

SOL-SEARCHING became the favorite pastime here Saturday as the solar eclipse created an eerie half-light at midday. Top photo shows the method used by many here to view the rare eclipse—the simple "pin-hole projector," utilizing two pieces of cardboard (or, in some cases, a shoe box) to capture the sun's image. Bottom photo shows the eclipse here at high noon, photographed through a sheet of exposed, processed film that was taped over the lens hood of the New's Rolleiflex camera. Note the mysterious horizontal glare, probably caused by a curvature in the film-filter. Remember these tricks so you'll be ready for the next solar eclipse in 2024.

Teenagers lead campaign against drugs

A group of concerned Dimmitt High School students this week took the lead in the fight to keep drugs from becoming a major problem here.

HOPING THAT an educated public will be the best defense against drugs gaining a foothold here, Dimmitt High School's Future Teachers of America chapter is trying to raise enough money to bring a former addict here to "tell it like it is" to the county's teenagers and parents.

The youths already had their project well underway when the new Castro County Drug Study Committee held its first meeting Monday night to search for ways to keep the drug problem out of the county.

DHS student Byron Hutto, a delegate to the recent Future Teachers of America state convention in Dallas, told the committee that one of the convention's most impressive speakers was Richard Perigo, a former addict who now makes public appearances to raise funds to help others who are trying to overcome dope addiction.

PERIGO represents "Help Is Possible," a non-profit corporation in Dallas that provides clinical help and moral support to those wanting to break their addiction to drugs.

The HIP speaker already has agreed to speak to students here April 6, Hutto said, but his speaker's fee and expenses will total some \$250, most of which will go to the "Help Is Possible" service fund to help addicts kick their habit.

Members of Dimmitt High's FTA chapter have been visiting civic clubs during the past week, asking for financial help to bring Perigo here to speak.

"MOST OF the people I've heard talk on drugs will put you to sleep," Hutto told the Dimmitt Jaycees Thursday, "but this guy is the best I've heard. He's been there and knows what he's talking about, and I hope every student in the county gets the chance to hear him."

The Jaycees — as well as most other civic clubs contacted by the youths — agreed to help. Also, the Dimmitt Teen Club plans to sponsor a fund-raising dance to help pay expenses of the April 6 program.

Upon a motion by Mrs. Mary Bechtel, the Drug Study Committee (See **TEENAGERS**, Page 11)

The CASTRO COUNTY NEWS

43rd Year — No. 22 Dimmitt, Texas, Thursday, March 12, 1970 20 Pages

Stock show to open Friday

More than 100 of the county's 4-H and FFA youngsters who have spent months feeding and grooming their project calves, lambs and barrows will put their work and investments on the line this weekend in the 16th annual Castro County Junior Fat Stock and Project Show.

ANIMALS must be in place today (Thursday), judging will be done Friday and Saturday, and the show will be climaxed with the traditional auction sale Saturday at 1 p.m.

Weighing will begin at 1 p.m. today (Thursday) and all animals must be in place by 5:30.

Judging will begin at 1 p.m. Friday on lambs and an hour later on barrows. Calf judging will start at 9 a.m. Saturday.

COUNTY Agent Charles Hottel reported this week that approximately 45 calves, 80 lambs and 160 barrows will be entered in the show.

How many of these animals qualify for judging is up to the sifters. Starting at 9 a.m. Friday, animals will be sifted for condition, quality, grooming and training.

The Dimmitt Young Farmers, who sponsor the stock show, have been busy every night this week putting the finishing touches on the county show barns in East Dimmitt.

THE WEATHER — which seems always to be bad at stock show time — should not be as noticeable inside the show barns this year, thanks to the county's remodeling project.

County workmen have installed new heaters, doors and lights in the fair barns. The Young Farmers are building a walkway between the barns, complete with a windbreak and several small holding pens. The Young Farmers and Dimmitt Ready mix have covered the floor of the show barns with sand.

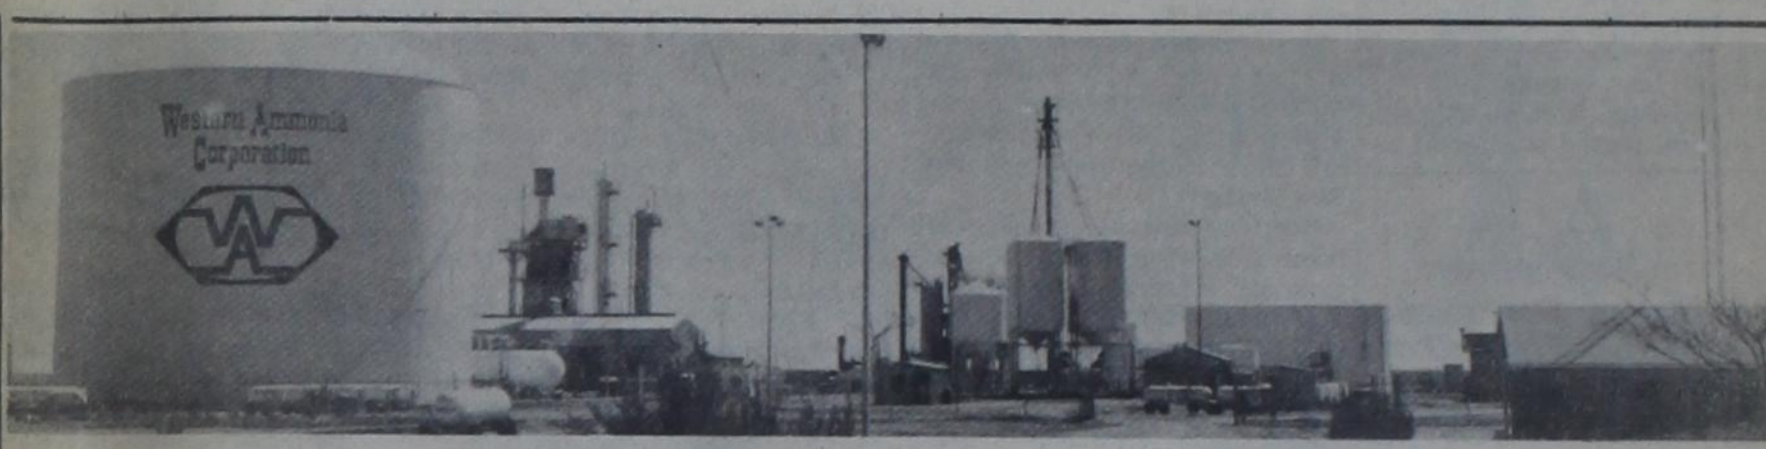

SATURDAY'S auction sale of animals is expected to be as lively as last year's which was the best ever.

Patrons' clubs, business, grand-nephews and show boosters will bid premium prices as auctioneers Jack Howell, Dean Sanders and Joe Newman put the animals on the sale block.

Saturday's sale will start with the auctioning of grand and reserve champion lambs, barrows and calves. Then all calves will be auctioned, barrows next and lambs last.

Last year the county's young showmen received a record \$32,908.30 for their animals, and buyers ordered 20 barrows and 11 lambs sent to the girls at Girlstown USA, near Whiteface.

A floor price — the price guaranteed (See **STOCK SHOW**, Page 11)

OUTPUT OF PLANT HERE TO BE MORE THAN DOUBLED ... From present 90-ton maximum to 200 tons per day

Major expansion planned

Dimmitt's Western Ammonia plant will be more than doubled in size by November and its agricultural chemicals will be marketed through 100 retail outlets instead of the present 17 as the result of the plant's purchase by Goodpasture, Inc.

GRADY Goodpasture of Brownfield, president of the \$100 million grain and fertilizer corporation that does business around the world, confirmed last Wednesday that his firm acquired all the stock of Western Ammonia Corp., including all its retail outlets, from the Elcor Chemical Corp.

Amount of the transaction was not disclosed. The stock acquisition was effective March 1.

Goodpasture said the Dimmitt plant, which now has a maximum output of 90 tons per day, will be expanded into a 200-ton-per-day facility and will employ an additional 15 to 20 men.

GOODPASTURE met with plant employees here last Wednesday and told them he would make no changes in personnel except the addition of the 15 to 20 new employees.

The plant's new owner said many of the additional employees would be truck drivers, and added, "We would much prefer to hire people locally before looking elsewhere."

Equipment for the plant already is being loaded in California, Ohio and other points, Goodpasture revealed. He said the plant expansion should be completed by November.

THE EXPANDED plant will produce a multitude of chemical solutions to be used in Goodpasture's Brownfield plant for formulation.

"We think Dimmitt will become one of our heavier distribution points," Goodpasture said.

He said the plant's products will include urea solutions of 53 percent strength, 42 percent ammonium nitrate and 54 percent nitric acid solution.

"THIS '54' will be combined for an end product of UA-32, what is termed '32 nitrogen solution,'" Goodpasture said. "It's a widely used grade solution."

He added, "Any one of these products can come off individually or collectively. We will produce about 70,000 tons a year of this end product at the plant."

He said the Dimmitt plant will continue with its present output of ammonia and sulfate products, "and also will make 20,000 tons a year of another basic product that we will use in Brownfield."

"WE HAVE several other products that have been made in Brownfield that will now be made in Dimmitt," Goodpasture explained. "One of these is 16-20-2, a higher grade fertilizer than 16-20-0. This product has met with considerable success."

The plant's products will go to various dealers to be marketed under many brand names, Goodpasture said. He added that the Western Ammonia brand will probably be retained on the local plant's present products.

The plant will supply retail outlets throughout the Panhandle-Plains area, through New Mexico and Arizona, and as far south as El Paso.

GOODPASTURE, Inc., does \$100 million worth of business per year in grain exports and imports, in (See **GOODPASTURE**, Page 11)

Seven elections jell

City sales tax issues and contested school board races will highlight seven elections on tap April 4 in the county.

MOST OF the races jelled last Wednesday and Thursday with the passing of filing deadlines. Monday night the Hart City Council tossed another choice into the election pot by calling for a vote on a city sales tax.

Included in the April 4 voter-ama will be the city sales tax elections in Dimmitt and Hart, school board elections in all three school districts, election of city commissioners in Dimmitt, and a county-wide election for trustees of the Castro County Hospital District.

ABSENTEE balloting will begin Monday on all the April 4 elections.

Here's a summary of the eight elections on tap:

CITY SALES TAX ISSUE
Dimmitt and Hart voters will have the choice of joining most neighboring cities in establishing the one percent city sales tax, or rejecting it as Hereford and Friona have done.

If the tax is adopted, merchants will collect an extra one percent on specified retail goods, and the money will go into the city's general fund.

OFFICIALS of both Dimmitt and Hart have listed inflation as the reason for the sales-tax election calls, and have put street construction and maintenance as the main priorities for sales-tax funds if voters give the nod. Dimmitt City Manager E. B. Noble said Dimmitt residents may face a property tax increase if they turn down the sales tax.

Absentee balloting will begin Monday in the city halls of Dimmitt and Hart.

DIMITT SCHOOL BOARD
With two seats at stake, the Dimmitt School Board election became a five-man race last Thursday as one candidate withdrew and two others filed.

Ellis Mayberry withdrew his name from the race, and Dr. David Bechtel, veterinarian, and Charles Wales, Bethel farmer, filed petitions on the last day.

Candidates who had filed earlier are Dr. J. D. Blackburn, Loy Stone and incumbent Frank Wise. The other incumbent, G. L. Willis, is not seeking re-election.

Absentee balloting will begin Monday in the school district business office at Dimmitt High School.

NAZARETH SCHOOL BOARD
It's a contested race also for the Nazareth School Board, with four candidates seeking two seats.

Candidates are Hubert Backus, incumbent Charles Heck Jr., William C. Hochstein and Leonard Schulte.

The second incumbent whose term is expiring is John Schacher, who is not seeking re-election.

'Miss Dimmitt' date is May 2
Dimmitt's Jaycees have set May 2 as the date of the 1970 Miss Dimmitt Pageant.

BOB FARRER, Dimmitt High School speech and drama teacher, will be the general chairman of the pageant.

Jaycee President Don Nelson said entry forms will be distributed soon to Dimmitt High School and downtown businesses. Entry deadline will be April 25, he said.

The pageant will be open to all single Dimmitt girls 16 to 21. Also, the popular "Little Miss Dimmitt" contest will be conducted for pre-school girls over 3 years of age.

The reigning Miss Dimmitt is DHS senior Barbara Hansen, daughter of Mr. and Mrs. Walt Hansen.

Absentee voting will begin Monday in the Nazareth school superintendent's office.

HART SCHOOL BOARD
Hart's school board election will be quieter, with three men seeking three available seats.

With the terms of W. T. King, Ralph Futrell and Robert Hawkins expiring, only one is seeking re-election. King, who was appointed to the board last year, has filed for a full term. Seeking the two remaining seats on the board are Wamon Foster and Bill Rich.

Absentee voting will begin Monday in the district's business office in Hart High School.

DIMITT CITY COMMISSION
The city commissioners' race in Dimmitt apparently will be a shoo-in. Commissioners Noel Golehon and Troy Kirby have filed for re-election, and no one filed to oppose them.

Absentee balloting will begin Monday in city hall.

HOSPITAL BOARD
Election of two trustees to the governing board of Plains Memorial Hospital will apparently be a shoo-in also, with incumbents James Horton and Donald Wright the only ones to file.

Both men are seeking second terms on the hospital board. Absentee balloting will begin Monday in the hospital administrator's office.

The Junior Fat Stock Show blizzard struck a little early this year, that's not saying, however, that it will dissipate before the annual event is held. I have been at practically all, if not all, of the Junior Fat Stock and Project Shows for the past humpteen years and not once can I remember pretty weather holding during the show.

If the cold spell that moved into the area Monday night will give away to another siege of spring weather before the judging starts it just might be that we will have a pretty sale day before another cold spell can put in an appearance.

According to all reports this year's junior stock and project show bids fair to be one of the best in history, and as usual it is expected that supporters of the young farmer trainees will be on hand to lend their encouragement and financial support by paying premiums on the livestock projects offered for sale at the conclusion of the show.

A group of high school boys visited the various civic and service organizations of our city this week and made an appeal for help in a project that is certainly worthwhile. These young men were in Fort Worth recently and had an opportunity to hear an ex-convict, who had also been a drug addict, tell about his personal experience with harmful drugs that eventually resulted in a prison sentence.

The boys were so deeply impressed by what the man had to tell about the results of the use of dangerous drugs, that they made arrangements to have him come to Dimmitt to tell their friends of his tragic experience. Needless to say, the boys received the enthusiastic support of the various organizations they contacted and the expense money was readily subscribed, with the project receiving the endorsement of every club.

No doubt young people of the county will benefit from hearing the actual sordid facts from a person who has suffered the agon-

Last rites held for Gaines Neill
Funeral services were conducted Friday morning for Gaines Neill, 78, farmer and rancher in the Bethel community.

MR. NEILL, who had been a resident of Castro County 33 years, died March 4 in Plains Memorial Hospital.

Last rites were conducted at 10 a.m. Friday in the First Baptist Church of Dimmitt. Rev. C. T. Cunningham, pastor of the First Baptist Church of Hart, officiated. He was assisted by Rev. Jim T. Pickens, pastor of the First United Methodist Church of Dimmitt.

Burial was in Castro Memorial Gardens, under the direction of Dennis Funeral Home.

MR. NEILL, who was born Aug. 21, 1891, in DeLeon, was a member of the Masonic Lodge.

He is survived by his wife, Birdie; a son, Jack, of Springfield, Ore.; a daughter, Mrs. Inez Winton of Burbank, Calif.; three stepdaughters, Mrs. Waurayne Hughes of Dimmitt, Mrs. Katharin Marx of Corsicana and Mrs. Walden Holt of Kalamazoo, Mich.; two brothers, Otis of Slaton and O. W. of Lamesa; two sisters, Mrs. F. C. Eaves of Gorman and Mrs. Paul McDonald of Dallas; seven grandchildren and two great grandchildren.

Palbearers at the funeral were Jack Howell, Charlie Garza, Boyce Carter, P. O. Goodwin, J. O. Seale and Jack Gregory.

HONORARY palbearers were W. E. Kirkpatrick, C. W. Brothe, Edwin and Edgar Ramey, Frank Mears, North Humphries, Swain Burkett, Moss Howell, B. E. Sinclair, Ester Noble, O. T. Vardell, R. E. Catoe and Bill Snider.

Hospital plans new LVN school
Plains Memorial Hospital will begin another Vocational Nurses' School April 6.

APPLICATIONS are to be made in person to Mary Baldrige, supervisor of nurses, from 9 a.m. to 3 p.m. Monday through Friday.

Deadline for applying is March 27, to give the hospital staff enough time to give entrance tests and notify those accepted by April 1.

The nursing school will be conducted eight hours a day for a year, and the enrollment fee is \$175. Student nurses will spend their first six months mainly in class work, then will spend most of their time in floor work the second six months.

THOSE successfully completing the course will receive graduation certificates as graduate vocational nurses, then will be qualified to take state exams to become licensed vocational nurses.

General salary range for licensed vocational nurses is \$300 to \$500 per month.

The class will probably be made up of eight to 10 student nurses, and most of the graduates, upon passing their state exam and receiving their licenses, will be guaranteed positions with Plains Memorial Hospital.

Band program to be 'model'
The American School Band Directors Association has chosen Dimmitt High School's instrumental program as "one of the outstanding programs in the nation."

AS A result, DHS Band Director Ralph Smith's program here will be used to help establish a basic study course and curriculum guide in instrumental music education, to be used as a model by school band directors throughout the nation.

"A group of highly selective musicians have cooperated in nominating communities and their organizations who they feel would give validity in establishing the basic course," project director Donald W. McCabe notified Smith and DHS Principal Ike Moore.

"This is a project that upon completion could assist in placing instrumental music in the schools at the highest level of achievement and recognition."

Those assigned to draw up the basic study course will gather information on Smith's band program and evaluate it to determine how Dimmitt High produces consistent sweepstakes winners.

Meningitis victim is doing well
Philip Brandon, Dimmitt youth who was stricken with meningitis last week, was reported to be "progressing satisfactorily" Wednesday morning in Lubbock's Methodist Hospital.

"THE PHYSICIANS in Lubbock are very optimistic about his condition," the youth's Dimmitt physician reported. "He has been moved from the intensive care unit into a private room, and a tracheostomy tube that was implanted his second day in the hospital has been removed."

The 17-year-old youth, a Dimmitt High School junior, is the son of Mr. and Mrs. Ike Brandon. He was admitted to Plains Memorial Hospital March 2 and was rushed to Methodist Hospital the same day after preliminary lab tests indicated meningitis.

Upon the order of Dr. J. D. Blackburn, county health officer, hospital and school officials and pharmacists here joined forces to distribute preventive medicine to those who may have been exposed to the dread disease. More than 300 persons received sulfa diazine and penicillin tablets.

FINAL diagnosis in Lubbock late last week confirmed that Brandon had contracted meningococcal meningitis, described by Dr. Blackburn as "one of the worst types" of the disease.

"All the precautionary measures we took were in anticipation that this was the type he had, so the preventive steps we took were the correct ones," Dr. Blackburn said.

"No other cases have been reported in this area, that we're aware of," he said.

REMEMBER WHEN?—Once upon a time this week, it was springtime. Here, Adela Barrera, 9, and her sister, Maria, 12, take advantage of the 70-degree weather and 15-mph breeze Sunday afternoon to send their "Moon Bird" kites aloft. But Monday a bitter cold front swept through, chasing all young kite-flyers back inside, and an inch of snow was on the ground Wednesday morning, with more predicted. Adela and Maria are the daughters of Mr. and Mrs. Cecil Barrera, 407 SE Sixth St.

Shelley's chatter

Name the city or country--we've got somebody there!

By MYRTLE SHEFFY
"Trips" by air, car and ship, I have heard about. A good one to the Gulf Coast was made by Gloria and Aaron Isaacs last weekend. They attended a soybean and seed meeting or conference at Brownsville. Aaron was guest speaker Tuesday morning. He spoke on the history of Dimmitt Wheat Growers. They went by car to see places of interest. The ladies had luncheon and a tour of Padre Island and Matamoros. The Isaacs came home by Rockwall and the LBJ Ranch. They saw many wild turkeys and deer. The highways are lined with wild flowers. Gloria says it is truly a beautiful Texas now.

WARD AND Oleta Gothen and his brother Pete and Mrs. Golden are home from a flying trip to the Bahamas. They took a ship cruise on the Caribbean Sea. Leonard and Rosemary Wilhelm of Nazareth went to Germany to visit their daughter Joy and her husband Larry Ringwald, who is in the service. They went by car to Rome, Austria, in fact all over the country. Fred Bruegel Sr. helped them plan the trip. Sounds wonderful. I am envious.

Mr. and Mrs. Melvin Tiemann and children moved to Dimmitt recently from Nauvoo, Ill. Mr. Tiemann is an animal feed salesman. I have a card from Celeste and Alfred Dutton, who are having a fine time down at Deland, Fla. She says the flowers are beautiful and they are fishing in the St. John's River. The Duttons farm off the Earth road, south of the draw.

Mr. and Mrs. Clarence Bearden spent the weekend at Hollis, Okla. visiting her sister Naomi Ruth Patton and family. The daughter and her husband Mr. and Mrs. Loyd who is in the Army at Washington, D.C., are home for a visit with the Pattons.

Roy and Ann Carpenter just came home from California. They went south this week to the Houston and Gulf Coast area to visit his brother and do some fishing. I saw Mrs. E. M. Green and Mrs. Henry Matthews in the News office one day. The Greens live on the Baird Ranch at Junction and the Matthews moved here from Wichita, Kan. They also live on the Baird Ranch.

THE Dimmitt Garden Club will meet at the Colonial Inn dining room March 18.

Mrs. Mildred Howell, designer and manager of Decorator Floral in Muleshoe will be the speaker. The time is 11:30 a.m. Hostesses are Mrs. George Webb and Mrs. Wes Anthony.

Rev. and Mrs. Lee Stanford are home from their trip to San Antonio and Houston where they visited their children, and a while back they went to Albuquerque to see son Paul and his wife Betty.

Mrs. Nolan Froehner is doing fine from recent surgery at Lubbock. She had a small extra rib removed.

Mrs. Swain Burkett has been visiting son David, and family in Fort Worth, the past week.

Mr. and Mrs. L. V. Cole and daughter Lori were hosts at a big party Friday night. They sat out pick-up foods for 75 high school kids. Games and talk were enjoyed. The boys went home and the girls spent the night. Don't know where they put so many folks.

MR. AND MRS. Edgar Ramsey were hosts with a steak dinner at the Colonial Inn with bridge later at home. This was Thursday night. Their guests were Mr. and Mrs. Horace Carlile, Mr. and Mrs. J. C. Gilbreath, Mr. and Mrs. Ray Riley, Mr. and Mrs. G. E. Miller, Mrs. Pearl Sheffy and Mr. Swain Burkett. Mrs. Carlile was high score winner for the guests and Mrs. Riley and Goodwin Miller were high scorers for the mem-

bers.

Mrs. Betty Singer writes to Sue Miller that she is getting settled at Naples, Italy. They like it there. The children are in a private school and must walk a mile. They are near an American Air Force Base so the language barrier won't be bad.

Mrs. George Worrell and daughters of Lamesa have been visiting her mother Leola Haberer. Dr. Worrell is pastor of the First Baptist Church there.

The Nazareth Church ladies were hostesses to the World Day of Prayer Friday. A theme "Take Courage With Scripture Passages," was given by leaders, Mrs. John Womack and Mrs. Cornelia Amen, with the congregation taking part. Nineteen ladies from the Methodist Church in Dimmitt attended. The hostesses served many good cookies and coffee.

We visited Father Stanley and had a tour of his house. Father Stanley has a large library. He has written several books and small booklets on different and interesting towns in New Mexico. He is writing a history of the Panhandle, the ranches and other phases of this area. He also does oil painting. He is a man worth getting acquainted with. Maybe he will let you read his books.

MR. AND MRS. Eddie Drerup, Mr. and Mrs. Irvin O.T. Harold Stephens and Dick Perrin went to Houston this week where they attended a Federal Land Bank stockholders meeting. They will stay at the Shamrock Hotel. The big banquets and business meetings were enjoyed. Mrs. Ott plans to stay two weeks with her sister LaVita. They always make the antique stores.

Mrs. Joe Thompson and daughter Mrs. Emory Hunter of Wellington were weekend guests of

MRS. BILL BOOHER was hostess to her kin this weekend - her brother G. R. Underwood of Dallas, a sister Permia Underwood of San Diego and Jack of Los Angeles, her sons, Ray Aldridge and family of Lubbock and Jim and Melba Aldridge of here.

Recent guests in the home of Mr. and Mrs. Howard Coody were their daughter and family, Mr. and Mrs. Robert Gilland of Odessa, Gail Polk of Plainview and Gary Don Bailey came by. He lives in Plainview now but was in the US Service stationed in Okinawa. He is the son of Everett Bailey, a former Dimmitt resident.

I have just heard that Sue Lust was voted sophomore class favorite at WTSU. Sue is the daughter of the Houston Lusts.

The Lusts went to Amarillo Sunday to visit her sister and family, Mr. and Mrs. Bill Avent.

JAMES AND Rhonda Killough and little son Scott and Janice and Brian Sprayberry visited James' parents Mr. and Mrs. W. C. Killough in Big Spring last weekend.

Mr. and Mrs. D. R. Proffitt of Tahoka were weekend guests of son Jasper and Nell and family.

Elvis and Jennie Burch of Salida, Colo., were here attending his mother's business. Nell Copeland returned home with them for a visit.

Chic and Doris Smith of Leveland came over for Friday night supper with Ned and Thelma Smith. Thelma is a sister of Tommy and Eddie Robertson. She

works for Dr. Murphy.

Frances Goodwin is home from a pleasant trip to the Valley City of Dorna, where she visited daughter Ricki and family. The oranges and grapefruit are very beautiful now she says. Donna is the garden club town that does so many things.

JACK BRADFORD of SMU in Dallas came home for the weekend.

Graham Sheffy of the Marines, was at 29 Palms, Calif. He is home for a few days and will be relocated at Yuma, Ariz.

Tommy Youts, son of the Charley Youts, enlisted in the Navy, but failed to pass his physical, because of ear trouble.

Lee Buchanan was in school at Dallas and he enlisted in the Army at Fort Ord, Calif. He is the son of the Earl Buchanans. Lee's wife, Tommie, works at Super Market. Lee and Tommie finished school here a while back.

Charlotte and Bill Stroud and children, Doc, Rick and Tanya of San Angelo were here for a few days visit with her parents Charley and Wanda Youts. Bill is with the John Deere Implement Co. there.

Charles and Carolyn Coggins, daughter Carol and son Carl have moved to the Autry farm south of town from New Deal. They attend the Methodist Church. Carl is in the fifth grade. Welcome to our town.

DR. AND MRS. Harold Bischoff and children have moved to Lordsburg, N.M. from Los Cruces. Dr. Bischoff was asked there by a special committee to practice medicine there.

Mr. and Mrs. Russel Moran were in Pampa on business and they visited Rev. and Mrs. Hugh

Blaylock, who lived in Dimmitt a few years ago.

Johnny Coody, son of the Howard Coody's have been in Vietnam. He plans to go to the Veterans Hospital in Amarillo for observation. He received a gunshot on one side of his head while there.

Mrs. Lela Blymiller and son Bill of Terlock, Calif., are here for a week's visit with Lela's daughter, Mrs. Howard Cook and family. Mrs. Cook goes to Plains Memorial Hospital Tuesday for surgery. Good luck Beth.

Mrs. Jim Elder is recuperating from major surgery in a Plainview Hospital.

Norris Wesson is some improved. He is at Methodist Hospital in Lubbock.

The Roy Cluck family and Mrs. Frank Morzingo of Memphis had a get together Sunday at a dinner in the Colonial Inn dining room.

THE BRIDGE and Domino party at the County Club Saturday night was a big success. There were 18 tables or 72 folks. The Presbyterian ladies served many foods and coffee. They are planning another party soon. Let's all go.

Keith and Dera Kay Lowe and children have moved to Denton from Idalou. Keith is in the insurance business. Dera Kay is the daughter of Sheriff and Mrs. Cartwright.

Shirley Leinen, a student at Texas Tech, was home last weekend to visit her mother Florene. Shirley told me that she and 16 other students went to Carlsbad to see the caverns, on to El Paso, crossed the river to Juarez, then decided to go home by way of Cloudercroft and Ruidoso to do a little skiing. They had fun. Her grandmother Mrs. John Stork of Nazareth, was brought in to

Plains Memorial Hospital Sunday. She was very ill and had pain around her heart, but seems it was not a heart attack.

SCIENCE and GOD

Not too long ago, a man determined from accounts in the bible that oil could be found in certain areas of bible lands . . . now this country is rich in oil wells. In the past, vigorous arguments arose between some scientists and bible scholars, however with the passing of time, new discoveries in science have helped us to have a better understanding of God's word and now most scientists and bible scholars are in accord. God's word has not needed to be proved, for it will stand forever. "For the earth shall be filled with the knowledge of the glory of the LORD, as the waters cover the sea." ATTEND CHURCH AND STUDY GOD'S WORD.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

AEROSOL FIRE—Ben Bullard creates a cloud of fire as he sprays insecticide from an aerosol can onto an open flame during a demonstration for the Dimmitt Volunteer Fire Dept. last Thursday night. He created the same "aerosol fire" with women's and men's hair sprays to show the danger of using spray-can products too close to a heater or stove.

Fire Department speaker shows that even steel can be burned

Nothing is fireproof and anything will burn. **THIS FACT** was brought out by Ben Bullard, assistant director of safety for Texas Farm Bureau, in a graphic fire demonstration given last Thursday night for members of the Dimmitt Volunteer Fire Dept.

The 45-minute demonstration, using a variety of materials, was presented in the city fire house.

THE "FIRE triangle board" was used to illustrate what fire is and how to effectively control fires. Bullard showed that any fire must have fuel, air and energy (heat). Removal of any one of these elements will extinguish a fire.

By igniting a piece of steel wool with a dry cell battery, Bullard proved that even steel will burn under the right conditions, and disproved the erroneous theory that a flame must be present in order to have a fire.

In a specifically prepared explosion chamber, Bullard created an explosion with a single drop of gasoline comparable to a shotgun blast. The assistant safety

director explained that a gallon of gasoline contains 155,000 drops and has the explosive potential of 30 sticks of dynamite. He urged caution in the handling and storage of petroleum products and other flammable liquid materials.

After demonstrating how fires can be caused by overloaded electrical circuits and improper fusing, Bullard pointed out that many fires of this type are blamed on faulty wiring. He suggested that "faulty thinking" is involved more often than "faulty wiring."

The demonstration, which was brought to the fire department under the sponsorship of the Castro County Farm Bureau, is part of a long-range fire prevention program now being conducted by the Texas Farm Bureau Safety Department. The demonstration has been presented over 750 times for some 200,000 people.

"Shorty" Barlow, program chairman, assisted Bullard during the demonstration.

Special guests at the program were City Manager E. B. Nobie, and firemen from Hart and Earth.

New Amarillo center will help train brain-damaged children

A unique non-profit center for the rehabilitation of brain damaged children — the Institutes for Neurological Organization and Learning Disabilities, Inc. — has opened at 2417 S. Kentucky in Amarillo.

UTILIZING a widely practiced "patterning" technique, the Amarillo Institutes provide an integrated and interdisciplinary approach to the problem of children with a diagnosis of brain injury, cerebral palsy, retardation, aphasia, dyslexia and brain dysfunction.

"Patterning," also known as the Doman-Delacato program, is designed to train the uninjured portions of the human brain to take over the functions of injured areas.

After a three-day evaluation period in Amarillo, the child's "patterned" program is conducted at home, with periodic checks and testing by the Amarillo specialists.

The Institutes also provide a specialized program in the areas of Reading and Speech Pre-school Learning and Child Development.

Professionals, educators, parent and others desiring information on the institute's programs should contact Don Zeman, director, Institutes for Neurological Organization and Learning Disabilities, Inc., 2417 South Kentucky, Amarillo, 79109, telephone 355-7811.

'Appeal' letters mailed this week

Easter Seal Appeal letters are being delivered this week in Castro County, according to Mrs. Walter Maynard, county Easter Seal representative.

As representative, Mrs. Maynard serves as local contact for disabled persons needing Easter Seal rehabilitation services and also is treasurer of the Easter Seal Appeal here.

THE EASTER Seal Society offers physical and occupational therapy, speech and hearing programs, and special equipment loans to enable disabled persons to make the best use of their abilities to overcome handicaps. These services are financed by the annual Easter Seal Appeal.

The society also provides for research into the causes and cures of crippling conditions, finances public education programs and provides scholarships for training of professional personnel to staff rehabilitation centers.

Mrs. Maynard pointed out that all of these programs are important if Texas is going to continue to provide the best in rehabilitation services for its own disabled citizens.

DURING 1969, the Texas Easter Seal Society helped to provide treatment and services to 20,378 children and adults who were in need of rehabilitation services. These services are available to any disabled person who can benefit from help provided by the Easter Seal Society, Mrs. Maynard added.

The 1970 Easter Seal Campaign will run through Easter Sunday, March 29.

Before

CONVERTED HOTEL—Where once there was a hotel, there is now a unique "new" home in Dimmitt. Mr. and Mrs. Carl Lee Kemp have completed the conversion of the Brashears Hotel into a spacious two-story home, and the "before" and "after" difference is striking. Photo at left shows the original hotel built by the late Mrs. Etta Brashears in 1930. The red-brick hotel contained seven bedrooms and a bath upstairs. Photo at right shows the dramatic change brought about by the Kemps' remodeling project. After purchasing the hotel property from Mrs. Brashears' family last fall, Mr. and Mrs. Kemp had nearly every part of the hotel reconstructed, except for the original brick walls. Both back

chimneys were taken down and a fireplace and chimney added to the west wall; the original garage was replaced with a new one which is now attached to the home by a breezeway; trees and shrubs were taken out to make way for the attractive circle drive in foreground; the roof was replaced; the interior was completely rebuilt; a patio was added in the back. But the most striking difference, at first glance, is the color change—the once-red hotel is now an avocado green, with olive-green shutters and trim. During its 40-year history, the landmark building has been the home of many Dimmitt residents including Kemp's parents.

Bethel news

How good were good old days?

By MRS. JACK RISTER
Mr. and Mrs. J. D. McLeroy, Sharon and David visited Saturday in Levelland with Mr. and Mrs. James Osborn and family, Mrs. J. D. McLeroy, Wayne, and Ronnie. On Sunday they visited

Mrs. L. H. Hooper in Morton and Mr. and Mrs. Tolle Hooper and family of Pascos.

Mrs. Bud McElroy visited her mother Mrs. L. H. Hooper of Morton.

Joe McElroy was a Monday night supper guest of the Bud McElroy family.

★
MR. AND MRS. Earl Walker, Mary Nell and Earlene and Mr. and Mrs. Eugene Brewer and children visited Earl's sister, Angie Nell Walker, in Amarillo Sunday.

Mr. and Mrs. Jack Rister and Mrs. C. C. Rister visited Sunday afternoon with Mr. and Mrs. J. D. Bradley and boys of Levelland.

Mr. and Mrs. Charles Wales, Mrs. Vern Lust and Mrs. Earl Lust were among those from the Dimmitt Methodist Women's Society of Christian Service, who were in Lubbock Tuesday to attend the Northwest Texas Conference annual meeting of the society.

Mr. and Mrs. Martin Young ate supper Sunday night with Mr. and Mrs. Joe Andrews in Dimmitt.

★
MR. AND Mrs. James Welch visited Larry Davis in High Plains Baptist Hospital Monday night.

Becki Carpenter was the weekend guest of Rhonda Welch.

Mrs. Jimmy Howell visited Mrs. Ruth Murphy and baby girl in High Plains Baptist Hospital.

Mrs. Jimmy Howell visited Mr. and Mrs. J. E. Henderson and Mrs. Buddy DeFord and boy in Amarillo last Tuesday.

★
COLLEENE Howell of Amarillo visited Mrs. Moss Howell over the weekend.

Mr. and Mrs. Billy Carson have moved to the Bob Anthony farm.

Mrs. Leona Stiles and Mr. and Mrs. Vern Lust visited in the Glenn Lust home at Lazbuddie on Monday evening.

Mr. and Mrs. Clarence Galloway spent Wednesday night with the Earl Lusters. Mr. and Mrs. Vern Lust joined them for supper. Mr. Galloway lived in this area in the early 1930's. He is a cousin to Mrs. Earl Lust and Mrs. Vern Lust. The Galloways live at Lone Pine, Calif.

The Bethel Home Demonstration Club met Wednesday with 20 members and one visitor present. Mrs. Schwen had charge of the program called "Time to Remember." She gave a description of living conditions 40 or 50 years ago. They younger members of the Club decided that in many ways the "good ole days" were not always so good. Mrs. J. C. Williams showed pictures, old and recent ones of club members and their families. Hostesses were Frances Smith and Sandra Bagwell.

Our hearts were all saddened this week by the loss of a neighbor and friend, Gaines Neill, 78, well-known farmer for 31 years. He passed away at 5:30 a.m. Wednesday in Plains Memorial Hospital after a six-week illness. Funeral services were held at 10 a.m. Friday in the First Baptist Church. Rev. C. T. Cunningham, pastor of the Hart First Baptist Church and the Rev. Jim Pickens of Dimmitt officiated. Burial was in the Castro Memorial Gardens under the direction of Dennis Funeral Home. Survivors include his wife Birdie, one son, a daughter, 3 stepdaughters, and several grandchildren.

The Home Demonstration Club served dinner Friday at the Gaines Neill home.

★
MR. AND MRS. Hubert Schuler and family of Friona visited her parents, Mr. and Mrs. J. T. Stehr, and also helped Mrs. Stehr celebrate her birthday. Her son Cecil called from Kansas to wish her a happy birthday.

PLAINS MEMORIAL HOSPITAL
It's a boy for Mr. and Mrs. Tomas Pira Jr. of Dimmitt. He was born March 3 weighed 6 pounds, 1 1/2 ounces, and has been named Gilberto.

A 6-pound daughter was born March 5 to Mr. and Mrs. Andrew Gonzales of Dimmitt. She has been named Mary Guadalupe. PICK UP ADD OUT OF TOWN

A 9-pound, 2-ounce boy was born Jan. 24 to Mr. and Mrs. Wayne McClenney in Spahn Hospital, Corpus Christi. He has been named Stephen Rhett. The baby boy's mother is the former Lee Martin of Dimmitt. Grandparents are Mr. and Mrs. W. E. McClenney and Mrs. M. C. Martin, all of Dimmitt.

● On the Go
VISITORS in the home of Mrs. Mary Booher over the weekend were her brother and sister-in-law, Mr. and Mrs. G. R. Underwood of Dallas; her nephew, Jack Underwood of Los Angeles; her sister, Pernie Underwood of San Diego, Calif.; her sons, Ray Aldridge and family of Lubbock and Jim Aldridge and family of Dimmitt; and her grandson and his wife, Mr. and Mrs. Jimmy Aldridge of Lubbock.

Offstage talent

THE DRESSING ROOMS backstage at Dimmitt High School auditorium now have a colorful, original new look, thanks to students in Mrs. Sue Broderson's five art classes. In the girls' dressing room (top photo), multi-color signatures of theatrical greats adorn one wall, while dressing table mirrors reflect the original art on the other wall—a symbolic juggler, audience eyes and bike-riding cryers commanding, "We

Must Act." The room's doors hold caricatures of two famous Carols, Channing and Burnett. Boys' dressing room (bottom photo) contains multi-color wall mural copies from Broadway program cover in positive (above mirrors) and negative (reflected). Cabinet door at left contains portrait of a well-known 39-year-old comedian.

Frio news

Church conducts mission studies

By Mrs. Owen Andrews
The WMU and other organizations of the Frio Baptist Church observed Home Mission Week this week with special study sessions. The WMU met in the homes of Mr. Jackie Andrews, Mrs. Clark Andrews and Mrs. Earl Harkins, and on Wednesday evening the men of the Brotherhood, under the leadership of Mike Waldrip, presented a program. Clark Andrews and Billy Warrick were speakers, and a film of mission and Baptist Church work in the northeastern states was shown.

MRS. FLOYD NEIL and new daughter, whom they have named Kathleen Jean, came home from the Deaf Smith County Hospital Friday morning. The baby, weighing 6 pounds, 13 ounces, was born March 4. Grandparents are Mr. and Mrs. Elza Warrick and Mr. and Mrs. Leo Neil.

Mrs. Sprayberry shower honoree

Mrs. Brian Sprayberry, the former Janice Killough, was the honoree at a bridal shower Saturday afternoon in the community room of the First State Bank.

IN THE receiving line were the honoree; her mother, Mrs. Bob Killough; and Mrs. M. B. Sprayberry of Crosbyton, mother of the groom.

Ruthie Harris served lime punch and homemade cookies from a table covered with a Mexican drawn-work white cloth. The centerpiece was a bridal doll and flowers.

Kathy Griffin registered the guests. Out-of-town guests included Mrs. Shirley Studer of Amarillo, Mrs. Lucile Killough of Muleshoe and Mrs. Homer Newton of Hereford.

SHARING hostess duties were Mrs. Jeannie Miller, Jo Gregory, Lucile King, Cleo Seely, Della Chapman, Nell Proffitt, Lois Cole Millcent Davis, Carolyn Wiseman, Clara Neumayer, Ruby Webb, Alice Killingsworth, Martha Isaacs, Estella Hottel, Ceal Carlile, Oma Stokes, Frances Goodwin, Thelma Smith, Janice Bell and Waldine Webb.

The newlyweds are now living in Lamesa, where he is the assistant manager of Perry's variety store.

SCHOLARSHIPS and fellowships provided by the Easter Seal Society have made it possible for hundreds of doctors, therapists, and other professional workers to join the ranks of skilled rehabilitation persons serving the physically handicapped.

in their home between Springlake and Olton. Mr. and Mrs. T. L. Sparkman Jr. and Mr. and Mrs. Eugene Baldwin also called at the Livesay home during the afternoon. The T. L. Sparkmans also visited his uncle, Mr. and Mrs. F. J. Springer, at Kress.

The H. E. Lindleys entertained several members of their family. They included Mrs. Christine Shirley, the Wesley Lindleys of Frio, and the Jessie Shirleys of Hereford. Mr. and Mrs. Sam Lind-

ley have been staying at the Lindley home for about three weeks. The other Lindley son, Lloyd, is in Fort Worth, attending school and holding a job.

MR. AND MRS. Owen Andrews visited Sunday and Sunday night with the Glenn Andrews of Elter. They went especially to attend the Sunday night service at Elter Baptist Church, when Lynn and Clint, two younger sons of the Andrews, were baptized.

MARY ANN VOGLER was the honoree at a miscellaneous bridal shower in the First National Bank community room Saturday afternoon, Feb. 28. Miss Vogler is to be married March 20 to Lindell Fisher in Hereford's Immanuel Lutheran Church.

Hostesses for the shower were Mrs. Glen Osborn, Earl Springer, Hank Winter, Arthur Tiel, Floyd Cole, Herbert Bruns and Hubert Stoerner. Refreshments were served from a lace covered table by Mary

Winter and Janet Elliott. The floral centerpiece featured stephanotis and mums in the lavender and white chosen colors of the bride-to-be.

Mary George presided at the guest book, registering approximately 45 guests. Among relatives present were mothers of the couple, Mrs. E. F. Vogler and Mrs. Forest Fisher of Amarillo; Fisher's grandmother, Mrs. E. L. Fisher of Hereford; and his sisters, Phyllis and Renee Fisher, both of Amarillo. Others from out of the community attending were Mrs. Hiram Odom, M. B. Odom and Raymond Odom, all of Dimmitt; Mrs. Gerald Gregg and Mrs. Steve Gregg, both of Amarillo; Mrs. Erma Drager of Clovis and Bobby Perkins of Frio.

Cub Scout dens work and play

Cub Scout Den 1 met Friday afternoon at Mrs. Stanley Leonard's home. The boys elected Randy Durham as denmer and Billy Leonard assistant denmer. Bicycle safety rules were discussed, and the boys began making their stage props for the next pack meeting. Randy Durham furnished doughnuts and hot chocolate for refreshments.

DEN 4 met Tuesday afternoon. Everyone was present and answered roll with "Why I Love America." The boys practiced rope tying and driving nails. Several songs were sung and refreshments served.

Den 5 did not have a regular meeting on Monday. Instead, they went on a field trip Tuesday to the industrial arts department at the high school. G. L. DuBose, industrial arts teacher, showed them around his department.

Den 7 met Monday afternoon at Mrs. Mildred Bradford's home. All the boys were present. After business was discussed, they played several games and Carl Langford furnished refreshments.

NOTICE TO BIDDERS

Sealed proposals addressed to Hon. Raymond E. Wilson, County Judge, The County of Castro, Dimmitt, Texas, will be received in the District Court Room of the Castro County Court House until 2:00 P.M. CST, April 2, 1970, for addition to Courthouse, Dimmitt, Texas, for the County of Castro, and then publicly opened and read aloud. Any proposal received after closing time will be returned to the bidder unopened. Separate proposals will be received for building construction and jail equipment.

A cashier's check, certified check or acceptable bidder's bond payable without recourse, to Raymond E. Wilson, County Judge, in an amount not less than 5 percent of the largest possible total for the bid submitted must accompany each bid as a guarantee that, if awarded the contract, the bidder will promptly enter into a contract and execute such bonds as may be required.

Attention is called to the fact that the rates of pay for labor and mechanics shall be in full compliance with any state or local wage law that may be applicable.

The County of Castro reserves the right to reject any or all bids and to give any or all formalities.

Plans and specifications may be secured from Laverne H. Kirby, Architect & Engineer, 1902 Dixie Drive, Lubbock, Texas, upon a deposit with the architect of \$5.00 for each set. The entire amount of the deposit will be refunded upon the return of the plans and specifications in good condition within ten (10) days after the receipt of bids.

No bids may be withdrawn subsequent to the opening of bids without the consent of the owner for a period of thirty (30) days after the scheduled time for closing bids.

15-LEGAL NOTICES

NOTICE OF CITY ELECTION FOR ADOPTION OF ONE PERCENT (1 PERCENT) LOCAL SALES AND USE TAX THE STATE OF TEXAS:

CITY OF DIMMITT: COUNTY OF CASTRO: TO ALL QUALIFIED VOTERS OF THE CITY OF DIMMITT, TEXAS, WHO HAVE DULY REGISTERED:

TAKE NOTICE that an election will be held in the City of Dimmitt, Texas, at the City Hall, 201 East Jones, Dimmitt, Texas, on April 4, 1970, in obedience to an Ordinance duly enacted by the City Commission of the City of Dimmitt on the 2nd day of March 1970, which Ordinance is as follows:

ORDINANCE NO. 278

AN ORDINANCE CALLING AN ELECTION OF THE QUALIFIED VOTERS OF THE CITY OF DIMMITT FOR THE SUBMISSION OF THE PROPOSITION OF ADOPTING A ONE PERCENT (1 PERCENT) LOCAL SALES AND USE TAX WITHIN THE CITY OF DIMMITT, TEXAS, AND ENACTING PROVISIONS INCIDENT AND RELATING TO SUCH ELECTION, AND DECLARING AN EMERGENCY.

BE IT ORDAINED by the City Commission of Dimmitt, Texas:

Section 1. That it is to the best interest of the City of Dimmitt to adopt a one percent (1 percent) local sales and use tax in accordance with Vernon's Ann. Civ. St. art. 1066c, and that the proposition of adoption of such tax be submitted to the qualified voters of the City of Dimmitt at the earliest possible date.

Section 2. That an election is hereby ordered to be held on Saturday, April 4, 1970, which election shall be the next regularly scheduled election of the City of Dimmitt and which date is not less than thirty days nor more than ninety days after the passage of this Ordinance, and at which election the following proposition shall be submitted to the qualified voters of the City of Dimmitt, which proposition shall be in addition to the other propositions submitted on such regular election date, to-wit:

"FOR adoption of a one percent (1 percent) local sales and use tax within the city."

"AGAINST adoption of a one percent (1 percent) local sales and use tax within the city."

Section 3. That the voting place and the officers hereby appointed to hold the aforesaid election are as follows, to-wit:

Voting Place: City Hall
201 East Jones
Dimmitt, Texas

Election Officers:
Elmer Youts - Presiding Judge
Goodwin Miller - Alternate Judge

and there shall be three (3) clerks to be appointed by the Presiding Judge.

Section 4. That said election shall be held in conjunction with the regularly scheduled election on such date and in accordance with the laws of the State of Texas; and only qualified voters who have duly registered in accordance with such laws shall be qualified to vote.

Section 5. That the ballots for said election shall be prepared in sufficient number and in conformity with the laws of the State of Texas; and that printed on such ballots shall appear the following proposition, which shall be in addition to any other proposition submitted to the qualified voters of the City of Dimmitt on such regularly scheduled election date:

OFFICIAL BALLOT

INSTRUCTIONS: Place an "X" in the square beside the statement indicating the way you wish to vote.

FOR adoption of a one percent (1 percent) local sales and use tax within the City.

AGAINST adoption of a one percent (1 percent) local sales and use tax within the city.

Section 6. That election judges and clerks are directed to comply with Article 6.06, Election Code of the State of TEXAS, AS AMENDED (Section 2 of House Bill 181, Acts 1967, 60th Legislature Regular Session, Chapter 452, Pages 1026, 1028), which provides that a square shall be placed beside each proposition in which the voter is instructed to place an "X" or other clear mark to indicate the way he wishes to vote; but which also provides that failure of a voter to mark his ballot in strict conformity with the directions on the ballot shall not invalidate the ballot, and the ballot shall be counted if the intention of the voter is clearly ascertainable, except where the law expressly prohibits the counting of the ballot. It is specifically provided that the election officers shall not refuse to count a ballot because of the voter's having marked his ballot by scratching out the statement of proposition for which he does not wish to vote.

Section 7. That notice of said election shall be given by publication in a newspaper of general circulation published within the City of Dimmitt, the date of the first publication to be at least twenty-one (21) days prior to the date set for such election.

Section 8. That the public importance of this measure and the election called hereby constitutes an emergency and an imperative public necessity that this Ordinance shall take effect and be in full force immediately upon its passage, and all rules requiring several readings of said Ordinance are hereby waived, and this Ordinance shall become effective as of the date of its passage.

PASSED AND APPROVED this 2nd day of March, 1970.

NOTICE TO CONTRACTORS

Sealed bids for drilling and equipping two water wells for the City of Dimmitt, Texas, will be received at the City Hall until 7:30 P.M., April 6, 1970, and then at said office publicly opened and read aloud.

Bids will be submitted in sealed envelopes upon the blank form of proposal attached hereto and marked "Bid For Water Wells."

All proposals shall be accompanied by a cashier's or certified check upon a national or state bank in the amount of five (5 percent) percent of the total maximum bid price payable without recourse to the City of Dimmitt, Texas, or a bid bond in the same amount from a reliable surety company, as a guarantee that bidder will enter into a contract and execute performance bond within ten (10) days after notice of award of contract to him. The bid security must be enclosed in the same envelope with the bid. Bids without check or bid bond will not be considered.

The successful bidder must furnish performance and payment bonds upon the forms which are attached hereto in the amount of 100 percent of the contract price from an approved surety company holding a permit from the State of Texas to act as surety or other surety or sureties acceptable to the Owner.

The right is reserved to reject any and all bids and to waive any informality in bids received.

Plans, specifications and bidding documents may be secured from the office of the City Manager, Dimmitt, or at the office of Bill R. McMorries and Associates, Inc., 6300 Canyon Drive, Amarillo, Texas on deposit of Twenty-five Dollars (\$25.00) per set, which sum so deposited will be refunded, provided: (1) All documents are returned in good condition to Bill R. McMorries and Associates, Inc. not later than 48 hours prior to the time for receiving bids; or (2) The Contractor submits a bid and all documents are returned in good condition to Bill R. McMorries and Associates, Inc. not later than five (5) days after the time that bids are received.

CITY OF DIMMITT, TEXAS
By: **G. W. BRADFORD**, Mayor
15-22-2tc

At Home Economics Department, Junior High School Building in Dimmitt, Texas, in said School District, with Ray Bearden as Presiding Judge. The polls shall open at 8:00 a.m. and shall not close before 7:00 p.m.

The absentee voting for the above designated election shall be held at School Tax Office, 801 Western, within the boundaries of the above named School District and said place of absentee voting shall remain open for at least eight hours on each

Sen. Ralph Yarborough

USDA decisions threaten to wipe out family farm

By Sen. Ralph Yarborough (D-Texas)

Farmers are being caught in a real squeeze, pressed from two sides. The present runaway inflation, with the highest interest rates in history, and the tight money are a real blow to the farmers.

SECRETARY of Agriculture Hardin has been handing down order after order for the past year which undercuts the farm program.

In August of last year, the Secretary of Agriculture announced a 12 percent cut in wheat acreage for 1970. This means that the farmers will be limited to 45.5 million acres of wheat in 1970, around five million acres less than were planted in 1969. And in addition, for each 100 acres of wheat a farmer plants he must let lie fallow, uncultivated 30.8 acres more, and he can plant absolutely nothing on that 30.8 acres.

Last year Secretary of Agriculture Hardin cut the price support of cottonseed nearly \$5 a bale. That means that the farmer

does not receive enough from his cottonseed to even pay the cost of ginning a bale of cotton.

IN NOVEMBER, 1969, Hardin said he was calling in the 1967 and 1968 resale loans on grain sorghum. This order meant to sell all the grain sorghum in storage from the 1967 and 1968 crop. This order was practically a death knell for grain sorghum farmers because the price plummeted downward and downward. I protested this order to the Secretary of Agriculture very vigorously, and other senators and congressmen joined me, and we managed to get the secretary to cancel this order.

In December, the Secretary of Agriculture cut the rice acreage for 1970 by 15 percent. He had already cut the rice acreage for 1970 by 10 percent. I have made two separate appeals to Secretary Hardin to change this order. Twenty-five Congressmen from Texas, Arkansas, Louisiana and California, led by the prestigious chairman Wilbur Mills of Arkansas, joined me in this protest. Thus far, the secretary has turned a

deaf ear to all of our pleas.

In addition, the secretary recently announced that there would be no more advance spring payments on wheat and feed grain. In past years, a farmer who took part in the feed grain diverted acreage program could get about 50 percent of his payment in the spring and the rest at harvest time.

WITHOUT advance payments, the farmer will have to go to banks or other lending institutions to get money to plant his crops. With high interest rates of today, the farmer is burdened with the extra heavy expense of borrowing money.

There are bills in the Senate, which I am co-sponsoring, to force the Secretary of Agriculture to at least make the 50 percent advance payments to our wheat and grain growers. We need these bills passed to save many family farms from being wiped out. It is important for Texas, as our state has more farm families than any other state in the union.

Truckers give rules on passing

One motor vehicle passing another — particularly on one and two-lane roads — can be a chancy thing unless the driver of the passing vehicle uses caution and good common sense.

"YOU CAN pass yourself right into the next world," warns Paul Graham, president of the Texas Motor Transportation Association. "There are too many accidents and near-accidents as a result of what should be a safe maneuver."

Graham advises motorists to follow four simple rules for proper passing:

1. Allow plenty of room to pull out, pass, and return to the right lane.
2. Pass on straight level roads — never risk passing on a hill or curve. Obey the road markings that tell you it is safe or unsafe to pass.
3. Signal when passing — sound your horn when passing and, at night, flash your lights. Let the driver of the car ahead know your intentions.
4. Gain speed before passing. It is a good policy to drop back of the car you intend to pass and get a better look at the road ahead. Don't pull out into the left lane until you pick up passing speed.

"BORROW a page from the professional truck driver's book and always be alert for that other guy — the one which is going to pass you — perhaps without following these 'common sense' rules," he advises.

"Whatever you do, don't set up a competition between you and the man trying to pass you. If he is being reckless, give him plenty of room."

Courtesy and good common sense work wonders when it comes to passing, Graham points out.

"For example, in the city it is usually senseless to pass. To do so, you will more than likely have to exceed the speed limit and take a chance on conditions ahead. What happens? You have to stop for a light — and all those cars you passed are right up there with you."

Fish-and-game officers needed

The Texas Parks and Wildlife Department is offering a new life style for men who like the outdoors but are stuck at jobs on the inside.

The department is now accepting applications for game management officers, lawmen charged with enforcing the game, fish and water safety laws in the state. Deadline for applications is April 24.

THOSE selected after interviews and testing will get five months of training at Texas A&M University beginning in September. Applicants must be between 21 and 40 years of age and in good physical condition. They must have a high school education and be able to meet the Department standards on the competitive written examination.

They must be at least 5-8 tall in their stocking feet, with their weight proportional to their height, and have 20-40 vision correctable to 20-20.

Those interested in a career as a GMO should fill out an application for employment at the nearest Parks and Wildlife office or write to the Texas Parks and Wildlife Department, John H. Reagan Building, Austin, Texas 78701.

Minister-relatives to conduct Church of Christ revival here

The spring revival beginning Sunday at the Fourth and Bedford Church of Christ will be a family affair for the men conducting it.

GUEST evangelist will be John Gipson, minister of Arkansas' largest Church of Christ, the Sixth and Izard Church in Little Rock. He is a cousin and former classmate of Ronnie Parker, minister of the local church.

And the song leader for the evening services, Bill Gipson of Friona, is the uncle of both Parker and the guest evangelist. He is the minister of Friona's Sixth Street Church of Christ.

(In all, 11 members of the men's families are Church of Christ ministers.)

THE SPRING meeting will begin with morning services Sunday and continue through Friday evening. Gospel preaching services will be conducted at 7:45 a.m. and 7:30 p.m. on weekdays. Services Sunday will include Bible school at 9:30 a.m. and worship services at 10:30 a.m. and 6 p.m.

This will be John Gipson's second gospel meeting at the Fourth and Bedford Church. He conducted a meeting here in March 1966.

The guest evangelist has co-authored two devotional books with John Barnett, minister of the Broadway Church of Christ in Lubbock. Their two books are "Happiness, Day and Night," based on the Psalms, and "Paths to Peace," based on the Proverbs.

A native of Odessa, Gipson graduated from Odessa High School and Abilene Christian College. Before moving to Little Rock 1½ years ago he served as minister of the Park View Church of Christ in Odessa and the Meadowbrook Church of Christ in Fort Worth.

"Powerful messages will be presented during our Gospel meetings, and everyone is welcome at our services," Parker said.

What's cooking at the schools

Here's the school lunch menu for the coming week for students in North Elementary, South Elementary and Dimmitt Junior High. According to Mrs. Sarah Blackwell, lunchrooms supervisor, the menus for the Dimmitt High School lunchroom will be basically the same:

TODAY — Fried chicken, potato salad, broccoli, honey butter, rolls and milk.

Friday — No school because of district TSTA convention.

Monday — Barbecued wieners, mashed potatoes, green beans, batter bread, butter and milk.

Tuesday — Meat loaf with catsup, whole kernel corn, cabbage slaw, apple cobbler, rolls, butter and milk.

Wednesday — Barbecue on a bun with lettuce, pickles and onions, blackeyed peas, fresh apple and chocolate milk.

Next Thursday — Fried chicken, potato salad, broccoli, honey butter, rolls and milk.

WHEN NEWCOMERS want to buy or rent a home, they look first at the classified ads!

GM

10

resounding reasons why you should buy a new Chevrolet instead of a new something else:

- 1 Higher resale value. Year after year. No other car in Chevrolet's field gives you as much back on your initial investment.
- 2 Deep down value. Exclusives like flush-and-dry rocker panels and an extra set of fenders keep Chevrolet looking good longer.
- 3 Smooth, smooth ride. Because of Chevrolet's computer selected springs, Full Coil suspension and advanced body mounting system.
- 4 Impressive styling. The impression is that it's an expensive car, if you want to make an impression.
- 5 Massive interiors. Result? Room to stretch out or to sit tall. Chevrolet has more front leg room than any other car in its field.
- 6 Side-guard beams. Chevrolet puts more between you and the outside. Steel beams built into every door.
- 7 A finish that lasts. It's unfortunate other cars in Chevy's field don't have a Magic-Mirror finish because it sure keeps its shine.
- 8 Exceptional engines. Chevrolet's standard 350-cubic-inch V8 runs on regular fuel. Plus there are five more engines available.
- 9 Tremendous selection. Of colors. Of accessories. Of engines. Of transmissions. Of fabrics. And of models. There are nine big Chevrolets alone.
- 10 America's favorite. Something a new "something else" can't claim. If actions speak louder than words, doesn't this say something to you?

Putting you first, keeps us first. **CHEVROLET**

FLB officers go to Houston meet

Mr. and Mrs. Irvin Ott, Mr. and Mrs. Ed Drerup and John A. Perrin have just returned from Houston where they attended the annual stockholders' meeting of the Federal Land Bank of Houston.

Delegates, alternates and guests heard President Herbert H. Decker give the annual report, and addresses by Edwin A. Jaenke, governor of the Farm Credit Administration; and Nat S. Rogers, president of the First City National Bank of Houston and president of the American Bankers Association.

The Federal Land Bank of Houston makes long term loans on farm and ranch property throughout Texas.

The Federal Land Bank Association board of directors are Jack Summers, Sid Sheffy, Ed Drerup, Irvin Ott and Wade Mills.

SENIOR Citizens spend little time complaining about the "evils of old age," Minnie Bell, Extension specialist for aging, reports on a recent gerontology study. Life is about what the seniors expect. They say that "complaining just doesn't do much good."

Spiraling interest rates kill veterans' land program in Texas

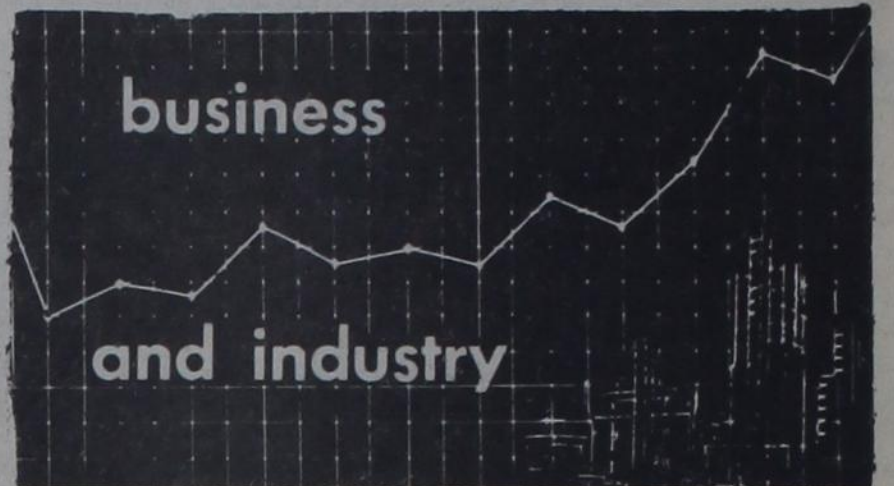

Skyrocketing interest rates have claimed a new batch of victims — Texas' veterans of the nation's wars.

THIS occurred when the Veterans Land Program, through which more than 41,000 Texas veterans have purchased land in the state, came to an abrupt halt with the announcement by the Veterans Land Board that no more applications for loans could be accepted.

Tightening of the nation's money market and the reluctance of Texas voters to raise the 4 1/2 percent constitutional limit on the interest rate of funding bonds were cited by the board for the action it found necessary when the money ran out.

Commissioner Jerry Sadler of the General Land Office is chairman of the board. John Burns, Austin banker, and Murray McWhorter of Austin are the other members. Burns represents finance and McWhorter represents veterans' interests on the board.

ADEQUATE bonds already have been approved for several years, but with the prime interest rate having been raised to 8 1/2 percent last June, it became apparent that the bonds, on which the Constitution imposes a 4 1/2 percent ceiling, could not continue to attract investor capital.

Two attend YH council meeting

Mrs. Dickie Holcomb and Mrs. Linda Roberts of Dimmitt attended the year's second executive council meeting of the Area 1 Young Homemakers of Texas recently in the Silverton High School homemaking department.

BOTH THE Dimmitt ladies are officers of the Texas Young Homemakers.

Mrs. Roberts gave a report on Area 1 membership during the business meeting of state and area officers.

The council discussed the annual Young Homemakers Field Day, sponsored by the Association of Rural Electric Cooperatives. This year's field day has been tentatively set for April 17 at Plainview.

COUNCIL members also voted to assist in the High Plains Research Foundation's annual field day at Halfway in September if called upon.

Next council meeting will be held immediately after the YH field day in April.

Bischoffs feted at Lordsburg tea

More than 100 persons attended a get-acquainted tea in Lordsburg, N.M., recently to honor Mrs. Tommie Bischoff, wife of Dr. Harold M. Bischoff.

THE Bischoffs, former Dimmitt residents for many years, have moved to Lordsburg from Las Cruces, N.M. Dr. Bischoff has established a private medical practice in Lordsburg after having lived at Las Cruces a short time.

Dr. and Mrs. Bischoff and their children, Tressa Rae and Walter Scott, are residing at 503 Pyramid St. in Lordsburg, which is in southwestern New Mexico.

For 15 years Dr. Bischoff was engaged in the general practice of medicine in Dimmitt.

Genealogists to meet Tuesday

The Castro County Genealogical Society will meet at 8 p.m. Tuesday in the county library.

THE MEETING is open to anyone interested in genealogy, the tracing of family trees and histories.

At the February meeting, Mrs. David Acker, president, outlined plans for programs during the coming year. The society meets the third Thursday of every month.

Dimmitt, Texas

Woolard-Steffens vows are exchanged

Wedding vows were exchanged Feb. 28 at 2 p.m. in St. Pius Catholic Church of Dallas by Miss Gloria Ann Woolard and Bobby Steffens.

THE BRIDE is the daughter of Mr. and Mrs. A. L. Woolard of Dallas. Steffens is the son of Mr. and Mrs. Bob Steffens of Nazareth.

Very Rev. Msgr. Thomas W. Weinzapfel officiated at the double-ring ceremony.

Mrs. Shirley Spaide of Pennsylvania, sister of the bride, was matron of honor. Bridesmaid was Mrs. Mary Lou Venhaus of Erid, Okla., sister of the bridegroom. They wore identical dresses of mint green crepe, with Empire style waists. Their headpieces were of matching green velvet leaves with circular veils. Each carried a gold mum.

LORREN JONES of Nazareth was best man. Serving as groomsman was Greg Venhaus, brother-in-law of the bridegroom, of Erid, Okla. Ushers were Tommy Dykes of Mesquite, cousin of the bridegroom, Bill Schacher of Nazareth and Johnny Woolard of Dallas, brother of the bride.

Given in marriage by her father, the bride wore a white formal length gown of imported white organza and taffeta, with re-embroidered Chantilly lace on the skirt front and Empire waist. A rose headpiece enhanced with seed pearls held the bouffant veil of silk imported illusion. Her detachable train of Chantilly lace was secured by an applique at the raised waistline.

Following the ceremony, a reception was held in St. Pius Hall.

THE BRIDE is a graduate of Mesquite High School and is attending Computer School of Education in Dallas. The bridegroom is a graduate of Nazareth High School and is now employed by Victor Comptometer Corporation, Business Machines.

The couple will reside at 4015 Simpson St., Apt. 207, Dallas.

'Woman power' spells success for fashion show

How much "woman power" does it take to stage a successful fashion show?

THE LADIES of Dimmitt's Alpha Epsilon Tau chapter of Beta Sigma Phi sorority put more than 50 persons to work in their recent Spring Fashion Revue — and it was highly successful.

Thirty-six ladies and children served as models in the show, and a dozen other local residents provided music, lighting, narration, hairdressing and backstage chores. Three Dimmitt stores furnished the fashions, and two dozen local merchants donated door prizes.

The show of spring and Easter fashions, held in Dimmitt High School auditorium, drew a crowd of approximately 600.

MRS. NANCY ROSS and Mrs. Stephanie Love served as co-chairmen of the show, while Mrs. Suzie Ellis took charge of the pre-show publicity. Mrs. Jane Blackburn served as narrator. All are members of the Alpha Epsilon Tau chapter.

Dwight Joiner kept the show moving with background organ music, and the "Windborn Trio" — Skip Skinner, Ruth Dyer and Suzanne Merritt — provided special music.

Hairdresser for the show was Carolyn Sims. Carl Dean Carson assisted with the lighting.

"SIGNS of the Zodiac" was the theme used in the show. Colorful, painted Zodiac posters provided the backdrop for the showing of the latest designs in play clothes, street wear, dress wear and formal attire.

Modeling fashions from The Village Shop were Jill Braafladt, Delores Wilke, Mrs. Reta Welch, Mrs. Gail Bruegel, Mrs. Walter Maynard, Mrs. Suzie Ellis, Mrs. Gail Ratcliff, Mrs. Mary Bechtol and Mrs. Myrtle Sheffy.

Modeling for C. R. Anthony Co. were Barbara Hansen, Mrs. Beverly Hill, Mrs. Carol Bryant and Belinda, Mrs. Kay Kellar, Mrs. Jerri Butler and Jane, Mrs. Gail Ratcliff, Gray and Gay Lynn, Kelly Hill, David Blackburn, Tanya DeVaney, Jill Brown, Diane Love and Jimmy Joe Butler.

SHOWING fashions for the House of Fabrics were Jackie Schaefer, Marla Mayfield, Trudy Elder, Judy and Marilyn McLeroy, Mrs. Gay Minnick, Angela and Amy Ross, and Gayla, Carl and Paula Bechtol.

Miss Crisp

May vows scheduled

Mr. and Mrs. Alford E. Crisp of Williams, Ariz., former residents of the Sunnyside community, announce the engagement of their daughter, Terry Ella, to Robert Don Perkins, son of Mrs. Juanita Goodlet and Cliff Perkins of Artesia, N.M.

THE WEDDING is planned for May 23 in the College Heights Baptist Church of Plainview.

Miss Crisp, a graduate of Springlake-Earth High School, is a sophomore at Wayland Baptist College, majoring in elementary education. Perkins is a graduate of Artesia High School and is a senior religion major at Wayland.

Microwave oven to be exhibited

Bess Dietson of Southwestern Public Service Co., Clovis, will demonstrate the microwave oven at Wednesday's meeting of the Bethel Home Demonstration Club.

THE MEETING will begin at 2 p.m. in the Bethel Community Building, and is open to anyone interested in seeing the "oven of tomorrow" demonstrated.

Hughes presents Milady program

Van Earl Hughes discussed the techniques of landscaping at last week's meeting of Milady Garden Club.

THE MEETING was held in Lamar Fellowship Hall of the First United Methodist Church. Hostesses were Mrs. Reta Welch and Mrs. Jean Morris.

Dimmitt 4-H meets Thursday

The Dimmitt 4-H Club met last Thursday afternoon in the assembly room of the courthouse, with 14 members present.

The meeting was on the project show which will be held March 12, 13 and 14.

Second community meeting gets results

By TEENY BOWDEN

About the same number, but a different group attended the community meeting Friday night. Not enough brought musical instruments to have music so three tables of Rook, and Rummy were played. In the business meeting which followed, it was reported that the well had to be lowered or something bigger than was first thought. A work day was set for Monday. The regular meetings were set for each first Friday night of the month. Work on the building, a new ceiling and new curtains, were discussed, but tabled until the well is fixed and the water is in the building. Quite a bit of work was done on the well this week.

Mr. and Mrs. Cecil Curtis visited in Petersburg Monday with relatives.

Mrs. Dubby George and Gregg of Dimmitt visited with Mrs. Houston Carson Monday, and had dinner with her.

Mrs. Houston Carson, Mr. and Mrs. Weldon Bradley, Mr. and Mrs. Arthur Wilson and Mr. and Mrs. Johnnie B. Lilley attended the funeral services for Mrs. Joe Newman in Hart Monday morning.

Mrs. E. R. SADLER worked at Plains Memorial Hospital Monday afternoon, at the desk, library and coffee cart.

The Annie Armstrong Week of Prayer Program was held Monday, Tuesday, Thursday and Friday mornings and Wednesday night at the church this week. The men had charge of the program Wednesday night. Average attendance was six. The goal is \$515.

Rev. and Mrs. Mack Turner and Mr. and Mrs. Roy Phelan at-

tended the Llanos Altos Association evangelism rally in Littlefield Tuesday night. Rev. Winfred Moore of Amarillo First Baptist Church was guest speaker.

Mrs. Larry Odum of Hereford visited with Leslie Loudder Tuesday morning.

Janis Bridge and David Bradley are two of the characters of the Springlake-Earth junior play which will be held March 12.

Mrs. James Powell and Beckie Odum of Dimmitt had dinner with Mr. and Mrs. Ezell Sadler Tuesday and visited in the afternoon with Mrs. Sadler, Ramona Dones and the W. E. Loudders at the Loudder home, also Mrs. L. B. Bowden.

About half an inch of rain was received in the community Friday and Friday night.

The doctor made a house call at the W. E. Loudders Friday evening. His condition remains about the same.

Mr. and Mrs. Raymond Lilley of Big Spring visited Saturday and Sunday with Mr. and Mrs. Donnie Lilley and Mr. and Mrs. Raymond Lewis and children of Olton. Mr. Lilley visited with L. B. Bowden a few minutes on the way in.

Mrs. DON SMITH and Carrie of Pcritales arrived Friday evening to spend the weekend with her sister, Mr. and Mrs. Gale Sadler. Susan Sadler is still ill.

Resa Carson was ill a couple of days this week. Mr. and Mrs. David Sadler and Melody of Lubbock arrived Saturday evening to spend the weekend with Mr. and Mrs. Ezell Sadler. They attended the community meeting. They, the Larry Sadlers, and the James Powells of Dimmitt had dinner with the Ezell Sadlers Saturday. Mrs. Powell and the children visited in the afternoon with the W. E. Loudders, Mrs. Sadler and the

School Cafeteria last week. Coby Gilbreath, and David Montiel received Pear Badges with both silver and gold arrows. David also received his one year service pin and dinner badge.

MRS. W. E. MCKEE and her neighbors, the Carrolls, from Plainview visited Wednesday afternoon with her niece, Mr. and Mrs. Cecil Curtis.

Mrs. E. R. Sadler attended the funeral services for Gaines Neill in Dimmitt Friday morning.

Mrs. Charles Axtell took a group of students from the school at Sunday to Tech Friday and Saturday for the literary contest.

MRS. HOWARD CUMMINGS attended the District 17 Texas State Teachers Association meeting in Lubbock Friday.

Mr. and Mrs. Edward Calhoun and family moved into the John Arledge house recently. She is a niece to Mrs. Phillip Jones also. Mrs. Shottenkirk is her niece.

Mrs. Pearl Sadler of Dimmitt visited with Mr. and Mrs. W. E. Loudder, Mr. and Mrs. L. B. Bowden and Mrs. Ezell Sadler at the Loudder residence Sunday afternoon. She spent Sunday night with Mr. and Mrs. Ezell Sadler. The Sunbeams met at the church

Mrs. E. R. Sadler, Mrs. Thomas Parsons, and Mrs. Roy Fnelan attended the WMU Prayer Retreat at Lee Street Baptist Church Thursday. The guest speaker in the afternoon was Mrs. James Tiderberg, missionary to Africa.

A good group met at the church Thursday night to make plans for the Easter pageant planned for Easter morning. Larry Starnes is directing the pageant.

Mr. and Mrs. John Gilbreath and family, Mr. and Mrs. Larry Gambin and family, and Mr. and Mrs. Gabriel Montiel and family attended the Annual Blue and Gold Banquet for Cub Scouts of Pack 267 at the South Grade

L. B. Bowdens at the Loudders. J. B. Hensley of Hale Center was also a dinner guest of the Sadlers Saturday.

Mrs. Houston Carson and Resa visited in Plainview Thursday evening with Mrs. J. L. Carson in the Golden Spread Home.

Terry Stephens of the gas plant broke his right foot or ankle last Saturday in a fall.

Mrs. Pearl Sadler of Dimmitt had dinner with Mr. and Mrs. E. R. Sadler Sunday. Mr. and Mrs. Gale Sadler and girls, Mrs. Don Smith and Carrie and Mr. and Mrs. Mark Wyson of Wayland visited in the afternoon. The Wysons were dinner guests of the Gale Sadlers and their guests.

Mrs. Charles Axtell took a group of students from the school at Sunday to Tech Friday and Saturday for the literary contest.

MRS. HOWARD CUMMINGS attended the District 17 Texas State Teachers Association meeting in Lubbock Friday.

Mr. and Mrs. Edward Calhoun and family moved into the John Arledge house recently. She is a niece to Mrs. Phillip Jones also. Mrs. Shottenkirk is her niece.

Mrs. Pearl Sadler of Dimmitt visited with Mr. and Mrs. W. E. Loudder, Mr. and Mrs. L. B. Bowden and Mrs. Ezell Sadler at the Loudder residence Sunday afternoon. She spent Sunday night with Mr. and Mrs. Ezell Sadler. The Sunbeams met at the church

Mrs. E. R. Sadler, Mrs. Thomas Parsons, and Mrs. Roy Fnelan attended the WMU Prayer Retreat at Lee Street Baptist Church Thursday. The guest speaker in the afternoon was Mrs. James Tiderberg, missionary to Africa.

A good group met at the church Thursday night to make plans for the Easter pageant planned for Easter morning. Larry Starnes is directing the pageant.

Mr. and Mrs. John Gilbreath and family, Mr. and Mrs. Larry Gambin and family, and Mr. and Mrs. Gabriel Montiel and family attended the Annual Blue and Gold Banquet for Cub Scouts of Pack 267 at the South Grade

Tuesday afternoon for their weekly meeting.

TOMMY AND Mike Graham tied for first place, receiving blue ribbons in the 4-H Show in Littlefield Saturday. Lee and Lynn Brown tied for second place, receiving red ribbons. Clint Dawson received a red ribbon on his demonstration.

Mr. and Mrs. John Graham and Mr. and Mrs. Gerald Graham and boys had a dinner guest Sunday, Rev. and Mrs. J. A. McConnell of Amarillo. They had as a house guest this week Thursday through Sunday, a friend from Ohio, Tommy Wells, who is stationed at Fort Sill, since his return from Vietnam.

Eldon Lilley and Ray Robertson of Dimmitt left Thursday for Lake Guaymas, Old Mexico, returning home Sunday night. They caught a lot of fish Friday and Saturday.

Mrs. Eldon Lilley had dinner with Mr. and Mrs. Lynn West and Tama in Dimmitt Saturday and spent the day with Mr. and Mrs. Dave Patterson and children in Canyon Sunday.

Seventy-four attended Sunday School with 31 in Training Union Sunday. Cottage prayer meetings are scheduled this week Friday night will be at the Curtis Snitkers at 8 p.m. The revival starts the 15th with Rev. Robert Baldrige and Sammy Nichols leading the singing.

15-LEGAL NOTICES

NOTICE TO CONTRACTORS

Sealed bids for furnishing and installing approximately 7,400 linear feet of 8 inch and 10 inch water lines and appurtenances for the City of Dimmitt, Texas, will be received by the City Manager at the City Hall, Dimmitt, until 7:30 PM, April 6, 1970, and then at said place publicly opened and read aloud.

All proposals shall be accompanied by a cashier's or certified check upon a national or state bank in the amount of five percent (5 percent) of the total maximum bid price payable without recourse to the City of Dimmitt, Texas, or a bid bond in the same amount from a reliable surety company, as a guarantee that bidder will enter into a contract and execute performance bond within ten days after notice of award of contract to him. The bid security must be enclosed in the same envelope

with the bid. Bids without check or bid bond will not be considered.

The successful bidder must furnish performance and payment bonds upon the forms which are attached hereto in the amount of 100 percent of the contract price from an approved surety company holding a permit from the State of Texas to act as surety or other surety or sureties acceptable to the Owner.

The right is reserved to reject any and all bids and to waive any informality in bids received.

Plans, specifications and bidding documents may be secured from the office of the City Manager, City Hall, Dimmitt, and Bill R. McMorries and Associates, Inc., 6300 Canyon Drive, Amarillo, Texas, on deposit of Twenty-five Dollars (\$25.00) per set, which sum so deposited will be refunded, provided: (1) All documents are returned in good condition to Bill R. McMorries and Associates, Inc. not later than 48 hours prior to the time for receiving bids; or (2) The Contractor submits a bid and all documents are returned in good condition to Bill R. McMorries and Associates, Inc. not later than five days after the time that bids are received.

Local ladies hear consultant outline promotion for library

"How Much of Your Public Do You Really Reach?" is the theme of a series of workshops being conducted in the area by Austin Hoover, field consultant for the Texas State Library.

PRINCIPLES of public relations and techniques with which to implement them were discussed by Hoover and area librarians at a workshop at Mary E. Bivins Memorial Library in Amarillo last Wednesday. Attending the workshop from Dimmitt were Mrs. R. E. Hendrix, librarian, and Hazel Merritt, library board member.

"Librarians, board members and interested citizens such as the Friends of the Library, should talk, write, listen, offer library service and deliver the goods," Hoover said. "In our ever-changing economy, emphasis should be on books and library materials providing information rather than mere entertainment. Tell the public about the services the library provides through conversation, clubs, civic organizations, newspapers, radio, posters, book marks bumper stickers and any other means through which readers may be reached."

He added, "Twelve to 15 thousand dollars per person is spent through 12 grades in school. Less than one dollar per person is spent in Texas for public libraries, the only place a person can continue his education after high school unless he attends college at his own expense."

"SMALL libraries should make their public aware of the provisions of the Texas Library Systems Act, whereby books and materials may be borrowed through the small library from any of 10 major resource libraries in Texas," he said.

Parents must mix rules and freedom

A child needs discipline yet he also needs freedom to grow. The trick for parents is to balance the two so the child can learn and develop self-control.

BOTH PARTIES can often grow together in the experience, says Jane Fleischer, Extension family life specialist at Texas A&M University.

A child needs encouragement as he grows, discovers for himself and becomes independent. Parents can help by looking at him as a person being sensitive to what he is ready for and letting him explore his world and experiment with many kinds of activity and ideas at his own pace.

A two way communication about what the child sees and does may help, Miss Fleischer suggests.

Yet, the child needs to know that there are limits to what he can do and why limits are necessary.

WITH encouragement and direction, children can accept the standards parents have set for them and gradually take over these standards as their own.

EASTER SEAL programs on national, state and local levels are directed by 30,000 volunteer board committee members. They are counseled by nationally recognized medical and rehabilitation authorities. They are fortified by the dedicated efforts of hundreds of thousands of community volunteers.

THE EASTER Seal Society's \$25 million treatment program is given through a nationwide network of rehabilitation and treatment centers, clinics, camps and therapy units that provide professional care and treatment for crippled children and adults.

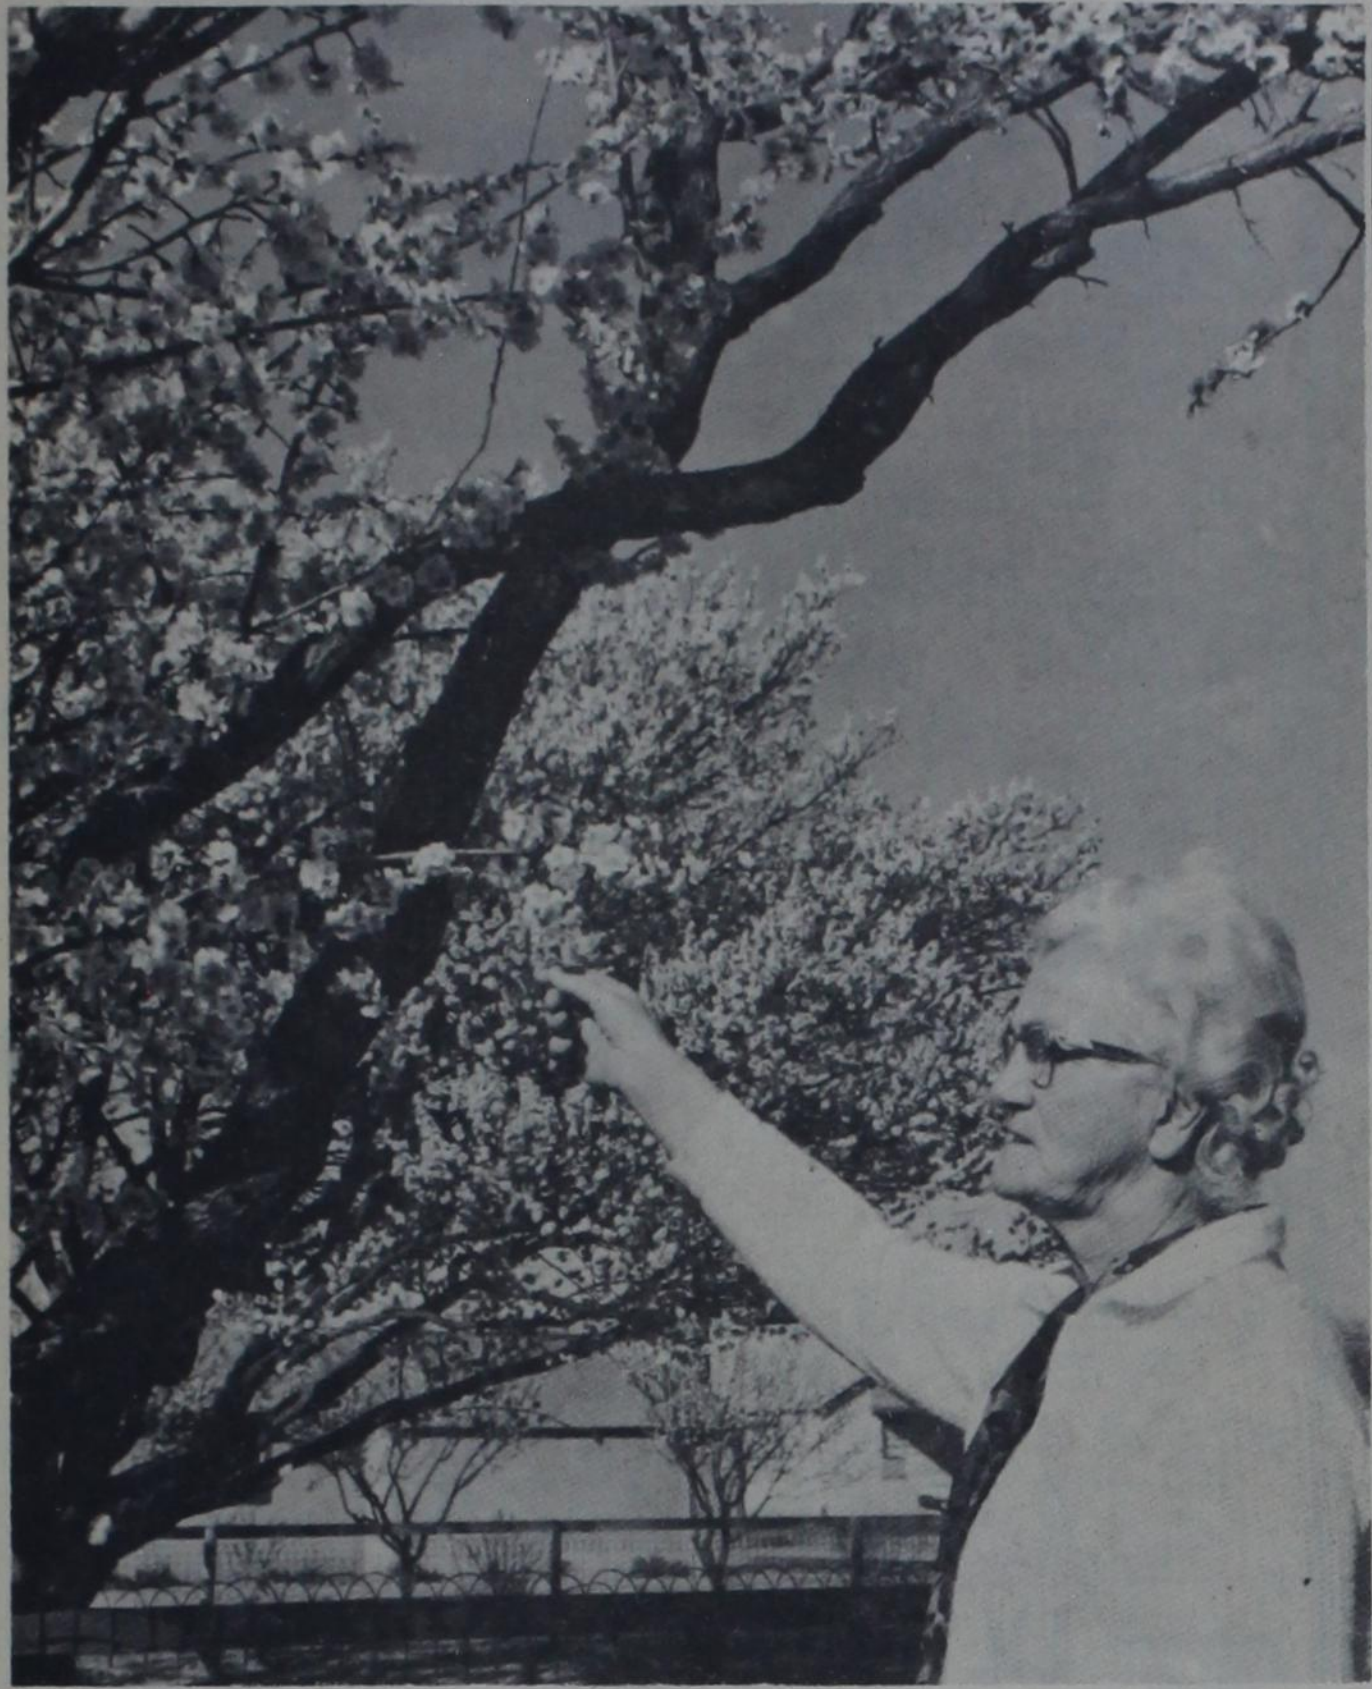

The Castro County library is in the "small library" category. "Advertise your library service just as local businesses advertise their products," Hoover advised. "How else can your public know the services you offer? The local public library should be the community information center. Reach your public, obtain books they need by buying your own books or borrowing them, through the Texas Library System, advertise your library service and become the community information center."

SOME 35 librarians and library board members from throughout the Panhandle attended the Amarillo workshop.

THE BLOOMING-EST fruit trees in Dimmitt are these 50-year-old apricot trees at the home of Mrs. Bertha Summers, 602 W. Lee St. Here, Mrs. Summers poses with her trees in Sunday afternoon's sunshine, with swarms of bees buzzing through the white blossoms. Mrs. Summers hopes the freezing

temperatures and snow that invaded the area this week won't stop her eight trees from bearing fruit. "The Easter snow last year didn't stop them from making, although the fruit was a little smaller than usual," she said.

Last rites held for Mrs. Phillips

Funeral services were held in Lubbock last Wednesday for Mrs. Eva Phillips, a former Dimmitt resident.

SHE WAS the sister-in-law of Mrs. Sam Maynard and the aunt of Wade Maynard of Dimmitt. Mrs. Phillips, 43, died in a Lubbock hospital March 2 following a cerebral hemorrhage.

She was the wife of Albert "Pete" Phillips, Lubbock painting contractor. Mr. and Mrs. Phillips lived in Dimmitt in the early 19-50's after their marriage in Clovis. He was a farm and construction worker here.

Attending the funeral service from Dimmitt were Mrs. Sam Maynard and Mr. and Mrs. Wade Maynard. Also attending was Mrs. Maynard's daughter, Mrs. Sharon Hamilton of Dallas.

About Dimmitt

(Continued from Page One)

ies resulting from drug addiction. There is another encouraging aspect of the program, possibly of equal importance, and that is the fact that young people are assuming the responsibility of putting their own house in order. This will not be a program fostered on the youth of the county by their elders, instead it is an honest, sincere effort by young people to turn the drug tide that has engulfed so many of their contemporaries, in many of the small towns as well as in the large cities of the land. The fact that these young men, as no doubt others are doing, are showing concern for their classmates and friends and are making this effort to put up a warning signal calling attention to the danger of tampering with habit forming drugs, is just about all it takes to reaffirm our faith 100 percent in the younger generation.

Somewhere down the line the adults of this country made a terrible mistake. Whether it took place in the homes, in the churches, in the schools or as a result of our economic system or governmental policies, or a combination of each in larger or lesser degrees is debatable. The mistake is, or was, in allowing too many of our young people reach adolescence without realizing there was such a thing as authority, or respect for authority.

The so-called generation gap is an overworked cliché. There should be no greater generation gap now than at any time in history. If there is a generation gap it is the fault of the older generation. Somewhere they have failed to give the proper guidance at the proper time, and as a result we have a rather sad situation with a small percent of the young people of the country, through their conduct, casting a bad light on a whole generation.

It is heartening to know that some of the young people are willing to chip in and help correct the mistakes of their elders. We should meet them over half way and do whatever is necessary to open up all of the lines of communication, and if it exists close the generation gap.

We are approaching that time of year, election year that is, when politics and politicians move into the limelight and offer some diversion from other equally serious matters. One candidate, however, didn't wait until the usual time to begin an intensive campaign. Lloyd T. Bentsen, under the prodding of former governor John Connally, announced early for the office of United States Senator and shot his big guns early.

Mr. Bentsen seemed to think that Senator Yarborough had had the job too long, and that it was high time that he was replaced with inexperience. What Bentsen neglected to tell the people is that seniority is the name of the game in legislative bodies and that Senator Yarborough was one of the most highly respected senators in Washington, and that through hard work and the seniority system he had moved into the chairmanship of a number of important committees.

Senator Yarborough has represented Texas well in the United States Senate, and because of his record should have been returned to the senate without opposition from his own party. The only reason that Bentsen is making the race is because of petty political jealousy on the part of a would-be political dictator, John Connally, a has-been Texas politician.

Bentsen also makes the charge that Senator Yarborough caused a split in the democratic party in Texas. He makes the charge seriously but with the barest analysis it becomes comical. Texans haven't forgotten when the split occurred. In Amarillo at the state democratic convention in 1952, the handsome Governor Allan Shivers split the democratic party, with the aid of the Bentsens, and carried the so-called conservative wing of the party into the Republican ranks in support of the republican ticket of Eisenhower and Nixon. That was the year that Ralph Yarborough first ran for the office of governor, giving the democrats of Texas a democratic candidate to vote for. We will have more to say about this race in later columns.

RAISING THE ROOF—It's shingling time at the huge new First Baptist Church construction project. Workmen have tacked down thousands of shingles on the wings of the

complex, but from the looks of the stacks and the remaining roof area, they have a million or so shingles to go. Work was halted at midweek by the snow.

tee also voted to help financially if the students' fund-raising campaign falls short.

THE FUTURE Teachers intend to have Perigo speak to a joint assembly of Dimmitt, Hart and Nazareth high school students at 2 p.m. April 6 in DHS auditorium.

The Drug Study Committee will try to arrange for Perigo to speak to a county-wide parents' meeting that night.

Elvon DeVaney, chairman of

the Drug Study Committee, commended the FTA chapter on its drug education program.

"The drug problem is one of the most serious problems facing our country," DeVaney said, "and when these kids show that they want to do something about it we should get behind them and give them all the help we can."

IN OTHER action at its first meeting, the Drug Study Committee approved a motion by County Agent Charles Hottel to appoint a group of young people to contact law enforcement officials, study the drug problem and be prepared to present programs.

Appointed to the committee were

Hutto, Steve Brown, Andy Murphy and Lonnie Markley. Two girls will be appointed to the committee later.

CRIPPLING strikes one family in five, according to the Texas Easter Seal Society for Crippled Children and Adults. The society, which carries forward a year-round program of direct services, education and research, conducts its annual Easter Seal Campaign Feb. 23 to March 29, 1970.

State Capitol Highlights

School districts' share is set

By VERN SANFRD
Texas Press Association
Local school districts will contribute \$217.2 million toward fi-

nancing Texas' basic foundation education program in 1970-71.

STATE Board of Education settled on this figure in approving local fund assignments of approximately 20 percent of the total program cost. State pays the rest.

Sixty-first Legislature set local fund assignment at \$204.9 million, plus 20 percent of the cost of new programs.

Board approved the economic index for each of 254 counties, determining the contribution to be made by districts as a fair share of costs. Each district is further assigned an amount based on the percentage of tax valuations. Tentative indexes have been mailed to district and county superintendents.

Economic index is re-computed

each year, based on three-year averages of valuations, scholastic population and income.

In other action, the board: Reversed the Taylor County School Board order to transfer 73.9 acres of land and 10 pupils from Wylie to the Abilene School districts, on grounds that local trustees made the original decision in a secret meeting — which is not legal under Texas laws. Approved for readoption \$3,076,149 worth of textbooks in 36 subjects covering all grades. Awarded a \$150,000 contract to Texas A&M University to train teaching assistants in two summer short courses.

Heard a report that there is no significant disadvantages for driver education students from use of non-degree teaching assistants

in driving courses. Voted to continue the School for the Blind project to develop a perceptual training program for visually-handicapped children into 1971 under a new \$69,041 contract with the U.S. Office of Education.

COURTS SPEAK In a precedent setting case, State Supreme Court held that mineral rights are dominant over surface rights in lands condemned by government agencies.

Owners have a right to reasonable use of the surface to get minerals under such lands, says the Court, and where public use interferes with recovery of minerals, a second condemnation proceeding is necessary. Case involved 7.6 acres of land condemned by Chambers - Liberty counties Navigation district.

Stock show

(Continued from Page One)

arted by a commercial buyer for all animals in the division — will be announced before the auctioning begins. Bidding will start at the floor price and buyers will pay only the difference between the floor price and their winning bid. That difference will be the youth's premium for his animal. However, if a buyer wants to send an animal to Girlstown or have it butchered for himself, he will be required to pay his full bid.

The average sale prices last year were a whopping \$1.04 per pound on lambs, 51 cents per pound on barrows and 60 cents per pound on calves. Floor prices were 28.3 cents on lambs, 20 cents on barrows and 27½ cents on calves.

WHILE THE stock show is going on in the fair barns Saturday morning, the county's 4-H girls will be competing for cash and ribbon prizes at their 4-H Project Show nearby in the American Legion Hall. Girls will compete in clothing, sewing and foods.

Also, 4-H girls will sell light lunches at the American Legion Hall and soft drinks in the show barns.

Congratulatory ads throughout this issue of the News pay tribute to the young 4-H and FFA showmen for their projects, and to the Dimmitt Young Farmers and other workers who make the show possible.

land grain marketing, chemical import of agricultural chemical's product marketing and ready-mix concrete.

"Twenty years ago we were mostly in grain, but we now do more of our business in chemicals than in grain," Goodpasture explained.

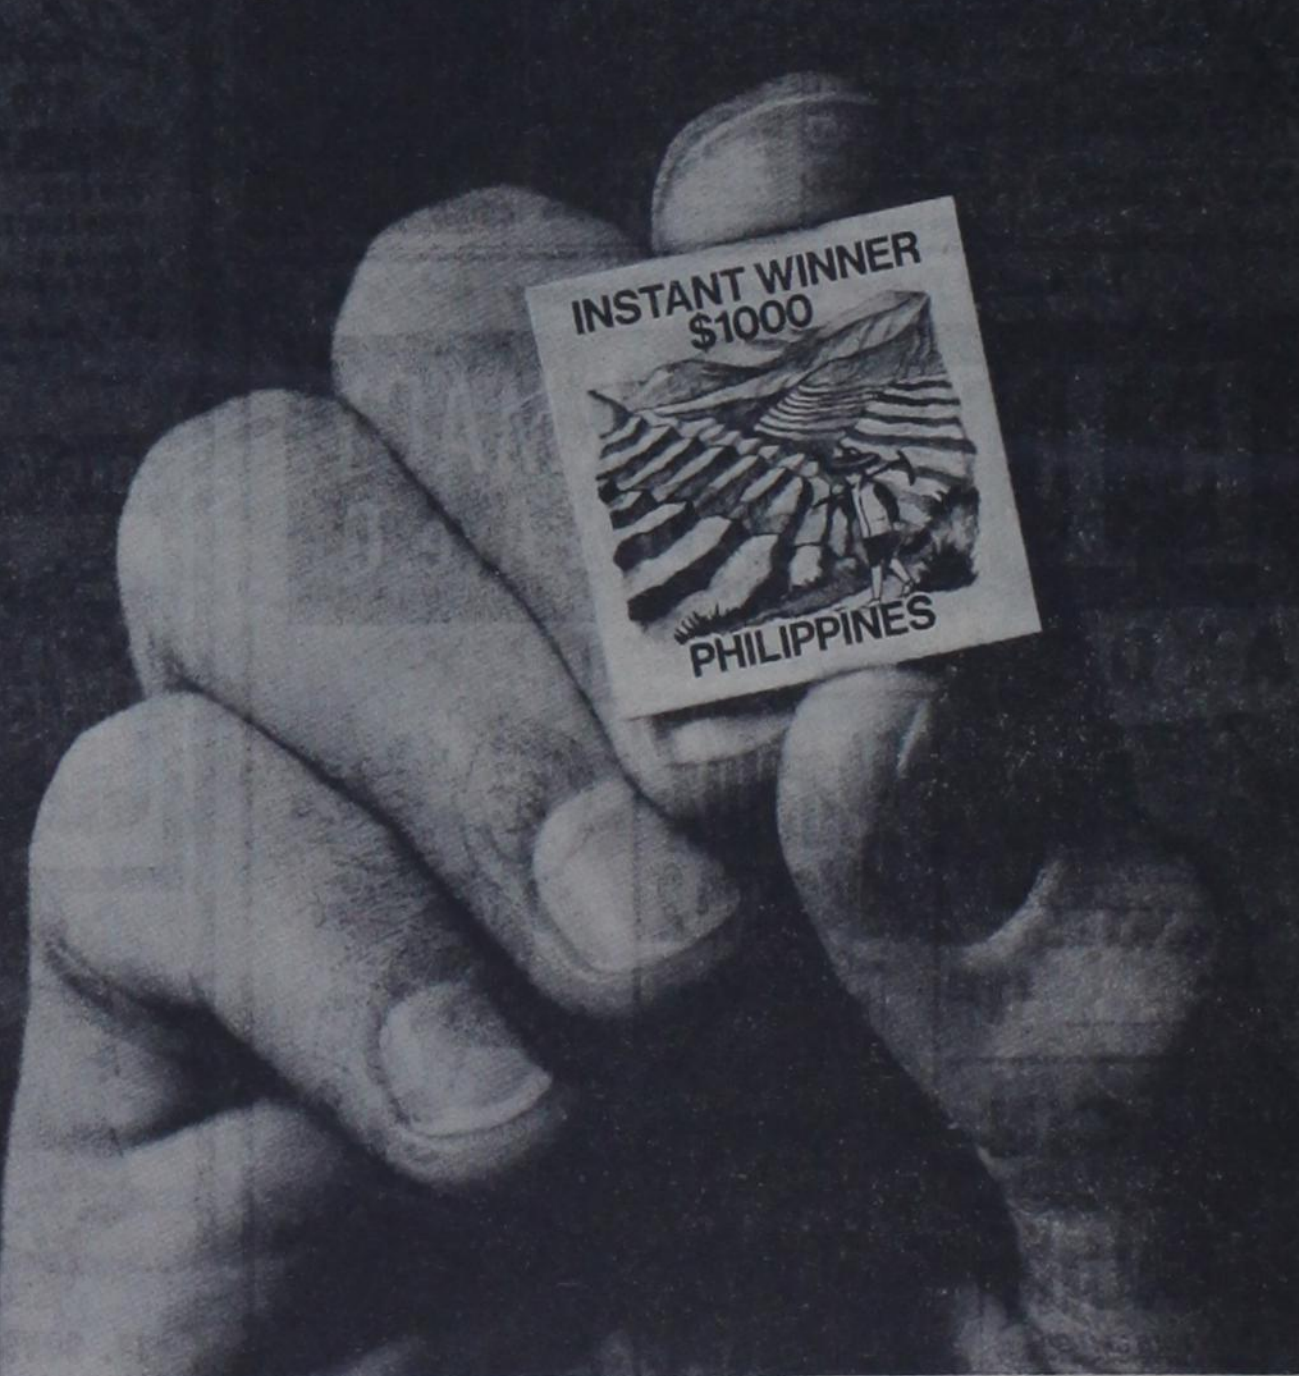

The corporation has its own loading and terminal facilities in Houston, shipping 12 to 17 cargoes per month of grain and chemicals.

"We found we couldn't get our products through the docks down there during the rush season, so in 1963 we just built our own," he said.

GOODPASTURE, 60, was raised in Brownfield. However, he did his first farming in Castro County, on a farm between Arney and Jumbo owned by his cousin, B. Goodpasture.

"We feel at home in Dimmitt and Castro County," he said. "We helped plow that country as kids."

Mobil's World Passport Game: one picture is worth a \$1000.

This picture is only a gamepiece, but for a thousand dollars it might as well be a masterpiece. Participating Mobil Dealers are giving away little pictures similar to this one in a new game called "World Passport." They're worth anywhere from an instant nothing to an instant \$1000.

Even if you don't get an instant winner at Mobil, you'll be given a free World Passport Booklet. Filling a section of the Booklet with the proper gamepieces can be worth just as much money.

With that in mind, future trips to your Mobil Dealer shouldn't be made without a Passport.

Hart news

City Council calls city sales-tax election

By MYRT LOMAN
The Hart City Council has called a city sales tax election for Saturday, April 4.

arrangement from Bois D' Arc apples.
MAKING the "Forward Steps," was the lesson last Wednesday of the Girls Auxiliary meeting at the First Baptist Church.

Joe Prince brought the message, Mrs. Everette Heller was at the piano and Preston Upshaw led in group singing, followed by a quartet by Mr. and Mrs. Roger Edwards, Preston Upshaw and Mrs. Ferry Barham, and a solo by Upshaw. Hubert Cheatham gave the closing prayer.

mitt, Father Camacho of Old Mexico, Jean Foster, Harold Bob Bennett and Jerry Heller, students of Hart High School.

of Littlefield, long-time Hart residents, are both coaches now. Bill and Jerry are the brothers of Mrs. Jane Alexander of Hart. Jerry and Jane are twins.

In calling the sales tax election, the council urged Hart residents to give serious consideration to the question. The council cited a need for equipment for better maintenance and cleaning of the streets.

GRANVILLE MARTIN Castro County deputy sheriff, has completed a certified 140-hour law enforcement officers training school at West Texas State University at Canyon.

MRS. VIRGIE WHITE, 95, a former Hart resident, died Tuesday following a stroke in the home of her daughter, Mrs. Ethel Recker in San Angelo. Funeral services were in Ajo, Ariz.

THE SPEECH department at Hart High School recently presented two one-act comedies in the Hart Elementary auditorium, under the direction of students Ralph Bell, Gereg Crosby and Don Follis.

Jerry graduated from Hart High in 1954 and from Wayland Baptist College in Plainview in 1958 with a BS degree in physical education. He coached at Sonora and Petersburg before becoming head basketball coach at Sonora in 1968.

Approval of the sales tax, the council said, could mean a reduction in present rate of taxation.

Martin also holds a certificate in firearms, an extra 15 hours in criminal investigation, 15 hours of specialized school in civil rights and 15 hours in criminal law, which gives him 185 hours. He finished his law training with an 18-hour Red Cross first aid course.

THE BIBLE story of David was the lesson for the members of the Royal Ambassadors last Thursday.

HERE ARE the emergency instructions issued by the Hart Fire Department: One blast - Tornado. Two blasts - Fire Practice. Three blasts - Tornado Alert. Four or more blasts - Fire.

THE YOUNG boys of the Baptist Mexican Mission School class with teacher Harold Smith enjoyed an outing in Palo Duro Canyon Sunday following the Sunday school hour.

GOODNEIGHBOR Club met in the home of Mrs. H. E. Loman last Wednesday for a program of hobbies in the afternoon.

MR. AND MRS. Roger Edwards sponsored a youth trip to Plainview to attend the musical presentation by the Spurlows at Haral Memorial Auditorium at Wayland Baptist College.

THE HART LIONS Club met Monday at noon in the community room of the Farmers State Bank.

THE BAPTIST Church spring revival has best set for April 5 through 12 with a former Hart resident, Rev. Harmon Bishop of Weatherford, Okla., bringing the messages. Music will be under the direction of Bobby Nablett, a student.

THE YOUNG boys of the Baptist Mexican Mission School class with teacher Harold Smith enjoyed an outing in Palo Duro Canyon Sunday following the Sunday school hour.

MR. AND MRS. Charles Bash and daughter arrived Thursday afternoon from San Diego, Calif. Charles returned to his Navy base Sunday night, shipping out for the South Pacific Monday for a tour of duty with the Navy. Friday Hart received .54 of an inch of moisture, making a total of .88 for the three months of 1970, as of Monday afternoon. Mrs. Ernest Martin reports her brother Tom McDonald of Plainview, a patient in Methodist Hospital in Lubbock, is improving from injuries received several weeks ago from a well rig machine near Dimmitt. He was in the intensive care unit for several weeks, but is now in a private room. FORMER Hart resident J. P. Armstrong was honored on his 79th birthday Sunday in the Colonial Rest Home in Lubbock with a birthday party. Mrs. Armstrong celebrated her 75th birthday on Feb. 1 of this year. The Armstrongs have made their home in Lubbock the past six months. Children and grandchildren attending the party were Mr. and Mrs. Owen Hankins and Mrs. Harley Wilde of Hart, Mr. and Mrs. Roy Lilley of Dimmitt, Mr. and Mrs. Freddy Lilley and family of Sunray, Mrs. Alene Lilley of Houston, Mr. and Mrs. Bob Edd Brooks and family of Plainview, Mr. and Mrs. Deward Armstrong of Farwell and Mrs. Cody Marlor and Bobby of Lorenzo. "DON'T FALL For An Accident" was the subject discussed at the Cub Scout Den 2 meeting last week in Farmers State Bank. Den mothers Mrs. Jim Black and Mrs. Darrell Davis assisted Robert Lacy, Jackie and Russell Davis, Kelley Jones and Glen Black with their lesson. The boys were told that the number of non-fatal injuries is estimated at more than a million, with falls being the main cause of accidental deaths. Refreshments of cookies and Cokes were served by Mrs. Davis and Jackie. A RUSH party was held Friday evening by the Hart Chi Psi chapter of Beta Sigma Phi sorority in the community room of the Farmers State Bank. The evening included a "backward party" with a style show and a brunch supper, with everything upside down and backwards. Mrs. Richard Franks was first place winner in the style show.

Nazareth news

CYO talent show draws large, lively audience

By Mrs. Florance Albracht
The Nazareth CYO held a talent show Sunday, March 8, in the school auditorium. There was a good turnout of contestants and a large enthusiastic crowd who enjoyed it. The winners in the junior division were first place, Clyde Birkenfeld, Danny Gerber and Larry Ramaekers, who presented a comedy act, "Don't Take My Hess Away." Second place went to Norman, Elaine and Bernard Acker, who presented a puppet show. Third place went to Mary Teresa and Tommy Kern, who played a duet on the piano.

First place in the senior division was won by Gloria Ruiz from Tulia, soloist. Second place went to the barber shop quartet, consisting of Edd Ramaekers, Florance Albracht, Paul Venhaus and Francis Wilhelm. Third place went to "The Ice," a band from Happy.

Special thanks to Eugene Hochstein for emceeding our program. Also, special thanks to Rosella Pohlmeier for getting our program together and Mrs. Grubb from Tulia, Mrs. John Slavik from Nazareth and Mrs. Rose Acker from Dimmitt for judging the contest.

★ SECOND ADULTS from here are attending evening classes weekly at Amarillo College, taking courses in Spanish and Income Tax Preparation. They are Mr. and Mrs. Laverne Wilhelm, Mr. and Mrs. Gene Kern, Gilbert Schulte, Rita Kern and Mrs. Bert Wilhelm of Umbarger. Gene Kern goes twice a week for the speed-reading courses.

Bernie Braddock, son of the Rudolph Braddocks, who spent several weeks in Northwest Texas hospital in Amarillo suffering from injuries he received in a pickup-truck collision, came home Saturday, March 7. He will have to spend the next several months in bed. He enjoys company, so let's go visit him and help pass some of those lonely hours. He and his family wish to thank everyone who helped in any way during his stay in the hospital — donating blood, the lovely flowers and get well cards and any other help given.

★ THE CHRISTIAN Mother's Society held their regular monthly meeting Monday evening, March 2 in the community hall with a good attendance. Rev. Father Stanley

brought several things to the attention of the members to be discussed. The games night committee reported on the party held on Sunday evening and announced another for April 5. For the program Mrs. Leonard Wilhelm gave a very interesting report on the highlights of their three week visit to Europe. They visited Germany, Monaco, Venice and spent five days in Rome, had an audience with the Holy Father and visited many other places. Relatives and friends from here who went to Happy for the funeral of Mrs. Pauline Huseman on Monday, March 3, were Mr. and Mrs. Frank Hoelting, Mr. and Mrs. Clarence Schulte, Mrs. Alphonso Huseman, Mrs. Bert Venhaus and Mrs. Earl Backus.

★ THE "WORLD Day of Prayer" held at the new catechistal building on Friday, March 6, was well attended. We were especially happy so many ladies came from the different churches in Dimmitt, even in the rain. It was good to meet you all again and unite in prayer.

I attended the Deanery Board meeting of the Diocesan Council of Catholic Women in Plainview on Thursday, March 5, to help plan the Deanery Spring meeting to be held there, April 15. An interesting meeting is planned, which will include the new liturgy explained for the mass, baptism, weddings and funerals. Also a workshop on drugs to better acquaint parents to the danger of drugs for their children. Deanery Heine and Rev. Father Chrisman, pastor of St. Alice's and about 25 women attended the meeting.

Mr. and Mrs. Frank Hoelting and Leonard spent several days visiting their daughter and family, the Bayard Keyes in Plainview last week. Susanna and Daryl came home with them to spend the weekend.

★ MRS. JOHN STORK was admitted to Plains Memorial Hospital in Dimmitt on Sunday morning for tests and medication.

The Jim Balls of Friona spent Sunday here visiting their families, Mrs. Josephine Ball and the Ed Drerups.

Mrs. Paul Vanhaus, who has been in the hospitals in Dimmitt and Lubbock for the past several weeks is on the road to recovery and will be able to come home in

the next day or two, which is very good news.

Mike Dobmeier is still on the hospital, having bad days and some good days.

★ MRS. LIZZIE Birkenfeld and daughter Marcella, nieces Rita and Germaine Pohlmeier spent Sunday in Dumas, visiting their friends, the Wilborn Phurpes. They enjoyed dinner with them and visited the plant where he works and went to Lake Meredith.

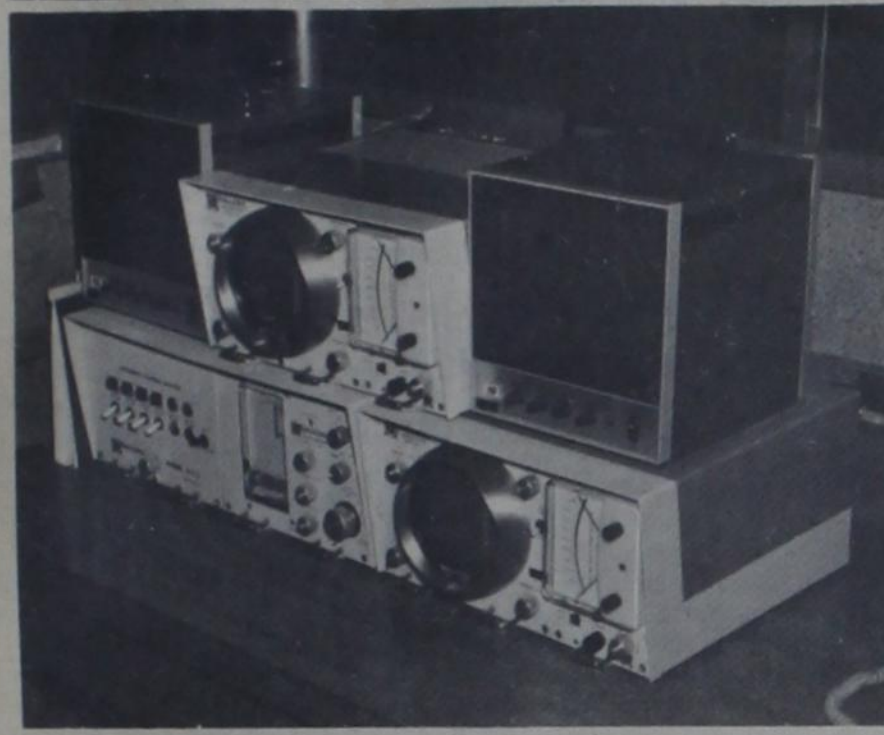

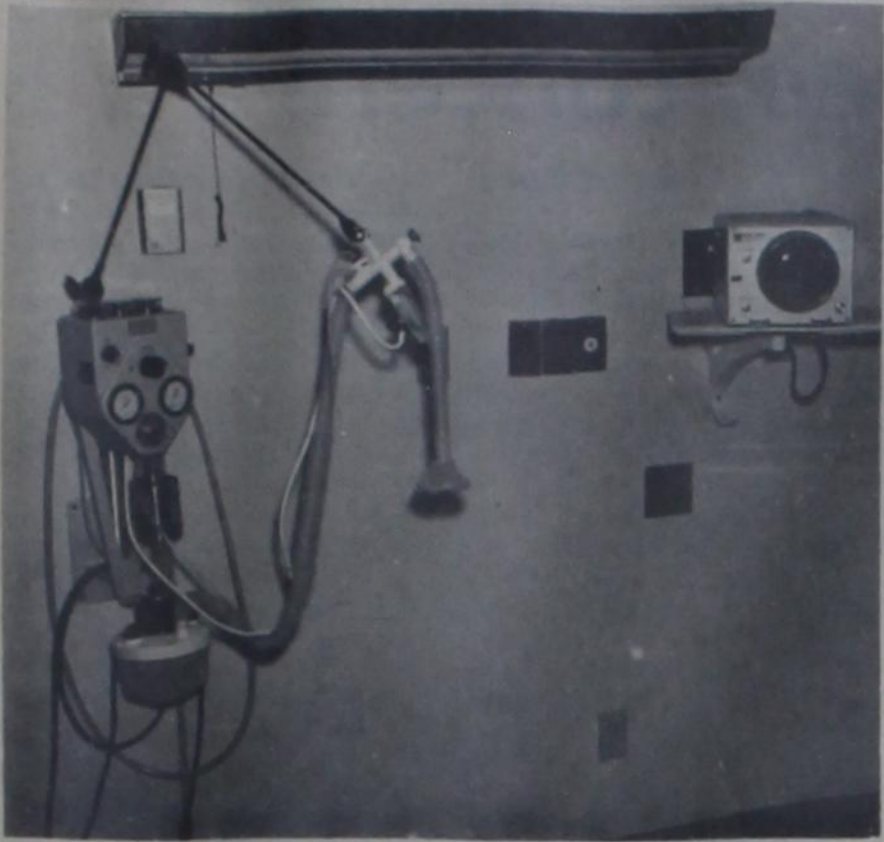

Mr. and Mrs. Ed Drerup flew to Houston Thursday, March 4, for the Federal Land Bank convention. On their way back they spent a day in Dallas with their daughter, Grace and James DeCardenas and family.

Dale Brockman, son of the Arnold Brockmans came home from the Marine Base near San Diego, Calif., where he was in training. He's here on a 30-day leave and will report back March 27, and then will be sent to Hawaii. He was one of the six lucky guys out of 90 men, that did not have to go to Vietnam.

★ THE AREA Benedictine Sisters held a three-day study from Friday evening, until Sunday, at the Sister's Convent. It was conducted by Rev. James Lex of Evansville, Ind. The meeting was held to discuss the "Three Weeks Renewal" program which is to be held at St. Scholasticas Convent in Fort Smith this coming summer and which will be attended by as many members of the community as possible.

TWO FOOD companies now are marketing individual servings of fruit and pudding items. These were developed because statistics showed that 20 million lunch bags are packed each week day for school children, workers, campers, etc., explains Gwendolyn Clyatt, Extension consumer marketing specialist. First items on the market were diced peaches, chocolate pudding and vanilla pudding in tear-off topped aluminum cans. Look for fruit cocktail, chocolate fudge pudding, lemon pudding and butterscotch pudding later.

★ WHATEVER you want or need, somebody probably has one. Try a "Wanted" classified ad in the News.

SILENT SENTRIES—Here's the complex equipment that will keep a 24-hour vigil and make constant condition reports on patients in Plain Memorial Hospital's new intensive care unit. In top photo is the bedside unit—a Bennett machine (left) for oxygen medication therapy and a heart rate monitor (right). The monitor and a television camera (center photo) relay their messages to the remote receiving unit (bottom photo) at the nurse's station, where attendants get a constant picture of the patient plus an electronic and cardioscopic (graph) picture of his heartbeat and other vital functions.

County youths express their concern . . .

(Editor's Note: Only a minority of American youngsters today have the privilege of living in a rural area that is economically healthy but still free of smoke, smog, waste and pollution. Many of our teenagers appreciate the fresh air, clean atmosphere and way of life here, and want to help keep it that way. Here are their thoughts on the subject, expressed in essays entitled "My Stake in the Natural Resources of Texas," written for an essay contest sponsored by the Burning Water Soil and Water Conservation District.)

Juanita Wilhelm
Nazareth High School

I hold a great stake in the natural resources of Texas. My stake is not only in that my father is a farmer, but in that my future lies in the hand of these resources. Without a good supply of water, good fertile land, and minerals, how could man live? Everyone, either directly or indirectly, depends upon these resources because out of these resources come man's essentials — food, drink, and fuel, which man could not live without.

WE SHOULD support the conservationists who are trying to find the best ways of using and preserving our natural resources. Man is acquiring more increasing knowledge on conservation with his many new methods of farming and so on. Today man is more aware of the vital role natural resources play in every individual's life. We all have a stake in this and should therefore support the conservationists and help in any way we can to properly use and preserve our resources.

Try to imagine for a second what would happen to our world if all our water dried up, our topsoil blew away, and our minerals disappeared. All animal and plant life would soon perish. But now we never worry about these things happening. As long as we have enough of these things for the present, why should we then worry that they may perish? We should worry because our lives are at stake on these resources. Each day man uses up more and more of these resources and only a few seem concerned.

WE SHOULD all get concerned though, and do our part for conservation of natural resources. Whether or not my occupational life deals with natural resources, I'll always be dependent on them and do my part for conservation.

Sharon Brooks
Hart High School

Natural resources are industrial materials and capacities supplied by nature. I am going to explain five natural resources of Texas. They are soil, water, minerals, plant life and animal life.

SOIL
The natural wealth of Texas is enormous. The soils of Texas are the most important economic resource of the state. With proper care, they will continue to produce crops and support livestock production long after mineral resources have been depleted. Texas has over 500 types of soil ranging from the alluvial soils of the river bottoms to the loams of the Staked Plains.

TEXAS HAS a total area of approximately 170 million acres (254 counties). The state is divided into 14 land resource areas based on similarity of soils, topography, climate and vegetation. These 14 land resource areas are East Texas Timberlands, Coast Marsh, Coast Prairie, Blackland Prairies, East Cross Timbers, Grand Prairie, West Cross Timbers, North Central Prairies, Central Basin, Rio Grande Plain, Edwards Plateau, Rolling Plains, High Plains and Trans-Pecos.

WATER
One of the largest artesian-water belts in the world is found in the central and north-central sections and the Coastal Plains. Such cities as Galveston and San Antonio get their entire water supply from this water belt, and thousands of acres are irrigated with artesian-well water. In the High Plains, irrigation farming is well-known because of a great supply of water.

One of the most important rivers of Texas is the Brazos. The Rio Grande is one of the longest and most historic rivers of North America.

MINERALS
Since 1935 Texas has ranked first among the 48 states in the value of minerals produced, and mineral production is of plain importance to the economy of the state. Texas developed into the leading petroleum state in 1928. It is also the leading state in the production of natural gas and in natural gas liquids. Other minerals of which Texas is the chief United States producer are native asphalt, fuller's earth, crystalline graphite, bromine, helium, magnesium, and sulphur.

NEXT TO oil, natural gas, and natural gasoline, sulphur is the most important mineral produced in Texas. There are also large unexploited deposits of bituminous

coal and lignite which will assume greater importance as the world demand for fuels and chemicals continues to increase. There are also large deposits of iron ore. As of 1957, Texas was the only producer of helium in the world.

PLANT LIFE
The native plant life of Texas is characterized by variety. The wide range of rainfall and temperature not within the state are mainly accountable for the diverse character of the natural cover. Texas plant life can, rather arbitrarily, be divided into forest resources, grass resources, and arid-land vegetation.

THERE ARE more than 225 different tree species native to Texas. However, only a few of these species are of any commercial value. More than half of the forested area of the state is in East Texas, which is the center of commercial forest operation.

Almost three-fourths of Texas' 170 million acres of land are forests and grasslands. Range and stock farming are virtually dependent upon continuing grassland cover.

Arid-land vegetation may be said to include the mesquite woodlands, the Texas brushlands, and the Trans-Pecos cover of yucca, ocotillo, lechuguilla, guayule, maguay, creosote brush, and cacti.

ANIMAL LIFE
Deer, pronghorn antelope, elk, bighorn sheep, bear, peccary or javelina, and tree squirrels are considered game animals in Texas. White-tailed deer and tree squirrels are the most important game animals.

Principal game birds of Texas include ducks, woodcock, brant, geese, snipe, plover, many species of shore birds, wild pigeons, prairie chickens, wild turkey, quail, and doves.

In the High Plains, cattle industry is becoming well-known because of the plentiful amount of grain sorghum.

THE NATURAL resources are a vital and important factor of any state. Demands upon natural resources are growing at a tremendous pace. More people and higher standards of living require more food, water, space for outdoor recreation, and more of the many other products and services provided by our resource base.

Lucy Ann Maurer
Nazareth High School

My stake in the natural resources of Texas is very important because the quality and quantity of the natural resources will

thus affect my future and those of my family.

FOR INSTANCE, there is not near enough water in Texas and if people keep on wasting it and ruining it with their rubbish and harsh chemicals, Texas will become one great big desert. I should be concerned about this, because without water farmers will not be able to grow crops and towns and cities will cease to exist. All other natural resources will go to waste because without water nothing can survive or be produced.

Another natural resource I am concerned about is soil. Soil must be rich in nutrients and minerals, and well supplied with water in order to supply us with the foods we need. As we notice today, there is land all over Texas that could be good farmland and grazing land if it were cared for right.

For instance, just recently some of the brushland in Texas has been cleared of mesquite and other brush and is now being plowed for next year's crops and also is being planted in grass and watered for grazing land for cattle. These acres of land will be fruitful for many people this year.

THESE PROCESSES I am concerned about, because improving our natural resources means a better way of living for many people. It means having something worth looking forward to when we plan our own futures. It also means that Texas will be regarded more as an important state for conserving and improving its natural resources.

Mark Brockman
Nazareth High School

My stake in Texas' natural resources is one of concern for the conservation of our many and bountiful resources. I am also interested in backing up the conservation practices of our state. There are many organizations in this state put forth by the national government for the betterment of the use of our natural resources.

MY STAKE has these foundations and I am presently taking part in a plan to help economize, stretch, and secure our knowledge of our natural resources. I exert my energy so that we may use our natural resources wisely and frantically, and in the interest of the growth of our fellow man. I, and many of my fellow man, am presently employed in helping to get things which we need to live on.

I help to till the fields and

take care of the animals on my father's farm in order to make food available for other people. I help to condition the soil so that it may be used to produce grain and food for consumption by humans and animals. I help fertilize and irrigate the land and crops whenever necessary. I also help by planting trees which are used as wind breaks to prevent the topsoil of our Great Plains from blowing away. I help to conserve water by helping with tail-water return pits and by planting grass on the drainage end of our fields. The tail-water return pit conserves excess irrigation and rain water and the grass keeps the water from eroding the soil. I help to keep our road-sides and lakeshores clear by belonging to groups concerned with our natural resources.

MY MAIN stake is being a good rewarding citizen of Texas. By doing this I am doing as best I can to go to school and to use our natural resources for our research and learning. As a citizen of this great state of Texas, I feel it my duty to practice conservation of every natural resource God has given us to use to their fullest extent. This is my stake in Texas' natural resources.

Debbie Acker
Nazareth High School

Now as just a student in high school I can see it will be hard to stay on a farm because of the water loss. People waste this resource and the soil too. They let tail water run down the road ditches and on other people's farms, which sometimes causes erosion and waste of water.

THIS CONCERNS ME deeply because I want to stay on the farm. How can you have a farm without any water or rich top soil? You can't. We need water. People can't seem to understand this, so they go on wasting water. We need water brought in from other places to produce crops.

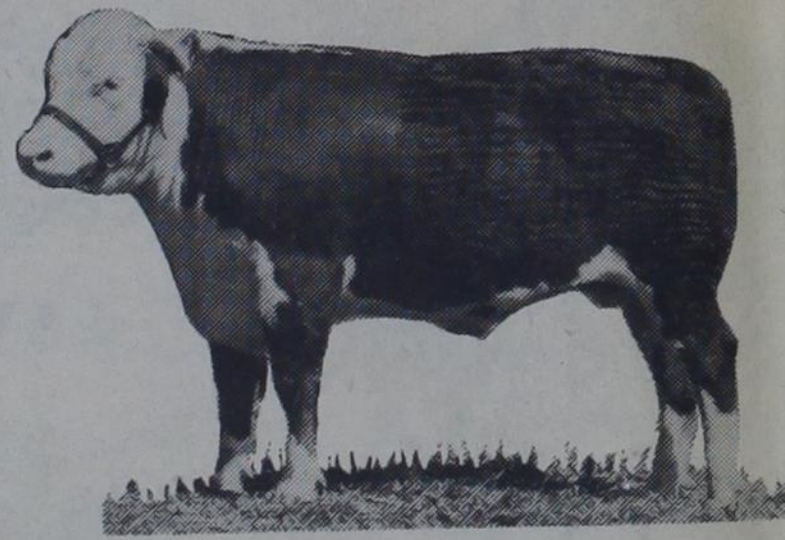

If it weren't for the farmer none of us would be here. Then why should anyone want to waste water? This question has made me think of what would happen if people found there was no more water. It has enabled me to better understand what a home, a farm, food to eat and clothes to wear really mean.

Erosion is just as bad. It washes away the rich top soil. With this soil goes the chances of a farmer making money. It ruins the land and makes it hard to plant and reduces crop yields.

... about the future of our resources

(Continued from Page 2-B) I know what it's like to have eroded land. I also learned how to correct this error, by correct use of water and land preparation.

THESE TWO threats have moved farmers off the land and made food more expensive to buy. People will be jobless and many will starve. One of these could be you or me.

I feel it's my responsibility to help people see the truth of the future. I'm going to try to help the city and farm people see the needs of preserving the natural resources of Texas.

Kerry Brockman Nazareth High School

The people of our state may not notice it now, but the natural resources of our state are dwindling fast. By the time the teenagers of today get to be 25 years old, the natural resources will be almost completely exhausted unless strict conservation is applied, now.

THIS MEANS A lot to me, because by the time I get older and perhaps married, I should like to be able to live in our state and say, "I helped build up our natural resources when I was a teenager and did not let them dwindle away to where I would have to live in some other part of the country."

Yes, our natural resources do mean a lot to me, because when I choose an occupation, it will depend on natural resources in order to prosper and grow. The people will need water to drink, air to breathe, animals to eat, and ground to live on. The businesses — farming, mining, manufacturing and all the other businesses — will depend on natural resources.

If we, the young and old alike, do not apply conservation practices, now, in order to save our natural resources, we may see our state turned into a deserted wasteland in our own lifetime.

THIS IS why I am interested in the natural resources of Texas and why all who live in our state should be concerned, too, in helping set up conservation practices statewide. I am proud of what our state was, is, and could be, and that is why I am deeply concerned in conserving our natural resources.

Gladys Steffens Nazareth High School

In the 1930's terrible dust

storms blew over Texas and took the rich topsoil with them. The prairie grass had been dug up to make way for the crops used in farming. When the drought came nothing would grow and many people moved on. Then came the winds and there was nothing to hold the soil. The winds took it along. Today we have been more than partially successful in stopping this kind of erosion of good land through the use of conservation.

LAND, WATER, forests, and the other resources must be conserved and used wisely. I have a stake in the natural resources of Texas just as all other Texans do. It is up to me and these other citizens of Texas who must take the stand in conservation to preserve and protect these natural resources. No matter what occupation or profession we are in, we will need these resources to make a living and provide the things necessary for life.

EROSION from wind and rain can be stopped by planting crops and in barren areas, trees. Re-planting of trees used for lumber is necessary to keep and have lumber in the future.

The natural resources of Texas are a part of my investment. It is up to me and others like me to protect my stake in the resources of Texas.

Stephen Anderle Nazareth High School

My stake in the natural resources of Texas is the right to use, and the use of these resources.

INCLUDED IN the natural resources of Texas are deer, antelope, pheasant, quail, and other wild game animals. This, however, does not give me the right to kill, maim, or destroy without cause or reason, these animals or their habitats. Wild animals can become extinct very easily. I am others as well, in hunting and exploiting these natural resources, must proceed with caution. For these animals must be protected and allowed to propagate. By protecting the future of these animals I am protecting my own future as a hunter.

There are other natural resources of Texas which I must aid in protecting and conserving if my stake in them is to be protected. These are the streams, lakes, forests, and the underground oil and gas pockets. My stake in these may range from oil well owner to worker on a drilling derrick.

AT ANY RATE these resources must be protected if my future stake in them is to be protected. However, these resources cannot be protected merely by leaving them alone. These resources must be used, but they must be used with care.

Susan Hochstein Nazareth High School

Conservation is important to everyone of us. Without soil, water, and many other natural resources, we could not live.

WATER AND soil are the most important resources to us because of where we live and how we make our livings. Water is very important to farmers. Without water for irrigation their crops would die. Ranches need water, too. Without water their cattle will die. They need water for the grass in their pastures, so that the cattle will have something to eat. People should be thankful for the water that they have. They should conserve the water to the best of their abilities. They can do this by collecting runoff water in tailwater pits and by pumping water out of the many pasture lakes that collect rain water and runoff water.

Soil is another important resource to us because we are farmers. Good, rich soil or poor soil can make the difference in good crops with high yields and very poor yields from poor crops. Every farmer should do his best to conserve and enrich the soil on his farm. Fields should be kept in such a condition that winds will not erode them. In areas where running water causes an erosion problem, fields should be contour plowed or have terraces to help prevent this problem. Weeds such as Johnson Grass should be destroyed before they begin to take over your fields.

Linda Wagner Nazareth High School

Take a good look at Texas. We have a lot of natural resources but if we continue to use them as we have in the past they will soon vanish. I shall make this clearer with a few examples.

DRIVING DOWN the country we see bar ditches full of water. If the farmers practice this wasteful habit much longer,

they will be forced to move on. Some farmers have realized that using tailwater for watering other crops will save them money as well as water.

Notice the field full of Johnson grass. If these farmers would treat this nuisance before it spreads to the rest of the field, they will save water and be able to raise crops which would produce much higher yields.

See the grass grazed so close to the ground. Proper grazing practices would correct this mistake. Let the cattle graze every other summer, and this will let the grass grow bushy. Hence, it will supply more grazing for future years.

ANOTHER good way of getting and preserving natural resources is to plant crops that the cattle can graze. Then put the cattle on something different while this crop puts on new leaves. In this way you can get two crops from the same plant.

As you have probably noticed I have stayed close to farm problems. As a farmer's daughter I see these problems every day. If we begin to practice conservation methods and practices, we Texans will continue to have a great state to be proud of.

J. C. Pohlmeier Nazareth High School

The importance of the Texas resources to me is very great. As I grow older I will have to seek a way to carry on my life. It may be farming, business, or some other professional field. But if our resources are not taken care of there will be no opportunity around.

WHETHER my future lies in farming or any other business, the conserving of the soil is very important. If I farm, the quality of the soil and the outlay of the land will be even more important. The amount of water I can help save now will be very important in the future. Every thimble full of water saved now will seem like a gallon ten years from now.

If my future lies in business, the success of the business will depend on the ability of the farmers and others to patronize the business. If the soil and water is not saved now, there will be fewer farmers and no market for business.

I DEFINITELY feel that it is my responsibility to help preserve the natural resources in Texas. It is my future that is going to be affected. It doesn't

matter what resource I help to preserve, but it may help to preserve me in the future.

Harold Schacher Nazareth High School

Water is said to cover three-fifths of the earth. It might cover this much earth but I know a stretch of land known as the High Plains in Texas that needs some of that water.

THE DAY is coming when we here on the High Plains won't be able to pump any more water from the ground. Good eight-inch wells are already pumping a good six-inch or less. We, the farmers, are trying to conserve this water. We are putting in tailwater pits. These pits catch the runoff water. Pumps then pump it back onto a field to be reused. Conserving water in this method means less water pumped from the ground and a longer use of our supply.

The farmers aren't having as much trouble with their land blowing as they did back in the Dust Bowl Days. The reason is we have more moisture. Many farmers don't know how to conserve the moisture that "Mother Nature" supplies us. After the fall crops are out, many farmers start plowing their stubble. When it snows, the snow has very little to hold it there when the wind blows which is very common here. If these farmers would leave the stubble until at least the 10th of January, they might have to do less pre-watering. Pre-watering is the most important irrigation for irrigated crops. It gives the crops the boost they need to start growing.

IN THE spring, after harvest, it would even be a good idea to let the straw from wheat lie to hold rain. The rain would even help the straw rot which when plowed under supplies nutrients for a future crop. This would save money for fertilizers.

Water is essential for life. Humans are part of life and crops are part of life. If everyone would let "Mother Nature" take her course, we would be land of plenty.

THE CARBONATED Beverage Container Manufacturers Association, Inc., has announced that over 20 billion can tops used by the beer and soft drink industry will soon carry an anti-litter message. The slogan, "please Don't Litter — Dispose of Properly," will catch the consumer's eye when the can is used.

Car inspection crisis develops

"With the April 15 motor vehicle inspection deadline five weeks away, only about 50 percent of the registered vehicles have been inspected," Capt. Alan Johnson, motor vehicle inspection supervisor of the Texas Department of Public Safety, reported this week.

"UNLESS there is a rapid increase of inspections, it appears that many vehicles will not be inspected before the April 15 deadline. Any driver operating a vehicle displaying an inspection sticker on the right-hand side of the windshield after April 15 will be operating in violation of the inspection law," Johnson added.

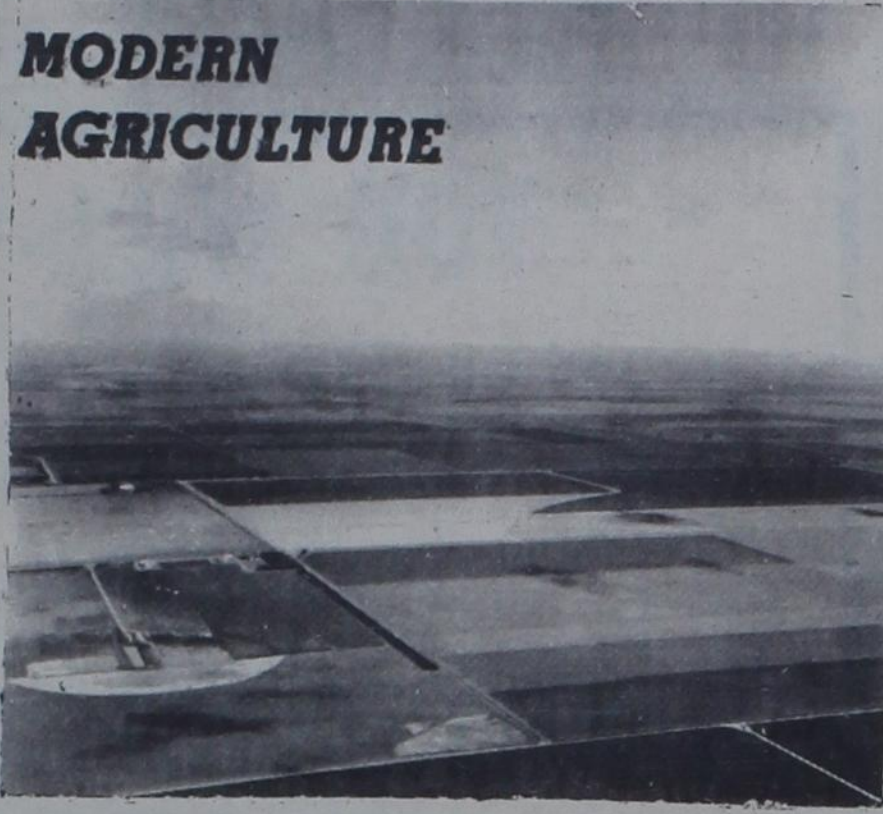

Johnson noted that this will be the last April 15 inspection deadline, because last Sept. 1 the Texas Legislature adopted a year-around inspection program.

Inspections will come due one year after the current month of inspection. This will establish an anniversary month for each vehicle to be inspected and prevent the log-jam of over six million vehicles to be inspected at one time.

The new inspection sticker will be placed on the left-hand side of the windshield. The number of the current month of inspection will appear on the sticker.

MODERN AGRICULTURE

Pesticides threaten existence of fish and wildlife in Texas

Texas is using 170 million pounds of pesticides annually, and the amount is increasing at a rate of 10 to 12 percent per year, according to Ken Jurgens, administrator of technical programs for the Department.

IN A recent statement to the Senate Committee for the Study of Land Use and Environmental

Control, Jurgens termed the use of pesticides, particularly those of a "hard" or persistent nature, "an environmental problem of great concern to fish and wildlife."

Jurgens said that about 84 percent of the pesticides used, fortunately, are the less persistent types such as the organophosphates and carbamates, which are not persistent of great concern in causing environmental problems.

"The remaining 16 percent," he said, "are persistent chlorinated hydrocarbons, and it is these which are causing serious problems. In aerial application of chlorinated hydrocarbons as little as 50 percent may actually reach the intended target. Aerial drift, co-distillation with water, volatilization from soil surfaces and leaching from heavy rains are some of the means by which they move from the point of application into the aquatic environment and thence to the estuarine and marine environments."

JURGENS said department studies made in cooperation with studies have shown that the oystery may contain residues up to 70,000 times greater than the amount found in water.

According to Jurgens, random samples of flesh-eating birds indicate unusually high residues of DDT metabolites. For example, a peregrine falcon contained 56 parts per million (ppm) of DDT in the liver and eight ppm in the brain.

A white pelican, which eats nothing but fish, contained 84 ppm in body flesh, 120 ppm in the liver,

Grain Board sets meeting

The Texas Grain Sorghum Producers Board will hold its next regular meeting in Dumas.

BOARD Chairman K. B. Parish explained, "It is the policy of the board to rotate its meetings from one area to another. This gives our members an opportunity to visit farmers throughout the 29-county area it represents."

The Texas Grain Sorghum Producers Board was established by a referendum last fall, at which time farmers throughout the Texas High Plains and Panhandle voted to assess themselves five cents per ton. This money is to finance research and market promotion. The goal is making more net profit in grain sorghum through reducing production costs and stronger gain prices brought about by added demand.

The board in previous meetings has set greenbug control methods as its top priority. This insect has caused millions of dollars worth of damage and added tremendous costs to production in insecticides during the last two years.

PARISH said, "In the area of promotion, we feel that we can help build West Texas into one of the world's leading pork production areas, the same as it has become for cattle feeding. This will add to our demand for our grain."

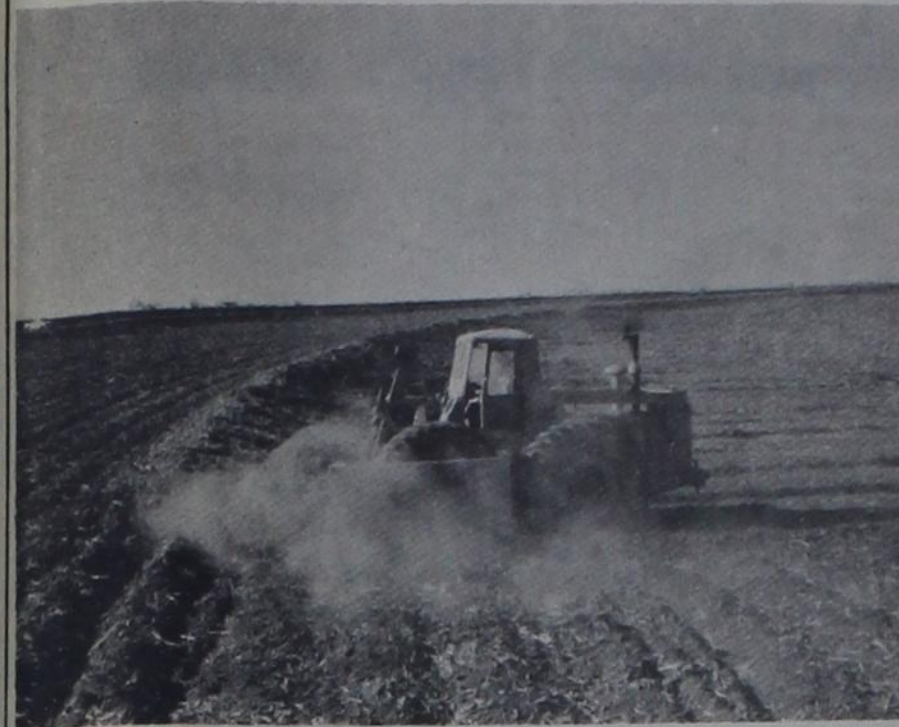

The group will meet at the Kona-Kai Inn in Dumas at 11 a.m. Tuesday, and the meeting is open.

Parish added, however, "For anyone wanting to appear on the agenda, we recommend they contact our office in Lubbock prior to March 16 to assure time on the program."

18 ppm in the brain, 31 ppm in the heart and 16 ppm in the kidney, plus two ppm of dieldrin in some body parts.

Jurgens said estuarine areas adjacent to area of intense agricultural activity are in danger of decreased productivity as a result of the use of pesticides.

"EXAMINATION of juvenile fish data revealed as much as eight ppm of DDT residue in gonads of spotted sea trout," he said. "Also, there has been a steady decline in numbers of juveniles of this species since 1964. Where 30 juveniles per acre were taken in routine monthly sampling consisting of 10 seine hauls by biologists in 1964, only seven juvenile trout were collected in 15 acres in 1968, and 200 sampling efforts over two months were required to collect this small number."

BUILDING PARALLEL TERRACES
... On Bob Anthony farm in Big Square

Conservation

Parallel terraces are easier to farm and boost production

By CLAYTON JOBE

With the use of parallel terraces, Bob Anthony, who farms west of the Flag community, has made the care of sloping land much easier.

THESE ARE vital in getting good distribution and use of rainfall on soils too steep to irrigate, and where mechanical measures are needed to control erosion.

Having used both the standard type terraces and the newer parallel type, Anthony has more confidence in the latter. These are easier to farm, and increase production through conservation of soil and water.

Anthony's terraces were constructed with an equal number of rows between each ridge. The furrows are laid out on the contour using the terraces as guide lines, thus allowing each furrow to hold its own rainfall and increase moisture intake. The terraces aid in preventing or controlling erosion as well as increasing crop production.

Cost-share assistance for this program is available through the Great Plains Conservation Program as well as the Agricultural Conservation Program.

Farms interested in either program should contact either the Soil Conservation Service or AS-CS office.

Cost-share assistance for this program is available through the Great Plains Conservation Program as well as the Agricultural Conservation Program.

Farms interested in either program should contact either the Soil Conservation Service or AS-CS office.

Prices are good on Lenten foods

During Lent, food shoppers for many families will emphasize meat alternates such as eggs, fish, dried beans and peas, milk, dairy products and cereal foods, in their meals.

Gwendolyn Clyatt, Extension consumer marketing specialist for Texas A&M University, has good news for these shoppers.

EGG PRICES have been a bit high in recent weeks but eggs still are a good protein food.

Ample supplies of dried beans and dried peas make them economical. The 1969 dried bean crop was six percent above 1968 and 25 percent greater than two years ago; dried pea production was 30 percent more than 1968.

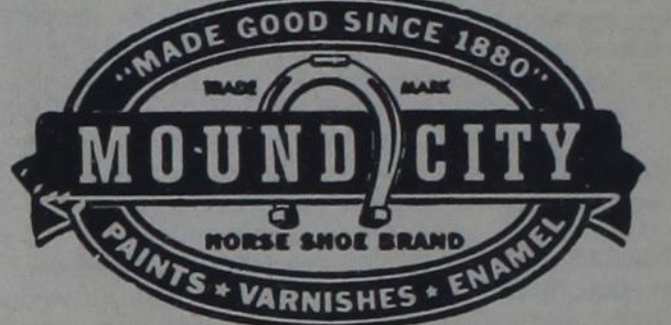

Cereal products such as macaroni, spaghetti, noodles, rice and cereal grains, are important meat alternates. But since the protein in cereal foods is not complete,

cereals should be used with milk, cheese, fish or eggs, Mrs. Clyatt says. These products will supply the needed complete protein.

HOWEVER, if meat is on your shopping list, markets this week will feature various cuts of beef at special prices, Mrs. Clyatt says. In general, look for the best beef values on chuck roasts and steaks, short ribs, ground beef, round steaks and liver.

Pork prices are at about the same relatively high priced level. Good values may be found on picnics, shoulder roasts and steaks and end cut loin roasts.

Fresh fruit and vegetable items in good supply at the most economical prices include oranges, grapefruit, apples, bananas, pears, potatoes, head lettuce, sweet potatoes, cabbage, carrots, salad tomatoes, turnips, dry yellow onions and broccoli.

Presenting **The VERSATILE Eversman 329**
Utilizing Important NEW IMPROVEMENTS in the Famous Eversman CRANK AXLE

Longer, Heavier Stronger — Built To Sell at a LOWER COST

The main wheels of the EVERSMAN 329 have been moved further ahead... and combined with NEW SPRING tension on the blade give faster, more accurate leveling and dirt moving action through greatly increased cutting and filling performance. Here is a big machine for dirt moving and leveling—longer, heavier, stronger—yet built to sell at a LOWER COST. For 3 plow tractors.

OUTSTANDING FEATURES—Length 32'6". Width 12'. Blade capacity 1 1/2 cubic yards. Blade vertical travel 15". Weight 2010 pounds. Front V smoother blade for dirt busting and use of heavy dry soil. Front Dolly Assembly for use in loose, moist and trashy soil conditions. Screw adjustment on front clevis provides simple, fast regulation for load in cutting blade. Rear Smoother Blade adjustable to all soil conditions.

There are Eversman models to fit all standard farm tractors.

FLAGG GRAIN CO.

'Six Flags' will open next month

Six Flags Over Texas will begin its 1970 season April 11, featuring one of the world's most colorful and exciting attractions, Los Voladores, the Flying Indians.

THE best-known feature of the Los Voladores presentation is the "flight" by four members of the troupe who spiral from the top of a 100-foot pole while grasping four slender ropes.

The breathtaking descent of the flyers is preceded by a performance of the group's chief who dances on a 12-inch platform at the top of the pole that is 10 stories high.

Los Voladores will present four to five shows each day, and like all rides, shows and attractions at Six Flags, the performances are free to park guests who have bought the one-price ticket.

TICKETS are priced at \$5 for adults and \$4 for children under 12.

From April 11 until May 22, Six Flags will be open on Fridays

ONE BABY in every 16 born alive comes into the world with a substantial physical, mental or chemical defect, according to the Easter Seal Society for Crippled Children and Adults of Texas.

The Texas Easter Seal Society provided direct care and treatment to 20,378 crippled children and adults in Texas in 1969. Public contributions to the annual Easter Seal Campaign helped make the program possible.

from 5 p.m. to 11 p.m. and on Saturdays and Sundays from 10 a.m. until 10 p.m.

The park's summer schedule begins May 23, and extends through Sept. 7 (Labor Day). Summer hours will be 10 a.m. until 10 p.m. seven days a week.

FROM Sept. 12 through 27, the park will be open Saturdays and Sundays only from 10 a.m. until 8 p.m. From Oct. 3 until closing day, Nov. 29, the Saturday-Sunday hours will be 10 a.m. until 6 p.m.

Workmen have been busy throughout the winter months adding new surprises to many sections of the 145-acre family fun center at Arlington.

New, electric-powered boats will move swiftly through the "treacherous" waters of the LaSalle River Boat ride, passing animated figures never seen before by Six Flags visitors. One of the new scenes portrays the building of the first Spanish mission in Texas, with animated figures hard at work.

COLORFUL animations from the studios of puppeteers Sid and Mary Krofft bring added excitement and fun to the Caddo War Canoes.

Along the tracks of the park's narrow gauge railroad, visitors will see a ghost town populated by well-dressed skeletons, and — at Mexican Junction — a comical, animated band pounds out rhythm for huge, smiling hot tamales doing their own version of "The Twist."

TOTONACAN FLYER—Dressed in an elaborate ceremonial costume, one of the "flying Indians" of the Los Voladores troupe strikes a stance during a performance. The famous aerial show will be seen this year at Six Flags Over Texas, which will open its season April 11.

'70 Census to provide Americans with a close look at themselves

Every 10 years Americans take a good look at themselves to reinforce the platform of facts on which to base plans for the future course of the nation.

THE OCCASION is the census of population and housing conducted once each decade as required by the Constitution. The 1970th in a series stretching back without interruption to 1790 will be taken on April 1.

Responsible for the census is the Bureau of the Census, US Department of Commerce. The count will be conducted from 395 temporary district offices throughout the United States, each of which will cover an area containing approximately 500,000 persons.

The census tells us what we are as a nation and is a necessary stocktaking. History has shown us to be a practical people, busy in the pursuit of our concerns, and we need a careful look at ourselves at regular intervals. The census will throw light on all the changes that have taken place in recent years.

FOR THE average American, the census will be a simple exercise. The government asks that he devote a few minutes to answer questions about himself and his housing. The questions will be on printed forms that will be sent by mail to each household. For 80 percent of the house-

holds there will be about 23 questions that require perhaps 15 minutes to answer. For the other 20 percent of the households, there will be an average of 69 questions that will require about 45 minutes.

Crucial decisions affecting every person in the nation depend upon the accuracy and completeness of the census. To begin with, political power hinges on the census count: Official population figures are used to determine the fair apportionment of seats in Congress, as well as in state and local legislative bodies. Also, federal funds often are distributed locally on the basis of census population figures.

PRESIDENT Nixon has said of the census: "Even as our population has grown in size over the decades, so the functions of the regular census also have expanded. Today, we are interested not only in an accurate counting of heads but also in a better description of our social condition. We know that unless a people can be adequately informed about their present, they cannot make intelligent judgments about their future."

For the individual, the census is secret. The answers he gives about himself and his housing are held in confidence. Census employees are forbidden by law

from disclosing any fact about a person, and would be subject to heavy fine or imprisonment for a violation of the law. In processing, facts about individuals are added in various ways resulting in statistical totals that depict the state of the nation.

Change has even affected the mode of taking the 1970 census. This year, the 65 million US households can be their own census takers. Each household will receive a census questionnaire by mail on or about March 28 and will be asked to fill it out as of April 1 according to enclosed instructions. The number of questions asked will be on the average the fewest of any census in the past century.

People in this district will be asked to fill out the form on April 1 and hold it until it is picked up by a census taker.

About 185,000 temporary workers will be hired by the bureau to take the census. Included will be 160,000 census takers (called enumerators); 13,000 workers in the 395 temporary offices, and 12,000 crew leaders and other supervisors, including a manager for each district office. Had not the changes in census taking methods been made and successfully proved out in field tests over a period of several years, it is estimated that 220,000 workers would

have been needed to take this year's census, using the same procedures employed in 1960. The 1960 total population was 180 million, compared with an estimated 205 million for 1970. The cost of taking and compiling the 1970 census will be about \$210 million.

Census workers will be employed four to six weeks, some longer. The process of hiring and training is underway now and will continue until April. The record that these census takers compile will become part of the fabric of American history.

Boat licensing deadline near

Boat owners have until March 31 to renew their boat registrations, according to George Cook, director of Water Safety Services for the Texas Parks and Wildlife Department.

COOK SAYS the last of the renewal notices were mailed to boat owners Feb. 23.

Boat owners with registered boats who failed to get a renewal notice should write Water Safety Services, Texas Parks and Wildlife Department, John H. Reagan State Office Building, Austin, Texas 78701.

Letters To The Editor:

Reader compliments sorority on successful fashion revue

Dear Editor: I would like to express my appreciation of the Beta Sigma Phi sorority's Spring Fashion Revue held in the Dimmitt High School auditorium.

THE MODELS and their young children as well as the other youth and adults, were extremely glamorous. Each and every one performed in her original manner, and the beautiful spring fashions by the stores represented were fabulous.

The delightful organ music, the original stage setting, and the talented trio added the finishing touches, as well as door prizes.

Of course I may be a bit prejudiced because my daughter and granddaughter, Carol and Belinda Bryant, were among the lovely models!

Just one disappointment, almost unbelievable, there were no pictures taken to display in the Castro County News! And Myrtle

Sheffy was delightful, too! Mrs. Clarence (Carolyn) Hamilton (Editor's Note: We regret the lack of pictures, also. We had two events to cover that night — which usually is no big problem — but the fashion show was shorter than we expected, and when we arrived there from the earlier event the crowd was already filing out of the auditorium. We congratulate Beta Sigma Phi sorority on a well-planned, well-attended show. Make it a little longer next year, girls, and we'll get there eventually!)

'Our Little Miss' pageant planned

April 25 has been set as the date for Hereford's 1970 "Our Little Miss" pageant, which is open to all girls 3 through 12 within a 35-mile radius of Hereford.

ROSALIND Rush, a senior at Texas Christian University, will serve as director of the pageant again this year.

All girls 3 through 6 will be eligible to participate in the "La Petite" group, and girls 7 through 12 will compete in the "Little Miss" category.

A winner will be named in each group. The two winners will go to Dallas in June to compete in the state pageant. Also, a talent winner to be named at Hereford pageant will be eligible to go to the state event in Dallas.

Anyone desiring further information about the "Our Little Miss" pageant may contact Mrs. Larry Walterscheid, 364-3551, or Mrs. C. E. Rusch, 364-1603, in Hereford.

They speak different languages

Nazareth man meets brother from France for first time

Mrs. Bertha Schoenenberger of Canyon had a lifetime "dream come true" last week when a son whom she had not seen since 1927 stepped off an airplane from Murviel As Be'Ziers, France.

IT WAS a memorable event, to for Albert Schoenenberger of Nazareth, and for all his brothers and sisters in the area. It was the first time most of them had ever seen their brother Karl, who was raised in Switzerland and is now a citizen of France.

Karl has to speak to his brothers and sisters here through an interpreter, since they don't speak the same languages. Karl's native tongues are French and German.

WHAT HAD created this situation of brothers and sisters being raised in different countries on opposite sides of the world? It's a story that dates back to an immigrant family's hopes being dashed by the Great Depression.

Mrs. Schoenenberger and her husband, John, came to America from Switzerland in 1927, expecting to find wealth and prosperity, only to arrive at the beginning of the Depression.

The late Albert Fischbacher of Canyon had visited the Schoenenbergers in 1927 in Switzerland during his search for a wife to bring back to America. He told them of high wages and opportunities in America, and helped finance their trip, which they made by boat. Their fare was \$200 each. The grandparents, Mr. and Mrs. Alois Rebsamen, persuaded the Schoenenbergers to leave their two small boys, John and Karl with them and come back for them after they became established in America.

AFTER arriving, the Schoenenbergers farmed for Fischbacher from 1927 until 1936, during the worst years of the depression. Children began coming and there was no money to send for the two left behind in Richenback, Switzerland.

In 1936, Mr. Schoenenberger began working for Randall County with Commissioner Clarence Beckman and with L. S. "Slim" Johnston on roads around Canyon.

He was employed at the Amarillo Globe Manufacturing Co. for 10 years before the company closed down. At the time of his death, Mr. Schoenenberger was custodian of the Fine Arts Build-

MRS. BERTHA SCHOENENBERGER AND KARL ... Mother sees son for first time since 1927

ing on the West Texas State Campus. He died Feb. 22, 1966, without getting to see his two oldest sons again.

Mrs. Schoenenberger, 65, was employed at WISU until October 1968, when she suffered a heart attack.

KARL, WHO IS now 45 years old, tried to come to America when he was 18, but was detained in France for not having proper papers. He also received word at that time of his grandmother's illness and returned to Switzerland. His grandmother died Sept. 24, 1951, and his grandfather passed away in May 1953.

Karl returned to France, and in January 1953 he was sent to Vietnam with the French Foreign Legion. He was the second son to have served his country in the Far East; his brother Albert of Nazareth served with the US Army in Korea from March 1951 to August 1952. A third son, Joe, had had boot training and was preparing to be shipped to Europe when he was discharged instead. Spending seven years in the

French Foreign Legion, Karl also served on the island of Malagasy Rep., Morocco, and Algeria. Arriving back in France, he met and married his wife, Francoise. She had one daughter by a former marriage, and they now have two grandchildren.

Keeping in touch with his parents through letters and pictures, Karl never gave up trying to get

to America. Mrs. Schoenenberger's oldest son, John, may not be able to come because of a heart attack he suffered last year. He and his wife, Anna, live in St. Gallen, Switzerland. They have four children.

Besides John and Karl, Mrs. Schoenenberger has 12 children — three more boys and nine girls. They are Albert of Nazareth; Bertha, Adelle, Christine and Theresa, all of Amarillo; Lucy and Marcella of California; Anna, who teaches in Arkansas; Mary of New Mexico; Joe of Oklahoma; and Tony and Evelyn of Louisiana. Mrs. Schoenenberger has 28 grandchildren.

John is in the cement business in Switzerland, pouring floors in construction. Karl is a foreman in a concrete construction business and has worked on many grain elevators, bridges and water towers in France, Algeria and many other places. His company office is located about 10 miles out of Paris. Karl expects to be sent soon to Luanda, Angola, in Central Africa, a province of France.

One sister, Christine, and a friend, Helen Covington, visited her brothers in 1967, and Ruby Vise of Happy and Mary Ann Sims of Canyon visited John while on a European tour in 1969.

Karl is visiting with his mother, sisters and brothers for three weeks and will return to France March 24. His family has planned to show him as much of the country and customs as they can during that time and will spend many hours just getting acquainted.

Speaking German, the language of his childhood and fluent French, Karl speaks very little English, so

Holly joins with New York firm to market low-calorie sweetener

Holly Sugar Corp. announced Thursday a joint venture with Sugar Foods Corp. of New York to market Sweet'n Low, a sugar substitute, in 23 western states.

SUGAR Foods Corp. is the national institutional marketing arm for Sweet'n Low, a granulated sugar substitute. It contains no cyclamates.

Holly Sugar Corp. is the nation's second largest beet sugar processor, with 10 factories in five western states.

Sweet'n Low Marketing Co. was formed as a partnership between Holcorp, Ltd., a wholly owned subsidiary of Holly, and Sugar Foods Corp. Its headquarters will be in Colorado Springs. Marlin C. Cuenburg, Holly's vice-president for marketing, will be president of the joint company and Donald G. Tober of Sugar Foods Corp. will be vice-president for marketing.

THE VENTURE will market a complete line of sugar and salt substitutes for the retail, institutional and industrial trades. These include Nu-Salt, a sodium free salt substitute; Sweet Magic, a carbohydrate free sugar substitute, and Sweet'n Low.

All sales will be handled through a network of established food brokers.

"This move reinforces Holly's concept of total sweetener mar-

keting as the product line now includes sugar, blends of sugar and corn sweeteners, and sugar substitutes," Holly President John B. Bunker said.

THE NATIONAL Easter Seal Society for Crippled Children and Adults, with its hundreds of affiliates, is the oldest and largest voluntary agency in serving the physically handicapped. The Texas Easter Seal Society, in its forty-first year of service, is now accepting contributions which finance its work.

Want your son to be a Cub?

Lady, would you like to have your son in the Cub Scout program? And would you be willing to serve as a den mother if necessary?

If YOU would, the other den mothers in town would love to have you attend a get-acquainted coffee for prospective Cub Scouts and mothers Saturday morning. The coffee will be at 9 a.m. at the home of Mrs. Linda Leonard, 703 Oak St.

"Many boys have been turned down in Dimmitt when they asked to be in a den," Mrs. Leonard explained. "The den mothers don't like to do this, but when each den is full with eight or nine boys, they have to say no."

You don't have to have previous Cub Scout experience to help, Mrs. Leonard said.

"MAYBE you cannot be a den mother, but you can offer help in other ways, such as babysitting

one hour a week for a den mother." If you are interested in the Cub Scout program here, you may attend Saturday morning's get-acquainted coffee or contact Mrs. Leonard at 647-2270, or Mrs. Joyce Davis at 647-5362.

Band Parents set taco date

Dimmitt's Bobcat Band Parents have set Saturday night, March 21 as the date for their annual Taco Supper.

THE SUPPER will be held in South Elementary School cafeteria from 5:30 to 7:30 p.m., and admission will be 75 cents for students and \$1.25 for adults. Proceeds will go to help pay the cost of this year's band trip.

PROFESSIONAL CRITIQUE—Dimmitt High School's one-act play cast gets the benefit of professional suggestions from Dr. Curtis L. Pope (left), head of the East Texas State University drama department, after performing their difficult play, "Waiting

for Godot," during the DHS Theater Workshop Saturday. Cast members, seated from left, are director Bob Farrer, Craig Vandiver, Shannon DeVaney, Rick Bell, Lonnie Markley and Mike Elder.

10 from Dimmitt attend VFW meet

Ten representatives of the local Veterans of Foreign Wars post and auxiliary attended the District 13 VFW convention in Canyon recently.

Mrs. Eupha Mae Griffin, district auxiliary president, conducted the ladies' business meeting and helped conduct the Sunday morning joint meeting. She also held the Sunday memorial service.

DISTRICT Commander Shorty Flowers of Canyon presided at the men's business sessions.

Representing Castro Memorial Post 8266 and Auxiliary were Post Commander and Mrs. Howard Cook, Auxiliary President Mrs. Gene Johnson, Mr. and Mrs. Ned Smith, Mr. and Mrs. Red Hill, Mrs. Florene Leinen, and Mrs. LaDene Carmichael.

The Dimmitt post will be the host at the next district meeting, which will be sometime in May.

Honorary picks Mary Lee Stone

Mary Lee Stone, daughter of Mr. and Mrs. J. W. Stone, has been accepted as a member in the Delta Xi Chapter of Beta Beta Beta, an international honor society for biology students.

THIS organization is limited to biological sciences majors or minors with sufficient hours and grade point averages.

Miss Stone is a second semester sophomore majoring in biological sciences at West Texas State University.

WE SALUTE YOU . . .

H-D Notes

4-H'ers to show crafts Saturday

By IRENE KEATING

My trip to Dallas last weekend was cancelled as all of us have had the flu. It certainly is good to be well again.

★

IN THE Bake Show-Food Show article in the paper Feb. 19, I made an error in the placings in the Bake Show. I am pleased that this was called to my attention. Sandra Tischler was listed as third place and it should have been Angie Wilhelm third, and Sandra Tischler fourth. These two girls were less than a point apart in the contest. My apologies to both of you girls for this error.

★

DO YOU know the difference between long grain and short grain rice? Long grain types of rice separate into individual grains after cooking.

Short grain varieties are best for puddings, croquettes, and rice rings because they stick together.

Whatever the type, do not wash or rinse away valuable vitamins and minerals before or after cooking. Rice keeps best in a tightly closed glass or metal container. Cooked rice may be refrigerated and kept covered for a week.

★

THAWING before cooking is not necessary for most frozen vegetables. However, leafy vegetables cook more evenly if thawed just enough to separate the leaves before you put them in boiling water.

★

THE 4-H GIRLS Project Show will be held Saturday in the American Legion Hall. Connie Nelson, Dana Hutchins, and Elaine Acker will conduct the contest with the help of Mrs. Verbie Nelson.

The 4-H Council will have a concession stand at the Legion Hall on Friday and Saturday of the Stock Show.

Sunnyside church hosting revival

A one-week revival begins today (Thursday) at the Sunnyside Baptist Church.

SERVICES are being conducted at 10 a.m. and 7:30 p.m. daily through next Thursday.

Guest preacher is Robert Baldridge, pastor of the Parkview Baptist Church of Plainview. Leading the singing is Sammy Nichols, music director of the Calvary Baptist Church in Tulia.

All revival services are open to the public.

The Catholic Charities aid needy and unfortunate persons of all denominations throughout the Panhandle and South Plains.

Admission will be a \$5 donation

647-3123 for Printing

WHO, ME?—The wedding party assembled, the bride and pastor are ready, and all that's needed is a bridegroom. That's when Pa swings into action in this third-act scene of "Hillbilly Weddin," presented by students of Dimmitt Junior High School Saturday night in the DJHS auditorium. Pa (Lee Cole) points his shootin' iron at city-

slicker Jim Glenn (center), who is surprised to find he is the guest of honor. Waiting for the wedding to commence are the bride-to-be (Flo Lust) under a tablecloth veil, and "the Reverend" (Roger Allison). The three-act comedy, directed by Mrs. Betty Hawkins, played to a full house.

The view from your library

By MARY EDNA HENDRIX

Hazel Merritt, chairman of the library board, and I went to Amarillo last Wednesday to a library workshop. It was held in the Mary E. Bivins Memorial Library.

THE MEETING was interesting as well as informative. Austin Hoover, the Texas field representative, was the guest speaker. Elizabeth Crabb is the extension coordinator for the Mary E. Bivins Memorial Library.

Arrangements were made for us to have lunch at Blackburn's Tea Room. We went back after lunch to the library for the afternoon session of the workshop. Mr. Hoover stressed the importance of public relations for a library. We are already engaged in some phases such as radio, newspaper, and "Children's Story Hour."

Mrs. Clark Dobbs read several stories to 12 children during the "Children's Story Hour" Friday. Mrs. Cowley visited with her

young son as well as her two older children.

Thought for the day: Discouragement is a word that should never be found in the dictionary of faith!

TWO mouths almost are cheaper to feed, says Gwendolyn Clyatt, Extension consumer marketing specialist at Texas A&M University. Per capita food spending by persons living alone will come to an estimated \$812 this year. Family food spending will average about \$1,802. That amounts to \$495 a member of the average statistical family of 3.6 persons.

Best Wishes To The Stock Show Exhibitors! Attend

THE CASTRO COUNTY JUNIOR FAT STOCK SHOW THURSDAY — FRIDAY — SAURDAY

NELSON DRILLING & PUMP SERVICE

First Christian Church revival to get underway Sunday morning

"Hear and Sing the Good News" is the theme of the spring revival beginning Sunday at the First Christian Church.

SUNDAY services for both the beginning day and the closing day a week later on Palm Sunday, will be conducted at the regular worship hours of 10:50 a.m. and 6 p.m. Services Monday through Friday will be at 7:30 p.m.

Evangelist Donald Raiford, minister of the Central Christian Church in Amarillo, will conduct the revival, with W. H. "Bill" Henderson, also of Amarillo, leading the song services nightly.

Mrs. Bedford W. Smith will be at the piano, and Jeanie Hamilton will be in charge of a nursery for pre-kindergarten children during services.

THE CHURCH is located at 609 Western Drive at the west end of Grant Street.

Minister Bedford W. Smith will present the lead sermon on the opening Sunday morning entitled, "God's Foe or Friend — Which Are You?" He will commute to

DONALD RAIFORD ... Evangelist

Amarillo for the evening service of the Central Christian Church there.

EVANGELIST Raiford, arriving here in the afternoon, will preach at all the remaining services of the campaign. A tentative list of his sermons includes:

- Sunday evening: "Why Bother About God?"
- Monday: "What Think Ye of Christ?"
- Tuesday: "The Meeting in the Air."
- WEDNESDAY: Handle with Care.
- Thursday: "Judgment Day Sur-

DIMMITT ENGINE SERVICE

WE BELIEVE IN THE FUTURE OF FARMING & RANCHING

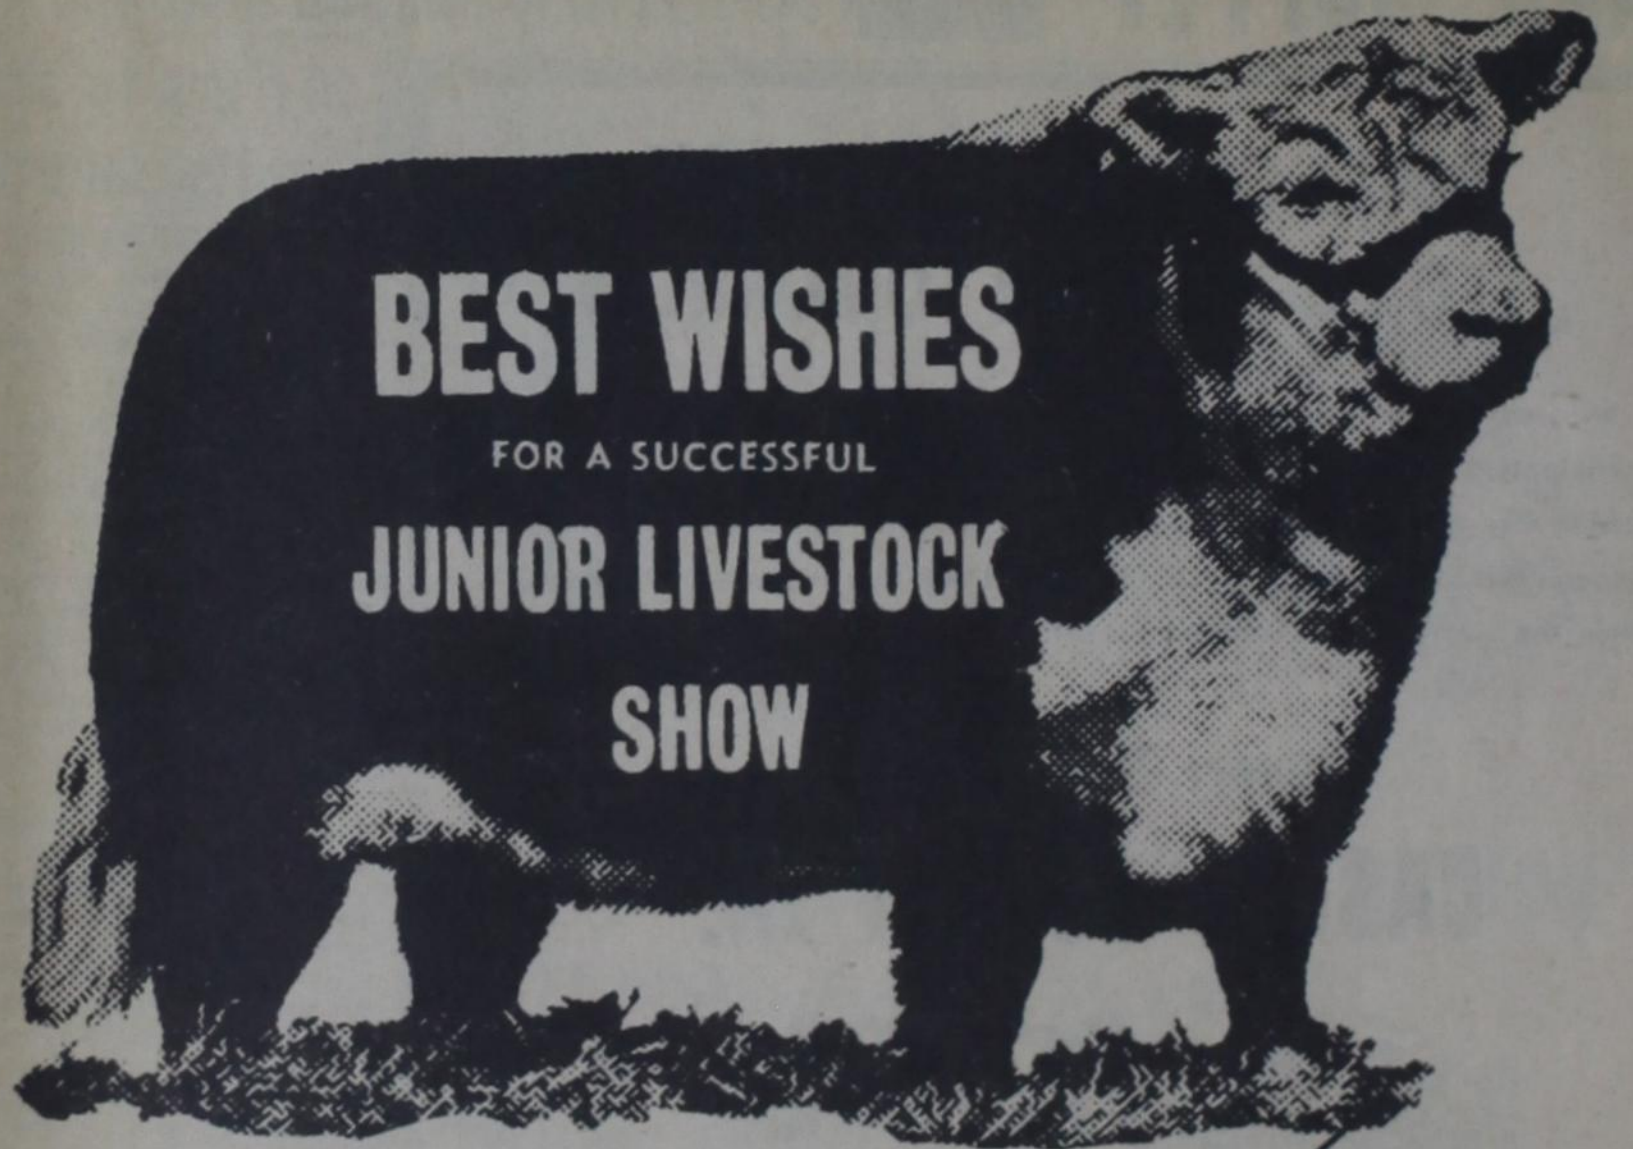

The Future Farmers of America and the 4-H Clubs are learning more about farming and ranching... In the classrooms and on the farm, thus they are becoming more proficient in farming and the future of farming is in safe hands... for only through a strong agriculture can this nation hope to survive.
