THE IRON HORSE TO INVADE THE CELESTIAL KINGDOM AND OPEN IT TO THE WORLD.

NEW BOND ISSUE

FORTY MILLION DOLLARS FOR BUILDING ROADS.

LENGTH OF THE LINE

It Will Be 900 Miles Long and Will Extend from Hankow to Canton—The American China Development Company in Charge.

New York, July 19.—It is learned from an authoritative source that the Journal of Commerce has published an arrangement for the issue of bonds for the American China Development Company has been authorized to issue by the American government. The bonds are for the purpose of completing the railroad between Hankow and Canton. It will be a matter of several months before the bonds can be engraved and ready for delivery, and it is hardly considered probable that the transaction involving their sale will be completed within a year.

There is, therefore, little indication of any very active physical work in the completion of the new road under the direct stimulus of the bond issue. It cannot be learned whether the entire issue of bonds will be taken in this country or whether European subscriptions will be invited. It is considered probable, however, that the issue will have an international character as the board of directors of the American-China Development company has foreign members. The necessary funds with which to begin the practical work of building the first section of the road were subscribed by the stockholders some months ago and were deposited with J. P. Morgan & Co.

The new bonds are a gold issue bearing interest at the rate of 5 per cent and running for 50 years. A highly important feature of the enterprise is the large amount of supplies which will be required. It has been authoritatively stated that the bulk of contracts for such supplies will be placed in this country, this being the cheapest market.

The railroad is to be virtually a continuation of the Lu Han line, the objective point of which is Hankow, which has been appropriately described as the "Chicago of China." Although divided from the adjoining town of Hanwang by the Han river, and from Wu Chang, which is the capital of the province, by the waters of the Yang Tse, Hankow constitutes, with its neighboring cities, one great center of population numbering considerably over 2,000,000 souls. But when a railroad has reached Hankow at a distance of some 650 miles from Peking, it has barely traversed half of the breadth of China from north to south. It is at this point that the American-China Development company will take up the work of construction, continuing the road from Hankow, or more properly speaking from Wu Chang, on the southern bank of the Yang Tse southward to Canton. Connecting with the Lu Han line under construction by a Belgian syndicate and apparently having a friendly understanding with the projectors of that enterprise the American line will furnish the southern section of a great trunk road extending from the capital to Canton, the great port of the China sea. At Peking connection will be made with the Chinese imperial railroad, the northern arm of which joins with the Manchurian branch of the trans-Siberian road from the neighborhood of New Chwang. Direct rail communication will thus be provided between Canton and the great capitals of Europe. The provinces to be traversed by the American line have a population twice as great as that of the United States and are rich, both in agricultural and in mineral wealth. The development of an important coal mining region in the province of Hu Nan and other demands of local traffic will require the construction of branches which will bring the total length of line between Hankow and Canton up to about 900 miles. From Canton it is intended to extend the line to a point on the mainland opposite Hong Kong, a piece of construction extending over 130 miles, which an English syndicate is understood to be ready to undertake.

MYSTERY ABOUT A DEAD TEXAN CLEARED UP.

Salem Charles Who Passed Beyond the Veil at Los Angeles Left an Estate Worth \$142,000 Cash.

Los Angeles, July 19.—The mystery surrounding the identity of the man known as "Charles Hill" who died at Good Samaritan hospital here May 17 leaving \$142,000 in cash has been solved.

His real name was Salem Charles, and his home was at Brimfield, Mass.

There are eight direct heirs to the estate, the most prominent being Salem Darius Charles, chairman of the board of street commissioners, Boston.

Salem Charles had always been an eccentric character and no reason has been found for his change of name.

It is said he made his money by importing cloth while residing in Texas before and during the civil war.

WILL FINISH WORK TODAY.

All Probability of a General Miners' Strike Has Vanished.

Indianapolis, July 19.—When the Miners' convention met this morning it was evident that all probability of a strike had utterly vanished. The convention adopted President Mitchell's recommendations as to the relief of striking miners with a few modifications.

The convention adjourned at 2 p. m. after adopting an address to the American people setting forth the miners' claims to sympathy and support.

People are flocking to Frisco to see the Jeffries-Fitzsimmons Matinee—The Fighters Both in Good Condition.

George Siler the well known referee is among latest arrivals.

There has been no change in the odds and there is very little betting at ten to four the price quoted. The Jeffries people are holding out for a shade better quotations.

Referring to the rumor that Jeffries is out of condition, Billy Delaney said: "It is all nonsense; Jeffries was never in better shape in his life than right now, or as good for that matter."

Fitzsimmons has been examined by the San Francisco Athletic Club's physician and pronounced in perfect physical condition.

PLAN FOR AIDING ANTHRACITE MINERS

Labor Unionists in New York Propose to Provide the Sinews of War for a Continuance of the Struggle.

New York, July 19.—A conference has been held here of representatives of about 25 labor unions under the auspices of the Central Federated union. The object of the union was the formation of a plan for aiding the anthracite miners who are on a strike.

Father Curran of Wilkesbarre, Pa., who tried recently to get the operators to settle the strike, was present and was invited to make an address.

"Two things," he said, "are necessary in order that the miners may win. The first is that they keep the peace; the second that they have the finances to keep up the struggle. The strike as a whole has shown that they can keep the peace. I hope they may have the funds."

After several suggestions had been made by delegates it was decided to appoint a committee to co-operate with the chairman and secretary in drafting two circulars asking for contributions to the strikers. The committee will report to the Central Federation union Saturday.

DAVID AND GOLIATH.

A Little Shot Put Old King Coffee Out of Business.

When medicine fails, they sometimes send sick people away to another climate for their health. Sometimes the climate does it, but more often they stumble on the proper food, to take, and then get well.

A lady in San Diego tells of a friend who left her home each December, for the past two winters, to go to California for her health. She says: "Almost all of her time was spent in visiting the doctor and sitting in a big chair and watching the clock to note the time for her next dose of medicine. Nervousness was her principal trouble, and with others of kindred nature, made life for her a burden."

On the occasion of her last visit, I begged her to give up the use of coffee, and use Postum Coffee. She replied that she could not stop coffee. I said no more at the time, but the next morning at breakfast, I passed her a fragrant, steaming cup of Postum, making it as it should be made. After that, I had no more trouble, and my friend drank no more coffee. But the most surprising part of the experience was the change that soon came over her.

"We began to notice it within less than a week. In less than a month, her nervousness had left her, and in three months, she was a new woman in face, figure and health. I had not dared to hope for so much benefit, although I had been greatly benefited myself by Postum, but coffee to her system was simply poisonous, and I believe this is the case with many others. She returned to her home in December, and was married within less than two months after. She never fails to give credit to Postum for her health or thanks to me for teaching her to make it properly, and well she may, for Postum has done for her what travel, doctors and medicine failed to do." Name given by Postum Co., Battle Creek, Mich.

HISTORIC MISSIONS.

ANCIENT LANDMARKS OF CALIFORNIA TO BE PRESERVED.

Rich In Tradition of the Early Civilization of the Coast—Monuments of the Pioneer Priests—How the Old Structures Will Be Saved.

The historic old missions of California, relics of a picturesque past and monuments of the earliest civilization on the Pacific coast, are to be preserved. Steps have already been taken to repair them without destroying their rough grandeur or marring the unique types of architecture which they represent.

The old structures are not to be rebuilt. They will merely be kept in their present condition because of their historic value and as reminders of the romantic epoch of American history for which they stood.

The work of saving the old missions, which are crumbling in decay and disappearing, is being carried on by the Landmarks club of southern California, whose aim is to preserve the pretty traditions that tell the story of the pioneers who inhabited that region long ago.

There is a great deal of romance woven about these now falling buildings, which once stood out as the most unique institutions of a wild and half civilized region. They represent the sacrifice of scores of human lives, to say nothing of the privation and suffering which the Jesuit and Franciscan fathers underwent in founding them and carrying on the fervently religious work for which they were intended. Round about the crumbling stone walls, defaced and marred by more than a century of exposure to wind and weather, surged the wild, fighting Indians for whose salvation the religious enthusiasts of those primitive days journeyed through peril weighted forests, sacrificing their homes, their personal comfort and even their lives to the cause which they so persistently prosecuted.

The first mission was founded in southern California in 1769 by the pioneer priest, Father Junipero. A cross was erected, a temporary structure of

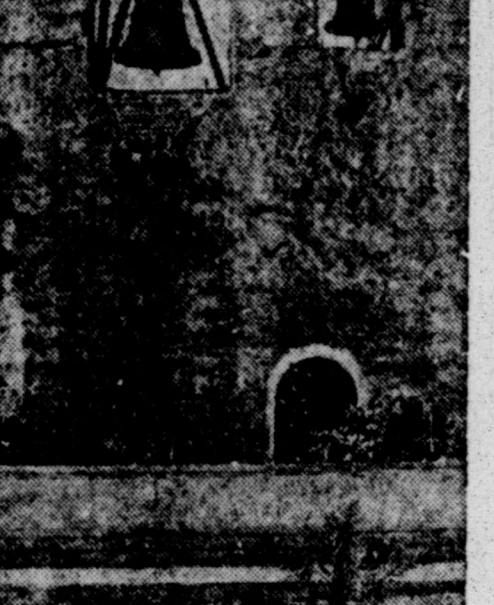

brush put up, and the bells that summoned the frightened Indians out of the forests were hung from a roughly hewn beam supported by two posts. This was the beginning of Father Junipero's memorable work among the natives of the Pacific coast, and when the kindly father died in 1784 nine institutions, consisting of substantial buildings and wonderful appointments for the time, had been established.

This brave, enthusiastic and devoted pioneer was withal a remarkable man. Soon after his arrival on the coast and before he had penetrated the dense forests for many miles he succeeded in dispelling the fears of the surprised and superstitious natives and rapidly won them for his friends. Father Junipero's predominating passion was for baptizing Indians. The saving of the soul of one redskin filled him with unspeakable joy.

An incident is related of the first infant baptism attempted at the San Diego mission. The Indians had been prevailed upon to bring an infant to receive the consecration, and preparations were made to carry out the ceremony with great pomp. Everything was ready, and Father Junipero had raised his hand to sprinkle the child's face when sudden terror got the better of the parents, and in the twinkling of an eye they snatched their babe from the arms of the priest and ran from the church. Tears streamed down Father Junipero's face, and he declared that only some unworthiness in himself could have produced such a disaster.

In 1780 the sixteen missionary padres were the spiritual leaders over 8,000 Indian converts, and by the close of the century there were eighteen missions, with forty padres and a neophyte population of 13,500. By 1846 the once prosperous missions had fallen in decay.

Some of these old missions have entirely disappeared, and others are beyond hope of rehabilitation. The more important and better built ones are in a fair state of preservation and with the aid of the Landmarks club will be preserved to posterity.

ARCHBISHOP FEEHAN'S ESTATE.

A Large Sum Left by the Late Catholic Divine.

Chicago, July 19.—It is said Archbishop Patrick Feehan left an estate of over \$120,000 which under the terms of his last will May 10 last, is distributed among the members of his family and those institutions which for years have been his especial care. The entire estate is in personal property, and over half of it is life insurance, payable to the estate.

Copies of the will have been furnished the beneficiaries and others interested, and the original testament will be filed for probate early next week. The instrument deals exclusively with the prelate's personal affairs, and there are no suggestions in it concerning the affairs of the archdiocese. It is stated by those cognizant of the

personal affairs of the testator that the estate would have been much larger had the archbishop collected in its entirety the salary of \$5000 a year to which he was entitled from the archdiocese. It is said that for many years he has allowed portions of this salary to remain uncollected and that the will which makes no reference to these arrears, cancels them.

HO, FOR A STREET FAIR.

A Move on Foot for One on an Elaborate Scale.

The uniform rank Knights of Pythias last night took action in a matter that means much for Fort Worth, and was to put on foot in a way which indicates that the project will be carried out to a successful end.

It is proposed to have a street fair for Fort Worth, the date not definitely settled, but within the next three months. It is also proposed to eclipse anything of the kind ever attempted in Texas.

J. J. Langever was made chairman of a general committee, and at the next meeting other committees are to be named to carry out every detail of the undertaking.

It is the purpose of the projectors to have some of the leading carnival attractions that have made such pronounced successes at Buffalo and other eastern cities.

The matter will be taken up with the city council and board of trade, and an effort made to get them interested, as well as prominent business men, to an extent to make it purely a Fort Worth affair, and of one week or ten days' duration.

Fuller details will be given later.

His Maiden Speech.

It is related that when the Earl of Rochester in the reign of Charles II. rose to make his maiden speech in the house of lords he said: "My lords, my lords, I rise this time for the first time—the very first time. My lords, I divide my speech into four branches—Here there was an embarrassing pause of some seconds. "My lords," he then ejaculated, "if ever I rise again in this house you may cut me off, root and branches and all, forever."

The Chinese King.

The king is the favorite musical instrument in Chinese temples. In the most perfect form it consists of a number of large flat stones of different shapes and tones. The sound is that of a chime of bells and is singularly clear and musical. The stones are said to be a peculiar variety of basalt found in the mountains to the north of China.

BRIEF BUSINESS SESSION OF COUNCIL

FOUR WEEKS' ROUTINE TRANSACTED AT LAST NIGHT'S SESSION.

One Meeting Among Many at Which Lengthy Debate Was Cut Out. Move to Pave Houston Street.

The session of the city council last night was a brief one, though it made a record for transacting more business in that short time than at any other meeting held recently. The session was entirely devoid of any heated debate, and at the close the members departed jollily each other because, no doubt, of this very fact. All members were present save Alderman Newby and City Attorney Williams, both being out of the city, the latter in attendance upon the Henrietta convention.

All business left over from the fourth of July meeting, thoroughly outlined in yesterday afternoon's issue of the Mail-Telegram, was disposed of, in addition to which there was but little new business. The finance committee reported unfavorably upon the proposition of Ben O. Smith, in behalf of the Ikard heirs, to deed to the city certain property on Tucker's hill to be used for opening up a street, in lieu of which certain back taxes were to be canceled. The report was approved. Alderman Waggonman urged that the city attorney be authorized to get possession of said certain property on which taxes were due, and that the city make of it a city park.

A warrant was authorized drawn on the police fund in favor of Chief of Police Rea for \$100 to be used as a pauper fund. The chief's report for June was received and filed.

Claims to the amount of \$3710.37 were allowed, and warrants ordered drawn for the various amounts.

The school committee's favorable report was adopted with reference to providing additional toilet apartments and disinfectants for same at the Fourth ward and High school buildings. The report was made upon the recommendation of Sanitary Officer McMichael.

A resolution from the public buildings committee was adopted, recommending that a row of iron bars be placed on the outer entrance to the calaboose lobby, also that iron grates be placed in the windows of the hospital room adjoining.

The fire chief's and city physician's reports for June were received and filed.

The former report showed, among other things, that the pay roll amounted to \$2267.33. The total expenses for the month were given at \$3376.85. Changes as follows were reported: E. E. Tibbitt resigned, W. A. Brown appointed to fill vacancy; H. Slate resigned and A. W. Peninger appointed to fill vacancy; L. N. Nichols resigned and W. B. Townsend appointed to fill vacancy; H. Wood, E. J. Driscoll and W. A. Patterson resigned and M. Riley, J. F. Roark and John Flint appointed to fill the vacancies.

The city physician's report for June showed the drug bill to be \$101.85; births, white, 21 and colored, 4; deaths, white, 29 and colored, 5. The number of premises inspected were reported to be 881, dead animals and fowls removed 180 and shops, etc., 265.

The city secretary reported \$500 received from the Northern Texas Traction company for a franchise for its tracks along a portion of Front street. Mr. Moreland urged that the minutes especially show that this was the first money ever received by the city of Fort Worth for a franchise.

The city attorney reported a settlement of the Mary Moore suit against the city.

The city attorney also reported concerning the matter of the resolution introduced at the last session of the council directing him to draw and report an ordinance compelling better street car service on the city belt line, that if the operation of the road was so grossly insufficient as to amount to an abandonment the franchise might be forfeited and the forfeiture enforced, but he was of the opinion that if the question be as to the exact service necessary for the public convenience, having also in view the receipts and earnings of the operating company and all other relevant circumstances, that then the franchise granted reserves and the city had no power over the subject. He said that he was not able to see how an ordinance could be of benefit in either case and he said he was not able to report one which he believed could be enforced.

This same officer's report on a prospective settlement with J. E. Picker of a claim of \$67 against the city for

Insanity Due to Nervous and Mental Troubles.

PAINE'S CELERY COMPOUND

The Great Tower of Safety and Rock of Health in the Hot Weather.

Nervous diseases when aggravated by mental disturbances produce more causes of insanity in the hot weather than at any other season of the year. Nervous headache, nervous dyspepsia, sleeplessness and chronic constipation induce depression of spirits, extreme weakness, morbid fears, despondency and languor; from these, dread insanity comes slowly but surely.

Nervous sufferers have a dread of hot weather. Finding themselves deeper in the pit of misery than they were in the spring and early summer, they are in utter despair.

There is hope for you, dear reader, if you are one of the sufferers. You stand in need of Paine's Celery Compound, that great builder of the nervous system. Its vitalizing action commences with the first bottle you use. The volume of blood immediately increases in the arteries, and the body is fully fed and nourished. Your appetite becomes regular and natural, the nerves and brain are strengthened, and you have impulses of health that cheer the soul.

This remarkable remedy will truly meet your case and give you a new life; it will lay the foundation for happiness and long years. We counsel you to try this marvelous summer health-restorer at once, and enjoy the blessings of health.

\$20 was received and the settlement authorized.

The city engineer reported as having caused to be paved a portion of Jackson street between Macon and Cherry, and also that other paving on same street was in progress.

The report of City Engineer Hawley that the cost for a new wooden viaduct over the various railways at Annie street will be about \$4000, was received and filed.

Mr. Hawley also reported that repairs and additions to the amount of \$4610 are necessary for the respective public school building of the city as follows: High school, \$530; First ward school, \$205; Second ward, \$150; Third ward, \$25; Fourth ward, \$195; Fifth ward, \$150; Sixth ward, \$185; Seventh ward, \$90; Eighth ward, \$60; Ninth ward, \$170; colored school (Ninth ward), \$130; colored school (Seventh ward), \$20. Total repairs, \$1910. With two additions as follows: Two new rooms, Third ward, \$2200; two new closets, Third ward, \$500. He was instructed to advertise for bids at once on all the more important propositions, leaving the lesser ones to be looked after by the city.

An estimate on the Jennings avenue viaduct, filed for \$10,100.91, showed that Leversedge & Co. had done \$3,387.37 in work and that the bridge company had delivered since the last estimate \$4928.54 in material. The Texas Anchor Fence company has delivered and has in storage on the grounds material to the amount of \$1785. The estimates were allowed.

Messrs. Brown & Dabney submitted estimates for paving on Main street amounting to \$621.60. Allowed.

The contract for a \$700 horse wagon and various insurance renewals were received and filed. The committee authorized to look into and cull down certain insurance on city property was given two weeks' time to report.

The oaths of office of T. P. Boyd, Jere J. Roche and W. L. Ligon as members of the city board of equalization were received and filed. Also those of J. W. Judkins as special policeman, and Park Moore as second extra policeman.

City Engineer Hawley reported that a culvert on Lipscomb street, between Pennsylvania avenue and Cochran street will cost \$1400. He suggests that the situation could be greatly relieved by thoroughly cleaning the existing ditch and paving it with cobble at a probable cost of less than \$100.

The petition of Dr. Adams for damages received in an accident on South Main street was referred to the claims committee.

Wm. W. McVeigh's proposition to donate to the city 100 trash cans, seven inches in diameter for refuse, to be placed at convenient intervals along the streets, was referred to the committee on health.

The communication on file from a committee from R. E. Lee camp of Confederate veterans on the condition

of the old cemetery stating that the cemetery is overgrown with weeds and grass; that there are no walks between the lots to show where they are; that the hand of vandalism can be seen in many places, flowers having been cut from the vines and rose bushes having been dug up and carried away, was referred to the committee on public grounds.

The petition from a number of property owners on Houston street urging the council to authorize the paving of the street with asphalt was read. The petition urged immediate action in order that the work might be inaugurated and completed during the summer. The petition caused the only debate of the evening. Many of the council favored brick, but were willing to vote with a majority of the property owners. Strong opposition developed against asphalt, however, Mr. Henderson, Mr. Waggonman and Mr. Lehane being especially pronounced in their opposition. The two latter said, however, they would vote for asphalt if all the property owners wanted it, as they, the property owners, were to pay for it, except at the intersections. Mr. Henderson said he could not vote for asphalt under any circumstances, and spoke to the point of not only the first cost, but the cost of keeping in repair. The matter was referred to the street and alley committee and the city engineer to see the property owners and all get together.

A number of tax petitions were read and referred to the claims and finance committees.

The John Bates claim for \$4000 for loss of house by fire was referred to the claims committee.

Mr. Lehane presented an estimate from City Electrician Crabtree for necessary material to repair the disarranged fire alarm system. The amount necessary to secure this material would foot up over \$400, not including the labor. The estimate was referred to the electrical committee to investigate and report at next meeting.

Messrs. Orrick, Moreland and Henderson suggested that the fire chief investigate and report on the advisability and feasibility of establishing sub-fire stations in the Eighth, Ninth and Seventh wards. It was shown that sections of these wards were from one to two miles from fire protection. The chief was asked to make a thorough investigation and report on the cost of equipment and what apparatus on hand could be used for either of these proposed sub-stations.

An invitation was read to the council to send delegates to the meeting of the League of American Municipalities to be held at Minneapolis this fall. The matter was referred to the ways and means committee.

Fort Worth business men possess grit, grip and "gumption." That's why they have no dull season.

John Jolly, who lives in Happy Hollow, near Pleasanton, Kas., certainly has a name that fits his home.

The reason that no two of the Convict Tracey pictures look alike is possibly that he runs instead of sits for them.

North Texas should not try to tilt up the rest of the world and South Texas, too. South Texas is pretty hefty herself.

Sheriff Cuddehe of Seattle took "King's ex" and returned to the city and Tracey. It is believed, took the opportunity to make good his get-away.

The man who was sick and disgusted and killed himself after being in Dallas one month would still be alive and well and happy had he only come to Fort Worth. No doubt of it.

The headlines of the Dallas News this morning over its Fort Worth budget runs the caption, "Man Killed by a Negress." The News man should read his Mail-Telegram closer. The victim of the negress was only shot not killed.

In an editorial paragraph yesterday "stiff necked and avaricious employers" was made by the type-setting machine to appear as "stiff necked and avaricious employees." It is hardly necessary to state that employers was intended because everybody knows that only employers are "stiff necked and avaricious."

This is the silly season at Oyster Bay, correspondents are plenty and news is scarce. That's why we learn that if the president hadn't tightened her saddle girth little Edith Roosevelt would have fallen all the way to the ground, and that little Theodore or Kermit or one of the Roosevelt hopefuls got a scratch on the head while celebrating the fourth, which wouldn't have been thought worthy of mention had it happened to any common person's "kid."

In the great rush of handling convention happenings out of Galveston, this week several errors were made by the telegraph companies, one of which showed Chairman Wells as responding in an uncomplimentary way for having been defeated. Wells was elected over Cockrell of Dallas by almost 2 to 1. Cockrell is the one who made an ungracious response and claimed he had been opposed by everything from "a convict guard to a governor." What the Democracy of Texas needed was a strong and aggressive chairman, and it got it in the selection of Wells.

BOYCOTT AGAINST BABIES.
 (El Paso Times.)

Under the heading "Are Babies Becoming Extinct?" the Fort Worth Mail-Telegram preaches an editorial sermon on the crime of the city custom which militates against the mother of a baby, who has to work for a living. Our Fort Worth exchange points out

that in cities landlords prefer to let houses to families that have no children; that apartment houses that are open to pet dogs are closed against babies; that a janitor, butler or coachman may be allowed to have a wife, but if he has a baby he can not find employment with the rich, and the widow who has to earn her living finds herself unable to get a home if she has a baby. Society is opposed to children and the halls of wealth know not the music of happy childish laughter.

The Mail-Telegram prettily puts a beautiful truth when it says that "babies are to the home what sunshine is to the fields—its life and light. The prattle and lisp, the laugh of pure joy and the patter of the little feet makes the real home and represent its real purpose."

That woman whose breast has never felt the tender thrill of maternal love and can see nothing to love in the helpless innocence and purity of a pretty, cooing baby is a human perversity, an inhuman being fit only for crime and degradation.

Poisoning the System.
 It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dulness and melancholia at first, then unsightly eruptions and finally serious illness unless a remedy is applied. DeWitt's Little Early Risers prevent this trouble by stimulating the liver and promote easy, healthy action of the bowels. These little pills do not act violently but by strengthening the bowels enable them to perform their own work. Never gripe or distress. Smallwood & Anderson, and Anderson & Smallwood.

TRY THIS TEST

And See if Your Kidneys Are Diseased.

A very simple way to determine whether your kidneys or bladder are diseased is to put some of your urine in a glass tumbler and let it stand 24 hours; if it has a sediment of a cloudy,ropy or stringy appearance, if it is pale or discolored, you do not need a physician to tell you that you are in a dangerous condition. Dr. David Kennedy's Favorite Remedy speedily cures such serious symptoms as pain in back, inability to hold urine, a burning scalding pain in passing it. Frequent desire to urinate, especially at night, the staining of linen by your urine and all unpleasant and dangerous effects produced on the system by the use of whisky and beer.

In speaking of the good done him by Dr. David Kennedy's Favorite Remedy, the Rev. Aaron Coors, D. D., pastor of the M. E. Church of Rhinecliff, N. Y., says:

"I most sincerely believe that Dr. David Kennedy's Favorite Remedy is the best kidney, liver and blood medicine made, and urgently recommend it, for I know by experience it will do all that is claimed for it."

"Favorite Remedy," is a vegetable help to the stomach and bowels in performing their duties properly. It overcomes and permanently cures dyspepsia, indigestion, biliousness and rheumatism. It is absolutely harmless and purely vegetable. It contains no narcotics or minerals in any form, no dangerous stimulants, no mercury or poisons, and is the only kidney medicine that does not constipate.

MISERY IN CLOTHES

THE EXPERIENCE OF A DRUGGIST IN SAMS VALLEY.

He Tells a Reporter the Simple Way in Which He Overcame the Difficulty.

"I have had a great many experiences," said Mr. Albert L. Gall, a druggist of Sams Valley, Ore., "but the recollection of one of them outshines them all.

"What was that?" ventured a reporter.
"Well, when I was a little fellow, about 12 or 13 years old, I began to be afflicted with an eruption of the skin, something like diminutive boils. I think the cause was an hereditary impurity of the blood. Physicians did not help me any and, in fact, their remedies seemed worse than the disease. I kept growing worse and the eruptions became so numerous that it was a misery to wear clothes. After a while my kidneys became affected."
"Your skin looks clear now," said the reporter.

"Yes, the trouble was all cured years ago. How? By Dr. Williams' Pink Pills for Pale People. I had heard of what these pills had accomplished in diseases of the blood and decided to try them. Relief came as soon as could be expected and I continued taking them until all trace of the disease had vanished. That was seven years ago and I have had no return of the trouble since."

Dr. Williams' Pink Pills for Pale People are always successful because they go to the root of the disease. Other remedies act on the symptoms—these marvelous vegetable pills remove the cause of the trouble. Not only have they cured hundreds of cases similar to Mr. Gall's, but they have proven themselves to be an unfailing specific for all diseases arising from impure or impoverished blood and weakened nerves—two fruitful causes of nearly all the ills to which human-kind is heir. Dr. Williams' Pink Pills for Pale People are sold in boxes at 50 cents a box or six boxes for \$2.50, and may be had of all druggists, or direct by mail from Dr. Williams' Medicine Co., Schenectady, N. Y.

PLANNED WELL HIS DEPARTURE FROM JAIL

The Wise County Safe Blower, Davis, Took Advantage of an Opportunity—Dug Out a Hole and Waited.

Attorney John Baskin returned from a professional trip to Decatur yesterday, and in speaking of the escape of W. M. Davis, the safe blower, who broke jail at Decatur about 2 p. m. Thursday, he says that the prisoners in jail say Davis had his plans well perfected. He had made a hole through the thick stone wall, and had the job completed two days before he crawled out, though kept the hole well covered. He explained to his associates what he proposed to do and when he was to do it. He awaited the day of the reunion festivities, saying that he believed all the jail officials would absent themselves for a time during the afternoon. Sheriff McClure was at the Galveston convention, and during the afternoon the other jail officials went out to the reunion grounds. He crawled out about 2 p. m., and it was near 4 o'clock before the officers returned, and then Davis had nearly two hours to start. A search was at once instituted, and about six o'clock a thicket into which he was seen to enter was surrounded. While the officers were drawing the cordon about the thicket a farmer came up and told them that about three-quarters of an hour back he saw the man they were after crossing a field two miles away. Since that time he has not been seen.

Davis told his associates in jail that if he got out safely that he would not have to go far before he secured assistance. He had company in his escape. A man named Jim Isom was awaiting the arrival of the penitentiary agent to be conveyed to the penitentiary to serve a two years' term for horse stealing. But it is certain that they parted company after leaving the jail. Davis had been sentenced to four years in the state prison on a charge of safe blowing, the job having been committed at Chico, in Wise county on December 5. On the morning of December 7 he was captured in this city by Policemen Temes and Garrett.

HOUSTON PEOPLE AGAINST SCALPING

WILL ASK LEGISLATURE TO PASS A BILL.

Petitions to Be Sought in Larger Centers Urging Relief to Railroads in Low Rates.

Houston, Tex., July 19.—(Special)—The people of Houston will see that an anti-scalping ticket bill is presented at the next session of the legislature, and will undertake to secure petitions from the large centers arguing its passage.

Galveston, the railroads claim, is the only town in Texas which has offered any measure of relief when low rates were given. In Houston an ordinance was passed last fall, but was hung up in the courts on an injunction until ten days ago, when it was thrown out.

At the recent session of the Louisiana legislature an anti-scalping bill was defeated.

Contractors have much of the road bed finished. A crossing will be made at Hugo on the Frisco's Paris line. Durant on the Katy and Madill on the Frisco's Fort Worth line.

From Duluth, Minn., to Galveston.

The Inter-State Railway company has been chartered at Pierre, S. D., with fifty millions capital. The line is proposed to run from Duluth, Minn., to Galveston, Texas.

Cotton Belt to Lay Heavier Steel.

The Cotton Belt will begin in a few days replacing the 56-pound steel on the line between Carrollton and Frisco Junction with 70-pound material. The distance is about thirty miles.

(Citation by Publication.)

In the district court, October term, A. D. 1902.

To the Sheriff or any Constable of Tarrant County, Greeting:

You are hereby commanded, that by making publication of this citation in some newspaper published in the County of Tarrant, eight weeks previous to the return day hereof, you summon John Billy Gray, R. C. Daugherty and his wife, Mary E. Daugherty, and James Watkins, whose residences are to plaintiff unknown, and the unknown heirs of John Billy Gray, R. C. Daugherty and his wife, Mary E. Daugherty, and James Watkins, whose names are to plaintiff unknown, and whose residence is unknown, to be and appear before the district court, to be held in and for the County of Tarrant, at the court house thereof, in the City of Fort Worth, on the second Monday in October, A. D. 1902, the same being the 13th day of said month, then and there to answer the petition of H. W. Lusher and C. E. Rockett, co-defendants, doing business under the firm name and style of Lusher & Rockett, as plaintiffs, filed in said court on the 25th day of February, A. D. 1902, against John Billy Gray, R. C. Daugherty, Mary E. Daugherty, James Watkins and the unknown heirs of John Billy Gray, R. C. Daugherty, Mary E. Daugherty, James Watkins and W. J. Boaz, as defendants. Said suit being numbered 21582, the nature of which demand is as follows, to-wit: That petitioners are the owners in fee simple and in the possession of the following described tract or parcel of land lying and being situated in the City of Fort Worth, Tarrant county, Texas, to-wit: 56x100 feet out of block 44, in the City of Fort Worth, Tarrant county, Texas, bounded and described as follows: Beginning at the N. E. corner of said block 44, at the intersection of Throckmorton and Second streets; thence S. 30 deg., E. 50 feet, thence S. 60 deg., W. 100 feet, thence N. 30 deg., W. 50 feet, thence N. 60 deg., E. 100 feet to the place of beginning; that petitioners set up claim and demand title to said tract of land under and by virtue of a regular chain of title from and under the sovereignty of the soil; that on August 28, 1877, defendant, John Billy Gray, conveyed said property to Mary E. Daugherty by deed and reserved a vendor's lien to secure two notes which said notes have been paid off and discharged and are barred by the statute of limitation; that the defendants, Mary E. and R. C. Daugherty, on October 5, 1877, conveyed said property to D. S. Brown for \$350 and reserved a vendor's lien to secure the payment of two notes, both of which have long since been paid off and discharged and are barred by statute of limitation; that on November 10, 1877, said Mary E. and R. C. Daugherty conveyed said property to D. S. Brown by deed reserving a vendor's lien for \$150 and said notes have long since been paid off and discharged and are barred by statute of limitation; that on June 15, 1880, D. S. Brown and wife, S. B. Brown, entered into a contract with Ashford & Buffington for the erection of improvements upon said premises and the creation of a mechanic's lien thereon and that the same was thereafter assigned to Boaz & Ellis of which defendant, W. J. Boaz, was a member, and the same has long since

been paid off and discharged and is now barred by statute of limitation; that on May 8, 1880, said property was pretended to have been sold by the tax collector of Tarrant county, Texas, to A. Mandelbaum, and that said pretended sale in no manner complied with the provisions of the law in force at the time and is absolutely void; and that on October 12, 1881, said Mandelbaum conveyed such rights as he had thereunder, to defendant, James Watkins; that on May 14, 1880, the tax collector of Tarrant county, Texas, without complying with the provisions of the law attempted to convey said property on account of failure to pay taxes to L. M. Prince and on September 13, 1881, said Prince conveyed such rights as he had therein to defendant, James Watkins; that petitioners and those under whom they claim have been in the actual, adverse and exclusive possession of said property, using, occupying and enjoying same for more than five years next prior to the institution of this suit; that the record of the several instruments under which defendants are setting up and claim some sort of a pretended interest in said property constitutes a cloud upon petitioners' title to said property; wherefore petitioners pray judgment for the title to and possession of said property above described and quieting them in their title thereto and canceling the evidences upon the face of the record of the apparent rights of the defendants and each of them, and for general and special relief.

Herein fail not, but have you then and there before said court this writ, with your return thereon, showing how you have executed the same. Witness,

W. D. M'VEAN,
Clerk of the District Court of Tarrant County.

Given under my hand and seal of said court, in Fort Worth, this 21st day of June, A. D. 1902.

W. D. M'VEAN,
Clerk District Court, Tarrant County, Texas.
By J. C. Braam, Deputy.

A Cure for Summer Complaint.

Summer complaint is unusually prevalent among children this season. A well developed case in the writer's family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is always kept on hand at the home of every scribe. This is not intended as a free puff for the company, who do not advertise with us, but to benefit little sufferers who may not be within easy access of a physician. No family should be without a bottle of this medicine in the house, especially in summer-time.—Lansing, Iowa, Journal. For sale by N. E. Grammer, druggist.

The OPEN DOOR IN CHINA

By Hon. W. W. ROCKHILL, ex-Commissioner of the United States to China

THE open door to commerce in China, which the United States has done so much to secure, seems better insured in 1902 than we feared it ever could be. The experience acquired by the foreign powers in 1900-01 has taught them that whatever may be the defects of the Chinese plan of government it is the best suited to that peculiar people. To try to change the present regime and substitute something more in conformity with western ideas would be folly and entail responsibilities which no nation could afford to assume.

THE POWERS HAVE ALSO REALIZED THAT ADMINISTRATIVE REFORM IN CHINA CAN ONLY RESULT FROM CONSTANT AND GENERAL PRESSURE FROM WITHOUT AND THAT SUDDEN CHANGE MUST INEVITABLY BRING REVOLUTION AND BE FOLLOWED BY YEARS OF CHAOS.

In other words, they now feel that patience and perseverance can alone effect a tolerably satisfactory solution of the problem of China's future. I THINK THAT RAPID REFORM IN CHINA IS EXTREMELY DIFFICULT AND DOUBTFUL, BUT NOT BY ANY MEANS IMPOSSIBLE. THE GOVERNMENT HAS UNQUESTIONABLY THE POWER TO CARRY IT OUT. I THINK IT WILL HAVE THE WILL. It is not surprising, therefore, that within the last few months this general feeling should have found expression in solemn assurances, by the great military powers of the world pledging themselves to uphold the independence and territorial integrity of China and reasserting their former promises to maintain the principle of the open door throughout the empire. SPHERES OF INTEREST FRIGHTEN US NO MORE, FOR THE POWERS CLAIMING THEM NO LONGER ASSERT EXCLUSIVE RIGHTS WITHIN THEM. The integrity of China is now said to be the cornerstone of European policy in the far east. Peace in China and time are now all that the powers ask for to accomplish their particular ends.

We will never settle trade questions satisfactorily till administrative reform has been introduced in China. Abolition of inland taxation will do more to obliterate antiforeign feeling and strengthen the country than any other change that can be conceived of. Railways, mining, manufactures, missionary work, foreign enterprise of every kind, must remain hampered. The open door to commerce is safe for the time being so far as the treaty powers can make it.

Mother Always Keeps It Handy.
"My mother suffered a long time from distressing pains and general ill health due primarily to indigestion," says L. W. Spalding, Verona, Mo. "Two years ago I got her to try Kodol. She grew better at once and now, at the age of seventy-six, eats anything she wants, remarking that she fears no bad effects as she has her bottle of Kodol handy." Don't waste time doctoring symptoms. Go after the cause. If your stomach is sound your health will be good. Kodol rests the stomach and strengthens the body by digesting your food. It is nature's own tonic. Smallwood & Anderson, and Anderson & Smallwood.

THE BOSS WORM MEDICINE.
H. P. Kumpe, druggist, Leighton, Ala., writes: "One of my customers had a child, which was sick, and threw up all food, could retain nothing on its stomach. He bought one bottle of White's Cream Vermifuge, and it brought up 119 worms from the child. It's the boss worm medicine in the world." White's Cream Vermifuge is also the children's tonic. It improves their digestion and assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirits natural to childhood. 25c at H. T. IT IS HANGER

NOMINATED FOR RE-ELECTION IN THE THIRTIETH STATE SENATORIAL DISTRICT.

BY ACCLAMATION

PARKER COUNTY ASKED FOR OFFICE NEXT TIME.

HERE EIGHTEEN YEARS

Platform Adopted at Galveston Given Endorsement. — Nominee Gives Words of Encouragement for Those Who Would Develop Texas Resources.

"Few comprehend what the future has in store for Texas... and it is of the supremest importance that no vicious legislation be enacted."

In the absence of Chairman George Armstrong R. F. Milam, delegate from Tarrant county, called the Democratic nominating convention of the Thirtieth State Senatorial District to order in the county court room at 11 o'clock this morning.

There were only a few delegates in attendance. Judge J. M. Richards of Weatherford represented Parker county; J. J. Hiner of Granbury, Hood county, and R. F. Milam held the proxy for Somervell county.

Temporary organization was perfected by the election of Richards of Parker, chairman, and Hiner of Hood, secretary, and afterwards the same was made permanent.

Credentials and platform committees were appointed as follows: On credentials: W. R. Parker, Tarrant; R. F. Milam, Somervell; J. J. Hiner, Hood; J. M. Richards, Parker.

On platform: W. D. Williams, Tarrant; R. F. Milam, Somervell; J. J. Hiner, Hood; J. M. Richards, Parker.

The convention adopted the report of the first named which recognized all delegates and proxies, also the following submitted by the platform committee:

"We hereby endorse the state platform recently adopted at Galveston, and hereby instruct the nominee of this convention to earnestly support the principles and measure therein set forth."

"We endorse the course of our senator, Hon. W. A. Hanger, in his fidelity to the interests of this district and of the state."

Chairman Richards gave the chair to R. F. Milam, and presented a resolution, which, in effect, declared that Parker county had not been given the senator in eighteen years, and resolved that the next nomination should be conceded to Parker county.

W. J. Bailey said this convention could not say who should be the next senator any more than who should be the next governor. Judge Richards changed the wording to a recommendation.

By a vote of twenty to thirteen it was tabled, Tarrant and Somervell voting "aye," and Hood and Parker voting "no."

Nominations for state senator being called for, Sidney Samuels presented the name of W. A. Hanger of Tarrant. He paid a tribute to the man as a gentleman, a law giver and a law maker, reposing in him the confidence of the people as well as the convention. Nomination was made by acclamation.

Senator Hanger was notified by a committee and coming forward expressed his gratitude for the distinction accorded him.

"Four years ago today," said he, when the nomination for senator was given me in this district, I had little conception of the importance of the position, but now I can say it is one of the most important within the gift of the people.

"It will not come amiss to say that it has been my endeavor in the past, as it shall be in the future, to guard your interests as I would those of my own. Few comprehend what the future has in store for Texas, after a half a century or more of statehood we are yet beginning, and it is of the supremest importance that no vicious legislation be enacted. No one who would assist in the development of her resources should be driven away; but no one should be assisted in over riding her constitutional laws."

"I shall never cease to be grateful for this distinction and honor." The convention then adjourned sine die.

A PALO PINTO COWMAN.

Wants His Friends to Enjoy Life Like a Jolly Scotsman.

W. K. Bell, the Palo Pinto county cowman, is here today. He has induced J. W. Bicknell and Jere Ellis to go out to his Palo Pinto county ranch one day next week to shoot quail—the real Bob White variety.

W. K. says that when they get tired shooting quail, they can catch all the trout and bass wanted from the streams of the Ioni mountains. This

jolly cowman had a session with Mr. Bicknell this morning in an effort to explain to him the difference between rascality and ability and W. K. says the curse to Texas is the inability of people to distinguish between the two propositions.

Mr. Bell is a prosperous stockman, whose ranch is near the famous Lovers' Retreat in the Ioni mountains of Palo Pinto, and the country abounds in living streams and good hunting grounds. He enjoys nothing so much as to have his friends visit him and partake of his hospitality.

NO ADVANCE FOR YARDAGE OR FEED

Fort Worth Live Stock Exchange Directors Adopt New Rule in Handling Stock at Yards.

At a meeting of the Fort Worth Live Stock Exchange directors held yesterday additional rules were adopted for handling stock at the yards.

Hereafter no member of the exchange shall pay for telegrams or telephone messages sent by outside customers, or advance pay for feed or yardage on such messages. A violation of this rule calls for a fine of from \$100 to \$200. Necessity for the rule is given in this instance: A customer sent in a consignment of stock, but did not accompany it. The commission company had the stock yarded and fed on order by telephone. The next day the customer did not like the market and ordered them fed again, also by phone. The third day he ordered the stock sold. The yard and feed charges were \$7.50, the commission \$6. The company was out \$1.50 with no redress.

Keep your system in perfect order and you will have health, even in the most sickly seasons: The occasional use of Prickly Ash Bitters will insure vigor and regularity in all the vital organs.

Under terms of the contract which was let yesterday 15 workmen are to be employed and complete 40,000 lineal feet each day.

IF YOU GET UP EARLY.

You May Enjoy a Treat in Seeing Soldiers in Drill. If all trains and military companies are on time Sunday night and Monday morning next, Maj. C. O. Elliott, who will be in command of the Fourth regiment troops during the state encampment, will have the Abilene, Gainesville, Quanah and Fort Worth companies do a little street maneuvering en route from the Fencibles' armory to the union station. The com-

panies named will gather here for departure for Austin. Early risers Monday morning may enjoy this part of the program by gathering on Main street, or at the union station overlooking the Al Hayne square.

McLEAN NOT AN APPLICANT.

Says He Wants no Office in State Administration. Judge W. P. McLean today denied the story printed under a Dallas date line that he would be the first assistant attorney general under the next administration. He says the matter had never been mentioned by either himself or Col. Lanham.

"It is foolishness to print such stories," said Judge McLean, "for anything of the kind is but hitting in the air. I am not an applicant for any position under Col. Lanham, and shall ask him for none. I know it is his disposition to ignore all applications until after the election, at which time proper consideration will be given all of those referred to him."

LOOKING TOWARD FORT WORTH.

Two More Inquiries About Locating Here for Business. The Board of Trade has a letter of inquiry from a business man in a North Texas town who desires to establish a wholesale auction commission house here. He regards Fort Worth as the best place in point of railroad facilities.

Another letter comes from a prospective investor residing near Chicago who wants to establish a large bakery.

TEXAS CATTLE FOR MONTANA.

Fifteen Hundred Head Purchased Near Big Springs. Paul McCormick of Billings, Mont., one of the leading cattlemen of the northwest, was here yesterday afternoon going home from Midland.

While in West Texas Mr. McCormick bought 1500 head of yearlings at \$13.82. The stock comes from near Big Springs and will be grazed in Montana.

VERY LIGHT COURT BUSINESS TODAY

But Little Doing in Court Circles that Would Interest the General Public — Real Estate Transfers.

Aside from hearing arguments by attorneys in a cost proposition in the case of W. A. Shelton vs. the Northern Texas Traction company by Judge Dunklin in the Forty-eighth district court this morning there was nothing doing of interest in any of the courts. What little of public interest transpiring about the court house today was centered in the senatorial convention held in the county court room. Not a suit had been filed, a transfer of real estate recorded or a marriage license issued up to noon. This let up is giving the clerks a change to catch up in their work, getting matters in shape for the next terms of the courts, and they are devoting themselves to this work with an earnestness which means that there will be no cause for delay on their account when the sessions convene after the heated term.

Real Estate Transfers.

SLOW GAME BUT GOOD SCORE.

Fort Worth's Leaguers Took One From Paris Yesterday. A slow game with a good score was what the Paris and Fort Worth league teams gave at Haines' park yesterday afternoon.

It took ten innings to decide it. In the third Paris made one, and in the sixth Fort Worth made one. This score remained unchanged until the tenth when Fort Worth took to heavy batting and sent three men over the home plate. The score was 4 to 1.

Paris is here again today and tomorrow. The club is now first in the percentage list while Fort Worth holds up the rear.

Kodol Digests what you Eat Dyspepsia Cure

There is one certain way of curing indigestion and stomach trouble that is: give your stomach a rest but still eat plenty of good food to keep up the nourishment for your body. You can do this by using KODOL DYSPEPSIA CURE because it is the one preparation which digests what you eat without aid from the stomach. Nature will then repair your worn out digestive organs and restore them to healthy condition. It relieves that feeling of fullness, belching and distress after eating. "I suffered with dyspepsia a great many years. I tried many remedies without relief until I used Kodol Dyspepsia Cure. My health has improved and I now feel like a new man. S. J. MILK BREAD.

The finest bread on earth. There is more substance in one loaf of Dillin Bros.' Milk Bread than in half-dozen made by any other process. We have a French baker who has studied the baker's trade in foreign countries and is the only baker in the United States who knows this process of making Milk bread. Try one loaf of Dillin Bros.' Milk Bread and you will never eat any other kind. We put this Milk Bread in nearly all the groceries in the city, but if your grocer should not have it, telephone Dillin Bros. and we will have one of our wagons call on you. We also have fine Cakes and Pies and everything kept in a first-class bakery.
