You can never conquer this deep-seated disease with external remedies that give only partial or temporary relief, nor by flooding the system with Alkali and Potash mixtures, which break down the digestion, while the disease is left to pursue its destructive work.

No remedy brings such prompt and lasting relief in rheumatic troubles as S. S. S. which attacks the disease in the blood, neutralizes the acids and stimulates all the blood making organs. It removes from the system all poisonous

New York, N. Y., March 20, 1902. I am very grateful to you for the benefit I have derived from the use of Wine of Cardui. Its use has made such an improvement in my health that I feel it is only just to you to acknowledge the facts. For the past two years I have been constantly ailing so that I could not en-

I had been doctoring without getting any relief when a friend visited me who had a bottle of Wine of Cardui in her trunk. She told me she was using it and that it was the best medicine a suffering woman could take. I tried a dose that night and noticed that I slept better. I bought a bottle the next day and began taking a wine glass full twice a day. Soon the change was noticed for the better. The heavy oppressed feeling and pain in my stomach disappeared, my head became clear and I could eat and sleep as I had not done for months. I became regular and suffered no pain and felt happy and light and so glad that Wine of Cardui was brought to my notice. It has been so helpful to me that I feel it my duty to advise sick and suffering women to try this wonderful remedy.

ONE OF JOHN MORGAN'S MEN, NOW THE MOST FAMOUS DIS-TILLER WEST OFTHE MISSISSIPPI RIVER. Mr. Geo. H. Shawhan, president of the Shawhan Distillery Company, belongs to the fourth generation of a famous fami-His great-grand-father, Daniel Shawhan, having settled in Bourbon County, Ky., shortly after the revolutionary war, set up and operated there the first distillery in the state, and was the first to give to his product the name of "Bourbon" whiskey. The formula, skill and care used in

making Shawhan whiskey in those early times are still used It may be of interest to our readers to know that Mr. Shawhan was one of John Morgan's men in the civil war. Physically, he is of herculean type, well proportioned, weighing 275 pounds and standing six feet four inches. In one of Morgan's raids Mr. Shawhan rode and slept in his saddie for eighteen consecutive days. He is still strong and ac-tive. He took the first prize at the Chicago World's Fair for best butter-producer from his herd of Jersey cattle. His son, Lee, was the famous football player at the Missour State University. No one who ever looked at the honest face f George Shawhan could doubt for a moment that he makes nest whiskey.

IS A SERIOUS MATTER

The Most Serious and Fatal Diseases Arise From Indigestion

Chronic indigestion or Dyspepsia, while a very common trouble, has for some time been looked upon by able physicians as a serious thing, and that no time should be lost in treating it properly at the start, because recent researches have shown that the most serious, fatal and incurable diseases have their origin in simple dyspepsia or indigestion.

Diabetes is simply one form of indigeston, the sugar and starchy food not being assimilated by the digestive organs. In Bright's disease the albumen is not properly assimilated.

While consumption and dyspepsia are twin diseases, and it is beyond to cure dyspepsia, as it is notoriously ones. obstinate and difficult to cure.

Physicians, however, would not acept such statements without first giv ing the new remedy many tests and

carefully observing results. For three years the remedy has been thoroughly tested in every section of the country and with surprising and satisfactory results.
