Two Thousand See First Baby Show

The baby show changed the appearance of the horse show tent for awhile yesterday afternoon and instead of their equine majesties there were bevy of the prettiest girls in the town, with demure white aprons and the with babies of brown eyes and blue, dark curls and golden. Instead of the clatter of horses' hoofs and the jingle of the trappings of cart, or the merry blast of the horn from the coach, there were babble of voices of fond mothers, of directors of the baby show, of the pleadings of the maidens who wanted their burdens to get a prize, or, failing, refused to be comforted.

One hundred and sixty babies, from early infancy to three years, were watched by two thousand women and twelve men. What the twelve men were doing here remains an unfathomable mystery. Three of them were the judges, M. T. Hill of Nevada, Mo., George L. Goulding of Denver, and C. A. Platt of Little Rock. Another was Captain Paddock, whose duty it was to stem the onslaught of enthusiastic observers, women and boys, who swarmed over the ropes and invaded the nurses' seats, to the great damage of babies and the temper of the judges. The women came because—well, if anybody can possibly guess why two thousand women would brave the wind such as was blowing yesterday to see one hundred and sixty babies, let him speak up!

The nurses were continually on the look out for prize winners. The mothers on Parker, and she insisted that the judges look well at him. They did so and gave him the blue ribbon. Miss Chalk held the second prize winner, Harold West Man, and Miss Newlin the third, Ed Maddox.

Mary Graham Sperry won first prize in the class for girls from one year to two, Miss Jenkins acting as nurse. The second went to Ruth Selby, who was in charge of Miss Humphreys. Little Ruth was the telegram entry in this class and gets the Columbia prize of a handsome dress. Miss Paddock was eloquent over her charge, Mary Virginia Crow, and got the white ribbon.

Boys from two to three years came next and it was a quick piece of work to give first to Tom Slack, Jr. (Miss Tarlton was a clever nurse), Roy Manning getting second and James Swayne Cummings third. Miss Newlin held the latter baby, adding another to her prize winners.

The girls from two years to three made trouble for the judges, but Miss Boland, sponsor for Marguerite Caswell, got first for her charge, Miss Beggs second for Maggie May Cook, and Miss Paddock third for Frederick Boerner.

It took the baby show to proclaim the numerousness of local twins. They were there in amazing numbers yesterday, but they could not all get prizes, more's the pity. Hugh and Dabney McDonald got first, Annabel and Georgie Hierholzer second, and Otto and Otis Smith third.

The audience, nurses and judges looked in vain for triplets and had to be content with the fat baby entries, wherein Robert Parker won out easily.

The Appetite of Human Nature

When **Uneeda Biscuit** were first introduced, a conservative said:

"They are all right as far as they go, but they won't satisfy the worker. The worker, you see, wants something solid, and substantial, and plain—like potatoes, cabbage, or beef. These delicate and crisp biscuit, packed so daintily, in that In-cr-seal Package, will not appeal to him any more than winter strawberries."

That sounded like good reasoning. But fact upsets theory.

Workers everywhere have been great consumers of **Uneeda Biscuit**. The outdoor worker, seated at noon upon the sidewalk, a house wall for his back rest; mill hands in the mill yard, seated on comfortable bales; teamsters and draymen, on their high box seats—all have eaten **Uneeda Biscuit**, and their wives have eaten them, and their children have eaten them.

Another conservative took another view:

"**Uneeda Biscuit** are all right," he said, "to sell to the workers, but you must not expect to sell them to the more prosperous people. They are too cheap. Five cents a package—that kills **Uneeda Biscuit** so far as the wealthy are concerned. The price should be higher—they are worth it."

That, too, sounded reasonable, but it also turned out to be only theory.

For the greatest grocers of the city and of the country say **Uneeda Biscuit** have taken the place of the more expensive biscuit. Over 200,000,000 packages have been consumed.

The worker eats **Uneeda Biscuit** because of their goodness. The wealthy eat them because of their delicacy. The whole world eats them because they represent the highest value as a food product—pure, wholesome, good.

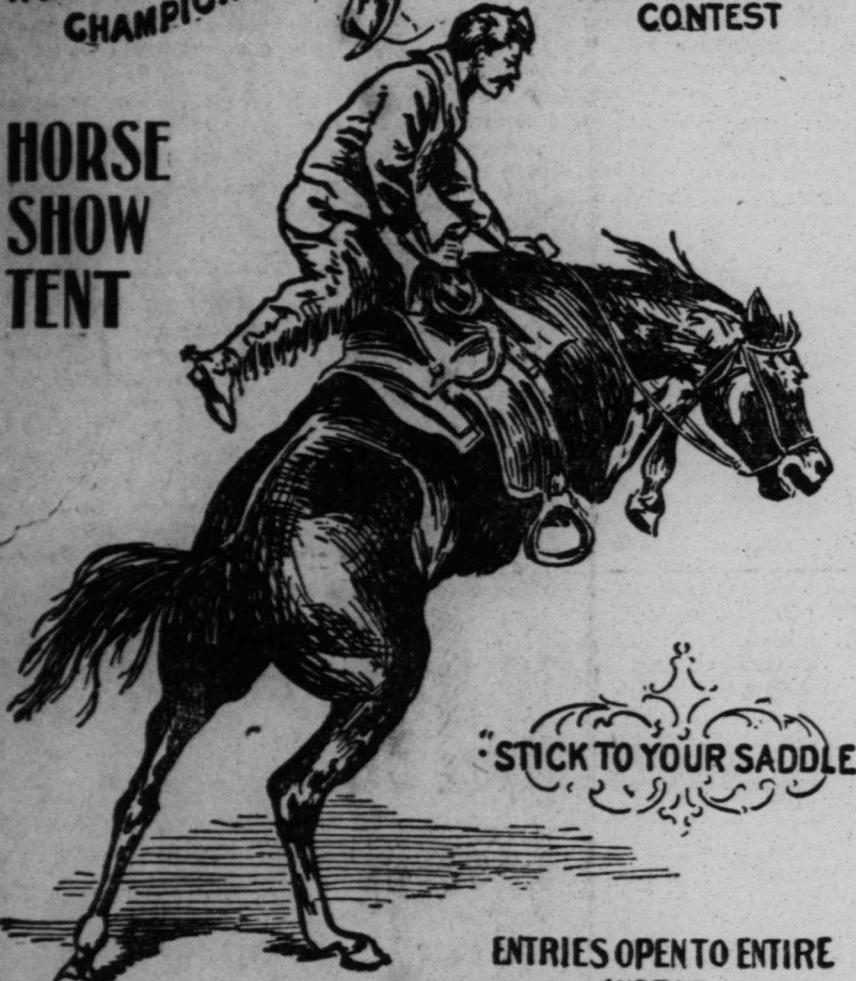

The appetite of human nature always relishes a good change of diet—**Uneeda Milk Biscuit** is a change that never disappoints.

TALES OF HORROR FROM RIOT'S SCENE

VIENNA, May 1.—Horrible brutalities are reported to have occurred during the recent riots at Kischeneff, Bessarabia. Many women and children were victims of the mob, which included even the better classes of the inhabitants. Some of the victims were thrown from windows to the pavement. The rioters also pillaged and defiled the synagogues and killed the caretakers. What the looters of houses were unable to carry off they saturated with paraffine and burned. The damage done to property is estimated at several million roubles. The Jews who escaped from Kischeneff are seeking refuge at Onessa and elsewhere.

CAPTAIN PADDOCK TO THE YOUNG MEN

At the regular meeting of the Young Men's Culture Club in the parlors of the Christian Tabernacle last night the talk of the evening was delivered by Captain B. B. Paddock. It was the second address of a series designed to help young men whose careers are just opening. Captain Paddock's remarks were full of good sound sense; he placed success on a higher plane than the mere gathering of money. Money-getting did not mean success in life, it was a mistake to say that

MANY CURES IN FORT WORTH

Weaver's Pharmacy, 504 Main Street, Report Good Work Done by Hyomel in Curing Cataract.

It is seldom that a remedy has made so much in so short a time as Hyomel has in curing cases of cataract in Fort Worth.

Weaver's Pharmacy have so much faith in the powers of Hyomel to cure cataract that at the very start they sold the remedy under their personal guarantee to refund the money in case it did not give satisfaction. And yet they had but two customers who asked them to refund the price while scores have told of the remarkable cures accomplished by this medicine.

Hyomel cures cataract by a new principle, by breathing balsamic air, not by pills, drugs or nauseating liquids. It is the only positive cure ever discovered for this disease, and it is also the pleasantest method of treatment.

The outfit consists of an inhaler, a medicine dropper and a bottle of Hyomel; the total cost being \$1.00. The inhaler will last a lifetime, while for treatment of cataract a bottle of Hyomel is sufficient for more than a month's use. Simply drop a little of the Hyomel into the inhaler and then breathe it for a few minutes four or five times a day. The air filled with the balsamic healing of Hyomel enters the air passages and lungs, killing the disease germs, soothing the irritated membranes and effecting a permanent cure.

If a cure is not gained ask Weaver's Pharmacy to return your money and they will do it without question.

No fairer way of selling a medicine was ever adopted by any one. You ought to begin the use of Hyomel today on this plan.
