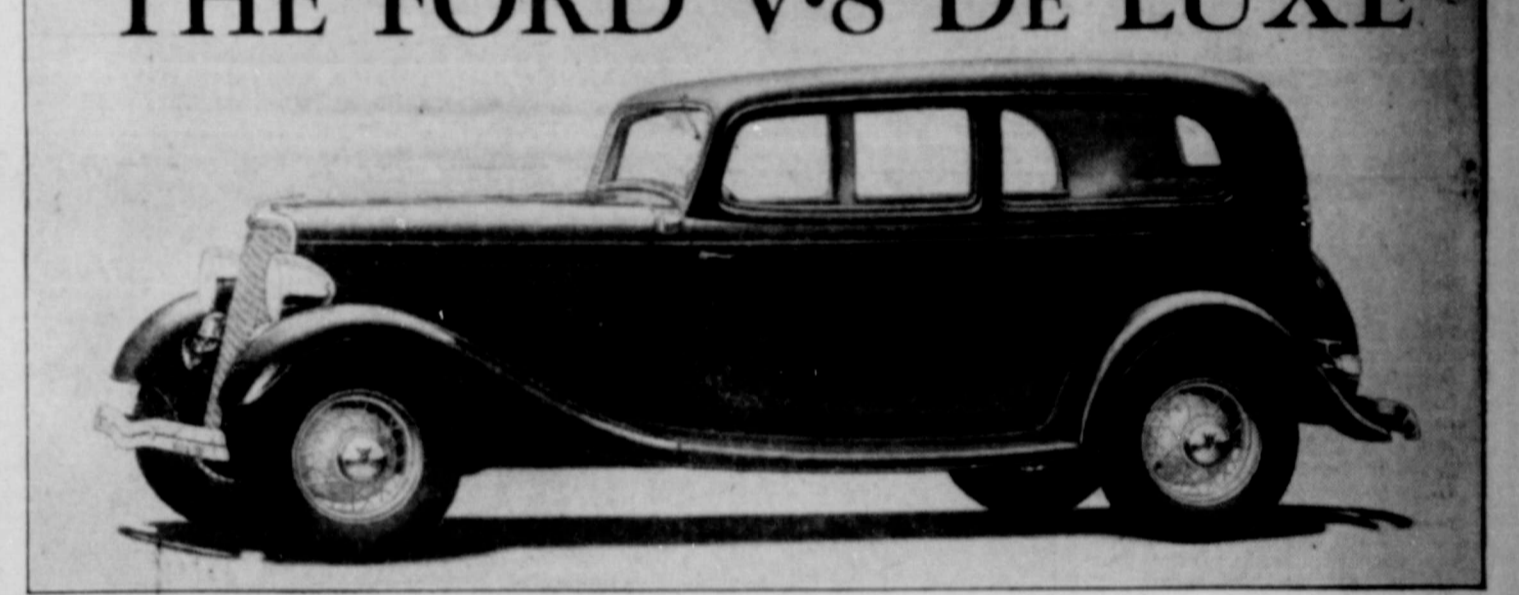

AAA Cotton Plan Aims to Stabilize Southern Farming

American cotton reached 13 million bales before AAA cotton adjustment programs began. This excess supply loaded on to markets already restricted by depression and high tariffs ruined cotton prices.

CCC Has Built 7500 Check Dams In Erosion Program

COLLEGE STATION.—Nearly 7,500 check dams have been built by CCC camps in Texas assigned to soil erosion control work since June, 1933, when this particular program in Texas as a CCC project was started. M. R. Bentley, agricultural engineer with the Texas extension service, who is directing the camp work, has announced. These camps will enter upon their fourth enrollment period in October when workers who have served the maximum time allowed will be mustered out and new workers enrolled and organized.

There are now 10 of these CCC units operating in Texas in soil erosion work. Two of these will be moved to new locations the beginning of the new period, the Cleburne camp to Hillsboro about Oct. 15, and the Dublin camp to Brenham after that date. The other eight camps are at Farmersville, Collin county; Boyd, Wise county; Weatherford, Parker county; Taylor, Williamson county; Graham, Young county; Coolidge, Limestone county; Belton, Bell county, and Bowie, Montague county.

This work was started in Texas June, 1933, with the organization of seven CCC camps assigned to the forest service, U. S. department of agriculture, financial support being from emergency conservation work funds. Since the extension service already had a state-wide program of erosion control and soil conservation under way, the forest service to that agency for technical supervision and Mr. Bentley was made director of the CCC erosion control program, as outlined by the federal bureau of agricultural engineering, in Texas.

At the end of the first six months period, the original group of seven camps in Texas was increased to 11. That number has carried on a continuous program over the one-year period ending Sept. 30, 1934. Ten of these will continue for the fourth period, beginning in October. The eleventh, formerly stationed at El Paso, is being transferred from erosion control to other work.

The Texas camps, under USDA supervision, survey for terraces but do not build terrace ridges. Their work is confined to the construction of check dams at terrace outlets and outlet ditches for terrace systems. In order that the work may serve as demonstrations, no outlets are constructed except to serve terraces located and built according to approved extension service methods.

Mr. Bentley in directing the work has been assisted by a corps of technical men and construction foremen, eight men being directly in charge of field work at each camp. Of the check dams built, nearly 2,800 are concrete and over 4,700 are of rock masonry. A total of 121,900 sacks of cement were used and 45,700 tons of rock. In setting these dams 28,400 cubic yards of dirt were moved by hand in addition to that moved by landowners with teams where practicable.

PROTEST SCHOOL'S COAL-BUYING

TILTONVILLE, O.—NRA coal code officials here have declared they will break a contract by which local schools are buying coal at a mine in sight of three of the schools for \$2.95 a ton. They claim the schools must pay \$2.50 the NRA price, with or without contract.

PASSENGERS ENJOYED FREE RIDE

MALDEN, Mass.—A free ride was enjoyed by all the passengers in George L. Caffarella's bus. While discharging a passenger, an oil truck struck the rear of the bus and aroused Caffarella's anger. Determined to get his man, he chased the truck driver a mile before he could make him halt.

WORLD'S SMALLEST HORSES

OGDEN, Utah.—Two of the smallest horses in the world are believed to be stabled here. One, a mare, is 28 inches tall and measures 51 inches from nose-tip to tail-tip. Her colt measures 23 inches high and 28 inches long.

FACTORY WORKERS

Rent Taylor, featured in Mrs. Wagon's "College Rhythm," once tended gas burners in a Chicago factory.

BEAT THE DRUMS

Jack Oake, featured in Paramount's "College Rhythm," once played the trap drums in a Kansas City high school orchestra.

Very Much Improved After Taking Cardui

"I have suffered a great deal from cramping," writes Mrs. W. A. Smith, of Waco, Texas. "I would chill and have to go to bed for about three days at a time. I would have a dull, tired, sleepy feeling. A friend told me to try Cardui, thinking it would help me—and it did. I am very much improved and do not spend the time in bed. I certainly can recommend Cardui to other sufferers."

Cardui is a liquid laxative containing the most natural laxative elements as senna and casarea, it forms no habit—even in the youngest child. And such a laxative will help the bowels to help themselves.

THIS CURIOUS WORLD

By William Ferguson

VOLCANIC DUST
HUNG IN THE AIR FOR FOUR YEARS AFTER THE ERUPTION OF KAZAKATOA, BETWEEN JAVA AND SUMATRA, MORE THAN A CUBIC MILE OF DUST WAS HURLED INTO THE AIR.

ALL PRUNES ARE PLUMS, BUT VERY FEW PLUMS ARE PRUNES!

ONLY THOSE PLUMS THAT WILL DIVY WITHOUT SOURING ARE CALLED PRUNES!

WASPS CAN KEEP THE TEMPERATURE INSIDE THEIR NEST AS MUCH AS 25° WARMER THAN THE OUTSIDE AIR!

KRAKATOA, a small volcanic island of 13 square miles, lay in peaceful slumber for 240 years. In 1883 the volcano became active, and after several months of small eruptions, reached the grand climax, during which the island disappeared completely. One half of the world heard the explosion.

Funeral For R. F. Davis Held Monday

CISCO, Oct. 16.—Funeral services for Richard Fuller Davis, 78, pioneer Cisco merchant, who died in Dallas Sunday were held at the First Baptist church here Monday with Dr. Charles T. Alexander of Dallas, Rev. E. S. James and Rev. J. Stuart Pearce officiating.

Mr. Davis was an early settler of Cisco. He organized the first telephone system here and with Dr. Charles T. Alexander of Dallas, Rev. E. S. James and Rev. J. Stuart Pearce officiating.

HELPS WHOLE FAMILIES

Attention, MOTHERS, to what every doctor knows to be a fact, and what they say to avoid

BE CAREFUL

- If any laxative is dispoetic (makes you thirsty).
- If it affects your appetite.
- If you need more today than the first time you took it.
- If it drains the system (by too watery a movement).
- If a bad "burning" is felt.
- If there is severe griping.

herbs, active senna, and casarea, and is the one widely used. You can always obtain it at any drug store. Why not make the "liquid test" which has attracted so much attention of late? It helps nearly everyone who tries it. If you make you feel better overnight. The children will like it, too; Syrup Pepsin has a delightful taste.

The Cream of the Crop

Dr. Caldwell's Syrup Pepsin is an approved liquid laxative containing

Dallas Geologist Sees Many Perils With Byrd Party

DALLAS.—Secrets of science, locked in the frozen expanse of Antarctica, hold a dangerous challenge for Charles Gill Morgan, 28-year-old Dallas geologist with the Byrd expedition.

Accompanied by three men and supported by four nine-dog sledges, Morgan will embark on a 1,300-mile journey across the bottom of the world this month.

His companions will be Ervin M. Bramhall, 29, a physicist of Palo Alto, Calif.; Finn Ronne, 30, ski expert and radio operator of Pittsburgh, Pa., and Albert Eilosen, ski expert of Tomsoe, Norway.

The party will face the treacherous task of scaling the Thorne glacier in the Queen Maude range of mountains, an ascent of 10,000 feet.

The journey was a three-fold purpose. First is a geological study of the Queen Maude range in the vicinity of the ascent; second, to collect magnetic data in high altitudes and especially on the plateau bordering the South Pole to solve some of the problems of the earth's magnetism, and to determine the thickness of the Antarctic ice cap and the delineation of its rock basement.

Morgan was member of the faculty of Southern Methodist university for several years, a mechanical engineer for Charles L. Kribbs of Dallas in 1932, and consulting geologist for Dr. Robert T. Hill of Dallas in 1932-33.

In the summers of 1928 and 1932, inclusive, Morgan led geological parties of Southern Methodist university on expeditions in Texas, New Mexico, Colorado, Utah, and Arizona. He received his bachelor of science degree from the university here in 1928.

Spencer, Cisco; John Hart, Eastland, and Jack Cabaness, Cisco.

John Garrison, slightly injured in the Breckenridge-Eastland fracas Friday, was back on Maverick field Monday. Authentic information has it that he will be on the field when Eastland plays Ranger Friday.

Reports indicate that Garrison suffered only pretty badly bruised shoulders, contrary to reports that he was laid up for the season because of seriousness of injuries. X-rays have revealed no fractures.

LILY ATTRACTS ATTENTION

AUSTIN.—A lily in one of the biological pools on University of Texas campus has attracted the attention of zoologists because of its size. A blossom measured 52 inches in diameter. One of its floating leaves supported a child weighing 50 pounds. The lily is a Victoria Regia, said to be native of the Amazon river.

That was a dizzy deal Dizzy Dean handed Detroit in the last world series game.
