

The administration made a mistake in trying to gag congress. It's the only chance the congressmen have to talk freely, with their wives back home.

ANTI-LOBBY BILL FIXES A STIFF PENALTY

AUSTIN, Jan. 28.—New measures offered the state legislature today aim at improper lobbies, relief of counties of road bond debts and provide a sliding scale of pay for county commissioners.

Mother of Bob Stahl Is Buried In Cisco

Word was received in Ranger today of the death, in Mineral Wells, of Mrs. W. N. Williams, mother of Robert Stahl, formerly of Ranger.

Building Timbers To Go Into Bridge

DALLAS.—Timbers from some of the earliest buildings constructed in Dallas will soon be put to use on bridges over creeks along country roads.

Fewer Votes Means A Higher Salary

SAN ANGELO.—District Clerk C. W. Barnett is glad he received only a few votes when he was elected to office.

C. of Commerce Directors Given Their Assignments

J. E. Meroney, who was elected president of the Chamber of Commerce at a meeting of the board of directors Thursday night, has made out a list of the assignments of the directors.

Lack of Precautions Cause Grid Deaths

AUSTIN, Tex.—Improper observation of safety precautions led to the deaths of three Texas high school football players in 1934, according to Roy B. Henderson, athletic director of the Texas Interscholastic league.

RELATIVES OF DEAD OUTLAWS FACING TRIAL

DALLAS, Jan. 29.—The misdeeds of Clyde Barrow and Bonnie Parker, the southwest's two most notorious desperadoes, arose today to as spectators to confront their parents among more than 18 defendants under federal indictment for harboring the pair.

Cousin of Ranger Man Is Killed In Automobile Wreck

Joy Dennis has received a newspaper clipping from Bakersfield, Calif., telling of the death and funeral of his cousin, who was killed in an automobile accident.

Independent Oil Men of West Texas Meet on Feb. 5

BRECKENRIDGE, Jan. 28.—Oil men from far and wide are expected in Breckenridge on the evening of Feb. 5, when problems of the oil industry, especially with reference to the independent operator, will be discussed at the Burch hotel, beginning at 7 o'clock.

Municipal Light Plant Shows Profit

TIMPSON, Tex.—The Timpson municipally owned electric light and water departments show an increase of \$5,091.99 in revenue this year over 1933, according to the statement published by Mayor J. D. Hairston and Superintendent of Utilities W. H. Ingram.

Odd Fellows Install Officers Thursday

A meeting was held in the L. O. O. F. hall Thursday night for the purpose of installing officers of the lodge and to take up other important business.

Belew Succeeds Omar Burkett as Proration Empire For District

According to announcement in Abilene, Luther Belew, former deputy supervisor at Eastland for the Texas railroad commission, has been appointed proration empire for the Central West Texas district.

Seven Members of Family Teach School

AUSTIN, Tex.—Seven members from one family are teaching school in Texas. Mrs. Lillian L. Dyer—mother of five children—teaches the primary department of Mount Olive school, Dawson county.

SENATE KILLS AMENDMENT ON CHILD LABOR

AUSTIN, Jan. 29.—Texas senators today defeated ratification of the federal child labor amendment for the third time since it was submitted in 1924.

Hardin-Baylor To Observe Charter Day February 1

BELTON, Texas, Jan. 29.—Ninety years ago on Feb. 1 a charter was granted by the Republic of Texas to the Baptists of the state for the founding of a college.

One-Ninth Federal Tax Sources Are Being Studied

WASHINGTON.—The federal government collected one-ninth of its entire tax revenue during 1934 from the various excise taxes on motor transportation, according to figures made public today by the National Highway Users conference, of which Alfred P. Sloan, president of General Motors, is chairman.

Flint Weapons Are Collected by Texan

TEXLINE, Tex.—A collection of more than 5,000 Indian flint weapons, gathered during fifteen years, and recording 250 centuries of life on the Southwestern plains, is owned by L. B. Richey here.

More Project Approvals Announced From County Administrator's Office

Projects approved providing for employment of 173 men with expenditure of \$20,164.50 were announced Tuesday by Administrator H. E. Driscoll.

COLORED MAMMY DEAD

WASHINGTON.—Mrs. Mary Hill, 105-year-old colored mammy born in slavery 30 years before the Civil War, no longer will ramble through the tobacco fields of Madison County, Va. The aged woman died recently at the home of her son here.

FFA BOYS TO HELP BEAUTIFY RANGER YARDS

P. A. Tankley, vocational agricultural teacher of the Ranger high school, has announced a beautification program to be sponsored by the Future Farmers of America, and to be conducted throughout Ranger.

URGES CRIME COURSE

MADISON, Wis.—Prof. J. Howard Mathews, University of Wisconsin ballistic expert, recommended that colleges and universities offer a course in crime detection.

More Project Approvals Announced From County Administrator's Office

Projects approved providing for employment of 173 men with expenditure of \$20,164.50 were announced Tuesday by Administrator H. E. Driscoll.

Flint Weapons Are Collected by Texan

### Negro Gets a Kick Out of Being In Court On Trial

HOUSTON, Tex.—Joseph Phillips, Negro, has been hailed into court so many times that he enjoys court procedure.

He was charged with snatching the purse containing \$50 and a pistol from Mary Sue Lewis, Negro woman. Assistant District Attorney Joe Maniscalco finished his questioning and asked Phillips if he had any questions to ask.

The Negro said, "Yes, suh!" and then began firing queries at Mary Sue, interspersed with "Aint it a fact?" "Tell de cot?" "Ansuhs ma qeshun!"

Mary Sue was in a tight spot when Justice J. M. Ray halted Phillips and ordered him held for the grand jury.

**AUTOIST TO REBUILD WALL**  
NEWBURYPORT, Mass.—Richard Goodhue, 23-year-old odd job man was accused of leaving the scene of an accident and wrecking a private stone wall when the automobile crashed into it. He pleaded guilty and was fined \$60, but leniency was asked and only \$2.20 in costs was assessed. The court ordered Goodhue to rebuild the 20-foot gap in the wall.

**HUNT NETTED A HOLE**  
COLUMBIA, Mo.—A hole 80 feet deep on the A. J. Bass farm is what resulted when Dr. Lynes Miles, self-styled West Indian negro treasure hunter, dug for gold. Dr. Miles appeared at the farm one day to ask permission to dig for a chest of gold and silver at the bottom of an old well. After three weeks of work he disappeared, leaving the 80-foot shaft.

Former Senator Fess is writing a book upholding the two party system. Yet in congress he was one of the foremost opponents of the second party.

### How's Your Stomach?

If you're troubled with stomach distress, gas, heartburn, why not try Dr. Pierce's Golden Medical Discovery? Mr. J. L. Morris of 521 Rose St., Waco, Texas, said: "I couldn't do a tap of work for nearly two years on account of my digestive organs. I had no strength and my stomach seemed to be completely gone. I had heartburn badly at times, too, but I felt better after I had used Dr. Pierce's Golden Medical Discovery only a short while, so I continued its use and was soon able to resume my work. I have not had any stomach trouble since that was some years ago. All druggists. Write Dr. Pierce's Clinic, Buffalo, N. Y. for free medical advice."

### Report Is Denied Courthouse Sinking

HOUSTON—A report which has persisted for 20 years that the Harris county courthouse is sinking into the ground has been taken up by Building Superintendent John Schellang.

He said the building had settled evenly three inches into the ground the past two years, and drained water seepage.

Schellang's report was discredited by County Auditor H. L. Washburn. "The courthouse has been sinking, according to rumors, for 20 years, but it is not sunk yet," he said.

### Flying Fish Are Really Just Gliders

WASHINGTON.—There are no flying fishes in China bay, C. M. Breder Jr., assistant director of New York's Battery aquarium, says in disputing a famous passage from Kipling's "Mandalay."

Breder believes the author was indulging in a bit of harmless "nature faking" when he wrote of flying fishes playing where "the dawn comes up like thunder out of China 'cross the bay."

In addition, Breder said, flying fish do not really fly. They are gliders. Some possess a pair of long, narrow main wings and both lateral and vertical rudders. They are called "monoplanes."

"Biplanes," the naturalist added, have long wings and a pair of underwings which are staggered far back and seem to function as elevators.

He said the fish takes off from the water in which the same manner as a seaplane. When it leaves the water and goes into flight, however, it does not flap its wings but rides the air currents like a glider.

**FAMILIES MOVE TO DAM PROJECT**  
NEW PHILADELPHIA, O.—Hunting jobs on the new Tappan dam of the Muskingum conservancy flood control project, 100 families have moved into this county from West Virginia. Only bona fide residents of the county will be hired first, said Donald Gray, U. S. employment chief.

A shark caught off Bermuda gave birth to 49 little sharks, without the aid of Dr. Dafoe, either.

### Help Kidneys

If poorly functioning kidneys are hindered, you suffer from Getting Up Nights, Nervousness, Headaches, Pains, Stiffness, Burning, Stomach Aching, or Ailments try the guaranteed Doctor's Prescription Cystex (Blue-Box). Must be your own or nearest drug store. Only 50¢ at drugstore.

### Auto Phones Are Seen In Future

BERKELEY, Cal.—The youthful electrical wizard who equipped Berkeley's "scientific police department with radio and who provided 22 launchers, ground stations and towering masts of the San Francisco-Oakland Bay Bridge with radio telephones believes it won't be long until automobile radiophones are commonplace.

He is 22-year-old D. Reginald Tibbets, who designed and installed for the bay bridge engineering companies four complete high-frequency radio telephone systems.

He explained his projects to the nation's foremost electrical authorities recently at the 25th convention of the American Institute of Electrical Engineers in Salt Lake City. Six years ago, at 16, he provided Berkeley's police department with the first police radio system. He did the job in time taken from high school studies.

A runner-up in the Edison Intelligence Competition, Tibbets tells interviewers: "There's really nothing to it," as he spins the dials of his compact radio-telephone.

The telephone employs standard receivers and transmitters connected to a box resembling an ordinary radio receiving set. Special tubes and other standard equipment complete the unit. Six foot aluminum rods are the antenna. The radio telephone operates on a 4 to 6 meter wave length, compared to the 500 to 1,500 meter wave lengths used by broadcasting stations.

Difficulty arose over licensing 800 people who would have used the 22 bridge phone sets. The issue was compromised after 234 had passed examinations for federal radio operator licenses. Candidates memorized answers and answered other technical questions in some such manner: "I would pull the switch and call the office."

Tibbets now is the only licensed operator. From his shop, he can tune in any of the sets and suggest alteration of wave lengths or other adjustments for clearer transmission.

**CHECK GOES BEGGING**  
SALEM, Ore.—A check for \$1,013.67 gave Oregon's state treasurer and adjutant general a headache. Neither knew what to do with it. The money was part of a 32-year-old fund sent to Oregon by the government to pay Oregon Volunteers of the Spanish-American War. For 15 years the rightful recipients have eluded search, so the adjutant general sent in the check to the treasury.

**TRY A WANT AD.**

### Many Women Are Employed Each Month on Projects

AUSTIN—Between 30,000 and 35,000 women relief clients are now employed each month on Texas Relief Commission work projects, it has been announced by Adam R. Johnson, state relief director.

"We believe our projects for women, in addition to keeping them from the despair of idleness, provide the more lasting benefit of permanently equipping these women to meet responsibilities in the home and to accept industrial opportunities as they develop," Mr. Johnson said.

These projects employ only those people actually on relief rolls. Legally, the Texas Relief Commission can not expend its relief money for those needy people who may or may not be on relief rolls but who are in the need of employment, urging their claims and those of their neighbors to be allowed to work in sewing rooms, or to have on established in their community.

"We have gone at this problem of employing our relief women with the objective of encouraging projects which will be of a definite constructive value to the clients and to their families," said Mrs. M. K. Taylor, head of the women's work division of the engineering department.

"Our community canneries, for instance, not only have afforded work relief, but have served to teach practical methods of canning and to impress the value of food conservation. At its height, this

program employed 6,000 to 7,000 women monthly," Mrs. Taylor said.

The sewing room projects are exceedingly valuable. Many women clients have been taught to sew and they have taken this knowledge home with them and put it to use in making garments for their own families. There are now 264 sewing rooms in 133 counties where from 4,000 to 6,000 women are employed every month.

Approximately 1,200 women are receiving work relief through the school lunch program wherein the Texas Relief Commission cooperates with schools interested in serving hot lunches to children of relief families by furnishing cost of such lunches and such additional help from relief rolls as may be required to cook, serve, and wash dishes for the relief children.

Library projects, wherein the commission assists county, school or city libraries which can not operate for lack of funds, is furnishing employment to an increasingly large number of relief women. In some counties this project has been extended to include a county-wide rural library program, serving the entire rural population of the county.

The "visiting housekeeper" or dietetics project provides for selection of women from relief rolls who, under supervision of a trained home economist, visit homes of relief clients and demonstrate best methods of cooking low cost foods, balanced menus, methods of laundering, efficient ways of doing general housework.

"Practical work in sewing and in cooking instruction are calculated to enable the homemaker to make her purchasing dollar stretch as far as possible and thus improve the material status of the entire family," Mrs. Taylor declared. "Records of 'visiting housekeeper' projects disclose increase in weight

and improvement in health of families so instructed."

Another constructive piece of work is done through the Commission's nursing projects. These are inaugurated only after careful investigation in counties having efficient health officers who are willing to supervise the commission's workers. These women do bedside nursing for relief clients only, some counties using as many as 12 persons daily to help where there is sickness in the home of relief families who would be unable to pay for such services.

Handicraft projects are being fostered in many counties with such articles as rugs, door mats, and simple things of service in the home being manufactured. Furniture is repaired and clients are taught in this way to keep their homes more neatly arranged and in better order.

The rest had faulty feet, posture or general health. The most general was protruding abdomens.

In three years, Miss Hiss says, these girls—or most of them—will have the physical training classes in most of these faults corrected.

When the undercooler enters a class she undergoes complete examination, including a silhouette portrait to find defects in posture. After two months of learning how to stand correctly, the students go to classes in swimming, tennis, deck tennis, field hockey, ping pong, archery, basketball, baseball, golf, horseback riding or dancing.

Field hockey has 600 enthusiasts although it is a new sport. Most of 21 colleges in the Texas Athletic Federation of College Women now offer classes in hockey, although there is no interscholastic competition.

A six-hole golf course, archery range, and fine clay tennis courts complete the outdoor sports set-up.

### Co-Eds Are Shapely Because of Their Athletic Activities

AUSTIN, Tex.—Shapely University of Texas co-eds get that way through sports activities, according to Miss Anna Hiss, director of physical training for 1,200 of them.

In a \$450,000 gymnasium that combines advantages of a country estate and a debutante's boudoir, girls take their exercise. The structure really is three gymnasiums—containing all equipment from punching bag to swimming pool—but with a definite feminine touch.

How important its purpose is, few men ever discover. But from a careful array of statistics Miss Hiss can tell you that of 600 freshmen girls accepted last fall only four were physically perfect.

and improvement in health of families so instructed."

Another constructive piece of work is done through the Commission's nursing projects. These are inaugurated only after careful investigation in counties having efficient health officers who are willing to supervise the commission's workers. These women do bedside nursing for relief clients only, some counties using as many as 12 persons daily to help where there is sickness in the home of relief families who would be unable to pay for such services.

A six-hole golf course, archery range, and fine clay tennis courts complete the outdoor sports set-up.

### Mail Carrier Born Just Year Too Late

FORT WORTH, Tex.—C. E. Cole, mail carrier here, was born just one year too late.

Born on Jan. 30, 1883, he is just one year younger than President Roosevelt. Had he been the same age he would have qualified for the honor of delivering to the president the world's largest birthday card on Jan. 30.

### TEXAS CCC Camps Lead In First Aid

AUSTIN.—Texas CCC camps led others of the nation with 2,670 Red Cross first aid certificates issued last year, Neal Guy, state recruiting officer, announced.

Massachusetts with 2,632, and Connecticut with 1,739 were second and third.

### RAILROAD CARS FOR GRAVE SWITZLER STATION, Mo.—A grave on the right of way of the Wabash Railroad has been cared for by the company for many years. There are several versions of why the grave is on the right of way and all of them are agreed that it is the burial place of a victim of the 1873 smallpox epidemic. The fence around the grave is painted when other paint work is being done.

### Successful aid in PREVENTING Colds

At the first nasal irritation or snifle, apply Vicks Va-tro-nol—just a few drops. Used in time, it helps to avoid many colds entirely. (Two sizes: 30¢, 50¢.)

### VICKS VA-TRO-NOL

## Protecting and Building Texas

SINCE 1903, the Southwestern Life Insurance Company has been protecting and building Texas. . . . Through this friendly Texas institution more than one hundred and forty thousand Texans are providing for the future of their dependents, as well as for their own old age.

For thirty-two years Southwestern Life has helped to build up Texas by making more than sixty-four hundred loans on Texas real estate, totaling \$46,000,000.

Today, Southwestern Life Protected Homes are more secure than ever, because the Company is stronger than ever before in its history.

During 1934, the Company gained more than \$15,000,000 insurance in force. It has \$1.29 of assets for every dollar of net liability to policyholders.

America, the Country Of Inconsistencies

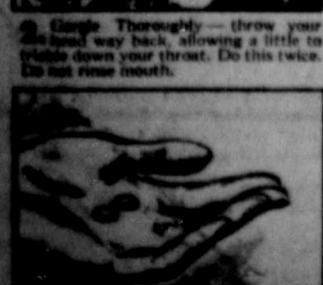

An English visitor not long ago made a three or four weeks' trip across the United States, and the things he saw impressed him so deeply that he had to retire to his study at once and write a book.  
In this book, according to advance reports, he expresses his utter amazement at the contradictions he found in American life. Accustomed to the staid and orderly conditions of England, he was bewildered and a little appalled by what he saw over here.  
These things being so, his only possible recourse was to turn author and speak his mind about things.  
It is impossible not to feel a little sympathy for him, because if there ever was a country which it is impossible to understand at a glance it is this America of ours.  
Some of us, indeed, have lived in it all our lives and still don't understand it. It is, all in all, about as amazing a land of contrasts and contradictions, as human beings ever made.

It is a land which professionalizes college athletes and makes heroes out of prize fighters and baseball players; it is also a land which produces scientists like Millikan and Compton and casts a 200-inch telescope to look at stars that man never saw before.  
It is the land where the dollar is worshipped, but it is also the land which is willing to go seven to eight billion dollars in the hole in an effort to break its way out of a trade depression.  
It is the land of cheap movies, cheaper radio, and "society leaders" who endorse tooth paste for pay—and it is also the land that produces persons like Jane Addams and gives men like Leopold Stokowski free rein to create beauty.

It puts a Huey Long in its Senate, and then counter-balances him with a George W. Norris. It is the land of the Lindbergh kidnapping, but it is also the land which produced Lindbergh himself.  
It is world-famous as a land of boasters, but for years it has paid good money to foreign authors and lecturers to tell it what is wrong with it.  
It is the hard-hearted land of lynchings, and it is the generous land which will send millions of dollars to Japanese earthquake victims. It maintains a gigantic navy and spends millions on aircraft, but it is the only nation brave enough to expose the chicanery of munitions manufacturers.  
You could go on like that for an hour. How, indeed, is any foreigner to understand such a people?  
A compound of wisdom and foolishness, of braggadocio and humility, of strength and weakness—we can't understand ourselves.  
We can only sense that we are a strange people of infinite possibilities, who are building a society unlike any other on earth. . . . and our saving grace is that the fact that we have the courage and the idealism to insist that it shall also be better than any other.

When you are served in a store by a clerk who really seems interested in you and what you purchase, you are pleased and go back again when you are in a buying mood.  
A man's individual prosperity is dependent upon the success of the industries of his community and they are therefore deserving of his whole-hearted support and co-operation.

THESE PICTURES SHOW  
Modern Three-Minute Way to Ease Sore Throat

Ease Pain, Rawness, Soreness Almost Instantly  
Here's a safe, modern and effective way to relieve sore throat. A way that eases the pain, rawness and irritation in as little as two or three minutes. Many doctors advise it and millions are following this way. Try it.  
All you do is crush and stir 3 BAYER Aspirin Tablets in 1/2 glass of water and gargle with it twice—as pictured here. (If you have signs of a cold, take BAYER Aspirin and drink plenty of water.)  
Get real BAYER Aspirin Tablets for this purpose. They disintegrate quickly and completely, making a gargle without irritating particles.  
BAYER Aspirin prices have been decisively reduced, so there's no point now in accepting other than the real Bayer article you want.

DRISCOLL TELLS ROTARIANS OF FUNDS EXPENDED FOR RELIEF IN COUNTY AND CITY OF RANGER

H. E. Driscoll, county relief administrator, was the principal speaker at the meeting of the Ranger Rotary club at noon Wednesday, and presented some interesting facts and figures about relief work in the county, particularly in Ranger.  
The speaker jumped right into his subject as one who was well versed in all its phases, and kept his listeners interested throughout his talk and many were surprised at the magnitude of the task of administering relief in the county.  
He said that from June 8, 1934 through December 27, a total of \$82,645.70 had been spent for work relief in Eastland county, in which amount \$20,713.65 had been spent in the city of Ranger. The total expenditure for the year 1934 was quoted as \$184,909.75.  
During the year 1934 there was a total of \$147,731.21 spent for food in direct relief cases; a total of \$15,223.53 spent for clothing for the needy; \$1,118.71 spent for fuel; \$160.35 spent for lighting; 12,718.37 spent for medical care, doctors, medicine and nurses; 5,337.50 spent for hospitalization, and \$3,695.71 spent on household necessities. In addition to this amount \$3,884.57 was spent for other expenses, such as cow, horse and chicken feed and miscellaneous items.  
This money was expended during the year in taking care of 93,581 cases.  
In 1935 another large sum is to be spent in the county on work relief and other projects, he pointed out, as the allotment for the county for January has been set at \$70,770.90 for work relief projects, of which the city of Ranger will receive a total of \$31,023.65, or 43.9 per cent of the total for the county.  
The sums to be spent in the Ranger territory have been listed as follows:  
For nurse and school, \$1,701.00; for Ranger street improvement, \$11,846.95 is to be furnished by the relief administration and \$4,724.50 by the applicants; roads northwest of Ranger are to be improved with \$2,590.60 spent by the relief administration and \$1,064.20 by the applicants; the Cross Roads road is to be improved with \$4,641.75 from the relief administration and \$1,530.30 by the applicants and the New Hope road is to be improved with \$2,628.45 from the relief funds and \$1,126 from the applicants.  
These projects in the Ranger territory call for work for 720 men and the work is being started as rapidly as possible.

Income Tax In A Nutshell

Forms For Making Returns  
Forms for filing returns of income for 1934 have been sent to persons who filed returns last year. Failure to receive a form, however, does not relieve a taxpayer of his obligation to file his return and pay the tax on time, on or before March 15 if the return is made on the calendar year basis, as is the case with most individuals.  
Forms may be obtained upon request, written or personal, from the offices of collectors of internal revenue and deputy collectors.  
Persons whose net income for 1934 was derived chiefly from salary or wages and was not in excess of \$5,000 should make their returns on form 1040A, a single sheet. Persons whose net income was in excess of \$5,000, or regardless of amount, was derived from a business, profession, rents or sale of property, are required to use a larger form, 1040. Failure to use the proper form presents difficulties to both the taxpayer and the Bureau of Internal Revenue. Therefore, it is emphasized that a taxpayer engaged in a business or profession from which he derived a net income of less than \$5,000 is required to use the larger form.  
The return must be filed with the collector of internal revenue for the district in which the taxpayer has his legal residence or principal place of business on or before midnight of March 15, 1935. The tax may be paid in full at the time of filing the return or in four equal installments, due on or before March 15, June 15, September 15, and December 15.  
WHO MUST FILE RETURNS  
Returns are required of every single person who for the year 1934 had a gross income of \$3,000 or more or a net income of \$1,000 or more and of every husband and wife living together who for the year 1934 had an aggregate gross income of \$5,000 or more or an aggregate net income of \$2,500 or more. Widowers, widows, divorcees, and married persons separated by mutual consent are classified as simple persons. The personal exemptions are \$1,000 for single persons and \$2,500 for married persons living together and for heads of families.  
Husband and wife living together may make separate returns of the income of each, or their income may be included in a single joint return. If separate returns are filed, one may not report income which belongs to the other, but must report only the income which actually belongs to him. If a joint return is filed, such return is treated as a taxable unit, and the income disclosed is subject to both the normal tax and the surtax.  
Husband and wife may elect each year whether to file a joint return or separate returns. Where, however, joint or separate returns have been filed for a particular year, neither husband nor wife may after the due date of the return file an amended return or returns on a different basis for that year.  
8,000 Acre Farm to Aid Relief Families  
JONESBORO, Ark.—An 8,000-acre plantation has been leased by the Arkansas Rehabilitation corporation to house 400 families now on relief.  
Two hundred houses are on the tract and plans have been drawn to build 100 more within a few weeks. The farm is one of several in a state wide program to take families from relief rolls and give them a chance to become self-sustaining.  
The families will be allowed to raise some cotton, but they will be required to raise their own hogs, chickens, gardens and such vegetables as they will need for their own use. The tract probably will be operated on a share-crop basis.  
About half the families will be taken from Mississippi and the remainder from Arkansas counties in which similar tracts are not available.

Moratorium On Real Estate Voted

AUSTIN, Jan. 31.—House members today voted 105 to 19 to extend the present moratorium on real estate foreclosures until Aug. 1, 1935. The present law expires at midnight.  
Three enactments of the moratorium law will permit perfection of an appeal to the United States supreme court testing the validity of the act. The supreme court of Texas has held it unconstitutional.

Presidents Dances Held Over Nation

NEW YORK, Jan. 31.—More than 4,000,000 Americans in the United States and all its possessions, danced and made merry last night in honor of President Roosevelt's birthday. They contributed about \$1,000,000 to a national campaign for the treatment of infantile paralysis. The balls were held in more than 7,500 cities and towns.

DON'T PAY TWICE FOR YOUR BATTERY

Cheap, cut-price batteries are often paid for twice in costly recharges, service fees and rental charges.

STRAWN

Miss Bernice Croom is spending this week in Strawn.  
Misses Leota Segars, Mary Lou West, Mary Beth Thomas and Rosamond Buchanan are home from John Tarleton this week.  
Mrs. Maggie Young has returned to her home in Fort Worth.  
Mr. and Mrs. J. L. Encke and Miss Maggie Cato were Dallas visitors Monday.  
Mr. and Mrs. J. T. Jolly made a trip to Dallas Tuesday.  
Mrs. Ollie Vickers and children are visiting Mr. and Mrs. Lee Vernon.  
Mrs. Clem Klenke is visiting her sister, Mrs. Roy Whitaker.  
Mr. and Mrs. Roy Vaughn of Kilgore spent last week-end in Strawn.  
Mrs. Bob Davis is visiting her mother, Mrs. W. H. Tullos.  
Miss Virginia Robinson left last week for John Brown School in Siloam Springs, Arkansas.  
Mr. and Mrs. Denver Cross spent last Sunday in Fort Worth.  
Meses, Bean Robinson and Roy Whitaker were Breckenridge shoppers Thursday.

Iowa Bachelor Makes All His Own Quilts

HUMBOLDT, Ia.—Evan Leeds, 69-year-old bachelor, says he is not interested in women and to prove it exhibits four quilts which he has completed at his solitary home here during long winter evenings.  
Leeds claims the work of making the quilts is much more pleasant than the companionship of a woman could possibly be.  
A native of Norway, Leeds is very self-sufficient, doing his own cooking, baking, sewing, washing and other household chores commonly delegated to the gentler sex.

If you have a pimply, blotchy complexion try Resinol to help nature heal such surface defects.

Rabies Serum Is Reduced In Cost In State of Texas

AUSTIN, Jan. 31.—The rabies serum that the state formerly bought for \$12 per treatment is now being manufactured in the state laboratory, Austin, at 30 cents, Representative R. L. Reader of San Antonio has pointed out.  
Representative Reader two years ago secured a small appropriation to permit Dr. S. W. Bohls, director of the laboratory, to manufacture this and other vaccines, toxins and sera, for state use and for distribution to the local health authorities for charity work.  
The Texas laboratory now has been built up to where it ranks second only to that of New York, Representative Reader said. Under plans he will submit to the appropriations committee, he would push it to first place in the nation. His plans call for adding a fourth story to the laboratory, and securing additional equipment for the manufacture of other vaccines for use in the state by public health agencies.  
The rabies serum is an instance of the reduction in costs when the state manufactures its own products. Rabies serum now is made available to the health authorities and hospitals of the various cities and counties of the state at only 4 per cent of its former cost. It is available without charge for use in charity cases, as are the other sera made in the laboratory. Such free service products is secured only by city or county health authorities, on certificates that they are to be used exclusively in their charity work.  
Mr. Reader, pharmacist, has taken particular interest in the state laboratory throughout his service in the house. Last year, he secured an appropriation of about \$4,000

Mr. and Mrs. Hise and son, Garrett, visited in the home of Tom Young Saturday night.  
Curtis and Jack Blackwell were visitors in Ranger Saturday.  
Mrs. Annie McGown visited in the home of Mrs. Jessie Jones.  
The farmers have been plowing this week.  
Mrs. Tom Young and two daughters visited in the home of "Uncle" Jim Young Sunday afternoon.  
Mr. and Mrs. Eudy attended Sunday school and church at Ranger Sunday.  
Mr. and Mrs. Léo Hise were visitors in Eastland Wednesday.  
Joe Young and Sachle Ames visited in the home of Slim Stroud Sunday.  
Everyone enjoyed the "42" party Wednesday night at the home of Ralph and Garrett Hise.  
German university students are striking against a professor who wouldn't help collect charity funds on the streets. Now he has to go out for himself.

WHAT DOES Service MEAN IN FUNERAL DIRECTION?

Of course, service is that which is expected of every mortician having complete facilities and equipment for funeral direction. But Strawn Merchandise Company, to make sure that satisfactory service is given in each case, combines expert knowledge, a complete staff and modern equipment into a single, efficient unit. The impressiveness of each service we conduct is assured.

### Potato Control Is Urged By National Grower Committee

WASHINGTON.—A potato advisory committee representing producers in 16 states has recommended to the agricultural adjustment administration a number of principles it desires incorporated in a national program for potatoes. The committee has requested the adjustment administration to aid in drafting a tentative bill which the committee will submit to congress.

to states, using a production average computed from the three highest yields and acreages of the five-year period, 1930-34; allotments to individual growers based on state allotments; tax of half a cent a pound on all potatoes marketed which are not covered by tax exempt certificates; marketing of all potatoes in closed packages; transfer of tax exempt certificates between growers, and between districts with their value to be determined by the supply and demand for them; provision for a reserve to care for new growers; and a referendum on the plan after one year of operation.

The recommendation of the committee regarding the basis of allotments to states, from which individual allotments to growers will be made by state committees was: "As a basis for allotment to states, it was moved that out of the 1930-34 period there shall be computed from the official estimates on the potato crop for each state, the average of the three highest acreages, computed to hundred acres and the three highest yields computed to tenths of a bushel, and use the product of these two averages for each state as an average production base. The acreage and yields selected

### Black and O'Shea on Monday Night's Card

The best card of the season is coming up next Monday night, Feb. 4, at the Elks arena. The management has been successful in securing two rough and tough gristle necks on their main event. Jimmie Black returns to meet the Wild Irishman, Eddie O'Shea, and what a match that will be. Those who saw Jimmie Black in action last Monday night know that he will resort to anything to try and win. The fans know that Eddie O'Shea will do his best to beat his man. He makes them like it, win or lose.

### Meets Black Here

will be built and other improvements made. The play which had been announced for Friday night has been postponed to Thursday night which will be February 7th.

### UNITY

The rainfall the past week was the heaviest in months, the estimate being five inches. Some fear that the grain is all killed but others have hopes of part of a crop. Rev. J. B. Forlus of Weatherford filled his appointment here Saturday and Sunday. We are glad to report all who have been ill with the flu are improving.

Marvin Singleton. They will leave soon for San Angelo, their future home. Jodie Singleton spent the weekend in Fort Worth with friends and relatives. D. F. McAllister and daughters, Misses Virgie and Willie, were Strawn visitors Saturday.

### Tenant Provisions For Peanut Crop Contract Explained

COLLEGE STATION.—Peanut producers agree, under the 1935 production adjustment contract, not to reduce the number of share tenants or share croppers in 1935 below the number in 1934 and not to reduce the percentage of the total peanut acreage grown by such tenants and croppers in 1935 below the percentage grown in 1934, according to information received from Washington by E. A. Miller, extension agronomist.

### Mountain School News

Mr. and Mrs. Hardy Tidwell and Temple Sparks spent the weekend with Mrs. Tidwell's parents, Mr. and Mrs. Tandy Wilhite of Desdemona. Mr. and Mrs. R. H. Riggs was pleasantly surprised to have their son and his family and daughter and her family who live in Kansas come in for a visit. They report the recent cold spell as being severe in Kansas the cold registering 14 degrees below zero.

### Foreign Nations Planning to Honor Abraham Lincoln

SPRINGFIELD, Ill.—Notables of three foreign countries will join with the descendants of fellow townsmen of Abraham Lincoln in paying tribute to the Civil war president on the 16th anniversary of his birth here Feb. 12.

The three nations to be represented are Japan, Italy and Canada. They will speak on Lincoln as he is viewed by their nationalities at services to be held on the eve of the Emancipator's birthday and attend other services the following day.

Two of the foreign notables who are to speak are ambassadors Hiroshi Saito of Japan, and Signor Augusto Rosso of Italy. Rev. John Henry Cody, president of the University of Toronto, will be the third guest speaker.

Proceeding the program the visiting dignitaries will visit the Lincoln tomb in Oak Ridge cemetery. The tomb, one of the historical spots of the nation, annually attracts thousands of visitors. It recently was reconstructed and re-modeled along modern lines.

The services at which Saito, Rosso and Cody will speak will be held under the auspices of the Mid-Day club, a civic organization. On the day of the anniversary another service will be held by the Abraham Lincoln association.

The latter's services will be held in the Sangamon county courthouse, formerly the Illinois state house, in the halls of which Lincoln delivered orations as a young member of the state house of representatives.

Special services also will be held at the tomb where Lincoln's body is encased in a reinforced steel-concrete block, 10 feet below the floor of the tomb.

Other parts of Central Illinois famed for the presence of Lincoln of members of the Lincoln family are expected to commemorate the day. There also will be ceremonies at New Salem where the village as it existed in the day Lincoln clerked there and wood Ann Rutledge, has been restored, and at the city of Lincoln.

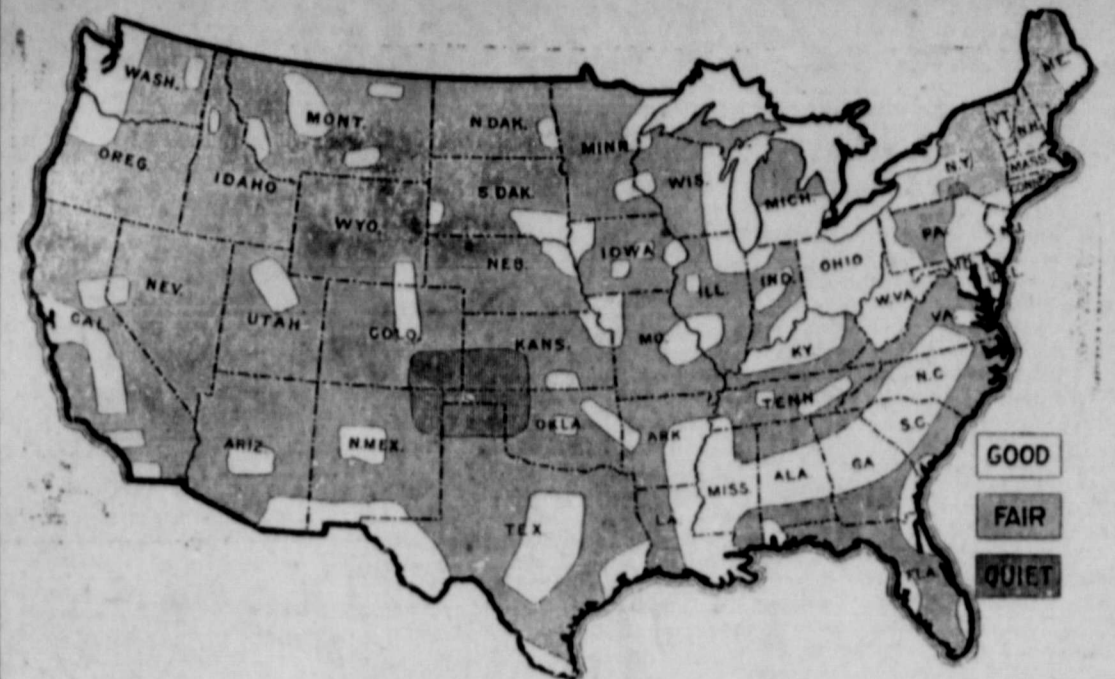

### American Farmers Face Seed Shortage

BURLINGTON, Vt.—American farmers face one of the most serious seed shortages in the country's history, according to P. R. Miller, agronomist of the state agricultural college.

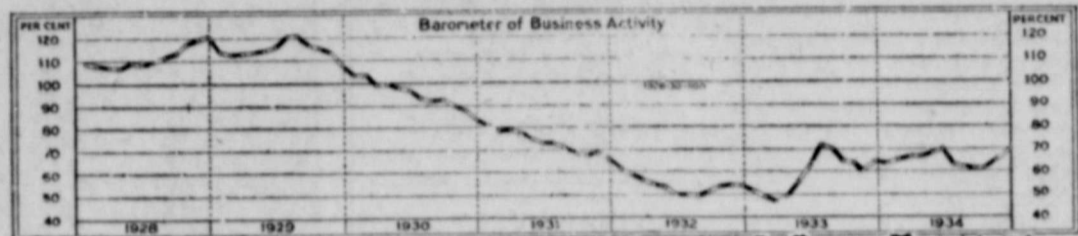

He attributed the coming shortage to the small carryover stocks from 1933; the drought of 1934; and the above-normal exports of seed to Europe.

HAYNNIS, Mass.—A 10-pound son was born to Mr. and Mrs. John Richard with two teeth equal in size to those of a six-month-old child.

### THIS AREA SHOWS WHITE SPOT ON BUSINESS MAP

This map represents business conditions in every state of the Union as shown in February, 1935, issue of "Nation's Business," official publication of the United States Chamber of Commerce.

December, stimulated by heavy holiday trade, growing steel production, active coal output, large automobile orders and active business in other lines "stepped out" with confidence unequalled since late spring. Textile manufacturing was active after the cotton mill strike ended. Business failures and liabilities were the smallest in 14 years.

The year 1934 was one of extremes. Drought reduced most crops to 40 years ago size. Commodity prices rose to a four-year peak in Dun's and Bradstreet's indexes. Farm income rose a billion dollars

with predictions of a like rise in 1935.

The railroads gained in gross though not in net earnings. Passenger earnings made the first gain in a decade. Export trade expanded, mainly in manufactured goods. Steel production exceeded recent years after a hesitating start. Cigarette output reached a new high. Stock market sales were the smallest, but bond sales reached the largest, in a decade. Stock prices were irregular, utilities going lower and high grade bonds were at long time peak. Savings bank deposits grew. New

life insurance and building increased. Idle ship tonnage declined. Additions to steel plants were announced. Department store and chain and mail order trade increased throughout the year.

**The Map**

Further improvement in business conditions and an even more decidedly cheerful sentiment are reflected in this month's map.

**The Barometer**

The December barometer about equals the June, 1934, and July, 1933, high points, and on this, the third wave of improvement may reach a new three-year peak.

### Eastman Aid to The French Poor

PARIS.—Unintentionally and indirectly, the late George Eastman has just presented a Parisian workers' quarter with a new square.

The square will be constructed on a site left free by the demolition of a group of factories, part of which is to be occupied by a new high school, while the rest was destined for the dental clinic which Eastman willed to the city. Eastman's executors however, suggested that the place chosen was decided to spend Eastman's \$1-

### New Transportation System Is Urged

WASHINGTON, Jan. 30.—Transportation Co-ordinator Joseph Eastman, urged upon Congress today a six-point legislative program designed to turn America's haphazard transportation facilities into an integrated national system.

In a report bristling with criticism and blunt statements of facts, Eastman said government operation of the railroads probably would be "inevitable" if congress frowned on the plan for transportation executives balked at co-operating.

Russia now is making 57 varieties of sausage, but is sticking to only one line of holoney.

### Production Projects Provided Work For Many During 1934

AUSTIN, Tex.—Production projects, including local canning plants, sewing rooms, wood cutting, mattress making, community and home gardens and hide tanning during 1934 provided employment for more than 30,000 relief clients. It was estimated last week by Adam R. Johnson, director of the Texas Relief Commission, as he announced plans for enlarging the program still further during 1935.

The Commission operated 561 canning plants in 172 counties that afforded jobs for 7,600 relief employees monthly. Output of these plants was 9,371,000 cans of produce of which 4,576,000 cans were retained by the Commission. The remainder went to producers of raw foodstuffs in exchange for products furnished.

"In addition to furnishing work for relief clients, our canning plants also were a source of food for people on our relief rolls," said Johnson. "But more than that, by using budgetary labor from our relief rolls, we have taught a great number of women over the state the proper methods for preserving food, and we believe this knowledge will be of great value in the future in enabling housewives to preserve surplus fruits and vegetables in their own homes for winter consumption."

The Commission at the end of the year was operating 252 sewing rooms in 157 counties where 6,900 women found employment each month. These sewing rooms produced 570,000 garments, consisting of women's dresses, men's shirts, children's and infants' clothing, according to reports from A. C. Allen, director of production projects.

Inexperienced women as well as experienced seamstresses have worked in the sewing rooms and many of these workers now are able to make clothes for their families in their own homes.

The Commission has 66 wood cutting projects in 59 counties with an average of 9,600 men employed monthly. Timber is cut into stove wood, transported to a central wood yard from where it is distributed to relief clients for cooking and heating purposes.

The 29 mattress plants operated by the Commission employed 1,550 persons per month and had turned out 38,214 mattresses, manufactured according to specifications used in commercial plants. These mattresses were distributed all over the state to relief clients in dire need of bedding.

The community garden program included 113 garden projects in 49 counties totaling 1,553 acres. Produce was issued in the fresh state and surpluses were processed in the local canneries. All types of vegetables were grown.

Individual gardens, located in 60 counties, consisted of 3,400 acres. This type of garden is operated by the relief client who obtains his seed from the Texas Relief Commission, uses what he can in the fresh state, brings the surplus to a cannery where it is processed on a share basis. The client thus is enabled to provide his family with canned produce for the winter months.

### Commission Warns Of Mis-Information About Civil Exams

WASHINGTON.—The United States Civil Service Commission says that numerous letters received at its office from different parts of the country indicate that misleading information is being given to the public by agents of some of the correspondence schools which give instruction in preparation for civil-service examinations.

To guard against the loss of money paid for tuition of this kind the Civil Service Commission informs the public as follows:

No one can promise appointments to positions for which the United States Civil Service Commission holds examinations. The claim that such assurance can be given brands the person making it as a fraud.

Information regarding examinations for the United States Civil Service may be obtained from the boards of United States Civil Service Examiners. There is such a board in each community which has a post office of the first or second class. In nearly all cities the civil service board is located at the post office.

Before paying money for tuition, or signing a contract, it is advisable to make inquiry concerning the prospect of examinations. There is reason to believe that agents of some schools deceive the public as to the probability of early examinations.

No school has advance information regarding the need for employees or the probability of examinations.

A doctor in New York recently defined a model parent. Some children must have put him up to it.

### Batteries Freeze If Improperly Charged

Fortunately, the measures of precaution necessary to prevent the freezing of electrolyte in automobile batteries are not as elaborate as in the case of radiators, according to J. S. Reynolds, the local Exide dealer.

"The electrolyte," said Mr. Reynolds, "or, as it is sometimes called, 'battery solution,' will of course freeze. But the conditions under which it will be affected by low temperatures vary. The factors are the degrees of temperature and the state of charge of the battery, the probability of freezing increasing as the battery becomes more and more discharged."

Mr. Reynolds then explained how the electrolyte in a fully charged battery will withstand a temperature of 90 degrees below zero. On the other hand, a battery that is in a very low state of charge will freeze at only a few degrees below the freezing point of water.

The state of charge of the battery is a factor because of its relation to the specific gravity of the electrolyte.

**QUESTION!**

If a jockey can make a horse fly, can a blacksmith make the fire fly, can a boarder make the butter fly? When we get a "hurry-up" job on a car, we sure "fly" around until the work is finished and we do the work in a manner that is intended to make a steady customer. It's respecters and boosters that count with us.

# HAPPY KITCHEN

.... Don't Miss it!

## Four Big Days of Fun!

### March 5, 6, 7, 8

Under the personal supervision of Mrs. Martha McDonald, who was here last year.

Set aside these four days to be there! See the newest ways to cook and save!

Back of every single recipe, each new idea in our Cooking School, is this single thought—HOW CAN WE MAKE LIVING MORE PLEASANT, ECONOMICAL AND MORE EFFICIENT?

To Be Held At the Ranger Masonic Temple!

## FREE PRIZES DAILY

Sponsored by Ranger Daily and Weekly Times in co-operation with the Ranger Merchants and Business Men!

## IT'S GOT WHAT IT TAKES

**THE NEW FORD V-8**

1935 **FORD V-8**

**PICK UP**

The proved power, speed, economy of the V-8 engine . . . plus improvements that make it a more rugged hauler than ever

The Ford V-8 Pickup has always been a car that could take punishment. This year, improvements have been added that enable you to use the Ford V-8 Pickup harder than ever—and to do it at less cost.

Even the proved V-8 engine has been made more economical, more dependable. It has new crankcase ventilation that rid the engine of water vapor, minimizes sludge, reduces oil dilution and corrosion. It has copper-lead connecting rod bearings that resist burning and pounding out. It has cast alloy camshaft and crankshaft that outwear forged steel.

The front axle is stronger—20%. The frame has been strengthened—with a new X-member, double reinforced side rails, new cross members at front, center and rear. The chassis is mounted on the Ford Full-Boating Springbase—giving more uniform tire wear, longer brake life, better brake action, improved over-all operation, easier riding and handling.

But the way to find out what this new Ford V-8 Pickup will do for you—and save for you—is to put it through a tough trial on your own job. Your Ford dealer will let you have one any time you say.

# Wallace Berry Picture At Arcadia Saturday

## HAS GREATEST ROLE IN THE BARNUM FILM

F. T. Barnum, self-styled "Prince of Humbugs," comes back to a hearty life Saturday at the Arcadia theatre, in the person of Wallace Berry, who plays the matchless showman in Darryl F. Zanuck's production of "The Mighty Barnum."

num," for 20th Century Pictures. The screen play, which maintains the comedy mood best suited not alone to Barnum's extravagant exploits, but to Berry's most popular type of characterization as well, was written by Gene Fowler, famous biographer, and Bess Meredith, one of Hollywood's ablest scenarists. The story opens with Barnum's entrance into the sideshow business exactly a hundred years ago when, having acquired a few reptile monstrosities and an aged negro named Joice Heth, purported to be 163 years old and erstwhile nurse of the infant George Washington, he left his failing Bowery grocery,

rented a livery stable and opened Barnum's American Museum. The famous midget, General Tom Thumb and his bride Lavinia, the Cardiff Giant, the Bearded Lady, the Fiji Mermaid, the Woolly Horse and all the rest of the "natural oddities," with which Barnum staggered New York a century ago are also seen. His splurge on the prosaïque to the sublime with the sponsoring of the American debut of Jenny Lind, the lovely Swedish nightingale, at Castle Garden, plays a big part in the picture, with Virginia Bruce charmingly interpreting the gold-on-voiced Jenny. Adolphe Menjou, Rochelle Hudson and Janet Beecher are also importantly cast in this release through United Artists.

### THE MIGHTY BARNUM

Wallace Berry as the Mighty Barnum, which comes to the Arcadia Saturday.

### Old-Time Hayride in "Green Gables"

Remember the old fashioned hayride—The sort of picnic where every one clambered aboard a hay piled wagon and started for a slow, romantic ride through the moonlight, with banjos strumming and happy voices doing their best to harmonize? You'll see just such a ride in RKO-Radio's picturization of the novel "Anne of Green Gables," which comes to the Arcadia theatre Monday.

The typical team of sturdy blacks awaits the crack of the driver's whip. Children, bearing enticing picnic packages, clamber over the wheels and up the ladder to the hay-softened wagon bed. An accordion wheezes merrily, mingling its melody with the clamor of excited voices. There's even the typical boy-and-girl lover's tiff.

Anne Shirley thinks that Gilbert Blythe is going to be her beau on the ride. Gilbert knows that she thinks so, and fools her by squirting Alice Wainwright.

Anne Shirley is portrayed by her 16-year-old actress namesake, Anne Shirley. Tom Brown plays Gilbert, and Mary Beich is seen as Alice Wainwright.

A hayride is one of the romantic episodes of the story which centers about the adventures and romance of a vivacious, red-haired orphan girl.

O. P. Heggie, Helen Westley, Sara Haden, Gertrude Messinger, June Preston, Murray Kinnell and Charley Grapewin have vivid roles in the film. George Nichols Jr. directed.

A new barber school in Madison, Wis., plans to have courses in conversation and rhetoric. It might also consider a course in haircutting.

### Credits, Embargoes Would Control War

CLEVELAND, O.—Denial of credit and embargoes on raw materials to any nation with ideas of war will make that nation change its mind and keep peace, said Newton D. Baker, President Wilson's secretary of war, in an address here.

Baker spoke on "Peace — Attempts to Attain Security Through Organized Sanction."

He began his discussion with the two conflicting philosophies of peace—the balance of power, and universal sovereignty, then followed with an explanation of the World court, the Hague arbitral tribunal and how peace

could be maintained by economic pressure rather than military pressure.

"Pressure of an economic blockade may be just as cruel, but it is not so tragic," he said.

In speaking of the League of Nations, Baker told how the idea of world peace through international organization was brought to President Woodrow Wilson through him at the suggestion of Henry Cabot Lodge.

JUST A BLACK EYE  
BOSTON.—Puzzled looks soon

disappeared on the faces of the jurymen when Federal Judge Hugh D. McLellan explained to them what an ecchymosis was. Dr. Chiro G. Cayward was describing an eye injury to the jury and referred to it as an ecchymosis. The judge interrupted the doctor and said, "That's a black eye, gentlemen!"

Japan has ordered the members of its Rome embassy to take up golf. Thinking of putting through some big deal with Mussolini.

### "Society Doctor" Novel Drama of Hospital Life

Following the success of "Men in White," the medical drama in which Clark Gable and Myrna Loy scored one of their greatest hits, Metro-Goldwyn-Mayer brings to the Arcadia screen today its new story of hospital life, "Society Doctor." In the new feature the romance within hospital walls is played by Chester Morris and Virginia Bruce.

"Society Doctor," in which a lifetime of love, drama and pathos is crowded into the brief span of eight hours, tells the story of Dr. Morgan, young chief interne in an emergency hospital, and of his friendly enemy, Dr. Ellis, and their competition for the love of Madge Wilson, a pretty nurse.

Morris plays the role of Dr. Morgan who feels that there is no place in his life for love or marriage. Virginia Bruce, who recently scored an outstanding hit as Joice Lind in "The Mighty Barnum," is seen as the nurse, Dr. Ellis, the third member of the triangle, is portrayed by Robert Taylor, a comparative newcomer to the screen who holds promise of progressing far in pictures.

The new drama is said to be replete with thrilling action from its opening sequence to its final fade-out, with the high point of the story occupying when Dr. Morgan is shot by a gunman in the hospital. When all the surgeons of the old school refuse to operate in order to save his life, Mr. Morgan directs his own operation on himself, with his rival, Dr. Ellis, wielding the knife.

### D. Joseph and Mrs. Rippy at Markets Buying New Dresses

D. Joseph and Mrs. Anna Mae Rippy are in Dallas purchasing new spring merchandise for the Joseph Dry Goods company.

A big shipment of 100 new spring dresses has just arrived and are now placed on special showing, where customers of the store may find many new spring items.

Other shipments are expected to arrive almost daily and the stock of spring clothing for women is expected to be larger this year than in many seasons.
