HOGG GETS HIS INVITATION

EX-GOVERNOR TENDERED USE OF HALL ON TOMORROW NIGHT, TOGETHER WITH BAILEY AND CULBERSON—ANTI-TRUST BILL IS ENGROSSED WITHOUT A SINGLE WORD

(Special to The Telegram.)

AUSTIN, Texas, March 10.—The Hogg matter came up today, when Representative Napier brought up a substitute resolution, tendering the ex-governor the use of the hall on Wednesday night.

Mr. Napier spoke in an eloquent manner, stating among other things that if the invitation had been to either Bailey or Culberson no objection would have been offered by anyone.

Mr. Cobb moved the previous question, which was agreed to.

The question then came up on a straight vote and the substitute was lost by a vote of 41 yeas to 71 nays.

The original resolution, inviting Hogg, Bailey and Culberson, was then won by a vote of 71 yeas to 43 nays.

WHAT HOGG WILL TALK ABOUT

The reformer of what is considered will be the greatest political contest ever enacted in Texas will take place Wednesday evening at the Hancock opera-house, when ex-Governor Hogg will make an address to the plain people of Texas, his subject being "Texas, the Empire State ruled by the People, Instead of Texas, the Truck Patch, Ruled by Corporate Lobbyists."

When asked as to his reasons for taking the rostrum, he said: "I do it for old Texas, the greatest state in the union; I do it because I cannot bear to see my posterity and the posterity of my friends burdened with a debt that is being illegally and wrongfully fastened upon them. I do it for the good of Texas, because I feel that Texas needs some one to step into the rut and warn the people of what the passage of all these consolidation bills means."

The Connally and Meachum anti-trust bill was brought up in the regular order. The bill was engrossed without a single word.

The Rock Island consolidation bill with the Shannon amendment came up in the regular order. Mr. Shannon spoke in behalf of his amendment. He argued against the general policy of railroad consolidations and elucidated upon the unwise policy of the same.

He said it was said that when the lines had been consolidated that the state would be gridironed as no other state, in which event he stated the people would be broiled by the same. He closed with an earnest appeal not to consolidate, but if so to make them build from Fort Worth to Galveston.

Representative Doherty spoke in behalf of the consolidation.

The statement yesterday that Representative May had the conversation in the barbershop with Governor Hogg was an error. It should have been said that it was Representative Hancock of Dallas county.

In yesterday's debate on the Hogg matter, Representative Hancock said he was in a position to know more about this than any other man, as he was in the barbershop at the time the ex-governor was advised of the action of the house, and Mr. Hancock said that former Governor Hogg became a little excited, but that the language attributed to him was not directed at the legislators, but at the lobby.

Mr. Hancock said that was the construction placed on the language used by Governor Hogg. Several voices cried out to repeat the exact language, but Mr. Hancock did not care to. One of the members wanted to know if the language was such as could not be used in decent society or in the presence of ladies. Representative Robertson of Williamson was there in the barbershop, but he had not heard what the ex-governor said.

Yesterday the legislative committee appointed to investigate the conditions of San Jacinto battle ground and report on

THIS TRUST NOW HAS NO MORE EYE TEETH

NEW YORK, March 10.—The Daily Gold Mining Dental Company, which planned for the establishment of a corporation aimed at controlling the profession of dentistry from the Atlantic to the Pacific, is admitted by the general managers to be bankrupt. He supplements the statement with the assertion made in open court that all the furniture and other assets of the company are his personal property and that the corporation has no assets on which execution can be levied. The nominal capital was \$500,000 and the prospectus considered it "safe" to estimate the annual profits from the branch offices it was proposed to establish all over the country at least \$2,000,000.

SENTRIES FIRED UPON AT COLORADO SPRINGS

COLORADO SPRINGS, Col., March 10.—Sentries stationed around the three mills affected by the smeltermen's strike were fired upon at midnight last night. There were encounters between workmen going to and from the mills and employees were guarded from their homes to the mills by details of infantry. Deputy sheriffs were held up at the point of guns and two narrow escapes from bullets fired at close range were reported, one a trowel, the other a deputy sheriff—Benton—on guard at the Telluride mine.

From reports made by the sentries and the flashes from the guns, the men doing the shooting were located on hills surrounding the plants. Most of the shooting was done at long range. No one was injured.

The cavalry under command of Colonel James H. Brown, Captain H. G. Smith and General Bell patrolled the country in the vicinity of the three mills, but because of the darkness and rough character of the country did not succeed in locating the men who did the shooting. One of the strikers' pickets managed to penetrate the line at the Standard plant while a companion and the sentry were exchanging shots. He has not been located, although a rigid search was instituted at once. Sentries were strengthened after the shooting and precautions taken to protect the mills, especially the Portland, from any rush or attack to gain possession.

TOWN IS NEARLY LEVELED BY CYCLONE

(By Associated Press.) BRISBANE, Queensland, March 10.—Townsville, in North Queensland, has been visited by a cyclone in which many persons were killed or injured.

Part of the hospital building collapsed during the storm, killing six persons. The schools, churches and many of the residences were destroyed and many inhabitants rendered homeless.

the proposition to appropriate \$25,000 for its support and perfection sailed down the bayou from Houston, accompanied by a committee of the Daughters of the Republic and a delegation of Houston citizens. Furthermore, a move is on foot to secure the consent of the relatives of ex-President and General Sam Houston for removal of his remains from their Huntsville resting place to the scene of the battle that won independence for the republic. Both senators favor the move, and if the consent of the members of the house can be obtained the matter will be recommended in connection with the appropriation bill. If it goes through a suitable monument will be erected over the grave by the state.

CAPITALIZATION OF MIDLAND BRASS WORKS

The Midland Brass Works of this city, which recently moved to a new factory building at First and Throckmorton streets, has increased its capitalization from \$15,000 to \$30,000.

None of the added stock will be put on the market, it having all been taken by the present stockholders and officers, who are: A. J. Butler, president; B. W. Stephens, vice president, and L. Z. Butler, secretary.

The company's foundry at First and Throckmorton streets is 62x150 feet and is a much larger building than they have heretofore occupied. The firm is now employing about twenty-three men, and has a steady demand for its output. It is now shipping cylinders and materials for use in deep well pumps to New York, from where they are re-shipped to the Philippines.

The company is contemplating a still further increase in capital stock within a short time.

ENORMOUS SUMS FOR THE ARMY AND NAVY

(By Associated Press.) NEW YORK, March 10.—Mr. Broderick wants \$4,500,000 pounds sterling for the army next year. Lord Selborne requires the same amount for the navy. The army estimates, says the Tribune's London representative, have never been approached except in time of war, and navy estimates, which exceed the current year's figures by 3,500,000 pounds sterling, have broken all records.

John Bright once said that a government which could not rule the United Kingdom on 70,000,000 pounds a year should be turned out of office. The army and navy alone will cost this sum for the ensuing twelve months and the total national expenditure will reach 150,000,000 pounds sterling.

The outlook for the British taxpayer is gloomier than ever.

ANNUAL MEET IS NOW ON AT EL PASO

CATTLE MEN ARE ON HAND IN LARGE FORCE—CONVENTION OPENS

(Special to The Telegram.)

EL PASO, Texas, March 10.—The annual convention of the Texas Cattle Raisers' association is now in session here and the attendance is about the largest in the history of the organization, as this is the first time it was ever held in El Paso, and many have been induced to come here for the double purpose of attending the convention and seeing Mexico.

The convention proper convened this morning, but the executive committee has been in session for the past two days. The affairs of the association are reported in the best of condition, and the membership of the association has greatly increased during the past year.

CONVENTION OPENS

The convention opened in the opera-house and Mayor B. F. Hammett presented the keys of the city to President Murdo MacKenzie, after which Senator W. W. Turney, first vice president of the association, delivered the address of welcome. President MacKenzie responded on behalf of the association. The president, first vice president and Captain John T. Lytle, second vice president, were then presented with solid gold badges and the members of the executive committee got silver ones. The regular business of the association was then commenced, reports of officers being next read. There was plenty of music by two combined bands and the interior of the opera-house was nicely decorated for the opening. The convention will conclude tomorrow, when the officers will be elected, but the delegates will remain all week, as the executive committee will have much work to do.

MOTION TO DISSOLVE INJUNCTION IS MADE

(By Associated Press.) ST. LOUIS, Mo., March 10.—A motion for dissolution, with an answer to an injunction secured last Tuesday by President Ramsay of the Wabash railroad restraining the officers of the brotherhood represented in the controversy and employees of the road serving on grievance committees from instituting a strike was filed with Judge Adams of the United States district court this morning.

The document makes 15,000 words. The officials appear before Judge Adams this afternoon for a hearing.

SHE IS CUTTING HER THIRD SET OF TEETH

(Special to The Telegram.) WACO, Texas, March 10.—Bent by the weight of nearly five score years, but with eyes still bright and with a cheerful nature, "Aunt Kelley," a negro woman, is now performing the almost unheard-of feat of cutting her third set of teeth. She has been visited by many people, white and black, all of whom have been astonished by what they have seen. Aunt Kelley has cut five of the third set of teeth, all incisors, and while they are small, like the teeth of children, yet they are perfectly formed, firm and white. All the teeth are on the lower jaw. She is over 90 years of age.

DON'T LIKE THE WILLACY BILL

Local Optimists at Winsboro Adopt a Set of Resolutions (Special to The Telegram.) WINSBORO, Texas, March 10.—The local option forces at Winsboro held a big rally at the Baptist church. The speeches were all conservative and conciliatory. At the close the following resolution was offered and unanimously adopted.

"I, Believing that the bill now pending in the legislature, known as the Willacy bill is gotten up by and in the interest of the liquor dealers of Texas, and believing that it will cripple the operations of the local option law, we respectfully petition the legislature to defeat said bill and instruct our representative to vote against it."

A WACO MAN IS KILLED BY A LIVE WIRE

(Special to The Telegram.) WACO, Texas, March 10.—Louis Weisburg, a resident of Waco for many years, was killed this morning by a telephone wire hanging from a pole.

The wire was crossed with a light or trolley wire and hung near the ground. Weisburg was knocked down, and though every effort was made he could not be brought back to consciousness.

ENGLAND WOULD PAY SUBSIDY TO SHIPS

NEW YORK, March 10.—The reports from Ottawa respecting tenders for a fast trans-Atlantic service cause satisfaction rather than surprise at the offices of the high commissioner for Canada, according to a London report to the Tribune.

It is announced on high authority that one of the conditions to the subsidy which will be paid is that the line shall not enter into any pooling or co-operation arrangement with any rival shipping interest, nor have any secret understanding respecting rates or other details of the business of transporting emigrants from Europe to Canada, and it is also stated on equally good authority that one-third of the subsidy will be paid by the government.

The details will not be disclosed until the tender is received, but probably the British government will co-operate with the dominion government in subsidizing a line of eighteen and twenty-one knot ships under the British flag.

The line will be sufficiently fast to justify payment by the government here of its one-third as a mail subsidy and the emigration business now assuming great proportions will be controlled by the Ottawa government.

CHAMBERLAIN AND HIS VISIT TO SOUTH AFRICA

NEW YORK, March 10.—An official who has arrived from South Africa says it is hardly possible to appreciate here how profound an impression Mr. Chamberlain has made on all classes, says a London dispatch to the Tribune. Popularity he has not excited, for he has seemed cold and calculating; respect he has commanded by a remarkable exhibition of practical ability and intellectual superiority. South Africa considers him a hard bargain, but a great Englishman.

A DAY'S DOING AT BROWNWOOD

First Train on Rio Grand Extension to Run on March 12 BROWNWOOD, Texas, March 9.—The Brown county commissioners court today decided to attend the good roads convention at Dallas, March 19 and 20, in a body.

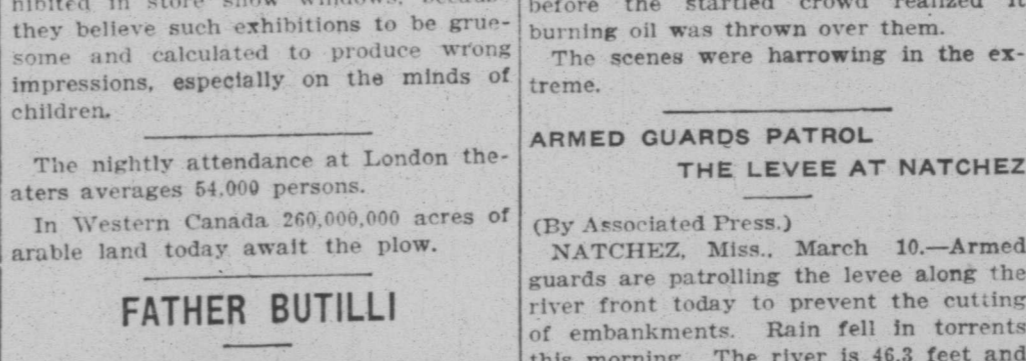

D. F. Johnson, for several years station-master of the Rio Grande road at this place, was checked out Saturday night and transferred to Brady, the new terminus. Harry Wilson, the cashier, will be given a station between here and Brady.

J. P. McDonald is the new Brownwood agent and F. E. Peacock the cashier. The first passenger and freight train will run into Brady from Brownwood March 12. For the present and until the roadbed is in better condition a mixed train will be run from Brownwood to Brady.

The ladies of Brownwood organized a civic league Saturday, with Mrs. W. D. Armstrong president, Mrs. J. S. Holler as first vice president, Mrs. Will H. Moyes as second vice president, Mrs. A. M. Bromfield as recording secretary, and Mrs. J. W. Spangenberg as treasurer. Among other things done, the league requested merchants of the town not to permit hypnotized subjects to be exhibited in store show windows, because they believe such exhibitions to be gruesome and calculated to produce wrong impressions, especially on the minds of children.

The nightly attendance at London theaters averages 54,000 persons. In Western Canada 260,000,000 acres of arable land today await the plow.

MILLIONAIRES MUST PAY BIGGER TAXES

NEW YORK, March 10.—Mrs. Herman Oelrichs may be compelled to establish before the tax board by evidence her sworn statement that she resides in California, and therefore is not liable to an assessment of \$1,000,000 on personal property. President Wells has been informed that last year Mrs. Oelrichs escaped payment of taxes in San Francisco upon the claim that her legal residence was in New York.

A CLOSE WATCH IS KEPT

Government Steamers are Patrolling the Banks and Greatest Vigilance is Being Manifested—Shawneetown, Ill., Levees May be Cut to Save Repetition of Another Horror

(By Associated Press.) NEW ORLEANS, March 10.—The river here registered 18.3 today and is still rising. The New Orleans levee board continues its employment of men to fill sacks with sand. Dirt is being hauled to the river front and weak places made secure. No news of any additional breaks along Lafourche have been received.

FEAR FOR THE LEVEES

NATCHEZ, Miss., March 10.—Anxiety here is at a strong tension through fear that the levees may not be allowed to show their strength, as there may be a cut at some place to save property, on the opposite side from the cut. This danger is as much a source of apprehension as is the high stage of the river and the water which is yet to come.

The Mississippi at this point is 2.1 feet above the danger line, and rising. Heavy rains are of daily recurrence. The ground is water-soaked and all the water is going into the river.

ALARM FELT AT JACKSON

JACKSON, Miss., March 10.—News from the Mississippi river front is that the situation is alarming. The levee board is in session at Clarksdale, and word was received here today that an overflow is certain. The levees are in better shape, higher and stronger than ever, except in one or two places, and they are being carefully guarded. The levee board is hiring all the labor possible.

The river is 47.1 feet today and is rising. A heavy rain is falling. Conditions are not favorable, for additional rains have increased the danger.

OHIO WAS ON A STAND

PITTSBURG, Pa., March 10.—At 2 o'clock this morning the Ohio at the dam registered 19.4 feet, and had been stationary for an hour.

RIVER ON STAND AT CINCINNATI

CINCINNATI, Ohio, March 10.—The Ohio river has become stationary. A heavy rain fell all morning.

MEMPHIS, Tenn., March 10.—The river rose one-tenth of a foot over night. The government engineers officially state that they believe that the greatest volume of water ever experienced will reach here within a week. The government steamers are patrolling the levee system.

The situation at points south of Memphis is unchanged. Lowlands are overflowed. Farmers in many cases are leaving all their belongings behind and arriving by every boat.

Others who have reached high land are watching developments of the mighty stream.

EVANSVILLE, Ind., March 10.—Report from Shawneetown, Ill., is to the effect that the people there are debating the feasibility of removing their belongings and cutting the levee and flood the town.

Scores of lives were lost there a few years ago, when the levee broke, and the people say they don't want a repetition.

LOUISVILLE, Ky., March 10.—Although the Ohio has fallen slightly since yesterday, a heavy twelve-hour rain is extending the radius to fifty miles, and is expected to cause material increase in the volume of water rushing southward. The local weather officials say a rise of two feet above the danger line is expected tomorrow.

ARE STANDING PAT FOR LAST YEAR'S PRICES

Regarding the southern cattle situation the Chicago Live Stock World has the following comment:

"The southern cattle situation is by no means obscure. Northern graziers doubtless want stock, but are determined to buy them lower than last year. On the other hand, breeders in Texas are standing pat for last year's prices.

"As far as can be learned a difference of \$2 to \$3 per head exists between intending buyers and would-be seller. Inference may be drawn that as usual the southern man wants to sell his cattle and that the northerner is as anxious to replenish his herds. It is not improbable that it will be a case of split the difference at El Paso."

St. Louis market for \$200 a car less than they can ship cattle to St. Louis and there prepare it for the market. If this is true, and it is so considered in the main, it is not difficult to see where the benefit is to be derived by Texas stockmen.

B. C. Rhome of this city is included among the exhibitors of stock at El Paso this week. His show herd of twelve Herefords, including eight prize winners at the recent fat stock show in this city, represents his exhibit.

J. F. Hovenkamp of Fort Worth is at El Paso this week with his eleven head of fine shorthorn cattle, included among which are four prize winners at the recent fat stock show in this city.

The prize steer at the fat stock show, which was sold recently to George W. Saunders of San Antonio for \$15.95 per hundred pounds, was shipped today to the home of the purchaser.

The five carloads of Mexican steers received on the local market recently are still at the yards. The big horns have come to be an oddity, owing to the fact that few shipments of this variety of cattle have been received in Fort Worth in recent years.

THIS IS KING EDWARD'S 40TH WEDDING DAY

LONDON, March 10.—It is forty years today since Albert Edward, prince of Wales (now King Edward VII.) led to the altar in St. George's chapel, Windsor, Alexandra, the fair daughter of the sea king, Christian IX, of Denmark. He was then 22 years old and she was 19. Now he is 62 and she is 59.

BOERS ARE FAR FROM BEING JUBILANT

(Copyright, 1902, by W. R. Hearst.)
PARIS, March 10.—(Special Cable to The Telegram.)—The famous colonial minister of England will soon be back in England from his South African tour. He has traveled many miles a day, and delivered hundreds of speeches, in which he has preached love and concord.

He has said to the Boers: "We have taken your liberties and suppressed your independence, but it was for your own good; you will be much happier and much better off under the British flag; let us forget the past and be friends, nay, brothers, forever and ever."

In spite of all that, the Boers do not seem jubilant and the gold-mining shares are going down.

The taxation question has been settled. Most of the mines are in working order, yet the mines go down, because nobody seems to be able to settle the labor mining question.

The natives of South Africa are not applying for work, tremendous objections are raised at the introduction of Asiatic or Chinese labor, and the negroes of Central Africa cannot be obtained because they are all suffering from the terrible sleeping disease.

This microbe is just now so dreaded that the authorities are hesitating to push on the railway to the Zambesi, that railway which is one day to realize the dream of Cecil Rhodes, and go from Cape Town to Cairo, for fear of bringing it down to South Africa.

This is how the thing stands; the microbe sends the niggers to sleep, and thus disturbs the sleep of the South African mine shareholders.

SAYS FERDINAND WROTE THE MONROE DOCTRINE

(Copyright, 1903, by W. R. Hearst.)
BERLIN, March 10.—(Special Cable to The Telegram.)—One of the interesting squabbles in the Venezuelan affair is shown in a leading article in one of the principal publications just out.

"The pinchbeck imitation" expression will amuse Americans.

The article is quoted verbatim: "It was King Ferdinand II of Spain, and not James Monroe, president of the United States of America, who was the real originator of the Monroe doctrine."

"The latter invented the name; but the policy which the name represents was Ferdinand's and Spain's."

"The Spanish Monroe doctrine was far more comprehensive and all-embracing than is the United States' pinchbeck imitation."

"The latter says that no European power shall be allowed to annex any portion of the soil of the two American continents."

"The former laid down the principles that not only the two Americas belonged absolutely by right of prior discovery to the Spanish crown, but it also insisted upon Spain's right to the entire Pacific ocean, and forbade ships of other nations to navigate its waters."

CAUGHT BY THE GRIP. RELEASED BY PE-RU-NA.

Congressman Geo. H. White's Case. A Noted Sculptress Cured.

The world of medicine recognizes Grip as epidemic catarrh. -- Medical Talk.

L A GRIPPE is epidemic catarrh. It spares no class or nationality. The cultured and the ignorant, the aristocrat and the pauper, the masses and the classes are alike subject to la grippe. None are exempt—all are liable.

Have you the grip? Or, rather, has the grip got you? Grip is well named. The original French term, la grippe, has been shortened by the busy American to read "grip." Without intending to do so a new word has been coined that exactly describes the case. As if some hideous giant with awful GRIP had

clutched us in its fatal clasp. Men, women, children, whole towns and cities are caught in the baneful grip of a terrible monster.

Pe-ru-na for Grip.

Mrs. Theophile Schmitt, wife of the Ex-Secretary of the German Consulate, writes the following letter from 3417 Wabash avenue, Chicago, Ill.:

"I suffered this winter with a severe attack of la grippe. After using three bottles of Peruna I found the grip had disappeared."—Mrs. T. Schmitt.

Mrs. Celeste Covell writes from 219 N. avenue, Aurora, Ill.:

"Only those who have suffered with la grippe and been cured can appreciate how grateful I feel that such a splendid medicine as Peruna has been placed at the door of every suffering person."—Mrs. C. Covell.

Noted Sculptress Cured of Grip.

Mrs. M. C. Cooper, of the Royal Academy of Arts, of London, England, now residing in Washington, D. C., is one of the greatest living sculptors and painters of the world. She says:

"I take pleasure in recommending Peruna for catarrh and la grippe. I have suffered for months, and after the use of one bottle of Peruna I am entirely well."—Mrs. M. C. Cooper.

D. L. Wallace, a charter member of the International Barber's Union, writes from 15 Western avenue, Minneapolis, Minn.:

"Following a severe attack of la grippe I seemed to be affected badly all over. One of my customers who was greatly helped by Peruna advised me to try it, and I procured a bottle the same day. Now my head is clear, my nerves are steady, I enjoy food and rest well. Peruna has been worth a dollar a dose to me."—D. L. Wallace.

Lieutenant Clarice Hunt, of the Salt Lake City Barracks of the Salvation Army, writes from Ogden, Utah:

"Two months ago I was suffering with so severe a cold that I could hardly speak. Our captain advised me to try Peruna and procured a bottle for me, and truly it worked wonders. Within two weeks I was entirely well."—Clarice Hunt.

Congressman White's Letter.
Tarboro, N. C.

Gentlemen:—I am more than satisfied with Peruna and find it to be an excellent remedy for the grip and catarrh. I have used it in my family and they all join me in recommending it as an excellent remedy."—George H. White, Member of Congress.

Mrs. T. W. Collins, Treasurer Independent Order of Good Templars, of Everett, Wash., writes:

"After having a severe attack of la grippe I continued in a feeble condition even after the doctors called me cured. My blood seemed poisoned. Peruna cured me."—Mrs. T. W. Collins.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

DIVORCES ARE NOW THE FAD IN PARIS

(Copyright, 1903, by W. R. Hearst.)

PARIS, March 10.—(Special Cable to The Telegram.)—An artistic set of Paris has begun to follow the example of "The Four Hundred" in their matrimonial combinations. The immediate cause of this comparison is that Madame Arselle Alexandre and the well-known author, Arsene Alexandre are to be divorced and that both will immediately take up other spouses.

Arsene will enter into a new union with Mile. Marguerite Carriere, daughter of the distinguished painter, and madame will try her matrimonial fortunes with M. Auguste Goffroy, the art critic. Carriere is painting a portrait of his affianced daughter for the Salon.

NEWS IN VAN ZANDT COUNTY

Telegram Correspondent Says the Wet Weather Discourages Farmers
GRAND SALINE, Texas, March 9.—George W. Clark of Fort Worth, representing the U. B. A., who has been here

for several days in the interest of the order, has returned home.

It still rains in Van Zandt county every day. Farmers are getting greatly discouraged, as it is utterly impossible for them to get into their fields to work.

Farmers in the "free state" intend to diversify their crops considerably this year if the weather ever clears up so they can get into their fields.

YACHT COLLISION TO COST EDWIN GOULD DEAR

(By Associated Press.)
NEW YORK, March 10.—It is announced that the suit brought by Adeline F. Atterbury as administratrix of the estate of John C. Atterbury against Edwin Gould and the Staten Island Rapid Transit Ferry Company has been settled out of court.

Atterbury was a passenger on the ferry-boat Middletown in June, 1902, when it was crashed into by Gould's yacht. The bowsprit of the yacht struck the passenger in the back and penetrated his body. When the ferry-boat arrived at Manhattan he was dead. It is said the settlement is based on a payment of \$13,800.

AN INSULTING REMARK BRINGS ON A MURDER

(By Associated Press.)
NEW CASTLE, Pa., March 10.—John B. Ferguson, a traveling salesman from Pittsburg, was shot and killed last night at New Castle Junction, supposedly by Robert Mongin, an iron molder of this city, who is held for the murder. It is thought Ferguson made an insulting remark to Mongin's wife, who was waiting for a train, and Mongin pulled his revolver and shot him.

CALIFORNIANS TO TEXAS FOR THEIR HOGS

The scarcity of hogs throughout the corn-belt of the west and especially in California is the cause of so many representatives of packing concerns in that state being sent to Texas for the purpose of buying what is needed for their demands. As it costs \$150 per car for freight from Texas to California they are pretty high-priced hogs when delivered at their Pacific coast destination.

THE NEWEST PHASE

At last Friday night's meeting of the city council a resolution to provide for an additional tax levy of 25 cents, was passed. It is stated that this resolution is intended to conciliate the bondholders.

The resolution was opposed in its passage by Mayor Powell because it is contrary to the policy he has been pursuing. He is opposed to a \$2.00 tax levy and has been attempting to hold off the bondholders by other means.

The resolution passed Friday night indicates that it is the sense of the council to hasten the payment of the interest, and though the means employed will increase the tax rate, it is believed that the move will act as a balm to the wounded spirits of the bondholders.

That presents the newest phase. The pertinent question was asked by Mayor Powell in his opposition to the finance committee's resolution, "Will the increase in tax levy to help pay the overdue interest, actually prevent the bondholders from forcing the issue and taking still further advantage of the city's position?"

Now the city is paying 61 cents of the total levy for the payment of the bond interest and sinking fund. Under a provision of the charter, this levy may be increased to \$1.08.

At present with a payment of 61 cents to the bondholders, the city has left out of the total levy but 94 cents. Of this 94 cents, 25 cents is set aside, under the present charter for permanent water and street improvement.

This leaves the city 69 cents for conducting the government, providing for the schools, fire and police departments and paying other municipal expenses. In itself this sum is a ridiculously small one on which to conduct the business of a city with 35,000 inhabitants.

He has pointed out that if the resolution be passed by the council and granted by the legislature without an agreement from the bondholders promising that they will not take steps to secure more than the present levy plus the 20 cents of the special levy, or a total levy of \$1 cents, the way will be left open for the bondholders to force a payment of \$1.28.

leave the city 72 cents. Of this 72 cents, under the old charter and the new amendment, 25 cents plus 5 cents or 30 cents would have to be devoted to permanent water and street improvements. Take the 30 cents from the 72 cents, and it can be readily seen that the city instead of having to struggle along with 69 cents, it would have to do business with the munificent tax of 42 cents.

At the best, the resolution as passed, means higher taxes and the mayor is opposed to it though he has agreed not to veto the measure. On the other hand, the measure seems to be favored by the business men of the city.

The right or the wrong of the resolution is a matter of argument but the one thing that needs no argument, is the warning of Mayor Powell.

Before sending the resolution to the legislature, the city should have a positive agreement from the bondholders that all proceedings for compelling collection of overdue interest by additional levy, will be dropped, and further that they will refund the 6 and 7 per cent bonds now in their possession for those of the 4 per cent issue.

A verbal assurance that concessions will be granted is flimsy ground for increasing the city's tax levy.

If this proposed horn of the dilemma is to be taken let the city see to it that it does not get into any more tight places.

If Dallas doesn't cease her efforts to annex Oak Cliff against the latter's wishes, Fort Worth will be compelled to interfere. The spectacle of a big overgrown town like Dallas jumping onto poor little Oak Cliff and attempting to coerce her into doing something naturally repugnant to her is it out of place in the present age of justice and freedom.

Fort Worth doesn't like to mix up in affairs of this kind, but it will if Dallas doesn't keep "hands off." It is suspected that Oak Cliff's opposition to becoming a part of Dallas lies in the thought that she may soon be invited to become a part of a bigger and better city. May be she will.

THE RED RAVEN BALLOON A large balloon advertising Red Raven Splits in a down town pharmacy has attracted considerable attention during the past week, and the proprietor on being interrogated by one of his best customers as to what the article was, said: "Red Raven is an aperient water put up in dainty half pint bottles called splits, one of which is a dose. I always keep a liberal supply of Red Raven Splits on hand because my customers tell me that as a laxative and alternative it is unequalled by any other aperient water on the market.

They use it, as a rule, before breakfast and find it gentle, mild and sure. I never attempt to substitute for Red Raven Splits, because I know that my trade having used it, well satisfied, will be sure to return for more. The advantage of Red Raven Splits over foreign bitter waters is not entirely in its merit as a laxative, but because it is sparkling, pleasant tasting and as entirely agreeable as any high class table water. The price being fifteen cents makes it an ideal article for all classes of my trade."

Good Stories Well Told

Colonel Tom Ochiltree was once invited to spend a week at the deer-hunting lodge in the Maine woods of one of his friends, and tramped the woods for a week without bringing anything down. On the last day of his visit he was approaching the lodge in company with his entertainer just at dusk and, seeing something in the thicket, fired at it. It turned out to be a calf, but the honorable Tom missed it as gallantly as if it had been a buck of many antlers.

"What's this," shouted his host, "you pretend to be a hunter and can't hit a calf?" "Well," Tom replied, "I wasn't just sure what it was, so I shot to hit it if it was a deer and miss it if it was a calf."

Booker T. Washington was in Philadelphia recently and to a group of reporters there he told one evening an anecdote of his boyhood. "At the plantation where I was a slave," he said, "a very choleric old southerner was staying. His valet was an aged colored man, and very funny it was to hear the woe-begone reply that he would make when his old master stormed at him.

"The storms were frequent enough. One of them I remember arose over a mislaid bootjack. "Daxon," the master said, "you are good for nothing. You are a rascal. You are a numskull. By gad, Dagon, I wish you were in h—!" "I wish I was, sah. I wish I was," Daxon replied."

Not long ago George W. Perkins, J. Pierpont Morgan's partner, noticed the aged Russell Sage poking his cane about in the gutter at the corner of Broad and Wall streets. He hurried over to Mr. Sage and asked him what he was looking for.

While buying a newspaper I dropped a cent in the gutter, and it has actually reduced me to poverty." "How can that be?" queried Mr. Perkins, with surprise. "Why, don't you see, it makes me a penniless man," chuckled the dean of the street as he stroled away, apparently as happy as if he had made a lucky turn for a few thousands.

Robert Edison and Richard Harding Davis, the author of "Soldiers of Fortune," in which the former is making his initial stellar tour, were journeying the other day from Indianapolis to St. Louis. They were seated in the smoking compartment, enjoying a quiet chat. Their conversation was continually interrupted by the persistent newsboy soliciting them to purchase his wares.

After Edison and Davis had positively and emphatically explained to him that they were not in immediate need of popcorn, apples and chocolates, he desisted. They had scarcely exchanged congratulations on his disappearance, however, when he bobbed up serenely with an armful of books, which he described as "the latest works by the most popular and well-known authors."

He proffered Davis a copy of everything he had for sale, his assortment ranging from "Jesse James in Missouri" to the latest thing in cook books. They assured him that they had read the various books he offered for sale. Again the "news" disappeared and reappeared and literally shoved under Davis' nose several of his own books, whereupon Davis ejaculated: "Oh, take them away. I wrote that!"

SHEEP OWNERS ARE TO MEET AT CARLSBAD CARLSBAD, N. M., March 10.—A meeting of all the sheep owners of the county has been called for March 14 in Carlsbad, to arrange for the lambing season. The promised shortage of labor is to be met by the importation of a sufficient number of men from the different camps from Texas. To formulate a definite plan for securing these men is the purpose for which the meeting is called.

Clarendon Chronicle: Indian Territory range cattle, as a rule, were in poor condition to stand the severe weather. One man near Ardmore who was pasturing sixty head lost fifty-two. Very few stockmen escaped without some financial loss. Around Mill Creek the loss was 25 per cent. At Hugo it was fully as great.

Rockport Journal: "Last Sunday," says a North Missouri editor, "we noticed a young man just out of knee pants escorting a young lady still in short dresses. As they strolled along his smiles indicated that he felt like a tub of butter swimming in honey, perfume, nutmeg and cranberries. She looked as though her nerves were on feet of diamonds, escorted by several Cupids in golden chariots, shaded by honeysuckles and the whole thing under a melted rainbow. God bless the kids. Let them sparkle—it sometimes keeps them from worse vices."

WOODCRAFT "Jack, dear, when you are gone I shall pine away." "Don't pine away; spruce up"

TO HIM WHO WAITED BY HENRY WILTON THOMAS

(Copyright, 1903, by W. R. Hearst.) When Rolly Smiles brought out the Weekly Globe in Woodburn Centre the croakers at the village store stroked their long chin whiskers sagely and gave it very short life. They agreed that he was far too young to be their editor, and for the same reason his early downfall was predicted by the older newspapers of the county. But they all counted without the fact that the printer's ink was in Rolly's blood and the editorial marrow in his bones. Both of which qualities were a heritage from his father who had passed away suddenly, leaving him with only a very few dollars to pilot his own

bark. Though city bred for most of his years, he had chosen the country for pure love of it and a desire to be his own master. He knew how to get up a newspaper, and it was not many weeks before the croaking at the store died out and the other newspapers began calling the fledgling Globe their "esteemed contemporary."

Rolly was lucky enough to have a good soul of an aunt in East Woodburn, which is a village that sleeps about two miles from Woodburn Centre. With her he made his home, traveling back and forth twice a day. It was his custom to make the journey afoot unless the weather meant a drenching. Every morning the neighbors watched for the editor to pass, and his coming and going at stated hours became as much a feature of Woodburn life as the passing of Hank Raynour's squeaking stage. Girls still young enough to be thinking of husbands peeped at him from behind the kitchen curtain, while more adventurous ones contrived to be crossing the road as he moved by. This was some time after he had won his spurs as an "esteemed contemporary."

It was in these morning tramps that he feasted his soul on the beauties of nature and took the mental pictures that in after years lent wondrous charm to certain books that he wrote. You may think it odd—for Rolly, with all his poetic nature, was a normal young fellow—you may think it odd that he gave little thought to either the rustic beauties who peeped from behind curtains or those who met him in the road. It did not mean that he lacked eyes for all save the wayward grain and the grassy slopes, patched with white flocks, that lay along his path; nor that the tinkle of a far-off bell and the distant lowing of the herd were sounds sweeter to his ear than feminine voices. Oh, no! The reason was far more human than that.

Besides the good-natured dogs who bounded toward him with whisking tails and the men and women who gave him pleasant salutation, were groups of school children, books in arm, who greeted him with a "good morning." Who can explain why it is

that one of these little maids who came out of a lane all alone made him sensible of a shyness such as he was not given to in the presence of women? How came it about that at the third or fourth meeting they stopped to talk of the things around them—the catbird and the robins, the jack rabbit that went limping across the road, round Christopher the cripple pushing sense of loss with the thought that she was only a little girl in the third reader? Another nut to crack: Why did she flush in the cheeks when she turned the corner of the lane where

ALL TEXAS RAILROADS SUFFER FROM PREVAILING TROUBLE

Morning Passenger Trains Are Late, and the Only Prospect of Improvement Is When the Weather Clears Up—Texas and Pacific Is Digging Sand to Ballast Track

Soft tracks that will not get better so long as the wet weather of the past two months continues are the chief bane of the Texas railroad man's life nowadays.

ANOTHER NEW LINE THROUGH OKLAHOMA

A territorial charter has been granted to the Texarkana, Oklahoma and Northwestern Railway Company, which is capitalized at \$15,000,000 and will have Oklahoma as the principal place of business.

WEATHER CONDITIONS

A breathing spell from the rainy weather is promised for Fort Worth for at least a few days. The rain will be cooler and clearer weather and more sunshine.

SANTA FE CONTEST WINNERS ARE NAMED

Freight Traffic Manager W. B. Riddle

THE PRIZES TO YOUNG GATHERERS OF NEWS

Here is a chance for some bright and energetic boy or girl to earn \$5 between now and April 5. The Telegram offers the chance to anyone who is energetic and wide-awake.

The Telegram wants items of news. It wants to know when people leave the city or come to it. It wants to know who are visiting here.

Such items are news and The Telegram wants to print news. The Telegram believes every boy and girl in Fort Worth has fifty and perhaps a hundred friends who come and go and hold meetings that should be mentioned in the paper.

Two prizes are offered. The boy or girl sending in the largest number of items by April 5 will receive \$5 in cash. The one sending in next to the largest number will receive \$3 in cash.

Each boy and girl must keep a "string" of the items he or she sends in. Each one sending in items will make a "string" by cutting from The Telegram the items sent in and printed and pasting all the clippings secured in this way together.

The Telegram office will also keep a "string" for each boy and girl and the winner of the contest will be determined after figuring up the "strings" at the end of the month.

GIVE YOUR NAME. In order that The Telegram office may keep its "strings" correctly, every item sent in must be accompanied by the name of the boy or girl who sends it.

NEW ORDER IS NOW ORGANIZED

NAME IS "THE GOLDEN STAR" AND PURPOSE IS FRATERNAL

Has About Thirty Charter Members and Holds First Meeting Wednesday, the 18th—May Decide to Enlarge Its Scope and Enter the Insurance Field if Venture Is Successful

A meeting of the charter members of the Order of the Golden Star, which was organized in this city last week, will be held Wednesday next at Red Men's hall for the purpose of completing the organization.

A charter to the order, which has no capital stock, was granted last week, the incorporators being Mrs. Kate Schumacher, Mrs. Alice Zotta and P. A. Fritsch.

The purpose of the organization is fraternal and benevolent. The charter extends for a period of fifty years. It is contemplated to pay a sick benefit to members of \$5 per week not to exceed four weeks.

The order has about thirty charter members and both ladies and gentlemen will be admitted to membership.

The organization of the order is similar to that of other fraternal bodies, many of which are today doing business in many states. It is not provided in the charter, but if the business of the order increases in the city sufficiently to justify the extension it will be carried into other towns of the state and will enter the regular fraternal insurance field.

SHE MADE A CHANGE

A Charleston Mother Did so With Advantage to Herself and Children

A mother living in Charleston, Mass., the happy possessor of four children writes: "Every fall and winter I have laid in a stock of cough remedies, cramp mixtures and throat medicines for my children, for somehow or other they never seem to be free from colds, coughs or sore throat."

"This fall I made a change in the usual program. I had myself been cured of an obstinate catarrh, from which I had suffered for years, by Stuart's Catarrh Tablets, and as they were pleasant to take I determined to try them with my children.

"My family physician told me he knew them to be perfectly safe and nothing better could be used for catarrh, coughs and colds.

"So I gave them to the children and have continued to do so ever since, whenever there is the least sign of croup or sore throat and I no longer dread the approach of cold weather, as I once did.

"Stuart's Catarrh Tablets not only cured me of chronic nasal and throat catarrh, but they have saved me many an anxious night with my little ones. It is really wonderful how quickly they will break up a croupy cold or an obstinate, deep seated cough."

People who have used sprays, inhalers, salves or washes for catarrh and have found how useless they are, will be agreeably surprised at the results following the use of a pleasant, convenient, internal remedy in tablet form.

PAROLES NOT REVOKED
General Grant Laid Down the Law to President Johnson

Daniel R. Goodloe, for many years a distinguished resident of Washington, and chairman of the commission to free the slaves of the district, once told this story: "One morning soon after the surrender at Appomattox I was one of a group of gentlemen standing on Pennsylvania avenue, discussing the momentous questions of the day. As we talked General Grant rode toward us, smoking his usual cigar. Recognizing several of us, he dismounted and joined us.

"What's the news?" he asked.
"I answered: 'We are discussing a piece of news, which comes to us directly from the White House, and which gives me no little concern.'

"What is it?" asked the general.
"I understand that President Andrew Jackson intends to revoke the parole of General Lee and other generals of the late southern Confederacy."

"Who was your informant?" asked General Grant.
"I gave him the name of the gentleman who had given the information."

"General Grant quietly said, 'Thank you, gentlemen,' remounted his horse, and rode rapidly away toward the White House.

"We leisurely turned our steps in the same direction, and as we entered the portico we saw Grant coming down the steps looking more excited than I had

A STUPENDOUS INCREASE OF STOCK

PENNSYLVANIA RAILROAD ADDS \$400,000,000 TO ITS CAPITAL

PHILADELPHIA, Pa., March 10.—By far the most stupendous increase in capital ever made by any corporation went into history today when the stockholders of the Pennsylvania Railroad Company at their annual meeting authorized an addition to the capital stock of the company to make the aggregate \$400,000,000, and an increase of the bonded indebtedness to a like amount.

This action confers authority on the board of directors absolutely to issue, as it may from time to time deem expedient, securities to the enormous total of \$486,570,750, par value. This will bring the total authorized capitalization of the company, stock and funded indebtedness, to the enormous total of \$900,000,000.

No definite statement has been issued as to the purposes for which the vast amount of new capital will be used, but it is known that the company has a vast amount of work laid out which it will take millions to complete. While the underground railroad under New York is to be built by another company, the Pennsylvania Railroad Company will own all the stock and at least \$50,000,000 will be used for this purpose. There will be several millions of dollars spent in Washington and at least \$50,000,000 on permanent improvements on the line of the road. Some of the money, however, will be taken out of the earnings.

VERY LOW RATES
To points in Montana, Idaho, Washington, Oregon and British Columbia, in effect daily, from Feb. 15 to April 30, via Chicago—Great Western railway. Write to J. P. Elmer, general passenger agent, Chicago, for full particulars.

SEVERE ATTACK OF GRIP
Cured by One Bottle of Chamberlain's Cough Remedy

"When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, editor of the Enterprise, Shortsville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. I had no idea that it would or could knock out the grip, simply because I had never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it to not only be of less duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bid me adieu." For sale by all druggists.

INSPIRING ADDRESS BY GEORGE R. WENDLING

Despite the inclement weather which, supposedly, would be sufficient to dampen the ardor of the most enthusiastic admirer of Mr. George R. Wendling, the gifted orator of Washington, D. C., an exceedingly large number of Fort Worth people were present last evening to hear the eighth number of the Y. M. C. A. lyceum course.

The lecture was given in the auditorium at the city hall, on the subject, "The Imperial Book." By those who have heard Mr. Wendling in his various other subjects, the one on which he spoke last evening is pronounced the best, the most inspiring, elevating and helpful to all who are so fortunate as to be able to hear him.

Mr. Wendling needed no introduction to the people of Fort Worth, he having spoken in this city a number of times before. He was formally presented to the audience last evening by Dr. C. R. Hyde, pastor of the First Presbyterian church, who very appropriately referred to the speaker as "Mr. George R. Wendling, of the Western Hemisphere."

To reproduce Mr. Wendling's remarks on the Bible would be according him but a small portion of the credit justified by his lecture. Beautiful language as is that heard from the lips of one who has so thoroughly mastered his subject and devoted his life to the beautiful teachings of his work, but loses that soul-stirring element when seen merely as reproduced language.

The Bible, Mr. Wendling referred to as the only book, which, in common brings comfort and consolation to all people, all ages and classes and under all conditions. The high and the low, the rich and the poor.

A book, which, unlike all others, was without the criticism of time and yet remaining ever-increasing in favor. Unlike any other writing, reproduced in millions of copies in over 400 languages.

A book, the teachings of which are embodied in our very government and in all that is grand and good in the universe.

Mr. Wendling referred to the progressive study and research which has been made of the Bible in years past and of the universal result in which the book only becomes more sacred and grander in the eyes of those who know and observe its teachings.

The past fifty years has witnessed a more general study of the Bible and a more diligent research after its truths than in any other one similar period of time.

Mr. Wendling was frequently applauded during the course of his remarks, and at the close of his address was accorded the most complimentary display of appreciation. Many personally congratulated him upon the splendid subject, and especially the inspiring manner in which he delivered the same.

Every Bottle Warranted

Every bottle of Chamberlain's Cough Remedy is guaranteed, and the dealer from whom it is purchased will refund the money to anyone who is not satisfied after using it.

The many remarkable cures of colds and grip effected by this preparation have made it famous over a large part of the civilized world. It can always be depended upon and is pleasant to take. It not only cures colds and grip, but counteracts any tendency towards pneumonia.

This remedy is also a certain cure for croup, and has never been known to fail. When given as soon as the child becomes hoarse, or even after the croupy cough appears, it will prevent the attack.

Whooping cough is not dangerous when the cough is kept loose and expectoration free by the use of this remedy.

It contains no opium or other harmful substance, and it may be given as confidently to a baby as to an adult.

Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

Kodol
Digests What You Eat

Mrs. Loring Nichols of Penn Yan, N. Y., writes: "After eating my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured."

Kodol cures indigestion, dyspepsia and all stomach disorders, and gives the heart a full, free and untrammelled action.

AMUSEMENTS

For a 10, 20 and 30-cent aggregation, the Money Stock Company is surprisingly good. The way it gave "Credit Lorraine" last night was interesting enough to keep the audience excited from start to finish.

MARY JOHNSTON'S "AUDREY"
A dramatization of one of the best works of fiction ever written; this the work of one of the most gifted women of the south; she a daughter of one of the south's most honored citizens—one who spent nearly five of the best years of his life in the great struggle for what he believed the best interests of his native state; the dramatization and production made by Liebler & Co., one of the most prodigal of managerial firms in the support of what they believe to be a worthy cause; a star who is not only "an ideal Audrey," by Miss Johnston's own pronouncement; a cast in the support of a star which has not been equaled in strength, in excellence, or in the expense involved, by any company which has, through the force of circumstances, been put "on the road," for twenty years—such is the production of "Audrey," which is soon to visit our city.

TOLD TO KEEP AN EYE ON KAISER WILLIAM

BERLIN, March 19.—(Special cable to The Fort Worth Telegram.)—Not only in England, but in Russia the press is warning the government to keep an eye on the Kaiser. A late issue of the influential Novoye Vremya defines the situation thus: "Germany, who a quarter of a century ago said she was quite indifferent to the Balkaria peninsula, is at the present moment the most active political agent at Constantinople. England is occupied not only with the fate of the Dardanelles, but also with Egypt and Asia Minor, where the Germans are beginning to play a leading role. Russia has now other friends and other rivals. In this new position it is necessary for her to consider matters."

MONEY JAR MONNIG'S ALL DAY TOMORROW

The enthusiasm for The Telegram's money jar has not been abated even if the weather has had a dampening effect on everybody and everything in Fort Worth. Of recent days the jar has been mostly in the windows of prominent retail stores of Fort Worth.

VISITED WRONG BERTH

Mistake of a Politician Looking for a Whisky Flask
Chicago Chronicle: For a week or two past R. F. Combs, secretary of the Jefferson Club of St. Louis, has been meekly buying cigars and other things for his friends, hoping thereby to keep them from worrying him about a mistake he made while traveling on a railroad train.

GROUND IS SOAKED

Crop Prospects Excellent, But Roads Are Impassable
WALNUT SPRINGS, Texas, March 19.—It has rained until the ground is more thoroughly soaked than it has been for some time, and the crop prospects are exceptionally good. The roads are almost impassable and wood has become so scarce that it is being shipped here from other points, the farmer not being able to haul it to town.

FARMERS MUST WALK

Those Attending Court Will Not Attempt to Ride Into Town
HILLSBORO, Texas, March 19.—The rains are interfering somewhat with the work of the District court, as the jurors and the litigants find it almost impossible to get here. Some farmers who are on the jury and who live from ten to fifteen miles from town, walked into town last evening and this morning, rather than to attempt to ride through the mud.

THE NEWS OF FOUR COURTS

LITTLE BUSINESS TRANSACTED TODAY IN LEGAL CIRCLES

Newsboy Gets \$1,500 Damages from the Texas and Pacific—Civil Suit Still in Progress in Forty-Eighth District Court — One Citizen is Naturalized

The naturalization of Emanuel Salter was the only feature of today's proceedings at the court house. Salter was formerly a citizen of England but today took out his final papers. Judge Irby Dunklin of the Forty-eighth district court administered the oath.

Court business today was light. Nothing was done in the county court because Judge Milan is busy with the Commissioner's court transacting routine business and auditing bills.

In the Seventeenth district court the damage suit of Charles Fenwick against the Texas and Pacific railroad ended in a verdict of \$1,500 for the plaintiff and \$500 for his father. The suit was for damages sustained while in a wreck at Mineola last year. A similar suit against the Crescent News Company by Fenwick, resulted in a verdict for the defendant.

In the Forty-eighth district court the suit of G. M. Hutchison vs. T. B. Pitman, to establish title, is still in progress.

But one suit was filed in the district court and that was a suit for divorce filed by May Heckman against W. A. Heckman on grounds of cruel treatment.

Federal Court

Federal court adjourned this morning till Wednesday morning at 10 o'clock after disposing of the following business:

D. G. Gilbraith vs. De La Vergne Refrigerating Machine Co., continued generally.

Comanche Mercantile Co. vs. Parlin & Orendorff Co. continued by agreement.

The suit of E. B. O'Dair vs. the Texas and Pacific railroad has been filed on transcript from the Tarrant county district court. J. W. Stitt is attorney for the plaintiff and Stanley, Spoons & Thompson for the defendant.
