Anti-Pool Room Bill Becomes a Law After June 30—Hundreds of Telegrams Are Being Filled at Senators by Excited Constituents

(Special to The Telegram.) AUSTIN, Texas, March 24.—The senate today passed finally a house bill prohibiting any corporation not incorporated under the laws of Texas to build, own or operate a line of railroad in Texas. It means that in future all railroad corporations must charter under the Texas laws in order to construct a railroad. The house passed finally today the supplemental deficiency bill. The house spent the remainder of the session considering the general land bill. A resolution was introduced in the house providing that during the remainder of the session the house shall devote itself to the consideration of the senate by the bills and joint resolutions.

ANTI-POOL ROOM BILL Governor Lanham last night affixed his signature to the Hancock anti-pool room bill, and it will become effective ninety

ARMOUR'S RIVAL DIES AS A PAUPER

(By Associated Press.) NEW YORK, March 24.—Charles H. Tugman, once very wealthy and a conspicuous rival of Armour & Co. in Chicago and later a power on the New York Produce Exchange, has died in St. Vincent's hospital. He died practically from starvation, in a pauper's bed, and the friends who had known him in better days learned of it too late to save him from potter's field. It was a bitter fight waged in the courts of Illinois with the city of Chicago more than thirty years ago that, coupled with unfortunate deals in wheat, ruined him in the west and sent him east. For the last ten years he had been a hanger-on of the street, giving "tips" to those who appreciated the value of his knowledge. To none of his friends would he disclose where he lived, but the records in St. Vincent's shows that he had been an inmate of more than one cheap lodging house.

RIVER AT NEW ORLEANS FALLS

(By Associated Press.) NEW ORLEANS, La., March 24.—The river has fallen 2 of a foot in the past twelve hours and the gauge now registers 20 feet. Favorable winds probably helped in the decline. Something like a gale prevailed during the night and caused much apprehension concerning the safety of the levees. Reports from other points along the line above the city have brought no additional news. The hardest fight on the river is being made in the La Fourche and Pontchartrain districts. Engineers are confident of holding those levees.

TO BUILD A ROAD ACROSS THE PLAINS

LUBBOCK, Tex., March 24.—The Lubbock Commercial club met Friday to consider and answer the correspondence of C. H. White, vice president of the Wichita, Oklahoma and Southwestern Railway company relative to the building across the Plains and to touch at Lubbock. The Commercial club has made a call for a convention of delegates of the counties of Hale, Crosby, Briscoe, Castro, Swisher, Floyd, Lynn, Garza, Terry and Gaines, to meet at Lubbock on April 2, and to consider propositions of the W. O. and S. W. Ry. Co. and other roads that are talking of moving out this way.

days after the legislature adjourns, or June 30. It is said the Western Union Telegraph Company, which furnishes the reports to the pool rooms will lose several hundreds of thousands of dollars a year as a result of this legislation. Telegrams by the hundreds have been received here today by various members, asking that they support a bill relieving fair associations from the provisions of the anti-pool room act. These telegrams came from Dallas, San Antonio and other cities and principally to representatives from those cities, but many other members got them. The bill referred to has not been introduced. Senator McKamy says he will not introduce a bill, and could not do so without stultifying himself.

FUNDS FOR THE LIBRARY GROW

Chairmen of Committees Are Requested to Notify The Telegram of Additional Subscriptions as Soon as Made, in Order That List May be Kept

Work for the library book fund is progressing slowly, though steadily, and a number of additional names are given this evening. Chairmen of committees are requested to pay special attention to the fourth article under the general instructions, issued by Mrs. James W. Swayne, chairman of the general committee, and to send in promptly all new names as fast as reported. Tonight's list is correct to date. Heretofore several errors have been made in contributors and amounts, but so far as it stands the present list is official and will be changed only as new names are added by the authority of the chairmen of the various committees soliciting money for the fund.

CLOTHIERS Jake Washer, chairman; Leon Gross, Bullock Bros. & Bannister, A. & L. August, F. T. Crittenden, one each.

TELEPHONE EXCHANGES J. F. Henderson, chairman, one.

BREWERS Zane-Cetti, chairman, eight.

DRUGGISTS C. W. Connerly, chairman; W. L. Smallwood, one each.

LAWYERS Captain E. B. Paddock and W. B. Paddock, James W. Swayne, Theodore Mack, Mrs. Theodore Mack, one each.

BOOK AND ART STORES P. H. Collins, chairman; The Fair, one each.

NEWSPAPERS AND PRINTERS C. D. Reimers, chairman—The Telegram, one for five years.

DRY GOODS MEN E. H. Lowe, chairman; R. J. Parker, W. C. Stripling, Aomng Bros., Jibron Naggar, G. Y. Smith, J. Pommer, one each.

LIQUOR DEALERS H. Brann, chairman; Casey-Swasey Co., Martin Casey & Co., H. Brann & Co., one each.

CATTLEMEN Sam Davidson, chairman; Mrs. Sam Davidson, Lucile Davidson, Alice Davidson, one each.

JEWELERS J. E. Mitchell, chairman; Roy & Lefler, F. C. Boerner, J. H. Greer, W. P. Krueckman, N. C. Hall, M. A. Lesser, W. C. Ballew, one each.

TO THE CHAIRMEN Mrs. James W. Swayne, chairman of the general committee, issued the following instructions to chairmen of soliciting committees today: "The chairmen are earnestly requested if possible:

"1. Have each subscriber sign his or her own name to the list.

"2. Have each subscriber pay at least one year's subscription in advance.

"3. Endeavor to cover as completely as possible the territory assigned, and take subscriptions from 10 cents up.

"4. Send the names of contributors and the amounts to The Telegram and Register as fast as they are obtained.

"5. When the territory has been covered place the signed lists and the funds obtained in the hands of W. G. Newby, president of the American National Bank and treasurer of the library association."

TEN STEAMSHIPS WILL BE LAUNCHED DULUTH, Minn., March 24.—The Great Lakes and St. Lawrence Transportation Company of Duluth will put into commission during the season about to open ten steel steamships for the export trade between the upper lakes and Europe. The service will be a new and important one and it is understood that a large trade has been worked up, not only in grain and flour, but in some heavy manufactured goods, which have been handicapped heretofore for the export market on account of excessive freights.

The fleet will run from the head of the lakes through to Quebec and Montreal, where the cargoes will be transhipped in order that they may be carried by water through the Canadian canals to salt water the new vessels are to be not more than 250 feet long. They will have a capacity of 2,500 tons, however, and will carry 2,200 tons on the fourteen-foot draught permitted by the present Canadian canal.

CATTLEMEN ARE MEETING IN CHILDRESS

(Special to The Telegram.) CHILDRESS, Texas, March 24.—The fourth annual meeting of the Panhandle Cattlemen's Association met here this morning at 10:30, and from the number of people here the prediction is that this will be the largest gathering ever held in the panhandle by any association or for any purpose. Colonel T. S. Bugbee, president of the association, with several members of the executive board, came in yesterday morning and spent the day arranging for the meeting. Mr. Bugbee says the association is in better shape than at any time in its history and that his report of the year's work will be a very agreeable surprise to many of the members.

Cattlemen from all sections of the panhandle are here, and they unite in saying that the reports of losses of cattle have been greatly overestimated. A general opinion is that the loss will foot up about 5 per cent. A number of buyers from Kansas and the northwest are expected and it is predicted that considerable trading will be done. There are now about 200 head of registered cattle in the yards here, which will be offered for sale. C. C. French, representing the Fort Worth stock yards, is here putting in some good work for Fort Worth as a cattle and hog market. And there is no reason why the cattlemen of the panhandle should not trade at Fort Worth.

THE DAY'S SESSION CHILDRESS, Texas, March 24.—The convention today was called to order by President Bugbee. Prayer was offered by Rev. Mr. McLaughlin. This was followed by an address of welcome by J. B. Sneed and a reply by C. C. Coffee of Texas. On request of the convention, J. H. Stephens, congressman, addressed the convention concerning measures of importance to cattlemen that were acted on by the last congress. He favored a lease law for federal lands along the line of today's lease laws. He asked the convention to indorse a bill to extend the limit of live stock shipments to forty hours.

S. B. Burnett, D. B. Gardner and John T. L. Lyttel of Fort Worth are here. The former is putting in his time telling of the god market for cattle at Fort Worth.

The attendance is larger than expected and will be increased by tomorrow's arrivals. Wednesday will be a business day.

KANSAS CITY DEALERS ARE NOW IN SESSION KANSAS CITY, Mo., March 24.—Members of the Kansas Grain Dealers' Association began a two days' convention here today in response to the invitation of the Mercantile Club. Many topics affecting the interests of those engaged in the grain trade are scheduled for discussion.

If the north and south reserve join the revolutionists the result will become serious.

SHAH WILL GET AMERICAN TYPEWRITER NEW YORK, March 24.—Richard Pearson, the United States minister to Persia, takes with him when he leaves for his post today several handsome presents for the shah. Among them is a present which President Roosevelt is sending to the Persian ruler, and a typewriter fitted with Persian characters which Mr. Pearson intends as a personal gift.

The "lead" of black pencils is now made from coke. It is ground and mixed with iron ore and chemicals and subjected to pressure under great heat.

COLLINSVILLE TO AID IN THE FIGHT COLLINSVILLE, Tex., March 24.—The local W. C. T. U. held a mass meeting after services at the M. E. church last night to raise funds to assist in fighting the injunction against the Grayson county prohibition which is on trial in the federal court at Sherman today.

Mr. and Mrs. S. E. Budgett of Coalgate, I. T., are visiting friends here. Mr. and Mrs. T. W. Hudson of Sherman are visiting Mrs. Hudson's sister, Mrs. N. J. Miller. Miss Temple Westbrook accompanied them.

Miss Lottie Miller, a student of Greenville, Texas, is visiting her parents near town.

W. L. Bruce is visiting the Kansas City markets this week.

FLORIDA FEDERATION IN SESSION TODAY TAMPA, Fla., March 24.—There was a full attendance of delegates today at the opening of the annual convention of the Florida State Federation of Labor. The organization has largely increased its membership during the past twelve months and this, with the importance of the subjects scheduled for discussion, has caused the convention to attract close attention in labor circles throughout the state. The sessions are expected to last several days.

ALBUQUERQUE, N. M., March 24.—Mrs. Charles McDonald is dead at her home in this city after a short illness with pneumonia.

The announcement of death is always sad, but the circumstances attending the death of Mrs. McDonald are such that the entire community is unusually stirred.

For while the wife lay dying at her home the husband, raving drunk, was being confined in a cell at the police station and became sober enough to be taken

home too late to see his wife alive. McDonald, a saloonkeeper first on the line of the Santa Fe Central, later on the Santa Fe short-cut, came here with his wife some time back. The woman became very ill of pneumonia several days ago, but not until neighbors had insisted was a doctor summoned. A nurse was then put in charge and every effort was made to save the woman's life. It was too late. Monday, the husband had been drinking heavily in the evening,

the police were about to arrest him. A friend told the marshal that his wife was very ill and obtained permission to take the man home. McDonald, in his drunken condition, worried the nurse telephoned such an extent that the nurse telephoned to the marshal. An officer was dispatched to the night. A little after 8 he was considered sufficiently sober to be allowed to go home, but the poor wife had passed away fifteen minutes before he arrived.

SWIFT OBJECT OF THE COURT'S ORDER (By Associated Press.) SPRINGFIELD, Mass., March 24.—Contempt of court proceedings have been instituted here today by Judge Wait, of the superior court, against E. C. Swift of Boston, a member of the firm of Swift & Co., provision dealers. Charges are brought by A. L. Green of Holyoke, counsel for Justice C. Perkins of Joplin, Mo., for failure to comply with the request in a subpoena issued by H. C. Bliss, auditor, requiring Swift to be present at a hearing on the morning of March 4, with the books and records of the Springfield Provision Company, of which he is treasurer. Swift did not put in an appearance until 3 o'clock in the afternoon and declined to produce the books. The defendant alleges that the service of the subpoena was unlawful, because sufficient money was not paid for traveling expenses. He also claims that the books are not in his possession and that the records are not material evidence. He is represented by Freedom Hutchinson, of Boston.

STRIKE ORDERED BY CHICAGO BOARD (By Associated Press.) CHICAGO, March 24.—A general strike of the building trades was ordered by the advisory board of the building trades last night, on all structures on which members of the International Association of Sheet Metal Workers are employed. This step was taken to support five hundred steel metal workers, who went on strike March 10 because the Sheet Metal Contractors Association had signed an agreement with another union.

Four hundred bricklayers and their helpers, employed in the erection of a new building in South Chicago, have gone on strike. The trouble came about when it was discovered that some of the men employed upon the structural iron work were not union men.

Experiments now conducted on the banks of the Nile show the quality of the cotton grown there to be the equal of any in the world. There are available 15,000,000 acres of irrigated land and only hands to work it are lacking.

H. AND T. C. INCREASE The Houston and Texas Central has announced that trainmen and conductors will be given an increase of 12 1/2 to 15 per cent beginning April 1. The passenger trainmen get the lower rate of increase.

MUST HAVE PASSES The house and senate of the Missouri legislature have adopted a resolution submitting an amendment to the state constitution of Missouri requiring all railroads in that state to give free transportation over their lines in Missouri to state officials and legislators during their official terms. The penalty for non-compliance is forfeiture of charters. The amendment will be submitted to popular vote next year.

Railroad Briefs and Personal. The interior of the city ticket office of the Denver road, is being beautified by the addition of new paper and paint.

W. D. Alexander is the gentleman who will succeed R. E. Buchanan as personal injury claim agent for the Gulf Colorado and Santa Fe railroad. Mr. Buchanan having been recently promoted to the position of live stock and freight claim agent for the above road. Mr. Alexander had not arrived in the city at noon today, and little is known of him here. The announcement that such a person has been appointed to fill the place is all that is known.

A. S. Dodge, traffic manager of the Frisco system of St. Louis, is in the city today on business.

FROSTS' DAMAGE AT BIG SPRINGS BIG SPRINGS, Tex., March 24.—Quite a severe frost Tuesday night and the night before, it is found, killed about all of the fruit in this section.

The grass is beginning to grow and we have the promise of early spring pasture. Up to this time the ranch men report very small losses of live stock in this section of country this winter.

Preparations are being made for quite a good deal of farming in this section where heretofore agriculture had been almost unknown.

(By Associated Press.) SAN DOMINGO, March 24.—The warships in the port have restored quiet and the minister of war, Ricard, has surrendered to the revolutionists. The postoffice and telegraph offices have been placed in the consulate for safety. The inhabitants of the surrounding villages are joining the revolutionists.

There was severe fighting at Lavaga yesterday and the result is not known.

Presides Over the Inquest

Police Justice Murphy, who is pictured here, is presiding at the inquest into the death of Edwin L. Burdick. The picture is a sketch made of Justice Murphy as he is listening to the testimony.

(By Associated Press.) BUFFALO, N. Y., March 24.—The inquest into the murder of Edwin Burdick was resumed in the police court before Justice Murphy at 10 o'clock this morning.

The widow of the dead man continued her testimony, which was begun yesterday. It is intimated her testimony will take up the entire day. Yesterday was devoted entirely to her relations with Pennell and probably the line today will lead closely regarding her affairs with her husband immediately preceding his tragic death.

When the doors were opened this morning a rush was made for seats, with women preponderating among the crowd. Yesterday when the hearing was commenced, with a package of letters in his

hands, some of which were written to Mrs. Burdick by Arthur R. Pennell, correspondent in the divorce proceedings instituted by Burdick and others of which were communications between Burdick and his wife, Mr. Consworth forced Mrs. Burdick to tell the story of her relations with Pennell from the time he first made love to her in New Haven, in 1898, until 1901, when these relations were renewed after Burdick had forgiven his wife and had taken her back to his home for the sake of their children.

Mrs. Burdick was deathly pale while on the witness stand. She answered questions in a low, faltering tone, evading a direct answer whenever possible, and reluctantly admitting facts when the district attorney read extracts of love letters written to her by Arthur Pennell.

FOUR MILES MORE OF GAS MAINS ORDERED "The demand for gas on the south side is urgent and we intend to supply it as fast as possible. Within the last year we have increased the capacity of our gas manufacturing plant to such an extent that we are now able to supply gas for a city of 200,000 population. Much of the new pipe will be used in extending the south side system. This town is growing faster than even Fort Worth people suppose. I have a better opportunity than most people of keeping informed on the

rate of growth and I tell you it is simply astounding the way this town is expanding.

"The pipe which we have ordered will be put down on the following streets: On Hemphill street south to Magnolia; Pennsylvania avenue from Wheeler to Jennings; Tervell from Fifth avenue to Eighth; Eighth avenue and Fruit south to Magnolia; Seventh and Taylor streets to Belknap; from Taylor on Belknap to Hampton, a distance of four miles."

TO CUT SCHEDULE The Pennsylvania railroad is to cut the running time between Washington and New York to exactly four hours. This new service, which means a saving of one and one-half hours each way between these two cities, or three hours on the round trip, is to be put into effect on the completion of the New York and Washington terminals.

MEXICAN CENTRAL ABSORBED Reports that the Rock Island has just completed negotiations for the purchase of the Mexican Central railroad are causing much discussion in railroad circles. It is stated that announcement will be made of the deal with a notification of the terms of the Frisco-Rock Island agreement. The Rock Island connects with the Mexican Central at El Paso, and by absorbing the Mexican Central it has a gulf outlet at Tampico and a Pacific outlet which it is stated brings the Orient several hundred miles nearer this country and in effect gives the United States another great transcontinental line.

F. M. Weaver, a local cowman, was in the yards today.

Judge J. H. Parrimore of Abilene had eighty-eight mixed cattle in today, accompanying his shipment to the yards.

C. L. Ware of the Southwestern Live Stock Commission Company, left last night for San Antonio on business.

H. L. McDonald of Kansas City, formerly stationed at Monette, Mo., on the Frisco, is now assistant to Dr. Kling, quarantine inspector.

M. M. Mosfield of Abilene of the firm of Mayfield & Hughes, accompanied his shipment of cattle to the yards.

STOCK YARDS NOTES

C. A. Lyford, a San Antonio commission man, was a visitor at the stock yards yesterday. Crop conditions between Fort Worth and San Antonio, he says, are excellent. "We have had as much rain as Fort Worth," said he. "I believe I have worn rubber boots since Nov. 5."

J. C. Butler, a local feeder, had three cars of steers on yesterday's market, which he sold for \$3.65. They averaged about 1,000 pounds.

Mayor J. D. Farmer of North Fort Worth, went to Childress last night to attend the Panhandle Cattlemen's convention, which met there today.

Top hogs yesterday were sold by Driggins & Sharp of Minco, I. T., who have a habit of getting record prices on the Fort Worth market. Their shipment consisted of forty-six Berkshire and Poland Chinas, which averaged 294 pounds and were bought by Swift at \$7.60.

San Angelo Standard: Billie Anson purchased from Charles E. Hick of Fort Worth 100 head of young pure-blood Durham cows for \$5,000. Mr. Anson has taken this herd of beef beauties to his ranch in Coleman county, with the intention of supplying, in a few years, this section with a class of short-horn bulls that are becoming very popular with the cowmen of West Texas. Mr. Anson is one of the most progressive cattlemen in Texas and the Standard hopes that his Durham investment will be profitable.

San Angelo Standard: The work of sheep-shearing is beginning to get under way in various portions of the San Angelo country, and it will be only a short time now until the long, heavily loaded wagon trains will begin to roll in with the staple. Our commission firms are preparing to handle a spring clip this year of from two and a quarter to two and a half million pounds. Prices are strong and things look pretty bright for the sheep grower.

Claude News: Uncle Jerry Cavanaugh was in from his ranch Wednesday. He reports very small losses from the cold weather, and says this will be more than offset by the benefit to his wheat crop.

Clarendon Stockman: Joe Horne returned Monday from a trip to the F ranch, in Floyd and Motley counties. He says the F cattle are looking pretty bad, but the manager estimates his loss at only about 12 per cent. Tony Day of this ranch had just returned from Canada, where he has 3,000 steers, and reports them doing well.

Misses Barry Yeager and Miss McCrea of Weatherford left last night for their home after a visit with friends and relatives in this city.

MARKET TIPS

CHICAGO—The hog price of yesterday was at the tip top of the season, \$7.85. Receipts were only 17,000, instead of the 30,000 estimated.

The figures were so small that the provision speculation seemed dumfounded, as it seemed just comprehension that last week's high prices should not start a movement to market. Early there was the popular expectation of a very strong provision market on the remarkable figures. But there happened what often does on the small receipts, somebody had pork for sale.

NEW ORLEANS—New York cleared 3,881 bales today. The total for the day will be over 57,000 bales against the receipts of about 18,000 bales last year. Port stocks will be reduced to about 530,000 bales against 725,445 last year.

The spot market is firm with sales of 3,000 bales already. Quotations advanced 1-16.

Prices in early cotton today were a shade higher for some months, and a shade lower for others. There was not much in way of business.

There was an absence of news bearing on the situation, and the fact that Liverpool was pursuing a conservative policy tended to keep the local operations on a limited scale.

There was no rain of importance today, and the government bulletin showed fair weather, and this fact was taken for attempting to

on cattle that are being imported through here, caused by an idea that the government was getting the worst of the deal of late.
He says that he appointed Mr. Black simply because he is an experienced cowman, to assist the regular inspector in praising, a Mr. Black is supposed to be an expert and large movements of cattle are expected to pass through here shortly.
"I do not believe that the government has been getting the worst of it," he said, "and I do not believe that Mr. Black's appointment will result in the raising of the valuation of cattle that are brought through here."

VERY INTERESTING CASES AT DENTON

DENTON, Tex., March 24.—The trial of Boss Jackson, charged as the principal in one of the most noted murder cases in the criminal annals of Denton county, is in progress in the district court here. The court began to make up a jury for the trial yesterday afternoon. The case will not be given to the jury before Thursday as there is a large array of witnesses to give evidence and several lawyers to orate.

THE HUGHES CASE.

The Jackson trial will be immediately followed by the trial in the same court of Nathan A. Hughes, charged with perjury. It will be remembered that Hughes was charged with murdering George Frampton and sinking his body in Milam creek in Denton county in 1898. He was arrested early after the body of the victim was found and immured in the walls of Denton's house of detention. He remained there until the grand jury met, which found an indictment against him for murder in the first degree. Then he remained in jail until he was tried and convicted on this indictment. He appealed from the verdict and it was reversed and remanded. He was then tried and convicted for murder in the second degree from which he also appealed, which was also reversed and remanded. He then got a change of venue to Cooke county and was arraigned at Gainesville for manslaughter to which he pleaded guilty and was sentenced to three years and a half in the penitentiary. He also appealed from this and it was reversed and remanded. At this juncture, about two months ago, he was released on bond, after being in jail nearly five years. In the meantime the grand jury returned a bill against him for perjury and it is for that he is to be tried this week.

A supper will be given by the ladies of Marine M. E. church, south, tonight. Seven children were baptized last Sunday at Marine No. 3. Dr. J. M. Massie is in Dallas today. T. Moore of North Fort Worth is on crutches as a result of an injury to his foot. The protracted meeting at Marine No. 3 has been discontinued. Julius Smith of Montague, Texas, is visiting George Bolcourt of Marine No. 3. Harry Keeton left last night on a trip to Oklahoma.

ANNUAL REUNION OF WAR VETERANS

Secretary A. J. Nave of the Mexican War Veterans' Association of Texas, has issued the following notice:
Mexican War Veterans of Texas: Our annual reunion takes place at Fort Worth on the 24 and 25 of June. Our Gracious Master has showered great kindness upon our dear old comrades since our last meeting. Only four have passed over the river into the land of eternal rest, where there shall be no parting, no more troubles, no more sorrow and no more infirmities of age.
The Confederate Veterans of Fort Worth will entertain us during the reunion without money and without price. I am in communication with the railroads and expect to get the lowest rates we old veterans have ever had to our reunion.

OFFICERS RETURN WITH ELSIE ISHAM

Sheriff Hones of this city and Sheriff Sandlin of Hood county arrived in the city last evening from Graham, Young county, having in custody Elsie Isham, wanted in both Tarrant and Hood counties on the charge of horse-stealing.
When arrested by the officers of Young county, Isham had in his possession a bunch of horses. He shot at the officers and attempted to escape by running.
Though but 28 years of age, Isham was once convicted in this county for horse-stealing and was sentenced to four years in the penitentiary, being pardoned before the expiration of his term.
He will be tried here before being taken to Hood county.

Test for Yourself the Wonderful Curative Properties of Swamp-Root

To Prove What Swamp-Root, the World-Famous Kidney, Liver and Bladder Remedy, Will do for YOU, Every Reader of The Telegram May Have a Sample Bottle Free.

GENTLEMEN—Some two years ago I was so run down that I lacked strength, had no appetite and could not sleep nights. Sometimes it seemed as though my back would break in two after stooping. I had to get up many times during the night to urinate and go often through the day. After having the best physicians prescribe for me without relief, I decided from my symptoms that the medicine I needed was Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. After trying a sample bottle with good results, I purchased six bottles of the regular size and after taking them was entirely cured. Swamp-Root is a wonderful remedy when a man is not feeling well, after exposure or loss of sleep and irregular meals. It is also a good medicine to tone up a man's system. Other members of the Police force are using and recommending Swamp-Root. They, like myself, cannot say too much in praise of this great remedy.
The Officers (whose signatures accompany this letter), as well as myself, thank you for the good you have accomplished in the compounding of Swamp-Root.
We remain, yours very truly,

To Dr. Kilmer & Co., William Moore Chief of Police, Binghamton, N. Y.
W. H. Fredenburg Roundsman, John W. Heath Patrolman, Officers of the Binghamton, N. Y., Police Department.

If you are sick or "feel badly," begin taking the famous new discovery, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.
Weak and unhealthy kidneys are responsible for more sickness and suffering than any other disease, therefore, when through neglect or other causes, kidney trouble is permitted to continue fatal results are sure to follow. Kidney trouble irritates the nerves, makes you dizzy, restless, sleepless and irritable. Makes you pass water often through the day and obliges you to get up many times during the night. Unhealthy kidneys cause rheumatism, gravel, catarrh of the bladder, pain or dull ache in the back, joints and muscles; makes your head ache and back ache, causes indigestion, stomach and liver trouble; you get a sallow, yellow complexion, makes you feel as though you had heart trouble; you may have plenty of ambition, but no strength; get weak and waste away.
Swamp-Root is pleasant to take and is used in the leading hospitals, recommended by physicians in their private practice, and is taken by doctors themselves, because they recognize in it the greatest and most successful remedy that science has ever been able to compound.

EDITORIAL NOTE—Swamp-Root, the great kidney, liver and bladder remedy, is so remarkably successful that a special arrangement has been made by which all of our readers who have not already tried it may have sample bottles sent absolutely free by mail. Also a book telling all about kidney and bladder troubles and containing many of the thousands upon thousands of testimonial letters received from men and women cured by Swamp-Root. In writing, be sure and mention that you read this generous offer in The Fort Worth Daily Telegram, when sending your address to Dr. Kilmer & Co., Binghamton, N. Y.

If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar size bottles at the drug stores everywhere. Don't make any mistake, but remember the name, Swamp-Root—Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

HARD FIGHT FOR A TINY GIRL TOT

DALLAS MAN HELD HERE ON KIDNAPING CHARGE

Six-Months-Old Lucile Jackson the Innocent Cause of Lively Proceedings—She Has Changed Hands Several Times

Justice Rowland's court was crowded with witnesses this morning when the preliminary hearing of the case of Will Heimle and Mrs. Maggie Heimle, charged with kidnaping was begun.
Mr. and Mrs. Heimle reside in Dallas at 225 South Akard street. On last Saturday they were before Judge Muse, in that city, on the charge of abduction, the child in the two cases being the same, a tiny six-months-old girl, Lucile Jackson by name. They were held by Judge Muse in the sum of \$250 each, which they furnished to appear in court here.
Justice Rowland, after hearing the testimony of Rev. I. Z. T. Morris and a number of others, released Mrs. Heimle, but held the man to the grand jury in the sum of \$300, which was promptly furnished.
Rev. Mr. Morris testified that in order to obtain possession of the child, which previously and without the knowledge of Mr. Morris, had been taken from him by the Rescue Home of Dallas, Heimle came to Fort Worth and represented that his name was Peck. The history of the case is more than usually interesting.
About two months ago Mr. and Mrs. Heimle obtained the child from the Rescue Home at Dallas for the purpose of caring for it and giving it a home. Last Wednesday afternoon the Rescue Home got the child back again from Mr. and Mrs. Heimle through habeas corpus proceedings in Judge Lauderdale's court.

SEVERE ATTACK OF GRIP

Cured by One Bottle of Chamberlain's Cough Remedy

"When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, editor of the Enterprise, Shortsville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. I had no idea that it would or could knock out the grip, simply because I had never tried it for such a purpose, but it did, and if seemed with the second attack of coughing the remedy caused it to not only be of less duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bid me adieu." For sale by all druggists.

STREETS TO BLAZE WITH ELECTRICITY

GREATER FORT WORTH HOME WEEK MOVEMENT

Chairman Frazeur and Captain Paddock Announce the Appointment of Many Sub-Committees—Elaborate Preparations Under Way

The "Greater Fort Worth Home Week" movement is rapidly assuming big proportions. The Northern Texas Traction Company has agreed upon an elaborate scheme of illumination to continue during the entire week. The downtown section will be literally ablaze with incandescent lights during the evenings. These lights will be strung across Main street from the Texas and Pacific station to the courthouse and across Houston street from Tenth to Belknap.
Within a day or two a large banner setting forth the fact that headquarters have been established in the Board of Trade rooms will be hung to the breezes in front of the Hoxie building; it will be stretched across Main street at that point. The canvas and the painting work have been donated.
Guy L. Carter will assist Captain Paddock in the secretaryship of the movement.
Messrs. Bicknell and Bullock went among the merchants on Main street yesterday afternoon and found that all were willing to permit the cross streets adjoining their places of business to be used by the streets shows. Agreements of this character have been entered into by the merchants from Second down to Tenth street.
Chairman J. L. Frazeur and B. B. Paddock this morning appointed the following sub-committees:
Transportation—J. H. Craig, John King and C. W. Barney.
Decoration—W. P. Lane, B. H. Dunn and C. D. Reimers.
Invitation—B. B. Paddock, Dr. J. L. Ray and A. J. Sanderzard.

FAT STOCK SHOW DOES GOOD WORK

Chairman Frazeur and Captain Paddock Announce the Appointment of Many Sub-Committees—Elaborate Preparations Under Way

B. F. Cummings went to the fat stock show at Fort Worth and spent two days and the result is that he returned home with a most violent case of "fine stock fever." "No more scrub stock for me," says Mr. Cummings. "I am done with them, and as soon as I can get mine fat my scrub cows and scrub horses go, and when I say go I mean it. They go at some price, shore you're born." Speaking to a Chronicle reporter, he said: "If I had known twenty years ago, or even fifteen years ago what it took me only two days to learn at the fat stock show at Fort Worth today I could be wearing diamonds. Yes, sir; wearing diamonds." Mr. Cummings has a genuine case of enthusiasm in the raising of blooded stock. "Yes," continued Mr. Cummings, "when I saw those breeders of fine stock taking in the rolls of greenbacks I thought about the conditions of my farm, where they were there hauling out hay and sorghum by the wagon load to feed my scrubs, when some of those fellows at the fat stock show were getting more money for a calf or yearling than my whole herd is worth." Mr. Cummings before leaving Fort Worth bought a fine registered cow and a fine hog. He has made a commencement and is now on the right track to wear diamonds later on.—Cleburne Chronicle.

THE ANTI-POOL ROOM BILL. It was evident at the outset that such a measure as the Hancock anti-pool room bill would excite a spirited controversy. How it ever got to the point of passage without exciting more than slight comment is a matter of wonder, yet this has occurred, and now the announcement of the bill's passing brings forth the storm of protest that might have been expected weeks ago. There is no doubt that the bill is in sincerity aimed at the evils of pool rooms and betting on races, yet so seemingly simple a statement has two interpretations, and out of these grow the controversy. Opponents of the law claim it will kill racing at the state fairs, will destroy the love of fine race horse breeding and racing, will take away the reward that comes to the men of the state who are willing to spend thousands of dollars in order to produce a few really fine horses and while doing so generally improve the average of the entire number of the horses in the state. Supporters of the bill while admitting there may be a tendency to take away the zest of racing, claim that the end, i. e., the production of fine horses, does not justify the means employed, more especially the means known as pool rooms, where the average clerk who cannot afford a trip to the leading race courses to see the animals run, may still share in the excitement of the race and keep an active interest in the sport. Yet the fact that there are pool room evils, grave and dangerous evils, perhaps even their most ardent supporters will admit. And there the question stands. This much is true, Texas needs more fine horses of all kinds. Not merely race horses, but draught horses, drivers, farm horses, and all the many kinds common in countries where the horse is most generally used. The state owes it to itself to increase and foster the interest in producing a grade of horses better than the mustang or the broncho. Texas has climate and every other requisite for producing as fine horses as any state in the union. There is an unmined wealth in the raising of horses that has as yet been merely worked on the surface. According to the latest census the value of the 1,291,458 horses in Texas is but \$38,901,293, while the value of the 1,077,188 horses in Illinois is \$84,583,390 and the value of the 1,144,570 horses in Iowa is \$79,760,061. This means that the average value of a horse in Texas is but a trifle over \$38, while in Illinois the average value is over \$78, and in Iowa a little less than \$70. It is true that racing, betting, and even pool rooms have aided in producing excellent race horses in Texas and the number is increasing. Race horses will not materially increase the total valuation of horses in the state but they will help. Having removed the pool room and its evils, the proposition confronts the lawmakers in whatever way they may deem best, to so foster the interest in the legitimate breeding of valuable horses of all kinds, that critics on either side may have no opportunity for argument and the general result will be for the increase in the assets of the state.

nationalism, attacking the bravery of a man like General Fred Funston at so late a stage in the game, is amusing. It is like the small boy, who out of pure impishness, a half hour after the match is over, shies a mudball at the college center rush who has made a touchdown and won the applause of the crowd. After five years imprisonment, Mrs. Florence Maybrick is to be released in 1904. At Shreveport the other day Mrs. Bullock, arrested on a similar charge, was released within less than three days after her incarceration. And yet there are people who would think that legal red tape of England is more to be preferred than the democratic spirit of justice that rules in America.

Beverly, Massachusetts, with a population of 13,884 (about one-third that of Fort Worth), has a library containing 22,999 volumes and pays annually \$3,350 for its support. Fort Worth has a library containing 10,000 volumes and pays \$4,000 for its support. The bulk of the \$4,000 is required to maintain the building and employ sufficient assistants to accommodate the public. But how about the books? City Engineer Hawley makes a good suggestion. April is the time for planting trees and shrubbery. A few hundred dollars in trees will make Fort Worth a prettier city. With more trees will come more birds, and in the end the city will be made a delightful place in which to live.

THE RED RAVEN BALLOON. A large balloon advertising Red Raven Splits in a down town pharmacy has attracted considerable attention during the past week, and the proprietor on being interrogated by one of his best customers as to what the article was, said: "Red Raven is an aperient water put up in dainty half pint bottles called splits, one of which is a dose. I always keep a liberal supply of Red Raven Splits on hand because my customers tell me that as a laxative and alterative it is unequalled by any other aperient water on the market. They use it, as a rule, before breakfast and find it gentle, mild and sure. I never attempt to substitute for Red Raven Splits, because I know that my trade having used it, well satisfied, will be sure to return for more. The advantage of Red Raven Splits over foreign bitter waters is not entirely in its merit as a laxative, but because it is sparkling, pleasant tasting and as entirely agreeable as any high class table water. The price being fifteen cents makes it an ideal article for all classes of my trade."

Daily Short Story

A SUMMERS ENTANGLEMENT BY ANGILO MORGAN

From commonplace nothings they very soon touched upon closer things and then Lydia, out of a full heart and a longing to confide in some one who would understand, tentatively broached the subject that lay nearest her heart. She spoke generally, of course, watching her companion's face for encouragement. Almost at her first words a glow of sympathy lit the fine blue eyes opposite. "She understands!" triumphed Lydia inwardly. "She knows—she has been thwarted in love—she has suffered—is suffering now. I knew it!" "Yes," repeated the girl, with an expressive little smile, "it is strange how

As the train pulled out of Harbor Springs Lydia leaned back against the cushioned seat and wearily watched the porter busying himself with her luggage. She seemed to be seeing him and her fellow passengers through a mist of heavy indifference. Indeed, the sense of apathy which enveloped her was so oppressive as to be almost a tangible weight. Would she ever again feel a bright, normal interest in people and things? Would she ever again be able to take up the affairs of life with wholesome enjoyment? She asked herself these questions dully and the answer came with a certainty. Fate does seem to play with our hearts, forcing us one day into believing that we really care for some one, and then proving to us when too late that the first attraction was as mere foam compared to the ocean-depth of the last and only love of our lives. Lydia's wide eyes flashed the question her lips hesitated to utter. The girl smiled. "I see you know my secret," she said. Then, leaning forward impulsively, "you won't misjudge me if I tell you about it? Listen! I must tell some one—oh, it has tortured me so! You seem to understand—I know you do. We shall never see each other again. Why should I not tell you?" "Do!" cried Lydia. "I feel entitled to the confidence, somehow—and I-I can sympathize." Her companion was silent a moment, then began: "This summer when I left Chicago for the Michigan farm where I had arranged to spend my vacation I was engaged to be married. I had no thought of ever allowing my mind to be diverted by another. I tell you truly that I was completely taken by surprise when the other man appeared upon the horizon. I wasn't even dreaming of it—wasn't thinking of it as the remotest possibility. Well, we loved each other from the moment we met. There was something preordained about it—something inexplicable. But, oh! the sorrow of it! Not only did my own engagement to another prevent our happiness, but he also was bound to someone else. I—" "You can't mean it!" burst forth Lydia. "Why, that is my story, too! Isn't it wonderful that we should both have had the same experience?" The way was opened now for still further confidence. "It was my regard for the other girl's feelings that kept me from accepting this man's love," said Lydia's companion, "although, of course, I felt an awful compunction to think of breaking my engagement to the first man. Poor boy!" Her fingers reached for the lockets at her breast. "You have his picture?" said Lydia pressing open her own lockets. It contained a likeness of Clarence—poor Clarence! Both girls bent forward simultaneously. Then there was a gasp from one and a little smothered scream from the other. "Robert!" cried Lydia. "Clarence!" exclaimed the other girl. They both sat upright and faced each other, stunned, almost incredulous. Their realization rushed upon them. The effect upon each was the same. Amazement, unbelief and finally resentment swept both alike. "Robert Howland, then, is the man you referred to—the man you met at Harbor Springs?" questioned the other girl, with sudden dignity. "Clarence Shaefer is the man you meant—the other man who appeared upon your horizon." Lydia coolly interrogated. Then, with a burst of indignation, "I can't believe it of him! It isn't like him at all—" "Nor is it like Robert! And to think of you letting him make love to you when you were already—" "Didn't you let Clarence? And YOU were already—" "It's quite different." "I fail to see the difference." "I shall ask Robert when he comes

home to explain it all. I know he can do so." "And I am sure Clarence can do the same." Fortunately the journey was nearly at an end, else the painful silence and distance that separated these two might have become unendurable. At Chicago they parted with cool nods and stiff smiles. And the men? Upon the return to town each found himself confronted with very blunt questions propounded by an indignant fiancée. Explanations? They were easy. "Merely the fancy of an idle summer," Robert assured his sweetheart, after he had expressed due contrition for his folly. Clarence Shaefer convinced Lydia that it was "the most insignificant affair—really not serious enough to be called a flirtation." So there were no broken engagements, after all. Strangely enough, each girl had forgotten her preordained affinity for the "other man."

AMONG EXCHANGES

The orchardists and truck farmers around Denison are always better off than the cotton raiser. There is a great home demand for much that they raise, and the cotton grower has practically no demand for his cotton crop for home consumption. —Denison Herald. After exposing the condition of the city finances through numerous columns of the daily papers, in a controversy between the former and the present mayors of the city, Fort Worth has at last paid interest on outstanding bonds. DALLAS HAPPENINGS. Oliver Thomas, alderman-at-large for district C, Dallas, died at his home yesterday, aged 48. He had lived in Dallas since 1868 and was a prominent insurance agent and real estate dealer. Dallas is again in need of money and a special effort may be made at a called session of the legislature, if one be held, to be permitted to raise the cash by floating additional bonds. Dallas has a new street sweeper with bright yellow brushes. It is claimed to work satisfactorily on asphalt streets with holes in them.

Caught in the Street. The hand of destiny and the way it operates is often as mysterious as is that of the skilled magician. Fort Worth has two splendid examples of the theory. One is a physician and the other a capitalist. The destined feature were scenes at Beaumont. The first and most striking example was a case where a man was offered ten acres of land for \$500. He made all arrangements to buy, had the money in the bank to pay for it, and changed his mind at the last moment only at the instigation of his wife. Two weeks after he refused to avail himself of the opportunity, the property sold for \$70 per acre, and in a few days later a number of the richest oil wells which made Beaumont famous were located on the ten-acre tract and the value of the property was "boosted" to the millions. The other case was one in which the discovery of oil played the important part of the incident. The owner of a four-acre tract on which an oil well had been located was offered \$2,000 for his land. He refused it, but a day or two later sold the property for \$4,000. It was worth four millions. The former owner saw his mistake, but although a tradesman and a hard working man, he was destined to become wealthy, and so successfully did he invest his four thousand dollars, that today he is said to be worth in the neighborhood of \$50,000.

Money is saved in Shoes either by getting higher class Shoes at the same price or the same class Shoes at a less price. The constant aim of this store is to meet you fully at both points. Some of our Shoes are such high class productions that you'll not find them in many stores. None of our Shoes are low class enough to be shown in any stores but the very respectable, at least. In fact, we wouldn't buy Shoes fit only for a second-rate store. Our patrons are first-class, and second-class Shoes are not good enough. Still our prices are popular. The \$2.00, \$2.50 and \$3.00 Oxfords for Ladies' Spring Wear have a powerful high class look and wear about them.

Good Stories Well Told

TOO MUCH FOR PATRICK. The other day a little, red-faced Irishman approached a postoffice which had three letter boxes outside. One was labeled "City," another "Domestic" and the third "Foreign." He looked at the three in turn and then, as a puzzled expression crossed his face, scratched his head. "Faith," he was heard to mutter, "I don't know in which way to put 'er letter. Sure, Katie's a domestick, an' she lives in th' city, all right, an' she's a furnitur, too; but, begobos, damfino how th' dommed thing can go in both of th' three holes at wance!" —Columbia Jester.

NO ESCAPE FOR HIM. "How come Br'er Williams is takin' 'n de collection an' puttin' de money in his pocket?" said Brother Dickey, in an agitated whisper. "He say," replied a deacon, "de hat what he had got a hole in it." And then did Brother Dickey rise, and lifting his hand as a sign for the singing to cease, cried with a loud voice: "Deys a col' win' comin' up de aisle throo de front do.' Will some brother please look dat do' en stan' wid his back again' it ontel Br'er Williams gits tho' takin' up de collection?" —Atlanta Constitution.

HIS QUALIFICATIONS. There was an examination at the weather bureau the other day for candidates for the position of assistant weather observer. These are some of the answers: "The dewpoint is a needle point of steel and is determined by the rise and fall of the barometer." "A thunderstorm is the burning up of the carbonaceous matter and surplus of nitrogen of the air." "The dewpoint is a needle point of steel is a good place for bears and other animals covered with wool, but on account of numerous icebergs it is not a good place for navigation, for the abode of man or for vegetation." The following is an extract from a competitor's letter: "This here letter-writing is the worst thing you could give me. In the first place, my writ is lame, so I can't write, and in the second place, I'm like the sailor's parrot—a hell of a thinker, but a poor talker." —New York World.

NEW NEWSPAPER FOR FORT WORTH

Prominent members of the Board of Trade this afternoon, at a public meeting of that organization, are endeavoring to raise \$25,000 in subscriptions for stock in a new morning newspaper for Fort Worth. Fifty thousand dollars outside capital already has been subscribed. The plans culminated in the meeting this afternoon have been under consideration for several months. Yesterday afternoon at a meeting held in the directors' room of a Fort Worth bank, in which seven or eight leading citizens participated, it was decided to call an open meeting of the Board of Trade, at which subscriptions for stock would be asked. That meeting is in progress this afternoon.

THE CIRCULAR

This morning E. B. Paddock, secretary of the Board of Trade, engaged the services of several messenger boys and caused a circular, of which the following is a copy, to be placed in the hands of a large number of well-to-do Fort Worth men: "FORT WORTH, Texas, March 24.—Dear Sir: One of the most important meetings held in the city for many years will be held in the Board of Trade rooms at 4 o'clock this afternoon. A matter of great interest to the city will be presented for consideration. Your presence is earnestly requested. "J. W. SPENCER, President. "E. B. PADDOCK, Secretary."

BRAND-NEW PAPER

It is to be a brand-new paper, according to the announcement made this morning by one who is taking a large interest in it. It is not to be identified with any other paper now in the northern Texas field. In view of this statement, considerable interest is being displayed in the question of what telegraphic press service is contemplated by the promoters of the new paper. The afternoon Associated Press franchise is held by The Telegram and the morning Associated Press franchise for this city is not available, nor is the Publishers' Press service to be obtained by it. These are the two biggest services in the United States, although the Publishers' Press, of course, is not as large as is that of the Associated Press.

Captain Paddock, in discussing the proposed new enterprise, said: "You may say that the plans for the launching of a new morning newspaper in Fort Worth were first broached several months ago. Clarence Owsley of the Houston Post has made several trips to this city in the interest of the project; he is in the city today and will be present at the meeting this afternoon."

THROUGH HIS EFFORTS

Largely through his efforts \$50,000 of outside capital has been subscribed with the stipulation that the business men of this city take \$25,000 of stock. The meeting is so close at hand that it would be useless for me to advance an opinion as to whether the required sum will be raised at the meeting. Those who have attended the several meetings which have been held feel that a new morning newspaper here will prove of great benefit to the city in the way of advertising, it is abroad. They also believe that it will prove a money maker."

KIRBY INTERESTED

It is practically certain that John H. Kirby, the multimillionaire of southern Texas, is advancing some of the outside money. He has in the last year or so been turning his attention to the newspaper field in the southern portion of the state, and his holdings of stock in Houston and Austin are reported to be large. It is an evidence of his confidence in Fort Worth that he has chosen this city to be the scene of his operations in the northern portion of the state. He sold vast quantities of lumber to the packing-houses here and the confidence shown by the companies of Armour and Swift in this city's future undoubtedly went far toward convincing him that Fort Worth is to be the leading city of the southwest at no remote date.

OWSLEY TALKS

Mr. Owsley was seen at the Worth today. He said: "It is an injustice to Mr. Kirby to intimate that he is trying to gain control of a string of Texas papers. He is not interested in Houston beyond having advanced money to a friend; his interest in Austin fell into his hands while he was reorganizing the First National Bank there. A paper in Austin owed the bank \$25,000 and Mr. Kirby is simply trying to make that debt a good one. "I am simply here at the invitation of Fort Worth men to look into the newspaper situation. If I find that it is good and that they would welcome another morning newspaper I shall recommend to my friends that they put money into the enterprise and they will do so. I do not know that the capital will be \$75,000; it may be \$150,000. As to telegraph service? Well, there are plenty of telegraph wires."

Andrew Carnegie has signified his willingness to contribute \$15,000 toward a library for Tyler. The city must agree to furnish \$1,500 a year for its support. The Greenville Telephone Company has been transferred to the Home Telephone Company, the new company having recently been organized and capitalized at \$100,000. The local exchange will be improved and long distance connections secured. Laborers have commenced grading on the Trinity and Brazos Valley railroad near Mexia.

CHILDREN'S COUGHS AND COLDS

Mrs. Joe McGrath, 327, East First street, Hutchinson, Kan., writes: "I have given Ballard's Horehound Syrup to my children for coughs and colds for the past four years, and find it the best medicine I ever used." Unlike many cough syrups, it contains no opium, but will soothe and heal any disease of the throat or lungs quicker than any other remedy. 25c, 50c and \$1 at H. G. Pangburn & Co.'s.

Weather Conditions

The most noticeable feature of the weather conditions this morning is a severe upper lake region, resulting in high gales with sleet and snow.

Clear weather prevails throughout the Rocky mountain, central west and the northern states, except the coast region, where the weather is cloudy with threatening rain conditions. The temperature continues moderately cold, the freezing line bends down into the northern portion of Texas, but the zero line has disappeared from the northwest section. Fair and warmer weather will prevail in Fort Worth vicinity till Wednesday night; cloudiness will be on the increase Wednesday, however.

SAYS LEGISLATURE WILL STRIKE IT OUT

HOLDS MAYOR SHOULD NOT BE CITY JUDGE

"Office Not Compatible With Dignity of the Mayority—A Step of Retrogression When the City Is Moving Forward," Says Former Alderman Stewart

W. F. Stewart, formerly alderman for the Fourth ward, now proprietor of the Steaks Yards Inn, this morning gave some interesting views on the recent action of the council in recommending in one of its charter amendments that the office of city judge be merged with that of the mayor.

The object of the movement is to increase the salary of the mayor," he said. "It was felt by some members of the council that Fort Worth is getting to be too important and big to pay its mayor \$2,000 as a yearly salary; they thought he should be paid at least \$2,500. The present is an economical administration, however, and so instead of increasing the salary outright the council devised the plan of increasing the mayor's salary and at the same time saving money for the city; therefore they cut one man out of a job altogether in order to increase the salary of another.

"Now, my father is the present city judge, but there are at least two men in the field against him for re-election and in my mind he stands less chance of pulling down the plum than either of them; in fact it looks almost certain that one or the other of his opponents will be chosen, in case the office should remain in existence, so I don't believe my remarks can be considered wholly prejudiced.

PENNY WISE PLAN

"My idea is that the council is proceeding on a penny wise plan that will not meet with the favor of the legislature; I believe that the legislature will strike out the proposed amendment which merges the two offices of mayor and city judge. There are 3,000 cases a year tried in the corporation court; the city judge is not compatible with the dignity of the office of mayor in a city as big as Fort Worth. Show me a city in Texas with over 20,000 where the two offices are not maintained separately and I will be willing to quit. This proposed step is one of retrogression; Fort Worth is not going back; Fort Worth is coming.

"I think the mayor of this city should receive \$3,000 a year and he should receive that sum for his services as mayor, not for holding two jobs. He receives \$2,500 at present. The necessary expenses of any man who is mayor of a city as heavy as Fort Worth is \$500 a year, in carriage hire when entertaining visitors, in giving to various charities of which all men in public life are more or less the victims, election expenses and so forth. This sum deducted leaves the mayor with about \$1,500 on which to maintain his family. I think any man who is brilliant enough and honorable enough to be elected to the highest office within the gift of the people of Fort Worth is entitled to receive not less than \$3,000 salary. And I believe that the people of Fort Worth would heartily approve the action of the council should it voluntarily increase the salary of the mayor to that figure, and not saddle upon him in so doing the duties of the city judge."

AMUSEMENTS

ONLY PARTLY TRUE

Popular Ideas Regarding Catarrh

It is the common belief that what is popularly known as catarrh is simply a chronic cold in the head. This is true as far as it goes, but as a matter of fact catarrh is by no means confined to the nasal passages, but extends wherever the mucous membrane extends, which means nearly every part of the body. The mucous membrane is the inside-skin of the body, and is nearly as extensive as the outside skin, and any inflammation of this membrane, causing an extra secretion of fluid is really catarrh. Catarrh is, therefore, an old enemy disguised by many confusing names, for instance, rhinitis is nasal catarrh; laryngitis and pharyngitis throat catarrh; gastritis stomach catarrh; cystitis and nephritis, catarrh of the bladder and kidneys.

"FRA DIAVOLO"

"Fra Diavolo" at Greenwall's last night was better than anything the Olympia opera company has yet presented. The opera is not popular, especially for those who admire the comic sort, but it has enough of music to atone. The familiar melodies were for the most part well given last night. Edward Seaman sang Fra Diavolo, Carriek Major Lorenzo, Miss Lottie Kendall Zerlina, and Edward Eagleton Beppo. The presentation brought out two agreeable facts. One was that Carriek Major can sing so that it is a pleasure to listen to him and the other that Edward Eagleton can act well enough to make it worth while watching him. Miss Kendall appeared to a better advantage last night than she has at any time since the opening of the engagement.

"LOST RIVER"

"Lost River" with a cast of thirty-three people and all the effects and scenery which aided in its long run of six months in New York, is one of the coming attractions at Greenwall's opera-house Thursday matinee and night, March 26. Despite its massive character and the difficulties of transportation, "Lost River" is generally conceded to be one of the most successful plays of the current season.

"ARE YOU A MASON?"

It is guaranteed that no comedy to be seen at Greenwall's opera-house this season will create more laughter than "Are You a Mason?" which comes here Friday night, March 27, and all the fun is based on a very simple idea. Two men, Amos Bloodgood and Frank Perry, his son-in-law, make their wives believe they are Freemasons and obliged to frequently attend lodge, that they may spend their evenings in carousals. Rich & Harris' comedians present the farce, which has been enormously successful, and John C. Rice and Thomas A. Wise, the stars of the organization, appear as the son-in-law and father-in-law.

DANGER OF COLDS AND GRIP

The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by all druggists.

RACING SEASON BEGINS IN ENGLAND

LONDON, March 24.—Today the English flat racing season commences in Lincoln. The piece de resistance of the meeting is the mile handicap, worth \$10,000, which has for nearly a century been the first important race of the year. After Jan. 1, when the entries are made, the Lincoln is always a popular medium of speculation, and all the twenty or more starters who are expected to show up tomorrow have been heavily backed. Through the soil of the Carlholme, as the moor on which the race track is situated is called, is a sandy loam, the going at this season of the year is generally holding, so lightly weighted old horses are usually to the fore in the race. This is not always the case, however, for though the course, which is perfectly straight and almost level, is said to be seventeen yards over a mile, Bendigo won in 1885 in the phenomenal time of 1:38, although he carried 117 pounds.

The famousilly Sceptre, for whom her owner, R. S. Selvier, paid the record price of \$50,000 as a yearling, and who won four out of five of the classic events on the English turf last year, has been allotted top weight this year, 127 pounds. The American horse Conroy II, owned by J. R. and F. P. Keene, and who won the Brooklyn Handicap of 1901, as a 3-year-old, being the only racer of that age to accomplish the feat, has been assigned 114 pounds. Cap and Belle, owned by Foxhall Keene, has forfeited for this event. William K. Vanderbilt's French-bred colt Bright, a 4-year-old, is in at 109 pounds. Watershed, the American horse, who won the Cambridgeshire of 1901 for W. C. Whitney, but who is now owned by Lord Howard de Walden, has been assigned 106 pounds.

The Lincoln meeting lasts only three days, after which racing is transferred to Liverpool to finish up the week. There the spring cup is a feature, but it is entirely overshadowed by the Grand National, which, with the exception of the Derby, attracts the biggest crowd of any race in the world. The distance is four and one-half miles, and the number of obstacles to be crossed thirty-two.

The Derby will be run on May 27, and the Oaks, for once in a way, on Oak-Apple day. Ascot, which promises to be a grand meeting this year, will be held on June 16 and the three following days. As royalty intend patronizing Goodwood, the Sussex fixture is expected to prove a big draw. It opens July 28. The St. Leger, another big race of the year, will be run early in September.

Deadly

Grasp of Grip Prostrated Me.
Dr. Miles' Nervine Built Up My Shattered Nerves and Gave Me an Appetite.

Of the millions of people, who today suffer from nervous or heart weakness, a large percentage trace the cause directly to deadly LaGrippe. It is a germ disease, and makes a direct attack upon the nerves, putting an extra strain upon them at the time their vitality is at the lowest ebb. If LaGrippe has left you with a shattered nervous system, with loss of appetite, lack of energy, insomnia, frequent headaches and morbid tendencies, you should strengthen the weakened nerves with Dr. Miles' Nervine. It will undo all that grip has done, bring back appetite, rest and restore the nerves to their normal activity.

"I want to write this testimonial for the benefit of those who have suffered from that dreaded disease—LaGrippe. I suffered several weeks with it, and nothing I tried seemed to benefit me in any way, shape or form. I suffered almost death, and finally my daughter recommended Dr. Miles' Nervine to me and I can truthfully say from the first day I felt better than in weeks. It gave me relief, built up my shattered nerves and gave me a splendid appetite. I cannot speak too highly of it and want to say, each and every one who has suffered from LaGrippe will find instant relief by getting a bottle of Dr. Miles' Nervine. Insist on having it and take no other. It is simply splendid. Hoping this will benefit some poor sufferer I remain,"

TURNIP KRAUT THE NEWEST DISH

Something new, perhaps, not only in this neighborhood, but in other sections of the country as well, is turnip kraut. The most of us are somewhat fond of the old appetizing sauerkraut (cabbage), but this is the first year in the knowledge of the writer that turnip kraut has been put on the market. Perhaps, but few know that turnips, grated in the same manner as cabbage, with the aid of vinegar and salt, make a far superior kraut. John Selin, who is recognized as one of the leading truck farmers of this section, has put up three ten-gallon kegs and has sold the product at private residences for 5 cents per pound. He has experienced no trouble in finding buyers, as the superior quality of the kraut is at once recognized. The difference between the price of raw turnips and the krauted article is about 50 per cent in favor of the latter. So much, again, for diversification.—LaGrange Journal.

INDUSTRIAL GROWTH OF LONE STAR STATE

The progress in Texas industrial development for the week just closed, as reported by the Tradesman of Chattanooga, Tenn., includes the following new organizations as among the most important:

Tyler—Fertilizer factory.
Houston—\$20,000 lumber company; \$750,000 sugar mill.
McKinney—\$10,000 cotton mill.
Galveston—\$16,000 oil company.
Brownwood—\$30,000 mill and elevator company.
Timpson—\$15,000 compress and storage company.
Dipoll—Lumber company.

F. E. Dublin of Jacksboro was a visitor at the yards yesterday. He had two cars of cattle on the market. "Crops have been badly delayed by the rain," said Mr. Dublin and even the green bug hasn't had a chance to do any work because it has been so wet. The prospect is beginning to look serious."

A REMARKABLE CASE

One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Penner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I run down in weight from 148 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength."

MRS. ALTA WOODS IS MARRIED AGAIN

LAWTON, Ok., March 24.—Mrs. Alta M. Woods, widow of the late J. R. Woods, who drew claim No. 1 in the opening, and who is now the owner of the unsold lots in the Woods addition to the city of Lawton, was married at her former home in Lincoln Neb., to Oliver Powers of San Francisco, Cal. J. R. Woods died soon after taking possession of his valuable claim. Mrs. Woods stayed on the claim until she received a deed and began the sale of lots. She will possibly realize \$30,000 or \$40,000 out of the proceeds of the lot sales and right of way purchased by the Frisco. The newly wedded couple will make Lawton their future home, having arrived in the city Monday.

PASSENGER TRAIN IS BADLY WRECKED

ATLANTA, Ga., March 24.—The north-bound passenger train on the Southern Railway for Washington, which left this city last night, was wrecked at Ayresville, Ga., near Toccoa, eighty miles north of this city, early yesterday by a landslide of rock. Two persons were killed, and the engineer of the train was severely bruised and scalped.

The dead: Unknown tramp; Frederick Thompson, fireman.
Injured: Edward Miller, engineer.

The accident occurred a few miles north of Ayresville. The train was approaching deep cut, when without any warning, a large slide of rock fell across the track.

SECRETARY WILSON COMING TO TEXAS

WASHINGTON, March 24.—Secretary of Agriculture Wilson will leave Washington some time next week on an extensive journey through the south and southwest. He will probably spend a week in Texas early in April, but just what his dates there will be cannot be stated definitely now.

BRIEF TEXAS NEWS

Chesley W. Jurney has been appointed secretary to Senator Culberson and after visiting his parents at Waco, will join the senator and assume his new work.

Efforts at amicable settlement between the Textile and Garment Workers' Union and the proprietors of the Waco woolen mills having failed, a strike has been ordered.

A SPLENDID ATTRACTION

Backman's Glass Flowers opened their grand exhibition last evening at 202 Main street. The room was crowded with enthusiastic visitors, many ladies and children being present.

This certainly is the best and most instructive exhibition ever seen in Fort Worth. Six artists are employed in the manufacture of beautiful ornaments, out of common rods and tubes of glass, which are given to the visitors.

The glass steam engine, glass spinning and weaving, and the glass dresses are among the features. A present is given to each visitor, and the admission is but 10 cents. Doors open afternoons from 2 until 5, and evenings from 7 to 9:30.

Sweden exported 20,000 tons of butter to England last year and ate 12,000 tons of margarine at home.

FROST DID NOT LAST LONG ENOUGH TO HURT

"The thermometer registered about 40 nearly all night and then, just before sun-up, dropped in less than an hour to almost 32. It remained at that figure for only a few minutes, barely long enough to make a frost, and then the mercury, aided by the warming rays of the sun, began to ascend, and the danger to fruits and vegetables was over."

That is the way Forecaster Reeder explained that the frost of this morning was harmless so far as possible damage to growing crops is concerned. The frost did not last long enough to inflict injury, Mr. Reeder went on.

"There is really nothing to be hurt by frost at this time. If we should have a heavy frost during the first ten days of April the damage would be considerable."

BRICK, GRAVEL OR ASPHALT--WHICH?

FIRST REPLY TO THE CARD IN THE TELEGRAM FAVORS BRICK YET WOULD ACCEPT EITHER OF THE OTHER MATERIALS--FILL OUT THE BLANK FORM AND HELP THE MOVEMENT FOR MORE GOOD STREETS

A. Ortolani of 427 South Calhoun street was the first Fort Worth citizen to fill out the card printed in yesterday's Telegram in which the citizens owning property were given the opportunity of expressing their preferences in the matter of paving material.

If the other citizens of Fort Worth are as willing to pave and as easy to please in the matter of paving as Mr. Ortolani appears to be, Fort Worth will soon be the best paved city in the southwest. Mr. Ortolani's card reads:

"My residence is 427 South Calhoun street. I prefer brick as a material for paving the street in front of my property, but would be willing to pave with asphalt or gravel in case the width of the street is reduced in conformity with the ordinance now pending in the city council and my neighbor also agrees to pave."

This reply was received in the first mail this morning and succeeding mails brought other replies, which will be printed in succeeding issues of the paper in tabulated form.

All citizens desiring to aid in the plan for a general paving movement should fill out the card printed herewith and send it to the Telegram at once. Fort Worth appears ready for a movement of this kind, and if it is taken hold of by the leading citizens of the city and pushed with energy and direction fine streets will be the result. City Engineer Hawley is enthusiastic over the plan.

"The plan of reducing the street widths and thus reducing the cost of paving is a good one," he said. "It has my heartiest support. It has been tried with success in many cities and others are now turning toward it. You may put me down as favoring brick as a material for paving."

"Another thing that I wish you would call attention to is that people desiring to plant trees and rose bushes this year should do so at once; not in the next two weeks, as I was quoted as saying yesterday, but today or tomorrow. There is no time to be lost. By delaying a few days the chances of the trees and other plants living would be lessened considerably."

FOUR MEN GO INTO THE FLOOD

MEMPHIS, Tenn., March 24.—The gauge this morning is 35.4, a fall of .1 since last night. The railroads expect to open tomorrow.

DEATHS

KEITH.
 C. S. Keith, a teamster, aged 65, died at his residence, 502 Kentucky avenue this morning at 4:25 of congestive cholera morbus. He was a resident of Fort Worth for many years and leaves two sons and two daughters, all grown, to mourn his departure. The funeral will take place from the family residence tomorrow morning at 10:30.

ADDITIONAL CITY BRIEFS

C. E. Wise, superintendent of the Jones & Winter Company of Chicago, engineer, such outlanders in left and center, where construction work for the new telephone company, said this morning that the work was progressing rapidly and that he was confident the new company would be able to begin operating within the period allowed by the council's franchise grant, which fixed next August as the time limit.

Hon. H. P. Brelsford, representative at Austin from Eastland county, and Judge C. K. Scott, are in the city attending federal court. Mr. Brelsford will return to Austin tonight.

Miss H. Hendrick, chairman of the male teachers' committee on education for the library fund, has headed her list with a two-year subscription (\$25), and so far as she knows had also included in the same a donation from Professor Isaac Goodell, of 25, and a two-year subscription from Mrs. Sargent.

PAIN'S Celery Compound

Used in Springtime Will Give That Strength, Vim and Bodily Activity That All Are So Eager to Possess.

Pure blood and well-nourished nerves are the great requisites at this season for every man, woman and child. Too many of our people enter the spring season with systems charged with deadly impurities. The blood is foul and stagnant; the liver and kidneys work imperfectly, and very often are diseased. With many rheumatism, neuralgia and dyspepsia are daily tormentors. Life is not safe when such ailments are permitted to run unchecked.

If you, unfortunate sufferer, find yourself burdened with any of the forms of disease just referred to, do not fail to give Paine's Celery Compound a trial. It is your only safety—your only true and certain deliverer from perils that end in death. Paine's Celery Compound has cured tens of thousands every springtime; it will do the same blessed work for you. One bottle will cost you less than a visit to consult a physician and will convince you of its power to cure.

"Last spring I was convinced very strongly that my blood was in a bad and dangerous condition. I had boils and skin eruptions, was run down, sleepless and had no appetite. The doctors failed to cure me. I fortunately tried your Paine's Celery Compound. My dangers and troubles were soon banished and I was made a new man, strong and vigorous, thanks to Paine's Celery Compound."

NEWS CONFIRMED AT FOREIGN OFFICE

PARIS, March 24.—Foreign offices have received a dispatch from San Domingo confirming yesterday's advices to the Associated Press, saying that two revolutionary generals had taken possession of the city and adding that President Vasquez had been expelled.

Dispatch is brief owing to the Revolutionist's having cut the wires but the officials here construe its meaning that President Vasquez's government has been overthrown.

FOUR MEN TAKEN INTO CUSTODY

GAINESVILLE, Tex., March 24.—Arrests have been made by the constable at Burns City, this county, of four men charged with assault upon John Sarles a carrier on a rural free delivery route.

It is said they stopped his horse and attempted to drag him from his wagon. He is a one legged man and had trouble in getting away from them. Boxes on that route have lately been tampered with and Postmaster Hickson reported the whole matter to the department.

A special train bearing President Rouse of the Katy and party passed through here at noon. They will return from Wichita Falls at 9 p. m. and spend the night here.

MAN MISSING FROM HOME AT WACO

WACO, Tex., March 24.—Mr. Riley who works for W. E. Dupree, has been missing since yesterday. The members of the family are apprehensive, as he has been known to have fits of despondency at times.

Light frost last night did no damage.

THE STATE SHOOT IS STILL ON AT BRENHAM

BRENHAM, Texas, March 24.—The state shoot is still in progress with a good attendance. Yesterday in the five-bird event, the following tied on straight scores: Spicer, Chandet, McCormick and ...ades. The shooters in attendance are: Albert Wilcox, San Antonio; F. M. Faurte, Dallas; Bryan Heard, Houston; O. C. Guessez, San Antonio; M. E. Hensley, Battle Creek, Mich.; A. W. Dubway, Morris Kaufman, New Orleans; J. M. McCormack, St. Louis; M. E. Atchison, Giddings; William Cleveland, Houston; S. C. Moon, Fort Worth; J. A. Jackson, Austin; A. White, Fort Worth; E. W. Roberts, Ardmore, I. T.; R. O. Helks, beside the local shooters.

RICHARD HARDING SETS TREATS TO TOWN

BOSTON, Mass., March 24.—Richard Harding Davis, the novelist, gave his fellow townsmen of Marlon a novel treat today. At the request of Mr. Davis, Henry Miller, the actor, took his entire company from Boston to Marlon this afternoon and gave a special matinee of "The Taming of Helen," the comedy by Mr. Davis, in which Henry Miller has scored a success. No tickets were sold for the matinee, and every man, woman and child in the town was given free admittance.

FANNY CROSBY IS EIGHTY-THREE TODAY

PHILADELPHIA, Pa., March 24.—Fanny Crosby, the popular blind hymn writer, was the recipient of an ovation today on the occasion of her eighty-third birthday. During the past half century Miss Crosby has been writing hymns and has turned out more than 5,000, many of which have attained wide popularity. Among the most widely known of her efforts are "Safe in the Arms of Jesus," "Recall the Perishing" and "I Shall Know Him."

REMARKABLE CASE IS ON TRIAL TODAY

ORIN HOSKINS SUES FOR \$75,000 DAMAGES

He Was Unconscious for Six Months as Result of Blow Inflicted by Falling Grain Door—General News of the Courts.

A suit in which \$75,000 damages is asked for personal injuries and which in some particulars is the most remarkable case ever tried in the Tarrant county court house went on trial in the 48th district court, Judge Irby Dunklin presiding this morning.

It is the case of Orin Hoskins who up to last August was a freight clerk in the employ of the Fort Worth and Rio Grande railroad, working in the Fort Worth yards of that company which is a part of the Frisco system. The suit is directed against that company.

Carlock and Gillespie represent the plaintiff and West, Chapman and West the defendant.

The case will be recalled by readers of The Telegram, Hoskins while working in the Fort Worth yards last August was a freight clerk in the employ of the Fort Worth and Rio Grande railroad, working in the Fort Worth yards of that company which is a part of the Frisco system. The suit is directed against that company.

Carlock and Gillespie represent the plaintiff and West, Chapman and West the defendant.

The case will be recalled by readers of The Telegram Hoskins while working in a freight car one day last August, was struck by a falling grain door it is charged, knocked from the car to the ground and rendered unconscious. He remained unconscious for about six months.

When he began to regain consciousness and to talk it was found that his mind had been affected to such an extent, according to his attorneys' claims in court, that recovery of his mental balance is a remote possibility. The physicians say that in time he will recover his physical strength.

The door in question opened inwardly, being swung to the roof of the car by means of a hook. When it became loosened and swung downwards the edge of it, according to petition, struck Hoskins at the base of the brain and inflicted the injuries which affected his mind.
