CARDINALS SHOW GRIEF

Assemble in the Death Chamber of Late Pope This Morning

THE FIRST CEREMONIES

Pope Is Declared Dead—"De Profundis" Chanted by Prelates

By Associated Press.

ROME, July 21.—This morning the first of those grandiose and unique ceremonies which follow the demise of a pope and although private, they were conducted with great pomp and were most impressive.

All cardinals present in Rome, numbering 29, assembled at the apostolic palace to view the remains of late Leo XIII. and to officially pronounce him dead. Cardinal Oreglia, dean of the sacred college, and Camerlengo, chamberlain of Holy Roman church, put aside his cardinal robes as a sign of deep mourning and was gowned entirely in violet. The other cardinals wore crimson robes with violet collars, indicative of mourning.

GUARD KEEPS VIGIL

Within the death chamber the body lay with a white veil over the face, and a bed surrounded by Franciscan penitentiaries while a noble guard maintained a solemn vigil. The profound silence was broken by only chanting prayers for the dead. Into this solemn presence came the mourning procession of cardinals, who knelt in silent prayer. Then the prelates reverently looked on while Cardinal Oreglia approached the remains. For this morning's functions the pope's bed room had been transformed into a kind of mortuary chapel with an altar at one end, having in the center a crucifix surrounded by six lighted candles. Four candles stood at the bed corners.

While the veil was then removed from the dead man's face, revealing the same like features of the departed pope, rendered sharper and more transparent by death. So lifelike was the body that those present had expected Leo to raise his hand in the familiar gesture of blessing. A moment of breathless silence ensued, and then the cameringing taking an aspersorium sprinkled the late pontiff with holy water and said in a firm voice: "Gloria-achimo." (The Christian name of the deceased holy father.) When there was no answer the same words were repeated three times louder and louder. After which turning to the kneeling cardinals the cameringing solemnly announced: "Papa Vere Mortuus est." (The pope is really dead.)

As the words were uttered there arose from the kneeling cardinals a sigh like that of wind in trees at night, a tribute paid to the departed pope, whose princely heads of the church after this in voices trembling with emotion the ranking cardinals recited, De Profundis, gave absolution and sprinkled the body with holy water. Following the ceremony of the recognition of the death of the pope by the sacred college came another shorter but not less significant and symbolic. On Leo's finger was the famous fisherman's ring which the cameringing, with a whispered prayer, drew gently off and which later will be broken in presence of the cardinals, reset and presented to the new pope when elected.

Non Employment of Union Men May Lead to Trouble

CHICAGO, July 21.—Unless Wells Brothers, general contractors, grant the demands of the building trades unions and hire only union men it is said that strikes will be called on all their jobs. The first of these has been called on the new plant of the Commonwealth Electric Company and involves 500 men.

CRIMINAL DOCKET IS UP

Proceedings in the District Court at GATESVILLE, Texas, July 20.—The criminal docket was taken up today in the district court. The case of Sea Caster, a negro, charged with murder is set for July 21. Gill Barrow plead guilty to hose theft today and was given two years in the penitentiary. Mrs. Tieman, who is charged with robbing trunks, is on trial.

TO CONSOLIDATE WESTERN LINES

New Incorporation to Embrace Frisco Properties West of the Mississippi Is About to be Organized

NEW YORK, July 21.—Announcement of an official nature has just been made regarding the projected consolidation of the Chicago and Eastern Illinois Railroad Company, the St. Louis, Memphis and Southeastern and other lines owned by the St. Louis and San Francisco road west of the Mississippi river. All of these lines are now in operation, with the exception of 150 miles between Thebes and St. Louis, which are now under construction. They are to be consolidated into the Chicago, St. Louis, Memphis and New Orleans Railroad Company, a new corporation which, including the Chicago and Eastern Illinois, and the line now being constructed into St. Louis, will own a total mileage of about 1,850.

NEW BOND ISSUE

There will be an issue of bonds, says the Times, and it will necessarily be large, as the proceeds will be used principally for the purpose of retiring existing securities. The exact amount of the issue has not been fully decided upon. The important point, however, is that the cash requirement in connection with the transaction will be small, inasmuch as it will consist largely of an exchange of the bonds of the new company for the securities for the various other companies to be consolidated.

These plans for the Chicago, St. Louis, Memphis and New Orleans Railroad Company, when accomplished, will form an important line from Chicago, St. Louis and Kansas City over the Frisco and Chicago and Eastern Illinois and for all the northwestern territory served by the Rock Island to the New Orleans gateway. It is understood an arrangement has been reached between the Missouri Pacific and the Frisco, by which the line from Memphis to Baton Rouge, will be made a joint line between the two companies, thus saving for both companies an unnecessary duplication of lines for about 200 miles. The Frisco will cross the Mississippi river at Baton Rouge, from which point it will have joint and equal use with the Illinois Central of its line to New Orleans.

TRIBUTES TO HIS MEMORY

Death of Pope Leo Calls Forth Deep Expressions of Sorrow From Many Prelates and Officials

NEW YORK, July 21.—Archbishop Farley of this city has paid his tribute to the dead pope in the following language: "The history of his pontificate, with its marvels and its blessings, point to Leo XIII. as having been pre-eminently a chosen instrument in the hands of Divine Providence. A great pope, his gifted soul could soar up to and find a congenial atmosphere among the sublime heights of theology and philosophy which his fatherly heart could feel and his foresight could provide for the well-being of the humbled of his flock. No other aim nor end than this, indeed, has he had in view in his wise and salutary councils and in his luminous and emphatic teachings upon the sacredness of the Christian marriage tie as being the source of the safety and protection of domestic happiness. "His paternal solicitude extended to all peoples. America, always had a large share of both his pronounced affection and his anxious care. "With what emotion do I recall the words that fell from those venerable lips as I bade him farewell at the end of a memorable audience, after he had listened to an account of the progress of the church in this, our diocese, during his own lifetime. "AMERICA HIS CONSOLATION. "Ah," he said, "amidst my many trials, America is my consolation. There the church enjoys liberty. In the United States she is free to build her churches and her schools unmolested. Here in Rome I the vicar of Christ, am as a slave, deprived of free action. In Italy, in France, the church is being persecuted by those who should defend her. Thank God for the consolation that comes to us from free America. "Strikingly has it been brought home to us many times how his lofty intellect, so cultured on every side and so richly stored with the lore of the ages, never ceased to concern itself with everything that made for the progress of art, literature and science; how his magnanimous spirit, fearless in the cause of truth threw open the treasures of the Vatican library to the scholars of the world, and how his deep love and profoundest appreciation of the highest philosophy man ever cultivated, that of the 'angel of the schools,' brought it back to the learned and in the regard of thoughtful of our own times. "To such a father, to such a friend and to such a pontiff, our hearts go out today and our prayers for him go up to heaven in no limited measure."

EDWARD REACHES KINGSTON HARBOR

Expresses Sorrow at Pope's Death and Order for Theatrical Performance is Countermanded

KINGSTON, Ireland, July 21.—King Edward and Queen Alexandra, accompanied by the Princess Victoria and their suites, arrived here this morning on board the royal yacht Victoria and Albert. Immediately after the yacht took its position in the harbor a royal salute was fired by the thirteen vessels of the home fleet. A heavy rain which had been falling since an early hour ceased at 9 o'clock and the sky cleared, giving promise of fine weather for the royal entrance into Dublin. In replying to an address here, King Edward said he shared in the sadness of multitudes of his subjects over the news of the pope's death. The king added that his visit came at the time when a new era was opening for Ireland. A special performance which had been planned for the Royal theater in Dublin July 24 has been countermanded in consequence of Pope Leo's death.

DUBLIN RECEIVES THEM

MISTLETS AT KINGSTON TODAY

Particularly interesting was the ceremony at the city limits, where an ancient gate stands. Several hundred regiments lined the road as a guard of honor, while behind them were cordons of police and militia. Thousands of spectators eagerly awaited the coming of the king and the queen. Always personally welcomed by the Irish, King Edward was to receive a warm welcome on the occasion of this, his first visit to the Emerald Isle since he ascended the throne. Shortly before the arrival of the royal party the purveyor of royal heraldry galloped up to the lord mayor and asked permission for the entrance of the king and queen. Graciously and in quietly worded terms of courtesy, the lord mayor granted the request. He galloped back to the gate, the gate banging behind him, the whole scene being a counterpart of a sixteenth century play.

Then from the ramparts of the gate came a fanfare of trumpets. The royal party was in sight. Out upon a scarlet cloth stepped Lord Mayor Harrington and the members of the municipal corporation, the same who had refused to vote the king an address of welcome. Their robes glistened in the sunshine and their hats swung and flashed brilliantly. The gate was swung open and in rode the advance guard of the royal cortege. A squad of life guards preceded the royal carriage and their brilliant uniforms evoked loud applause from the spectators. The first carriages contained the horse secretary and other members of the king's party, accompanied by members of the court and attended by mounted equerries. Finally, amidst almost perfect silence, came the editor, the editor, the editor of "God save the king," from outside the city limits came the royal coach. During the five minutes, when the king was occupied with the coronation at the castle, he was severely hurt in the last days of the crowds. Frequently his majesty nodded. In fact, he scarcely ceased nodding during the entire nine-mile drive through the streets of Dublin to the castle.

CROPS ARE EXCELLENT

Conditions Near Sulphur Springs Are Very Encouraging

SULPHUR SPRINGS, Texas, July 20.—The Baptist meeting began yesterday under the G. M. Pate shed at 11 a. m., with a large attendance, but the service in the evening was heard by about 800 people. Two ball games have been arranged by the Sulphur Springs and Mount Pleasant nines, to be played today and tomorrow. The game today was exciting until about the fifth inning, when both sides began to score fast. At the end of the sixth inning the score was 12 each, but the tenth decided it in favor of Mount Pleasant.

The condition of crops over this county is very encouraging, especially the corn, which is practically made, but a few more days of hot weather will decide very favorably for the cotton. The truck, such as tomatoes, cantaloupes, watermelons, are in abundance.

FORECAST IS IMPOSSIBLE

Conditions Usually Surrounding Papal Election Are Much Changed

QUESTION AN OPEN ONE

Former Parties Will Have No Influence in the Coming Conclave

ROME, July 21.—According to a statement coming from a high ecclesiastic arrangement at the Vatican are being pressed forward which will enable the conclave of cardinals to begin sitting August 1. However, it is now thought the sessions may last considerably longer than was at first expected, even long enough to permit Cardinal Moran of Sidney, N. S. W., to arrive in time take part in the proceedings.

An ambassador accredited to the Vatican says that the question of Pope Leo's successor is a peculiarly open one at the present moment. The personality of the candidates plays a much more important part than in any preceding conclave since the conditions prevailing in the papacy are now entirely changed. Formerly the sacred college was divided into several distinct parties. There was, first, that composed of cardinals who were members of great Roman families, nearly every one of which is represented in the college. These always exerted a very powerful influence in the election of the pope. At the present time there is only one cardinal of a great Roman house among the cardinals, namely Cardinal Battista Casali Del Drago, who from the standpoint of the election of the pontiff is relatively unimportant.

Then there was a party composed of the cardinals appointed by the same pope, who usually ranged themselves into separate bodies in addition to the members of the sacred college appointed by the pope who had then just passed away. There were usually a considerable number chosen by his predecessor, and even a few nominated by the pope preceding him. In consequence of Leo XIII's long reign these parties have entirely disappeared. In the present conclave there will be only one cardinal, Cardinal Oreglia, who was appointed by Pope Leo. As a result of these changes the approaching conclave will be much more under the influence of individual candidates than in the past, rendering it impossible to forecast the election with any degree of certainty. It is considered highly probable that the new pope will be a man at present not thought of and not talked about.

POPE MAKES CHANGES

Unverified Report That Several New Bulls by Leo XIII Have Been Found

NEW YORK, July 21.—An unverified report, published by the Temps, and copied by the Paris correspondent of the Herald, says: At the death of Leo XIII a certain number of bulls were found which partially change the form of the conclave. This, in fact, will no longer be a conclave, properly speaking, as the cardinals will not be restricted as to their movements. They will simply assemble twice a day for deliberations and balloting, without being constrained to live in common, which is always harrowing for ill and infirm cardinals. They will take an oath each time they leave the Vatican to reveal nothing and not to be influenced by any government. The pope has a right to modify the election, and bulls to that effect remain in force until modified by a succeeding Pope Leo XIII, shortly before the death of Pius IX, when he was camerlengo, made several modifications in the rules governing the conclave. It is not unlikely, therefore, that he had planned other modifications more essential and appropriate to modern times.

THINKS HE CAN STOP BOLL WEEVIL DAMAGE

Clay Howford, who lives at Cleburne, thinks that he has solved the question of the destruction of the boll weevil. He wrote to the chief of the weather bureau, George Reeder, here, and said that he had a practical, reliable, proven method to protect cotton against damage by the boll weevil and boll worms.

The letter which Mr. Reeder received this morning asked for information as to where he should send his method in order to receive the reward that was offered by the legislature at its last session.

Mr. Reeder replied to his correspondent by directing him to the proper authorities in Austin and told him to write there. Mr. Howford, in fact, has solved the problem, as he thinks he has, will undoubtedly receive the \$50,000 which is offered for such a discovery.

Both the state and the United States government are at work now trying to discover a thoroughly reliable method for the extermination of the boll weevil, which was such a pest throughout some parts of Texas last year. The government has sent out experts to try and come with the worm wherever it appears, while the state has appropriated \$50,000 as a reward for such a discovery and also appointed a committee to examine into any discoveries.

So far the government has not been able to do very much in the line of work, as the weevil has not appeared to any extent yet. The worms do not appear until the boll begins to form. Some of them get into the bloom, but they are

hard to discover. The warm weather which has existed for the past few weeks has stopped the work of the boll weevil to some extent also, as he does not like to expose himself to the sun.

LOOSE GAME WON BY WACO TEAM

Buchanan Is Hit Freely All Through Game and Errors by Panthers Help Out

Buchanan had another off day yesterday and Waco batted out a victory by a score of 8 to 3. Twelve hits were made off his delivery while the Panthers made ten off of Mulkey. Waco made the best of opportunities, also, as Fort Worth scored three clean hits off Mulkey in the fourth inning without a score.

Fort Worth's seven errors accounted somewhat for the defeat, as several of them were of the rank order and came at times when errors meant runs for Waco.

Buchanan and Poindexter were the stars at the bat, each getting three hits. Barrett made two. Bateman batted best for Waco, getting a double and two singles.

It was somewhat of a relief to the spectators to see Mackey with the indicator. His work was far superior to Spencer's and was quite different to having two players as umpires.

Yesterday was Schaezke's first appearance at the bat since he was crippled by being spiked early in the season. He was greeted by a round of applause when he appeared and each time he went to bat was also cheered. He still shows the effects of his injury and though his fielding was good, he hesitated once or twice in his movements, showing that he has not altogether gained confidence.

THE GAME IN DETAIL
Buchanan started Fort Worth's half of the second inning by beating out a bunt. Poindexter bunted also and got to first some time ahead of the throw. Barrett sacrificed with a bunt along first base line but it was too close to the line and Mulkey touched him out as he ran. Peer slammed one to Welter who fumbled it long enough to allow Buchanan to score and Peer to go to first. Dewey sacrificed, Walsh to White, and Poindexter scored. McMurray went out in a weak one to Mulkey. Two runs, two hits.

In the fourth Buchanan hit one toward first. White went after it but changed a mind and both he and White covered first while Buchanan got it for a second hit. Poindexter hit a sharp one to Walsh which bounced wrong and gave Walsh a black eye. Buchanan attempted to make third but Monahan picked the ball up and put him out. Barrett sacrificed to right. Peer popped a fly to Monahan and Dewey knocked an easy one to Walsh who forced Barrett at second. No runs, three hits.

In the sixth inning Schaezke filed out to Bateman. Buchanan made two strikes on fouls and then let a third strike go over the middle of the plate. Barrett lined a safe one over second. Peer followed with another in the same place and Pennell juggled it long enough to allow Buchanan to score. Dewey went out on a pop up to Walsh. One run, three hits.

THE VISITORS
Bateman started the game by hitting the first one high in the air. Reitz got under it but the wind took it and the ball fell safe. Pennell wanted to win the game with a home run and refused to bunt. He hit a hot one to White, which bounced off his glove and both men were safe. Butler attempted to bunt and dropped a short fly into Ditch's glove. White fanned out, but Walsh hit left field fence for two bases and both runners scored. A wild pitch sent Walsh to third but he led too far off and McMurray threw him out. Two runs, one hit.

Bateman lined one to left field fence in the third inning. Barrett missed a hit and Schaezke who threw to first instead of trying to catch the runner at home. Wolf struck out for the second time. One run, one hit.

In the fourth inning Reitz misjudged Walsh's high fly. Mulkey sacrificed one to second and Mulkey knocked a line one to Poindexter and gave Walsh an opportunity to go to third. White hit a liner to Peer who was too slow in getting his hands together and the runner scored. Monahan went out on a fly to Barrett. One run, no hits.

In the first half of the seventh Monahan doubled to left field but was put out at third by Bateman's drive to Reitz. Poindexter and Bateman went to third. Butler knocked a safe one to Buchanan who let it get away from him. Schaezke was there quick enough to get him at first but too late to share the success. Walsh filed out to Schaezke. Two runs, three hits.

Waco cinched the game in the eighth. Welter struck out Mulkey singled past Reitz and then White put another in the same place. Monahan sacrificed and Bateman's hit to right scored Mulkey. Poindexter threw to Ditch who relayed the ball to McMurray to catch White. Mac dropped the ball and the eighth run was scored. Pennell singled and Buchanan filled the bases by hitting Butler. Buchanan, however, remembered a day when Wolf made a

NOTES OF THE GAME

Buchanan spoiled the clean fielding record which he had for the second series by making three errors yesterday.

Dewey's catch of a fly from Mulkey's bat in the first inning was about the only good fielding play credited to the Panthers.

Poindexter got the first opportunities in the field that he has had in the last six games.

Jarvis is the only man on the team that has made a put out since the new series began. One firm of lawyers has paid up in five bond forfeiture cases in the last week. Hereafter it will not be an easy matter on the part of prisoners, to find bondsmen among the lawyers.

"BIB" Thompson's name was called on four charges this morning. He was charged with being drunk, using abusive language, disturbing the peace and carrying a pistol, all at one and the same time. Chief Reitz suspended the dismissal of the abusive

language and drunk charges inasmuch as Thompson has paid fines in one of the justice courts for the same offense. The other charges went over until tomorrow.

Coffee who was charged with intoxication failed to respond when his name was called and his bond was forfeited.

John Reed, a negro, pleaded guilty in an abusive language case and was fined \$5 and costs; he then pleaded the same way to the charge of pistol carrying and was fined \$25 and costs.

Kemp Cobb, colored, was fined \$4 and costs for using abusive language. It seems that he bought a plate of soup at a restaurant conducted by a negro on Main street. The negro accused Kemp of failure to pay for the soup and a quarrel ensued.

More bond forfeitures took place in the corporation court this morning. The numerous lawyers who flourish meagerly at the expense of the unfortunate men and women are having a stressful time putting up cash for their delinquent clients. GRAY IS ORDERED TO REPORT TO PANTHERS

A meeting of the league managers was held in this city last night. Rules for remainder of the season occupied most of the time. The rules as adopted give the umpire power to declare a game forfeited if a team refuses to play ball within five minutes of the time the umpire orders it to play. If a team should have one of its games forfeited a fine of \$150 is assessed against it.

The umpires were given power to suspend a man from the game for sufficient cause. A man that is put out of two games during the remainder of the season will be suspended from all games left this year.

The rules also say that either of the clubs playing for the pennant at the end of the season will not have the privilege of engaging any of the players of the other two clubs for the championship series.

Clarence Gray, the pitcher who has been playing with Corsicana under the name of George, was awarded to Fort Worth and a notice was sent to him to report immediately. The two games that he pitched for Corsicana were declared void. He pitched both games against Waco and won one and lost the other. These games are thrown out of the league standing and will have to be played again.

Other rules were adopted relative to the power of the umpire to keep order in the grounds during a game.

Mr. Tilford was appointed second umpire and ordered to report at Corsicana today for the Dallas-Corsicana game.

REQUIEM MASS FOR THE LATE PONTIFF

Rev. J. M. Burns of Chicago, who is in charge of St. Patrick's church during the absence of Father Guyot, said this morning:

"A requiem mass will be said in this church Monday morning at 7 o'clock. It will be announced to the people on Sunday, as that is the first chance. Preparation for the mass will be made now to decorate the church in the usual colors and book, which will remain up for thirty days after the death of the pope. I have received word from Bishop Dunne at Dallas in regard to this, and he asks that all churches throughout his district be draped in white, and that a solemn high mass be said."

old saying, "News is made in the morning," and in Fort Worth and many Texas readers of the Telegram profited by the repetition of the instance.

It will be remembered that the death of Queen Victoria occurred in time for the publication of the news in the afternoon newspapers of the United States, and the assassination of the late President McKinley was another of the more striking instances. Even a casual reader will note that in recent times nearly all important notices are found in the morning hours and readers of evening newspapers get the news first. The application is patent.

AN ICE PLANT IS SOLD

Property at Ennis Changes Hands for \$40,000
WAXAHACHIE, Texas, July 21.—Papers in a big property deal which was lately consummated at Ennis were filed with the county clerk yesterday morning. The deeds were two in number and were executed by H. C. Storrie, transferring the Ennis ice plant to the Ennis Ice Company, the consideration being \$40,000.

The class in physics at the summer normal at Ennis, which treated last week on Friday night, visited the electric light plant and were shown through the plant by Superintendent Cook. Saturday evening they were given an X-ray exhibition at Trinity University by Professor Hornbaker.

A midnight intruder visited the home of Dr. W. D. Boyd Sunday night but he was frightened away before he had had time to ransack the premises. An effort was made to catch him with bloodhounds, but without success.

Today J. L. McCarty and S. P. Spalding of this city were granted license as embalmers. They were examined when the funeral directors and embalmers met at Trinity University.

Conductor O. E. Long, who has had charge of the Central passenger train which runs between Waxahachie and Garrett, has been transferred to the main line. He has succeeded here by Conductor Asa Taylor, Hornbaker.

Rev. J. M. McCarty, pastor of the Cumberland Presbyterian church at Red Oak, is conducting a revival there with splendid success. There have been twenty conversions and several have united with the church.

Chalmers McPherson, pastor of the Main street Christian church, went to Henderson yesterday morning where he had been invited to deliver an address before the teachers' normal.

CUSTOM HOUSE CHANGES

Important Modifications of Inspection of Baggage May Be Made
NEW YORK, July 21.—Methods of the government in collecting customs by first placing returning travelers on the inspection rack and obtaining from them a declaration as to what their trunks contain and then turning out the contents of the trunks on the pier in a search for undeclared articles, are likely to be modified as the result of a trip to Europe by John Bishop, deputy surveyor of customs at this port.

Complaints by passengers who asserted that Americans may visit all the countries of Europe without being subjected to such an ordeal, led to the sending of Mr. Bishop to study and report the examination of baggage and the collection of customs at the larger European ports and it is understood he will recommend to Secretary Shaw changes which will make the inspection of baggage less troublesome.

EVENING NEWSPAPERS

Superiority is Again Shown in Case of the Pope's Death
Yet again has the superiority of the evening newspaper over the morning publication in the case of the news of the death of the late Pope Leo, who the world anxiously awaited during the week past. The death of the pope occurred a few minutes after 4 o'clock in the afternoon. The difference in time was such that the news could be printed in every evening newspaper of the United States, from Maine to Manila.

It was but another illustration of the

as 95.1 degrees counts as 96 on the weather report. The thermometer was not satisfied, however, and it crept slowly on toward the top of the tube. At half past two another degree was passed and at 3 the temperature got up as high as 97, which breaks the record made a week ago Sunday, just before the thunderstorm of that day, by over a degree.

Old Sol took advantage of the fact there was not much of a breeze blowing today, in order to turn on his hottest rays and break the heat record for Fort Worth. The temperature did not show anything remarkable until noon when a sudden spurt put it up eight degrees in an hour. Still an hour later it had mounted up to 94 degrees. Then it stopped a while and only reached a degree higher in the next hour, but at 2 o'clock it was a fraction over 95 and the highest for the year was equaled.

SWORN PAID CIRCULATION OF THE FORT WORTH TELEGRAM FOR MONTH OF JUNE, 1903

Table showing daily circulation figures for the month of June 1903, with a total of 175,376.

PHOENIX, Ariz., July 21.—General Baldwin, commanding the department of the Colorado, who is now visiting Fort Whipple, Arizona, has just received orders from the war department cancelling orders recently issued to the Fourteenth infantry to proceed to the Philippines.

The navy department has an official report from Surgeon Hester that officers and men kept in the Philippines longer than a year are affected physically and mentally and are not capable of performing those duties to which they are assigned.

Will some enterprising newspaper man keyhole the college of cardinals during the convulse for the election of a pope and give daily bulletins of the proceeding? It will be hard to find out what transpires in that sealed chamber.

man who once studied that old book can never be weaned from its interesting pages. He will read it from B-A to K-E-R, baker, back to the place where the old man is throwing clods at the boy in the apple tree, and every time he goes through that speller he will find something new.

There is a great deal of sentiment about the people of Kansas. A citizen of Harper county was recently afflicted by the loss of his wife? He gave vent to his feelings in verse, fifteen stanzas being the extent of his sorrow as publicly expressed. Here is one selected at random from the collection of fifteen:

Her clothes I have laid aside, I shall often look them o'er; Their colors will bring to mind The form that them wore.

The order for the encampment of the Texas National Guard has been issued. The boys will now polish up their brass buttons, and the girls will get out their best summer clothes. The chances are that, although the United States army will not participate, the mobilization will be in the nature of joint maneuvers after all. The Texas girls will be there.

Evidently the Russian government does not have a working interest in that constitutional provision of the United States, which says the people shall have the right of petition. The Kansas City Star thinks it was a very diplomatic move, as the incident was handled. In other words Russia was asked, "Would you accept the enclosed petition if it was offered to you?"

There is no surprise that Judge Alton B. Parker is popular in the democratic south. There have been several elections in New York state, in which Judge Parker was the only consolation for the democrats who were watching the bulletin boards.

Bryan has no chance in the world with the people of St. Louis, San Francisco, Boston, Philadelphia and numerous other cities of the country. In his speech last Saturday he referred to Chicago as the "second city in the union." These rivals of Chicago will never stand for such a cold reception of their claims.

Just about the time Bryan was talking about Grover in Chicago, last Saturday, Grover was walking the floor with his last boom, proud of posterity, and not a moment to give a thought to the man from the west.

Will Mr. Bryan accuse Cleveland of being a republican, because he does not belong to the race suicide club, but rather has a leaning to the Roosevelt policy of providing occupants for the school rooms of the future?

Texas is certainly after the scalp of Mr. Holl W. Ewell, and the price offered is not a small one.

Dancing Tuesday, Thursday and Saturday nights, Lake Erie Auditorium. Round trip 25 cents.

CANFIELD WAS LAST SUBJECT

Well-Known Sporting Man Sat For Late James McNeill Whistler

NEW YORK, July 21.—Probably the last portrait completed by the late James McNeill Whistler was named "His Reverence" by the artist. The original is Richard A. Canfield of this city, the well-known sporting man.

Whistler gave Canfield the last sitting on the afternoon of May 15 in the studio of his London residence, and the portrait was finished some time last month. It is supposed to be resting now on the easel on which it was painted. Canfield is in Saratoga. A dispatch from that city quotes him as saying of the painter, whom he had known for many years:

"I see there is some speculation as to the disease that carried him off, owing to the reticence of the family. Among those who knew him well there is no doubt as to the cause of death. It was heart disease. He discovered that he had a weak heart in Holland last year, when he was there with Colonel Charles L. Freer of Detroit, who has, by the way, the finest and most complete collection of Whistler's etchings in the world."

*Decrease.

In the particular report on exports of breadstuffs, it will be noted that eastern ports in almost every instance have suffered a decrease, while gulf ports, New Orleans and Galveston, have enjoyed an evident increase. Galveston figures advance from \$7,600,000 to \$10,400,000, and New Orleans from \$17,700,000 to \$24,500,000. On the other hand, a decline is noticed in the case of Atlantic and Pacific ports. The figures in detail from the various points follow:

In the case of corn, the same thing is true, as is demonstrated by the following figures:

EXPORTS OF CORN, BUSHELS, ALL PORTS

The total wheat shipment for the year shows a decrease of 10,000,000 bushels. In this decrease New York is the largest sharer to the extent of 5,000,000 bushels. Boston, Baltimore, Philadelphia and Newport News show the same decrease.

The gulf ports, on the other hand, have more than held their own, indicating by undeniable figures their approaching supremacy.

While New Orleans has done nothing more than hold her own, she exceeded New York's figures by 400,000 bushels, while Galveston shows the remarkable increase of 6,000,000 bushels. The figures for wheat follow:

The figures governing other products are equally promising, but it is evident from the figures already produced that the tide of export business is already being turned from the east to the south. New York is already on the decline in regard to export business, while New Orleans and Galveston are rapidly making their marks as great ports.

Catarrah of the Stomach.

When the stomach is overloaded; when food is taken into it that fails to digest, it decays and inflames the mucous membrane, exposing the nerves, and causes the glands to secrete mucus, instead of the natural juices of digestion. CALLER—Dear old Jack, I just read in the paper about your being sun-struck, and rushed right over. I'm awfully glad you're as well as you are. You're lucky. Now, old man, I don't want to work the old "I told you so" gag in you, but the way to prevent sunstroke is to keep the bowels clean and cool, and the blood from being over-heated, by taking a CASCARET Candy Cathartic at bed-time. They work while you sleep, and keep you safe and comfortable all day.

LAW HAS WIDE APPLICATION

Provisions Regarding Agencies for Publishing Houses May Hit Many Teachers and Trustees of Schools

AUSTIN, Texas, July 21.—The act passed by the Twenty-eighth legislature, creating a board to select a system of text books for the public schools of the state, was explicit in its provisions that no person who was interested from a financial point of view in the publication and sale of any text book, now or in any time past, was eligible to membership on the board. This feature of the bill forced Professor Lefevre, who was a member of the board by virtue of being superintendent of public instruction, to tender his resignation, for the reason he was the author of a work entitled the "Algebra of Numbers," and was interested in its publication. This created something of a sensation at the time, but Professor Chatfield of Abilene was appointed by the governor to fill the vacancy, and in a few days the incident closed and the matter moved on smoothly. A great many teachers in the public schools of the state have been in Austin since the text book board was organized and commenced work, and as they seemed to have business with the board and the publishers now in Austin also, it is fair to assume that they may be interested in the publication and sale of some text book as either author or agent. Should this be the case, and it is both probable and reasonable, when the board has adopted a system it is also very probable that the announcement will explode and cause more resignations. The act creating the present board is not the only law regulating and controlling adoption, and the members of the board are not the only people who are disqualified under certain circumstances, as the following extract from a bill passed by the Twenty-sixth legislature in 1900 will show: Section 12, chapter 7, acts of the special session reads: "No member of the board of trustees of any public school, nor teachers in the public schools of the state, nor county, nor city, nor city superintendent of public schools, shall, during their term of office as trustee, teacher or superintendent, or during the time of their employment as teacher, act as agent or attorney for any text book publishing company selling text books in this state. "Nor shall any person interested in the publication of text books, or selling the same to be used in the public schools of this state, be eligible as school trustee, county or city superintendent of schools, or as teacher in any of the public schools of the state while acting in the capacity of agent or attorney for text book publishers or dealers." But the law does not stop here, but goes on and provides against shamming and juggling with the truth, or steering clear of publishing houses until after they are elected and forming business connections with them. The concluding part of the section quoted says: "If after election as trustee, county or city superintendent, or employment as teacher, any person filling such position, accepts the agency or attorneyship of any text book publishing company, the acceptance of such agency or attorneyship shall work a forfeiture of the office or place in the public schools held at the time of the acceptance of such agency or attorneyship." So, therefore, if any of the teachers or other officers of the public schools who have visited during the scramble for adoption, who are the agents of publishing houses, whether their books are among those selected by the board or not, they have forfeited their positions already by the plain language of the statute.

BOLL WEEVIL COMMISSION Lea Beaty, a member of the last legislature from Caldwell county, was in Austin yesterday to confer with the governor with reference to the board to be appointed to pass on tests and experiments to be made with a view of destroying the boll weevil. The bill passed by the legislature in addition to hanging out a prize of \$50,000 to be paid for a remedy that will accomplish this purpose, makes it incumbent upon the governor to appoint five persons to pass on the merits of the remedy proposed.

MODEL TIME TABLE FOLDERS Model time table folders, which are superior to any time table folders ever printed, have been issued by the New York Central's passenger department. They are Numbers "21" and "20" of the famous "Four-Track Series," and both are literary gems and compendiums of railway travel. General Passenger Agent George H. Daniels has incorporated various suggestions made by bright people, and has tried to include in these folders all that could reasonably be put into such books. They are worth a prominent position in every library, and on every business man's desk.—From the Buffalo Commercial.

THE CROP WILL BE LIGHT Estimate in Henderson County is Not Very Flattering MALAKOFF, Texas, July 20.—The farmers have been quite busy the past few days trying to clean out the cotton, most of which was very grassy. Corn, where it was given any show at all, is fine. Corn is now selling at 25 cents. Not much though will be sold at less than 50 cents per bushel. The estimate of the cotton crop, owing to the very hard year, is placed as low as 9,000 bales. It is now thought that not more than 300 cars of seed will be shipped. Malakoff has always shipped more seed than any town on the Cotton Belt. Quite a number of merchants and others are here prospecting, some of them figuring on buying and locating. Parties from Kerens put us up a bank last week. A cotton platform 300 feet long is being put up by the Cotton Belt, also a passing track, another side track and a spur to the brick plant. Experts say our white brick is even superior to the celebrated St. Louis white brick that sells at \$50 per thousand.

GRAIN RATE HEARING SHOWS SOME DEVELOPMENT

Commissioner Prouty indicated very strongly this morning during the hearing on the grain rate that the Rock Island is allowing privileges to the Rosenbaum Grain Company which privileges are not published in the tariff, and are not enjoyed by other people.

The investigation went into the discussion of rates and practices at Fort Worth, and General Freight Agent J. C. McCabe of the Rock Island explained that because the Rosenbaum people have an elevator on the line at the road, they are allowed the apparent advantages which others do not enjoy. Commissioner Prouty questioned him closely on this subject, and went into details on the various points of discrimination.

The impression gained from the hearing and from what the commissioners say as the investigation proceeds is that they will interfere to some extent with the practice in the conduct of grain shipments through the Rosenbaum elevator.

1. The Rock Island will be required to apply the demurrage rules to the Rosenbaum elevator.

2. There will be instructions issued that the elevator be checked oftener than it has been and the surplus billing over the stock on hand cancelled.

3. Inquiry will be made into the authority of the interstate commerce commission to require that the life of export billing be made less than six months, so that it will prevent a Texas elevator being set up with interstate wheat early in the season, to be located out, and later to use the unexpired billing to export Texas wheat.

Commissioner Prouty stated this morning that the organization of which he is a member is not possessed of the authority enjoyed by the Texas commission, and cannot do as many things as it would like when cases like this are presented. From his discussion of the question of whether the Rock Island desired to make a contract similar to that now in force with the Rosenbaum company.

Manager Mountcastle was on the stand at noon.

It developed at the hearing this morning that the Rock Island has changed auditors in its Texas headquarters. When Commissioner Mayfield investigated the situation in March last Auditor Morris gave his testimony in the case. When the auditor of the road was summoned this morning to be questioned regarding that testimony, it was found that June Henry Lucas was now auditor, and that Mr. Morris was now in Chicago.

The commission expects to finish the hearing here this evening, and will then go to Kansas City for a hearing of a day, continuing the investigation of this question.

MORNING SESSION

When the second day's session of the interstate commerce commission opened Henry Lucas was called. Mr. Lucas is auditor of the Rock Island railroad. Mr. Lucas has been in the position since June 1 last. His predecessor was Henry Morris, who is now in Chicago. Mr. Lucas is not familiar with the testimony given by Morris nothing of a settlement between the Rock Island and the Rosenbaum company in July 1902.

Mr. Trickett explained to the witness that Mr. Merrill had testified that a settlement of \$20,000 had been made by the Rosenbaum company after the investigation by Commissioner Mayfield, following the check on the elevator. The commission desired to know if a year ago, when the elevator was checked, whether a similar settlement had been made. Mr. Lucas was requested to make up a statement from the records of his office.

The witness then explained how the local agent reports the inbound and outbound grain.

Mr. Lucas stated that a check is now being made on all business during the year ended May 8, 1903.

By Mr. Trickett—Has this item of \$20,000 actually been paid to the Rock Island Railroad company by the Rosenbaum company?

Mr. Lucas—I do not know.

By Mr. Trickett—Can you furnish a statement of all moneys paid to the Rosenbaum company by the railroad company in the nature of switching charges?

The witness said that the investigation by Commissioner Prouty regarding the method of correcting billing, where export shipments are transferred to domestic consumption, makes such reports and the local freight agent witness explained that the check being made on the business of the year past is to determine whether the road has received its proper earnings on the business.

By Mr. Marchand—What settlement have you made with the Rosenbaum company at \$2.50 per car transfer charges since June 1?

Mr. Lucas—For May I paid the Rosenbaum company \$1,250 and for June \$19.50.

Witness could not say who instituted the check on the business for a year past and why it was being done. It was started before he came.

F. E. MERRILL
 Commissioner Prouty had Mr. Merrill, the local agent of the Rock Island, recalled to ascertain about the payment of \$20,000 by the Rosenbaum company. The money was paid to the witness and he issued a receipt for the same. The witness was asked to produce all documents in this transaction for the commission at the afternoon session today.

The \$20,000 was paid by a draft signed by G. C. Mountcastle.

J. N. RAYZOR
 J. N. Rayzor of Detroit, a miller, was next called. He has purchased a great deal of grain from the Rosenbaum Grain Company. He did this because he could buy it cheaper than elsewhere. He has tried to buy grain in competition with Rosenbaum and failed. He explained that because he is located on the line of the Santa Fe of the Rock Island they refuse to join with connecting lines on a milling-in-transit basis.

He gave these illustrations: March

Just About Bedtime

They do not gripe and break down the mucous membranes of the stomach, liver and bowels, but cure by gently arousing the secretions and giving strength to these organs. Sold by all druggists.

27 at Hutchinson, Kas. He bought wheat at 86 cents delivered at Gainesville, on March 28 he bought grain from Rosenbaum at 74 1/2 cents f. o. b. Fort Worth.

April 4 he bought grain at Hutchinson, Kas. at 85 cents delivered at Gainesville. At 77 1/2 cents f. o. b. Fort Worth.

He gave several other instances of this character and stated that from September 27, 1902, to April 17, 1903, he bought grain from the Rosenbaum company 99,500 bushels, which represented 80 per cent of his purchases during that period.

In answer to Commissioner Prouty he said the Rosenbaum grain was not of superior quality and he preferred to buy elsewhere.

There was no difference in the grading of the wheat. The Rosenbaum wheat was not as good in quality, but it was not No. 2 wheat. This condition indicated to witness that Rosenbaum could handle grain cheaper than he could and was handling an inferior wheat. All grain bought of Rosenbaum people was of inferior quality. The difference in price was not due to the quality of the wheat.

Commissioner Prouty—if the Rosenbaum people can sell you grain cheaper than you can buy elsewhere, is it not an advantage to you?

Mr. Rayzor—It is an advantage if it continues, but if they are allowed to run out all other grain men, I do not know that it would continue. I know that we cannot buy grain in competition with the Rosenbaum company.

Mr. Lassiter took the witness. The witness said he did not maintain buyers at all points in Oklahoma as did Rosenbaum. He bought from commission men and did not know when Rosenbaum bought the grain he purchased or how low it had been held.

Mr. Lassiter—Are you a member of the Texas Millers' Association?

Mr. Rayzor—Yes sir.

Mr. Lassiter—How many mills in Texas does that embrace?

Mr. Rayzor—About 75 per cent.

Mr. Lassiter—Is that not a sort of closed trust?

Mr. Rayzor—No sir.

Mr. Lassiter—I will ask you if your organization as an organization is not continually complaining to the Texas railroad commission?

Mr. Rayzor—No sir.

Mr. Lassiter questioned him regarding the 5 cent differential on interstate grain, forced by the Texas railroad commission under a threat to put in an emergency rate a local business in Texas.

Mr. Rayzor said this was done to give the Texas millers a chance to compete with interstate millers, and so that a shipment of grain could be filled in transit and shipped through to destination on a rate equal to that on interstate flour from point of origin to point of destination.

J. C. McCABE
 J. C. McCabe, general freight agent of the Rock Island, was called by Mr. Lassiter. He said that he knew of no special advantages allowed the Rosenbaum Grain Company. The unloading charges, however, were the same as other roads could get its equipment released at once.

In reply to Commissioner Colquitt he said the instructions to have the elevator checked in April was a verbal order to the auditor.

Commissioner Colquitt said the beginning of this inquiry grew out of the contention between the El Paso and the Rock Island and the Texas Car Service Association regarding a road to release Rosenbaum elevator at El Paso from demurrage charges.

Mr. Lassiter explained that the Chicago, Rock Island and Texas, the Chicago and North Western, and any other Rock Island railroad controls no line into El Paso. He also stated that the Rock Island maintains demurrage rules.

By Mr. Trickett—Why did you order the check on the Rosenbaum business?

Mr. McCabe—The check was a mere criticism of the Rosenbaum method of doing business that I wanted to satisfy myself that it was all right so that connecting lines could be thoroughly satisfied.

Mr. Trickett—What was that \$20,000 item to cover?

Mr. McCabe—The records will show that.

Mr. McCabe explained that the through rate to Galveston on Texas wheat was 15 cents, of this the Rock Island 7 1/2 cents is south of Fort Worth. If this occurs on unexpired Kansas City billing it would pay a higher rate—7.85.

Mr. Trickett suggested that when wheat is located into Fort Worth this is the wheat which moves out on the unexpired Kansas City billing at a rate of 7.85.

Mr. Cante questioned Mr. McCabe and he stated that had Mr. Kell followed the tariff regulations the cost would have been the same privilege enjoyed by the Rosenbaum company.

Mr. McCabe explained that the elevator was an advantage to the road, in that it was not necessary to check the weights, if an expert shipper to the Rosenbaum through Fort Worth in a Rock Island car and went to Galveston it would be problematical when it returns. The car would earn mileage of 20 cents per day. If the grain is consigned to the demurrage rules of a car of the connecting line, the Rock Island's equipment would be released at once, and being put into service at once it could earn \$0 per day. Therefore, the road finds it cheaper to pay \$2.50 per car transfer charges.

Commissioner Prouty stated a case. A car of grain from Kansas City destined to Galveston, arrives at Fort Worth billed at the export rate of 17 cents, and Mr. Rosenbaum pays 9.14 cents to the Rock Island. The car never goes to Galveston. Now under what tariff is that rate charged?

Mr. McCabe—Under the export rate.

Commissioner Prouty—What right have you not to charge such a rate? You know it was not going to Galveston. The commissioner showed that Rosenbaum could ship a car from Kingfisher, Ok., to his elevator at Fort Worth at 23 1/2 cents and the Rock Island pays Rosenbaum \$2.50 per car he wanted to know why Mr. Kell could not do that.

Mr. McCabe—Mr. Kell has no elevator on our line.

Commissioner Prouty—It seems to me that you are giving a special privilege other people do not enjoy.

Mr. Trickett—Do you not pay Mr. Rosenbaum \$2.50 per car for transferring this grain?

Mr. McCabe—Yes sir.

Mr. Trickett—That is not a premium privilege which he only enjoys?

Mr. McCabe—It is no premium. I do not consider it an unreasonable charge as it gives us our equipment.

requirement that you shall treat all people alike. Could I ship grain in here and pay the proportional rate and get my grain?

Mr. McCabe—No sir.

Commissioner Prouty—Is there anything in your tariff which shows that Mr. Rosenbaum is allowed the privilege?

FRANK KELL RECALLED
 Mr. Kell stated that he wanted the wheat from the territory to move through Bowie by his agency to Wichita Falls as the Rosenbaum grain is moved by the Rosenbaum agency at Fort Worth.

Mr. Lassiter—Will you accept a Rock Island bill of lading out of Bowie and guarantee the Missouri, Kansas and Texas will protect it?

Mr. Kell—Yes sir.

Mr. Lassiter—We will give you that. Mr. You did not do it.

Mr. Lassiter—We will do it.

Mr. Kell—I do not want it now. I can get Texas wheat now.

G. C. MOUNTCASTLE
 G. C. Mountcastle, manager for Rosenbaum elevator, was called. Some grain goes through without being transferred. Other grain, besides that of Rosenbaum, is transferred through the elevator.

Answering Mr. Trickett—a large proportion of the Rosenbaum grain goes through the elevator.

Mr. Trickett—Would you not transfer the grain whether the Rock Island paid \$2.50 per car for the transfer?

Mr. Mountcastle—The original owners would not. They declined to do so unless they got the contract. If I owned the property I would not. I do not know what the present owners would do.

Mr. Trickett—What does it cost to transfer grain from one car to another?

Mr. Mountcastle—We paid \$40,000 one year for the service. Under the contract the railroad paid \$20,000.

Mr. Mountcastle gave the history of the elevator here, stating that he bought the ground and superintended the building of the elevator and that Charles F. Orthwein, the original promoter of the elevator, said he would not build an elevator unless he was paid \$5 per car by the railroads. The Rosenbaum elevator was last checked in May and previous to that in January or February. The inspector came and declined to take the stock statement. The inspector's check did not agree with my stock statement. I suggested that if he would give me a little time when I was prepared for a weighing, I would turn the house over to him. This was done and when I was ready I sent for him.

Mr. Trickett asked when the \$20,000 correction was paid.

Mr. Mountcastle did not remember that he ever paid it in a lump sum. These amounts for undercharges are paid daily by the railroad. There is a matter in controversy now regarding an undercharge.

Mr. Trickett—How much is that?

Mr. Mountcastle—About \$24,100.

Commissioner Prouty—I do not suppose you will spend much time over \$24,100.

Mr. Mountcastle—I am buying Texas wheat. The majority of it has gone to Galveston and did not go into the elevator at all.

The Texas wheat which goes into the elevator takes local rate. He said he had never sent Texas wheat to Galveston on Kansas City billing balance.

He said that he had seldom had an accumulation of Kansas City billing. For ten months they have pushed matters through as quickly as possible. The only reason has been because of inability to get empty.

In answer to Commissioner Colquitt—the Rosenbaum Grain Company is an Illinois corporation with a permit to do business in Texas. The Rosenbaum Grain Company gets \$2.50 per car for elevating the grain.

The commission then adjourned until 2 p. m.

SOME LATE ARRIVALS
 P. H. McNamee, formerly auditor of the Texas Railroad Commission, but now freight commissioner of the city of Houston, is attending the hearing of the interstate commerce commission.

Commissioner O. H. Colquitt arrived from Austin this morning and is attending the hearing. He conducted the investigation at Gainesville in regard to the Rosenbaum elevator.

Call Meyer, attorney in Chicago of the Rosenbaum Grain Company, is assisting Mr. Cante in conducting the case for the Rosenbaum company.

AFTERNOON SESSION MONDAY
 Several witnesses were examined during the afternoon session yesterday. One of these was Auditor Askew of the Texas railroad commission. He discussed the situation as it was shown by the testimony given before Commissioner Mayfield some time ago by Local Agent Merrill of the Rock Island. Mr. Askew said also that he did not believe it was right to compare the rate of the Rock Island with a payment of \$20,000 to the Rock Island by the Rosenbaum company, which payment occurred after the investigation by Commissioner Mayfield, but this was not participated in by General Attorney Lassiter of the Rock Island, who was conducting the investigation.

MAJOR CHARLES B. PECK
 Major Charles B. Peck was called to explain the rules of the Texas Car Service Association. While he was explaining this he went into a statement in regard to the failure of the Rock Island to apply car service rules to the Rosenbaum elevator, claiming that the location was outside the city limits of Fort Worth, and as the Rock Island belongs to the association only for Bowie and Fort Worth, neither the company nor the demurrage rules would apply. The general opinion that the result of this hearing, if it goes no farther, will be to put the Rosenbaum elevator under the rules of the Car Service Association.

HELPS BOTH
 Food Strengthens the Mother and Makes Milk for the Baby

There are many cases on record where the use of the antibiotic food, Grape-Nuts, has produced milk for a mother in a few days, so she could nurse her baby in the natural way.

A case of this kind is told by a lady of Decatur, Ga.: "When my baby was two months old I had a very bad stomach and everything I ate disagreed with me."

"This worried me so and I was so weak and nervous I was almost a wreck and had to stay in bed most of the time and the result was that I had to put baby on the bottle. After trying this for a week the poor little thing did not thrive and I thought she would surely die."

"Then along came a friend who begged me to try Grape-Nuts food, although I had never heard of it. I thought it would cause me to have nourishment for baby. But I concluded to eat Grape-Nuts and began that same day with good results."

"You can imagine what a pleasure this is to a mother and I am more thankful to Grape-Nuts food on baby's account than on my own, although incidentally I must tell you that I have gained nine pounds in eight weeks." Name given by Postum Co., Battle Creek, Mich.

AT ROOF GARDEN
 Every seat in the roof garden was filled last night. The Curtiss Company presented the four-act sensational comedy, "Under City Lamps," and it was a pleasing production. It is a bill well suited for a summer theater, as it is brisk and lively, the characters being cleverly portrayed by the members of the company. Mr. Morrison had an excellent part and kept the audience at a high key of laughter and good cheer. His Jason Jenkins was a clever bit of acting and won all sorts of applause. The cast in this bill embraced all the Curtiss company excepting Miss Dale, who is resting the first three nights of this week. The specialties last night were of a high order. Mr. Morrison singing a number of illustrated songs and the McFadden sisters making their reappearance in pleasing specialties. Tonight the same play will be presented.

CHEAP EXCURSION TO GALVESTON
 The Santa Fe will run a special excursion train to Galveston, Saturday, July 25, good returning, leaving Galveston Monday, July 27, at the very low rate of \$4.50 from Fort Worth, arriving Galveston at 9:05 a. m. Sunday, July 26.

ARREST OF RAPIST IS KEPT SECRET

The Telegram received the following dispatch from Sherman, Texas, today:

SHERMAN, Texas, July 21.—Deputy Sheriff Wise of Bonham county arrested Isaac Ford, a negro, 23 years old, of Rochester, last night at 6 o'clock. He is charged with committing a criminal assault on Lillian Moreland, the 7-year-old daughter of a prominent citizen, on July 12. The arrest was kept secret last night. The little girl was found unconscious and suffering from serious injuries one week ago last Sunday morning. After several examinations it was decided that the girl had been made the victim of a rapist. The child remained in a precarious condition until a day or two ago when she began to show improvement.

Immediately after the confession, Sheriff Russell said today, the negro was placed aboard a train and hurried out of the county as the sheriff feared that indignant citizens would attempt to hold a lynching party.

The sheriff at first refused to tell where the negro was but at noon today gave it out that Ford had been taken to Fort Worth for safe keeping.

The negro arrived in Fort Worth this afternoon in charge of Deputy Sheriff Duer of Grayson county and was placed in the county jail.

BY THE SIDE OF HIS WIFE

HILLSBORO, Texas, July 21.—At 3 o'clock yesterday morning Frank Burns, suicided by shooting himself through the head with a pistol. He was in the bed with his wife and baby and shot himself through the left temple as he lay in the bed. His wife was asleep and was awakened by the report of the pistol and was horrified to find him gasping for breath. She did not know that he had the pistol in the bed, as she carried it out of the room yesterday morning and hid it under another bed.

He was about 40 years old and leaves a wife and four children. No cause is assigned for the act. He came here last fall from Limestone county and was working on the Trinity and Brazos Valley railroad. His remains were inquested by Esquire Frazee, whose verdict was that he came to his death at his own hands.

DEATH BY HIS OWN HAND

WAXAHACHIE, Texas, July 21.—This morning about 8 o'clock the body of S. J. Squires, a farmer about 60 years of age, was found in the public road near Red Oak with a pistol wound in his head. The ball entered above his left ear, coming out about two inches above his right ear. A revolver with one empty chamber was found by his body. The verdict of the coroner was that he came to death by his own hands. The body was shipped to Kansas City for interment.
