VOL. XIX.

NO. 244.

OF INDIGNATION OVER A SMALL MATTER

(Special to The Telegram.) DALLAS, Texas, Feb. 11.-Mrs. Theodore Roosevelt, wife of the chief executive of the United States, or some private secretary, has sent a handkerchief to he sold at "Columbia's reception," which has caused much comment on the part of the ladies who are managing the kindergarten festival. At a mass meeting Tuesday morning there was much indignation expressed at the gift and remarks were made in regard to Mrs. Roosevelt's handkerchief tastes which were uncomplimentary in the extreme.

The handkerchief in question is a cotton affair, machine hemstitched and it is NO STEPS BEING TAKEN said by the ladies who are competent judges that it could be duplicated in any store in Dallas for the small sum of 10 | (By Associated Press.)

STRIFE CONSTANT WOMEN ARE EGGED VICTOR MEYER OF PIANO IS FOUND action the handkerchief will be sent back.

THE LADIES RECONSIDER

DALLAS, Feb. 11.-After thinking real hard all day yesterday and dreaming about it all last night, and then pondering deeply until this afternoon, the ladies of the Kindergarten Association have come to the conclusion that may be Mrs. Roosevelt wasn't trying to insult them after all, and though they consider the EVERY SHOP IN CHICAGO HEN FRUIT FLIES THICK AND HE WAS A FAMOUS COTTON PART OF THE PLAN TO MAKE handkerchief a mighty little donation from the wife of the head of the nation, yet they have changed their previous decision and will not return it after all. It has now finally been decided to sell

it, and in view of the publicity given the incident it would not be surprising to see the gift bring as much as if it were a silken banner embroidered by the very hands of her excellency, the donor.

AN IMPORTANT POINT FOR CLAIMANTS OF FAIR ESTATE

BRYAN'S CATTLE

ITS PRINCIPAL FEATURE IS "OPEN SEASON" FOR TWO WINTER MONTHS

Austin, Feb. 11.-Mr. Bryan's cattle quarantine bill, the principal feature of which is the provision for an "open season" during the months of Decemcember and January, came before the house Tuesday, and it brought on the lively discussion which had been in anticipation ever since the introduc-

The advocates of the measure won first blood in the tabling of an amendment offered by Mr. Sanford of Maverick County, the effect of which amendment, if adopted, was to say that there should be no open season.

The bill makes penal the act of knowingly stopping livestock that have crossed the quarantine line after inspection, and to provide an open season from Nov. 15 to Jan. 15 of each year. The rule was suspended requiring bills carrying appropriations to be considered by the house as a committee of the whole. It went over. Mr. Seabury, on behalf of Robert D.

Cutherell of Portsmouth, Va., presented Speaker Neff with a gavel out of a piece of wood, from part of which the steering wheels of the battleship Texas had been carved.

Speaker Neff accepted the gavel in the name of Texas, at the same time paying a neat tribute to the sons of Texas who have made the name of the state glorious on many battlefields, and to the sons of Virginia, foremost in American history.

Senator Hale moved that the senate rescind its action in defeating the house concurrent resolution providing for the appointment of a joint committee to visit the San Jacinto battlefield and report on the advisability of making it a public park. Carried. Senate devoted nearly all of Tuesday to this question.

THE PASSENGERS TELL A STIRRING STORY

Hamilton, Bermuda, Feb. 11.-By the prompt action of Engineer Nelson, who had the Madiana's bulkheads broken through, the mails and the passengers brought in the last boats to the Gladisfen, which landed the passengers, crew, mails and haggage here. Jos. H. Crofut of Hartford, Conn., one of the passengers, was interviewed by the Associated Press correspondent. He said:

"I was in my bunk when the shock of the steamer's stranding woke me. I at once hurried out and rushed on deck, being the first passenger to reach lt. The others streamed up from berestored. Finding that the center of the ship was firmly fixed between the danger of her breaking up, the passengers gained confidence. Later we saw the Gladisfen approaching. She lay to about a mile off, not being able to come nearer on account of the heavy sea. At about 11 o'clock one of the Madina's boats was lowered, but before anyone could get into it, it was smashed to bits. The other ships boats were then launched with better success The passengers were attached to ropes. the women first of all and lowered into the life boats. It was a dangerous journey to the Gladisfen. The boats' crew had to pull through the heavy seas, but no mishap occurred, and we all safely embarked on the Gladisfen."

WAR NOT CERTAIN BETWEEN SOUTHERN REPUBLICS

CABINET DISCUSSES FOREIGN AFFAIRS

washington, Teb. 11.-President Roosevelt and his cabinet were in session for nearly an hour and a half Tuesday, but at the conclusion of the consideration, no decisions regarding

Both the president and the members of the cabinet, it is said, expressed themselves as reasonably well satisfied with the situation in congress as to anti-trust legislation.

Secretary Root brought again to the cabinet's attention the necessity for legislation regarding the currency of the Philippine islands.

As viewed by the administration the hecessity for both financial and other remedial legislation for the Philip pines is very urgent. Indeed if some thing of the kind be not accomplished soon there is apprehension that anoth er rebellion may develope. Consideration also was given to the status of the Venezuelan question. It is the belief of the president and cabinet that Minister Bowen as Venezuela's representative will conclude with the allies satisfactory protocols in a few

FOUR TERRITORIES TO MAKE TWO STATES

SENATE'S POWER HAS BEEN

TRUST LEGISLATION BLOCKED BY ADVOCATES OF SMALL MATTERS

Washington, Feb. 11.-The statehood bill again came up in the senate Tuesday, and Mr. Morgan of Alabama spoke on it for more than three hours and a half. He said the senate had been licked into a peaceful political blockade.

"Scarcely a ripple has appeared," he said, "to agitate anybody, but the blockade has been going on, the time of the senate is being wasted and it is keeping us from engaging in the discussion of a real topic that is looming up behind this matter—the trusts that have afflicted the people of the coun-

He said the trusts have been kept back and they will be kept back until it is too late to have any discussion regarding them, and he said: "We will be forced to accept a proposition that has come to us from the house, possibly without amendment and without the opportunity of explaining our views against it."

The whole world knew that the trust bill was no more than "a much poultice to be put on the people to alle-

The object was not to defeat the admission of the territories as states, but something else lies behind it, for which there is no excuse. He then continued his remarks in support of the statehood bill.

Bright's Disease and Diabetes Are Positively Curable.

Before the business men who incorporated the Fulton Compounds invested they put them to the test in dozens of cases. Hearing that R M. Wood, the edfor and proprietor of The Wine

M. Wood, the edwer and proprietor of The Wine and Spirit Review, of 540 Montgomery St., had a certain case of Bright's Disease, he was one of those urged to test it. The following letter will now be understood:

"Office Wine and Spirit Review,
"520 Montgomery St., San Francisco,
"Sept. 21, 1901.

"Gentlemen: I consider it my duty to tell the world what the Fulton Compounds did in my case. In November, 1899, after a long illness, which carried me to the verge of the grave, a scientific analysis by the most noted

ness, which carried me to the verge of the grave, a scientific analysis by the most noted analyst in this city disclosed that I was a victim of Bright's Disease. My physician told me that my only hope lay in a strong constitution and a change to a warm clime. He suggested Santa Barbara, and I went there, having fallen from 225 pounds to less than 190 in a short time, "During my absence in the south a San Francisco business man called upon my wife, and told her of the Fulton Compound; that it was actually curing Bright's Disease, and urged that I try it. I began under protest. I soon felt better. Normal sleep returned, and in a few months I regained my health. I now weigh 230 pounds, and enjoy better health than I have few months I regained my health. I now weigh 230 pounds, and enjoy better health than I have in fifteen years. Naturally I told several friends, and in every instance the results were the same, even where they had been suffering for years. The world ought to know that Bright's Disease is at last curable, and appreciating my own good fortune, I will be glad to give further details to interested parties.

"R. M. Wood."

Medical works agree that Bright's Disease and Diabetes are incurable, but 87 per cent. are positively recovering under the Fulton Compounds. (Common forms of kidney complaint and rheumatism offer but short resistance.) Price, \$1 for the Bright's Disease and \$1.50 for the Diabetic Compound. John J. Fulton Co., 420 Montgomery street, San Francisco, sole compounders. Free tests made for patients. Descriptive pamphlet mailed free.

Crackers With A Kerosene Flavor

They are known as the common bulk soda cracker. All grocers don't have them in this flavor-some of them do.

It's no fault of the grocerman. He sells bulk soda crackers because a few customers still buy them as a matter of habit. He also sells kerosene.

Between measuring out kerosene and putting bulk biscuit in a bag things will get mixed.

If you do not fancy the kind with the kerosene flavor ask for Uneeda Biscuit in the In-er-seal Package with red and white seal.

Made with the utmost care; clean bakeries, clean bakers, best material. Packed in an air tight, dust proof package that does all that it was made to dokeeps the biscuit fresh, clean and dry. They reach you in perfect condition—just as they left the oven.

NATIONAL BISCUIT COMPANY

ALL IS THE RESULT

OF A MISUNDERSTANDING

(By Associated Press.) Washington, Feb. 11.-Owing to the illness of the British ambassador, Mr. Bowen called at the embassy Tuesday and personally signified his approval of the agreement to the ambassador. He then presented his formal note of acceptance and it has been cabled to the London foreign office. It appears that the insertion in the German protocol of the provision for advance payment of the original \$340,000 demanded of President Castro in the German ultimatum was the result of a misunderstanding on the part of the German foreign officials relative to certain steps in the negotiations here. Through the activity of the German minister, Baron Speck von Sternberg, this point is being cleared up.

DAILY SHORT STORY

"Girls. I want to speak to you," said | he immediately neutralizes the effect | Mrs. Alderton-Sharp, addressing her two raying Rose a bigger one."

spoke in that tone something was going

"What's the matter, mother?" asked Rose, expectantly. "Mr. Paul Dansey is the matter," re-

turned Mrs. Alderton-Sharp, with considerable emphasis.

Both the girls blushed. Mrs. Alderton-Sharp looked from one to the other, and her bright, inquisitive blue eyes grew brighter and more inquisitive. "Well?" she demanded, briskly, as the girls made no reply.

"Well?" echoed Rose and Alice, feebly. "I want to know what you mean by it,"

said their mother. "Wouldn't it be better to ask Paul-Mr. Dansey-what he means by it?' 'suggest-

"That's what Alice and I want to know," added Rose. Mrs. Alderton-Sharp tapped her foot impatiently upon the carpet.

"If this state of affairs goes on I shall be obliged to ask him," she said. The girls uttered a horrified protest.

"We were only joking," declared Alice, with a red face.

"We should die of shame if you spoke to Mr. Dansey," said Rose. "Someone will have to do something,"

announced Mrs. Alderton-Sharp, with par-For how was it possible to be anything but vague in this ridiculously vague af-

fair. What was the distracted mother of heart." two charming and marriageable daughters to do to a young man who frankly professed to be devoted to both? "He can't be in love with both of you,"

said Mrs. Alderton-Sharp. "That's what seems to be the matter," replied Rose.

"Anyway, he's very fond of us both," remarked Alice, with another blush. "And you are content to accept this impossible state of things!" cried their

mother in righteous indignation. "We can't help ourselves," returned

"Besides, you know, he's never actually

made love to us," explained Rose. "Not made love to you!" almost screamed Mrs. Alderton-Sharp. firmness. "Yes, but how?" "Girls, we must help Paul Dansey to find out which one of you he is in low

"How can we?" "There is only one way," declared Mrs.

Alderton-Sharp. "Leave it to me, I will arrange everything." "What are you going to do?" asked

"I am going to write at once to your aunt at Bigglesthorpe. You shall stay with her for a month." "Stay with Aunt Mary - at Bigglesthorpe,' 'asked Rose, in amazement. "I don't see what that has to do with-

Rose and Alice in one breath.

ing excitedly from her chair. "Mamme, you're a genius!" Mrs. Alderton-Sharp did not deny the

accusation. "I don't see the connection between Mr. Dansey and Bigglesthorpe," protested Rose. "He isn't going there, is he?"

'No, you stupid, that is just the point,"

"Oh. but I do!" exclaimed Alice, jump-

explained Alice. "We are going to try the effect of absence upon his wavering "Exactly," said her mother. "Absence has taught many a man to know his own

"Yes-when there was only one girl." "Not necessarily," returned Mrs. Alderton-Sharp. "If absence enables a man to realize his feelings toward one girl, why shouldn't it enable him to realize his feelings toward two, or any number, for that

This argument seemed unanswerable. "Don't you see," Mrs. Alderton-Sharp continued, warming to her subject, "the reason Mr. Dansey has proposed to neither of you is that he has no clear impression of you in his own mind. His judgment is confused and bewildered by constant association with both, and you have

never given him a chance of distinguish-"Mamma is quite right," interposed Alice, "Paul Dansey looks upon us lectively as a couple of very attractive girls, but I don't think he's very clear as to which attractions belong to which Anyhow, he certainly hasn't made up his mind which of us possesses the most at-

tractions-for him." "And you think our going away will

help him to make it up?" "I am sure of it," declared Mrs, Alderton-Sharp with decision. "That month at Biglesthorpe will show which of you is to be Mrs. Paul Dansey,"

Exactly three weeks after the conversation above recorded the Misses Alderon-Sharp returned to town, summoned thither by a brief and somewhat vague letter from their mother.

"Well?" demanded Rose and Alice, expectantly, as soon as the first greetings Mrs. Alderton-Sharp hesitated before

"Girls," she said at last, "there is no reason why you should bury yourselves

at Bigglesthorpe any longer." "Then he's made up his mind at last!" cried Rose, eagerly. "Yes, he's made up his mind," said her

"And he's confided in you, mamma!" exclaimed Alice.

"To a certain extent-yes," replied Mrs. Alderton-Sharp, in visible perturbation. "It's Rose, of course!" "Of course, it's Alice!"

ton-Sharp, sadly. "It's neither." "Mamma! What can you mean?" ened voice. "I mean that the experiment from which we had hoped so much has

DENVER STOCKMEN SAYS THE HARD WINTER IS DESTRUCTIVE

Anticipates a Light Movement of Texas Deep Snows and Bad Weather Responsible for the Heavy Losses to Ranch-

KANSAS CITY, Feb. 10 .- A. E. De stock company, was here today buying some light stockers to eat some hay his stockers and feeders here in Kansas City within the past two or three months. Mr De Ricgles says that his company during 1902 sent over 35,000 steers from Texas and the Dakotas. That so far this win ter the cattle in the northwest have done fairly well, but there has been some very deep snow along the Missouri river west and south of Pierre, S. D., and losses will surely follow. Also that a large section of Montana north of the Yellowstone river has experienced very severe weather caused by deep snows followed by chirooks and then freezing again, covering

A great many of the "through" Texas steers that were shipped up last year have died, and more will go the same way unless relief comes at once. This bad weather coming this winter will make their own steers to the northwest hesi tate about going there. M. De Ricqles sections of northeastern Montana where steers sent up this year would die.

MOVEMENT GROWING LIGHTER 1902, as compared with 99,408 in 1901. Other shipments in 1902 from Texas were: To South Dakota, 58,000; North Dakota, 36,620; Wyoming, 31,400; Colorado, 8,960;

Mr. De Ricgles said he thought Colonot amount to more than 65 per cent of a sold so far this year to go to the northmorning newspaper, where the jury gave west, while a year ago fully 100,000 steers a verdict of \$36,000 against the newspa- had been contracted during January, his steers the coming spring.

SCARCITY OF HOGS IS NOT ONLY LOCAL

That it will be several months at least before the North Fort Worth packing Harlem, N. Y., thinks that when the san- is evident, not only from the fact that soon as there is a large enough supply tary code comes into collision with com- present high prices fail to tempt more of killing stuff. non sense it is the former that must give than a meager supply, but also because

He also worked up the the slaughtering pens. wenty-ninth New York district has not country along the lines of the Rock Island only returned a Pullman sleeping car pass and Santa Fe, going north from Fort sent him by the company, but has sent Worth about 150 miles. Returns so far 'I called on the attorney general," Mr. any available hogs to be had in the ter-

not be right to use a pass. That was are plenty of hogs in eastern Texas, and enough for me. I immediately returned while it is true there are more there than the pass with my check for the amount to the west and north of Fort Worth, all the kind Fort Worth packers want. That the scarcity of hogs is not con-

fined to Texas is shown that receipts at Chicago for the past week were 173,000

ditions are such that they will justify stockmen and farmers to go into the raising of hogs on a wholesale scale. The demand is so great that there will be to effect the market materially. Evensized hogs, of good quality, ranging up to the very finest that can be produced, are the kind the packers want and the better years than those that have made wealthy the men who raised thousands of cattle

These fortunes will be made by the men who are now obeying the injunction of the packers, the commission men and the newspapers by "planting hogs."

MORE USES FOR WASTE AT PACKING HOUSES

While nearly every packing house pro-

duct, especially those which formerly

came under the head of waste, is being

utilized, new uses for the "waste matter"

are being found every day by the packers. At their plant in St. Joseph, Mo., Swift & Co. are preparing to erect a building for the manufacture of animal foods from various waste products, including what are known as digestive tankage, blood meal for young animals, meat meal, bone meal and blood albumen. Besides this. there will be manufactured a poultry food, The richest woman in the world, Frau- the ingredients of which are cracked

SLEEPING VOLCANOES

Those who live near a volcano know that beneath the calm exterior of the sleeping giant is a raging sea of fire, molten rock and sulphurous gases, but the thin vapory smoke lazily ascending from its crater is perhaps the only external sign of the commotion and tumult within. Living in this atmosphere of danger they soon become insensible to fear and are only aroused to a sense of their peril by the rumblings and quakings which foretell the coming eruption and downpour of heated rock and ashes, scalding mud, blinding, suffocating smoke and sulphurous

gases. They were living in fancied security when the sleeping volcano awoke, and they were lost Thousands of Blood Poison sufferers are living upon a sleeping volcano, and are taking desperate chances. Under the Mercury and Potash treatment, the external evidences of the disease disappear and the deluded victim believes the cure complete. But the fires of contagion and the deadly virus have only been smothered in the system. The little sore that now and then makes its apparence in the mouth, the slight rheumatic pains in muscles and joints and the red

rash that occasionally breaks out upon the body, are warning symptoms, which often go unheeded. Then the rumblings grow louder, the smouldering poison bursts out and the body is soon covered with sores and copper colored splotches and pimples, and all the old symptoms return-sore mouth and tongue, ulcerated throat, swollen glands, and many others that the sufferer believed had been uprooted and destroyed by the Mercury and Potash treatment. Not only do these minerals fail to cure the disease, but work the greatest injury to the system. Mercurial Rheumatism, Necrosis or death of the bones, deep and offensive Ulcers, Salivation, Inflammation of the Bowels and Stomach are some of the horrible effects of Mercury and Potash.

Residence, Mitchell House The use of S. S. S. in Contagious Blood Poison cases is never followed by such results. We offer One Thousand Dollars for proof that

it contains one particle of Mercury, Potash, or other mineral, but is guaranteed a strictly vegetable remedy. It cures even where the worst symptoms have developed, and the patient, to all appearances, was hopelessly incurable. S. S. S. is an antidote for Contagious Blood Poison, and the only radical and permanent cure known. This has been proven by an experience of nearly fifty years, during which thousands have been restored to sound and vigorous health when it seemed nothing could stop the

ravages of the disease and save them from a most horrible fate. S. S. S. destroys and eliminates every atom of poison from the system—purifies, strengthens and builds up the blood, and the smouldering fires of this terrible disease are extinguished, and no signs of a return are

Bowling Green, Ky., March 24, 1902

GENTLEMEN: For over four years I suffered

greatly from a severe case of Contagious Blood

Poison. I went to Hot Springs, staying there

four months. I then consulted physicians, who

prescribed Mercury. Nothing did me any good

in fact the treatment proved more harmful than

beneficial. Thus I continued to suffer for four

years. I mentioned my case to a friend, who

told me that S. S. S. had certainly cured him.

I at once commenced its use, and in a few

months could find no trace of the disease what-

ever, and I can truthfully say I am entirely well

I recommend S. S. S. to all in need of a sure and

safe cure for Contagious Blood Poison.

Our special book on Contagious Blood Poison will be sent free on application. It describes fully all the symptoms and stages of the disease, with complete directions for treating the same. Medical advice or any special information desired is furnished by our physicians without charge.

STATEHOOD BILL IS RE-SPONSIBLE FOR DELAY

Washington, Feb. 11.-Special.-The delay of business in the senate, the fact that less than four weeks remain pass the pending appropriation bills and some other legislation, has created talk about an extra session. It is the same talk that is always heard at this period of the session, and I am inclined to think that it is caused just now by those who want to scare the long distance talkers in the senate into giving all available time to the appropriation bills and to save their speeches for the next session. It is also likely that the men who are opposing the bill for the new states want to impress those who are responsible for keeping it before the senate that they are likely to force an extra session. Nothing really alarms senators so much as a threatened extra session of congress. They will make any reasonable sacrifice to prevent one. This year the sacrifice will be the statehood

What's In a Name?

Senator Bacon wants the territory of Oklahoma, if it is consolidated with the Indian Territory, named Jefferson. Speaking of this fact, Senator Lodge remarked:

"I am not sure whether I agree with that proposition or not, but it seems to me it is a very reasonable proposition and one that we ought to consider. I am perfectly certain that we ought to change the name of the territory of New Mexico if we are going to admit it. I think to admit as one of the states of the Union a territory which bears the name of the adjoining country by prefixing the adjective 'New' shows the greatest vacuity of mind of which It is possible to conceive. It is no more New Mexico in point of age and settlement than any part of the republic of Mexico, and I think we had better give the states that we admit American names. Why should we want to have a state in the Union whose inhabitants should be spoken of as 'Mexicans' and 'New Mexicans?' I think there is a good deal of argument to be made on the question of the name of the terri-

Taking Care of Jake Smith. While the provision for raising the grade of a number of retired officers was incorporated in the army appropriation bill for the benefit of a large number of officers, one especially who Senator Foraker, who wanted the provision so that it would give General Jacob Smith the rank of major general on the retired list. Jake Smith was more talked about than any other man in the army at one time and has been somewhat under a cloud ever since his return from the Philippines. The sentiment, however, has changed, and now there seems a very general desire to give him some fitting recognition. Hundreds of letters and petitions signed by many Grand Army veterans have been received asking that Smith be promoted. If the bill goes through,

General Egan, who was retired while

undergoing a court martial sentence,

will no doubt be promoted to be major

general on the retired list. Wireless Thirty Years Ago.

When Senator Hoar introduced a resolution tendering the thanks of congress to Marconi for the invention of fact that thirty years ago the subject of wireless telegraphy was discussed in congress and that a certain Dr. Mahlon Loomis was the inventor. A bill was passed incorporating a company which was to perfect the Loomis system. A man who was associated with Loomis wrote Senator Elkins, H. C. Jewell Sr. calling attention to the old invention the time a resident of West Virginia. be very much impressed with the great things that Loomis claimed for electricity, many of which have since been accomplished. The correspondant of Senator Elkins did not think that the foreigner should be thanked for what was an American invention.

Not an Unlucky Seat. For many years it has been said that one particular seat in the senate was an unlucky place, for no senator ever occupied it more than two years. In the last twelve years it has been held by Dawes of Massachusetts, Dolph of STEAM LENOVATING WORKS-Car-Oregon, Dubois of Idaho, Gear of lowa and Spooner of Wisconsin. The last incumbent has held it longer than the others and with his re-election for six years has broken the hoodoo, if there was one, for the popular Wisconsin senator will probably remain where he is as long as he cares to stay in public life.

Protection of Wild Animals.

Senator Burton of Kansas has reervations and the protection of game, two bills designed to prevent the destruction of wild animals, birds and parks, under the sole police jurisdic- o Houston street. tien of the federal government, but are ject to the game laws and jurisdiction of the states. The aim of the Burton bills is to give the government absolute control and at certain seasons of the year to prevent the killing and trapping of the game in these reservators.

Blair, superintendent of construction, office at Exchange building. Bids will be received up to night of 13th instant. Fort Worth Stock Yards Company.

HOW BONNER WON SUCCESS

The career of Robert Bonner, the veteran publisher, furnishes a signal illustration of the value of persistent and sagacious advertising. When he began the publication of the paper whose phenomenal success brought him fame and fortune, he did not wait for the people to find out, slowly and gradually, the interesting features of his journal.

He forced his enterprise upon public attention by a systematic lavishness of expenditure for advertising which at that time was without precedent or parallel. Whole pages of daily newspapers were secured at high prices to blazon forth the merits of his undertak-

From one end of the country to the other the names of Bonner and his Ledger were made familiar to the people by constant repetition.

Conservative publishers, jogging along in the ruts of old routine, prophesied bankruptcy and ruin for this unconventional innovator, but Bonner kept on spending a large share of his receipts in buying publicity, and those receipts increased with startling rapidity.

Every dollar disbursed in this way brought in more dollars until croakers were confounded and pessimists in this particular branch of business silenced by his tremendous success.

The lesson is one that is as well worth heeding today as it was forty years ago. - Philadelphia Bulletin.

Large space in this paper is one of the best investments a merchant can make.

BEER TAX DISCUSSED

The proposition to tax beer 50 cents per harrel does not seem to meet with general approval up at the legislature. Many of the members claim that such procedure turbance is noted in Colorado, and snow would be extremely unreasonable and unjust. They are willing to increase the tax on beer if the proposition confronts them, but they are not willing to increase it to 50 cents a barrel. Such a taxation maximum temperature, wind in miles per would prove a great and unjust burden hour at 8 a. m. and rainfall in inches: upon the breweries of Texas, in that it would permit outside breweries to ship beer into the state and undersell the local state breweries. The proposition of levying this excessive tax upon the brewery nterests seems to have been injected into legislative circles by some who are anxious to get even with the breweries for fighting in a quiet way the repeal of any part of the occupation tax law.

It was evident from the outset that if my part of the present occupation tax aw was repealed the deficiency in the state's income that would be incurred to the extent of taxes received from this particular faction would have to be made up by the breweries or some other influstry, and naturally the breweries were found fighting it in a quiet way. Those who were defeated in their desires, so the report goes, are now trying to get even with the breweries by levying a very leavy tax upon them. The house members do not seem to approve of the propoition, judging from expressions heard esterday, and while the beer tax may e increased some, it will not reach any Shreveport 46 52 10 .86 mch figures by any means.

SENATE MUDDLE QUIETING The muddle in the senate over the conested drawing, which was aired at such ength on last Friday, seems to have pleared up considerably. From the senaof the opinion that no such feeling will prevail and that everything will be serene.

STATE FUNDING BOND ISSUE Monday morning in the house Representative Boyd introduced a bill which making over, always adding a little to the selection of J. M. Herbert for \$280,000 worth of forty-year bonds to be as if fresh. My husband never likes ager of the Denver, since he comes from used in refunding an issue of that amount it fresh as well as the second or third the Denver and Rio Grande, a Gould line

CONDUCTING SERIES OF RELIGIOUS MEETINGS

Rev. G. W. Ray, pastor of the Congregational church of Fort Worth, has though they may have no particular begun a series of nightly meetings at the city hall, the first having been held last evening. Mr. Ray is assisted by Rev. Luther Rees, superintendent of the Con-Texas. Mr. Rees has charge of the music, which is unusually pleasing.

Mr. Ray's addresses at the meetings will be illustrated by stereopticon views, including illustrated songs, pictures il lustrating the life of Christ, Bunyan's 'Pilgrim's Progress," the life of the early Christian martyrs, and scenes in the Rocky mountains. The meetings begin at 7:30 o'clock and the public is cordially invited to attend.

Mr. Ray came here from Cripple Creek, Col., where he was pastor of the Congregational church for seven years, but was compelled to leave on account of failing health. The Congregationalists of the city are planning a number of interesting meetings, including one Feb. 22, at which Mrs. L. P. Broad, formerly secretary of the home mission board of the Congregational church. Mrs. Broad's home is in the interest of home missions.

If the measure is a vigorous vote-catcher, his constituents will throw up their wool hats. May 1536. I nailed it. I carved it. Wilyell themselves hoarse and vote for him again when the same scenes will be reenacted, only with a change of scene and auction at Snitterfield, near Stratford-onlocal coloring.

These people are "talking for buncombe" and are comparatively harmless. It infferent with the zealous but misguidand misinformed member who has no political ax to grind, but is serious in his efforts to redress a fancied grievance or to repeal a statute which he imagines is working an injury upon his constituents. He is calculated to do harm, while ie thinks he is doing good. He is honest and earnest and his fellow members know it; for no one is more ready to detect and recognize the harmless bill, loaded only with political powder, than the average legislator. THE CATTLE QUARANTINE MEAS-

One of the measures receiving honest and well-intended support from the present legislature is the bin to change and partially repeal the cattle quarantine law. The advocates of this bill are largely honest and sincere in their advocacy of the measure. They think that the law as at present enforced works a hardship on the people "below the line," and gives an unfair advantage to the cattle raisers "above the line," in that it enables them to send their cattle to northern pastures and feeding pens at seasons of the year when those "below the line" are devarred this privilege. They do not know that a re peal or modification of the law would do them no good, inasmuch as the United States government has a like law equally as stringent in its provisions and as rigidly enforced as the state law; and their constituents would derive no relief or benefit from the passage of their bill. This measure is not presented or ad-

vocated in a spirit of viciousness, but because of a lack of information. The ONLY A SUGGESTION

But It Has Proven of Interest and Value to Thousands Common sense would suggest that if one wishes to become fleshy and plump it can only result from the food we eat and digest and that food should be albuminous or flesh forming food, like eggs, beefsteak and cereals; in other words the kinds of food that make flesh are the foods which form the

greater part of our daily bills of fare. But the trouble is that while we eat enough and generally too much, the stomach, from abuse and overwork, does not properly digest and assimilate it, which is the reason so many people remain thin and under weight; the digestive organs do not completely digest the flesh forming beefsteak and eggs and similar wholesome food. There are thousands of such who

are really confirmed dyspeptics, alpain or inconvenience from their stom-

If such persons would lay their prejudices aside and make a regular practice of taking, after each meal one or two of Stuart's Dyspepsia Tablets the food would be quickly and thoroughly digested, because these tablets contain the natural peptones and diastase which every weak stomach lacks, and by supplying this want the stomach is soon enabled to regain its natural tone

Stuart's Dyspepsia Tablets digest every form of flesh-forming food, meat, eggs, bread and potatoes, and this is the reason they so quickly build up, strengthen and invigorate thin, dyspeptic men, women and children. Invalids and children, even the most

delicate, use them with marked benefit as they contain no strong, irritating drugs, no cathartic nor any harmful

Stuart's Dyspepsia Tablets is the most successful and most widely known of any remedy for stomach troubles because it is the most rea-
