CARDINAL GIBBONS ARTICLES RAMPOLLA

American Member of the Vatican Points to the Example of France and Warns the State Secretary that the Church will be Similarly Treated Elsewhere.

MUNICH, Bavaria, July 31.—The papal nuncio here received a dispatch from Rome today, which causes him to believe that the conclave will elect a pope tomorrow.

ROME, July 31.—The Italian says Cardinal Gibbons at the Vatican yesterday criticized the policy of Cardinal Rampolla, saying for the purpose of retaining the friendship of certain governments, no matter how formed, he has thrown in the sea the best and most trusted friends of religion.

The ceremony of the entrance of the cardinals into the conclave, which is always given as solemn a character as possible, was inaugurated this morning with celebration of the mass of the Holy Ghost in the Paulin chapel of the Vatican.

As is always the case at such ceremonies, where there is so much color in the picture, one felt as though witnessing an exhibition of a series of living pictures, until weakened to the grand reality of the religious ceremony by singing of the Latin choir.

After the mass of the Holy Ghost the cardinals assembled as usual in the hall of the consistory, where the usual routine work was read and each cardinal took an oath to obey them. This ceremony generally occurs in the Sixtine chapel in the evening just before shutting up the cardinals for the conclave.

THE INFLUENCE OF CARDINAL GIBBONS

ROME, July 31.—There is declared to be no further doubt that under the influence of Cardinal Gibbons the French cardinals will no longer group themselves around Cardinal Mathieu to vote for what would practically be a continuation of the policy of Leo XIII.

It is considered certain that without the support of the French cardinals the candidature of the former secretary of state, in spite of the fidelity of the British cardinals and of certain cardinals resident in Rome, whose interest is to see him elected, has no chance of success.

The opposition to Cardinal Rampolla does not, however, render it more easy to find a majority for any other candidate among the "papabili," for, though Cardinal Greglia is doing all he can to appear as amiable as possible in his functions as camerlengo, he has never possessed the sympathies of the French cardinals.

political one. He is convinced the pope has nothing to do with the domestic politics of various countries and is a strong partisan of the position of the church in the United States—that is to say, complete independence of church and state.

It is declared that if Vannutelli should be elected pope he will withdraw the prohibition which prevents the Italian Catholic from voting or from standing as a candidate for the Italian parliament.

IS STATE ROAD PUBLIC HIGHWAY
Commission Is Yet Considering the Proposition by Mr. Knox, Who Wants to Lease the Road

AUSTIN, Texas, July 31.—The railroad commission is still wrestling with the proposition as to whether or not they can raise the standing of the state railroad at Rusk to the position of a public highway or common carrier.

AS A PRACTICAL PROPOSITION AND ONE OF UTILITY TO THE STATE, NO ONE DOUBTS THAT REQUEST SHOULD BE GRANTED—MUST BE DONE ACCORDING TO LAW

As a practical proposition and one of utility to the state there is no doubt in the minds of those interested and best informed but that the public interest would be successfully subserved by making this a commercial road.

NEW DEPOT IS WANTED
One year ago the depot at Bells in Grayson county, the intersection of the Missouri, Kansas and Texas and the Texas and Pacific, was entirely destroyed by fire.

THE FRUIT RATES
The commission also issued instructions that on August 18 the proposition would be taken up and considered of amending commodity tariff by including green or fresh fruits in the list of commodities subject to the scale of rates provided in section 2 and applicable on melons and vegetables less than car loads.

APPLICATION IS DISMISSED
The railroad commission disposed of the first case yesterday under the act passed by the Twenty-eighth legislature requiring railroad companies to construct ample side tracks.

MARKET STEADY

NORTH FORT WORTH, July 31.—To say that the market has not declined any is perhaps the nearest way to express today's conditions in the cattle yards. Cows sold steady at yesterday's and Wednesday's prices, but several loads of steers which were not in the best condition went begging all morning. Only eleven cars of cattle were received, and the prices paid for those bought were fair. A load of twenty-two steers, shipped by W. L. Hight of Fort Cobb, Ok., and averaging 875 pounds, sold to Sanson & Co. at \$2.62. This was the best sale. The entire list of sales for this morning was as follows:

OF INTEREST TO STOCKMEN

Rumors are afloat that Hammond & Co. will not rebid their St. Joe plant, which was recently destroyed by fire. It is stated that the policy of the Hammond people to concentrate business at Chicago has been shown by their recent abandonment of the Omaha and Hammond, Ind., houses and that St. Joseph will be the next to receive similar treatment. The rumor, however, seems to have its source in Kansas City.

STOCK YARDS NOTES

E. B. Harold was on the market yesterday, purchasing fifty-eight feeders. H. H. Carmackel of San Antonio had 148 sheep on today's market, which were shipped from the Union stock yards at San Antonio. They were Marinos and averaged seventy-one pounds, bringing \$2.80.

COTTON QUOTATIONS

the exclusion of quarantine cattle, the Colorado world's fair commissioners are on the trail of F. D. Coburn, chief of the exposition's live stock division, because of his ruling regarding halters. The ruling permits the exhibit of range cattle only in numbers less than car lots. The Colorado cattlemen object strenuously at the idea of being compelled to exhibit range cattle with halters, and say they cannot be shown to advantage in small numbers. For the present, at least, this phase of the exhibition does not trouble the Texas cattlemen, who want most of all an opportunity to place their cattle on exhibition. Mr. Sanson said today that if permission to exhibit at St. Louis were granted, he did not believe that many cattle which could not be handled with halters would be sent from the state.

WHEAT'S ROOF GARDEN

The elite of Fort Worth theatergoers attended in large numbers at the roof garden last night and enjoyed the first performance of the Sudermann story play "Magda," with Miss Dale in the title role. The title and authorship lend much interest to the production and many of the large audience enjoyed the play from the fact that they had read Sudermann's book of the same title. The performance was a complete success; the parts were in excellent hands. Miss Dale as Magda was a treat. Her perfect interpretation of this very difficult role made her a host of admirers, and her beautiful gowns were the topic of conversation between acts. In this part Miss Dale has every opportunity to display her splendid talent and excellent stage training. The role of Magda is a difficult one, and it is only an artist that impersonates this high-minded woman. It requires an artist to distribute the light and shade that go so far to make the part an interesting one. Miss Dale was equal to the task and won the audience to her side.

EXCHANGE TO PROTEST

Meeting Will Be Held at the Stock Yards This Afternoon

ENGLAND TO TRY AGAIN

The English people seem determined in their efforts to recapture the cup which the Americans have held for so many years. To this end a new challenger is being sent over and the races next month will determine which is the better boat. The best medicine in the world for curing all stomach, bowel and kidney disorders is the famous Hostetter's Stomach Bitters. During the summer it will be found very beneficial as a tonic, also to keep the bowels regular, without which you cannot enjoy good health. Be sure to give it a trial. It will restore the appetite, purify the blood, promote sound sleep, and positively cure flatulency, nausea, sour stomach, dyspepsia, indigestion and liver troubles. The genuine is for sale by all druggists.

Fort Worth, Texas July 31, 1903.

TO OUR CUSTOMERS AND FRIENDS:

Our market opened up Monday steady and active at last week's close. Tuesday receipts were also liberal and the market declined 10c to 15c on account of the heavy runs on the Northern markets. Wednesday we experienced another drop of 10c to 20c, and today it is closing fully 25c to 50c lower on cows and medium steers than the close of last week. Receipts of calves have been light all this week, and prices have advanced from 25c to 50c per cwt. Receipts all classes are light today, and we expect a good active market Monday, and possibly some advance in prices, but if the runs continue heavy, prices may go even lower. We give the following quotations for today—

Steers—Choice caked on grass. \$3.40 to \$4.00	Calves—Choice 200-pound. \$3.00 to \$3.50
Steers—Good grass. \$2.50 to \$3.00	Calves—Good yearlings. \$1.75 to \$2.25
Steers—Medium. \$2.10 to \$2.40	Hogs—Choice sorted. \$5.40 to \$5.55
Cows—Choice good fat. \$2.00 to \$2.25	Hogs—Mixed packers. \$5.25 to \$5.40
Cows—Medium butcher. \$1.60 to \$2.00	Sheep—Good fat mutton. \$3.00 to \$3.50
Cows—Canners. \$1.25 to \$1.50	Sheep—Medium. \$2.25 to \$2.75
Bulls. \$1.50 to \$1.90	

We respectfully solicit your consignments, and promise you your stock shall receive our personal attention. Daily market report furnished on application.

BIG SUNBONNET AND CALICO GOWN

Enabled "Buster" Collins, Negro, Charged With Attempted Rape, to Elude Mob

"You'd better put some more clothes on that nigger woman," said a visitor in the Tarrant county jail late yesterday afternoon as Deputy Sheriff Seals and Pippin of Dallas ushered in a prisoner and Jailer Roy clanked the big steel door after them. The prisoner wore a black-and-white calico gown and a big sun bonnet of the same material. The visitor had got a silhouette view of a pair of slender limbs through the calico dress. "Oh, I guess those'll do," said Deputy Sheriff Seals. "You can take 'em off, Buster, if you want to?" he added, addressing the negro.

SPIRITED AWAY

Dressed in female attire, the negro was spirited away from the Dallas jail and brought to Fort Worth over the Inter-urban yesterday afternoon. There was no great fear of a lynching, but the Dallas sheriff was resolved to run no risks, as a number of farmers, friends and neighbors of the father of the 11-year-old girl victim had assembled about the jail and seemed to be in an ugly mood.

Collins is about 5 feet 8 inches tall, and is almost black. Although he realizes the enormity of the offense and the probable punishment for it, he does not appear greatly frightened and proclaims his innocence in most positive terms, although he has been identified by the girl as the right man.

The identification was made in Dallas at noon yesterday. It seems that Betty Robertson, the girl in the case, was stopped by a negro about six miles north of Dallas day before yesterday. The negro attempted criminal assault, but did not succeed in completing the crime. The girl is the daughter of A. J. Robertson, a well-to-do Dallas county farmer. She accompanied her father to Dallas yesterday and picked Collins out from among a group of three negroes as the guilty man.

Collins told her she was wrong and attempted to argue with her, but was not permitted to do so. He says that he was at Garvin's dairy, which is several miles from the scene of the attempted outrage, at the time it is said to have taken place. He will be held here for a day or two, or until the excitement in Dallas cools down.

WAPLES PLATTER WANT RELEASE

Fort Worth Grocers Make an Error in Bidding on Sugar for the State

AUSTIN, Texas, July 31.—The Waples-Platter Grocery Company of Fort Worth, to whom a contract was awarded for furnishing the state institutions with sugar next year, have asked the state purchasing agent to be released, which he refuses to do. The grounds upon which the release is asked is that 1.20 per pound, the price at which the contract was awarded, is an error and too low.

The following were chartered: Stamford Dry Goods Company of Stamford; capital stock \$20,000. W. C. Blanchett, G. W. Hamblet and D. H. Johnson are the incorporators and the purpose is to do a general merchandise business.

The G. G. Dentistry Company of Jersey City, N. J., was granted a permit to do business in Texas.

The Southwestern Live Stock Commission Company of Fort Worth filed an amendment to their charter, changing the name to the Cassidy-Southwestern Commission Company.

A "GREEN TAG" SALE

Knight Will Throw Open His Doors for Customers Tomorrow

One of the most important events in merchandising occurring in recent months will be the inauguration of the great semi-annual green tag sale of the Knight Dry Goods Company tomorrow. Green tag sales have been one of the striking features of the Knight company's business for many years. They compare with the clearance sales of other large establishments. During the green tag sales every article in the store is marked with a green tag, upon which the price appears in plain figures. The object of these sales is distinctly not to make money, but to clear out summer stock, with the view of replacing it with fall goods.

W. C. Harrell, the manager of the Fort Worth store, informs The Telegram that this sale will be the largest ever attempted by the Knight company. As an additional inducement to extensive buying the present stock has been augmented by extensive purchases for this particular occasion. At this season all manufacturers desire to close out what stock they have on hand. Mr. Knight has taken advantage of many opportunities of this kind and will be able to offer many lines of fine dry goods at less than the usual wholesale prices.

To meet the demands of customers promptly a very large number of salespeople have been employed for this sale.

LILLIAN SHEDD BURIED

Touching Scene at Funeral of Gasoline's Little Victim Today

The funeral of Lillian Shedd, the 5-year-old daughter of Mr. and Mrs. William M. Shedd, who died yesterday on account of the injuries received from an explosion of gasoline, took place this morning at 9 o'clock from the Christian Tabernacle.

The services were conducted by the pastor of the Tabernacle, Rev. J. S. Myers. At the opening of the services a song was sung by the church quartet and the pastor spoke feelingly of the loss of such a dear one to the parents of the child. He also said a few words on the suddenness of the taking away.

"Last Sunday she was singing here with the other children and next Sunday she will be singing with the children who have gone to that great home beyond," he said. The subject of his talk was, "Suffer little children to come unto me." At the closing of the services the quartet sang the favorite song of the little girl, "Bring Them In."

The interment was at the new cemetery.

Novelties in Childrens Hose

Our Hosiery man has discovered a novelty in Children's Hose that should be highly appreciated by the trade, as we believe it to be one of the greatest improvements that was ever made. The three valuable points in Children's Hose are the knee, toe and heel, these parts will usually wear out long before any other portion. This new Hose is made in such a manner that the knee, the toe and the heel will positively out-wear any other portion. It is made on a newly invented machine and the great feature is an Irish linen spliced knee, heel and toe, and will out-wear three pair of any other make, all sizes 6 to 10, special, per pair **25c**

JARVIS BREAKS HIS LATE HOODOO

He Lets Dallas Down With Two Hits and Scores a Shut-out—Twelve Fanned Out

Fort Worth and Dallas had another little game of base ball at Haines Park yesterday and after the contest was over the players from Dallas departed for home, sadder but wiser.

The rooters were in force as the day off on account of rain on Tuesday caused many to have interest in the outcome of the game and, then, Dallas was the opposing team and every one is willing to go out to the ball park and see the Panthers get after visitors from that city.

Jarvis was a mystery to the visitors. Twelve of them retired to the bench with the third strike in McMurray's hands. Hardly any one retired on called strikes as Tilford was somewhat wary of offending the latter by such an action as calling a strike.

The entire Fort Worth team played with a snap that makes a baseball game interesting. Not an error was made that gave a man first base and so few men went that far there was not a single misplay charged to the Panthers.

Table with columns: AB, R, BH, PO, A, E. Rows for McMurray, Reitz, Ditch, Schmetzke, Foidenstetter, Combs, Peer, Dewey, Jarvis, and Totals.

NOTES OF THE GAME. Fort Worth plays Corsicana at Corsicana this afternoon in the first of a series of three games. Barrett decided not to sign with Dallas and accepted the terms of the Corsicana management yesterday.

TO PLAY IN FORT WORTH. Arrangements for Game Between Dallas and Tarrant Counties. The ball game between the courthouses employees of Dallas and Tarrant counties will be played in Fort Worth.

STANDING OF THE CLUBS

TEXAS LEAGUE Games Yesterday. Fort Worth, 5; Dallas, 0. Corsicana, 2; Waco, 2 (10 innings, called on account of darkness).

NATIONAL LEAGUE Games Yesterday. Cincinnati, 15; Chicago, 0. Pittsburgh, 10; St. Louis, 4. Brooklyn, 6; New York, 4.

AMERICAN LEAGUE Games Yesterday. Philadelphia, 12-6; Washington, 1-5. Chicago, 10; Cleveland, 0. St. Louis, 1; Detroit, 0. New York, 12; Boston, 1.

NEWS OF CAPITAL CITY

Professor Lefevre's Brother is to Go to Tulane—Fort Worth Sells Sugar

AUSTIN, Texas, July 30.—Dr. Albert Lefevre announced as having been selected as professor of philosophy at Tulane University, New Orleans, is a brother of Arthur Lefevre, superintendent of public instruction in Texas. Dr. Lefevre succeeds the late Dr. Edward E. Smith. He is 30 years old, having been born in Baltimore, October 4, 1873. Dr. Lefevre received his elementary education and was prepared for college in private schools in Baltimore, and entered the University of Texas, where he graduated in June, 1894, receiving the degree of A. B.

The new professor of philosophy in Tulane belongs to a distinguished family of scholars and teachers. His eldest brother, Dr. Walter Lefevre, it will be recalled, filled the chair of philosophy in the faculty of the University of Texas when his untimely death occurred. Dr. George Lefevre, another brother, is professor of biology in the University of Missouri. The father of these four scholarly young men was Dr. J. A. Lefevre, who was the founder and for thirty-three years pastor of the Franklin Square Presbyterian church of Baltimore.

FORT WORTH FURNISHES SUGAR W. B. Anderson, state purchasing agent, awarded contracts to the following firms for furnishing supplies to the state institutions for the year commencing September 1, 1903, and ending August 31, 1904: Waples-Platter Grocery Company of Fort Worth, standard granulated sugar to all institutions, except Corsicana. John Bremond of Austin, coffee, grits, hominy and hominy flake. Nelson, Davis & Co. of Austin, roasted coffee, or Corsicana and Terrell. Craddock Grocery Company of Terrell, hard for all institutions; bran and corn meal for Terrell for six months; grits for twelve months.

Central Texas Grocery Company of Corsicana, flour for all the state institutions, except Abilene, which was awarded to C. H. Gunther & Co. of San Antonio. HOW MONTANA DOES IT A copy of the laws and resolutions passed at the last called session of the legislature of Montana has just been received by the secretary of state. The book shows that the body was in session just one day and cost the people \$500. Four bills were passed. 1. Creating a commission and making an appropriation of \$60,000 to have the state properly represented at the St. Louis World's Fair.

2. An act providing for the care of the public buildings and grounds. 3. An act making an appropriation of \$500 to pay the contingent expenses of the extraordinary session. 4. Resolution regarding the sale of all furniture formerly used by the legislative assembly.

These four measures were passed on the 25th day of May, approved by the governor and properly authenticated by the secretary of state on the 27th. This is fast work, since, while the record does not say, it is presumed the legislature met at 10 o'clock and adjourned at 5, allowing one hour for dinner, would make the session exactly six hours long.

PERSONAL MENTION Ex-County Judge C. W. Stephens of Liberty county braved the storm and came to Austin today to look after some matters with the commissioner of the general land office and state treasurer. Judge G. U. Gentry of Ector county was in consultation with the attorney general and commissioner of the land office today, with reference to leasing some public school land. Judge Gentry is a native Texan, being a member of a family of pioneers. His father, who died only a few years ago, was in the battle of San Jacinto, and at the time of his death was one of five survivors of that renowned engagement.

NEWS FROM PUTNAM Prospects Are Excellent—The Telegram is Popular in the West PUTMAN, Texas, July 30.—Callahan county has been blessed in the last few days with fine rains; the weather is much cooler, and the farmers all seem to be delighted over the fine prospects for cotton. With all the other crops made and now followed with a fine cotton crop, with good prices, this country will certainly be in the swim this fall.

Mr. McMurry is completely overhauling his gin machinery, preparing for the big crop. Mrs. Wiley of Forney, Texas, has been out here for several days drinking the mineral waters. J. H. Surles sold four residence lots yesterday to J. J. Sigler. The telephone line is now completed to Cottonwood and Atwell, which gives Putnam complete connection with all the country around here.

Colonel Harry M. Taylor of the Putnam Paragon has written several articles this week for publication which are pronounced by critics as being very fine articles. The colonel is a great advocate of the Fort Worth Telegram and the city of Fort Worth. He says Fort Worth is bound to be the best city in Texas.

The Telegram is fast gaining in this section as a great daily paper. The people are anxious to get it out every office every morning. They say it is like getting a letter from home.

WANTS IDENTIFICATION Chinese Boy Trying to Find One Who Remembers His Birth GALVESTON, Texas, July 31.—Joe Sam, a Chinaman who claims to have been born in Galveston in 1885, is now here endeavoring to prove that he is a native Galvestonian for the purpose of securing a passport from the state department of the federal government to enable him to visit the land of his parents. Joe Sam, unfortunately for him, left home with his father and mother when he was but 4 years of age, and since then he has done quite a bit of traveling. He returned to Galveston about four months ago and since he has been here the last time he has been endeavoring high and low to find someone who remembers the advent he made into this world here. There are any number of people who recall the fact that about the time Joe Sam says he was born a son was born to a Chinese family in Galveston, but Joe Sam has not yet secured anyone who is willing to make affidavit that the 18-year-old Chinaman is the same Chinaman who created all sorts of stir in Chinatown here when the baby was born. Unless Joe Sam can find a reputable person to swear according to law that Joe Sam is

BABE DROWNS IN A TUB

Child Nine Months Old Fell in a Vessel of Rain Water

CELEBRINE, Texas, July 30.—The nine months old baby girl of Mr. and Mrs. Walter W. Barr, who live some four miles east of here, died in a tub of rain water. During the heavy rain Mrs. Barr placed some vessels out to catch rain water. Soon after the downpour ceased the baby, in crawling about the porch fell into a large dishpan filled with water. The mother missed the little one and found her cold in death. The mother is almost frantic.

An item concerning a new press for Celebrine was given out from here. A movement of this character has been considered, another press and plans will probably be soon completed for the enterprise. Fred W. Jones and Miss Mattie Lee Lockett were married here July 29. Mr. and Mrs. Jones went to Tennessee for their bridal tour. G. H. Pendleton and Miss Fannie Laxson were married at Celebrine July 30. This was a courthouse wedding, performed by Rev. C. T. Alexander.

Godley held an election to determine whether the town should be incorporated for free school purposes. It carried by a majority of eight for the measure. Division Superintendent C. L. Harris of the Katy came down from Denison and joined General Superintendent Alvord here, both going south over the lines of the Missouri, Kansas and Texas. Charles Thacker is now manager of the Celebrine baseball team. He has signed for a number of games ahead and says he intends to make this the best amateur team in the state.

Improvements and additions are being made to the county brick jail which will increase the facilities for care of the prisoners. Marriage licenses have been issued to Fred W. Jones and Miss Mattie Lee Lockett, E. S. Doyle and Miss Genevia Mae Cartwright, G. H. Pendleton and Miss Fannie Laxson. About two dozen lots were sold yesterday at Egam—despite the rain. Fine rains fell over Celebrine and vicinity Monday and Wednesday and indications point to more. Truck gardens and crop areas are greatly improved by the rains.

A LARGE TRUCK FARM Two Hundred Acres to be Planted in Southwest Texas CHERO, Texas, July 30.—Gus H. Schleicher of Crouch & Schleicher, the rice growers, has returned from Beville, where he went to close a deal of great importance to the truck growing interest in this county. He has closed a trade with S. A. Henry of the Beville experiment station to take charge of 200 acres of land on their rice farm and plant it all in truck. Mr. McHenry will move here and his place at the experiment station will be vacant. He stated to Mr. Schleicher that in all his experience in many states he never saw a piece of land of finer quality or better suited for truck growing. He is a practical man and will make a success of the undertaking. This undoubtedly will be the largest truck patch in the state and it means that the industry in this county is firmly established and will soon be the most important in South Texas. The soil and water are here. Industry and capital is all that is needed to make money. They will still have 300 acres left for rice, not so suitable for truck.

RAIN IN WEST TEXAS ABILENE, Texas, July 29.—A fine rain fell here from 1 to 3 o'clock this afternoon, the precipitation being perhaps near an inch. Rain is reported from many points in the territory, notably Clyde, Baird, Merkel, Eskola, Nugent and a number of places along the Texas and Pacific east of here. However, it seems not to have been a general rain, there being a scope of several miles between here and Merkel that received no rain.

The rains Monday were good in the southern portion of this county and in the northern portion of Runnels county, especially near Winters, in the latter county. FREIGHT TRAIN WRECKED KENNEDALE, Texas, July 30.—An extra southbound train went into the ditch about three miles east of Kennedale. Three cars are in the ditch, two of which were almost completely demolished. They were loaded with wheat for Galveston export. It delayed the freight traffic nine hours. No one was hurt.

SUPERINTENDENT AT BROWNWOOD BROWNWOOD, Texas, July 30.—Professor Abbott of San Angelo has been elected superintendent of the Brownwood public schools, in place of Professor W. S. Fleming, resigned. He is said to be a very fine man for the place, having given eminent satisfaction in filling a similar position in San Angelo, and the board feels fortunate in securing his services.

SCHOOL TRUSTEES MEET WAXAHACHIE, Texas, July 31.—The school trustees of Ellis county held a meeting in the district court room here yesterday afternoon. About forty trustees were present and the meeting was a very profitable and interesting one. Several questions pertaining to the duties of school trustees were discussed. County Superintendent Childs gave a review and explanation of some of the more important provisions of the state school laws.

RAIN AT POTTSBORO POTTSBORO, Texas, July 29.—A very heavy rain has fallen here. Farmers are anxious for good rains but some are uneasy that too much will damage cotton seriously.

IMMIGRANTS DUE TODAY

GALVESTON, Texas, July 31.—The North German Lloyd steamship Frankfurt is due to arrive in Galveston this afternoon with something like 300 steerage passengers aboard, besides a number of cabin passengers and almost a full cargo of freight. The Frankfurt left Baltimore for Galveston last Friday afternoon at 4 o'clock. There is a well-defined rumor afloat that within a few months the North German Lloyd line will increase the fleet now coming to Galveston by doubling the number of vessels engaged in this service, giving Galveston two ships per month the year round. It can also be stated that the railroads of the west with southern connections are also investigating conditions with a view of endeavoring to persuade the steamship line to route passengers for the middle western and western states by way of Galveston instead of by way of New York and Baltimore, as is now largely the practice.

CHAUTAUQUA CLOSING TONIGHT

WAXAHACHIE, Texas, July 31.—The fourth annual meeting of the Waxahachie chautauqua and summer assembly will come to a close tonight, the last attraction being an illustrated lecture by Dr. David Hoyle of Chicago. This meeting of the Chautauqua has been a great success in every respect. The attendance has been large and the platform attractions of a very high order. During the ten days session more than three hundred families from different parts of the state were camped on the grounds. The exercises today pertained to agricultural, horticultural and good roads matters. Among those who delivered addresses were Hon. O. P. Bowser and Judge Green of San Antonio, Professor J. H. Connell of Dallas, Professor E. Dwight Sanderson of College Station and Dr. Hunter, United States entomologist.

SUMMER NORMAL CLOSED

ARLINGTON, Texas, July 30.—The six weeks' session of the summer normal in this city closed Thursday afternoon. The session has been one of the great good fellowships as well as of hard work. The number enrolled during the session was eighty-eight. Sixty-two took the examination forty-two for second grade, sixteen for first grade and four for permanent certificates. Resolutions of thanks were tendered Professor Carlisle for the use of his school building and other courtesies. Also to Professor J. Morgan and his able corps of assistants for their earnest efforts, useful aids and kind suggestions during the term.

DALLAS NEEDS WATER. The Dallas officials have been over to inspect the new water works plant of the city of Fort Worth, and after witnessing what is being done to provide an adequate supply for the public consumption express regrets that Dallas is not in a position to utilize the same engineering skill to provide a first class supply, the Dallas is unfit for general use.

REPORT HAS IT THAT NEGROES IN BOSTON organized a mob to break up a Booker T. Washington meeting in Boston. It is very well for Boston to have a personal knowledge of the negro in his natural element, and the people of that eastern city will some day be convinced that the people of the south are not without cause. The south congratulates Boston on the negro rough house.

Another negro has been brought to the Tarrant county jail for safekeeping. Mobs do not organize here, nor can they be successful in any attempt to take a prisoner from that lonely prison on the banks of the Trinity.

A Surgical Operation is always dangerous—do not submit to the surgeon's knife until you have tried DeWitt's Witch Hazel Salve. It will cure when everything else fails—it has done this in thousands of cases. Here is one of them: "I suffered from bleeding and protruding piles for twenty years. Was treated by different specialists and used many remedies, but obtained no relief until I used DeWitt's Witch Hazel Salve. Two boxes of this salve cured me eighteen months ago and I have not had a touch of the piles since."

PUBLICITY IS GOOD. Much publicity cannot be given to municipal legislation granting valuable franchises to corporations, and in this respect the existing charter of the city of Houston fully protects the interests of the city. It requires that before a franchise shall be granted, there shall be twenty days' publication of the full intent of the legislation, and this publication shall be at the expense of the promoters of the franchise seeking the valuable right. In this way the people, from whom comes originally the right to grant, and in whom collectively the ownership of that right is vested, are fully advised what is asked of them, what is being given in return, and what promises are made as to future operation under such franchise grant.

Representative Landis of Indiana has come forward with the latest cure for the "lynching habit." He recommends the passage of a law which will summarily remove from office the sheriff in whose jurisdiction the lynching occurs, and that the county in which it takes place shall be compelled to pay the heirs of the lynched between \$15,000 and \$20,000 indemnity. This is a unique and absurd proposition, even from Indiana state-manship.

Why remove a sheriff because he has been overpowered? The officer has no authority to convert his jail into a military post and maintain a garrison strength at all times. Mobs come when least expected and do their work before the officers can summon help.

There is now pending in Galveston and in Houston legislation which will grant the interurban line between the two cities the right to enter the corporate limits. Speaking of the publicity due such matters the Galveston Tribune says: "The rights of the people may be perfectly safe in the hands of any set of officials. But at the same time they are the property, not of the officials, but of the people, and they should not be bartered, abrogated or alienated without the full knowledge of the people. The only way this knowledge can be gotten to the people is through the medium of the press. The light of publicity has prevented many a right of the people from being tampered with and wasted, and the principle of publicity is so good that it is dangerous to deviate from it and set a precedent which may be used to defend action which would not be endorsed or tolerated by the people were they advised of the intentions of their servants. There is a right way and a wrong way, a safe way and a risky way of attending to the public business, and the right way and the safe way would appear to be to keep the people fully advised as to the transactions made in their name. They are entitled to know what is done with their property and how their business is transacted and it is no reflection on their servants when they demand that information."

At the present time Mr. W. F. Brown of New Orleans appears to have control of the cotton situation. Mr. Brown bids 15 cents a pound for the staple, and none is to be had. It is the most remarkable condition of affairs in cotton existing since the civil war, and it remains to be seen what the result will be. As far as the immediate present is concerned, the bull pool has engineered a successful corner. The bulls have the cotton and those who must be supplied have but the one source. Many mills, however, have shut down in the east, and it remains to be seen whether all spindles will be stopped until the new crop moves rather than pay tribute to the coffers of Mr. Brown's corner. Cotton cannot be manufactured profitably if the raw material is held at 15 cents. In the event the spindles do not take the cotton now in hand, and there is a stoppage of manufacturing until the new crop moves, Mr. Brown will have his supply on hand and it will be up to him to take the new cotton as fast as it is offered. If this is the case, the producer will be benefited. Mr. Brown evidently knows what he is doing, and when he stood in the pit yesterday and offered 15 cents, with no takers, he was evidently sure of his ground. However, "corners" have lost in the past, and probably this one will fail. In the meantime the manufactured article is becoming scarce.

The "merchants' rates" authorized and required by the railroad commission of Texas appear to have "muddled the water" without much result. It is required that those Texas cities in which wholesale houses are located, which desire to take advantage of the rates, shall guarantee to the roads two hundred tickets at the reduced rates. There are few Texas cities in which the commercial organizations will make such a guarantee. They cannot afford to take the chances. When the rates were first discussed the commission told the roads to take out the interstate rates or emergency rates in Texas would be put in. Some of the roads agreed to do so, while others stood pat on the St. Louis proposition. When the emergency rate was ordered by the commission it was discovered by the roads that the conditions were such that Texas towns could not subscribe to the requirements, and now the various lines are falling over each other trying to get the emergency rate application to their tickets. It is a delightful sight which Fort Worth enjoys as a "looker-on," and the packing-houses are still doing business just north of the Trinity.

At a meeting of the tobacco pipe manufacturers, it was decided to fight the union to a finish.

IMPROVEMENTS IN MEDICINE. Progress is affecting every branch of invention, production and manufacture in the world. The most important improvements are being made in every line, and meet with a royal reception on the part of the people as soon as made known through the "latest improved" newspapers. As an example, look upon Cascares, Candy Cathartic, which represent the most modern ideas of a scientific, twentieth century medicine—a sweet, palatable, aromatic little tablet, put up in a dainty little enameled box just right for the vest pocket, or purse—nothing to break or fully thought gently.

FATAL USE OF SHOTGUN. GENEVA, Ohio, July 31.—Walter Harvey, a blacksmith, shot and instantly killed E. F. Gossen at Harpersville near here yesterday. The murder was the culmination of ill feeling which has existed between the two for several years. Glesson had chased Harvey into the house, threatening to whip him, when the latter seized a shotgun and shot Glesson through the head. Harvey was brought to Geneva and locked up. He is 60 years old, while Glesson was 35.

GRAUSTARK. By GEORGE BARR McCUTCHEON. Copyright, 1901, by Herbert S. Stone.

SYNOPSIS. Grenfall Lorry, a wealthy American globe-trotter stumbles into acquaintance with a charming foreign girl on the train from Denver to Washington. The pair get left at the station when the flyer stops for repairs in West Virginia. Lorry writes ahead to hold the train at the next town. He hires a wagon to drive them the intervening four miles. They catch the train. Lorry learns the young lady's name is Miss Guggenlocker and her companions are her uncle and aunt. They arrive in Washington and Lorry is asked to breakfast with the trio. They leave New York. Lorry spends a day trying to work, but gives it up and rushes to New York, hoping to catch a far-well glimpse of Miss Guggenlocker before she sails. Just as the Kaiser Wilhelm steamer away he catches sight of her and throws a kiss from the tips of his fingers. To his great surprise the gesture is returned. Lorry joins his old friend Harry Anguish, an American artist, in Paris. Graustark and his capital, Paris, has not got no trace of a guidebook. The Amos... Lorry sees of the Guggenlockers there. Lorry, with a beautiful companion of her own sex, gets a glance of recognition, but the carriage rolls on, leaving the mystery unexplained. Later he receives a note at his hotel, signed Sophie Guggenlocker, inviting him to visit her next day. In the evening Lorry and Anguish retrace the grounds of the castle where dwells the court of the Princess Graustark. They overhear a plot to abduct the princess and reach the castle in the nick of time. Following the conspirators, Lorry finds himself in a room he heard them designate as that of the princess. Lorry tells the princess of the plot. Mutual recognition, she is Miss Guggenlocker. Danton, the guard, is in the abduction plot. He tells Lorry with a terrible blow. Anguish to the rescue. Lorry quarters in the castle. The princess visits him, but forbids all talk of love. Graustark is bankrupt and seeks the neighboring principedom of Axphain \$30,000,000. The creditor demands cash or the cession of the richest districts of Graustark. The Princess Anguish offers to extend the loan if the princess will marry her son Lorenz. Prince Gabriel of Dawsbergen also bids for the princess' hand with offer of a loan. Yvonne tells Lorry that she belongs to the people and will marry Lorenz. Lorry discovered kissing the princess while she is seated on the throne. He quits the castle by royal command. Betrothal of the princess to Lorenz. The American rescues the girl as chief conspirator in the abduction plot. Lorenz toasts the princess lightly in a cafe. Lorry dashes the glass from his hand. Challenge to a duel. Lorenz assassinated. Lorry charged with the crime.

CHAPTER XVII. IN THE TOWER.

THE two captives who were not prisoners were so dazed by the unexpected events of the morning that they did not realize the vast seriousness of the situation for hours. Then it dawned upon them that appearances were really against them, and that they were alone in a land far beyond the reach of help from home. One circumstance puzzled them with its damning mystery: How came the blood stains upon the doorknob? Danton courteously discussed this strange and unfortunate feature with them, but with ill concealed skepticism. It was evident that his mind was clear in regard to the whole affair.

Anguish was of the opinion that the real murderer had stained the knob intentionally, aiming to cast suspicion on the man who had been challenged. The assassin had an object in leaving those convicting finger marks where they would do the most damage. He either desired the arrest and death of the American or hoped that his own guilt might escape attention through the misleading evidence. Lorry held, from his deductions, that the crime had been committed by a fanatic who loved his sovereign too devotedly to see her wedded to Lorenz. Then why should he wantonly cast guilt upon the man who had been her protector, objected Danton.

"Did you find bloody water in which hands had been washed?" asked Anguish. "No," responded one of the guards. "There was nothing to be found in the bowls and jars except soapy water. There is not a blood stain in the room, captain."

"That shakes your theory a little, eh?" cried Anguish triumphantly. "Examine Mr. Lorry's hands and see if there is blood upon them." Lorry's hands were white and uncontaminated. Danton wore a pucker on his brow. "Shor afterward a crowd of Axphain came to the prison gates and demanded the person of Grenfall Lorry, departing after an ugly show of rage. Grenfall Edelmweis citizens stood afar off, watching the walls and windows eagerly. "This may cost Edelmweis a great deal of trouble, gentlemen, but there is more happiness here this morning than the city has known in months. Everybody believes you killed him, Mr. Lorry, but they all love you for the deed," said Danton, returning at noon from a visit to the hotel and a ride through the streets. "The prince's friends have been at the castle since 9 o'clock, and I am of the opinion that they are having

HUGE OIL TANK READY FOR USE

Local Fuel Oil Station on the Houston and Texas Central Railroad Completed This Week

REPRESENTS LARGE EXPENDITURE

Pumping Station, Unloading Rack and Methods of Handling the Liquid Fuel Told in the Following Descriptive Account of the Plant

One million four hundred and eighty thousand gallons of oil is the capacity of the storage tank at the fuel oil plant of the Houston and Texas Central railroad in this city. The pumps and all pipe connections have been completed during the past week and the plant is now ready for use.

The completion of the Fort Worth plant and the one at Sherman terminate the contract with the C. & S. of Peoria, Ill., for the erection of eight tanks similar to the one at Fort Worth along the lines of the Houston and Texas Central. The contract which was made some time ago also included the building of 20 tanks along the lines of the Southern Pacific.

OIL FOR ONE YEAR.

The combined storage capacity of the several stations represent a sufficient number of gallons of oil with which these lines could be operated for one year, were the tanks filled at the beginning of a period of that length. This estimate also includes the engines which are now coal burners but which will soon be changed to oil consumers.

The Fort Worth plant is located one-half mile south of the local yards. It is equipped with a tank having a capacity of 37,000 barrels. There are two tanks at Ennis, each having a capacity of 55,000 barrels; one at Hearne, with a capacity of 55,000; one at Hempstead with a capacity of 55,000; one at Eureka with a capacity of 55,000; one at Miller, with a capacity of 37,000 and one at Sherman with a capacity of 37,000.

A MAMMOTH AFFAIR.

The tank at the local station is thirty feet high and 86 feet in diameter. It is constructed of steel 5/8 of an inch thick at the base and 3/16 of an inch thick nearer the top.

The pumping station comprises a pump with cylinders 5x6x6 inches and a boiler of 20 horse power capacity. The oil is pumped from the cars into the storage tank, and from the storage tank into the engine tanks after it has been lowered sufficiently in the storage tank as to be unaffected by the force of gravity. The pressure of the oil in the large tank will force the fluid through the mains into the engine boilers until it reaches a distance of 14 feet from the top of the storage tank. After that it is necessary to either pump the oil either directly into the engine boilers or into what is termed a pressure tank which has a capacity of 47,000 gallons.

TANKS AND MAINS.

The unloading rack consists of a side track on which three oil tank cars may be stored and emptied at the same time. At the side of the unloading rack are arranged three adjustable cranes which are attached to the tanks on a similar number of cars. The oil is then permitted to flow from the car tanks into the main leading to the large storage tank. This main is six inches in diameter and through it the engine forces the oil into the large tank.

Engines are supplied with fuel oil through a crane similar to that used at watering tanks. Only four minutes is required to fill the oil tank on an engine.

HIGH BANK AND FENCE.

The storage tank is surrounded by a high embankment the depth of the excavation between the tank and the embankment averaging 10 feet. The object of the excavation is to provide a receptacle for the oil should an accident result in a leakage at the tank. The reservoir surrounding the tank has a capacity equal to that of the tank. Around the excavation is a solid board fence 7 1/2 feet high. Heavy gates securely locked are provided to bar several intruders.

COST SEVERAL THOUSAND.

The improvement is one costing several thousand dollars. At present only passenger engines on the Central in Fort Worth are equipped for burning oil, but the company will soon change all its engines using coal to oil consumers.

The work here has been under the direct supervision of M. M. Boehr, assistant division engineer of the Houston and Texas Central, who departed Friday for Hearne, J. C. Cooper, foreman, in charge of the work, will remain until tomorrow, when he also will leave.

AFTER FORTY-THREE YEARS

Diver Has Examined the Wreck of the Steamer Hungarian
HALIFAX, N. S., July 31.—A diver who has gone down to the wreck of the steamer Hungarian, lost on Cape Sable ledges forty-three years ago, with all on board, reports that the afterpart and two sides of the steamer are standing and the shaft is still in position. Portions of the cargo and steel bars can be seen in the hull. An effort will be made to recover some of the cargo.

MAKING IMPROVEMENTS

The Harris Dry Goods Company, one of Fort Worth's leading department stores, is making extensive improvements and enlarging their store, due to the increased business which has come to this popular firm since opening in this city. Mrs. J. E. Piggot, who formerly conducted a millinery store in the west wing of the building occupied by the Harris Dry Goods Company, has sold out her interest and the partition separating the two buildings has been removed, giving the Harris Dry Goods Company an additional room 28x80 feet, which is being fitted up for millinery, coats and ladies' ready-made garments, and this firm will carry one of the swiftest and most complete lines of millinery and ready-made garments ever seen in Fort Worth.

TESTING THE NEW BROWN GUN

Ten-inch Segmental Wire.

Wound Destroyer Proves to Be a Success on Second Trial

NEW YORK, July 31.—Before Lieutenant General Miles and other members of the board of ordnance and fortifications the ten-inch segmental wire-wound gun has been fired again on the Sandy Hook proving grounds. It was first tested in 1901. Then the breech block blew out under the strain of 29,000 pounds to the square inch.

The second test, loaded with an amount slightly less than the service charge of 150 pounds of powder, a projectile weighing 300 pounds ricocheted far out to sea. Following this there will be further trials until the maximum strain has been placed upon the piece and 100 shots at least are fired. Except for a slight sticking at the breech block, which it is said can be remedied, the present trial is declared to be a success.

NOT UNTIL NEXT YEAR

New York Rapid Transit Subway Delayed by Strikes

NEW YORK, July 31.—Owing to numerous strikes during the summer by men employed in the Rapid Transit subway, it is likely that New Yorkers will be compelled to do their traveling above ground until the first of next April. It had been expected until within the last few days that the line could be opened shortly.

Contractor McDonald says the tracks will be in place by that date, but says there may be a delay of two or three months in starting trains, owing to the backward stages of work on the stations and power-houses.

FREAKS OF LIGHTNING

Young Lady Killed and Policeman's Bike Wrecked

NEW YORK, July 31.—Miss Effie Aaronson has met death in a peculiar manner in Lexington, near her home. She had called on a girl friend and the two were standing on the stoop of the Lexington avenue home when a portion of the granite coping above them fell and struck Miss Aaronson to the ground. Her skull was crushed and she died immediately. Investigation showed that a bolt of lightning had struck the stone in the heavy stone which had just passed. The shock had fractured the heavy stone and left it hanging by only a small and unbroken part.

The lightning was extremely severe over the entire city and many strange accidents were reported. In Jersey City a bicyclist ridden by a policeman was twisted into a shapeless mass. The rider was unhurt by the bolt and sustained only a few scratches from falling from the wrecked machine.

DIES OF BROKEN HEART

Author Expires When Book on Lost Tribes of Israel Falls of Success

MISHAWAKA, Ind., July 29.—Failure to realize success with a literary work over which he had toiled for twenty years proved fatal to Theodore Laffin and he died of a broken heart. He had lived as a recluse in a hut on the banks of the St. Joseph river, five miles below the town surrounded by three big pet dogs. For over twenty years Laffin labored in solitude to prepare a book entitled "The Lost Children of Israel Found Beyond the Arctic." Day and night the hermit studied, devoured the Bible and prepared manuscript. He compiled a work intended to solve the problem concerning the destination of the lost tribes of Israel. Laffin's theories harmonize with those of John Cleves Simms, who maintained that the earth is a hollow globe inhabited on the interior. Laffin declared that the men returned to King David on foot through the great Arctic pass, bringing with them gold and furs. "The barbed children of Israel," said Laffin, "came to a pass in the great Arctic mountains, then disappeared so far as history is concerned." Laffin's hut resembled an arched tunnel. He gathered much gold in 1819, but this was lost in a fire which destroyed a portion of his hut. His will has just been discovered, whereby all his money and property, worth several thousand dollars, is bequeathed to the orphan's home in Mishawaka.

A TEST CASE AS TO REBATES

Injunction Is Asked to Restrain the Chesapeake and Ohio From Playing Favorites

THE FIRST ACTION UNDER A NEW LAW

New River Coal Is Being Delivered at Norfolk Cheaper for the New Haven Road Than the Published Tariff of the Line

NORFOLK, Va., July 31.—

Railroad and business circles are awaiting with keen interest the outcome of the arguments begun today in the application for a permanent injunction to restrain the Chesapeake and Ohio railroad from carrying coal or any other traffic at any greater or less rate than its published tariff and also to restrain the New Haven road from receiving any rebate or advantage therefrom. The case is the first to arise under that section of the anti-rebate law which gives the interstate commission power to ask for an injunction to restrain a railroad from charging less than its posted freight rates.

The action in the present case is based on the original complaint of W. C. Bullitt, a Philadelphia coal dealer, and the testimony given by President Stevens of the Chesapeake and Ohio, shows that a contract was made five years ago by his road to deliver at New Haven 2,000,000 tons of New River coal at the rate of 400,000 tons a year, for \$2.75 a ton. When the contract expired in April last, the rate remained the same, and a new contract was made for the delivery of that amount at the old rate.

After paying for the coal, its transportation from Newport News to New Haven by sea and for discharging it from the vessel, the rate remained for the delivery of that amount at the old rate. GEN. KNOX'S NEW HOME

Attorney General Purchases Farm Near Valley Forge

WESTCHESTER, Pa., July 31.—Attorney General P. C. Knox is to become a summer resident of Chester county. He has just purchased a farm here, and may occupy it this season. The property is about one mile from Valley Forge and was formerly known as the Harvard farm. In the days of the revolution it was owned by a man named Brown, and during the encampment at Valley Forge of the Continental army one of the buildings upon it was the headquarters of General Knox, an ancestor of the attorney general. He brought his young bride there.

ACCEPTS GOVERNMENT JOB

ANN ARBOR, Mich., July 31.—Charles B. Hark has accepted the appointment of government bacteriologist in the Philippines at a salary of \$1,500. He is the young man who contracted the bubonic plague while working in the laboratory of Michigan University.

BAKERS BECOME AGGRESSIVE

NEW YORK, July 31.—The bakers' strike here is spreading, says a Santiago, Chile, dispatch to the Herald. Only a few shops are open. The strikers, becoming aggressive, have tried to burn shops and attacked several bakers' carts. Armed detachments are now protecting the shops. The bakers have thus far rejected overtures to arbitrate.

Catarrh of the Stomach.

When the stomach is overloaded; when food is taken into it that fails to digest, it decays and inflames the mucous membrane, exposing the nerves, and causes the glands to secrete mucus, instead of the natural juices of digestion. This is called Catarrh of the Stomach. For years I suffered with Catarrh of the Stomach, caused by indigestion. Doctors and medicines failed to benefit me until I used Kodol Dyspepsia Cure.—J. R. Rhea, Coppell, Tex. Sold by all druggists.

An Hundred Years Ago the Man Who Revolutionized Naval Methods of the World Was Born

THE SWEDISH PEOPLE HONOR HIS MEMORY

An Old Statue in Battery Park Is to Be Replaced by a More Suitable One--Tribute to the Man Who Built the Gun-boat Monitor

NEW YORK, July 31.—One hundred years ago today, in a little town in far-off Sweden, there was born one who was destined to revolutionize the methods of naval construction and naval warfare and incidentally to aid in no small measure in the preservation of the United States of America—the land of his adoption. John Ericsson was his name and the "Monitor" his monument.

Saved From Terrible Death.

The family of Mrs. M. L. Bobbitt of Bargeton, Tenn., saw her dying and were powerless to save her. The most skillful physicians and every remedy used, failed, while consumption was slowly but surely taking her life. In this terrible hour Dr. King's New Discovery for Consumption turned despair into joy. The first bottle brought immediate relief and its continued use completely cured her. It's the most certain cure in the world for all throat and lung troubles. Guaranteed bottles 50c and \$1.00. Trial bottles free at J. W. Fisher's drug store.

men are filling the hotels here in anticipation of the opening tomorrow of the annual meeting of the American Federation of Catholic Societies. The federation movement, which was inaugurated but a few years ago by Bishop McPaul of Trent, has made rapid strides recently and the result will be an extraordinary large attendance at the coming meeting. Nearly every Catholic society of prominence in the entire country has been taken into the fold and all will be well represented. In addition to the regular delegates those present will include a number of eminent prelates who have accepted invitations to address the meeting.

A REVOLUTION NEAR SANTIAGO

Rural Guards Are Ordered to Be Increased to Put Down the Trouble

HAVANA, July 30.—In spite of the effect yesterday by Senor Yero, secretary of the Interior, killing three men and the capture of a fourth man, their leader attempted to cause an uprising in the vicinity of Bayamo province, Santiago, is an effectually end to the only semblance of an uprising in Cuba. Rumors of uprising in eastern Cuba were fully confirmed today in the government reports received from the governor and other officials of Santiago province. They are to the effect that since Sunday night last sixty armed and mounted men appeared outside the villages in the Cauto river district, proclaiming a revolution and demanding the payment for former members of the revolutionary army. No acts of violence have as yet been reported, but the inhabitants of the Cauto river region are excited. The leader of the revolutionary party is name Pupo. He is a brother of one of the bandits killed by the rural guards on last Tuesday. General Rodriguez, commander in chief of the rural guards, has ordered a mobilization of all the rural guards in eastern Cuba, and the governor of Santiago province has been instructed to enlist as many volunteers as he may deem necessary to cooperate with the mounted troops.

FOR HABEAS CORPUS

WAXAHACHIE, Tex., July 30.—Henry Willis, charged by indictment with the murder of Jim and Claud Shaw, near Ennis, December 27, was taken to Ennis this morning to have habeas corpus hearing before Judge Dillard for the purpose of obtaining bail. Willis was tried at the spring term of court for killing Claud Shaw, and given forty years in the penitentiary. On appeal the case was reversed and remanded.

IN MEMORY OF JONATHAN WALKER

Twenty-Fifth Anniversary of the Death of the "Man With the Branded Hand."

HE HELPED SLAVES TO MAKE ESCAPE

Tried in Florida for Stealing Human Holdings, the Letters S. S. Were Burned Into His Hand—Stood in the Pillory—Served a Term

MUSKOGON, Mich., July 31.—Interesting ceremonies are to be held here tomorrow in commemoration of the twenty-fifth anniversary of the death of Jonathan Walker, immortalized by the poet Whittier as "The Man With the Branded Hand." Jonathan Walker was born in Harwich, Mass., in 1799 and in early manhood took a great interest in the slavery question. In 1825 he formed a compact with Benjamin Lundy for the establishment of an escaped slave colony in Mexico. The men owned a small vessel, and with it they assisted the slaves to get away to a place of refuge. They followed this practice for several years, and Walker had many harrowing adventures during the time. He was finally captured in July, 1834, and tried before a court at Key West. He was convicted of slave stealing, and the judge sentenced him to pay a fine of \$1,200, suffer seven years in prison, stand in the pillory for one hour and to have the letters S. S. burned on the palm of his right hand.

Walker paid the fine, stood in the pillory, the branding part of the sentence was carried out and the suffering man confined in jail. There he remained for nearly a year until released. In 1853 he came to Muskogon county, and settled on a beautiful spot near the lake, where he remained till the time of his death, which occurred April 29, 1878. On the first of the following August a handsome monument to his memory was erected in Evergreen cemetery by Phonus Fisk, a young United States navy chaplain, who had known the old man before his death and who had shared his views on the slavery question. The dedication of the granite shaft was made the occasion of a great gathering to pay tribute to the dead man. People assembled, not alone from the immediate vicinity, but from many parts of the country. On the face of the monument is a reproduction of the branded hand and the dates of Walker's birth and death.

ELIZABETH'S COURT HOUSE

Elizabeth, N. J., July 30.—Speeches and other ceremonies accompanied the laying of the cornerstone today of the new \$550,000 court house for Union county. The laying of the stone was conducted by the Masonic grand lodge of New Jersey, and speeches appropriate to the occasion were delivered by United States Senator John Kean, former Governor Foster M. Voorhees and others. The new edifice is designed to be one of the most magnificent and costly structures of its kind in the entire country.
