

1702 FROM 32 TOWNS PRESENT AT SAFETY MEET

The report of the registration committee of the Oil Belt Safety Conference after checking registration cards, shows that a total of

1702 had registered in Ranger Monday afternoon and evening in connection with Oil Belt Safety Conference. It was estimated that approximately 1300 of this number were in attendance at the evening session of the conference, and the remaining 400 were included in 1067 who were in attendance at the afternoon safety show at the Columbia Theatre.

A special invitation had been extended to the high school in connection with the show, and it was estimated that there were approximately 300 of the 1067 in attendance who were students. The

students who attended the show, however, were not asked to register in connection with the conference.

Visitors in attendance were registered from 32 cities and towns in addition to Ranger, some being from the states of Oklahoma, Arkansas and Missouri. The following cities were represented: Albany, Abilene, Bryson, Baird, Breckenridge, Caddo, Coleman, Cross Plains, Cisco, Dallas, Desdemona; Graham, Ft. Worth, Frankell, Elliasville, Eastland; Gorman, Moran, Pioneer, Rising Star, Tulsa, Okla., Strawn, St. Louis, Mo.

Reports from local hotels indicate that practically all accommodations were taken up by out of town visitors.

Automobile Wheel Stolen In Ranger

Thieves removed one wheel from a car belonging to John L. Turpin, principal of the Young school Wednesday night while the car was parked on a Ranger street.

Mr. Turpin was attending the Young school entertainment at the time of the theft, and his car was parked in front of the school building.

The thieves removed the wheel, leaving the car jacked up.

The robbery was discovered when Turpin left the school after the entertainment.

Ranger Boy Writes Father From Hawaii
 H. B. Patterson, former desk sergeant of the Ranger police department, has received a letter from his son, W. D. Patterson, who is now in the navy, containing pic-

tures taken in Hawaii. The scenes are ones of interest taken around the island, where the sailor is now stationed aboard the U.S.S. Sea Gull. The letter states that he is getting along nicely. He has been away from home since last May.

WASHINGTON, April 29.—A half dozen agencies concentrated attention today on the plight of the cotton textile industry. Interest centered on charges by industry spokesmen that Japanese competition and the processing tax were closing down American mills

and throwing thousands out of work. Gov. Louis Brann of Maine asked President Roosevelt's special cabinet to set up a quota restriction on Japanese imports.

Administrator Chester Davis speaking here, for the U. S. Chamber of Commerce convention, charged that attacks on the cotton tax were "bunk."

"THINK OF THE CHILDREN FIRST!"
 In direct contrast to the excitable, uncertain and spontaneous actions of children, you, as a motorist, should exercise even greater and more positive control of your car wherever children must cross the street or play on sidewalks. You cannot fail to notice the "caution" warnings near their schools, but you are just as certain to meet them on every side street, in both business and residential districts. In every case—"Think of the Children First!"

OAK GROVE

Our community was blessed with another good rain Thursday morning and our farmers are hopeful. Some are sowing seed and saying nothing. Some are playing "42" and talking "chick". While a few are attending the P. U. school at Long Branch and talking religion. Some of our farmers will be compelled to plant over a large part of their feed on account of the heavy rains washing it away or beating it down and covering it up. No sickness in this community at this writing and all those previously reported sick have recovered. Quite a few of our farmerettes have reported new vegetables from the garden ready to eat and Mrs. Fred Milford has been canning some of hers. Here is hoping the good work spreads and catches in every home. There is a crop of fruit set on

all bearing fruit trees and vines and if no calamity befalls us we will enjoy a full supply of fruits of every kind this season. Pecans seem to have suffered seriously in the low grounds, but the extent of damage cannot be determined at this writing.

Public Tested in Texas by Texans
Public Tested
HUMBLE MOTOR FUEL
You, too, can make this test
Humble Motor Fuel was first introduced to the motorists of Texas without exaggerated advertising claims. We simply asked Texas motorists to find out for themselves what it would do by testing it in their own automobiles. Its success was immediate. Public-testing demonstrated that Humble Motor Fuel definitely delivers smoother performance.
Since then, Humble Motor Fuel has been changed and improved to keep pace with the changes and improvements in automotive design. This is in keeping with Humble's policy to give Texas motorists the right product at the right price. And to confirm our own laboratory results, we have from time to time continued to invite our customers to make a public-test of Humble Motor Fuel in their own automobiles. The results are recorded on thousands of check cards in our files; these say, Humble Motor Fuel is second to none, that it fills a definite public need.
With confidence that you, too, will like the performance of Humble Motor Fuel, we invite you to test a tankful in your car and to compare performance with any gasoline sold for regular price you have ever used. Test it in traffic, test it on the highway, test its pick-up and the way it starts. Public-testing is a more powerful argument than any we could use

Gardeners hung up a \$21 value garden record in 1934—and that in spite of the drought—(we should have a rubber stamp for those last words!) according to figures compiled by Extension horticulturist J. F. Rosborough from the annual reports from counties having extension agents, where 22,683 garden reports showed \$480,253 profit.

Good as this was, Rosborough is backing 1935 gardeners to beat it and to this end is coaching them on subirrigation to defeat the drought. And warning them to watch out for mildew on the peas and all the varied crawling, creeping, sucking, chewing insects likely to cut down profits.

"Making the punishment fit the crime," he has a spray or poison or trick ready to meet each attack and wise gardeners will follow his advice as to which to use. That way neither time, labor or money will be wasted.

To prune or not to prune? is the question that vexes tomato growers. Whether it is better to pinch the eager sucker and so increase the size and earliness of the fruit, or let them grow and lose this great advantage, Rosborough says nip 'em.

He says also stake tomato plants in the region of generous rainfall, in regions of limited rainfall staking is not necessary since it is done

to insure that the fruit does not rest on the ground and become blemished.

DALLAS—Because green feed was added to the ration for his hens, C. A. Luper of Dallas county gathered an average of five and one-half eggs more per hen in March, 1935, than in March, 1933, according to Dale Merwin, county agricultural agent. During the winter of 1933, Luper had no green feed for his hens but fed three and one-half pounds of mash and three and one-half pounds of grain per hen. He received an average of 19.4 eggs per hen.

Luper planted alfalfa and in March 1935 he fed his hens, three and one-half pounds of grain and four and one-third pounds of mash with green alfalfa. His flock averaged 25 eggs per hen.

SAN MARCOS—"Hays county's self liquidating terracing project is moving forward with unexpected speed, 625 acres having been terraced since Jan. 4 when the new equipment was put into use," says Jack Williams, county agricultural agent. More than 595 acres had been terraced prior to that time with the old equipment, giving a total of 1,125 acres having been worked since the project was begun.

Lines have been run on approximately 400 acres and this land will be terraced in the next few weeks. Land which has been listed for terracing but which has not had lines run upon it totals approximately 7,000 acres.

The project is self liquidating, for the money which the farmers pay for terracing is applied to defraying expenses and paying for the equipment. Farmers are paying \$2.25 per hour for the work, and the average cost per acre runs between 75 cents and \$1.65, depending upon the conditions under which the equipment works.

MIDLAND—More than 100 garments valued at \$127.55 were made in the past year by eight Midland county wardrobe demonstrators at a cost of \$36.85, according to Miss Myrtle Miller, county home demonstration agent. The average expenditure for each of these first year demonstrators from Aug. 1, 1934, to April 1, 1935, was \$27.31. The largest expenditure for any one kind of clothing was \$9.91 for footwear. The lowest item of expenditure was 89 cents for headwear.

Heiress to Wed CCC Worker

Love at first sight came to Adelaide Moffett, 18, beautiful, talented heiress, when she peeped over her shoulder. Out of that glance has blossomed the favorite of fiction romance, "Rich girl to wed poor boy." Daughter of James A. Moffett, New York millionaire, the retiring federal housing chief, she will become the bride of Henry Gibbins, Jr., who last summer was digging graves in Arlington cemetery as a \$4-day CCC worker. He is the son of Brig. Gen. Henry Gibbins, assistant quartermaster general of the U. S. army.

Weekly Sunday School Lesson

Sin, Repentance and Faith

Text: Luke 15:11-24.

The International Uniform Sunday School Lesson for May 3.

BY WM. E. GILROY, D. D. Editor of Advance

OUR lesson deals with three things that have been very real all through human history. The reality of sin needs very little emphasis. We see the evidences of it on every hand, and the records of the past speak chiefly of what we find in our own age.

Here is this tragic record of the prodigal son, leaving a good home and a kind father, going out into life to have his fling, to waste himself and his substance. It is the old, familiar story of sin and the allurements of sin that turns out to be a snare and a tragedy.

In this, also, the story is not old. It is the story of what is happening in many lives today. If that were the whole story, life indeed would be dark and dismal. But the worth of our study of Sunday school lessons, and of our teaching of them, is found in the fact that there is a way out of the abyss of sin.

MAN may rise from his mistakes and errors. He may still be the bird with the broken pinion, never able to soar quite so high again, for it is true that though sins be forgiven, they often leave their indelible marks and their effects. But even broken by sin in body and soul, man may find a new peace with God and the beauty and glory of a new life.

Lorene Coyle, Wardrobe demonstrator in Houston county, make her clothes by a foundation pattern, but she also adds a stylish touch by trimming them with hand carved wooden buttons which she makes from native woods, according to Miss Orene McClellan, home demonstration agent. With a few simple tools including a coping saw, a small drill, a pocket knife and a razor blade she has developed several different designs in buttons and buckles. To date she has used walnut, gum and cedar, but she will experiment with other woods such as holly and pecan as soon as she can get some seasoned wood.

BONHAM—At a cost of \$2 for paint and labor, Mrs. A. E. Campbell of Fannin county has provided storage space for the 88 varieties of canned food in her pantry by repairing an old handmade walnut cupboard belonging to her

Cardui Brought Improvement Because she was subject to pains, nervousness, irregularity, and began to feel so weak, Mrs. Retta McDonald, of Stearns, Ky., began to take Cardui. She writes: "Cardui is fine. I could see an improvement right off. I took about eight bottles. I am lots better. I am over the weakness and my head and back do not bother me now." Resistance to monthly pains is naturally increased, bringing relief, as strength of the whole system is built up. Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

grandmother, according to Miss Minnie Eldridge, home demonstration agent. Mrs. Campbell rearranged the shelves, added new doors, and painted the cupboard apple green. As it was not large enough, she built other shelves on top of it. Each section is stocked with required products according to her food budget plan and saves her many trips to the smokehouse where her food was formerly stored.

THE POET'S CORNER.

"THE CITY OF TENTS" Under the early morning sun The land gleamed dewey green, Earth's jewelled hills, emerald of mesquite, Jade of the oak, jaspery quartz of the cedar. Thus lay the virgin land of the city of tents.

Tents of purest white, of doeskin, Brilliant tents of leather leavings, Painted tents of herb-root markings, Strung like jewels of different colors. By the water's gleaming ripples, On the hillside's verdant bosom, O'er the vega's velvet pastures, Thus the first tents of this city: Indian wigwams, Indian warriors.

Came the march of other warriors, Warriors palefaced, pioneering, Came the great iron horse, steam-puffing, Came new tents of different making, Tents set row on row unending, Tents of colors one and only, Set like soldiers placed for battle, Thus the tents of Texas Rangers, "Rangers" whence the name was taken.

From the early camp of Rangers A town began to grow, Earth's green carpet changed her pattern day by day, Earth's jewelled hills yielded rough mesquite cabins, Fence posts from oak, fragrant beds from the cedars, Thus changed the land of the city of tents.

Tents of brown without a floor, Small square tents with door-flaps flying, Canvas tents of crudest making, Crowded close to one another, By unpainted shacks and buildings On the hillside's sloping bosom, O'er the vega's oil-filled pastures, Thus the tents of Ranger's oilfields Oilfields rich beyond all dreaming.

Came the cry, "To other oilfields, Oilfields new, where wealth is waiting," One by one the tents were folded, And the oil people were moving; Leaving those whose homes were rooted Deep upon the hillside bosom; Sure and safe upon the vega, Thus the tents of Ranger vanished! Thus the legend must be finished!

Under the early morning sun The land gleams dewey green, Earth's verdant hills, adorned by jewels of time, With homes and schools, in a pattern of old and new; Thus doth lay the land of the city of tents!

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sick and the world looks pink, don't make a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just hangs in the bowels. Gas builds up your stomach. You have a thick, bad taste and your breath is foul. Skin often breaks out in pimples. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel 'up and up.' They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Beware a substitute. 25c at drug stores. © 1931 C. M. Co.

**IDLE HOURS IN COURTROOM
INSPIRED KELLY'S FAMED
'VIRGINIA JUDGE' SKETCH**

If shipbuilding in Newport News, Va., had not lagged one summer in the early 1930's and if one shipbuilder in particular had not chosen to spend an idle hour in a local police court—there might have been no "Virginia Judge," Walter C. Kelly might not be a motion picture actor today—and the world in general would have missed a lot of fun.

It was through just such a hazardous set of circumstances that Walter Kelly's famous "Virginia Judge" characterization, a favorite of the English-speaking stage throughout the world for more than thirty years, was first born. Kelly told the story of his first significant visit to the Virginia courthouse on the sets of Paramount's "McFadden's Flats," the picture in which he makes his debut and which comes Friday to the Arcadia Theatre.

Through the failure of finished materials to arrive at the shipyard, Mr. Kelly found himself. It was during this period, one warm and sultry morning, that he wandered into the local police court.

It was held in the basement of the city hall. It was presided over by a tall, gaunt Virginian whose ancestors had settled there back in its early history. He was a quaint and lovable character and his broad philosophy, whimsical humor and love of justice had long established him as a leader in the community.

"On my first visit to this crude temple of justice," Mr. Kelly relates, "I found a motley crowd of male and female darkies, both friends and accusers of a dozen or more darky prisoners who looked through the heavy barred door of the prisoner's pen in the rear.

"Suddenly the jailer barked a hoarse announcement that the judge was about to enter and amid a buzz of hushed excitement from the crowd, followed by the jailer's rather noisy ejection of the blood hounds, Judge Brown ascended the bench and scanned the docket for the day.

ROMANCE IN THE AIR

Grace Moore with Lyle Talbot and Tullio Carminati in "One Night of Love"—a Columbia picture. Grace Moore and her two romantic leading men, the suave Tullio Carminati and the carefree Lyle Talbot, make a handsome trio in Columbia's sensationally successful, "One Night of Love" which comes to the Arcadia Theatre Monday and Tuesday. As rivals for the affections of the ravishing Miss Moore, Carminati and Talbot provide a good deal of the comedy and romance that distinguish the film today.

The opening bout will be between Handsome Jack Hendricks, 180 pounds, of Chicago, and a new-comer, Eddie Wallace, 175 pounds, of Portland, Ore. **What Does Your Family
Think of You?**

The real test of a man's religion is how he acts at home. Are you kind, amiable and sweet in your family circle? "Bear ye one another's burdens and so fulfill the law of Christ," is the teaching of Christianity.

We can follow Christ's teachings without going to church, but we thus deny ourselves many opportunities to help others. Help the church exert the influence in the community that it ought. Link your effort with the energies of those who are trying to build up the best things in town. Come to church Sunday.
