## MERGER TALK

### A Big Boom in Packing House Stock in Chicago

## SWIFT & CO. SHARES

STOCK IN THIS COMPANY SHOWS \$22.00 PER SHARE ADVANCE OVER A WEEK AGO

## HAMMONDS TO BE ABSORBED

Armour, Swift and Morris, It Is Understood, Have Undertaken to Finance the Whole Deal Themselves

Chicago, Aug. 2.—Chicago stock speculators joined heartily with those of Boston today in a practical demonstration of their conviction that the merger of the packing houses is near consummation.

In consequence, stock of Swift & Co. advanced to \$17.75 a share, or \$2.50 more than it was a week ago.

Interest was quickened in the prospective deal by the return from New York of President Jessop Lyman of the G. H. Hammond company. With his arrival came the report that the negotiations practically had been closed for the absorption of the Hammond company by Armour & Co.

Mr. Lyman would not confirm the report, but it was considered significant that there was no strenuous denial, such as had followed similar reports heretofore.

Moreover, he intimated that prices of live stock had been so high in the last year that the profits of the packers had become so diminished that it was natural to look to some means by which operating expenses could be reduced.

It was said authoritatively today that Armour, Swift and Morris had asked the New York firm of Kuhn, Loeb & Co. to float the deal, and it had agreed to do so and likely would have done so had the commission demanded not been so large that it frightened the Chicago packers and made them decide that they would undertake the proposition themselves.

The G. H. Hammond company was organized in 1890 under the laws of Michigan. Its capital stock is \$1,000,000, of which \$2,000,000 has been issued. The company issued \$650,000 first mortgage 6 per cent bonds, which have been reduced by the payment of \$100,000.

The original concern was the G. H. Hammond company, Limited, an English corporation. It was liquidated, and the American company, which absorbed its interests, established the Hammond Beef company, Limited, under the British laws. The principal agencies of the company are Chicago, New York, Boston, Detroit, London and Liverpool. Ninety per cent of stock is owned in this country. The plants of this company are located in South Omaha and Hammond, Ind.

## THE SEISMIC DISTURBANCES

Description of the Damage Done in the Village of Los Alamos

Santa Barbara, Cal., Aug. 2.—Many of the inhabitants of Los Alamos which has been the center of seismic disturbances since last Sunday have fled for places outside of the trembling belt. Those who have remained could not well abandon their business. The town of Los Alamos is situated about midway between Santa Inez and Santa Maria in the long narrow valley of the Los Alamos 15 miles from the coast. It has about 300 people. The Los Alamos valley is from one-half mile to one mile wide. The population of the valley is about 800. There are no brick buildings in the little village and the damage thus far is limited to the ruin of plaster, collapse of chimneys, the breaking of crockery and glassware, the falling of the walls of the Presbyterian church and two store buildings and the demolishing of an old adobe building which was seriously damaged with the first quake on Sunday night.

The damage will not exceed \$100,000 in the opinion of conservative estimates of residents of the place.

There is not a chimney left standing in the town, one residence was moved four inches and split in opposite corners. Not a building escaped injury and it is considered miraculous that no one was hurt.

## CAPTAIN STREETER'S CLAIM

The District of Lake Michigan Taken Into Federal Court

Chicago, Aug. 2.—Captain George Wellington Streeter, who for years has been fighting to maintain his claim to an acres of "mud" land on the Chicago water front which he designates as the "District of Lake Michigan," has appealed to the federal courts to sustain him in his claim. From Judge Jenkins, at Milwaukee, he has obtained an order directed against the Chicago officials and property owners who have been endeavoring to dispossess him directing them to appear on September 20 and show cause why they should not be enjoined from interfering with him. Explaining his action Captain Streeter said the Chicagoans would now be put on the defensive. "We'll show them," he said, "that they have no more right to meddle with the people of the district than they have with the people of a foreign country."

The cost of the building was defrayed by national subscriptions.

## VERY TRAGIC

### A Thrilling Occurrence at Salt Palace Grounds

## SAD TRAGEDY ENACTED

J. C. McCASLIN KILLS LOTTIE RUSSELL, SHOTS F. M. PETERS AND KILLS HIMSELF

## IT WAS NOT A JOKING MATTER

Victims of Angry Man Had Taunted Him About Domestic Troubles and He Couldn't Stand It—Peters' Condition Precarious

Salt Lake City, Utah, Aug. 2.—At the Salt Palace grounds early this morning, J. C. McCaslin, a well known mining man of this city shot and killed Lottie Russell, seriously wounded F. M. Peters and then committed suicide by shooting himself through the head.

McCaslin, Miss Russell, Peters and another man whose name has not been learned formed a party which attended the bicycle races. It is said that McCaslin had had trouble with his wife and had been drinking. Peters and Miss Russell are reported to have taunted him about his domestic troubles, whereupon he became enraged, drew a revolver and shot Miss Russell who had started to run, through the back. Peters, who attempted to keep McCaslin from shooting the girl, was shot through the chest.

McCaslin, after firing a shot at the other member of the party, placed his revolver to his right temple and fired a bullet through his head. He died an hour later.

Peters is in a precarious condition, but it is thought he will recover.

## KING EDWARD MAY YET BE CROWNED

Gossip in London About the Coming Ceremonial—Pilgrims' Club—Home Rule in South Africa—Political Gossip—Nile Dams, Etc.

London, Aug. 2.—Optimism regarding the coronation is slowly reviving under the stimulative effects of the surgeons' bulletins. Whether the king's will is imperious or his medical advisers consider it necessary to humor him, there is a determined effort to subject the patient, who is merely able to make one or two turns on the deck of the yacht, to the fatigue and excitement of the coronation ceremonial. Motes of state prevail although there is general agreement among medical men that an ordinary patient would not be fit for so hazardous an experiment a few weeks after a most serious operation.

The business of selling seats is looking up now that the programs of the procession and the ritual are appearing and the decorators here and there are touching up the faded glories of the June preparations.

Lindsay Russell has entertained the executive committee of the Pilgrims' club at luncheon with Frederick Hollis, Consul General Evans, Lord Charles Bessford and a few other guests. This club is settling down to practical work with a membership of over 80, equally divided between Americans and Englishmen. It will not interfere with the American societies whose energies are expended on national festivities.

John Redmond has received a cable dispatch from Melbourne announcing \$500 as the first installment of aid to the home rule cause in South Africa.

The Westminster city council has decided the Canadian arch must be removed immediately after the coronation. The council approved the offer of a resident of Lucknow to erect an Indian coronation arch.

The pro-Boer section of the radical press disputes Lord Rosebery's claim of an imperialist victory at Leeds, contending that as the liberal candidate, Barran, won the election not by dissecting the party, but by resisting reactionary legislation. It also deplores the imperialists' attitude on the Irish question.

Announcement is made that the last coping stone of the Nile dam at Assouan was laid on Wednesday.

The Nile reservoir forming the dam at Assouan and Assout having been constructed will enable large tracts of land to bear two crops a year instead of one, will bring waste districts into tillage and will greatly increase the area of sugar cultivation. The reservoir will supply one billion cubic meters of water annually.

The dam at Assouan is 11.4 miles long. The works at Assouan probably will be finished by the end of the year.

Grand Rapids, Mich., Aug. 2.—Judge George H. Durand of Flint who was nominated for governor by the Democratic state convention in Detroit in the face of statements by "silver" Democrats that he possibly would refuse the nomination announces that he will make the race as the Democratic candidate. When told of the nomination after his arrival Judge Durand said:

"I was not a candidate and did not expect the nomination. My friends have seen fit to bring me out, however, and now that I am in the race I am in to stay. I look on the nomination as involving a duty which as a good citizen and good Democrat I cannot shirk, and will do my best to be elected."

Judge Durand has been considered a "gold" Democrat.

### COW MEN GOING TO CANADA

Contemplate Running Several Bunches of Stock There

C. W. Merchant, R. G. Anderson and J. H. Parramore of Abilene, among the largest cattle men of Texas, are here today en route to Canada. Capt. Williamson of McMullan, another of Texas' large raisers, left last night.

The trip is to investigate English ranges with a view of running several large bunches of Texas cattle there next spring. Heretofore Texas cattle have been sent to the Dakotas, Wyoming and Montana for fattening. The Canadian range is open to all comers, and the stock, it is believed, will thrive there better than in the states. It is understood the cattle from the United States can be placed across the line and returned after a season there free of duty. The party will be absent several weeks.

## DO YOU SELL HAY? ARE YOU A PRODUCER?

If a Dealer and not a Producer, Then You are Liable for the Occupation Tax—To Make an Investigation

Complaint has been made to County Attorney Lattimore by dealers in hay and feedstuffs who pay an occupation tax against men who sell hay on the market squares without paying such license. The complainants claim that such men are enabled, by reason of not paying a license or rent, to undersell the legitimate dealers, and that the latter receive no protection, even though they pay a license.

It is conceded that a countryman has a right to sell his own product, and no complaint is made against such producers, but the kick is on men who reside right here in town and buy feedstuffs and have same shipped in here and retail it out. By so buying and shipping they become dealers, and are, as dealers, subject to an occupation tax.

County Attorney Lattimore has promised to make an investigation at once, and authorizes the statement made public that he will certainly prosecute all men so dealing who have not complied with the requirements of the law.

### LATE LONDON ADVICES

Preparations for Coronation — Pierp's Denial — Mr. Steyn

London, Aug. 2.—New preparations for the coronation of King Edward next Saturday are proceeding rather mechanically. The erection of familiar street barriers, cleansing and decorating of stands and rehanging of decorations attracts little attention. Public interest in actual proceedings, however, were rekindled by official assurance that the king is getting on finely and that his majesty will be able to bear the fatigue of being crowned. The publication of the official program of the procession shows no special change from the original arrangement but the ceremonies in Westminster abbey have been curtailed by the omission of the litany and sermon and by the recital of recognition once instead of four times.

The Associated Press is authorized to give most emphatic contradiction to the report that J. P. Morgan intends to retire from active business life on returning from Europe to the United States.

Former President Steyn of the Orange Free State arrived at Southampton today with his family on the steamer Carisbrook Castle. He was met by Messrs. Fischer, Wessels and DeBruyn, former Boer delegates. He will go to The Hague where former President Kruger will go from Utrecht to meet him Monday.

### A DECLINING STOCK MARKET

Reasons Why Prices Have Been Lower This Week — Wall Street

New York, Aug. 2.—Prices have declined this week on the stock market principally on selling to take speculative profits accruing from the former long continued rise. The large gold exports and the approaching interior demand for currency gave warning that the recent rate of credit expansion for speculative uses might be hazardous. The announcement of the absorption of the Chicago and Eastern Illinois by the St. Louis and San Francisco proved disappointing to some other speculative hopes and the discussion of the Rock Island reorganization plan was a rather depressing influence upon sentiment.

### THE MINERS QUIETING DOWN

Certain Officials Are Trying to Persuade Strikers to be Good

Shenandoah, Pa., Aug. 2.—District President John Faby of the United Mine Workers, following out instructions from President Mitchell, is making every effort to have the striking miners maintain peace. He said today all persons in or out of the organization who in any way violated any law are enemies of the union and the organization will do all in its power to place such persons in jail. Brigadier General Corbin had no information from the surrounding region of any trouble today, every thing being reported extremely quiet.

### THAT APOSTOLIC DELEGATE

Delay in Appointment Caused by Desire to Please America

Rome, Aug. 2.—The delay in appointing the apostolic delegate to Manila is due to the desire of the Vatican to please the Washington authorities by sending to the Philippines an American prelate and the Vatican is now awaiting letters from a United States prelate who it is thought likely will accept and who is thoroughly adapted to the position. Should the plan fall through the most probable candidate is Mgr. Guido now in the office of Cardinal Rampolla, papal secretary of state.

# DEAL REGARDED AS IMPORTANT

### FRISCO IS BECOMING A FORMIDABLE RIVAL OF THE ROCK ISLAND SYSTEM

## BUILDS A FEW LINES

#### By Taking in the Chicago and Eastern Illinois New System Gains Chicago Terminals and Additional Mississippi River Crossing—Yoakum and Harriman

Railroad and financial circles of the East regard the purchase of the Chicago and Eastern Illinois by the Frisco system as one of the most important deals of the year, and one that places the Frisco by building a short connection in position to formidably cope with the Rock Island's many lines.

Negotiations are now under way for a traffic alliance between the Frisco and the Seaboard Air line. President Yoakum intends to reach the Atlantic Coast, using either Brunswick, Charleston for Savannah as a port outlet, Charleston or Savannah preferred.

A grand trunk line from the Atlantic Coast to Chicago, all passenger trains to run through St. Louis, reaching the Chicago and Eastern Illinois by a projected connection to St. Elmo, Ill., another direct passenger service from Chicago to points in the territories, New Orleans, Texas cities and the City of Mexico; a parallel line, composed partly of the recently acquired Arkansas and Choctaw, to the Choctaw, Oklahoma and Gulf of the Rock Island, and other projects partially developed and not officially announced, form the Yoakum plan for making the Frisco one of the foremost systems in the world.

### HANDLING OCEAN TRAFFIC

#### Southern Pacific Has Made Another Change of Plan

New York, Aug. 2.—Another change has been made by the Southern Pacific in its new plan for handling ocean traffic between New York, New Orleans and Galveston says the Journal of Commerce. A short time ago announcement was made that the Southern Pacific or Morgan line, would abandon New Orleans as a through port and would establish a direct service to Galveston for all through traffic. It is now learned that the Cromwell line, which has been operating between New York and New Orleans as a service distinct from the Morgan line, has been placed under the management of the Southern Pacific; the local agency and offices have been abolished and the three vessels of the line will hereafter sail from the Morgan line pier semi-weekly service to New Orleans. Whether the Cromwell line will continue as a separate corporation or will be formally taken over by the Southern Pacific is unknown.

The Morgan line arrangement for its through traffic will take effect tomorrow with the sailing of El Norte for Galveston. At the same time the Comus will be dispatched from the same pier for New Orleans.

### Is Building a Few Lines

The Louisiana and Arkansas, known as the Hammond line, is projected from Hope, Ark., and is built from Stamps, Ark., almost to Winfield, La., from which an extension is projected straight to New Orleans, to take in Beaumont and other cities of like importance by branch lines.

The Frisco will soon formally acquire this line. The Arkansas and Choctaw is being constructed from Texarkana, Ark., west to Wichita Falls, Tex., and the project for extending it east to form more direct lines to the various important points, is being formed.

The St. Louis, Memphis and Southeastern is under construction from St. Louis to Memphis, and it is almost certain to be farther extended to a connection with the Louisiana and Arkansas, thus giving the Frisco a direct St. Louis or Chicago line to New Orleans.

### Yoakum Joined by Harriman

By purchase of the Chicago and Eastern Illinois, the Frisco comes into part ownership of Thebes, Ill., bridge, now under construction. This bridge is owned jointly by the Illinois Central and the Cotton Belt and Eastern Illinois. For a month it has been believed that the Cotton Belt would acquire the Chicago and Eastern Illinois, but it is now apparent that the Goulds control the St. Louis Valley railroad, connecting the Cotton Belt from the east side of the Mississippi river at the Thebes bridge with the Wabash's Chicago line at East St. Louis.

The rumor that the Illinois Central is interested in the Frisco's acquisition of the Chicago and Eastern Illinois is

due to these facts. The Frisco has great strength, and its intention to reach the Atlantic Coast by a connection with the Seaboard Air line is also taken as a move upon the part of President Yoakum in conjunction with the Harriman interests to parallel the Morgan roads. However, Frisco officials will make no statement in regard to moves by that system except to say that the Frisco is acting for itself; that it is building up a great railway stretching in every direction over the country.

### TAKING CENSUS OF EMPLOYES

#### Mr. Harriman Has a Pension System in Mind It is Thought

San Francisco, Aug. 2.—Acting on instructions issued by President Harriman the heads of departments of the Southern Pacific company have begun taking a census of the employees 65 years of age and over. It is thought that this is the forerunner of some sort of pension system, although Mr. Harriman has not announced his plans. It is found that while there are no engineers or conductors 65 years of age, quite a number of the men in the shops and in other departments are on the list.

### IOWA'S RAILROAD ASSESSMENT

#### Texas Paid on a Valuation of Over \$51,000,000.

Des Moines, Ia., Aug. 2.—The executive council has increased the railroad assessment of Iowa \$4,041,556, making a total of \$51,112,814. The increase on the Northwestern railroad is \$1,100,549, that on the Chicago, Milwaukee and St. Paul is \$900,862, and that on the Chicago, Burlington and Quincy is \$665,457.

The Burlington, the Chicago Great Western, the Rock Island, the Omaha and St. Louis and the Illinois Central all are increased, the amounts ranging from \$225,000 to \$300,000.

## E. H. R. GREEN PAID FULL RAILROAD FARE

#### President of the Texas Midland Had a Pocket full of Passes but they Were "No Buena" on Special Train

San Antonio Express.—E. H. R. Green, son of Hetty Green and president of the Texas Midland railway enjoyed a new experience Monday night—he paid railroad fare. There were others with him who enjoyed the same experience but to them it was not so novel as it was to Mr. Green.

It all happened on the special train from Floresville to San Antonio for the accommodation of those delegates to the Fifteenth district Republican convention who desired, for various reasons, to get out of the Wilson county town as soon as possible. There were thirty-seven men on that train and every one, including Railroad President Green, paid a fraction over five cents a mile for their transportation.

All of which would seem to make it plain to one with the faculty of deduction only moderately developed that Mark Hanna hasn't yet opened his "barrel" for the benefit of the Fifteenth District Republicans.

The way it happened was in this wise: W. M. Hanson, United States marshal of the new South Texas district, conceived the idea of engaging a special to bring the delegates to San Antonio after the convention Monday night. He communicated with the Arkansas Pass management and engaged the train, guaranteeing the price, which was \$60. Thirty-seven men availed themselves of the privilege of riding on the train. All of them had returned transportation and doubtless Mr. Green had a pocket full of passes. After the thirty-seven had climbed aboard the train was run down the track about 200 yards and R. W. Dowe, collector at Eagle Pass, assumed the role of collector. He went through the train and assessed each of the thirty-seven passengers \$1.60. Some protested that they had purchased return tickets and others suggested that the cost of the train be charged up against the campaign fund; but amid protests and suggestions all "dug" for that \$1.60.

#### Rock Island's Agent Transferred Here

R. I. Merrill, traveling freight agent for the Chicago, Rock Island and Pacific with headquarters in Dallas has been transferred to Fort Worth, and will report to C. J. McKenna, commercial agent at this point. The offices of the Choctaw, Oklahoma and Gulf in Dallas have been abolished.

Work has begun in changing the Rock Island's trade mark from "route" to system. Where joint offices are maintained the words "and Choctaw, Oklahoma and Gulf" are added.

# FRAIL, SICKLY WOMEN

## Made Healthy and Robust by Dr. Hartman's Free Correspondence.

### Dr. S. B. Hartman Will Treat Women Free of Charge During the Summer Months.

Miss Ida B. Wood, Los Angeles, Cal., Vice President of the Young Women's Union, writes as follows:

"I am thankful to you for placing on the market such a valuable medicine as Peruna. I consider it of especial value for the different ailments of women, its restorative powers have saved me much pain and I now enjoy perfect health. I advise my friends to use Peruna instead of doctor's prescriptions which I have found very expensive and uncertain. Peruna is inexpensive and sure."—Miss Ida B. Wood.

Miss Mattie Ketchum, Marshall, Tex., writes:

"Peruna has made me a well and strong woman, and I have all the faith in the world in it. When I first began taking it I was troubled with headache and backache and dizzy spells. The doctors did not seem to help me, but three bottles of Peruna cured me completely. I have not felt badly for over a year and am pleased that it was brought to my notice. I have recommended it to a number of my friends."—Miss Mattie Ketchum.

#### Frail Women.

That American women are growing more slender and frail is too apparent to any observer for argument. Slenderness and fragility are the words that best describe the typical girl of to-day. From an aesthetic standpoint, perhaps, all this is an improvement on the more sturdy and buxom woman of two generations ago; but from the doctor's standpoint is a rapid degeneration. These delicate creatures are easy to get sick, hard to keep well and very difficult to cure when sick.

Dr. Hartman has given this subject special study and thought, and has done much toward remedying the matter. He makes an annual distribution of books devoted to the subject of the care and cure of women.

He conducts a prodigious correspondence, which covers all parts of the United States, giving advice, prescriptions, etc., etc. All this he does without charge. Every letter receives prompt and careful attention, and is regarded as strictly confidential. Dr. Hartman has made extensive preparations to treat these women for diseases peculiar to their sex during the summer months. Every letter will be answered giving the doctor's invaluable advice after forty-five years' experience in the treatment of women.

The doctor has now ready for the public a book for women only. This book shows how few women are really free from catarrh; how many have catarrh in some form or location. This book will be sent free to any woman addressing the Peruna Medicine Company, Columbus, Ohio.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis. Address Dr. Hartman, President of the Hartman Sanitarium, Columbus, O.

DEFUNCT MORNING HERALD

Charles F. King Well Remembered in Fort Worth (Corsicana Sun)

Mr. W. J. Jackson writes an interesting sketch—mostly fulsome eulogy—of C. F. King, who is described as a man who has made \$2,000,000 out of nothing in a year. The feature of the sketch that strikes the Sun most forcibly is the absence of all mention of this new Napoleon's newspaper experience in Texas. And it is not so long ago, either, as to be forgotten by the people with whom he came in contact that Mr. Chas. F. King burst upon Fort Worth with a scheme to establish a newspaper that would make the Dallas News look like a Panhandle weekly by comparison. Mr. King was able to convince a banker in Fort Worth that he could command the necessary capital for the enterprise—and the rest was easy as far as it went. The bank-

er endorsed the promoter, who took in several hundred dollars in advance-paid subscriptions at \$10 per year, for which the subscriber had his name printed in a "roll of honor." Before the first issue of the paper appeared King sold a one-eighth interest in his prospect to a former railroad conductor now in the coal business, receiving therefor a title to the railroad man's home. The paper came out eventually; the first week's payroll was met from money raised from a mortgage on the railroad man's house, and the writer is not quite certain whether any more payrolls were met or not. The paper and Mr. King both fanned out inside of a month.

Fattening Hogs Is Finding Money (Cuero Weekly Star)

A hog can be successfully grown and matured with little or no corn. This is a great item when we get two short corn years in succession as we have now. The things to fatten the hog with are sorghum, melons, pumpkins, turnips, refuse from cabbage and other vegetables, with goobers and cassava to put on the finishing touches. The practicability of cassava to feed both cattle and hogs has been thoroughly demonstrated and the great Swift packing house is making a big drive to have it brought into general use by its great numbers of beef-raising customers. There is scarcely anything in the vegetable kingdom that grows more prolifically than cassava. It is a large tuber that grows near the surface of the ground and produces by the tons per acre. Stock eat it with hearty relish and it has great fattening power. It's going to come here and it will be one of the great fatteners of this country when it does. The farmer who doesn't plant it is just simply losing out to that extent, no matter whether corn is scarce or plentiful.

Foley's Kidney Cure makes kidneys and bladder right.

TRIFLING WITH YOUR HEALTH

Is Like Playing with a Loaded Gun—If You Have Kidney Trouble Attend to it Once.

It is easy to tell whether your Kidneys or bladder are diseased. Take a bottle or glass tumbler and fill it with urine. If there is a sediment—a powder-like substance—after standing a day and a night, if it is pale or discolored,ropy or stringy, there is something wrong with the Kidneys. Other sure signs of disease are a desire to urinate often, pain in the back, or if your urine stains linen.

There is no question that Dr. David Kennedy's Favorite Remedy is the best and surest medicine in the world for diseases of the Kidneys, Liver, Bladder and Blood, Rheumatism, Dyspepsia, Chronic Constipation, and the sicknesses peculiar to women. It quickly relieves and cures inability to hold urine and the necessity of getting up a number of times during the night, and puts an end to the scalding pain when passing urine.

The Rev. Henry P. Miller, pastor Baptist church, Spartanburg, S. C., writes: "For eleven years I suffered with kidney, liver and heart troubles, swimming in the head, dull headache and numbness of the limbs. Several physicians prescribed for me and I took different medicines, but none of them did me any good. I then began the use of Dr. David Kennedy's Favorite Remedy, and in about two weeks was entirely well."

All druggists sell Dr. David Kennedy's Favorite Remedy in the new 50 cent size and the regular \$1.00 size bottles.

JAMES M. GUFFEY OBSERVATORY

Fort Worth University Receives a Cash Gift of \$2,500—Work on New Building Will Be Begun in About Three Weeks

On July 30, the Fort Worth University received a telegram through its secretary, Prof. N. B. Heller, that the Hon. James M. Guffey of Pittsburg, had sent a check for \$2,500 for the observatory. This has been received and deposited in one of the city banks.

Work on the observatory will begin on or about Aug. 20. An idea of the appearance of the building may be had from the accompanying cut. The building will, in the main, be composed of red brick, with sandstone trimmings. Up to the first floor, the walls will be

of sandstone. There will also be several stone bands running completely around the building, thus adding greatly to its appearance.

The observatory will consist of five rooms, four on the first and one on the second floor. On the first floor will be located the mathematical and astronomical lecture room, a library, transit and clock-room and finally the circular room through which passes the pier which supports the telescope mounted in the dome. ELEVEN CLEAR DAYS DURING PAST MONTH

July Gave Fort Worth its Average Amount of Sunshine—Rain Fell on Twelve of the Thirty-one Days—Temperature High at Times

The meteorological summary for the month of July which has just been issued from the weather bureau office shows the maximum temperature to have been 98 degrees on July 11 and the lowest 68 degrees on July 25. The mean temperature, however, was some lower than it has been for several years.

During July the wind prevailed to the south, the total movement of wind being 8614 miles and the maximum velocity on July 3, being 48 miles an hour.

The July rainfall was 6.29 inches, 12 of the 31 being rain days. This record was the highest in eight years, the next highest being in 1900 when 5.90 inches fell during the month.

The number of clear days was 11, partly cloudy 17 and totally cloudy, three.

Scott, 531 Highland avenue, Milton, Pa., says: "I have carried DeWitt's Little Early Risers with me for several years and would not be without them." Small and easy to take. Purely vegetable. They never gripe or distress. Smallwood & Anderson, Anderson & Smallwood.

DALLAS LEAGUERS DEFEATED

Fort Worth Won in Haints Park Yesterday Afternoon

Fine fielding and good batting was responsible for the clever league game between Fort Worth and Corsicana in Haints park yesterday afternoon, in which the home team was the winner, the score being 3 to 1. There was a remarkable number of double plays, four being made by Fort Worth and two by Corsicana. Other features of the game were the batting of Jarvis and O'Donnell and the fielding of Maloney and Doyle of the Fort Worth team. The latter made several phenomenal catches.

Paris and Corsicana have again changed places at the head of the percentage list; as has Fort Worth and Dallas. The standing is Paris, Corsicana, Fort Worth and Dallas. Paris won yesterday's contest from Dallas in a score of 5 to 1.

CONSUMPTION THREATENED.

"I was troubled with a hacking cough for a year and I thought I had consumption," says C. Unger, 211 Maple St., Champaign, Ill. "I tried a great many remedies and I was under the care of physicians for several months. I used one bottle of Foley's Honey and Tar. It cured me, and I have not been troubled since." "BLACK JACK" McDONALD BURIED

Relatives of Border Character Were Not Located The body of "Black Jack" McDonald, who was killed last Sunday night by C. H. Dunbar in a Juarez, Mexico, dive has been buried in El Paso. Relatives of the dead man could not be found. His estate, valued at about \$5,000 consists of property both in Mexico and El Paso.

RELATIVES OF BORDER CHARACTER WERE NOT LOCATED

The instrument to be mounted is of six inch aperture and is an extremely fine one, the lenses—the principal part of an equatorial—being exceedingly clear and without those faults so common in the larger glasses. This telescope had formerly been mounted in Science Hall. However, since this building has been removed from its former location in the northwest corner of the campus to its present position between University and Cadet halls, Science hall has been devoted more exclusively to science work proper. Moreover the adding of a story to this building would have necessitated a corresponding increase in the height of the pier. This was not found feasible so it was decided to build a separate house for the telescope.

This determination was made about a year ago, and Prof. Heller, during the ensuing vacation, began his endeavors to interest people in the new venture. It was not long before Mr. Guffey made a favorable response, promising \$2,500. Other gifts will follow and it is confidently hoped generous aid will be forthcoming from Fort Worth. The erecting of this observatory will give to Fort Worth facilities for the study of astronomy, possessed by but few schools in the South. This means larger classes, and every additional scholar means, at least, a year's trade to the merchants of this city.

THE PAYMENT OF A DEBT

(Original) A party of noblemen were amusing themselves shooting near Dijon, France. After a shot by the Marquis of Tours, aimed at something seen indistinctly in a thicket, a human cry was heard. The party rushed to the point whence it proceeded and found a young girl of sixteen lying on the ground bleeding from a bullet wound in her side. From the opposite direction a man came hurrying, and when he saw what had happened he took the girl up in his arms, and shaking his fist at the huntsmen, cursed them for what had been done.

"Is it thus that you overrun our peaceful fields, you nobles who never toil, but feed on what we common people produce? And, not content with wasting the fruits of our toil, you ruthlessly shoot our children without taking the trouble to discover that they are not birds. Wait, messieurs! The day will come when we will crush you under our heels!"

"It was an accident," replied the marquis. "Here take this," throwing him a golden louis. "Were it not for your threats I would make it ten times as much. Come, messieurs. Let us go on."

The party proceeded on their way, but had not gone a dozen yards before the coin was sent spinning past the ear of the marquis. One gentleman, a young fellow of twenty, remained behind. Kneeling beside the girl, he stanching the blood with his cambric handkerchief, then said to her father: "Let us carry her to her home. I am a student in the Paris School of Medicine. I will see what I can do for her."

Henri Duriau did not leave the home of Antoine Garnier until the daughter, Lizette, was out of danger. Indeed, he alone saved her life. The country doctors of that day knew nothing of surgery and could not have carried safely through such a dangerous case. Three weeks had elapsed when the young doctor said to Garnier: "The crisis has passed. Any physician can now attend to the dressing of the wound."

"Doctor," replied the father, "why have you taken this trouble? You are a noble."

C. Daugherty and his wife, Mary E. Daugherty, and James Watkins, whose residences are to plaintiff unknown, and the unknown heirs of John Billy Gray, R. C. Daugherty and his wife, Mary E. Daugherty, and James Watkins, whose names are to plaintiff unknown, and whose residence is unknown, to be and appear before the district court, to be held in and for the County of Tarrant, at the court house thereof, in the City of Fort Worth, on the second Monday in October, A. D. 1902, the same being the 13th day of said month, then and there to answer the petition of H. W. Lusher and C. E. Daugherty, Mary E. Daugherty, James Watkins and the unknown heirs of John Billy Gray, R. C. Daugherty, Mary E. Daugherty, James Watkins and W. J. Boaz, as defendants. Said suit being numbered 21582, the nature of which demand is as follows, to-wit: That petitioners are the owners in fee simple and in the possession of the following described tract or parcel of land lying and being situated in the City of Fort Worth, Tarrant county, Texas, to-wit: 50x100 feet out of block 44, in the City of Fort Worth, Tarrant county, Texas, bounded and described as follows: Beginning at the N. E. 100 feet to the place of beginning; that petitioners set up claim and derogate title to said tract of land under and by virtue of a regular chain of title from and under the sovereignty of the soil; that on August 28, 1877, defendant, John Billy Gray, conveyed said property to Mary E. Daugherty by deed and reserved a vendor's lien to secure two notes which said notes have been paid off and discharged and are barred by the statute of limitation; that the defendants, Mary E. and R. C. Daugherty, on October 5, 1877, conveyed said property to D. S. J. Boaz, was a member, and the same has long since been paid off and discharged and is now barred by statute of limitation; that on May 8, 1880, said property was pretended to have been sold by the tax collector of Tarrant county, Texas, to A. Bryant, and alleging in substance as follows, to-wit: That on March 28 1902, defendant executed and delivered to plaintiffs his note for \$120 dollars payable at Fort Worth, Texas, in installments of \$10 each, the first of said installments due August 1, 1902, and one installment due on 1st day of each succeeding month thereafter, till said note is fully paid, said note bearing 10 per cent interest from date, and providing for 10 per cent attorney fee in usual clause, and further providing that plaintiff at any time they may deem themselves insecure, declare said note due before its maturity. That on date of said note defendant executed a chattel mortgage to plaintiffs to secure same on one W. and M. Rubber tire phreoson and harness, it is for debt and foreclosure of said lien. Herein fail not, but have you then and there before said court this writ, with your return thereon, showing how you have executed the same. Witness my hand officially this July 16, 1902. JOHN L. # A HEATED DISCUSSION

### CITY COUNCIL DEVOTES MUCH TIME TO A CITY TAX CLAIM AND REQUEST FOR REDUCTION

# CUT LESS THAN HALF

### A Veto of Action Will Probably Follow—A Session of Much Routine Business Last Night—A Big Sewer Proposition

Those who were in attendance at the city council meeting last night witnessed the very peculiar proceeding of a body accepting a proposition to liquidate a \$5,500 back tax debt by the payment of \$2,000, in the face of two propositions urged by an alderman and the city attorney. The one by the alderman, Mr. Waggoman, was a cash offer of \$2,000 for the debt, and the one by the city attorney was that the claim for \$5,500 was good and could be collected. In fact, the city, by virtue of law, owned the property since 1897, the taxes having accumulated since 1892. The property is valued at \$12,000 or \$15,000, and is known as the Ikard property, situated on Tucker's hill.

An hour's debate was indulged in over the proposition submitted by Ben O. Smith, representing the Ikard heirs, to liquidate the \$5,500 tax debt by the payment of \$2,000 and donating street privileges across the property. Mr. Waggoman and Mr. Henderson fought hard against the proposition, Mr. Waggoman stating emphatically that two offers had been made to give the city \$2,000 and \$3,500 respectively for a quit claim deed, that the city had by virtue of law owned the property by reason of unliquidated taxes, since 1897, that the city attorney had said he believed the title could be given, that the claim was good, and all three urged the refusal of the \$2,000 offer.

Messrs. Newby and Lydon were absent, leaving only seven members of the council present. Mr. Moreland asked to be excused from voting, because he had at one time defended the Ikard heirs in a suit in which this property was involved. Thus there were but six voting—Messrs. Ward, Murray, Lehane and Orrick voting to accept the \$2,000 proposition, and Messrs. Waggoman and Henderson voting to refuse it. The latter argued that it was a precedent to offer a premium to large property owners to decline to pay taxes for years, and then come in and claim a reduction. If the claim was good that the property had been excessively assessed for certain years during a depression of values, then adjoining property owners who had paid their taxes had no question as to what such was the case, but why make fish of one and flesh of another? In the face of all this, here were \$3,600 being flaunted in the face of the city for the city's claim. Why throw away \$1,600 when money was so badly needed to repair school buildings and grounds, and for various other purposes? This \$3,600 could be had in twelve hours.

The city attorney was asked for an opinion. He declined to give a specific opinion, but said he believed the city's claim was good. Others had been good, and he had yet to be turned down on a contest made. His assistant, Mr. Prewitt, had investigated with reference to this specific property and he had always found Mr. Prewitt's recommendations stood the tests. The city attorney feelingly cited instance after instance where he, as city attorney, acting upon instructions of the council and backed by the law, had turned many a family out in the world homeless and shelterless and secured their homes for the city for unpaid taxes. He said it was the bitterest pill he had encountered while serving as city attorney, but he did his duty, though regretting that he was forced to do it. He urged, now that he was soon to go out of office, the council to not hesitate to push such claims by reason of any fear of a reverse decision of the courts. Their claims would stand the test. He had told the council this two years ago, and spoke advisedly. The council in many instances had failed to act, and by reason of such failure had cut the city out of much needed revenue.

Mr. Orrick argued that in his opinion the city could not give a purchaser a clear title to the property.

Mr. Lehane argued that by accepting

Ben O. Smith's proposition for \$2000 on behalf of the heirs, the money could be had at once. To delay it, he doubted if a title could be given, and the matter would hang fire in the courts indefinitely. He favored accepting the \$2,000, and so moved.

Mr. Waggoman called for the ayes and noes, and the result was 4 to 2 in favor of accepting the \$2,000—Mr. Waggoman and Mr. Henderson voting "no."

Mr. Ward and Mr. Murray took no part in the debate. A veto is probable.

**Routine Proceedings**  
The first business after roll call and reading and approving the minutes of the previous meeting was a report of the finance committee with reference to a tax petition of A. and L. August. The committee recommended that the firm get a statement from the board of equalization concerning alleged mistake, and to also get statement of their bank account on date of assessment. The report was adopted.

On petition of the East Fort Worth Townsite company, 640 acres of land in the B. F. Crowley survey was assessed at \$100 per acre, recommended by the finance committee.

John L. Terrell petitioned to have taxes remitted for four years, from 1896 to 1899 inclusive, on what is known as the old Terrell place, state property not being within the city limits at that time. Reported upon favorably by committee. Adopted.

The city's pay roll, amounting to \$10,168.69 was allowed. It included: Aldermen's pay roll \$69, Mayor, salary \$166.66, City Secretary, pay roll and expense \$215.51, City Auditor pay roll \$125, City Attorney pay roll \$208.41, City Engineer pay roll and expense \$199.60, electric department \$187.70, cemetery expense \$62.50, city hall \$50, electric light department \$295, fire department \$2,264.62, health department \$320, police department \$2,068.26, pound \$100.25, Corporation court, recorder \$100, calaboose expense \$223.05, sewer department \$17.75, street department \$1,214.57, tax department \$79.60, advertising \$45, city park \$50, public library \$368.80, public schools \$750.83, water works department \$956.66.

The police committee reported favorably on request of Corporation Judge W. W. Stewart for a month's leave of absence. Adopted.

The police committee reported favorably on Chief Rea's report of changes in his force which included:

R. L. Compton appointed to succeed T. Y. Spencer as policeman, resigned, and L. P. Moore first extra policeman, A. K. Ralston second extra and Ed Black third extra. Adopted.

### A Cure for Cholera Infantum.

"Last May," says Mrs. Curtis Baker, of Bookwalter, Ohio, "an infant child of our neighbor's was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days' time the child had fully recovered, and is now (nearly a year since) a vigorous, healthy girl. I have recommended this Remedy frequently and have never known it to fail in any single instance." For sale by N. E. Grammer, druggist.

### TRAINS MET ON A CURVE

#### First Accident on Interurban Line was Not Serious One

The first accident on the Interurban occurred yesterday afternoon on a curve a short distance east of Handley, a passenger train and a work train coming together. Very little damage resulted to the passenger car beyond the disabling of the headlight and fender. The work train was badly mixed up.

When the cars were about to come together the work train motorman reversed his power and jumped, and had he not done so he would have been seriously injured. The watch of the work train motorman had stopped which caused him to lose the running time of the passenger train.

### A YOUNG LADY'S LIFE SAVED.

At Panama, Colombia, by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Dr. Chas. H. Utter, a prominent physician of Panama, Colombia, in a recent letter states: "Last March I had as a patient a young lady sixteen years of age who had a very bad attack of dysentery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhoea Remedy and as a last resort prescribed it. The most wonderful result was effected. Within eight hours she was feeling much better; inside of three days she was upon her feet and at the end of one week was entirely well." For sale by N. E. Grammer, Druggist.
