## REGARDING THE ROUMANIANS

### FIGURES BEAR OUT SECRETARY HAY'S STATEMENTS

#### Majority of Immigrants From That Country Is of Jewish Nationality and Indicates Evidence of Persecution

(By Associated Press)  
New York, Sept. 23.—In view of Secretary of State Hay's note to European governments relative to the Berlin treaty and conditions existing in Roumania, which are believed to result in enforced immigration to the United States from that country, special interest centers in the number of immigrants who arrived from Roumania during the last fiscal year, and also during July and August of the present year.

According to official statistics there was a marked increase. For the fiscal year ending June 30, 1901 and 1902, the total immigration from the country of Roumania was as follows: 1901—2242 males, 3171 females, total 5413; 1902—2912 males, 2373 females, total 5285; increase—239 males, 798 females, total 1037.

Of these totals the greatest number in each year consisted of Hebrews, as shown by the following analysis by race or people, those not included being distributed among other nationalities:

From Roumania, 1902—263 Germans, 12 Greeks, 5959 Hebrews, 1901—105 Germans, 2 Greeks, 5099 Hebrews.

The immigration from Roumania during July and August of this year has been as follows:

July—489 males, 390 females, total 879; August—341 males, 483 females, total 824.  
Of the July total 861 were Hebrews and 4 Germans, while among the arrivals in August there were 1095 Hebrews and 3 Germans from Roumania. Only a very few of the 6000 odd immigrants from that country during the last fiscal year were of pure Roumanian nationality.

## FIRST PRESENTATION OF CRAWFORD'S PLAY

### SUCCESSFULLY PERFORMED AT NORFOLK, VA., BY MRS. BRUNE AND A STRONG

Norfolk, Va., Sept. 23.—Mrs. Brune who has been termed the American Bernhardt, achieved a triumph here tonight in "Unorna," a dramatic creation by F. Marion Crawford, prepared for the stage by Esny Williams, a copyright performance being given in London, England, today. The actress here has caused a great sensation as did Bernhardt on her first visit. The play is strong and full of action with a romantic love story, and manipulation of occult power, is leading themes.

"Unorna" is the latest work of the novelist, F. Marion Crawford. The scene is laid at the Temple of Goolah at Delhi, India, and the heroine is high priestess of the temple. Later the scene is laid in Prague. The oriental setting allowed for the use of rich costumes and beautiful tapestry and the whole performance had a sumptuousness equaled by few productions in recent years. The chief interest was centered in Mrs. Brune who again appears on the stage after several years' retirement. She was given an ovation last night.

New York, Sept. 23.—A peculiar damage suit has been brought against a street railway company of this city by Simon Kurtz, who seeks to recover the sum of \$1000 because of a fall which compelled him to shave off his beard.

## ROCK ISLAND IN MISSOURI

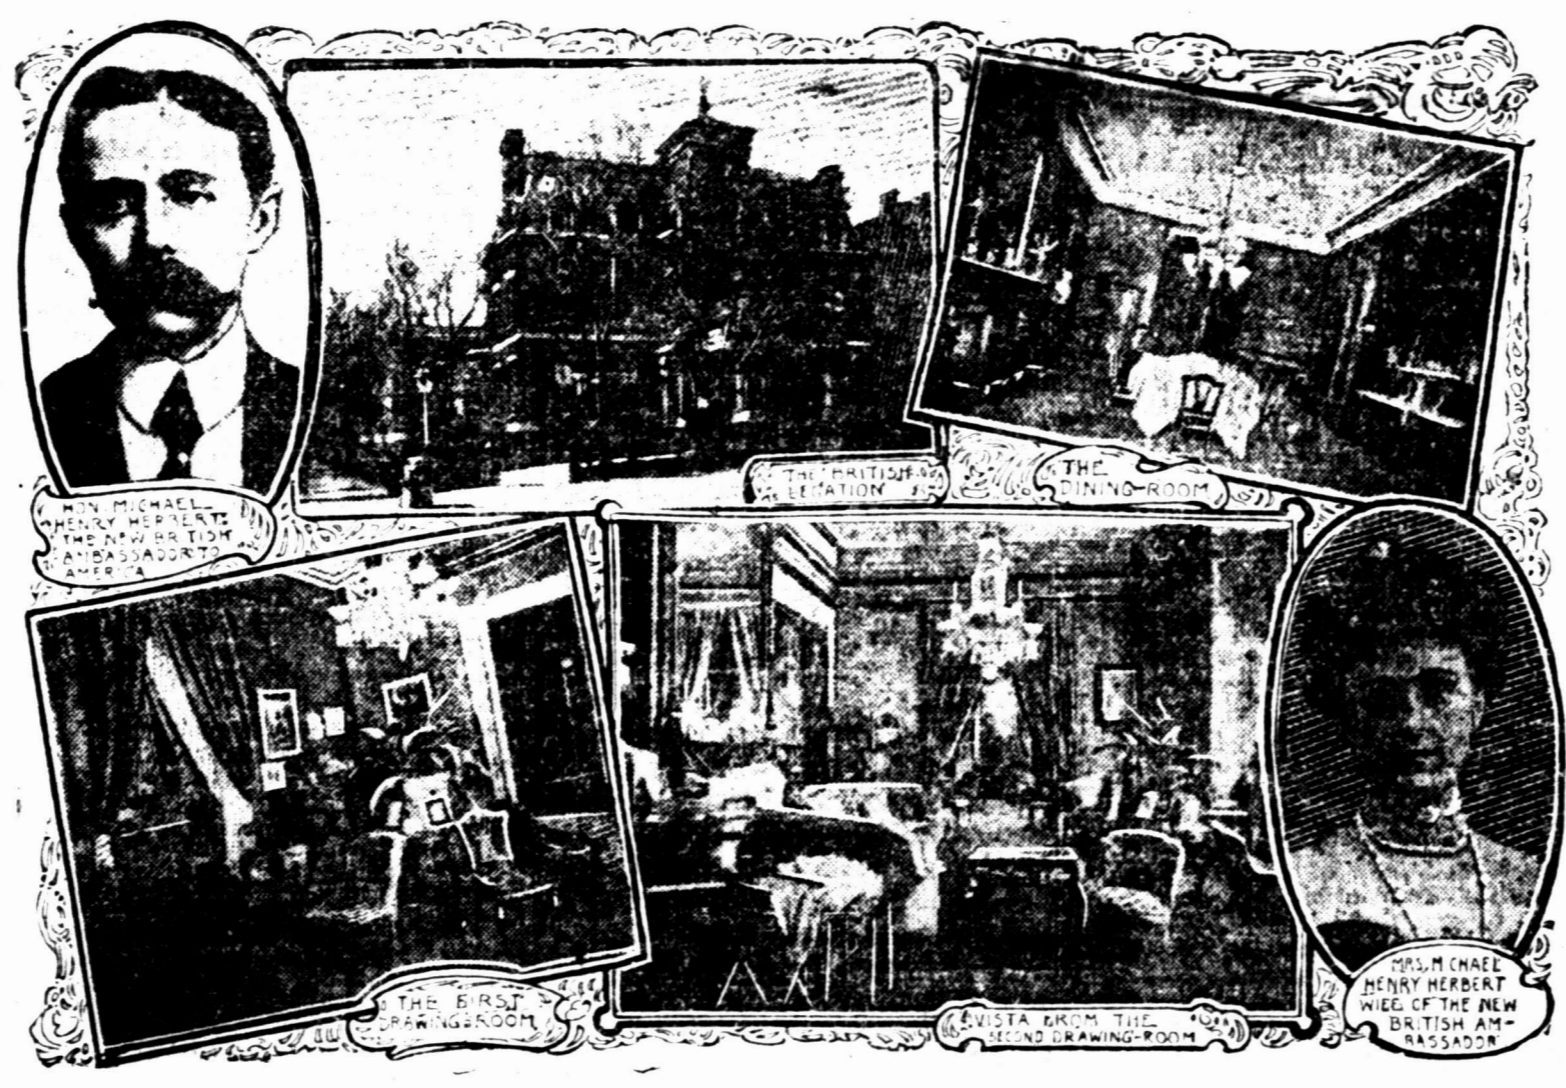

### Surveyors Have Crossed Frisco Tracks and Are Running Lines

West Plains, Mo., Sept. 23.—A corps of Rock Island surveyors under A. L. Clark reached this city and crossed the Frisco at this point, entering to the Southeast. They will meet another party coming this way from Newport. Two lines will be run from this city, one to Newport, the other through the North Arkansas mining district to the anthracite coal fields near Fort Smith. This will give the Rock Island a St. Louis connection with the Choctaw and Gulf. If the road is built, Chief Engineer Beard, who recently inspected the survey, is well pleased, and says the road will be built.

## RAILWAY MEN WILL ENTERTAIN

The railway clerks of America will give an open meeting in their lodge room in the Pythian Temple tomorrow night. Part of the entertainment extended the friends of the order will be in the nature of a speaker. Another feature will be a short talk from John Duff, chief revision clerk of the Rock Island, who has just returned from a meeting of the national organization, in which he will give a report of that meeting and a review of the work of the order.

## HOW REMODELLED EMBASSY WILL LOOK

Sir Michael Herbert, the new British Ambassador, will be in Washington the end of September to present his credentials. He will then return to England and early winter. When he and his family take possession of the Embassy building they will find an entirely changed establishment. Builders and decorators are now here at work remodeling the palatial structure. It is now the most commodious embassy at the capital and when completed will be the most elegant. Lady Herbert who is very popular in Washington, expects to entertain lavishly.

## LIVELY TIMES IN THE ORIENT

### KIDNAPINGS, POISONINGS AND MURDERS ARE STIRRING THE COUNTRIES

Boxer Uprising Has Assumed Alarming Proportions and Serious Danger Threatens the Missionaries at Cheng Tu Scheuen

(By Associated Press)  
Victoria, B. C., Sept. 23.—The steamer Tacoma from the Orient brings news from Pekin that mandarines have been informed from Cheng Tu Scheuen, where the boxer outbreak has assumed such proportions, that Li Lai Chung, principal chief of the boxers of Shen Si, and Lieut. Prince Tuan arrived at Cheng Tu just prior to the outbreak and fomented the insurrection.

Correspondent at Cheng Tu says the mere presence of this man arouses the boxes to a degree of enthusiasm. From Singapore a steamer brought the news that Siamese have sent a war ship to kidnap the rajah of Tulobin and that the rajah of Pini who was kidnaped some time ago, has been poisoned. The rajah of Tulobin, too, is to be kidnaped in order to compel him to sign a document by which he abandons his right to the Kingdom of Siam. Intense indignation prevails among the Malays.

### BRITISH FOREIGN OFFICE OPINION REGARDING HAY'S NOTE

Experienced Diplomat Says Something More Than Polite Literature Will Have to be Used to Crush Roumania

(By Associated Press)  
London, Sept. 23.—Nothing that will be of any permanent good can result from Secretary Hay's note to the powers on Roumania's treatment of the Jews unless somebody is willing to crush Roumania and no power seems anxious to take on that task.

Foregoing is from the utterances of an experienced man in the British foreign office on the subject of the negotiations between America and Europe, and he represents it with a terse straightforwardness which is not likely to figure in the guarded diplomatic replies which Hay's note will eventually produce.

## REDUCTION OF RATE ON FLOUR

### ARGUMENTS PRESENTED BY TEXAS MILLERS IN KANSAS

#### Claim Unjust Discrimination if the Freight Rate Reduction Be Granted Kansas Millers, As Asked By Them

Austin, Sept. 23.—John Reymershofer, president of the Texas Star mills and J. H. Johnston, secretary of the Chamber of Commerce, left yesterday for Wichita, Kansas, to attend a hearing before the interstate commerce commission regarding the applications for a reduction made by the millers of Kansas on the rates on flour from Kansas to points in Texas. A number of the millers of Texas will be present to oppose the granting of the reduction requested. As has been mentioned in The Tribune, the Kansas millers desire the rates on flour reduced to a parity with the rates on wheat. They insist that the commodities should take the same rate and urge that they do take the same rate to other states than Texas.

The call reduction unjust position taken by the Texas millers is that the reductions asked for are unjust and that if the rates are equal to other states it is those rates which need adjusting instead of the rates to Texas, as the cost of transporting wheat and flour are relatively not the same, the cost of moving flour being much greater.

The question has been twice brought before the interstate commerce commission and each time the application of the Kansas millers has been denied. This time the Texas millers expect a repetition of the former action of the commission and they endeavored to get the Kansas millers to withdraw their application in order to save the expense of a hearing. The latter declined to do so, however, and the merits of the controversy will have to be again investigated.

Could Not Compete  
If the application is granted it would work a hardship upon the millers of this state, as many of them obtain wheat from Kansas, and they would be unable to compete with the millers of that state in the market for wheat if the freight rates were arranged on the unfavorable basis proposed.

## UNION WINS AFTER A THIRTY YEARS' FIGHT

### AUSTIN PRINTING COMPANY AT LAST IS FORCED TO COME IN LINE WITH OTHER ESTABLISHMENTS

(Special to the Telegram)  
Austin, Tex., Sept. 23.—After a fight lasting nearly thirty years the Von Boeckmann printing house has come into the printer's union. At a meeting of the Austin Typographical union, held yesterday afternoon, the entire working force of the office, together with Mr. Henry Schultze of the firm, was taken into the union, and this morning every man in the house will go to work under union rules and with a union card in his pocket.

It was away back about the spring of 1873 that Eugene Von Boeckmann started a printing office in Austin. He was a man of great energy and force of character, and as his business grew he educated young men to the printing trade. In this way he was able, by drawing on every available source for non-union men to conduct his business without the help of the union.

But when he had reached the point where he could rest and enjoy the fruits of his labors he died. Then came trouble for the big house he had built. After many unprofitable efforts the plant was finally sold to the present firm of Von Boeckmann, Schultze & Co., composed of R. Von Boeckmann, brother of Eugene; Henry Schultze, brother of Eugene; Henry Schultze, brother of J. F. Fricke, who had been his bookkeeper. These gentlemen have done a good business, but the pressure of trades unionism, which is becoming so strong in the industrial world, was so embarrassing that they concluded that it would be to their advantage to unionize their business.

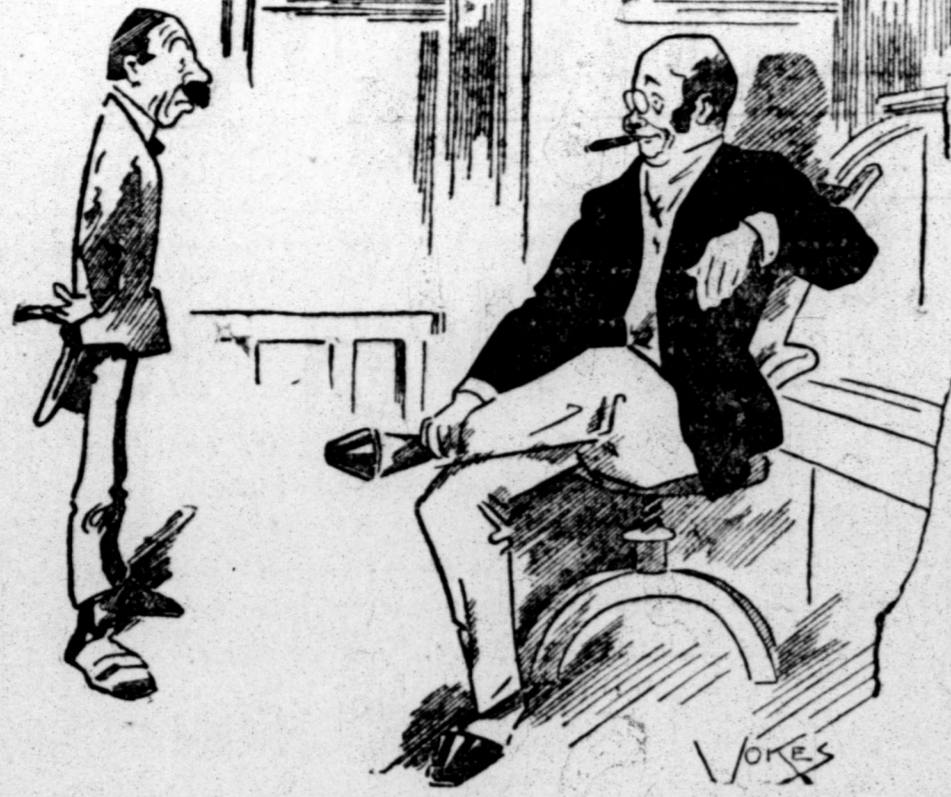

Thus ends a long fight which Austin Typographical union has waged for more than a quarter of a century. Few printers are alive today who saw its beginning, and but four men are living who were members of the Austin union at that time. They are Chat McLaughlin, E. M. Hughes and Ad Dohme of Austin, and George S. Smith of Houston. Ed. H. Smith of Austin was Mr. Hughes' apprentice boy at the time.

RAILROADS IN THE SOUTHWEST

THE RAPID DEVELOPMENT OF A GREAT COUNTRY

Aggression of the Big Railroad Systems and How They Have Settled the Country—Katy Plans

When in St. Louis recently H. C. Rouse, president of the Missouri, Kansas and Texas made some significant remarks about railroad matters in the southwest. Among other things he said: "The development of competition in the Katy territory has made great progress, and to offset the aggression of the many systems and the new lines being built in our territory, we will build many new lines and make many extensions of those lines which already traverse the richest of the southwestern territory. "The Choctaw, Oklahoma and Gulf which as an independent ally, was the most important ally of the Katy in the coal traffic, has passed under the control of the Chicago, Rock Island and Pacific and its tonnage will doubtless be greatly diverted to that system. "The Fort Worth and Rio Grande has passed in a like manner under the control of the Frisco, which will doubtless entail some division of cattle traffic. The impending Rock Island extension to Dallas and Galveston, and the extension of the International and Great Northern of Fort Worth, now about completed, will serve further to divide the traffic of the common territory. "Our Indian Territory line has been intersected at Muskogee by the Okark and Cherokee Central at Crowder City by the Fort Smith and Western, and at Durant by the Arkansas and Choctaw, a Frisco line, which introduces features of competition not heretofore felt. "For the purpose of maintaining its hold upon the territory properly tributary to the Katy, various small feeders have been added, each of which gives new access to thriving points of industry. The extension of the Mineral Branch to Galena and Joplin opens a direct line from the important center of the zinc industry in Kansas and Missouri to Kansas City, St. Louis and other points. The new line from Moran, on the Kansas City division, westward to Joplin, on the Junction City division, traverses the entire distance of the natural gas region of Eastern Kansas, which promises to be the center of important manufacturing developments, especially in the treatment of Joplin and Galena ores. The branch from Boham, Tex., opens a prosperous agricultural region in the cotton belt. "The management has recently entered into the most important plan of construction which has occupied its attention for some years, by taking steps to maintain its hold upon the region in the Indian Territory west of the main line, which, formerly dependent upon the Katy, has recently been invaded by extensions of the Rock Island and the Frisco. Oklahoma Territory is one of the most fertile regions, and when set apart from the Indian Territory attracted an emigration almost without parallel in the history of the country. "The natural connections of this territory and the market for its products, St. Louis and Kansas City, and hence there has been much pressure by the citizens of Oklahoma and the merchants of St. Louis and Kansas City to induce the management to extend the Coffeyville branch from Stevens, I. T., into Oklahoma to Guthrie and Oklahoma City. The line will afford the shortest route to Chicago, and will strengthen the strategic position of the Katy in the country of the most development. "To meet this demand, the Katy is constructing such a line, with a branch through the fertile Arkansas River Valley to Wybank in the Indian Territory, on the Katy's main line, with a view of merging that line with the Katy when it is completed. The total mileage is about 275 miles, and a further extension of this line from Oklahoma City southeast to a junction with the Coalgate branch, especially with the view of opening up new markets for coal, has also been projected."

LIGHT ON CORAL REEFS. New Theory Concerning Their Method of Erection.

A specially interesting communication was made at a meeting of the Royal Society of Edinburgh the other day by Professor Alexander Agassiz of America. The professor devoted his attention to the subject of coral reefs, with special reference to the theories of their erection, says the London Chronicle. He himself has been an indefatigable explorer of reefs in the Indian, Pacific and Atlantic areas, and the main purport of his address was to convey to the society the ideas he had been led to formulate concerning the manner in which the circular reefs, or "atolls," come into existence. Darwin in 1843 showed that as coral could only grow at a limited depth we had to take into account the sinking of land as a factor in the production of barrier reefs and "atolls." As the original land sank the corals, being afforded fresh foundations, grew upward. Darwin's views were disputed by Sir John Murray of the Challenger expedition and others. They contended that "atolls" are built upon foundations of submarine origin and that no subsidence of land is necessary for their erection. The circular form of the "atoll," which incloses a lagoon, is attributed to the erosion and wearing away of the coral substance by sea and chemical action. To this view Professor Agassiz subscribes as the result of his investigations. Here are a few figures which appear worth considering in connection with the views of Sir John Murray and of Professor Agassiz: Taking 150 feet as the greatest average depth at which reef-building corals can live, how much material in the shape of marine deposits, chiefly contributed by chalk animals, and what extent of time would be required to bring a foundation up to within the requisite distance of the surface to afford a base of operations for the coral polyps? Sixteen tons of chalk are contained in a layer of sea water 600 feet deep and a mile square, and this material may be utilized by the chalk animals for shellbuilding purposes. If this amount of chalk were precipitated over a square mile, the layer it would form would be less than .0001 of an inch thick. The tenth of an inch would at least be the outside limit. How long would such an agency take to build up a base of coral rock from the sea depths? Helppin's calculation throws some light on the problem. Every year the accumulation on the ocean bed would not exceed 1.9,000 of an inch in thickness, giving us one foot of thickness in about 100,000 years. Then, if we suppose that a foundation has to be built up from a depth of 600 feet to the limit of coral life, we would require seventy-five fathoms of material at least, and at the rate of accumulation just given such an erection would require 45,000,000 years for its completion.

NO RISE IN CLEAR FORK

Plenty of Water in the Dams, but no Increase From Yesterday's Rain.

There has been no perceptible rise in the Clear Fork of the Trinity river as a result of the rainfall yesterday. This is said not to be an indication, however, that there has been no rain west, but it shows that the fall was not as heavy in that direction as in the north and northeast. Another thing to be considered is that the rainfall was slow and allowed the earth to absorb the water as it fell, thus doing a greater good to the country than if it had run off into the streams. The water works dams are in good condition with reference to supply, and yesterday's rainfall will keep them in that condition quite a while as a result of the natural flow that comes down. The second fall in this immediate neighborhood yesterday was something over an inch, while the first was less than an inch, making about two inches for the day—a great help and reviviner.

# HOOPER YOUNG APPREHENDED

MAN HELD AT DERBY, CONN., PROVES TO BE RIGHT ONE

## HE ADMITS HIS IDENTITY

Is Forced to Acknowledge His Name When Faced by Strong Identification, but at First Tries Strong-Bluffing Game

(By Associated Press)  
Derby, Conn., Sept. 23.—William Hooper Young, for whom the police of New York have been searching in connection with the murder of Mrs. Anna Pulitzer, now in the Derby jail. He was arrested by the local authorities and was fully identified. He has consented to return to New York without requisition papers.

In the guise of a tramp Young had been wandering about the country for several days, when he was arrested by the Derby police on suspicion. Although his description corresponded closely with that sent out by the New York officers, the prisoner at first stoutly denied any connection with the murder and even when he was confronted with a man who was formerly a fellow workman he still denied his identity. But upon the arrival of a man with whom he was intimately acquainted, the prisoner acknowledged that he was William Hooper Young. He will be taken to New York.

It was to Mac Levy, a physical culture instructor of Brooklyn, and Detective Sergeant Edward Hughes, of New York, that the prisoner admitted his identity. Levy and the detective arrived here and were at once conducted to the prisoner's corridor in the jail. The suspected man, who up to this time had insisted that he was Bert Edwards, of Portland, Ore., was taken from his cell and met Levy in the corridor.

"Hello, Hooper," exclaimed Levy as soon as the prisoner appeared. There was no response and no sign of recognition from the suspected man, but when Levy again saluted him, he said calmly:

"I don't know you."  
"Of course you know me," said Levy, and placing his hand on the shoulder of the prisoner, he spoke in a low tone for several minutes. The prisoner said:

"You should be sure of your identification. This is a terrible crime for which I am held."  
Then at the command of one of the officers Young began to divest himself of his clothing that Levy might complete his identification, but before he had finished he was led back into his cell. Mac Levy and Detective Sergeant Hughes accompanied him. There the officer told the prisoner formally the reason for his arrest and the nature of the crime of which he is suspected. The prisoner then for the first time admitted that he was William Hooper Young. He talked with the officer regarding his return to New York, and expressed a willingness to go back at once without requisition papers.

While Detective Sergeant Hughes was talking with Young an acquaintance of the latter, Dixie Anzer, of Hoboken, passed by the cell and looked in. Mr. Anzer, who was formerly a business partner of Mr. Young, was somewhat in doubt about the identity of Young, but as he went by the prisoner raised his head and exclaimed:

"Hello, there's Ansey."  
While Mr. Levy's identification of Young and the latter's own admission cleared up all certainty regarding the case, the police had been positive for several hours that they had the man they wanted.

## SPREADING RAIL CAUSES WRECK

One Man Killed in Smash-up Near Paducah, Ky.

Paducah, Ky., Sept. 23.—A spreading rail which wrecked an Illinois Central freight train at Boaz, sixteen miles below this city, demolished twelve cars of merchandise and five empties. Joe Milburn of Mayfield, Ky., who was riding on a tank car, was killed. A negro trainman is believed to be dead in the wreckage.

## TROUBLE WITH NEGROES EXISTS

Feeling Is High at Frisco and Trouble Is Feared

Frisco, Tex., Sept. 23.—Considerable excitement prevails here on account of race feeling. A committee of about thirty citizens have notified the negroes to leave town, while a petition has been circulated and signed by about a dozen citizens asking them to remain. There are 100 or more who say they will run them out and a majority on both sides are armed. Trouble is feared.

# BIG OIL DEAL AT BEAUMONT

SOUR LAKE GUSHER IS BOUGHT BY AN ENGLISH SYNDICATE

It Is Understood That the Price Involved Is \$1,000,000 and That an Optional Holding Has Been Secured

(By Associated Press)  
Beaumont, Tex., Sept. 23.—W. T. Campbell, manager of the Hogg-Swayne syndicate, has authorized the statement that the Hogg-Swayne syndicate is in no wise concerned in the purchase of the property of the Sour Lake Springs company, as reported. The story obtained circulation through the fact that a deal has been made whereby an English syndicate, which is represented in this country by J. B. Roach, has purchased the entire holdings of the Sour Lake company.

Mr. Roach is out of the city, but it is learned from a reliable source that the deal is in the nature of an option of six months' duration and that the contracts have all been signed. The consideration involved is \$1,000,000. It is stated also that it is the intention of this syndicate to begin a vigorous development of the Sour Lake field by putting down a number of new wells and otherwise equipping the field with tankage and pipe lines necessary to handle the oil.

The property purchased covers 100 acres of the best oil field at Sour Lake and includes the Sour Wells hotel property and other improvements. When Mr. Roach will return here is not known, but the facts as given above are vouched for on the best of authority, but in such a way that the statement can not be authorized by the informant.

## FILES A SUIT FOR \$250,000 DAMAGES

D. R. BEATTY SUES NATIONAL OIL AND PIPE LINE COMPANY FOR QUARTER OF A MILLION

Beaumont, Tex., Sept. 23.—D. R. Beatty has filed suit in the district court against the National Oil and Pipe Line company and the Texas Western Oil company, in which he asks for damages aggregating \$250,000.

Plaintiff's petition alleges in substance that said Beatty and A. Templeton were the only owners of an oil lease on what is known as the Adams ten-acre tract on Spindletop and that the lease was subsequently sold to the Texas Western Oil company and later to the National Oil and Pipe Line company, and the plaintiff alleges that he has never received his proportion of the profits accruing from the sale of the lease, to his damage in the sum stated above.

Plaintiff further alleges that he is informed that the Texas Western company is about to distribute the money received from the sale of this lease among its stockholders, and, if this is done, the defendant will be unable to respond to his claim for damages. It is also alleged that the plaintiff is informed that \$350,000 of the amount due the Texas Western by the National Oil company is represented by negotiable paper evidencing such indebtedness, and an injunction is asked to restrain defendants from disposing of said paper or any portion of the money or stock belonging to plaintiff under the terms of his contract.

## COLOR LINE AT SHERMAN, TEX.

Alleged That a White Jury Discriminated Against a Negro

Sherman, Tex., Sept. 23.—In the county court here Monday the color line was raised by the presentation of a motion to quash the indictment against Sam McKinney (colored), charged with violating the stock law, on the ground that the grand jury was illegal that indicted him and that the jury commissioners who drew the panel before whom he is to be tried selected only white men on such and discriminated against colored men because of their color and previous condition of servitude.

The court refused to grant the applicant to introduce his proof and the case went to trial, the applicant filing a bill of exception to the ruling of the court.

# SHERRIFF TAKES DECISIVE STEP

TIRED OF CONDITIONS AT LACKAWANA AND NOW MEANS BUSINESS

## TROOPS ARE ORDERED OUT

Appeals to the Governor for Soldiers After Outbreaks Near Scranton Warrant the Request—A Riot Is Threatened

(Special to the Telegram)

Scranton, Pa., Sept. 23.—Sheriff Schardt of Lackawanna county Monday night telegraphed Governor Stone to send troops to his assistance. The sheriff had just given out a proclamation announcing that he would call for troops if the lawlessness did not cease, when he received a series of telephone calls to quell disturbances up the valley, and he asked for troops.

Adjutant General Stewart called the sheriff by telephone at 9 o'clock and had a long conference with him. The adjutant general suggested that a posse of members of the Citizens' alliance be called upon for assistance. While the sheriff was preparing to act on this suggestion he received more reports of violence up and down the valley, and at once sent another urgent telegram to the governor calling for assistance immediately.

The worst of Monday night's outbreaks occurred at Archibald. A crowd of 200 strikers, mostly foreigners, ransacked the quarters occupied by forty men employed at the Raymond washery of the Ontario and Western company while the men were at work, and then meeting with the men as they were returning home drove them back to the washery. The mob then returned to the colliery proper, drove out the engineers, firemen, pumpmen and guards and took possession of the breaker.

The plant of the Crescent Electric Light company, which is supplied with steam from the breaker, had to shut down, and the whole region was left in darkness.

In the attack on the breaker two men were shot, one a striker and the other a watchman.  
Chief Deputy Sheriff Miles McAndrew was attacked and shot at by a mob at Olyphant. The steam pipes of the Pennsylvania Coal company's colliery at Old Forge were blown up with dynamite. Two colored cooks at the William A. colliery were rescued by deputy sheriffs from a crowd that was threatening to lynch them.

## TROOPS ORDERED OUT.

Harrisburg, Pa., Sept. 23.—Governor Stone issued an order shortly after midnight Monday night directing the Thirteenth regiment to report to General Gobin for duty in the strike region. The camp equipage will be shipped from a state arsenal. The regiment consists of eleven companies and its strength is about 700.  
Should there be another outbreak the Ninth regiment with headquarters at Wilkesbarre, will probably be ordered out.

## FIERCE FEUD FIGHT IN THE TERRITORY

FOUR MEN KILLED, ONE MORALLY WOUNDED AND SEVERAL ARE HURT—SHOOTING AFFRAY

Eufaula, I. T., Sept. 23.—In a fight among feudists at Spokogee, I. T., Monday four men were killed, one mortally wounded and several others slightly injured. The dead are:

Willie Brooks.  
Clifford Brooks.  
John Brooks, all of the Brooks faction.  
Old man Riddle of the Riddle faction.  
John Brooks was mortally wounded. Of the half dozen others who were shot three were spectators, but none were seriously injured.

Eufaula, I. T., Sept. 23.—Describing the feud fight between the Brooks and Riddle factions at Spokogee, I. T., in which Willis, John and Clifford Brooks and "Old Man" Riddle were killed and John Brooks mortally wounded, James McFarland, of the Riddle party, last night said:

"Willie Brooks and his two sons, Cliff and John, came to Spokogee armed and met huddle at the post-office. John Brooks stepped the old man and threatened to kill him." "I was standing on the corner when Riddle ran and Willie Brooks threw a cartridge into his gun and said he would 'kill Riddle for luck.' He fired and missed, but Cliff Brooks then shot Riddle in the back of the head as he ran out. He fell dead. He was unarmed. John Brooks then told his father to look at me, standing on the corner. Willis Brooks and his boys began firing at me and I returned the fire. Willis Brooks fell, arose and began shooting again but finally fell for good. The boys then went down, shooting to the last."

McFarland and the other Riddleites surrendered and are in jail.

## HARMONY AT START OF REPUBLICAN MEETING

SLATE IS ALL FIXED UP IN ADVANCE AND NO TROUBLE IS ANTICIPATED AT CONVENTION

(By Associated Press)

Saratoga, Sept. 23.—The state Republican convention today will nominate the following ticket:  
Governor—B. B. Odell, Jr.  
Lieutenant Governor—George R. Sheldon.  
Secretary of State—  
Controller—D. B. Miller.  
Treasurer—J. B. Wickser.  
Engineer—A. E. Bond.  
Attorney General—H. B. Coman.  
Judge of Court of Appeals—A. D. Warner.

The platform as drawn for presentation to the committee on platform will have the following recommendations on the following matters to be considered:

The Philippines—The following out of the present policy of education with the adoption of free elections and the establishment of a government which shall correspond to the government of the states of the Union, but with the continuance of the espionage of military control until the natives are able to control, with their free schools; free religion, thought and speech.

Cuba—A recognition of the obligations of good neighborhood and exceptional advantages for the sale of their products to the country.

The tariff—The following out of the policy of the protection to American industries as long as the wages paid in foreign countries for the same kind of labor are less than enough to maintain a workingman's family in comfort. Protection to the home markets for home products on the ground that a revision of the tariff will not destroy the trusts.

Trusts—A recognition that, while every business man and corporation will pursue a financial advantage as far as it can be made to go, the Republican party, while not discouraging such effort, will see that it is not carried to unlawful extremes. It will call attention to the Sherman act, and it will promise to apply such remedy for actual evils as will not interfere at the same time with the business development and prosperity of the country.

## PALESTINE STRIKE UNSETTLED

Machinists Still Out and No Hope of Settlement Given

Palestine, Tex., Sept. 23.—The long-looked-for settlement of the machinists' strike which is still on here, has not yet materialized and there is now very little hope that it will be settled at least any way favorable to the strikers. Some of them still remain here, but most of them have gone to other places to work. The railroad officials are firm and say they have plenty of competent men to handle their machines, while some of the strikers say the engines are daily getting into bad condition.

PAVING HOUSTON STREET
The rain of yesterday brought home to many and many a citizen of Fort Worth the execrable condition of the streets of the city, and particularly of Houston street.

That any metropolitan town should have one of its principle down-town thoroughfares in such an almost impassable state as was Houston street last after the heavy rain of the late afternoon is almost incredible.

If Houston street were over in the Acre it might be excusable. But that the second street in importance—and Houston street property owners will have to admit the assertion—in the city should be allowed to continue as a mud hole; a street without crossings; a street with its gutters so low that the slightest rain will overflow the curb and lay a slimy, slippery dirt all over the walks. It seems that the

Paul's Advice to the Young Man Timothy

YET as many servants as are under the yoke count their own masters worthy of all honor, that the name of God and his doctrine be not blasphemed.

And they that have believing masters, let them not despise them, because they are brethren; but rather do them service, because they are faithful and beloved, partakers of the benefit. These things teach and exhort.

If any man teach otherwise, and consent not to wholesome words, even the words of our Lord Jesus Christ, and to the doctrine which is according to godliness;

He is proud, knowing nothing, but dotting about questions and strifes of words, whereof cometh envy, strife, railings, evil surmisings.

Perverse disputings of men of corrupt minds, and destitute of the truth, supposing that gain is godliness: from such withdraw thyself.

But godliness with contentment is great gain.

For we brought nothing into this world, and it is certain we can carry nothing out.

And having food and raiment let us be therewith content.

But they that will be rich fall into temptation and a snare, and into many foolish and hurtful lusts, which drown men in destruction and perdition.

For the love of money is the root of all evil: which while some coveted after, they have erred from the faith and pierced themselves through with many sorrows.

But thou, O man of God, flee these things; and follow after righteousness, godliness, faith, love, patience, meekness.

Fight the good fight of faith, lay hold on eternal life, whereunto thou art also called, and hast professed a good profession before many witnesses.

I give thee charge in the sight of God, who quickeneth all things, and before Christ Jesus, who before Pontius Pilate witnessed a good confession:

That thou keep this commandment without spot, unrebukeable, until the appearing of our Lord Jesus Christ:

Which in his time he shall shew, who is the blessed and only Potentate, the King of kings, and Lord of lords;

Who only hath immortality, dwelling in the light which no man can approach unto; whom no man hath seen, nor can see; to whom be honor and power everlasting. Amen.

Charge them that are rich in this world, that they be not highminded, nor trust in uncertain riches, but in the living God, who giveth us richly all things to enjoy;

That they do good, that they be rich in good works, ready to distribute, willing to communicate.

Laying up in store for themselves a good foundation against the time to come, that they may lay hold on eternal life.

O Timothy, keep that which is committed to thy trust, avoiding profane and vain babblings, and oppositions of science falsely so called:

Which some professing have erred concerning the faith. Grace be with thee. Amen.

L. Timothy 6: 1-21.

time has come for some determined and immediate action by property owners.

The city council says it is willing to go ahead with the paving. The members claim that they cannot get the support of the property owners in a decision as to what kind of paving ought to be put down.

For Heavens sake, gentlemen of Fort Worth, who own property on Houston street do something! Pave the street with something better and more substantial than good intentions.

Hell, they say, is paved with that class of material.

There is hell enough on earth without putting an extra layer of it on Houston street.

To pave Houston street will, granted, cost some money. Suppose it does.

The paving of Houston street will increase the value of every foot of property on the street.

The paving of Houston street will make of the street a business center. It will share evenly with Main street for popularity in the location of large business houses.

Paving will create a demand for store rooms. A demand will make better rents, more buildings, more business all round.

The men who are now located on Houston street need the paving.

The women of Fort Worth are the buyers at their stores.

The women of Fort Worth are not going to come down town and wallow in the mud of Houston street. If they come at all they will keep on the paving. Main street is paved.

But the paving of Houston street will not hurt Main street. It will help it. What is helpful to any part of Fort Worth is helpful to all of it.

If the merchants of Houston street will put their heads together and say that Houston MUST and WILL be paved, Houston street will be paved.

The Telegram wants to see Houston street paved from Weatherford to Front street. When that is done there will be new store buildings erected on the street. The older buildings will be spruced up. New business houses will open up. The street will become a new mart of trade and the women of Fort Worth can come down town to do their shopping whether the rain pours or the sun shines.

THE IDLER'S NOTE BOOK

The man who has been saying unkind things in one of the state papers about Texas poets, is a cynic, or a misanthrope, or something or other else that signifies dyspepsia.

In charity, it might be kind to assume that he has never read any real Texas poetry, poetry such as comes to the desks of every newspaper in the state, poetry that is offered free, if the gentle editor will give the words to his compositors "set it up."

As a proof that Texans can write, I submit some poetry which recently arrived at the Idler's desk, instead of going to the Stix editor. It was a mistake but I am glad it came my way. It is submitted by Miss Jennie Pantoosic of Biram, Texas, and is written on the occasion of a little

boy's death. As the horse reporter remarked, "There's moosic in Miss Pantoosic's name, but the melody of her verse should not be called by so tuneless an appellation.

Farewell Willy, when, ah, when In heaven or earth, shall we meet again?

You are gone from our midst and your Soul in its flight, left behind it a ray Like an electric light.

The angel of death came with gentle hand And now you are gone from our Earthly band. But we know we shall meet

You in another land, some day when Bright flowers bloom.

We laid you to rest with sorrowing tears But through the dark clouds Hope scattered our fears, and we heard

Singing intended for only heavenly ears.

We miss you, Oh, we miss you, We miss you everywhere. We look into your empty clothes But Oh, you are not there.

Your childish jokes how they used To tease us, but now we know you were

Trying to please us. Ah, no, we will Never forget those pranks, though you Sometimes had to be spanked.

I omit the other stanzas as the last one given here is too touching to allow anything further. And yet they say Texas has no poets.

I am still displeased at the way young men stand on the platforms of street cars and make it difficult for ladies to get on or off. It is unpleasant and it is ungentlemanly. I am sorry they don't think enough of me to quit it.

A growing young man of Fort Worth Was inclined to be large from his birth But he never went out For his frame was so stout The doors were too small for his girth. —The Idler.

AMONG EXCHANGES

The Gollad Guard is out in a special edition of eight six-column pages. It is printed on fine paper and the half-tone illustrations are excellent and well-arranged.

"Introducing the Social Season" is the modest introduction of that society publication, the first issue of which appeared Sunday. Mrs. Lortah K. Stanbery is the editor and the initial number is very creditable.

The Denison Herald has to print its news in nonpareil type in order to get them into the paper, space is so taken up with ads. Some papers would shut off on the news columns, but the Herald readers are more fortunate.

A paper which always has a good word for every other newspaper in the state, is the Terrell Transcript. It is a sort of sunshine ray in the pile of printer's ink productions that lie on the exchange table.

A good newspaper is evidence of a good town. If 'tis so, San Antonians should flatter themselves, as "specially good" was the special souvenir edition of the San Antonio Light, recently issued. The best part of it, is the Light has been a better newspaper ever since.

Speaking of Mayor Powell's welcome to the Republican convention, the Austin Tribune say:

Mayor Powell is a great man and knows what's what. He gulps down pink lemonade with the dries and stores away "masked batteries" with the wets. He knows how to publicly welcome people and make 'em feel at home. Mayor Powell is a whole brick.

THE LAST WORD

No one but the Houston Post could have figured out that the awful catastrophe in the Birmingham church, resulting in loss of over 100 lives, was caused by the pistol toter. And yet so it was. Two men started a fight, one made a movement for his revolver and the cry that started the mob, followed.

The days are gliding swiftly by, and must be taken on the fly, no matter if it's wet or dry. That exposition draweth nigh.—San Antonio Light.

Next time, you run to rhyme you'd better try some words like why, or try, and even sky. And maybe these would suit; say guy, or pie or sigh or cry, and also high, sty, tie and dye. That's all this time, goodbye.

There isn't anything the matter with the Boers. They are now asking the British to pension those wounded and disabled in the war.—Austin Tribune.

If there's nothing the matter with 'em, what do they want pensions for?

FORT WORTH IS HERALDED

The "Telegram" Quoted and Commented Upon by the National Provisioner

The National Provisioner, printed in Chicago and New York, quotes from The Telegram and says:

The Fort Worth Telegram says that one group of buildings of Armour & Co.'s \$2,000,000 packinghouse plant at that place is nearly finished. A long line of workmen is pushing the construction and installation work of the big plant at every point. The stockyards company is putting down the piles for the immense viaduct for driving stock and for other purposes. Texas is looking on in anxious expectancy and already the people down there are figuring the great probabilities of the new packing enterprise at Fort Worth. It is hoped to start this plant at an early date.

A distinguished traveler and newspaper correspondent writes: "I have been in many tight places in my time. I have been nearly all over the world. I have seen the Alps, penetrated the jungles, swam deep rivers and pushed my way through dark forests. But never in all the many experiences of my varied career have I been in such peril as threatened me yesterday afternoon when I tried to walk down Houston street after the rain."

THE MYSTERY OF GRASLOV By Ashley Towne

Copyright, 1901, by Charles B. Etherington

Prince Neslerov wants to marry Frances Gordon, the charming daughter of an American who is building the Trans-Siberian railroad. Frances is interested in the fortunes of Vladimir Paulpoff, a stalwart Russian blacksmith. She asks Neslerov to use his influence for Vladimir. Neslerov goes to Vladimir's hut. The blacksmith has talent and shows Neslerov a picture he has painted. It is the portrait of a woman of rank copied from a miniature. The prince is excited and asks for the original. Vladimir's father says it has been lost. To Vladimir old Paulpoff confesses that he lied to Neslerov and still has the miniature.

Neslerov has the Paulpoffs sent to Siberia as nihilists.

Frances Gordon goes to the forge with books for Vladimir. At the door of the lonely hut she encounters Neslerov. The prince presses his suit violently and Frances stuns him with a pistol shot in the head. Gordon wishes his daughter to marry Jack Denton, an American bridge engineer. Frances demands that her father intercede with the governor for Vladimir. They start for Obi. Neslerov boards the same train which breaks in two, and Neslerov has Frances alone in his power.

Neslerov drags Frances before a priest and bids him to perform a marriage ceremony. Jack Denton comes to the rescue. Neslerov is beaten off. Denton nearly kills Neslerov in a duel.

Jack promises Frances to save the blacksmith. He repairs a disabled engine and hauls a car containing the wounded prince and Frances toward Obi. On the road they meet Gordon, returning with a special car for his daughter. Frances will not expose Neslerov's baseness.

Neslerov sends his creature Jansky, chief of police, to the Siberian mines to recover the original of Vladimir's picture from the Paulpoffs; also to put Denton out of the way, secretly.

Princess Olga, cousin of Neslerov, visits the palace at Tomsk. She recognizes in the Vladimir picture the portrait of Princess Alexandra, the deceased wife of Neslerov's brother, and connected with a mystery at Graslov.

"The whole thing is a complete mystery to me," said Unsethob, speaking somewhat thickly, having drunk considerable liquor. "It is a mystery. First we receive one command, then another, and we do not know what to do. The governor is not wont to act thus."

"You are not the first to have felt the influence of this great mystery," said Jansky. "The governor is discreet."

"Oh, I said a complete mystery. I would not call it a great mystery. That would bring it to the dignity of a celebrated case."

"So it is. It is one of the most celebrated cases in all Russia."

"That is too much! One of the most celebrated cases in all Russia, and they have not been in the dungeons more than three days! The matter could scarcely have gone beyond Tomsk."

"Nevertheless I spoke truly."

"Then there is something about it I do not know. When I reflect, it seems of course that this must be the case."

INDEPENDENT TELEPHONES

ORGANIZATION OF NEW FORT WORTH CO. PERFECTED

Promoters Are Pennsylvania and Local Capitalists—Plant to Be Installed, To Be in Operation by May 1 Next

The Fort Worth Telephone company the new independent company, which was recently granted a franchise by the city council, has perfected its organization and forwarded its application for a charter to the secretary of state at Austin. Construction work is to begin on Nov. 21, and it is expected that the plant will be in operation by May 1, 1903.

Capital \$304,000. The corporation is capitalized at \$304,000, all paid up, and the officers are H. A. Fuller, president, and Joseph D. Lloyd, secretary-treasurer, both of Wilkesbarre, Pa. The directors are composed of H. A. Fuller, Joseph D. Lloyd, Joseph L. Dunn, John M. Crane, William Drury, John B. Yeaker, F. M. Kirby, F. C. Johnson and J. Frank Nuss of Wilkesbarre, Pa.; Sidney L. Samuels, F. B. McElroy and Martin Casey of this city.

The members of this company are individually interested in various telephone exchanges in Pennsylvania, Kentucky, Tennessee and New Jersey, and are experienced in the business. They have looked into the Texas field and have decided to begin their Texas investments in Fort Worth as offering the most flattering prospects for business growth and progress in the state.

The Directors. Secretary Lloyd, in speaking of the personnel of the company and the work to be inaugurated here said:

"The directors of this company include some of the wealthiest capitalists and most prominent business men in the Wyoming Valley, the heart of the great anthracite coal region of Pennsylvania. Some of the stockholders in this company are interested in telephone exchanges at Paducah, Ky., and Jackson, Tenn., and others are interested in the consolidated companies in Pennsylvania and New Jersey. However, the same stockholders are not interested in all of the companies. They are all practical men and are willing to put money in an enterprise of this kind in Fort Worth, where a franchise has been granted for the construction of a new telephone system. Some of our people are interested in as many as 150 different telephone exchanges. Mr. Fuller, our president, is one of the leading lawyers of our state.

"We expect to get to work within the next two weeks. Our electrical engineer, Mr. Murray, will be here within a short time and it is our intention to push matters as fast as possible. Our capital stock is fully paid in and we expect to put in a first-class up-to-date telephone exchange in this city. The establishment of the packing houses in Fort Worth has attracted our attention, and we think there is a bright future for this city."

The apparatus to be used in equipping the plant is to be of the very latest pattern, with full central energy and common battery, and every subscriber is to be supplied with an individual line. All wires within the fire limits are to be placed under ground, and outside of the fire limits aerial cables will be used.

HARRY M. PEASE DEAD

Was Cartoonist on Old Gazette Here—Died in Chicago

News of the death of Harry M. Pease in Chicago last Saturday has been received in this city. Harry Pease lived in Texas for a number of years during the 80's, and for two or three years was employed on the morning Gazette. During the Hogg-Clark campaign in Texas he was one of the publishers of the Texas Cartoonist, a strong Clark paper, issued from Dallas. Some years ago Mr. Pease married Miss Fife of Houston, who survives him.

WAS CRUSHED BETWEEN CARS

George M. Caskey Seriously Injured at Dublin While Making a Coupling

George M. Caskey, a brakeman on the Fort Worth and Rio Grande, was seriously hurt at Dublin yesterday afternoon at about 1 o'clock. He was making a coupling and got caught between two cars, and was badly crushed. It was thought at first that his injuries were fatal and that there was no hope for his recovery, but this morning it is reported that he is doing well and hopes are entertained that he will recover. His wife was immediately notified and went at once to his bedside.

It has also cured numerous cases of partial paralysis. It is for sale by N. E. Grammer.

THE RIDER OF THE HORSE HAS A SAY

HUGH GLOSSON, OTHER FIREMEN AND CITIZENS DECLARE DOG DID CAUSE TROUBLE

Hugh Glosson, the fireman at No. 6 station who rode Tom Powell, the fire horse, on Friday afternoon when Tom fell and broke a leg, asks to have a say in The Telegram in answer to the statement made by Mr. Johnson, the owner of the bull dog.

Mr. Johnson, in his statement to The Telegram yesterday, claims his dog did not leave his front gallery at the time mentioned, that the gate was shut, and that the dog is too fat and clumsy to jump his front yard fence, and, further, that the dog was quietly resting in a rocking chair at the time the accident is said to have occurred.

Glosson's Statement.

In contradiction Mr. Glosson says: "Mr. Johnson, in effect, makes it appear that his dog is a Sunday school dog and goes to prayer meeting every Wednesday night, and that he is a pet of the children of the neighborhood. He also claims the dog did not run out and cause the horse to fall—that I am a liar. Now, if I am a liar, there are an even dozen reputable witnesses who are likewise liars—and they are not, neither am I, but if I was looking for one I would not have to be sought. I say the dog did run out and chased me and my horses, sprang two or three times at old Tom's nose and caused him to fall. In corroboration of this, I have here a list of an even dozen witnesses, reputable people, men, women and children, who will testify to the truth of this statement. There were no evidences that the dog bit the horse, but he did spring at his head two or three times. The horses were running and old Tom struck at the dog with his head and front feet. It was all so quick that a photographer could not have caught it, but these are facts. As to the dog not being vicious, why, only a few days ago he tore the seat out of a little negro's pants—yonder's the boy now. At another time not so many days ago he ran over a block from his home and frightened two ladies walking along the street—yes, and he pulled a small boy out of the rear end of a grocery wagon the other day. Sunday he chased Mr. Tucker's buggy in which were Mrs. Tucker and her little girl. Not so very long ago we were returning from a fire, the horses were walking, and that dog ran out and bit one of the horses—and brought the blood. Felix Gaither, the druggist down here, cauterized the wound. Oh, no, he is not a bad dog, but is a perfect pet—I don't think."

Captain Ferguson, Sherman Walker and another fireman present corroborated Glosson's statements concerning the former behavior of the dog, and expressed their belief in Mr. Glosson's statements concerning the accident of Friday afternoon.

A man engaged in digging post holes only a block away was also present and verified Mr. Glosson's assertions concerning the dog's action of Friday, saying: "I saw the whole thing, and that dog did run out and make old Tom fall—came pretty near being all off with 'Sadie' (Glosson), too."

The Telegram simply gives Mr. Glosson's statement, as it did Mr. Johnson's for what it is worth, and thus ends this character of controversy so far as its columns are concerned. It is a question of veracity between the rider of the horse and his witnesses on the one side, and the owner of the dog and his witnesses on the other—the horse is dead.

IS LOOKING OVER FORT WORTH

A Florida Editor Investigates Local Stock and Packing House Situation

R. W. Storrs, editor and publisher of The Stockman at DeFuniak Springs, Fla., was in the city yesterday investigating the local conditions of the cattle and packing industries. Mr. Storrs was enthusiastic over the outlook here and predicted a great future for Fort Worth and its packing interests. Mr. Storrs will have something to say of what he saw and learned here in a future issue of his paper. He is an enthusiast over the future that is ahead for Florida and particularly for his section of the state. "Pensacola," he said, "is going to be the great metropolis of Florida and that section of the country. We have there one of the finest of all harbors in the world and once the Ithman canal is constructed Pensacola is going to be one of the very important points on Uncle Sam's entire line."

BIG DEMAND FOR CARS

Heavy Movement of Range Cattle Pushes Railroads

There is a big demand now for cars to move cattle that are going to the feed pens. The movement is very heavy and the roads are not able to meet the demand with all the equipment at their disposal. These cattle are now going from the pastures and ranges where they have been grazing through the summer to the oil mills and other points where they are to be fed on cotton seed meal and finished for market as fat beefs.

A Certain Cure for Dysentery and Diarrhoea

"Some years ago I was one of a party that intended making a long bicycle trip," says F. L. Taylor, of New Albany, Bradford county, Pa. "I was taken suddenly with diarrhoea, and was about to give up the trip, when editor Ward of the Laceyville Messenger suggested that I take a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I purchased a bottle and took two doses, one before starting and one on the route. I made the trip successfully and never felt any ill effect. Again last summer I was almost completely run down with an attack of dysentery. I bought a bottle of this same remedy and this time one dose cured me." Sold by N. E. Grammer.

WILL MEET IN FORT WORTH

STATE CONVENTION OF Y. M. C. A. TO GATHER OCT. 7.

General Committee So Decided Yesterday—Rally Day to Be Observed Next Sunday by Active Christian Workers

At a meeting held yesterday afternoon at Dallas of the State Y. M. C. A. committee, composed of W. M. Lewis, state secretary, Sam Warr, A. committee, composed of W. M. Wynne, secretary at Dallas, it was decided to hold the coming state Y. M. C. A. convention at Fort Worth on October 7 and 8. The program for the two days will be announced shortly.

The Young Men's Christian Association, as heretofore, will give special attention this winter to the study of the Bible for young men as a preparation for Christian service. Next Sabbath is Bible study rally day all over the world. It will be observed in Fort Worth by a meeting in the interest of practical Bible study for men, at 4:00 p. m. at the Y. M. C. A. This meeting will be addressed by W. M. Lewis, state secretary of Texas. In view of the need of active Christian workers and the value of a working knowledge of the Bible as an equipment for intelligent service it is hoped that a large number of young men will attend this rally. The Association desires to be of great benefit to the churches by training the young men for work.

KILL CUR DOGS INFESTING CITY

WANTS LAW ENFORCED IMPOSING TAX ON DOGS

A Lover of Good Animals, John B. Hawley, Voices This Sentiment—City Should Be Rid of the Roving Menace

"Kill the cur dogs that infest the city," says John B. Hawley. "I am a dog lover, and believe in protecting and caring for good dogs, but the mean cur dogs that are prowling all over the city and have become a menace to the people should be exterminated. 'In every city in Texas the dog law is enforced except Fort Worth. We have a dog law here, the same as elsewhere, but it is not enforced. I am emphatically in favor of enforcing a dog tax that will protect all good dogs, and then kill the surplus. I have a good dog myself—and I said before, I'm a dog lover—and I don't want him killed. But I am willing and anxious to pay a tax on him and have him protected.

"The law should be enforced and not be allowed to die in innocuous desuetude instead of the dogs. Kill the cur dogs."

S. E. Starn is also very outspoken in regard to the anti-dog feeling, and even offers his services in carrying on the war. "If the city council will give me the authority," he says, "I will agree to kill 1000 cur dogs without expense to the city. And I'll use discrimination, too, between good dogs and curs. I'll let the good dogs live. I only wish they'd let me have a chance at the mean curs, I'd fix 'em."

MORE PTOMAINE POISONING

Members of the Family of W. T. Browne in Riverside Ill.—The Supposed Cause

The members of the family of W. T. Browne, living in Riverside, are ill as a result of ptomaine poisoning, reported last night. Dr. C. A. Parker was called and this morning announces that all—including Mrs. Browne, her little son and Mrs. Browne's mother, Mrs. Snow—are much better and will recover. It required several hours work to bring the patients around. Mrs. Browne was the most seriously affected of the three. The poisoning is thought to have come from some portion of the food consumed in the evening meal.

WILL AID IN ENFORCING LAW

Saloonkeepers of Corsicana Form Unusual Organization

Corsicana, Tex., Sept. 23.—The local retail liquor dealers effected a permanent organization last night for the enforcement of the laws controlling saloons. The sheriff and other officers were present and these matters were thoroughly discussed, after which the dealers pledged themselves, individually and collectively, to assist the officers in enforcing the law.

W. A. Wilkerson was elected president of the association; R. H. McLeair secretary and H. T. Jackson treasurer. The association will meet on second Friday nights.

STOPS THE TRACK-LAYING

City Marshal of Oak Cliff Hinders Further Progress

The Northern Traction company is laying double tracks on its line in the western part of Oak Cliff, but the work was stopped yesterday by City Marshal I. G. Ehrhidge. It seems that the marshal took this action in accordance with action taken at a meeting of the city council on Saturday night.

General Manager Haines is over there or in Dallas today and could not be seen with regard to the cause of the trouble or as to what procedure the company will follow. No one at the general offices in this city could throw any light on this situation.

Prescription No. 2851 by Elmer & Amend, will not cure all complaints, but it will cure rheumatism. E. F. Schmidt, Houston, Texas, sole agent.

MARKET CONDITIONS FOR THE PAST WEEK

LETTER ISSUED BY THE NATIONAL LIVESTOCK COMMISSION OF FORT WORTH.

Following is the summary of market conditions the past week, issued by the National Live Stock Commission of this city, under date of yesterday:

During the week the northern market has shown a continuous decline in prices ranging from 20 to 25c and today's quotations are from 10 to 15c lower. Receipts are reported heavy with a large run being made. In St. Louis 850 to 950 pound grass steers are selling at \$3.35@3.75. Good grass cows \$2.85@3.05; fair to good \$2.65@2.80; common stuff around \$2.00@2.25.

While as stated the northern markets are lower, it has not materially affected ours, and good smooth fat cows, weighing 800 pounds and up find ready sale at from \$2.50@2.75. This market does not receive enough of this kind of stuff and we know, freight and shrink considered, this market is as good as any. The net results are better than if the stuff went forward. The supply of cattle here this week has been liberal. The common and canner stuff was slow sale but, the good cows were in demand and not to be had. We know of several parties who want to buy bulls and several sales are reported this week at \$2.10@2.15. They are in need of more. If you have any ship them to us. We can sell them readily. Two and three year old steers are quotable at \$2.75@3.00 and in good demand.

Hogs Worth Money

The hog market opened 15c higher Monday in Chicago. Remained steady to 5c higher during Tuesday. It reacted Wednesday, however, and the market has steadily declined, and it soon lost what it had gained at Monday's opening. We have had several good cars in this week and the choice sold at from \$7.05@7.10. We are having frequent calls for stockers and are in a position to sell several cars if we can get them.

Market quotations for the week as follows: Choice fed steers.....\$3.75@4.00 Medium fed steers..... 3.25@ 3.75 Good grass steers..... 3.00@ 3.25 Light thin steers..... 2.50@3.00 Yearlings and stockers little demand. TO FIND HOMES FOR CHILDREN

Rev. I. Z. T. Morris Has Gone to El Paso to Get Three Boys

For the purpose of securing three small boys awaiting his coming, Rev. I. Z. T. Morris has gone to El Paso, where he will get the children, all brothers, and will also find homes for them. Dr. Morris four years ago took three children from the same mother and lived in Taylor county. He will do some other missionary work during his trip. Dr. Morris is making quite a name over the state for finding children for homes and homes for children.

Take Care of the Stomach

The man or woman whose digestion is perfect and whose stomach performs its every function is never sick. Kodol cleanses, purifies and sweetens the stomach and cures positively and permanently all stomach troubles, indigestion and dyspepsia. It is the wonderful reconstructive tonic that is making so many sick people well and weak people strong by conveying to their bodies all of the nourishment in the food they eat. Rev. J. H. Holladay, of Tootle, Miss., writes: Kodol has cured me. I consider it the best remedy I ever used for dyspepsia and stomach troubles. It was given up by physicians. Kodol saved my life. Take it after meals. Smallwood & Anderson and Anderson & Smallwood.

INVESTIGATING COTTON CROP

GOVERNMENT EXPERTS LOOKING AFTER THE BOLL WEEVIL

Say Egyptian Cotton Is not Wholly Weevil Proof and They Have Been Able to Reach no Definite Conclusions.

San Antonio, Texas, Sept. 23.—Mr. Herbert J. Webber, in charge of the plant breeding laboratory of the United States Department of Agriculture, at Washington, accompanied by Mr. A. W. Edison, also of the Department of Agriculture, has been in San Antonio for several days, inspecting agricultural conditions, especially with reference to the cotton boll weevil pest, and the advisability of the cultivation of Egyptian cotton as a boll weevil resistant.

Discusses Conditions. In an interview with the Express, Mr. Webber said:

"The report has gone over the state somehow or other that Egyptian cotton is immune from the boll weevil, based on the observations at San Antonio. The fact is that Egyptian cotton, which was planted on the Collins farm, was planted on land that was in cotton last year, the last year's crop being largely destroyed by boll weevil. In the same field, one hundred feet away, there is a small patch of upland cotton, and in this cotton the weevil appeared early in the season, practically destroying the crop.

"On the other hand, on the Met Affix crop, only one hundred feet away, the boll weevil appeared only about a week ago. The plants of the Met Affix Egyptian cotton are heavily fruited and the injury to the crop by the weevil is very slight.

"From our observations here, it would seem that this variety of Egyptian cotton—the Met Affix—has some degree of immunity from boll weevil.

"Unfortunately, we have this same variety of Egyptian cotton at Houston, and we find that the weevil is quite common in the patch there. The crop at Houston is very light and we do not think it is due alone to the boll weevil, the cultivators not having been thorough and the plant having been seriously injured by the early stages of the drought; and we are unable to determine how much injury is due to the different causes.

"The conclusions to be drawn from these two experiments are very doubtful. It would seem, however, that this variety of cotton—the Met Affix—is somewhat immune from boll weevil; but this feature must be more thoroughly tested before it can be fully determined.

To Avoid Importation

"Another purpose of the Agricultural department besides eradicating the boll weevil is to adapt Egyptian cotton to this country. The United States annually imports from Egypt \$7,000,000 worth of cotton. We want to avoid this by growing the Egyptian cotton a farmer might raise. So porting Egyptian cotton fifty years and have been distributing Egyptian cotton seed among our planters, but there has been no concerted effort to bring growers and manufacturers together; therefore there is no home market for the small amount of Egyptian cotton a farmer might raise. So little has been grown here that no local market has been created and those who have grown it have to ship to Boston in order to sell for more than native cotton will bring at their local market.

It is claimed by the agents of the Egyptian cotton buyers that we cannot raise that cotton in this country; it is in order therefore for us to demonstrate that we can.

"In our present experiments we are making selections from each patch of Egyptian cotton with the view of increasing production and improving the quality of fibre. This is the first year of the work in Texas, but in South Carolina and Georgia experiments have been under way three years and selections that have been grown in this country show improvement in fibre rather than deterioration.

"We have not reached any final conclusion yet, but the indications all point to making the Egyptian cotton industry a success in Texas and other Southern states."

COMING EVENTS FOR OCTOBER

PROF. GUSTAVE MEYER'S PREDICTIONS FOR NEXT MONTH

Says That Scandals Will Be Rife, but Pleasures Will Be General—Dangers to the Government and Navy

The following is an interpretation of what the "starry messengers" signify and impart to me on "coming events" for the month of October, according to astrology...

I find at the above given time that the sun and the moon were in conjunction and posted in the ninth mansion of the heavens...

Time of Pleasure.

As the fiery zodiacal sign of Sagittarius is rising at the above given time, and as the ruler of this sign is the fortunate planet Jupiter...

As Venus was posted in the ninth mansion, I should judge that religion will give way to pleasures, or church festivals will be unusually large...

Government Troubles.

During this period our government will experience much trouble, and our president should guard against much slander, dishonor, discredit and much trouble is also indicated either with, through or to his wife...

During the fore part of October, it will be well for all prison and asylum authorities to use more than usual precaution, as much trouble is indicated to prisons and asylums...

I find that real estate men, land owners and farmers will experience an unusually fortunate and prosperous month. The fore part of October shows much trouble in connection with schools, theaters and hotels...

The fore part of this month is bad for the public health, and during that period, it will be well for the navy department to warn all naval commanders to guard against much trouble during this period to our naval vessels...

During this month, there will be some change or demise in President Roosevelt's cabinet, and our government should also guard well their secrets or otherwise some of our plans are liable to become disclosed to foreign powers...

GUSTAVE MEYER, Hoboken, N. J.

TEXAS POSTMASTERS AND OFFICERS NAMED

LATE ADVICES FROM WASHINGTON BRING GOOD NEWS TO APPLICANTS

The superintendent of the eleventh division railway mail service has been advised by the department at Washington that the following postmasters have been appointed...

"Waken, Lords and Ladies Gay,  
On the Mountain Dawns the Day."—Scott.

The sleeping-car that leaves Fort Worth on our night train is ready to receive passengers at NINE o'clock, each evening, and this car is set out at Colorado Springs for guests to vacate at their leisure. The place where the car waits is only about six miles from the mountains, and a beautiful sight greets the wakers from that long, refreshing Colorado sleep—under blankets.

This night train also has a sleeper that goes into Denver, reaching there at a comfortable rising time.  
Both of our daily THRU TRAINS have those sleepers with "Large Ladies" Dressing rooms," also meals served in our own Cafe Dining cars—a la carte service, 25c and up per individual. These special features of distinguishing excellence are among the characteristics that have, now for some time, made appropriate the "Only-One-Road"—and "You-Don't-Have-to-Apologize" verdict of persons who are capable of appreciating good service and making distinctions.

**THE ARNOLD STOCK COMPANY**  
Opened a Week's Engagement With "The Struggle for Life" Last Night at Greenwall's

The ever popular repertoire artists composing the Arnold Stock company opened a week engagement last night at Greenwall's, presenting "The Struggle for Life," a play which was well put on and witnessed by an audience which filled the house to its capacity. In fact, the sale of seats was cut off long before 6 o'clock yesterday afternoon. There are no better popular price companies making this circuit than is the Arnold Stock company, and each season in this city new specialties are added. Each member of this company strives to please, and this effort is appreciated by the Fort Worth theatergoers. The special scenery carried and costumes worn are the best, and the list of specialties are in the main new and pleasing. Among the specialties is "The Box Room," one of Herrmann's features, differing to this extent: A man is tied in a sack, the sack tied and placed in a box, which is carried by a committee from the audience; twenty-six seconds later the man who has been placed in the sack walks down from the entrance of the theater and climbs upon the stage, while the committee upon opening the box finds another man in it.

Herrmann has no committee on the stage and the change is made on the stage in a cabinet.

"The Girl From the West" is today's matinee bill and for tonight the spectacular melodrama "Midnight in Chinatown" is the attraction. There will be two performances each day for the remainder of the week, matinee and night, change of bill with each performance.

**POMPEII AT OLD BALL PARK**  
Reservation Is Found to Be Inadequate for the Big Show

It has been decided to change the location of Pain's Last Days of Pompeii to the old Texas and Pacific ball park, instead of the reservation grounds as originally intended. It was found the reservation grounds were entirely too small for the purpose.

A large force of men will begin work tomorrow on the ball grounds, removing the fence, and erecting the

electric light poles. The spectacle is due to arrive here from Wichita, Kas., next Sunday night and the first performance will be given in Fort Worth on Monday, Sept. 29.

Pain's spectacles are probably better known in all parts of the world than any other amusement enterprise and the "Last Days of Pompeii" which is entirely new this season is said to excel anything in the spectacular line ever attempted by the famous pyrotechnist.

While the destruction of Vesuvius and the grand fireworks display are the principal features of the performance, many celebrated acrobats and athletes are members of the company, also Mlle. Laura Rose and her pony ballet of eight dancing girls.

**A PROTEST AGAINST THE WORTHLESS CUR**

**CITY ENGINEER HAWLEY EXPRESSES HIMSELF FREELY—SAYS OTHER CITIES HAVE DOG TAX**

"Say, I want to offer my protest against the running at large of the hundreds of worthless dogs in this city," said City Engineer John B. Hawley to The Telegram today. "I am an admirer of a good, clean pure-bred dog, and would defend one against an enemy, but I do protest against the mean, scrabby, messy curs that infest the city. It is distressingly queer to me that Fort Worth can't have a dog tax—every other city in the state, large and small, has a dog tax law but Fort Worth permits them to run

at large and at will—I say it is passing strange to me. The city is overrun with them, they are not only a nuisance, but are dangerous day and night. No one is safe. Now here we had a death of a child from hydrophobia and its parents and others bitten by the same cur are away to take the Pasteur treatment. Not so very long ago poor old Uncle Sam Darcy, the one-armed veteran, now dead, was almost chewed to mince meat by a pack of worthless curs, and out on the open street. Only last Friday the city lost a valuable horse, whose death was occasioned by a vicious dog. At night cased by a vicious dog. At night the city are harassed by the barking and howling of these curs. Children are not safe at home or on the streets from the attacks of the worthless cur, and I tell you such pressure ought to be brought to bear on somebody in to rid the city of them, or else act to support some measure which would compel the owners to keep them in doors and responsible for their actions."

**CITY BRIEFS.**

While Mrs. M. Bowen of Glenwood was visiting her mother in N. Fort Worth yesterday, her little daughter, Ruth, fell from a tree, fracturing a bone and dislocating her right elbow. Drs. Howard and Hooper attended her and say she is doing nicely, although her arm is very painful.

J. J. Langever and Frank M. White leave tonight for Newton, Kas., to attend a street fair there and get suggestions for the coming Fort Worth Free Fall Festival.

Ruby lodge, Knights of Pythias, is expecting to have a very interesting session at the Pythian temple tonight. There will be work in the third rank, and some fine team work is anticipated. Visiting knights in the city are cordially invited to be present.

**GOVERNMENT COTTON REPORT**

Conditions Prevail Throughout the State at Present Time  
Cotton is very nearly open and picking has been actively carried on, being practically completed in parts of Florida and Texas, and parts of Mississippi and Louisiana. Rains have caused considerable damage to open cotton, but much benefit to late planted in Texas and Oklahoma and Mississippi. Light top crop will mature under favorable conditions and blooms reported from other parts of the central and eastern districts, will scarcely mature.

**ARGUMENT IN THE MINNIE STRAUSS CASE**

**CASE WILL PROBABLY GO TO JURY TONIGHT—NON-JURY CIVIL BUSINESS**

Argument was commenced at 1:30 today in the Minnie Strauss murder case in the Seventeenth district court, the taking of evidence having closed at noon. The case will probably go to the jury tonight. Defendant is charged with having killed Jack Snow, colored, her paramour.

In the County Court. There was a plea of guilty to theft in the county court this morning, and John Latham, white, was fined \$2 and costs and sentenced to one day in jail for stealing a pair of shoes.

The court was engaged with the regular day's docket, non-jury civil business. The setting for this docket tomorrow is as follows:

R. S. Criddle vs. Armour & Co., R. H. Beckham vs. J. H. Griffin, et al.; I. and S. Bing vs. J. G. McPherson, I. and S. Bing vs. W. D. Morgan, garnishee; Joseph Linz & Bro. vs. J. E. **SOUTHWESTERN CONSTRUCTION**

Work on Katy's Wybark and Ozark and Cherokee Central Lines. Ten miles of the Wybark extension of the Missouri, Kansas and Oklahoma railroad will be completed within the next three weeks and the steel laid to the new town of Hagerman. As soon as the new line is completed to Hagerman, the contractors will commence work at Tulsa and grade back to Hagerman. It is expected that trains will be running from Wybark to Tulsa by the first of the year. The Ozark and Cherokee Central railroad has completed its road to Melvin, twelve miles west of Tahlequah, I. T. The grade is being pushed rapidly to Fort Gibson. Steel has been laid from Muscogee to the Arkansas river bridge, and the work of grading from Okmulgee to Muscogee is being pushed rapidly. Two spans of the Arkansas river bridge have been completed and the material has arrived for the rest of the bridge. The Ozark and Cherokee Central will be in operation from Tahlequah to Okmulgee on November 1.

**FAMOUS LION SEES HIS FINISH**

Wallace, Who Killed Eleven Men, Is Dead in Oklahoma  
Hobart, Okla., Sept. 23.—Nick Wallace, the great man-eating lion, who had a record of 11 men and two horses, died in Hobart, Okla., on Sept. 16. He was the property of a circus, which was in Hobart at the time of his death. Nick Wallace was the oldest and largest lion ever taken into captivity, and during his 25 years of confinement has traveled throughout the United States, the property of various circus men. E. W. Capley was engaged to mount the lion in order that the body might be identified, as it was heavily insured.

**VANISHING INDIAN TRIBE.**

**Clergyman's Plan For the Betterment of the Shinnecocks.**

The last of the Shinnecocks, once second only to the Montauks as the most powerful tribe on Long Island, are working out their life problem on a narrow neck of beautiful, low land which projects into Shinnecock bay between Southampton and Shinnecock hills, says the New York Tribune. There they live in the lazy poverty that comes of their sadly mixed blood, infirmly and slowly decrease in numbers.

The Shinnecock reservation consists of 400 acres of fine agricultural land, less than a third of which is under cultivation. It is governed by three trustees, elected by the Indians from their own number. The land is held in common and is open to cultivation by any member of the tribe. One wishing to start a small farm selects an uncultivated plot of land and claims it before the trustees. He can plant upon it as many years as he likes, but is not allowed to lease or sell it. If he abandons it for a year, he has no further claim on it.

The reservation begins where the principal residence street of Southampton ends. A straggling array of shacks and cabins built on either side of a crooked road meets the eye. Most of them have not been seriously repaired in twenty years, and they were old then.

As the main road through the reservation approaches its last windings one comes to the church, schoolhouse and parsonage, three in a row, all presided over by a colored Presbyterian clergyman, the Rev. T. H. Lackland. He came to Shinnecock from the south three years ago, strange even to the customs of northern whites. He took well with the Indians, and both church and school have prospered. He was found talking earnestly to a young Indian, devising a plan which would give the Indians work in the winter and one which, he thinks, would be of great financial benefit to the tribe. It is nothing less than an automobile race track around the reservation.

"But the Indians can hardly afford horses and wagons, to say nothing of automobiles," remarked the reporter. "You forget that we are surrounded with rich people here," replied the minister. "They own automobiles and would speed them if there were a good track. Our young men have little to occupy them in the winters. They could grade a roadway sixty feet wide around the reservation, following the shore closely on the bay side. It would be practically level, and there is nothing to run into but rabbits. We would charge a substantial toll, and the road could be kept up without much expense."

"The toll would be nice," said the young Indian, but he did not seem to be strongly in favor of the proposition for winter work.

**SHAH'S LIKING FOR DOGS.**

**Persian Monarch's Unlucky Experience With Two Dachshunds.**

His majesty the shah of Persia, who has recently been visiting England, is very fond of dogs. While staying at Ostend the other day he was much attracted by a pair of dachshunds owned by a woman stopping there, says the New York Commercial Advertiser. Negotiations were entered into, and finally his Persian majesty became the owner of one of the animals, for which he paid in the neighborhood of \$150. But the dog mourned so much for its companion which the woman retained that the kind hearted shah, with oriental courtesy, returned the animal to its former owner on her acquainting his majesty with her wish to have the dachshund back. She refused, however, to return the purchase price, whereupon the Persian monarch made application to the public prosecutor for the restitution of his rubles, plasters or francs. The English dachshund club will doubtless solace his imperial highness by a present of the best dog in its kennels.
