AND SPEAKING of pumpkins, not so long ago at Elcor Chemical Corp., formerly Western Ammonia, Dr. Norman Nossaman, chief agronomist, challenged anyone to a "Pumpkin Growing Contest." Dr. Nossaman started growing pumpkins in his backyard and some people think he bit off more than he can make pies of, because he has some of the largest pumpkins around.

One pumpkin weighed 77 pounds. He pulled this one and took it out to Elcor Chemical's offices. Another one in his backyard weighs 89 pounds. I dare say he can be credited with winning the "Pumpkin Growing Contest-1968."

THE DIMMITT Public School teachers were the honor guests at a reception in the community room of First State Bank Tuesday afternoon.

**Bible Thoughts** LOVE AND WRATH By Ronnie Parker

Thursday, September 19, 1968

Can a God of love be also a God of wrath? The Bible answers ves. The cross of Christ is the greatest exhibit saw. Mu eshoe has a fine band with Farm Eurcau. Frank is re went to Turkey to visit the girl from there she was a foreign exthe world that he gave his only Son. But that cross is at the same time the greatest exhibit of God's hatred for sin. His anger over sin is as passionate as his love for the sinner.

> Salvation from sin is God's gift to men. But men must receive it in faith. The wrath of God is upon anyone who refuses to abey and live after the way of God. These scriptures establish the truth.

- Romans 1:18 "For the wrath of God is revealed from heaven against all ungodliness and unrighteousness of men."
- Remains 2:8 "unto them that are factious, and obey not the truth, but obey unrighteousness, shall be wrath and indignation, tribulation and enquish, upon every soul of man that worketh evil, of the Jew first, and also of the Greek."

Gcd wants you to be saved. He wants you to follow his will. But he will not force you. The choice is yours. If you refuse him, wrath will be upon you - His love demands it.

The table was pretty, with the	Dr. Norman Nossaman's ba	ickyard pumpkins the missile base there. Ginger weekend she went to Finland to (MORE CHATTER 0.1 PAGE 4)

CONSTRUCTION of the new fac good scrapbook unless your orlity will begin immediately, and is scheduled for completion in mid-January, John Tyler, KVII manager, said in making the announcement.

More than three times as tall as the tallest building in Dallas. the new tower will extend up to a height almost a mile above sea level.

In addition to improving the television signal in all areas, Tyler explained, the giant steel tower will double KVII's effective viewing area.

The new tower will also improve reception for viewers receiving KVII-TV by cable.

GENERAL Electric, prime contractor, will erect the new tower at a site 12 miles north of Amarillo. The structure was designed by Dresser-Ideco of Columbus. Ohio, which has designed and prefabricated many of the tallest towers in the world.

The proposed KVII-TV tower will contain more than 185 tons of steel, 31,000 feet of guy cables and about 21/2 miles of electrical wiring. Two and one-half tons of zinc will be required to galvanize the structure.

THERE ARE about 3,000 different salad dressings on the market, report Extension foods specialist at Texas A&M University. Vegetable oil is the major ingred-
