RECKLESS CELEBRATORS IN NEW YORK DO DAMAGE.

BULLETS BRING BLOOD

Three Persons Killed and Over 100 Injured in Chicago—Suitable Celebration in Cuba and Central and South America.

New York, July 5.—At police headquarters 125 accidents due to the use of explosives in celebrating independence day have been reported during the past twenty-four hours. However, hospital officials announced, however, that 147 accidents were not being treated there alone. Stray shots fired by reckless celebrators injured three persons so seriously that it is feared all may die from their injuries.

Four young men were terribly injured, three possibly fatally by the explosion in Brooklyn early today of a big bomb with which they were going to wind up their celebration.

Chas. Kennedy, aged 18, was injured about the thigh and legs, he may recover. Those believed to have been fatally injured are: WILLIAM WAINSCOTT, 19, Milford, N. J. EDWARD RYAN, 20. WILLIAM HARTIG, 20.

The force of the explosion mangled five externally as well as inflicting internal injuries. Chicago's Bloody Record. Chicago, July 5.—Three persons were killed and more than 100 injured in the celebration of this year's Fourth of July in Chicago. Of these all the killed received the fatal wounds from fire arms, while twenty-two others were injured by guns and stray bullets.

The desire to have some unique machine with which to emphasize their enthusiasm led to the injury of three persons, while the cannon crackers added fifty more to the list. A number of men were arrested for mischarging firearms in the city limits. Fifty arrests were made on the west side alone.

Young Roosevelt's Head Cut. New York, July 5.—Theodore Roosevelt, Jr., had his forehead cut open by a piece of flying glass while celebrating independence day at Oyster Bay. He had placed a fire cracker in an old bottle and after the explosion found his forehead bleeding from a deep laceration. Physicians rushed to his assistance, but he walked to his mother, who sat on the veranda, and asked her to bandage the wound. He soon resumed his merrymaking.

The Stars and Stripes in Peru. New York, July 5.—On all the public buildings and many residences were displayed flags in honor of the celebration of the Independence of the United States, says a Lima, Peru dispatch to the Herald. In Callao a similar display was made.

The Cuban flag was seen here for the first time. It was noticeable in various places. There was a splendid reception at the United States legation. More than 1,000 persons attended. Families of the members of the Peruvian cabinet, members of the diplomatic corps, and the chief of the army staff, General Canevaro, as well as the elite of Lima were present. Senor Jos. Payan, a Cuban, presented Mrs. Dudley, the wife of the United States minister, with a magnificent bouquet.

A Great Day in Cuba. New York, July 5.—Americans in Havana and elsewhere in the island celebrated the Fourth with a great show of patriotism, says a Havana dispatch to the Tribune. Only an order from the mayor prevented a display of fireworks. The feature of the day was a reception given by the American club, which was attended by the most select society of the city. The entire American legation was present. Several prominent members of the Cuban congress attended with Cuban officials. The president was expected, until the last minute, when he sent a note expressing great regret that many occupations deprive me of the pleasure of assisting.

A Reception Held in Chili. San Jose, Costa Rica, July 5.—The Fourth of July reception held in the American legation by Minister William L. Merry was attended by President...

EXCITEMENT IN GRAPEVINE.

Six Negro Families Under Quarantine as a Result of Malignant Scarlet Fever.

Dr. O. L. Jones, county physician, reports considerable excitement prevailing in the Grapevine neighborhood, as a result of several deaths among a negro family there.

Dr. Lipscomb, the attending physician, diagnosed the cases and pronounced them malignant scarlet fever, and the deaths were one child 8 years old, and two others, aged 16 and 18 years, one of whom died in less than 24 hours after being stricken. Dr. Jones was called in for consultation, and agreed with Dr. Lipscomb in his diagnosis. Several other negroes of other families had been exposed, and it was decided to institute a strict quarantine of all those who had been exposed for a length of time necessary for the disease to develop, and by so doing the physicians greatly allayed the fears of the people of the community, who had become worked up to a pitch which boded trouble for the negroes.

The three deaths occurred in one day, and the corpses were buried that night.

Dr. Jones says the very stringent precautions taken will prevent a spread of the disease, though he anticipates that some of those who were exposed will be stricken down with the disease. There are six families under quarantine.
