JOPLIN MOB LYNCHES UNKNOWN NEGRO

HANGED TO A POLE

TAKEN FROM THE AUTHORITIES AND SWUNG IN MID-AIR WHILE CITIZENS PROTEST

FORGET LAW AND ORDER

Appals of Mayor and City Attorney Fall on Deaf Ears and the Mob Mad With Desire for Destruction and Human Life Devastates Negro Quarters of the City

JOPLIN, Mo., April 16.—Despite the pleading of City Attorney P. H. Decker and the efforts of law-abiding citizens who were overcome in a tug of war over the body of the victim, a mob Wednesday night hanged a negro tramp to a telegraph pole after forcibly taking him from jail on suspicion that he might be the man that Tuesday night shot to death Policeman Leslie while the officer was trying to arrest him and some other negroes in the Kansas City Southern railroad yards.

FOUND HIDING

The negro who was lynched was found in a slaughterhouse east of Joplin by Lee Fullerton. He was armed with a rifle. Fullerton slipped into the structure unobserved and crept up behind the negro. Fullerton sprang at the man and threw him down. The captor held a knife at the captive's throat until the negro surrendered the rifle. Pointing the rifle at the prisoner, Fullerton marched him to jail, which was surrounded by hundreds of people. City Attorney P. H. Decker mounted the jail steps and made a plea for law and order. This did not appease the mob and a short time after Decker's speech the mob started to batter down a section of the jail wall. Futile efforts were made to prevent the entrance of the mob, but within fifteen minutes they had gained entrance into the jail and secured the trembling negro.

ATTORNEY PLEADS

As he was dragged forth, City Attorney Decker again pleaded that the negro be given a trial. For half an hour he talked and the mob listened to him with the negro in their custody. Some of the mob made for the spot where the negro was held and he was dragged two blocks from the jail. A rope was fastened around his neck. After the rope had been thrown over the crossbar of a telegraph pole a score of men attempted to pull the negro from the ground. As many more seized the rope and tried to prevent his being hanged. For some moments it was a tug of war, but go-enforcements on the free end of the rope proved the stronger and the negro, despite his protestations of innocence, was finally swung into the air and strangled to death, while shouts went up from the mob. The name of the negro was not known. He was a stranger in Joplin.

BURN HOUSES

The first act of the mob after hanging the negro was to demolish the residence from fall of a local character known as Hickory Hill, who was under arrest on the charge of assaulting a negro. In the hope that this would appease the mob, the prisoner was set free. But the mob did not disperse. Instead a rush was made through Main street and every negro was driven to the north part of Joplin, where the colored population lives. Then the mob charged down on the quarter. Stines were thrown, doors were broken in and finally several houses were fired. The fire department responded, but many of the houses were burned to the ground.

AUSTIN WILL HAVE AN ARMOUR PLANT

AUSTIN, Texas, April 16.—S. S. Jerome, the Memphis representative of Armour & Co., arrived in the city yesterday for the purpose of looking up a site for a plant which the Armour people are to establish in Austin. It will be in the nature of a distributing point for refrigerated meats, and will be similar in all respects to the other seven plants which they have in Texas at Houston, Galveston, San Antonio, El Paso, Beaumont and Dallas. The estimated cost of the plant proposed for Austin is in the neighborhood of \$30,000, and will be equipped with the modern methods of refrigeration for the preservation of beef and beef products. Yesterday Mr. Jerome was in conference with representatives of both the Houston and Texas Central railroads and the International and Great Northern with reference to truckage facilities and terminals. He was also looking up several pieces of property which might do as a site for the plant. Work on the Armour plant will commence as soon as suitable property can be bought and the various contracts made.

LITTLE ROCK, Ark., April 16.—The governor has signed the world's fair appropriation bill, and Arkansas has now provided a total of \$160,000 for the purpose of making an exhibit at the St. Louis Louisiana Purchase Exposition. THINKS HE SEES FROST ON MOON

CHICAGO, Ill., April 16.—A dispatch to the Chronicle from Cambridge, Mass., says: Professor Pickering of the Harvard observatory thinks he has discovered unmistakable evidence of hoar frost on the moon, strengthening his previous theory in that direction. He is now busy working out his calculation made during the recent eclipse of the moon and will make known the results in a few days. During the total eclipse last fall Professor Pickering found that the dark spot around the Linnæ crater had greatly increased during the darkness away from the sun's heat and that it was hoar frost, he claimed was shown by its diminution as the light increased. If the spot were stone, he argues, no light would have been reflected while the earth's shadow was upon the moon. Recent measurements tend to confirm this belief.

WOULD SELL PLANT TO IMPROVE STREETS

(Special to The Telegram.) SULPHUR SPRINGS, Texas, April 16.—That Mayor Coleman of this city has strong ideas in regard to the need of improving streets before other city improvements are attempted is evident from the address which he made before the members of the city council at the last meeting. In speaking of the work of the various departments of the city government, he summarized the conditions of operating the waterworks plant as follows: "The thing left for us to do is to address ourselves to the task of placing this plant on a paying basis. GALVESTON, Texas, April 16.—At the second day's session of the State Lumbermen's Association yesterday, a resolution was adopted to appoint a committee of three manufacturers and three dealers to take up the question of demurrage and delayed handling of shipments by the railroads. In the general discussion the railroads were scored for their methods of furnishing cars, delaying shipments and enforcing the demurrage charges on lumber shipments. Hon. John H. Kirby delivered a lengthy address in support of a resolution adopted for raising a world's fair fund by assessing each member so much per 1,000 feet of lumber handled during 1902. A resolution was adopted casting for each member of the association to contribute to subscriptions to the world's fair fund as follows: Each manufacturer to pay the sum of 2 1/2 c on each 1,000 feet of manufactured lumber manufactured by him in the year 1902, and each dealer will pay the sum of 2 1/2 c on each 1,000 feet handled by his yard during the year 1902; that each member of the association report to the secretary of the association May 15, 1903, the amount of lumber handled or saved by him during the year 1902, as shown by his books. CONTEMPT PROCEEDINGS

The house committee appointed to investigate the authorship of an article which appeared in the Beaumont Journal, alleged to have reflected impropriety upon the members of the house, met Wednesday night and examined Robert A. McLaughlin, the Austin correspondent of the Beaumont Journal during the regular session, who had responded to the summons to appear before it. He acknowledged that he wrote the article complained of.

QUINN ANGRY

Some hot words passed between Representative O'Quinn and McLaughlin. The committee decided that it would report to the house that McLaughlin had acknowledged that he wrote the article and accompany the report with a copy of the statement made by him in reference to it. It decided that the resolution by which it was appointed did not permit it to make any recommendations, but merely to report the findings.

Doctors Prescribe Swamp-Root. Gentlemen—I have prescribed this wonderful remedy for kidney and bladder complaints, Dr. Kilmer's Swamp-Root, with most beneficial effect and know of many cures by its use.

(Swamp-Root is pleasant to take)

Weak and unhealthy kidneys are responsible for more sickness and suffering than any other disease, and if permitted to continue much suffering with fatal results are sure to follow.

No matter how many doctors you may have tried—no matter how much money you may have spent on other medicines, you really owe it to yourself to at least give Swamp-Root a trial.

THE TELEGRAM. Issued daily except Saturday. BY THE FORT WORTH TELEGRAM CO. C. D. REIMERS Editor and Publisher

NOTICE TO THE PUBLIC. Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The Fort Worth Telegram will be gladly corrected upon due notice of same being given at the office, 1610-1612 Houston street, Fort Worth.

FREEDOM OF THE PRESS. Considerable interest has been stirred in the state over the contempt proceedings against the Beaumont Journal, which have formed a source for much legislative atmosphere.

It cannot be proven that any newspaper ever called D. Webster a buzzard, as the Journal is said to have done in the case of certain members of the house. Perhaps Daniel never has his picture printed on the first page under a caption, "Dan Will Stick by the Ring" or "How much did Mr. Webster get for that reply to Hayne?"

There are always two sides to any controversy and the subject of journalistic freedom has always been good talking ground for snobs and yawks. Neither class represents the opinions of the honest minded reader, who regardless of the declarations, editorial or otherwise, of the paper which gives him the news, uses his judgment in reading what he knows is reliable, and casts the rest aside into the waste basket of his memory.

Newspaper readers who still have lingering thoughts that the evening publication is depriving them of something, because it doesn't wait to sleep over the news before printing it, have had a couple of good illustrations of their error during the past two days. The story of the tragedy near Arlington Tuesday was read by Fort Worth people within a short time after it occurred and so completely were the facts covered that morning papers had nothing left but a repetition of The Telegram's story.

The destructive fire at Beaumont early yesterday morning is deplorable. In that it causes serious delay in the progress of a Texas industry that had been making rapid strides during the past few weeks. It is a source of gratification, however, that the fire did not burn up the holes and that the oil is still in the wells. Such fires have marked the history of all oil fields and are disasters that can always be expected though not always successfully met.

There is food for interesting study on page two of last evening's Telegram. The bank statements printed should be a source of satisfaction to all who believe in the present financial soundness of the city. The six national banks had a combined surplus of \$495,000, undivided profits of over \$371,000 and total individual deposits amounting to \$3,796,141.33. The volume of business being transacted in Fort Worth banks is enormous and greater than for any city of the same size in the entire south or southwest.

Since the affair has happened The Telegram has been waiting for some one to come into the breach, but as yet no one has ventured. Is his name pronounced "Buzz-bee," "Booze-bee," "Bliz-bee," or "Bus-bee?"

TRUCK GROWERS AGAIN TO MEET

COUNCIL COMMITTEE FAILED TO KEEP APPOINTMENT

Tarrant County Farmers Will Gather at Justice Terrell's Courtroom Saturday Night to Consider What Would Best Be Done

Another meeting of the Tarrant County Truck Growers' Association has been called. It will be held in Justice Terrell's courtroom next Saturday evening at 7:30 o'clock. All members of the association and other gardeners desiring to become members, are urged to be present. The truck growers are in no amiable mood over the delay of the council in taking action on their request for the passage of an ordinance fixing a market place for them in Fort Worth. Their desire is that the council designate a place for them to market their goods and force all of them, by ordinance, to market their truck at that one place. As it is now some of them strive to reach the city as early as 3 o'clock in the morning in order to get advantageous places along Houston street.

D. H. Hightower, a member of the committee that represented the truck growers at the last council meeting, said this morning: "We made an appointment with the street and alley committee of the council to meet with it in the council chamber a week ago yesterday. We made the long trip into the city, only to find that not a single member of the committee appeared to meet with us. We do not ask the council to pay the expenses of the market place, but are willing to bear this expense ourselves. We are trying to do away with the present rush to secure the best selling places, and if the council does not propose to help us we are very sorry, that is all."

FISH POLE STORY WITH MORAL TO IT

One of the most surprising fish pole stories ever heard, was told to a Telegram reporter yesterday by A. J. Anderson, manager of the Anderson sporting goods emporium, 412 Houston street. Mr. Anderson has one of the largest stores in the state handling this class of goods, and buys fish poles in large quantities, usually one or two carloads at a time. Last fall, when he got ready to make up his order for fish poles, he concluded to try a different plan from that he had pursued in the past. He got in communication with the American Japanese Trading Company at Tokio, Japan, and found that he could ship his fish poles clear from Tokio, Japan, on a through bill of lading, and lay them down in Fort Worth at exactly half the price that he paid for them in Chicago or New York. This surprising fact, he says, is caused by the large freight rates which he is compelled to pay on this class of goods from United States ports. If he buys a carload of poles in Chicago or New York, costing about \$300, he is compelled to pay for the freight charges alone \$850, which more than doubles their cost.

He found by completing this other arrangement that he could save over 100 per cent on the cost of the poles, a fact of which he readily took advantage. He has nearly sold out all of the poles and is about ready to order another carload. One would naturally wonder where there can possibly be a sale for so many fish poles, but Mr. Anderson is a firm believer in "The Telegram" as an advertising medium and has found it easy.

Have you property to sell that will make a good showing as to net monthly income? Byers & Trice, real estate brokers, 709 Main street, have customers for such.

"OLD CRIP" WRITES "MORE RAVINGS"

The fourth literary effort of Robert G. Wright, better known as "Old Crip," his pen name, in the form of a hundred-page book made its appearance here yesterday from the Denton County News print shop. "More Ravings From Old Crip, or Spasm No. 4," is the title of the book, and it contains a humorous treatise on the following themes: "Old Crip's Essay on the Mouth," "Earthquakes," "Fishing," "Maybe's Letter," "Nerve," "About the Tongue," "My Friend 'Bill' Dollar," "Old Crip's Second Letter to the President," "Pugilism," "Some Points About the Arm," "Anger," "Old Crip's Lecture on the Cyclone," "About Bullies," "The Electrician," "Us Ke-uds" and "Luck."

WISE HUSBAND

SUGGESTED A Food Cure. All of the medical skill in the world is powerless to cure certain diseases unless the patient is put upon pure, scientific food. Then the disease seems to cure itself in many cases, proving that nature was demanding proper food to build a healthy body from.

In this simple way the use of Grape-Nuts in place of bad food has worked many cures when medical skill has been exhausted. A lady of Plainfield, N. J., who had been an invalid for over 10 years, says: "I have been treated by eminent physicians of New York, Brooklyn and Newark, besides taking innumerable proprietary remedies of a cathartic nature to regulate the bowels.

"My last physician advised a sanatorium but my husband who had been reading one of your articles, said, 'Not until we have tried the boasted virtues of Grape-Nuts.' So we got some and I have now used Grape-Nuts for eight months. When I began its use I weighed 85 pounds, now I weigh 195 1/2; my stomach has grown strong and normal, my bowels are so regular that I have thrown cathartic physic to the dogs, the vertigo has left me and my whole system has gained vigor and tone. I can now take a 25-mile ride on my bicycle and enjoy it.

"I am convinced that the chief cause of my ill health was improper food that neither digested nor nourished. Since I have been fed right, I feel right." Name furnished by Postum Co., Battle Creek, Mich.

Wonderment is increasing with the nightly performance of Miss Anna Eva Fay, who is bewildering packed houses every night at Greenwall's opera-house. Last night the crowd was as large as that for the opening performance, and the tricks performed and tests made were even more interesting. Miss Fay's mind reading, or whatever the power may be called, is a remarkably interesting source of study as well as entertainment. The special features of the program are good and the whole entertainment makes one of the most interesting seen on the stage.

The Gagnon-Pollock stock company presented "On the Verge of Ruin" to a very fair house last night at the local theater. The parts were uncommonly well carried through by the whole cast. It is conceded generally that the Gagnon-Pollock stock company is the best repertoire aggregation that has appeared here in a great while. It is doubtful that in point of merit have performances of other repertoire companies exhibiting here ever equaled the efforts of the company playing here now—Galveston News.

The company comes to Greenwall's opera house for a week, commencing Monday night, April 20, when ladies will be admitted free as usual. There will be a change of plays and specialties at each performance. Matinees will be given daily except Monday.

"BARON RUDOLPH"
The New Orleans Daily States of Dec. 22 has the following to say of the beautiful play "Rudolph," which the clever and popular comedian Thomas J. Keogh will present at Greenwall's opera-house supported by the Grand Opera-house stock company of New Orleans. Monday matinee and night, April 27, as a benefit tendered to Treasurer Mitchell Greenwall: "In the record which it has achieved this season to date in melodrama, the Grand Opera-house stock company has not made any brighter mark than that reached last night in the presentation of Bronson Howard and David Belasco's intensely interesting play 'Rudolph,' the first presentation of the melodrama in this city. In fact, the work of the entire company was an immeasurable surprise to the many who witnessed the efforts of the several artists throughout the season—entirely enjoyable and entitling them to a deep meed of praise. Thomas J. Keogh's interpretation of the role of Rudolph, Baron Von Hollenstein, was a perfectly smooth, well-rounded bit of work, with not the slightest suggestion of over or under doing."

TWO GIRLS AND A MAN IN RUNAWAY

An exciting runaway that resulted in two "spills" and in which two Fort Worth young ladies and a man miraculously escaped serious injuries, took place at 6:30 yesterday evening at the intersection of Throckmorton and Tenth streets and Jennings avenue.

Miss Anna Carter, daughter of J. W. Carter, general live stock agent of the Rock Island road, who resides at 532 Pennsylvania avenue, and Miss Anna Davis, daughter of W. S. Davis of 705 Granger street, were homeward bound in a runabout, when their horse was frightened by a passing street car. The animal dashed into a cart driven by W. H. Gray. Both vehicles were upset and their occupants landed in a confused pile. All three were considerably shaken and Miss Carter's face was slightly bruised. The cart was hardly damaged at all, while the runabout was damaged to the extent of about \$25.

SAYS FORT WORTH TO GIVE FIVE THOUSAND

Louis J. Wortham, general manager of the Texas World's fair commission, is mailing letters to prominent newspapers throughout the state asking them to receive subscriptions to the world's fair fund. The Telegram has received one of the letters. It directs attention to the resolution adopted at the last meeting of the commissioners, calling upon the press to assist in raising the fund. The Telegram, of course, will promptly transmit to the proper parties any subscriptions to this cause that may be mailed to this office.

Captain Paddock, one of the fair commissioners, is heartily in favor of the movement to raise the fund by popular subscription, inasmuch as the legislature has failed to provide an appropriation for the purpose.

"I think that Fort Worth should contribute about \$5,000 to the state fund; that would be a reasonable sum for a city of this size to raise in such a cause," he said this morning.

NORTHERN LOUISIANA IS NEEDING RAIN

W. E. Nicholson, who has just returned from a visit in Union and Lincoln counties, Louisiana, says that farmers in that section are already beginning to need rain badly, none having fallen in the past thirty days. Mr. Nicholson was called to Louisiana by the serious illness of his brother, who was somewhat better when he left.

INSURED HIS LIFE BLEW TOP OFF HEAD

COLORADO, Texas, April 16.—L. B. Courtney committed suicide at his home one and a half miles west of town, Tuesday, by blowing off the top of his head with a shotgun. The morning of the day on which he committed suicide he had his life insured for \$3,000. His business was in good condition and no cause can be given for his act.

NO SYMPATHY
"Charley, dear," said young Mrs. Torkins, "you know I never blame you for anything that is not your own fault."

"Why—er—yes."
"No one forced you to bet on some other horse."

WAXAHACHIE BUYS

A NEW CITY PUMP

(Special to The Telegram.)

WAXAHACHIE, Texas, April 14.—The city council yesterday formally accepted a new pump and air compressor recently installed at the water station. The new machinery cost \$2,500 and has a daily capacity of 1,000,000 gallons.

There are no new developments in the wreck of a Central freight train Saturday night three miles west of this city by persons who doubtless intended robbing the passenger train. The officers, however, are still at work on the matter.

A SWEET BREATH

is a never-failing sign of a healthy stomach. When the breath is bad the stomach is out of order. There is no remedy in the world equal to Kodol Dyspepsia Cure for curing indigestion, dyspepsia and all stomach disorders. Mrs. Mary S. Crick of White Plains, Ky., writes: "I have been a dyspeptic for years—tried all kinds of remedies, but continued to grow worse. By the use of Kodol I began to improve at once, and after taking a few bottles am fully restored in weight, health and strength and can eat whatever I like. Kodol digests what you eat and makes the stomach sweet."

EXPLAINS TO THE NORTH SIDE COUNCIL

At Tuesday night's meeting of the North Side city council a resolution was adopted which in effect was an agreement to order the old line of poles of the Southwestern Telegraph and Telephone Company cut down unless removed by the company at once. It seems that notice previously was given the company that the removal of the poles was urgently desired by the council.

The council also passed an ordinance to the second reading which provides that cables and wires shall be strung not less than thirty-five feet above the ground.

Among other matters considered by the council was the fixing of the occupation tax to be paid by persons engaged in the liquor business. It was decided to make this \$75 for the year beginning Feb. 1, if paid before Wednesday, April 22. The mayor and councilmen recently elected were sworn in and ordered the secretary to draw warrants for the payment of their salaries.

Alderman Arthur was named as a member of the street and alley committee. Alderman Lydon reported subscriptions of \$55 to the fund for improving North Main street.

Messrs. Arthur, Lydon and Smith of the council were appointed a committee to assist Assistant Tax Assessor Mulholland in considering the purchase of a new system of tax books, which is warranted to do away with the old system of abstracts.

ARE YOU ENTERED IN THE NEWS CONTEST.

Several boys already have notified The Telegram that they are in the race to win the base ball tickets offered as prizes in the new news contest which started yesterday. These boys have the right idea. Start early. The boys who start at once will have a much better chance of winning one of the prizes than those who delay entering the contest.

Remember the comings and goings of your grown-up friends and relatives is acceptable news. Weddings,

births, deaths, illnesses, meetings and announcements of them—these form news, just the same as do fires, crimes and unusual happenings.

The boys entering the race should enlist the support and aid of their friends in gathering news items; this is the plan that was followed by several boys in the last contest with so much success.

The prizes are not great but they are the kind that boys should be anxious to win. No one boy has sent in enough items thus far to give him a real advantage in the race. Start today, if you intend to start at all; if you wait, you may be too late.

FIFTY DELEGATES AT THE OPENING SESSION

TWENTY-NINTH ANNUAL CONVENTION OF THE TEXAS SUNDAY SCHOOL ASSOCIATION IS NOW IN SESSION AT FIRST BAPTIST CHURCH

More than fifty delegates were in attendance at the opening session of the twenty-ninth annual convention of the Texas Sunday School Association at the First Baptist church last evening. Later trains last night and trains this morning brought many additional workers, who are now thoroughly organized in the details of what is proving the most instructive meeting of this nature ever held in the state.

Judge John C. Townes of Austin, president of the state association, is ill, and on that account is not present. In his stead R. F. Butts of Houston is presiding at the various sessions of the convention. Lewis Collins of Dallas, general secretary of the association, and Miss Adele Phillips of San Antonio, state primary superintendent, were in attendance at the opening session.

The delegates last evening were formally welcomed to the city by an address by Clyde A. Fitch, his remarks following a short musical program. W. N. Wiggins of San Antonio, on behalf of the delegates, responded to the words of welcome.

Professor Rollin M. Pease sang "My Will Be Done."

ADDRESS OF THE EVENING

The address of the evening was made by Mrs. Mary Foster Bryner of Peoria, Ill. Mrs. Bryner's remarks on the subject, "The Child We Teach," will be cherished by the delegates as the choicest gem of the convention.

Mrs. Bryner is secretary of the primary department of the International Sunday School Association, which has for its field the United States and Canada.

The association meets every three years. Last year the session was held at Denver, Colo., and three years hence will meet at Toronto, Canada.

Mrs. Bryner said in her opening remarks last evening that it afforded her great pleasure to think that her first visit to Texas is in the interest of Sunday school work.

She said she had many acquaintances in Texas, and since coming to Fort Worth has met those whom she had previously met at Denver, Colo., last year while attending the convention of the International Association.

Mrs. Bryner in outlining her work said that teachers and parents should not

WALKS WITHOUT CRUTCHES

I was much afflicted with sciatica, writes Ed. C. Nud, lowville, Sedgewick Co., Kan., "going about on crutches and suffering a deal of pain. I was induced to try Ballard's Snow Liniment, when relieved me. I used three 50c bottles. It is the greatest liniment I ever used; have recommended it to a number of persons. All expressed themselves as being benefited by it. I now walk without crutches, able to perform a great deal of light labor on the farm." 25c, 50c and \$1.00 at H. G. Pangburn & Co's.

Paine's Celery Compound

The Wondrous Spring System Cleanser and Health Builder Makes Sick People Well

It is a Heaven-Sent Blessing to Disease-Burdened Men and Women

There is nothing doubtful or uncertain about the working effects of Paine's Celery Compound. It stands supreme as a spring system cleanser and health builder. It reaches without loss of precious time the cause of sickness and disease in a way that no other remedy can do.

For many years I suffered more than tongue can tell from eczema and blood troubles. In the spring season my agonies and distress were increased, and I often wished to die. Boils and pimples added to my sufferings, and for weeks I was not fit to be seen. Doctors afforded me but small relief. I spent scores of dollars for advertised medicines, but got no cure from them. I got hold of one of your books and read about a lady who had been afflicted as I was and cured by Paine's Celery Compound.

Accident at Colorado prevents contemplated change. Delay Only Temporary—Trains 3 and 4 Will Run to Colorado Instead of Abilene When Repairs Are Made—Other Changes in Effect Sunday

A new time card on the Texas and Pacific railroad, in effect at 1 o'clock a. m. Sunday, April 19, announced that trains Nos. 3 and 4, comprising the through service from St. Louis, Memphis and New Orleans would, on the above date, run to Colorado, Texas, instead of to Abilene, as at present. Word has been received in Fort Worth, however, that this portion of the new time card has been temporarily cancelled, owing to the fact that the turntable at Colorado was damaged yesterday to such an extent that it will not be possible to handle the service at that point until the necessary repairs have been made.

YOUNG RUNAWAYS ELUDE THE POLICE

DART THROUGH A WINDOW AT HEADQUARTERS STATION

Local Patrolmen a Chase—Captured and Rode James Mann's Horse Out of Enon

Arthur Doyle, aged 12, and his sister, Ruby, aged 8, the little runaways, an account of whose expedition from Mansfield to Fort Worth was contained in yesterday's Telegram, sat around police headquarters all day yesterday. Late in the afternoon they espied their elder brother approaching; he had come from Mansfield in response to a telephone message. They clambered through a window in the headquarters office and darted away. They easily eluded the officer, who took out after them.

Where they spent the night is a mystery. An officer in the Santa Fe railroad yards caught sight of them just after dark, but they ran from him like frightened deer. The police are on the lookout for them and probably will find them before night.

It was learned last night that on the road from Mansfield they took possession of a horse belonging to Equire James Mann of Enon and rode it nearly all the way to town before they abandoned it. It was followed by a colt. The horse has been recovered, but up to this afternoon the colt was still missing.

On the road from Mansfield the two children were seen on the horse. The little girl was seen to fall from the animal's back three times, but after each fall she pluckily arose and scrambled onto its back again. Both children are barefooted and poorly clad. They are the children of Frank Doyle of Mansfield. It will be remembered that when Assistant Chief Allen notified their mother, she told him she would send after the girl and added that she would leave the punishment of the boy in the hands of the police, as she has no longer able to control him.

A SMOKELESS, NOISELESS RIFLE

A device for suppressing sound and smoke has been provided for the ordinary rifle by a French soldier. It consists essentially of a steel tube about thirty inches long, with several partitions having circular openings slightly larger than the bore of the gun, and this tube is attached in front of the muzzle on a bayonet clasp whenever its use is desired. On firing the gun the gases are retarded by each partition in turn, finally escaping without sound or smoke. With a knife at the end the auxiliary tube can be made to serve as a bayonet.

BUZZARDS AS SCAVENGERS

The buzzards that have long infested Vera Cruz and served a useful purpose as winged scavengers are doomed. A London firm is putting in a modern sewer and water system. The birds have become so numerous that they are a pest. The protection of the municipality has been removed and when the new drainage system shall be completed the city will be rid of the pest, the numbers of which have already been reduced somewhat by catching the buzzards and placing them in wooden cages to be taken to sea and drowned.

WOULD LET THEM WHISPER

Professor Triggs of the University of Chicago says that children should be allowed to whisper in school, as it "does their souls good. Their souls should not be imprisoned in silence. I am glad that a step forward has been taken from the primitive condition in which our schools were a few years ago, when whispering was looked upon as a crime."
