ANNOUNCES SECOND TRIAL

Jurors Refuse to Agree on Jett-White Cases at Breathitt County Courthouse and Is Discharged by Judge Redwine This Morning

BUT ONE JUROR IN WAY OF ACQUITTAL

Believed That Stubbornness of Single Member Prevented the Men Charged With Murdering James B. Marcum From Going Without Punishment

JUDGE DECIDES TO TRANSFER THE CASES

JACKSON, Ky., June 19.—Judge Redwine had decided to transfer the cases of Jett and White to Cynthia, Ky., for trial.

JACKSON, Ky., June 19.—At 8 o'clock this morning the jury in the Jett-White case filed into the courtroom and Foreman Richard Millard said:

"Your honor, we find there is no chance of coming to an agreement."

Judge Redwine said: "I will have to keep you gentlemen here until Saturday night unless you get a verdict sooner. There is no reason why the verdict should not be reached in this case."

Juror Millard said: "One man has as much right to his opinion as another, and he may stick to it."

It is believed from this that there is only one man between the verdict of guilty or not guilty, and it was conceded that only one juror was then for conviction and it was said that the question of punishment had not been considered at all.

Later the juror again reported it was unable to agree and shortly after 9 o'clock it was discharged, so that there will be another trial.

The dominant faction evidently expected an acquittal this morning, but there was at least one juror who would not so.

TO TELL STORY OF BREATHITT TROUBLE

LEXINGTON, Ky., June 19.—Arrangements are being made for Captain Ewen to make an address at the opera-house here Monday night, and tell the story of Breathitt county's troubles. It is arranged at the instance of his friends, who found Captain Ewen's modesty a great obstacle to the proposition. Ex-Congressman W. C. P. Breckenridge, Hon. C. J. Bronston and other leading men are expected to speak.

The gathering is to be turned into a mass meeting to raise funds for Captain Ewen, to protect him against crime in Breathitt county, and to get on foot a movement for a petition to call a special session of the legislature to wipe out Breathitt county and try the other cases against the Breathitt assassins somewhere else.

BECKHAM AND THE DECISION FRANKFORT, Ky., June 19.—Governor Beckham, asked today with regard to the news from Jackson what he would do anything in the matter of a trial, said: "I cannot at this time say what I will do. I must refuse to make any statement at this time."

It has been learned here that Judge Redwine has agreed now to try the cases of Cynthia, but it is thought that the governor will insist on some other trial judge.

LEGISLATORS CAN NOT BE NOTARIES

DALLAS, Texas, June 19.—Judge W. J. Smith, of Dallas, today received a telegram from Attorney General Bell declaring that the members of the legislature are clearly and unquestionably ineligible to be notaries public and that any notarial act performed by a member of the legislature is clearly illegal as shown by a plain provision of the state constitution.

Hon. Curtis Hancock states that this decision by Attorney General Bell knocks out sixty-eight supposed notaries who are members of the lower house of the legislature and nullifies their acts as such.

HOWARD REPORTS ON COTTON CROP

Chief Entomologist Returns From Trip Through the South and Talks of Boll Weevil and Other Matters

WASHINGTON, June 19.—Dr. L. O. Howard, chief entomologist of the department of agriculture, has just returned from an inspection of the campaign of the department against the cotton boll weevil in Texas.

Dr. Howard does not wish to be quoted as an authority on cotton, but declares that every indication, and also the prediction of every cotton planter with whom he came in contact points to a poor cotton crop this year.

The extremely wet spring in Texas delayed planting for at least one month, and since that time the growth of the plant has not been as rapid as usual.

THINKS ACREAGE THE SAME

At the end of last season, Dr. Howard says, many planters made up their minds to abandon the cultivation of cotton on at least a part of their acreage for crops which would produce more revenue, such as rice and alfalfa. These plans have been changed, owing to the high price of cotton since that time, and he believes the acreage to be at least equal to that of last year.

Dr. Howard says that so far as official information of the department is concerned, there has been no confirmation of the rumors that the boll weevil has made its appearance in Alabama and other southern states. The weevil is confined absolutely to Texas.

At the time it made its appearance first in 1894, the department will spend \$50,000 this year in its campaign against this pest, which is \$10,000 more than was available last year. While no means has yet been found to exterminate the weevil, the experiments of the department in methods of culture, such as wide planting and preparation of the ground, have given very satisfactory results that considerably encourage it is felt that the territory in which the weevil is working may not be enlarged.

SHOULD FOLLOW INSTRUCTIONS

The experiments have absolutely demonstrated, according to Dr. Howard, that cotton can be raised on a paying basis on the weedy soil which is the staple of the department are followed and instructions are being made at six different stations in Texas. While the department is generally well pleased with the exterminating the weevil, and cultivates every insect brought forward for that purpose, it is the belief of officials in charge of the task is beyond possibility. The history of the weevil in Texas, and since it has reached Texas, offers no hope that it will ever be much less destructive than now. The expedients by which the weevil is working in Texas may be profitably grown where the weevil exists involve no appreciable expense and Dr. Howard reports that they are becoming generally more popular with the cotton planters, who were at first inclined to look upon the advice of the department with some prejudice.

BURLINGTON AND GREAT NORTHERN TO OPEN TERRITORY

A Busy Passenger Station—Special Concessions—Does Everybody Ride?—J. J. Frey Critically Ill—Cotton Shippers Complain

OMAHA, Neb., June 19.—Railroad officials here confirm the report that the Burlington Railroad, in conjunction with the Great Northern, is about to open Nebraska, Colorado, Wyoming and adjacent territory to lake and rail shipments. The plans provide for the building of a branch line from Sargent, Neb., on the main line, to O'Neill, on the Sioux City branch of the Great Northern. This will give a through line from territory covered by the Burlington to Duluth, and permit shippers and merchants of the middle west to get the benefit of the lake and rail tariffs, which are 2 cents per 100 pounds lower than the all-rail rates.

A BUSY STATION  
 If a guessing contest were to be inaugurated in which the contestants were to make an estimate of the number of persons who pass to and fro through the gates at the passenger station of the Texas and Pacific railway in Fort Worth every twenty-four hours it is not improbable that there would be as great a range of figures forthcoming as resulted from the recent Telegram money jar contest. The answer to the passenger problem is not as easily solved nor will any one count represent an average of this business for any length of time, but from a record made during two of the hours yesterday in which travel was pronounced ordinary, it was found that more than 500 people passed through the gates either going to or coming from the trains. At this rate, for twenty-four hours, the number would climb into the thousands, but there are a few two-hour periods during the day and night when the number traveling is not more than one-half that noted above.

DOES EVERYBODY RIDE  
 Through the co-operation of other Colorado lines and for the benefit of those who will visit Denver upon the occasion of the twenty-first annual convention of the Young People's Society of Christian Endeavor, to be held July 9 to 13, for which a rate of about one fare plus 25c for the round trip has been announced, the Denver Road has arranged that the final limits of tickets sold from Texas points shall be Aug. 31 instead of July 23, as previously announced.

J. J. FREY CRITICALLY ILL  
 J. J. Frey, one of the most prominent railroad men in the west, is critically ill at his home in Seattle, Wash., and there seems to be no chance for his recovery. Mr. Frey is afflicted with uraemic poisoning and his condition is growing worse daily. The end may come before long. Mr. Frey was formerly general manager of the Alton, Topeka and Santa Fe Railroad system, and more recently was in charge of the building of the Texas and Pacific through the Texas and New Mexico territory, which it is expected will be the connecting link with the Atlantic seaboard to the Gulf.

 \$1.50 to \$2.20 Hats for 90c  
 Competition does good—in that it forces the other fellow to sell for less—but in this sale of Hats, we are beating competition, by selling for less than the other fellow has to pay. Just think about a hat for 90c that's worth in any wholesale market from \$1.00 to \$2.00; that's exactly what we are doing—and remember they are not last year's birds' nests; every hat we offer at this price is new and right up to now in style, built this season by, or under the direct supervision of our Miss McCreary, whose superior skill as an artistic trimmer is acknowledged by every one.

THE CASE OF MINK

Fred Mink is a young man who killed Newton Harris near Pittsfield, Ill. Sunday, went home, killed his stepmother as she sat at the supper table and then seated himself by the side of her body and ate a hearty meal, while the other members of the family could do nothing but gaze at him in terror.

Then young Mink escaped, and after a vain attempt to battle with the sheriff's posse which pursued him, finally surrendered.

Mink says he killed Harris because when he was a boy at school Harris had talked harshly to him. He says he killed his stepmother because she mistreated him and because she wanted to break his engagement with a girl he says he loved.

Mink is a clear-eyed, round-faced country boy, just past 21. He sits quietly in the little Pike county jail where he is confined and talks of his crimes as calmly as would a young man who had just succeeded in passing a college examination or in doing some other act worthy of praise.

When Mink was an infant his mother died. When he was 2 years old his father remarried. Reports from Pittsfield tell nothing of the character of the woman Mink murdered. She may have been a typical stepmother according to the newspaper paragrapher's idea, or she may have been a model of womanly virtue and motherly tenderness.

As a boy Mink's worst fault was sulking. When his stepmother chided him for boyish misdeeds he brooded over the scolding and cherished resentment for the punishment.

Fifteen years afterward he lay concealed in the grass all day with a rifle at his shoulder, waiting to shoot his stepmother if she would leave his father's house.

As a schoolboy Mink often misbehaved and sulking when punished. For one of his boyish pranks Newton Harris scolded the boy severely. A few years afterward Mink shot Harris to death, while the latter was quietly at work in his own yard.

Mink, the boy, read trashy literature of the worst kind. The adventures of the James boys were among his favorite stories. The dime novel series of a dozen years ago were all familiar to him.

The boy read the stuff and then began to show traces of the madness such literature tends to produce. He imagined himself destined to be a hero. He bought a revolver and a rifle. Playing the role of desperado he used to shoot at targets and inanimate objects. He became excited and he used to shoot at targets and inanimate objects.

CRIMINAL MATTERS IN ELLIS COUNTY

WAXAHACHIE, Texas, June 19.—Burrney Burney, a farmer living near Byron, a small village in Ellis county, was arrested Tuesday on a charge of criminal assault. The complaint was filed by a white girl 17 years old, who had been living at Burney's house. He was taken to Ellis, where he had an examining trial before Justice of the Peace H. R. Stovall. He was admitted to bail in the sum of \$2,500.

After eluding the officers about eighteen years, P. M. Heard was yesterday arrested at Seagoville in Dallas county by Sheriff Minnick of Waxahachie. Heard was indicted by an Ellis county grand jury eighteen years ago for fraudulently disposing of mortgaged property. Since his indictment Heard has lived in Oklahoma, Kansas and other western states and recently returned to Texas only to fall into the clutches of the law. He was released under a bond of \$500.

Russell Collins, a young man living near Clema in this county, was arrested yesterday on a warrant charging him with giving whiskey to a minor. The two boys who were fined in the county court Tuesday for shooting into a Central passenger train claim that Collins was with them and that he made them drunk. He was admitted to bail in the sum of \$150.

In a thrilling escape Mink's home was surrounded by a sheriff and a posse before he could leave. When he did leave it was because the officers were unwilling to shoot him, so they let him walk away and followed to await the time when he should surrender.

SOUNDING LIKE A MINT JULEP. According to a correspondent of the San Antonio Express, this is what "A Texas Girl" did in Venice: "With our senses steeped in the intoxicating beauty of the city and lulled by the marble balustrades, we sank into the dreamy, strange and fantastic, knowing well that our dreams must remain dreams, for never again would Venice appeal to us with the same mystical charm as she had that midnight when we had seen her for the first time under the languishing spell of a southern moon."

AS IT APPEARED. The post was in a melancholy mood and feeling that the world no longer cared for him he wrote a weepy little verse ending with: "A cold stone for my Bier." But, as it happened, the printer was feeling particularly happy that night, and so under the heading "A Dirge," there appeared next morning: "But this the world has left for me— A cold stein for my beer." And thus another printing office tragedy was born to the world.

A USE FOR QUOTATIONS. "How far a little candle throws its beams?" The young man quoted, and the maid with quick perception answered, "So it seems. Perhaps we really would do better with it out."

ON BEING CHEERFUL. Benjamin Franklin, became father of a perilous school of philosophy when he wrote a Sunday school essay about an experience he once had with a big penny and a small whistle. I have never read that story without feeling that little Benly was very much of a prig and very far from being a healthy young American, when he perceived the little dregs that come after the first taste of happiness resulting from spending money within ten minutes after he had begun blowing his penny.

The New Orleans States pertinently asks: "Why was not Carnegie, with all his alleged charity, heard from among those who contributed help to the western flood sufferers?" Probably because there was no way to put it in the shape of a granite donation with his name prominently emblazoned on the front so that posterity might not forget his act.—Galveston Tribune.

Carnegie can afford to leave such contributions to his critics. His benevolence is not of the subscription list variety, which looks well on paper, but is occasionally hard to collect.

Fort Worth is the great railroad center of Texas but there are others. An item in The Telegram last night noted that the Katy will build switches to accommodate nearly 1,000 cars at Hillsboro and that the Santa Fe monthly pay roll at Cleburne is between \$50,000 and \$100,000.

The Jacksonville Journal is a new and crisp little daily that has its first appearance June 15. A. K. Dixon is the editor and the paper makes a creditable addition to the "Vol. 1" series of 1903 in Texas newspaperdom.

The strike of coffin makers in New York, it is said, will make it necessary to bury all the dead in union made coffins. Would that the unions could work a little further and make Charon work only eight hours.

WAXAHACHIE, Texas, June 19.—Clarence Curry, one of the men who escaped from the Ellis county jail Tuesday night, was captured yesterday afternoon about 2 o'clock at Plano. He was found on a freight train and was arrested by the constable of that place. It is supposed that he was on his way to Sherman, where his father lives. At the last term of the district court Curry was tried on a charge of murder. The jury found him guilty of manslaughter and sentenced him to a term of five years in the penitentiary. His attorneys had taken his case to the higher court, but since his escape from jail the appeal had been dismissed. He will be brought back to Waxahachie tomorrow and will then be sent to the penitentiary without further delay.

BANK TO BE OPENED AT CARROLLTON, TEX.

Scrofula

It may then produce irregularity of the stomach and bowels, dyspepsia, catarrh, and marked tendency to consumption before manifesting itself in much cutaneous eruption or glandular swelling.

Hood's Sarsaparilla

The best of all medicines for all humors. In the rotunda of the Worth last night a traveling man of twenty-five years' experience on the road, during which, of course, he has accumulated a vast amount of information concerning the mode of life and habits of the acanthia lectularia, otherwise a hemipterous creature better known as the bed bug, related to a group of friends a story that is worth repeating. It is not about bed bugs, but has to do with a creature whose ways are quite as tenacious.

They had been talking about the Hoskins case and from that drifted to the general subject of railroad accidents and the spread of the railroad suit want among the people. "I was traveling in Texas twenty-two years ago for a lumber firm, and was in San Antonio just after the International and Great Northern built into that city," said the story teller. "On my way to San Antonio, by the way, I passed through Fort Worth. The business district at that time was up around where the courthouse now stands. When I stopped at a hotel which was run, I think, by a Mrs. Clark. While at her hotel I noticed a number of goats in the yard of the hotel which aroused my curiosity. I heard of Texas mutton chops in Texas or anywhere else since.

But to my story. On one of my trips to San Antonio I had formed the acquaintance of a Greek gardener who had emigrated from the old country some years before. He and his wife lived a couple of miles out of San Antonio, which was very insignificant, compared to the bustling city that now bears that name. One day when the old gardener was driving his horse man to town with a load of produce he attempted to cross the International and Great Northern track ahead of a train. He went over the smokestack which was dead when picked up. The mule, too, was killed.

"Well, they had claim agents in those days, the same as now, and it wasn't many days before the claim agent of the International at Great Northern made a visit to the little cabin wherein the aged widow dwelt. After a few introductory remarks by the agent, during which he expressed his sympathy and the sympathy of the president of the road and of the general manager and of all the other officers of the line, he announced that he was authorized to settle the widow's claim for \$2,000.

"I'll take it," the widow said promptly. Claim agents in those days took no more notice of the widow than they do now and this particular one once helped the now on his right hand, hustled her into his rig and rode off to town. He drove straight to a bank, filled in a check already properly signed and handed it to the widow, who at once drew the money and started out with it. As she left the bank she saw me. She ran up to me, all smiles, and handed me the money and exhibited the check to me. Then, as she was going, she turned toward me again with a sick look and said:

"I guess she didn't know how old dot mule was, later."

THE BRICK AGE OF TEXAS. The Fort Worth Telegram, referring to the reports from a few of the smaller towns telling of the construction of brick buildings there, calls the brick age of Texas. The increasing price of brick as a building material is a result of the steadily increasing price of brick as a building material. While this is true it is also to be desired that brick should come into greater use in our cities for pavements, as it has proved to be a most durable and of the best material for that purpose to be an unexceptional pavement. It resists the cold, and does not heat up under the summer sun as does the asphalt and is not so noisy as the asphalt. It is not so noisy as the asphalt, but it is a better pavement for the ordinary street, every other way considered. It is considered for use as material for a first-class vitrified brick is found in abundance and within short distance by rail from the streets where it would be used. It is not an untried experiment either, for it has been laid to the complete satisfaction of the city in the most exhaustive trial, that of years of actual use. The Light has for a number of years advocated this pavement and will continue to do so, whether the city fathers hear or forbear. It has commended itself by its durability, smoothness and cheapness as no other pavement laid down in this city has. Perhaps in the course of years the educational work of the Light in this and in other directions will tell in the benefit it can procure by the adoption of its sensible suggestions. In this and in the matter of a sensible railroad commission and an anti-trust legislation the Light has done much missionary work remaining yet to be done. It sows its seed in the morning (Sunday) and in the evening withholds not its hand.—San Antonio Light.

THE IDLER'S NOTE BOOK

After all it isn't the price of pleasure that counts; nor the cost of happiness that really matters. It's the returns that one forces the investment to yield, like the careful farmer who feeds his cows bran mash, not because he likes the cows, but for the reason that he is fond of cream.

So cheer up. Of course we all know it's too bad you can't go to Europe out of the savings of your \$12-a-week salary, or even tour the Mediterranean in a steam yacht as the result of careful economy on \$75 a month. But you can be cheerful on \$75 a week—I know it, for I've just succeeded in borrowing five to help me prove that the investment is true—you can be happy on \$50 a month, even if you spend a hundred, and in spending all you can afford and making it afford twice its worth, you'll be downright, genuinely cheerful, even if your creditors are not, and whoever heard of anybody trying to make creditors happy? That isn't what they're for.

THE IDLER. SURRENDERS HIMSELF TO THE AUTHORITIES. CLEBURNE, Texas, June 18.—One Ed Jones has given himself voluntarily in charge of the officers on account of a difficulty with a neighbor, Charles Young. Jones was stabbed twice, either cut being nearly fatal, though the patient may recover. The cause of the affair was a trifling difference over the crops of one being trespassing on the other's.

The outlook for the small grain crop is very promising. The oats yield will be from forty to a hundred bushels, the lowest and highest, moon estimate. In Johnson county, wheat about twenty-five bushels to the acre, though there is plenty of twenty-two bushels per acre. Wheat has begun coming in and many bushels of oats have already been sold. Thrashers are busy all over the county. Oats have brought from 40 to 50 cents. The present weather is fine for cotton, and is giving the small grain a chance to harvest his crop.

Two Cleburne and Johnson county pioneers are dead. Thomas Hollingsworth, Tuesday at Martine, was a well-known military known as "Uncle Tommie." He was a highly respected citizen and the sudden death is much deplored. T. J. Barr, father of Mrs. Barr, died Tuesday at Martine. Both Mr. Barr and Mr. Hollingsworth came here in 1870. Mr. Barr was 75 years of age and for several years had been making a northward journey. He never thought to live so long and this year was the first time his health did not permit of his making a northward journey.

The remains of Mrs. Lionel Wood were taken to Topeka, Kan., last night.

ABILENE CARPENTERS GO OUT ON STRIKE

ABILENE, Texas, June 18.—The carpenters at work on the new federal building here walked out on a strike this morning. The reason assigned for the action was the employment of a non-union painter on the building. The work is nearly completed and will soon be ready for occupancy by the postoffice, the federal court and the weather bureau.

The Epworth League conference and Sunday school convention, which have been in session here for the past three days, adjourned this afternoon. Selected Baird as the next place for the annual meeting. A jubilee service will be held at the Methodist church tonight and will be conducted by Rev. Mr. Irvin of Big Springs.

E. B. Cosby and son Edwin left today on a camping trip over several counties south of here, their object being for the health of the former.

Mr. Dr. Sherbro left today for Mantion Springs, Col., where she will spend a portion of the summer.

J. L. Andrews went to Big Springs today on business. A. H. Kirby left on the same train to Roby, where he and Judge Leggett have legal business.

LITTLE GIRL BURNED BY SCALDING COFFEE

BOYD, Texas, June 18.—The little 18-month-old daughter of Mr. and Mrs. E. P. State of this place was badly scalded today, overturning a cup of coffee upon herself. Dr. J. W. Lyle of Springtown is visiting his brother, F. W. Lyle of this place. J. S. Lane, a prominent business man of Decatur, was here yesterday. "Snow White" will be given at the Boyd high school building June 26 and 27. Under the direction of Professor J. B. Taliaferro, for the benefit of the Baptist church organ fund. Crops are looking well, but will need rain in a few days.

After a few introductory remarks by the agent, during which he expressed his sympathy and the sympathy of the president of the road and of the general manager and of all the other officers of the line, he announced that he was authorized to settle the widow's claim for \$2,000.

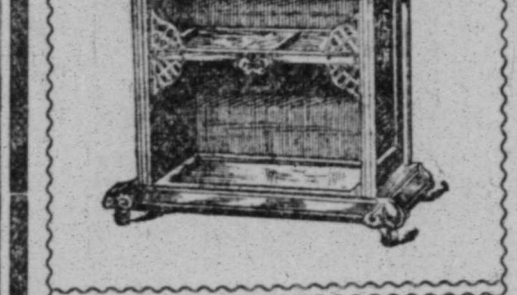

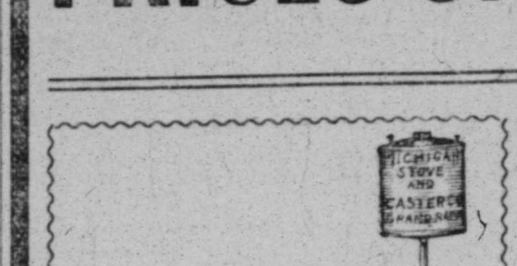

"I'll take it," the widow said promptly. Claim agents in those days took no more notice of the widow than they do now and this particular one once helped the now on his right hand, hustled her into his rig and rode off to town. He drove straight to a bank, filled in a check already properly signed and handed it to the widow, who at once drew the money and started out with it. As she left the bank she saw me. She ran up to me, all smiles, and handed me the money and exhibited the check to me. Then, as she was going, she turned toward me again with a sick look and said:

"I guess she didn't know how old dot mule was, later."

THE TEXAS PRESS

THE BRICK AGE OF TEXAS. The Fort Worth Telegram, referring to the reports from a few of the smaller towns telling of the construction of brick buildings there, calls the brick age of Texas. The increasing price of brick as a building material is a result of the steadily increasing price of brick as a building material. While this is true it is also to be desired that brick should come into greater use in our cities for pavements, as it has proved to be a most durable and of the best material for that purpose to be an unexceptional pavement. It resists the cold, and does not heat up under the summer sun as does the asphalt and is not so noisy as the asphalt. It is not so noisy as the asphalt, but it is a better pavement for the ordinary street, every other way considered. It is considered for use as material for a first-class vitrified brick is found in abundance and within short distance by rail from the streets where it would be used. It is not an untried experiment either, for it has been laid to the complete satisfaction of the city in the most exhaustive trial, that of years of actual use. The Light has for a number of years advocated this pavement and will continue to do so, whether the city fathers hear or forbear. It has commended itself by its durability, smoothness and cheapness as no other pavement laid down in this city has. Perhaps in the course of years the educational work of the Light in this and in other directions will tell in the benefit it can procure by the adoption of its sensible suggestions. In this and in the matter of a sensible railroad commission and an anti-trust legislation the Light has done much missionary work remaining yet to be done. It sows its seed in the morning (Sunday) and in the evening withholds not its hand.—San Antonio Light.

small crop grown by Mrs. C. J. Tannehill, which classed No. 2 and brought 70 cents. The crop made twenty-seven and a half bushels to the acre. The rains have somewhat delayed thrashing, but today a number of thrashers are at work in different parts of the county.

Farmers were never busier nor in better spirits. Everywhere work is being rushed from "early morn till dewy eve." The corn is in tassel and it is thought will make a fair crop without more rain, though another rain in a week or two will help it.

The Brownwood Bulletin is at work to get up a special Brownwood car to go to the farmers' congress at College Station, July 7 to 10, and reports good prospects of success. It is proposed to decorate this car with Brown county products and make it an attractive thing to the farmers who know but little of this section of Texas.

TRIES FOR A RECORD BUT ATTEMPT FAILS

The weather started out this morning to give us the hottest day in the year. Up to 11 o'clock it looked as though the thermometer in the United States weather bureau was going to mount up to the hundred mark. Then a sudden breeze, accompanied by a little rain, suddenly sent the mercury down again, and the all hope for another record day were gone.

SANDWICH SOCIAL PROVES A SUCCESS

BUSINESS MEN ENTERTAIN SEVERAL HUNDRED GUESTS

Lively and Enjoyable Evening Is Made Notable by the Introduction of the "American Tamales," L. L. Higby Being Its Discoverer and Sponsor

The business men who inaugurated and are continuing the plan of bringing their friends together in an informal way, were again the recipients of words of praise for their progressive hospitality when at Handley last evening they entertained with a "sandwich social." More than 200 responded to the invitation sent out by J. W. Spencer, L. L. Higby, W. C. Stripling, J. F. Waller, Rev. Luther Little, Dan Lydick, Dr. L. C. Chase, F. L. Jaccard, W. G. Newby, L. Gross, H. E. Gardner, Judge Dunklin, Rev. B. B. Ramage, J. P. King, William Capps and E. E. Foslack, and each with a sandwich in hand was invited to the upper story of the pavilion, where they found a long table extending the length of the promenade, handsomely decorated with fruit fresh from the vine and orchard, together with coffee and a special dish inspired by the occasion and prepared by L. L. Higby. It was an "American tamale," and if the recipe be not lost its popularity will overcome its disconcerting name. After the sandwiches the following toasts, with J. W. Spencer as toastmaster, were offered: "How to Have a Good Time," Rev. Luther Little; "How to Treat a Stranger," Rev. J. W. Caldwell; "Fort Worth," Clarence Ousey; "The Home," Rev. Frank Smith of Dallas.

Between the speeches there were musical selections by Dr. Chase, Holt Hubbard, John Bradley, Dr. White and Robert Fender, and at the close of the speaking there was a vocal solo by Elmer Callaway with a humming accompaniment by a number of male voices. The program closed with a vocal solo by Mrs. Groom, with Mrs. Scott as accompanist; a recitation by Mrs. Hunter Gardner that called for an encore, and the "Dance Waltzes," sung as a quartet by Miss Nellie Higby, Mesdames B. A. Rose, J. F. Waller and C. C. Curtice, the latter a former resident, noted as one of the most accomplished musicians in the state.

A COSTLY MISTAKE

Blunders are sometimes very expensive. Occasionally life itself is the price of a mistake, but you'll never be wrong if you take Dr. King's New Life Pills for Dyspepsia, Dizziness, Headache, Liver or Bowel troubles. They are gentle, yet thorough. 25c at W. J. Fisher's and the Reeves Pharmacy.

STEWART-BINYON'S NEW LOCATION

The new location is situated conveniently for truckage accommodations, and in the two floors and basement which the firm will have for its storage and transfer business, the Stewart-Binyon Company will have one of the best localities for this line of trade in the city.

WANT INJUNCTION SUITS DISSOLVED

HILLSBORO, Texas, June 19.—A special session of the city council was held last night for the purpose of taking action in the injunction suits of J. A. Jones and J. D. Clifton. The following committee was appointed by a vote of six to one with power to take such measures as are deemed necessary to dissolve the injunction: A. L. Blanchard, A. J. Smallwood and A. L. Smith. Alderman Nicholas voted against the appointment of the committee, saying the six aldermen who brought the suits on the council ought to pay the expenses of the suits. Alderman Smallwood retorted by denying that the six aldermen had brought the trouble on the city, that they had acted in a legal manner and for the best interests of the city and were backed up by the good people of Hillsboro. An effort will be made to get the injunction dissolved before the next meeting of the city council.

BIG FORCE OF MEN GO OUT AT CHICAGO

CHICAGO, June 19.—All work on the new post office and the First National bank building has been stopped by a strike of the building laborers. The entire force working on both buildings, numbering nearly 700 men, quit in sympathy with the building laborers. Only the carpenters remain at work. The hod carriers and building laborers union called the strike, because the carpenters insisted on setting and lowering centers and building and removing falsework built for the use of the brick layers and other skilled trades. This class of work the building trades organization have given to the building laborers.

## HAD HIS RIGHT FOOT AMPUTATED

OPERATION ON H. G. RUSSELL MADE  
NECESSARY BY ACCIDENT

Fell Under Freight Train While Attempt-  
ing to Board It in East Texas and Pa-  
cific Railroad Yards—Removed to St.  
Joseph's Infirmary

H. G. Russell, while attempting to  
board a Texas and Pacific freight train  
in the east yards Wednesday, fell under  
the cars and sustained injuries which  
necessitated the amputation of his right  
foot just forward from the instep.  
The accident happened about 5 o'clock.  
The injured man was brought to the pas-  
senger station in a box car and from  
there was removed to St. Joseph's infirm-  
ary in the ambulance. Drs. L. A. Withers  
and Harry Nifong attended him in the  
yards and accompanied him to the sanitar-  
ium, where they also assisted Dr. R.  
Chambers in the operation.  
Russell is a laborer, about 40 years old.  
He was endeavoring to board the train to  
ride to Dallas. He said he was not in-  
toxicated, but admitted that he had had  
two or three drinks.

## WATER THE SUBJECT FOR THE MEETING

An interesting program has been pre-  
pared by the Woman's Christian Temper-  
ance Union for the meeting to be held  
Friday afternoon at 3:30 o'clock, June 19,  
in the First Christian church. All ladies  
are especially urged to attend.

It will be remembered that last sum-  
mer the Woman's Christian Temperance  
Union had four barrels of free ice water  
on streets of Fort Worth and that many  
people declared that of all work ever done  
by the Woman's Christian Temperance  
Union this was the best. Gentlemen and  
ladies with their children coming in from  
the country found a cooling drink very  
refreshing.

These water barrels were kept filled  
principally by the voluntary contributions  
of those who appreciated the efforts of  
the women. Last summer one of the best  
meetings ever held by the organization  
was one in which each lady told of some  
good thing said about the water barrels.  
This experience is on the program for  
Friday. All are requested to bring a Bi-  
ble verse about water. The following is  
the program:

Singing—"Jesus, the Water of Life Will  
Give"  
Scripture lesson—"Giving the Cup of  
Cold Water."  
Song.

"The Best Thing I Know About Our  
Water Barrels of Last Summer."  
Possibly Mrs. Mattie R. Turner, from  
Terrell, the new vice president at large,  
will be present. Mrs. Stoddard will be  
in attendance.

sell of Springdale, Minn.; T. J. Anderson

## MOST POPULAR IN THE WORLD

What is the most popular advertised  
medicine in the world? A few years ago  
it was supposed to be a brand of pills  
made in England claiming a sale of 6,000,  
000 packages a year. This record is badly  
beaten, however, today by the famous  
American family medicine, "Cascarets,  
Candy Cathartic, which are selling at an  
average of over 20,000 boxes every day,  
over a million boxes a month, and over  
two million boxes a year. This appeal's to  
be the evidence of overwhelming popular-  
ity, the most noteworthy on record.

be put in operation at once, at the Lincoln  
colliery dirt banks, and 1,000 tons are to  
be employed.  
The Wesser patent consists in the use  
of 80 per cent coal dust, 15 per cent saw-

tities of waste coal dirt has been stored

## DENTON IS TO HAVE A CLEANING-UP DAY

DENTON, Texas, June 19.—Last even-  
ing at the Elk's hall, the executive com-  
mittee of the Civic Improvement League  
of Denton met with sub-committees to  
plan for general cleaning up day for  
Denton. A finance committee is raising  
money to defray the expense of cleaning  
the town thoroughly once, and it is ex-  
pected that the citizens will keep  
Denton clean. A personal canvass is to  
be made of the entire town—two persons  
for each street—to urge the necessity of  
putting the city in a more sanitary con-  
dition.

On July 2 the Civic Improvement  
League will send wagons to all parts of  
the city to collect rubbish and haul it out,  
without cost, to the householders. It is  
hoped that every man, woman and child  
will help by gathering up rubbish from  
yards, streets and alleys, and by having it  
piled in some convenient place, so that no  
time may be lost in loading the wagons.  
Four supervisors were appointed, one for  
each ward, to plan and oversee this  
cleaning.

First ward—C. H. Donahower.  
Second ward—T. M. Jones.  
Third ward—W. S. Fry.

Fourth ward—Dr. P. Lipscomb.  
It is expected that the league that  
every sidewalk in the city be put in proper  
condition. Street Supervisor Z. Wiggins  
will supervise the making of all sidewalks  
without charge. The estimate will cover  
endurable sidewalks—gravel, and oak  
plank curbing—can be put down for less  
per front foot.

## FORTY-CENT OATS IN CALLAHAN COUNTY

BAIRD, Texas, June 18.—Richard Cor-  
dwell, who lives in this county on Pecan  
bayou, brought in and sold 300 bushels of  
oats yesterday of this year's crop, at 40  
cents a bushel. He says he will make  
400 more bushels. He says his crop is  
making thirty bushels per acre. He also  
has forty acres of wheat, which he says  
will probably turn out fifteen to twenty  
bushels to the acre. Wheat is worth 65  
cents a bushel at Baird.

Ross McDermott, who was raised in Cal-  
lahan county and whose death occurred  
last Tuesday at Fort Worth, was on yes-  
terday buried in the Baird cemetery. His  
father and other relatives, who now live  
at Fort Worth, accompanied the body  
here. A large number of friends attend-  
ed the funeral at the Baptist church. The  
young man was 14 years old and highly  
respected.

An interesting protracted meeting is  
going on at the Baptist church in Baird,  
and is well attended and promises much  
good. The services are conducted by Rev.  
Aldridge of Mart, Texas, assisted by Rev.  
Underwood, the local pastor.

The Woodmen of the World have an  
unusually large attendance at this coun-  
ty, and several from Baird are attending.  
Mrs. B. L. Russell returned yesterday  
from the Fort Worth sanitarium, entirely  
restored to health.

has 5,000 acres of ranch property in Cal-  
lahan county, stocked with cattle, will be

### BACK PAINS

Many Fort Worth People Are Finding Quick Relief

Back pains are the protest of bad kidneys. Bad kidneys mean bad blood. Bad blood means bad backs. In time comes rheumatism, diabetes, urinary disorders, Bright's disease and dropsy.

Back pains are the danger signs. A Fort Worth citizen tells how to avert the danger.

H. Johnson of Jones and Elizabeth streets, says: "For a number of years I was a constant sufferer from distressing aches and pains across the small of my back and, although I paid quite a considerable sum of money on different remedies, I did not get the relief I sought for."

An advertisement of Doan's Kidney Pills which appeared in our local paper led me to begin the use of that remedy, and I procured it at Weaver's Pharmacy, on Main street. In a few days after I commenced the treatment I felt much relieved. It finally brought about such beneficial results that I feel it a duty to owe to my fellowmen to let them know this fact. Probably I did not follow up the first treatment as I should have done for some time later I noticed symptoms of a recurrence, but a few doses of Doan's Kidney Pills again brought the desired results."

Sold by all dealers, price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

cent paid in. Bear in mind, that The Telegram's fine horse and stanhope is not the only award that is being given away, but a \$200 diamond ring goes to the contestant receiving the second largest number of votes.

A year's subscription counts 1,800 votes, six months' subscription counts 900 votes, a three months' subscription counts 450 votes and one month's subscription 150.

Hustle a few votes and assist your favorite.
