WACO IS BUILT OVER A TUNNEL

Theory of An Underground Passage Way Appears to Have Some Foundation WACO, Texas, July 29.—Verification of the theory that there is an underground passage on an enormous scale from the heart of Waco at least as far as the mouth of the Bosque, two miles or more away, is coming as a result of the oil excitement.

CITIZENS LIVING ON NORTH TWELFTH STREET, between Jefferson and Bernard streets, which point is between where the well was being bored and the mouth of the Bosque, say that it is a well-known fact that vehicles crossing or going along this section, rattle as though passing over a bridge, and the presence of a great cave beneath the surface has been suspected.

Publication of the strange statement, made by a reputable citizen, that a drill on Columbus street in Waco, seven hundred feet in the ground, could be heard at the mouth of the Bosque as it moved up and down against the rocks, has brought to light further information in that direction.

George Gudegong of St. Louis, foreman of the Western Union Telegraph Company's lines, accompanied by Frank Tremble of Dallas, superintendent of telegraph on the Texas and Pacific line, is in the city today on business. Mr. Gudegong reports a good rain all along the Santa Fe south.

OVERALLS ARE HIGHER

Cotton Garments Used by Workmen Will Advance in Price CHICAGO, Ill., July 29.—The price of overalls, jumpers and other cotton garments for workmen will be advanced sharply all over the United States, according to a statement made by T. A. White of Stanton, Pa., secretary of the Union Made Garment Makers' Association in convention here.

PEOPLE ARE SUSPICIOUS

They Have Been Missing Fine Stock Cattle Several Times Recently MALAKOFF, Texas, July 28.—For some time here the people have been missing stock cattle. In some cases good milk cows would disappear. A certain stockman here has been several times apprehended and stock taken right away from him, his excuse being that the boys at work for him had made the mistakes.

M. K. & T. Time Card Officially Announces Double Daily Service Over Its Own Lines to San Antonio

NEW SCHEDULE FOR TRAINS 3, 4 AND 16

Rock Island Announces Opening of Paul's Valley Extension, August 1—I. & G. N. Trains Running on Madisonville Branch

The official time card announcing the change in the Missouri, Kansas and Texas trains Aug. 1 was received at the local offices today. With the beginning of the new schedule the Katy also establishes its new double daily service over its own line to San Antonio, as referred to in detail in The Telegram yesterday.

RAILROAD BRIEFS AND PERSONALS

A singular feature of the arrival of trains at the Texas and Pacific passenger station this morning was that the three late ones were delayed to the same hour. Texas and Pacific No. 3, west-bound, due at 7:15 a. m. arrived at 10: International and Great Northern No. 8, north-bound, due at 8:30, arrived at 10, and the Missouri, Kansas and Texas No. 3, south-bound, due at 7:10, was also marked up at 10.

George Gudegong of St. Louis, foreman of the Western Union Telegraph Company's lines, accompanied by Frank Tremble of Dallas, superintendent of telegraph on the Texas and Pacific line, is in the city today on business. Mr. Gudegong reports a good rain all along the Santa Fe south.

MAY BE THROUGH LINE

The construction of the cut-off from Havana to Caney, by the Santa Fe, is said upon good authority to be simply the commencement of the extension of this branch line through the Indian territory into Texas, where connection will be made with the Santa Fe line to the Gulf. This will open up a new and undeveloped country, which will soon be open to settlement, and promises to be rich in agricultural products and also to be a great cattle country.

NOW RUNNING TRAINS

The International and Great Northern Railroad Company has opened that portion of its Madisonville branch, which is completed from Navasota to Trice. The new branch is an extension from the new Fort Worth line, and will be extended to Madisonville just as soon as practical.

NEW TERRITORY ROAD

Rock Island officials announce the opening of the Paul's Valley extension, sixty-five miles long, between Chickasha and Paul's Valley, Aug. 1. The road was built jointly by the Santa Fe and Rock Island. The Santa Fe built from Paul's Valley to Lindsay and the Rock Island from there to Chickasha. It will be operated jointly. The road runs southeast through the Chickasha nation and opens some of the best agricultural lands of the new southwest. It was intended to begin running trains June 15, but the heavy floods washed away the Rock Island portion, and the rebuilding of the track has just been completed.

EL RENO CEMETERY CASE

El Reno has appealed to the supreme court of the territory asking that a temporary injunction be granted restraining the Chicago, Rock Island and Pacific railroad from constructing its railroad through the cemetery which joins El Reno. The city council of El Reno recently refused the Rock Island the right to build through the cemetery.

to build through the cemetery. Justice Irwin dissolved the injunction instituted by the city against the road and the appeal is from the decision of the lower court.

TOWN COUNCIL CALLED TO COURT

Saloon Men Go to Supreme Tribunal to Prevent Loss of License to Sell Liquor

OLYMPIA, Wash., July 29.—The supreme court has issued an order, returnable Friday, requiring the town council of Bremerton to show cause why they should not be restrained from interfering with the opening of the saloons of that place.

LIVEY POLITICS IN BUSKEYE STATE

Democratic Situation Is Peculiar and All Are on the Qui Vive Awaiting Developments

COLUMBUS, Ohio, July 29.—It is an old saying that politics in the Buckeye state never approaches a state of stagnation and that as election time rolls around it is certain to raise the boiling point. At the present time the bubbling may be heard afar and spectacular politics of a lively variety may be looked for from now until the democratic state convention is held next month.

It will be recalled that on the Fourth of July Tom L. Johnson was the guest of Mr. Bryan at Lincoln, Neb., and that immediately following his return to Ohio the announcement was made that Bryan would visit Ohio in August and attend the democratic state convention. This agreement was reached at Lincoln after an all-day conference between Bryan and Johnson during which the latter went over the Ohio situation and explained that a tremendous effort would be made to repudiate Bryanism and the Kansas City platform by the so-called conservative faction of the party.

Mr. Bryan agreed to come to Ohio to warn the delegates against the dangers of Clevelandism, and any departure from the tenets of the Kansas City platform. Not only that, but it is believed he will very likely insist upon the nomination of Johnson as the candidate for governor, in spite of the fact that a majority of the delegates may be pledged to John M. Zimmerman of Springfield or some other candidate. He will declare that a United States senator must be endorsed and probably put in a good word for his old friend, former Congressman John J. Lentz, who stands for the Bryan wing of the democratic party more than any other man in Ohio. With the Kansas City platform endorsed, Johnson nominated for governor and Lentz endorsed for United States senator, Mr. Bryan would certainly be in a position to congratulate himself, and the impetus given his cause would be felt in every state of the union.

In the meantime Mr. Johnson is keeping his own counsel. It is said his closest friends do not know his mind on the gubernatorial matter. The only thing that is positively known is that he is organizing a campaign that will completely eclipse his eleven-year affair of a year ago. He proposes among other things to employ a number of automobiles to carry stump speakers and a flood of literature over the state.

Meanwhile the opposition element is likewise preparing to take to the field. The report from Washington that soon after the return of John R. McLean from Europe there will be a conference of his friends to look over the democratic situation in Ohio, and if this is true, it means that the conservative wing of the party, marshaled by McLean, proposes to make its influence felt in the coming convention, both as to platform and candidates.

COLLEGE FOR WOMEN

GENEVA, N. Y., July 29.—William Smith, a millionaire nursery man, will, it is announced, found and endow a college for women known as the William Smith College for Women. The institution will be on a site of thirty acres in one of the most beautiful sections in the outskirts of the city. The plans call for one building to cost \$150,000. Mr. Smith has made large donations to public institutions and also maintains the Smith Observatory.

EVEN AFTER DEATH

TRENTON, N. J., July 29.—Negotiations between local unions, lasting several months, have resulted in an official decision by the Central Labor Union that the jurisdiction of barbers over the patrons continues even after death. The question was raised by a complaint of the barbers' union that local undertakers were allowing their employees to officiate as barbers.

SOCIETY WEDDING AT BAR HARBOR

BAR HARBOR, Me., July 29.—A society wedding of note here today was that of Miss Gurnee, daughter of Mrs. Walter S. Gurnee Jr. of New York, and Henry Thorndike of Boston. The ceremony was performed at noon in St. Saviour's church in the presence of prominent society people of New York, Newport, Boston and other cities.

RIP VAN WINKLE AWAKES

NEW YORK, July 29.—After having been asleep for 44 days in a Long Branch (N. J.) hospital, except at slight intervals, E. E. Elliott Allen, a Harvard student, is showing signs of improvement. All of the strange sleep is supposed to have been in the nature of hysteria caused by overwork. The doctors believe he is now on the road to recovery.

At the forenoon session papers were presented and discussed as follows: "Proper Religion Requirements," J. G. Rollow of Ringgold; "The Library as an Educational Agency," Louis Wilhoite of Shelbyville; "Relation of City and Rural School Systems," Superintendent J. W. Huer of Springfield. This afternoon the assembly divided into conferences for the discussion of topics specially relating to the duties of superintendents and the functions of private schools. The session this evening promises to be one of the most interesting and instructive of the convention. The chief feature is to be the annual address of the president of the association, E. H. Hill of Knoxville.

STORM VISITS CAPITAL CITY

Rain, Wind and Lightning Do Much Damage to Houses There

AUSTIN, Texas, July 28.—A heavy rain commenced falling here at 2 o'clock this morning and continued until noon. The storm covered the territory from San Marcos to Taylor and from Taylor to Childress. The rain was accompanied with violent flashes of lightning, deafening peals of thunder and terrific gusts of wind.

In Austin the power house was dismantled and lights cut off. West valley in the capital campus is a great lake. Hundreds of acres of corn was blown down, covered with mud and will rot.

The electric tower at the corner of Nineteenth and Lavaca streets, was struck by lightning and the globes shattered. The town clock was jolted up and struck thirty to indicate the hour of nine. Lightning struck a house at Trinity and Eleventh streets and set fire to it, but the rain extinguished the flames.

A WOMAN'S COMPLEXION. It is rank foolishness to attempt to remove sallowness or greasiness of the skin by the use of cosmetics, or "local" treatment, as advocated by the "beauty doctors." The only safe and sure way that a woman can improve her complexion is by purifying and enriching the blood, which can only be accomplished by keeping the liver healthy and active.

SWORN PAID CIRCULATION OF THE FORT WORTH TELEGRAM FOR MONTH OF JUNE, 1903

TEXAS IS INTERESTED: Governor Lanham has appointed delegates at large to the Trans-Mississippi Congress, and out of the list there should be several who can attend.

A mob chased two negroes in a Massachusetts town yesterday, and actually took it in audible tones that if the negroes were caught they would be lynched.

Weather Observer Reeder will be forgiven, if he does not try it again. Last week he started out to make a record on high grade temperature, and succeeded in pushing the mercury to the top notch.

The attorney general's race appears to be that which is of greatest interest to politicians. There are several anxious to be urged to make the race, one of whom is now an active occupant of one of the positions in the office.

The politician need not look askance at the Trans-Mississippi Congress. An institution—a force in national economies—that represents one-third of the population of the United States and two-thirds of its area cannot be mocked out of existence.

partial solution of the biggest problems that commercial and industrial America has ever confronted with, and it will continue to be such a power, except that its power shall be greater as southwestern Americans come to know it better.

THE COTTON MARKET

At the present price of cotton the staple cannot be manufactured at a profit and throughout the country there are reports that mills are shutting down.

The prohibitive price of cotton continues to seriously interfere with the manufacture of cotton goods in this city, and the plan of curtailing the production of the mills will be continued on a much larger scale than heretofore.

The outlook now is that August will be one of the quietest months in the history of the industry, but that the closing of the mills now will prevent the more serious disturbance which might follow should the mill managers try to cut down wages.

It is next to impossible to learn the exact amount of cotton on hand in any particular mill, but the supply generally speaking, is short. Many well informed mill men believe the course of the cotton market is not natural, and that a wholesome effect will be produced by the general cessation of work in the New England factories.

It is true the speculators have forced the present figure, and it is true that it is abnormally high. At the same time, it must be remembered that the farmers have been producing cotton a long time at 6 cents. They are entitled to more money for their efforts, and when the reaction takes place and the drop in figures is recorded, it ought to stop somewhere nearer a profit than it has been for years.

"There is a lumber trust in this city which has its headquarters and offices in the Randolph building. This trust employs an estimator, who furnishes estimates to every mill in the city. No mill may bid under the estimate furnished by this estimator. Prices on mill work have advanced skyward since the establishment of this trust," is the statement made by Walk C. Jones, a prominent Memphis architect, before a public meeting of the board of education in Memphis Friday night.

A mob chased two negroes in a Massachusetts town yesterday, and actually took it in audible tones that if the negroes were caught they would be lynched. Such an exhibition of race prejudice, such barbarity, such hatred and such lawlessness in an enlightened community and in this day of the Twentieth century is outrageous. The president really ought to look into this thing.

Weather Observer Reeder will be forgiven, if he does not try it again. Last week he started out to make a record on high grade temperature, and succeeded in pushing the mercury to the top notch. He has been good since, and this week it has been very pleasant, with the rain today to help along the crops and lay the dust. But he must not try the heat process again. The people of Fort Worth are long suffering and kind, but will not stand as much as will those of Phoenix, Ariz.

The political pot is boiling. Judge Simmons is now swinging about the circle, trying to ascertain how many sovereigns want him to be attorney general.

It is now said that a dog discovered the natural gas at Waco. Is it possible Waco is going to the dogs—for information.

CLEANINGS FROM... THE EXCHANGES

The Waco Times-Herald and the Fort Worth Telegram talk of "four of a kind," "four-ace" and "duces" as though they really knew what such combinations were capable of doing.

"This is the open work season on shirt waists," says the Boston Globe, and "duces" has added: They stick to the wearers just like this.—Terrell Transcript.

That green scum on water means business—for the doctor, the druggist, and too often for the undertaker. If a city officer knew of a rattlesnake farm in town where the reptiles could walk out and sink their poisonous fangs into the flesh of our people, he would go after Mr. Snake—farmer.

It's \$50,000 to the first man who demonstrates to Governor Lanham that a pair of shingles pressed together with a lump between them will meet the terms of the offer "to any person or persons who shall discover and furnish a practical remedy for the destruction of the cotton boll weevil in Texas."

The country is trying to find a name for Grover Cleveland's new boy, and Uncle Grover is packing his fishing lines and trying to get away from the colicky period of the new statesman's existence—Dallas Times-Herald.

The boll weevils are trying to do to King Cotton what the soldiers did to King Alexander—San Antonio Express.

Why not let Grover have something to say about the name of the youngster.

Letters to The Telegram

To the Editor of The Telegram: We notice considerable sentiment being aroused in the matter of a suitable building in which to hold conventions in our city, to all of which we agree.

"Of course I do, and I'm going to kill that villain too!" exclaimed Lorry loud enough to be heard from one end of the room to the other.

Angush admitted two well dressed, black bearded men, both of whom had sat at the prince's table in the cafe. They introduced themselves as the Duke of Mizrox and Colonel Atobawn.

"We understand that you are persons of rank in your own America?" said the Duke of Mizrox after a few moments.

"Oh, well, I hardly know. But his highness is very willing to waive his rank and to grant you a meeting."

"Well, you're in for it, old man," said Angush gloomily, his chin in his hands as he fastened melancholy eyes upon his friend.

"Don't worry about me, Harry. There's only one way for this thing to end. His royal majesty is doomed."

SYNOPSIS: Grenfall Lorry, a wealthy American globe-trotter, stumbles into acquaintance with a charming girl on a train from Denver to Washington.

ENGLAND TO TRY AGAIN: The English people seem determined in their efforts to recapture the cup which the Americans have held for so many years.

(Continued From Yesterday): "Of course I do, and I'm going to kill that villain too!"

"This is horrible, horrible! Let me square it up some way if"—began the alarmed Angush.

"Square it up! Look here, Harry Angush, I am the one who will do the squaring. If he wants a duel, he can have it at any old time and in any style he desires."

"Not while a just God rules over our destinies. I'll take my chances with pistols, and now let me tell you one thing, my boy: He'll never live to touch his lips to hers, nor will there be a royal wedding. She cannot marry a dead man."

"Choose pistols at ten paces and at 8 tomorrow," he said nonchalantly, as a rap at the door of their apartment announced the arrival of the prince's friend.

"We are sons of business men," responded Mr. Angush.

"Oh, well, I hardly know. But his highness is very willing to waive his rank and to grant you a meeting."

"I'm delighted by his highness' condescension, which I perfectly understand," observed Mr. Angush. "Now, what have we to settle, gentlemen?"

"The detail of weapons."

When Angush announced that his principal chose pistols, a strange gleam crept into the eyes of the Alphonians, and they seemed satisfied. Colonel Atobawn acted as interpreter during this short but very important interview.

PANTHERS DEFEAT DALLAS WITH EASE

Four Runs in the First Inning Won the Game, Remainder Being Made in Hollow Style

Fort Worth took the game from Dallas yesterday after enough hits and errors had been made to win several games. The feature of the game was the errors that were made by both sides. Many of them were of the rank order. Bashore dropped one in right field that was right in his hands, which was responsible for a run, and Curtis made a similar blunder.

THE ARMOUR BALL TEAM Will Go to Greathouse Sunday for a Match Game. Armour & Co's ball team is getting a reputation as one of the fastest of Fort Worth's amateur organizations, and arrangements have been made for a match game between them and the Bridgeport nine at Greathouse, Tex., to which place the Rock Island has arranged for an excursion.

DALLAS TO USE BARRETT. Left Fielder Barrett, who was released by Manager Ward yesterday, will probably appear in a Dallas uniform in the game this afternoon, as it is understood that Moran signed him for the Dallas team at noon today.

NEWS FROM COLORADO

COLORADO, Tex., July 22.—A few days ago the two blind tiger prisoners escaped.

A fine rain fell over most of the country yesterday and conditions are thereby much improved.

John Rix and Eric Bloom will soon open a men's furnishing store in the City National bank building.

W. F. Schroder, a former citizen here, who recently returned here with his family from Midland, is expected to return to El Paso.

Senator Culberson and Dr. Worsham, while on their way to the latter part of last week to El Paso, spent one day in Colorado.

WAXAHACHIE CHAUTAUQUA

Fourth Annual Meeting Is to Close Friday Night

WAXAHACHIE, Texas, July 22.—The fourth annual meeting of the Waxahachie chautauqua will come to a close Friday night.

The chautauqua this year has been a great success, the attendance having been the largest in the history of this institution.

Mrs. A. E. Shipley, who had charge of the literary department, concluded her work Monday and left for her home at Des Moines, Iowa.

Rev. J. M. Hubbert will finish their work tomorrow and Friday morning they will leave for their home at Marshall, Mo.

The principal feature of the exercises today was a lecture by Rev. W. H. Berry on "Church History."

Tonight an entertainment will be given by Professor Cope of Chicago.

Friday is agricultural day and a large attendance is expected from different parts of the county.

"Successful Fruit Growing in North Texas," L. Kidd and J. R. Mayhew of Waxahachie.

"Cotton Growing in Ellis County," L. L. Jeter of Midford.

"Corn Culture," O. A. Finley of Waxahachie.

"Successful Wheat Raising in Ellis County," William Stiles.

"Farm Life," Professor J. H. Connell of Dallas.

"Relation of Birds to the Farm," Professor H. P. Atwater of Houston.

Addresses will also be made by Professor Sanderson and Professor Houston of the Agricultural and Mechanical College.

NEWS FROM ABILENE

ABILENE, Texas, July 22.—Judge T. H. Connor, chief justice of the court of civil appeals at Fort Worth, was in Abilene Sunday and Monday.

A light rain fell in the western suburbs of Abilene yesterday afternoon, while a little further out and also to the north, it seemed to be entirely local, however, and leaves the country at large still without rain.

The consensus of opinion seems to be that cotton is not yet suffering, but that a few days more of dry weather will bring us to the point where cotton will begin to need more moisture.

There are some who think that cotton will even do better without rain for many days yet.

William D. Payne and Miss Mary A. Roberson, both of this city, were married Monday evening at 9 o'clock.

William Archer has resigned his position with the Texas and Pacific railway, to take effect August 1.

Two young men, Borden Manly and Robert Strong, were playing in a scuffle near Fort Phantom Hill, Jones county, Sunday and, it seems, became angered and terminated their fun with a fight.

Young Strong was cut with a knife, a serious wound being inflicted above the heart. At last reports Borden was in a dangerous condition and fears were entertained that early fatal results would ensue.

Both young men are of good families and are well liked in their community.

Eurnham Brothers, who have been managing the Taylor County Restaurant for several months, have sold their stock and fixtures, piecemeal, to other business men in town, and will discontinue the business.

NEWS FROM WEATHERFORD

WEATHERFORD, Texas, July 22.—Rev. Jos. P. Lynch went to Dallas this morning.

Will Burke is here from Benbrook a few days' visit to his parents.

Mrs. E. Barthold returned this morning from Baird, where she has been on a visit.

Miss Gertrude Felton has returned from La Porte, Texas.

NEWS FROM AMARILLO

AMARILLO, Texas, July 22.—Captain J. M. Steel, commissioner of immigration for the principal railroad systems of the southwest, addressed a large audience of stock farmers, ranchmen and business men of this city on the subject of advertising the panhandle and its resources.

His talk was along practical lines, which, if followed out, will redound to the good not only of the railroads, but of the citizens of this section, in the central west. He showed that renters are paying as much per acre for the lease of land as owners in this section will sell for.

Furthermore, the crops here are as sure as those of any non-irrigated country and net an income of \$20 to \$30 per acre. It is the exploitation of these facts that Mr. Steel advocates, and arrangements were made to get the experience of actual settlers in the form of personal letters for publication.

L. W. Chase of Cleburne has bought valuable business property on Polk street and let the contract for a brick building 90x132 feet.

Nobles Brothers, wholesale grocers, have let the contract for a 60x132 feet brick building.

Messrs. Cain of Taylor have been in town for the past week, but did not leave without investing in Amarillo real estate. It is understood that they have contracted for a large brick building.

J. M. Pettus, superintendent of Beaumont schools, and family are here for the summer.

SUMMER NORMAL CLOSURE

WAXAHACHIE, Texas, July 22.—After a successful session of one month the Ellis county summer normal will come to a close Friday.

The final examinations are now in progress and several teachers have applied for permanent certificates.

About forty teachers are taking the final examinations.

Things Heard In Hotel Lobbies

Senator A. V. Davidson of Galveston, for two terms a member of the Texas senate, was in the city last night en route to Dublin, where he will make an address to the Confederate reunion.

Senator Davidson is one of the strongest members of the upper house of the legislature. He is conservative, well balanced on all public questions, and just an everyday plain citizen, with no pretensions to attract the grandstand and the gallery.

He was the leader on the floor of the senate in the twenty-seventh legislature for the city of Galveston in the effort to get help from the state in the building of the sea wall to protect the city from storms and tidal waves, and his presentation of the case was characterized as one of the finest efforts ever heard in the Texas legislature.

Speaking last night he said "Investing in real estate is an important position she formerly held in the commercial world. The effect of the storm disappeared rapidly under the magnitude of the effort."

Senator Davidson left last night for Dublin. He is being urged by his friends as a candidate for attorney general, but on this subject he would say nothing while here.

Senator Hanger was in consultation with him during his stay, and it is believed the Fort Worth senator is anxious to see the Galveston man make the race.

"Al" Watkins was here yesterday on his way to his ranch near Deming, N. M. Mr. Watkins was a cowman in Cooke county, Texas, and was staying in the city for a few months ago, the Watkins brothers—John and George—owning large properties. Al decided to go west and sold out to his brother. He selected a location near Deming and established his headquarters. Yesterday he said:

"My heart of course is in Texas, where I have lived so long, where I have friends and where I know so many people. But out in New Mexico I find a good opportunity for business, and since my stay here I have been convinced that a great deal can be accomplished. I like the country in which I am located. We have all kinds of game, and the bigger the game the greater the sport."

L. H. Hill of Albany, a well-known stockman of that section, is a guest of the Worth. Mr. Hill has been operating in that section of the state a long time and makes frequent visits to Fort Worth, where he has numerous friends. Speaking this morning he said: "I have never known conditions to be better than they are today. Shackelford county is in fine shape, and everyone is satisfied."

Ed H. Everett of San Antonio, traveling representative of the Daily Express, is here for a day's visit. Speaking of the conditions in the southeastern part of the state, he said: "The traveling man making the territory embraced in southwestern Texas, who gets over six hours' sleep out of every twenty-four from Aug. 15 until the holidays begin, will be overlooking opportunities to work. I have never known conditions to be better. Everything is in prosperous condition. The farmers are making money, the merchants are stocking up to accommodate the wants of the people, and just as Zapata county has come to the front with the first bale of cotton, so is every other county coming up with conditions never before known."

A Very Close Call.

"I stuck to my engine, although every joint ached and every nerve was racked with pain," writes C. W. Belamy, a locomotive fireman of Burlington, Iowa. "I was weak and pale, without any appetite and all run down. As I was about to give up, I got a bottle of Electric Bitters, and after taking it, I felt as well as I ever did in my life." Weak, sickly, run down people always gain new life, strength and vigor from the use. Try them. Satisfaction guaranteed by J. W. Fisher. Price 50 cents.

TODAYS RAIN GOOD FOR CORN AND COTTON CROP

of 90 degrees or over. The highest that any of the official thermometers registered was at Greenville, where it went to 94 degrees.
The forecast for the next thirty-six hours is cool with occasional showers. The forecast for yesterday was justified by the fact that there were thunderstorms in this vicinity which could easily be seen at the weather bureau. There were several small showers, but the total amount of precipitation did not amount to a hundredth part of an inch. On that account the weather map this morning only reports a trace for Fort Worth.
The heaviest rain that fell in Texas yesterday was at Paris, where 1.48 inches fell. This was the only rain fall of over an inch in Texas. Only four of the thirty stations reporting this morning failed to announce rain. There were three of these stations which gave the rainfall as only a trace, however.
The rain today is what the farmers have been looking for, as the corn crop in many places is badly in need of moisture. The cotton is in such a condition that only a very heavy rain would injure it.

SHERIFF HONEA CUTS OFF PRISONERS' MAIL

Some prisoner in the Tarrant county jail wrote to a newspaper recently and complained because his mail was opened before it reached him. This law-breaker, whoever he is, had the idea firmly fixed in his mind that Sheriff Honea and Jailor Roy were breaking the United States laws by opening sealed letters before delivering them to prisoners. The complaining, whoever he may be, probably will be "kangarooed" by the other prisoners if his identity is disclosed when they learn the result of his letter to the newspaper.
"I don't know who wrote the letter," said Sheriff Honea last night, "but I would like to know. We have always gone through the form of getting permission from the prisoners to open their mail, as, of course, it would be ridiculous for us to permit the prisoners to have their mail delivered to them unopened. Why, you could put enough steel saws into an ordinary envelope to cut through the roughest steel bars ever constructed. I have instructed Jailor Roy to cease delivering mail to the prisoners. When they get out of jail they can drop into the sheriff's office and collect it. It is only through courtesy that they have been getting their mail, but if they don't appreciate the courtesy, I can't help it."

TROUBLE AVERTED IN COURT ROOM

Had it not been for the timely interference of officers in the Seventeenth district court this morning a serious altercation would probably have resulted in the habeas corpus proceedings instituted by Joe Wolf in the Hendricks Long murder case.
Dave Gray, who had finished testifying for the state, was leaving the stand, when Wolf made a remark concerning him. Gray started in the direction of Wolf, who sprang to his feet and lifted a chair in a striking attitude. Further trouble between the men was averted by officers present in the court room.

LT. RICHARDSON TELLS FAIRY TALE

Quaint Legend Surrounds Origin of Samoan National Drink—Effects of the Stuff

The naval recruiting office in charge of Lieutenant Richardson, who is located for this week in the federal building, has been doing a much larger business than was expected. Up to noon today, when the men in charge of the office closed up for the dinner hour, sixteen men from Fort Worth and vicinity had signified their intentions to join the navy, and all had passed the examinations that were necessary. Lieutenant Richardson reported that he was greatly pleased with the showing that was being made this week, especially as the material is exceptionally good.

A SAMOAN LEGEND

He told the following story regarding the origin of the national drink of the islands, as it is given by the wise men there:
"The drink is called 'ava' from the name of the plant from which it is made. The 'ava' is a non-intoxicant, but has the peculiar effect of depriving one of the use of his arms and legs. On the other hand it does not effect the mind. It is from its peculiar effect that the story probably derives its origin. In the olden time the king of Fiji became sick, they sent to Samoa for the famous medicine men or women to come and cure them. In Samoa the magic art of healing descended from father to son. If there was no son it went to the oldest daughter.
"The king of Fiji became very ill and sent to Samoa for a doctor at the time a beautiful woman was the highest of the medicine tribe in Samoa. She got into a big double canoe and sailed the 500 miles to Fiji.
"Soon the king got well again and fell in love with the beautiful doctor. They were married and had three children. The eldest was a boy and had neither arms nor legs. The second was a girl and the youngest was a boy. The king, on the day of his first birthday when he called all of the wisemen of the kingdom to him and announced that he was going to die. He told them to watch his body day and night. One day they saw a plant spring up out of his right eye, with leaves like a mulberry. A few days later a plant sprang up out of the other eye with leaves like grass. Soon a mouse came out and nibbled at the plant like the mulberry. Suddenly he fell over, but in falling his mouth touched the other plant, and he nibbled at it. Immediately he got up and ran about. This astonished the princes and the very king.
"PLANTED BOTH
"Soon after the two remaining children had a desire to return to their mother's land, and they took some of the plants of each variety with them. They drifted down in a storm and landed on the island of Samoa, and the other in Savaii (in German Samoa), and each planted some of both of the plants on the top of a mountain, where several acres of the two can be seen to this day.
"The plant having leaves like the mulberry is the 'ava' and the other is the sugar cane and today if you take too much 'ava' a few swallows of the juice of the sugar cane will remove all effects of the 'ava' from your system.
"The Samoans are not addicted to alcohol in any form, preferring to drink their native 'ava'. One reason is that a person cannot drink 'ava' and alcoholic liquor, as they do not agree, and cause terrible pains in the stomach when taken together."
In respect to the latest dispatches from Washington which tell of the return of a soldier from Virginia with the daughter of a Sulu datus as a bride, Lieutenant Richardson stated this morning that he had been offered the hand of a princess of Samoa, but he thought best to decline it.

FOR WORK ON RIVER

Commission Has Allotted Sums for Inland Harbors

ST. LOUIS, Mo., July 29.—The Mississippi river commission has submitted its annual report for the fiscal year ending June 30, 1903, to the war department at Washington. This year the report was given out by the commission in St. Louis instead of from Washington.
From the sundry civil act appropriating \$2,000,000, approved March 3, 1903, \$1,000,000 for river improvements were made, among which are the following:
Mississippi river commission, \$25,000; harbor at Helena, Ark., \$5,000; harbor of Memphis, Tenn., including Wolf river, \$8,000; harbor of Greenville, Miss., \$25,000; harbors of Natchez, Miss., and Vidalia, La., \$12,000; levees, \$1,000,000; surplus, \$16,000.
The river and harbor bill approved June 15, 1902, appropriated \$2,200,000 for the use of the commission. From this appropriation allotments were made as follows:
Mississippi river commission, \$10,500; surveys, maps and observations, \$69,000; dredges and dredging, \$295,000; first and second districts, \$540,000; third district, \$623,500; fourth district, \$447,500; in the hands of the president, \$4,500.
In 1902, \$25,000 was appropriated for surveys and examinations for a 14-foot channel from the mouth of the Illinois river to St. Louis.
The attorney general's report says that under existing conditions systematic work, which has for its object the permanent location and deepening of the channel, has not been practicable.

LAW AND ORDER PREVAIL

President of Peru Proclaims a State of Peace

NEW YORK, July 29.—In his message to congress, which body has just convened, President Romana declares, cables the Lima, Peru, correspondent of the Herald, that the state of peace now prevalent proclaims the definite triumph of law and order in Peru, after a wave of political feeling which was never more threatening. In view of the declarations recently made by Chile in Santiago and Buenos Ayres, Peru is disposed, says the message, to renew the negotiations for a settlement of the long-standing boundary dispute.
In reference to the financial affairs of the country the president said both the income and expenditures were less during the year than had been provided in the budget, and there is a favorable balance of more than one million.

REQUEST IS REFUSED
Roosevelt Will Not Let Soldier Benefit Himself
NEW YORK, July 29.—President Roosevelt has refused to grant the request of Corporal John Carney of the marine corps for permission to leave the government service, where he receives \$13 a month, in order that he might accept a position as keeper in the Haywood street jail at a salary of \$1,200 a year.
Before enlisting Carney took the civil service examination. Hearing nothing from the examiners, he concluded that he had failed to secure the coveted position, so he enlisted to serve four years. In a few days he was notified that he stood fourth in the lists, but, owing to his being a Spanish war veteran, he was placed at the top, and the \$1,200 position was his. His appeal for permission to resign from the federal service was refused on the ground that it might form a dangerous precedent.

POSTOFFICE CHANGES

Differences in Names That Take Effect on July 31
General order No. 767 of the railway mail service was issued today. Hereafter all mail intended for delivery in North Fort Worth and Marine should be addressed to Stock Yards station, Fort Worth. ROBNOB WITH THE NOBILITY

Admiral Cotton Has a Good Time While Visiting in Portugal

LISBON, July 29.—King Charles is expected to visit the United States European squadron Saturday. The reception accorded Rear Admiral Cotton and other American officers by the King and Queen Amelia at the royal castle, Claria, was most cordial. Admiral Cotton, while at Claria, visited Queen Maria Pitt, mother of the king, and Duke Oporto, brother of his majesty.
There were 250 guests at the banquet given at the ministry of marine last night in honor of the Americans, and at which all cabinet ministers were present. Admiral Cotton, who was greeted with cheers, made a speech, during which he eulogized Portugal and thanked the officials for the hearty reception accorded the American warships. He also referred to the exaggerated accounts of the petty squabbles which occurred between the police and some sailors ashore, and declared the relations between the two forces were most friendly. The minister for foreign affairs, minister of marine and United States Minister Bryan also made speeches.
Admiral Cotton and his officers will entertain a large number of Portuguese ladies at a reception on the Brooklyn August 4, and Minister Bryan will give a garden party August 5.

PROTECTION IS WANTED

NEW YORK, July 29.—A dispatch to the Herald from Tegucigalpa, Honduras, says a representative of the New York syndicate, to whom the Honduras railroad was under lease until seized recently by the government, has left Tegucigalpa and gone to San Pedro. He is understood to have made satisfactory arrangements with the government, but the British consul at Puerto Cortes is alleged to be greatly dissatisfied over the situation and is likely to urge, through the British minister at Guatemala City, that a war ship be sent to his station to protect the interests of English stockholders in the railroad.

INCITING A RIOT

CHICAGO, Ill., July 29.—Miss Catherine Bentley was arrested last night, charged with inciting to violence the mob which attacked and seriously injured Joseph Sullivan, a non-union employe of the Kellogg Switchboard company, some time ago.
"Go on, kill him," she is alleged to have cried repeatedly to the pickets, when they seemed to fear the police.
