Convention Hall, Galveston, Tex., July 16 .- (Special.) Delegates were more than 30 minutes late in getting into the hall this morning and when

joined in by the North Texas delegates generally, continued for 10 minutes. F. F. Hill of Denton finally secured attention and seconded for Wells.

Cone Johnston of Smith county then spoke for Cockrell and was the only man who to this time had secured complete attention and been permitted to speak as he wanted to.

"This is no fight between Hogg and Bailey, but if it were I might be on the other side," he said. "'Tis a contest between the common people and those who want to get hold of the state government."

When he finished Pendleton of Bell moved that nominating speeches be closed. The motion prevailed and the roll was ordered called.

Wells was elected on the first ballot, receiving 611 5-6 votes; Cockrell, 371 1-6 votes.

The convention then adjourned until 3 p. m.

NORTH TEXAS WAS SPLIT UP.

The Dallas Man Could Not Hold His Own Section.

Convention Hall, Galveston, Tex. July 16 .- (Special.) The Cockrell people attribute their defeat to the enormous influence of congressmen exerted at the last moment in favor of the machine.

The vote shows the solid North Texas delegation so widely claimed by the Cockrell managers was badly broken. Cook, Denton and other heavy ones went for South Texas. When Senator W. A. Hanger voted Tarrant's 19 for Wells, there was cheering for a

IN THE HANDS OF THE PASS PACKERS

Colonel Hogg Thinks the Railroads and the Congressional Trust are Doing things to the Democracy of Texas.

Galveston, July 16 .- (Special.) The talk of the meeting is the attitude of Jim Hogg who avers the Democracy of Texas is in the hands of "pass packers" and the "congressional trust." Hogg, whose political finish was depicted in the sky four years ago, is here and one of the hardest yellers for Cockrell of Dallas for state chairman. He has found little good in the convention, and says should Wells be elected the Democracy will have a difficult time keeping its feet. He seems to be possessed of information of a meeting of congressmen held in Houston Sunday, where, he claims, it was arranged by Bailey, Burgess of Gonzales, Burleson of Austin, Ball of Huntsville, Slayden of San Antonio and Henry of Waco, that the will of the people should be overridden and Jim Wells elected chairman. Last night as the big convention hall was pouring out the crowd the ex-governor who stood in the lobby espied Congressman Randell of Sherman. Rushing over to him Hogg said:

"Randell, let me congratulate you on not being a member of the trust.' "There is no congressional trust as

you put it, governor," replied the congressman. "I know better," he went on, "they are here, so are the pass packers. Texas

Temporary Chairman Pendleton rapped for order there were many vacant seats.

The report of the credentials committee recognizing the attending delegates and all proxies was submitted and adopted.

The permanent organization report was submitted and adopted and Judge W. P. McLean of Fort Worth, who was selected as permanent chairman, was escorted forward and introduced. He responded briefly, thanking the delegates for the honor conferred upon him and congratulating the Texas Democracy upon its many victories.

The order of business adopted by the convention eliminated all nominating speeches save that of Judge Reagan in presenting Lanham's name.

A motion was made providing that while the convention was waiting for the report of the committee on platform, nominations should be proceeded with. It was announced though, that Col. Lanham was not in the hall and a 15 minutes' recess was taken to await his arrival.

After recess Gov. Sayers and ex-Gov. Lubbock took seats on the platform.

Chairman McLean introduced Judge Reagan to nominate Lanham for governor. His speech was brief but owing to the confusion could not be heard far from the platform. The cheering lasted a minute when the speaker mentioned the candidate's name.

Corless Bee of San Antonio made the seconding speech.

In a few minutes the committee to escort the nominee to the platform moved down the left aisle of the hall with Col. Lanham among them. The band played "Hail to the Chief," while the convention attendance, now quite complete, arose and continued cheering until the party reached the front.

The nominee mounted the steps leaning on the arm of Former Governor Lubbock. He began speaking at 10:45 o'clock and was cheered to the echo several times. In his talk he paid tributes to Bee of Bexar county, who made the seconding speech, and to Reagan, who made the first address. At the mention of Reagan's name and the declaration to him: "You are nearer, dearer and closer to the hearts of the people of the South than any other living man," loud cheering was renew-

Pathetic was the incident as Col. Lanham turned and embraced the form of Judge Reagan, who was vibrating with emotion. He finished speaking at 11:30.

Zacharias R. D. Hart, T. M. Campbell, Howard Martin, W. T. Eldridge and F. R. Lubbock escorted Mr. Lanham to the stage. He said: "To succeed in a long line of illustrious names without the acrimony of competition. is indeed a superlative honor."

Mr. Henderson of Rusk, introduced a resolution declaring that the other candidates all of whom had no opposition be nominated, and it was adopted by acclamation.

Hogg saw his political finish several years ago, yet retains a strong following.

THE FIGHT FOR CHAIRMANSHIP.

Conflicting Claims of Candidates Made Tuesday Evening.

Convention Hall, Galveston, Tex., July 15-(Special)-The fight for state chairman has assumed additional interest by the arrival on late trains of large delegations of supporters of both candidates.

The Cockrell people claim 600 votes and that they lost 25 during the night by the personal influence of the Wells people. This being true the Dallas man will go in on the first ballot. On the other hand the Wells people say they have by actual count 641 and wat recent arrivals of delegations heretofore claimed by Cockrell have been secured for their man.

The Cockrell people are not pleased with the action of Tarrant in agreeing to support Wells. As a neighboring county they say its votes should have gone to the Dallas men. The statement that Cockrell is Lanham's choice has been denied by Tarrant county people. The matter of a choice will probably be reached at the morning session.

Will Adjourn Tonight.

Galveston, Tex., July 16 .- (Special.) The convention will adjourn tonight. At the afternoon session the platform will be considered. A. W. Terrell of Austin will speak for the minority report.

The English war office has many schemes for training their soldiers, and which are generally followed up by practical demonstration. The latest is a device for locating guns firing smokeless powder, and its success will mark a new era in military progress. It is also interesting to consider the wonderful advancement in medicine during the past 50 years. It was about that time that Hostetter's Stomach Bitters was first introduced, and during those years has made such a wonderful record of cures of such ailments as indigestion, heartburn, dyspepsia, belching, constipation and liver and kidney troubles, that today it occupies the foremost position as a family medicine. S. W. T. LANHAM, DEMOCRATIC CANDIDATE FOR GOVERNOR.

Colonel Lanham was born in the Spartanburg district, South Carolina, in 1846, and is therefore 56 years of age. His first service in congress was as representative of the old Eleventh district in the Forty-eighth congress. He was re-elected to the Forty-ninth, Fiftieth, Fifty-first and Fifty-second congresses and, having declined to stand for renomination in 1892, was out of public life for four years. At the end of that period he was elected to the Fifty-fifth congress and has served continuously ever since.

The Peculiar Ring That Was Owned

Marquise du Barry, whose lovely head fell into the basket beneath the guillotine in expiation of her levity, extravagance and folly, had in her possession a stone of which the Paris jewelers were unable to tell the precise nature.

There appeared upon it below the surface and as if under water an outline of a picture containing human figures. Strange to relate, when first the gem was given to its afterward unfortunate possessor this outline was not clear, but after it had been some months in her possession it grew more vivid.

One day the negro boy, Lamor, who was afterward instrumental, from revenge, in the downfall of the Du Barry, declared, looking at the jewel, that he could decipher the figure of a wom-

Suits Filed in County Court. The following suits have been filed in the county clerk's office:

Carlock & Gillespie vs. the Fort Worth and Denver City Railway company, action for \$1000 for injuries received by one E. J. Wynne while engaged in the service of the defendant company. It appears that Carlock & Gillespie contracted with Wynne to prosecute the suit for \$1000. The company settled with Wynne for \$500 and he spent the money. Now the attorney firm sue for the entire amount, claiming to have notified the company of the contract.

T. H. Barham vs. the Fort Worth and Rio Grande Railway company, action for \$1000 for being scalded and burned.

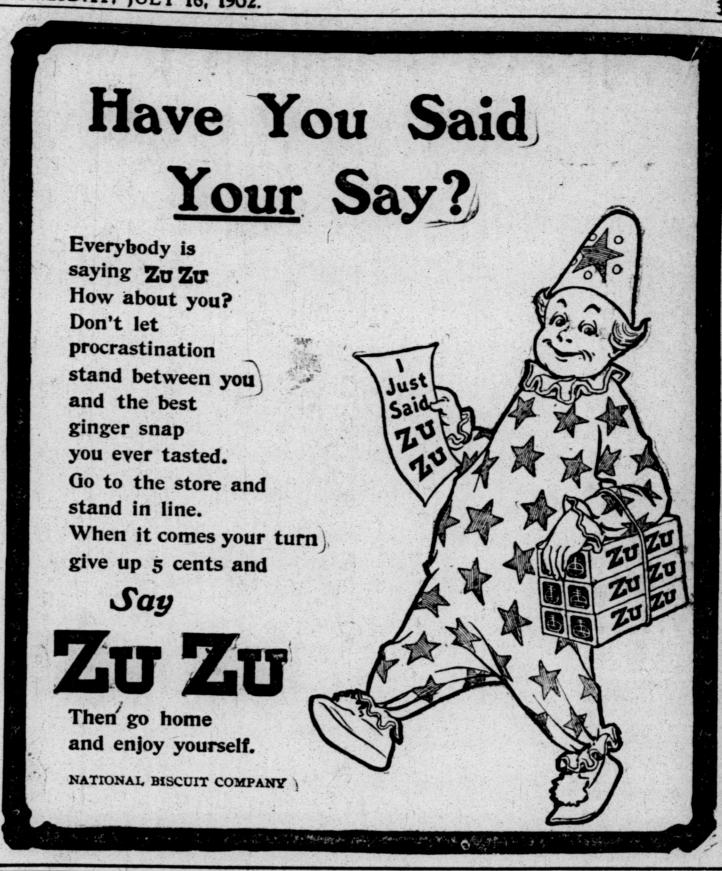

John Scott vs. the St. Louis and Southwestern Railway company, action for \$250 for injuries to a mare causing her death.

Mrs. M. J. Overfelt vs. the Northern Texas Traction company, action for \$1000 damages for injuries received last November while alighting from a car.

Will Morrow vs. Mary Morrow, action for divorce; alleging harsh treatment and final abandonment.

George Fegle Is Dead.

A telegram was received at the county attorney's office late yesterday afternoon that George Fegle had died at Galveston. It will be recalled that on the night of June 6 Fegle was shot in Lenglet's saloon by a Santa Fe fireman from Taylor named Bob Goettsche. The latter escaped, but later gave himself up at Taylor, was brought here, jailed and indicted for assault to murder. He was allowed bond in the sum of \$1000, but failed to make the bond before Fegle's death, and now will be held on a charge of murder. The grand jury, however, has adjourned, and will not reconvene until September. It is said the bond for Goettsche's release was ready to be submitted when the news came announcing Fegle's death.

The members of the Salvation army and a number of their friends including a small army of children, are enjoying the day at the city park. The army members and children marched from the barracks to the Seventh street car line this morning and rode out to the park. Dinner was spread on the ground, and during the afternoon a number of watermelons were cut and all feasted to their appetite's

FAREWELL AUDIENCE AT ROME.

Governor Taft Ends Negotiations with the Vatican.

Rome, July 16 .- At noon today Maj. Porter of the judge advocate's department of the army at Washington personally delivered to Cardinal Rampolla the last note of Judge. Taft on the subject of the withdrawal of the friars from the islands which will presumably end the governor's negotiations here as Maj. Porter simultaneously presented a letter from Judge. Taft asking for a farewell audience of the pope.

an with disheveled hair leaning before a scaffold and surrounded by a crowd, while beside her stood the executioner.

A strange but authenticated circumstance is that the negro servant boy precisely described the guillotine. Dr. Guillotine had not then invented his celebrated instrument of death, nor had the horrors of the revolution begun.

Snatching the jewel from the hand of the servant, Mme. du Barry examined it, saw the kneeling woman, the angry crowd, the death knife falling, and, with a cry of agony, fell senseless to the floor.

Light on an Old Subject.

Old Mrs. Hubbard, several years after the poem appeared in print describing her fruitless visit to the cupboard in search of a bone for her poor dog, was speaking of the incident to her next door neighbor.

"In the first place," she said, "it wasn't worth making a poem about, and, in the next place, the man didn't get it right. I saw the dog was hungry, and I went to the icebox and got a nice piece of raw beef for him. I don't feed my dog bones. And if I did I wouldn't keep them in the cupboard. The cupboard wasn't bare, either. It was just as well filled as anybody's."

"What do you suppose made the felhow say you went to the cupboard?" asked the neighbor,

"He couldn't think of any other rhyme for Hubbard," replied the aged dame, lighting her pipe with a fresh coal of fire. "These (puff) poets (puff, puff) make me tired."-Chicago Tribune.

A Feast of Reason.

"I was at luncheon the other day," said a north side woman, "where the hostess was a graduate of Smith college, three of the guests were graduates of Wellesley, two went through Vassar, two had been Bryn Mawr girls, and the other ladies present were graduates of Northwestern, the University of Chicago and Wells, respectively."

"Well," one of her hearers said, "it must have been very interesting. How I wish I could have been there! What did vou talk about?"

"Let me see. Oh, yes-about how hard it is to keep help!"-Chicago Record-Herald.

Senator Morgan of Alabama is a great man. In no one act of his illustrious career has he shown this quality in a stronger degree than in his prompt acceptance of the situation when a majority of his confreres voted for the Panama instead of the Nicaragua route for an inter-oceanic canal. He has by this move tied the enemy hand and foot, pledged congress to a canal, and assured an access of prosperity for Texas and the whole South which will come from the growth of gulf ports.

Better than many sermons on the relations between capital and labor are these remarks from the annual address of President John McNeill of the Boiler Makers' and Iron Shipbuilders' Union of America, recently delivered in Baltimore. A compromise is a victory, and by it we are able to preserve good feelings between the employers and the employes. Minor strikes, such as are occurring in all parts of the country from time to time, are to be condemned, and are looked upon with disfavor by the executive board of this union. It is a noticeable fact that during the last year there have been 15 strikes sanctioned by the board, and that in each instance there has been an amicable settlement. It is our purpose to keep down strikes, and in every instance where it is possible to do so we discourage them, preferring the middle road and arbitrating difficulties, thereby being more considerate of the interests of both employer and employe.

ARCHBISHOP IRELAND ON THE YELLOW JOURNAL.

The address delivered before the National Educational association by Archbishop Ireland was notable, not only because of its subject matter, but for the reason that it voiced what has now become a widely prevalent conviction, based upon actual public experience. When he says that the newspaper of today is pre-eminently the mentor of the people, he expresses a self-evident truth, but when he criticises that self-same mentor the truth is equally self-evident, though his words will be more distasteful to the papers involved. Mother Always Keeps It Handy.

"My mother suffered a long time from distressing pains and general ill health due primarily to indigestion," says L. W. Spalding, Verona, Mo. "Two years ago I got her to try Kodol. She grew better at once and now, at the age of seventy-six, eats anything she wants, remarking that she fears no bad effects as she has her bottle of Kodol handy." Don't waste time doctoring symptoms. Go after the cause. If your stomach is sound your health will be good. Kodol rests the stomach and strengthens the body by digesting your food. It is nature's own tonic. Smallwood & Anderson, and Anderson & Smallwood:

(San Antonio Light.) The Fort Worth Mail-Telegram says: "The Dallas man who was struck in the stomach by a ball died. It is needless to add that it was not a high ball.'

Of course not. A high ball may get into the head, if caught too frequently and while it is funny it is not fatal. If it was San Antonio's mortuary list would be considerably extended.

THE BOSS WORM MEDICINE.

H. P. Kumpe, druggist, Leighton, Ala.; writes: "One of my customers had a child, which was sick, and threw up all food, could retain nothing on its stomach. He bought one bottle of White's Cream Vermifuge, and it brought up 119 worms from the child. It's the boss worm medicine in the world." White's Cream Vermifuge is also the children's tonic. Poisoning the System.

It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dulness and melancholia at first, then unsightly eruptions and finally serious illness unless a remedy is applied. DeWitt's Little Early Risers prevent this trouble by stimulating the liver and promote easy, healthy action of the bowels. These little pills do not act violently but by strengthening the bowels enable them to perform their own work. Never gripe or distress. Smallwood & Anderson, and Anderson & Smallwood.

The University of Texas catalogue is a volume of 342 pages, full of information concerning the work and equipment of the state's great educational enterprise. With a system start. ing with the primary grades and extending through the intermediate, grammar and high schools, with the university as the crowning step. Texas has an educational edifice in line with the best thought of the times and of which any state might feel proud. The generous endowment provided for the system, if properly supplemented by appropriations from the general revenue, will ultimately put Texas to the forefront in educational affairs. Keep the boys and girls at a home school where they will not be educated out of harmony with the spirit and traditions of their fathers. CATARRH

The treatment of Catarra with antiseptic and astringent washes, lotions, salves, medicated tobacco and cigarettes or any external or local application, is just as senseless as would be kindling a fire on top of the pot to make it boil. True, these give temporary relief, but the cavities and passages of the head and the bronchial tubes soon fill up again with mucus.

Taking cold is the first step towards Catarrh, for it checks perspiration, and the poisonous acids and vapors which should pass off through the skin, are thrown back upon the mucous membrane or inner skin, producing inflammation and excessive flow of mucus,

much of which is absorbed into the blood, and through the circulation reaches every part of the system, involving the Stomach, Kidnevs and other narts of the body. When the disease assumes the dry form, the breath becomes exceedingly foul, blinding headaches are frequent, the eyes red, hearing affected and a constant ringing in the ears. No remedy that does not reach the polluted blood can cure Catarrh. S. S. S. expels from the circulation all offensive matter, and when rich, pure

R blood is again coursing through the body the mucous membranes become healthy and the skin active, all the disagreeable, painful symptoms disappear, and a permanent, thorough cure is effected. S. S. S. being a strictly vegetable blood purifier does not derange the Stomach and digestion, but the appetite and general health rapidly improve under its tonic effects. BRITISH COLONIAL FEDERATION A REALITY

By the Right Hon. ST. JOHN BRODRICK, Secretary For War of Great Britain

n

HAT DREAM OF COLONIAL FEDERATION WHICH SO MANY BRITISH STATESMEN HAVE ENTERTAINED FOR SO MANY YEARS HAS BEEN MADE A REALITY BY THE BOER WAR.

And it has been realized at last that it is possible

to look upon an empire not merely as a machine for ambitious sovereigns or ambitious statesmen, but as an association for the mutual support and confidence of those who are bound together under one crown and who have voluntarily come together for a purpose which was akin to all and in which all have been interested.

I BELIEVE THE TIME WILL COME WHEN WE SHALL LOOK BACK ON THE RESULTS OF THIS WAR, NOT AS HAVING PUT SHACKLES OF SERVITUDE ON A NUMBER OF FREE MEN, BUT AS HAVING BEEN THE MEANS OF GIVING FREEDOM AND THE ESTAB-LISHMENT OF A GREAT EMPIRE IN SOUTH AFRICA: not as having taken away from a body of agriculturists all that which they held dear in their own land, but as having added to them and given them a participation in the commercial prosperity of a great country.

VIOLENT DOWNPOUR OF RAIN AND HAIL ENDED THE HOT SPELL IN NEW YORK.

TAMMANY STRUCK

LIGHTNING SHATTERED FLAG STAFF ON THE HALL.

A RUSH FOR SOUVENIRS

People Scramble Over Each Other to Get Pieces of the Splintered Pole -Other Storm Damage About the Metropolis.

New York, July 16 .- A violent storm of rain and hail accompanied by heavy lightning has put an end to the hot wave here.

Brooklyn suburbs were swept by hail which shattered many windows, trees were uprooted in the gale and two houses set on fire by lightning.

In the lower sections of Manhattan the most serious effects were noted. The steel works of the Hanover bank's new 22-story building at Pine and Nassau street were apparently charged with electricity, sparks flashing with almost as great brilliancy as that given out by the arc lighting.

Lightning struck the flag pole on the roof of Tammany hall, shattering the staff half way down its length. As the splintered wood fell into 14th street. crowds made a rush for pieces to bear off as souvenirs. The bolt passed off without doing further injury, although there was considerable excitement done in the neighborhood.

The storm was general throughout the northern part of New Jersey. Lightning struck the steeple of the Arlington M. E. church setting it on fire. The steeple stood out like a great blazing torch attracting crowds from all parts of the city.

The firemen were unable to cope with the fire so high in the air and the steeple burned down 120 feet to the roof of the church. The loss was estimated at \$50,000.

Hailstones fell in New York doing considerable damage. Windows were broken and several horses stampeded

OLD SETTLERS AND SOLDIERS.

Many Reunions at Nearby Points This Year Being Well Attended.

Today, tomorrow and Friday the Confederate Veterans of Ben McCullouch camp and old settlers will indulge in a reunion two miles south from Decatur. Many Fort Worth veterants will be in attendance.

A reunion is also in progress at a point twelve miles out from Amarillo. Old settlers, old soldiers and their families each year indulge in a few days' camping at this point, and the gathering is each time attended by quite a number of Fort Worth citizens. The reunions at Hillsboro and Mexia are also being attended by delegations from Fort Worth, and several are preparing to go out to Eastland Saturday morning for a similar purpose.

READY FOR ENCAMPMENT.

Several Companies of Texas Volunteer Guard to Start from Here.

On next Monday morning the Fort Worth Fencibles will leave for the state encampment at Austin. Companies from Quanah, Abilene and Gainesville will concentrate here, accompanied by the Fourth Regiment band from Bowie, and depart with the Féncibles. These companies will join the main train at Cleburne, and all will be in charge of Maj. C. O. Elliott of this city.

The Fencibles are making active preparations for the trip and encampment.

GOSSIP OF REUNION JULY 30 AND 31

Dallas Veterans and Sons of Veterans Getting Ready for the Coming State Meeting-A Good Time Promised.

State Commander John M. Adams of the United Sons of Confederate

Veterans met with the Dallas committee of veterans and sons in Dallas vesterday to discuss reunion probabilities and possibilities for July 30 and 31.

The sessions will be held at the fair grounds, and the Sons will meet in the quarters occupied by Maj. Gen. Van Zandt at the national reunion. Cots will be provided for all who attend as it will be necessary to remain over only one night.

The Sons' camb of Dallas will hold a meeting tonight, at which definite arrangements will be made for the Sons' part of the reunion program insofar as Dallas is concerned, and Commander Seay will notify State Commander Adams tomorrow of the result. Com

Nothing elaborate is contemplated be-

Among the 162 graduates from the University of Texas this year was a young man who made his way through the institution as a barber. In the afternoon, during the early morning and at night, he worked at his trade to earn money for his expenses and between these periods he snatched enough time for preparing his lessons and for recitations. Despite this drawback, his record for scholarship and efficient work was nounced that during his senior year a fellowship was awarded to him, carrying salary enough to defray his college expenses. He graduated with distinction and with the profound esteem of his classmates and instructors. During the past year more than 100 students have either partly or entirely supported themselves by some sort of labor while in the university. Among this number was a young man who secured his master's degree, and who for the past five years has earned the money spent on his education and yet stood at the head of his class. Now a friend is to furnish funds and he will go to Harvard in the fall and continue his studies in that great institution for two or three years. With such examples of courage and resourcefulness, no ambitious young man, however poor, need despair of getting an education. Texas has provided its system of free schools and a university with free tuition largely for the benefit of this class, who otherwise would be deprived of the beneficient influence of an education. In an institution where all classes mingle on equal terms, where character and mental power. alone receive distinction, democracy and its principles fourish: and the spirit thus awakened and fostered is the surest indication of the perpetuity of our form of government.

HE SCIENTIFIC MAN JUST NOW IS CONFRONTED WITH THE QUESTION OF SYMPATHETIC VOL-CANIC OUTBREAKS AT WIDELY DISTANT POINTS. BUT HE CAN NO MORE EXPLAIN THIS MYSTERI-OUS COINCIDENCE THAN CAN THE YOUNGEST BORN CHILD IN ITS CRADLE.

Weak in his knowledge of the birth of volcanoes, deficient in sufficient data concerning their habits and action, it is utterly impossible for him to prognosticate with certainty their future behavior.

The object of every scientific man who recently visited Martinique and St. Vincent was to collect data whereby he could derive some knowledge of the laws of the phenomena, and yet they were obliged to depend for their information largely upon the testimony of eyewitnesses who had never seen a scientific book. These volcanoes presented many phenomena hitherto unobserved, and it will require months of careful study and deduction before the cause of the outbreak can be stated.

It is generally presumed that the cause of volcanic action is the meeting of water with the hot magma below the immediate surface of the earth, causing explosions whereby vents are opened through which the hot magma forces its way to the surface through its power of expansion. BUT THE NATURE OF THAT GREAT UNEXPLORED MAGMA OF THE EARTH'S INTERIOR IS TODAY ONE OF THE PROFOUNDEST AND LEAST SOLVED PROBLEMS CONCERNING OUR GLOBE.

The British to do Business Again in Louisiana.

Chicago, July 16 .- The British transport service, which for so many months conducted an active trade at Port Chalmette, is to re-open its camp there for the shipment of horses, mules and cattle to South Africa, says the Chronicle's New Orleans correspondent. It found that the American animals are the hardiest for the yeldt work and the British government will need a great number under its agreement of restocking the farms of the burghers who suffered in the recent war. The officers are now on the way and the camp will be reopened immediately upon their arrival.

Victoria, B. C., July 16 .- Major General Sir A. R. F. Dorward, who was in command of the allied troops at Tien Tsin, has arrived by the steamship Empress of India. In an interview he said that unless Russia withdraws from Manchuria according to the terms of the agreement with China there will be war in the far east, as Japan is preparing to fight to get Russia out of that territory. Although Russia had not yet made any move toward evacuation, he had no doubt that she would do so when she found that Japan was in earnest. In the meantime, both powers are strengthening their garrisons and making other preparations. He said further that there was a report that Japan and Great Britain were about to enter into an agreement to jointly garrison some of the Chinese ports.

The Imperial Commander has report. ed to Pekin that he drove the Kwangsi rebels to the hills and following them inflicted a severe defeat.

A collision took place in June in the straights of Malacca between the local steamer Tutonia and a Chinese junk. Both vessels sank almost immediately and only 72 lives were saved out of 106. Those saved were picked up by the steamer Chow Phia, which fortunately was in the vicinity at the time.

The loss of the Siamese navy transport Chamroene proves to have been even a more serious matter than was generally supposed. It was known that the officers and crew on board

ing been damaged by lightning in 1745 when the republic built the new wall against it. The two walls never joined properly

and the old wall began to settle in 1880. The two were united with iron and thus made stable. Against the east wall was the Sansovino Logetta which greatly needed repair as rain entered where the wall joined the Campanile.

At this spot workmen last week cut through the new wall into the Campanile to put steel supports.

The old wall instantly fell some inches lower. Half a million lire (\$100,000) has

already been subscribed for the rebuilding of the tower which will be the work of several years.

The One Hundred and Twenty-Third Anniversary of its Capture.

New York, July 16 .- The dedication of Stony Point battlefield state reservation will take place today, the 123d anniversary of the capture of Stony Point by the American forces under General Anthony Wayne. Gov. Odell will deliver the dedicatory address. The opening of the reservation is

under the auspices of the American Scenic and Historic Preservation society, with the co-operation of the Empire State society of the S. A. R.

This newest reservation of New York state comprises more than 33 acres. At its highest point it has an elevation of 140 feet above the Hudson river, twelve miles south of West Point.

The program will commence with a review of military and civic organizations by Governor Odell to be followed by the dedication and addresses by well known men. A commemorative medal has been struck off, bearing the portrait of General Wayne on the obverse and the dedication inscription on the reverse.

On the border between Pinghsian and Lilling, in Hunan, where a railway line is being constructed, there are almost daily reports that young children have been found in solitary places with their hearts scooped out. Two men reported to have been guilty of this shocking atrocity have been arrested by the local officials. They will be decapitated.

Great Joy in Stock Exchange Circles on Account of a Law Passed by the Last Congress.

New York, July 16 .- A discovery, just made, that section four of the measure known as the "religious bequest" bill which was passed by congress in the closing days of the session and approved on June 27, contains a provision for the remission of taxes on call loans, has caused great joy in stock exchange circles.

Wall street was thrown into a ferment in February last when Internal Revenue Commissioner Yerkes, under the date of February 8, made a ruling that call loans were taxable under the war revenue measure. Security prices broke sharply on the first announcement of the commissioner's ruling, and although this never has been enforced, an action to determine the legality of the ruling is still pending. Had the attorney general supported the ruling of the internal revenue commissioner with a confirmatory decision by the courts and the tax had been allowed to stand on the statute books. the result would have been disastrous for many of the large brokerage houses of this city, since many of them would have to pay from \$50,000 to \$400,000 in back taxes.

While Mr. Hill maintained a discreet silence his friends on the trip explained the serpent episode by saying: "It was not as bad as that at any time on the trip."

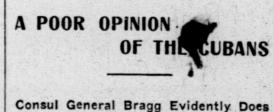

Besides the president of the Great Northern and Col. Daniel Lamont, there were George C. Clark, a cotton manufacturer, Judge Caesar W. Bunn, general counsel for the Northern Facific railroad, J. D. Farrell president of the Pacific Coast company, Charles Davis of Baltimore, Md., W. C. Toomey of Wisconsin, and Mr. Hill's son, James.

Leaving New York on the Wacouta on June 11, the party sailed direct for Labrador to Mr. Hill's salmon preserve on St. Johns river. Once there, they spent most of their time in canoes, working the river in both directions. For the first two weeks the fishing was not up to expectations on account of the lateness of the season, the guides declared, but later it made up for lost time and gave the members of the party all the sport they cared for.

Mr. Hill was much amused to learn that he was suspected in some quarters of planning to build railroads in Labrador.

"We were not after railroads this trip" he said. "In fact we all tried. our best, and succeeded, to forget all about railroads and all other business.'

Mr. Hill will remain in New York for about a week, and then expects to make a trip west.

Not Think it Possible to Make Much of an Anglo-Saxon Out of a Cuban.

New York, July 16 .- Consul General Bragg says the publication of an alleged statement by him in a letter to his wife that "Uncle Sam might as. well try to make a whistle out of a pig's tail as to try to do anything with the Cubans" was wholly unwarranted. cables the Havana correspondent of the Herald. He has telegraphed to the state department that he was not accurately quoted.

What Gen. Bragg said, continues the correspondent, was that when Uncle Sam got through trying to make a whistle out of a pig's tail he would report whether he could make an Anglo-Saxon out of a Cuban.

As a public officer in the consular service of the United States, Gen. Bragg said he would not authorize any such statement for general publication. What he thinks of Cuba and pointing power in Washington.

SPEED DESIRED WITH SAFETY, TOO

INDUCEMENTS ARE OFFERED BY GERMAN GOVERNMENT.

New Steamship Line Between Gaiveston and New York Begins Running August 2-Survey Begun on the Texas and Oklahoma-Against the Scalper-New Elec. tric Line.

Speed is the point for which all railroads are now striving, as well to accommodate the demands of the public as to secure their own profits. But with speed, safety must be considered, knowing well that safety cannot be sacrificed to speed. While progress is being made in this country little publicity is given to efforts on this line and no special inducement has been held forth to masters of craft as an incentive to the attainment of these desirable results. In Germany the government has taken a hand in the matter and has offered prizes to stimulate inventive genius along this line. In regard to it the Railway Age says:

As incidental to the matter of government control of railways it is of interest to note the recent movements toward improvements in Prussia. Realizing the shortcomings of their service, the plan of offering prizes for the obtaining of speed and safety has been used with the result of awakening much interest which of itself is a long step toward betterment. The high-speed trials held in Germany have been much discussed and in their outcome afforded some information. The latest step of the railway officials has been to order experiments made with fireproof coaches. The cars now in use are quite inflammable on account of the light wooden construction, use of varnishes and methods of upholstering. Harpers' Weekly strongly advocates the institution of such a course of improvement in this country, and as a result of the recent agitation in regard to the danger of fire in electrically driven cars it would seem that the cause is worthy of careful consideration and action. As to fireproof construction of passenger coaches much could be done by the use of all-steel trucks and underframing with fireproofed wood superstructure and non-inflammable protective coating. The question of unpleasant vibration resulting from the extensive use of steel framing is one which cannot be settled except by trial, and it. is in such actual experimentation that the Prussian roads have taken the lead. If a greater use of steel may be allowed for passenger equipment and an actually fireproof car practicable for service can be built, these facts will be discovered sooner by this actual experimenting than any amount of theory.

it is to be operated when constructed. The present survey will be run between Oklahoma City and Coalgate where it will meet the line of the Denison and Washita Valley , railroad, which is included in the deal. According to the conveyance the property of the Denison and Washita Valley railroad between Atoka and Lehigh is to be transferred to the Missouri, Kansas and Texas railroad of Kansas and the mileage from Lehigh to Coalgate to the Oklahoma and Texas; mining property at Coalgate and Lehigh are also included.

The charter of the Texas and Oklahoma has been filed at Oklahoma. City and when construction work is completed the road will be turned over to the Missouri, Kansas and Texas for operation. The property of the Denison and Washita Valley road that is located in Texas, most of it being in the city of Denison, is not affected by the deal, but will continue to be operated by the Missouri, Kansas and Texas which now has it leased.

Auditor and Traffic Manager Changed Seely Dunn, vice president and general manager of the Blackwell, Enid and Southwestern Railway company and the Blackwell, Enid and Texas Railway company, announces from the general offices at Vernon, Tex., that H. C. Brown having resigned as auditor and traffic manager to take service with another company, A. E. Coleman is appointed auditor and W. W. Irwin traffic manager of these, companies, both with headquarters at Vernon.

Didn't Go To Work.

Three non-union mechanics were brought to Temple yesterday by the Santa Fe and after their arrival the union men explained the situation to them, thereupon they bought tickets and returned to Valley Mills, where they came from, without reporting for duty.

Settlement Anticipated.

Advices from Houston are, to the effect that the strike now on is in a fair way of settlement, the railroad officials and the strikers being in conference with the result that an end of the trouble is looked for today.

Notes and Personals.

Ben F. Yowell of Tyler, claim agent for the Cotton Belt, is making this city a visit today.

J. C. Morrison, district superintendent of the Pullman Palace Car company at New Orleans, 'accompanied by his. wife, left for home yesterday after a

brief visit in this city. Superintendent W-R. Neff of the St. Louis and Southwestern is in the city today in his private car, accompanied by Trainmaster J. W. Donovan. Their headquarters are at Mt. Pleasant ... W. M. Martin, assistant ticket agent. at the city ticket office of the Texas and Pacific, left last night for a visit to New Orleans and Virginia. D. B. Keith will fill his position during his absence. James H. Smithey, formerly of the passenger department of the Fort Worth and Denver, has accepted a position in the general offices of the Cotton Belt at Tyler, for which point he left this morning. D. H. Martyn, general superintendent of the Pullman company, headquarters at St. Louis, accompanied by his wife and daughter, was in the city yesterday en route to California, leaving over the Texas and Pacific. E. E. Churchill, general manager of the Oklahoma and Texas Southern is in the city. A large force is now at work on the grading of the line between Nocona and Montague, and negotiations are in progress for ties and rails, which contracts have not yet been let. A survey has been made for a new railroad to run from San Antonio to Crowther, in Atascosa county, an enterprise backed by Boston capitalists who are interested in oil lands in that region. 'the road is to be 60 miles long. Pleasanton, the county seat of Atascosa county donated \$15,000 and right of way and depot grounds.

The joint committee, composed of representatives of the Fort Worth Stock Yards company, Swift's and Armour's packing companies and prominent citizens of Fort Worth, has been busily engaged preparing for the proper reception and entertainment of the editors of Texas and the Territories who will be here by invitation on August 4. This committee is composed. of Messrs. W. B. King, O. W. Mathews George Diehl, S. B. Cantey, George T. West and Stuart Harrison.

According to the program arranged the committee will receive the visitors at the stock yards at 9:30 a. m. and show them over the new stock yards and through the big packing plants, including a trip through the big sewer, 2,500 feet in length.

From 12:30 to 2.45 an elegant course dinner will be served in the Stewart pavilion, during which toasts and brief addresses will be had. Among the speakers will be ex-Mayor B. B. Paddock, extending welcome to the guests; Marion Sansom of Alvarado, on the benefits to be derived by stockmen and farmers below the guarantine line by the establishment of the stock yards and the packing houses; Capt. H. C. Holloway, the past, present and future of Fort Worth and Texas; Robert E. Stafford of Mineola, subject announced later. Lieutenant-Governor J. N. Browning will be invited to participate as one of the speakers and if he cannot be present Judge Wallace will probably represent the great Panhandle country. General Manager King will do the honors and introduce S. B. Cantey as toastmaster.

After the banquet a trip will be taken over the interurban to Handley and on return to the city a visit to the brewery will be on the program under the guidance of George Diehl, auditor of the company, after which the press gang will be turned loose on the general public.

Invitations have been mailed to nundreds of pencil pushers and already about 200 have signified their accaptance. An attendance of about 300 visitors is expected.

AGAINST THE SCALPER.

court Ruled That Roads Have Right to Confiscate Contract Tickets.

An interesting "scalper's ticket" detision was rendered a few days ago at Portland, Ore., by Judge Cameron. The ticket had been issued in contract form by the Rock Island, the name of the original purchaser erased and that of J. B. Ashton substituted. When It was presented to the agent of the Transcontinental Passenger association for validation he refused to validate it and took it up. He was taken into court on a charge of larceny and was discharged by the court. Ashton idmitted that he was not the original purchaser of the ticket, but had bought It of a broker. The court held that as the name on the ticket had been changed the contract under which it had been sold had been violated and the agent had a right to confiscate it. It is supposed that the ticket was sent to the joint agent by the broker in order to test the right of the roads to confiscate concact tickets when presented for validation by parties other than the original purchasers.

SITUATION AT CLEBURNE.

they.

There are 400 Men Out-No Discharge Checks-Trains Moving all Right.

There are over 400 men out at Cleburne in the Santa Fe strike. The town, which depends largely upon the railroad interests for its business, is greatly disturbed over the commercial situation, fearing the disastrous effects of a prolonged strike. All citizens are eager to assist in any way to arrange a settlement.

When the company paid off the men yesterday the checks issued to those who are out were simply for the month of June, and were not discharge checks. The unions are still holding meetings and the railroad has placed about 90 men in and around the shops doing guard duty. "All trains are moving satisfactorily," says General Manager Nixon.

NEW STEAMSHIP SERVICE.

Southern Pacific Line to be Inaugurated on August 2.

The Southern Pacific will inaugurate its New York-Galveston steamship service on August 2 when a ship will sail from each port. The service will be tri-weekly and eight vessels will be engaged in the traffic. It is expected that 65 or 70 per cent of the Southern Pacific's through business will be handled over this line, the remainder going through New Orleans. All the transcontinental freight, as well as that for Texas and the states and territories west of Galveston, will be handled through the Texas port, while that for the territory immediately tributary to New Orleans will of course be distributed at that point.

ANOTHER INTERURBAN LINE.

Most of Right of Way Between Waxahachie and Ennis Secured.

The right of way for an electric line to be run between Waxahachie and Ennis, a distance of 15.25 miles, has been secured with the exception of about two miles. This statement was made by Col. J. T. Voss who has been conducting the negotiations for the Texas Central Traction company. Col. Voss was in this city yesterday and is enthusiastic over the enterprise. Options have been secured on a tract of 10 acres of land at Rigger Springs. a point about midway between the two towns, where the traction company contemplates creating a pleasure resort; a lake and club house being among the proposed attractions.

Need More Help.

Often the over-taxed organs of digestion cry out for help by Dyspepsia's pains, Nausea, Dizziness, Headaches, liver complaints, bowel disorders, Such troubles call for prompt use of Dr. King's New Life Pills. They are gening the evening.

It is announced that the boys' uniforms will be here in a few days. The boys are enviously awaiting the arrival of their new togs.

Numerous communications from nearby towns have been received by Commandant Butte from people who have been reading of his progress here. The writers are anxious to organize similar brigades in their towns in order to interest the youngsters.

Commandant Butte will conduct the prayer meeting at the church tonight, because of the absence of Rev. Dr. French, the pastor.
