

HE FALLS AT FIRST FIRE

E. Meyenberg Is Shot Down by a Young Man Who Rides Up Behind Him—Used a Small Rifle

SECOND SHOT FIRED IN PROSTRATE FORM

The Killer Flees After Finishing His Victim, But Surrenders When Hot Pursuit of Sheriff's Posse Shows There Is No Escape for Him

PECOS, Texas, Sept. 9.—Today just a few minutes before the noon hour a young man rode up behind E. Meyenberg and shot him down. He fired two shots with a .20.30 rifle. The first shot took effect in the head, tearing a ghastly wound in his face, where the ball came out. After shooting him the killer rode northward and shot him again through the body. Evidently there would no doubt have proved fatal.

The murderer fled for a riding place going along the river in the direction of Armer. Sheriff Lovell was near at hand and with a few others at once made a hot pursuit. They overtook him about eight miles out and seeing there was no use to make resistance he at once surrendered and was brought back and lodged in jail.

Mr. Meyenberg had been in business in Pecos some ten years, was a quiet, inoffensive citizen, given to charity among the lowly, and deserved no such fate as befell him.

The killer is a young man of powerful build, who has been working on the farms about town and has the name of being a good field hand.

The affair was a great shock to the community. Meyenberg was well connected, his father living at La Grange, Texas. His relatives wired to have the body embalmed and shipped to them for burial.

HE HAS A FORTUNE
CHICAGO, Ill., Sept. 11.—A dispatch to the Record-Herald from Des Moines, Iowa, says:

Michael O'Connor has just returned from Korea, where he said he saw Leigh Hunt, formerly a teacher here, and later president of the State Agricultural College. O'Connor said Hunt is a multi-millionaire, his wealth being estimated anywhere from \$75,000,000 to \$100,000,000.

His concessions in Korea and Eastern China are said to be princely. Hunt is now engaged in vast irrigation schemes in Korea.

HE COMES BACK HOME
CHICAGO, Ill., Sept. 11.—A dispatch to the Tribune from Portland, Oregon, says: After wandering around for fifteen years, forgetting even his birthplace and the names of his parents, from whom he had been kidnaped, Marcus Hookman, now 23 years old, walked into the spot, his father along with a watch and was recognized by the aged man. Young Hookman was stolen by a wandering troupe of variety actors when 7 years old.

MOTOR CAR FOR SERVICE IN WAR

Umbersome Vehicle Which Will Carry Complete Outfit for Repairs to Equipment

NEW YORK, Sept. 11.—Equipped with bursters, rollers, carpenters and blacksmiths' outfits complete for use in the army, a motor car will leave this city for the war department in Washington in a few days. After inspection by the department officials, it will be sent to Fort Leavenworth, Kan., for test in actual service.

It is the first car of the kind ever constructed and if it comes up to the expectations of its designers, any necessary repairs to the equipment or arms of the artillery, cavalry or infantry branches will be done in the field.

The car is not a model of beauty, and

NO LIQUOR ALLOWED IN LABOR TEMPLE

The Trades' Assembly held a regular meeting last night at a resolution adopted that all intoxicating liquors shall be stopped at the foot of the stairs.

The question came up for a discussion in outlining the rules under which the temple is to be conducted. There are many unions using the place for regular meetings, and it is necessary to outline a system under which the tenants are to be governed. When the liquor question came up it was given a thorough consideration and resulted as stated that no intoxicants

RURAL CARRIERS TO HAVE UNION

They Meet in Chicago for Organization to Secure Betterment of Conditions

CHICAGO, Ill., Sept. 11.—Rural letter carriers of the United States will meet in Chicago today and tomorrow to form a national association. There will be in attendance delegates representing 17,900 rural letter carriers, who daily supply 12,000,000 country residences with mail. They travel 500,000 miles every day, their routes covering two-thirds of the best farming districts of America.

Better roads, more salary, fewer privations, holidays, and numerous other improvements in their conditions are the hope of the rural carriers, who declare they travel over the worst roads in the world.

Heretofore the rural carriers have had state organizations. Now it is the intention to have all the state organizations subsidiary to the national body.

The organization will be known as the National Rural Free Delivery Letter Carriers' Association.

THE ATTACK ON MR. MAGELSEN
Details of Shooting and Vice Consul's Failure to Obtain Justice

BERLIN, Sept. 11.—The Egyptian Gazette, published at Alexandria, Egypt, has published details of the recent attack on the United States vice consul, Mr. Magelsen. It says that Mr. Magelsen was riding home in a hired carriage in the evening, when, on passing a street near the Ras Beirut, a headband about three feet long and two inches wide, was thrown at him from the rear. The vice consul at once had the carriage stopped and a man got out to discover his assailant, but could see no one.

On the following day Mr. Magelsen went to the government office, where he met the Italian consul and the Austrian consul, who had come to complain about burglaries in their houses. The governor ordered an investigation of the attack on Mr. Magelsen, but the only result was the arrest of a young Christian who had attended a marriage on the previous night and in whose possession was found a toy pistol.

At the meeting of the board of directors of the Egyptian Gazette, the Egyptian consul general, who was staying in the mountains to the north of Beirut, was asked to investigate the matter. He refused to do so, and the board decided to petition the Egyptian government to force him to do so.

AT THURBER MINES MEN REMAIN OUT

THEY WANT BETTER SCALE AND ASK TO HAVE ARMED GUARDS REMOVED—THE POSTOFFICE IS FENCED AND MEN MUST GO IN ONE GATE AND OUT ANOTHER—BOTH SIDES WILL REMAIN FIRM

LYRA, Texas, Sept. 11.—The meeting of the miners yesterday, told in The Telegram, was held in a grove three miles from Lyra, half way between this place and Thurber. The Lyra mines were closed down, and the miners from here went to the grove to meet those coming over from Thurber. They numbered 257 strong.

At the meeting there were at least 150 men. National Organizer Wardson and C. W. Woodman used a buggy, and men to get with bearing, climbed trees and bunched up like sardines. The crowd was enthusiastic, earnest and determined. The English speaking people predominated.

There are 102 Mexicans, about 200 Italians and 120 Poles. The rest are Americans. The men demanded the right to organize, eight hours, increase of 20 cents a ton for coal, the dismissal of armed guards and rangers and the fence torn down.

The company has the postoffice fenced in and men must go in one at a time and march in one by one. We are told that non-violent strikers without permission of Captain Lightfoot, who is captain of the guards.

The stores are company property, says pay for once a month and the check system prevails. Shows a man by reason of accident or sickness, become idle, as soon as he has checked out all wages due, supplies are stopped. One dollar per month is collected from each miner for camp rent and the men have nothing to say in the selection.

One dollar per month is charged for men riding to and from work, and if one extra trip is made another dollar is charged. The charge for the houses the men live in are \$2 per month per room, and if a porch is added, 50 cents per month additional.

To Mine Employees.—In accordance with arrangements have been made to furnish strikers everything needed, and unless demands are granted soon men will be furnished to companies elsewhere. Mr. Wardson says he can place every man, one dollar per month, and the privilege of organizing being refused. They struck. It was a strike of non-union men to start with; now all are members.

COLOMBIA SENDS A GUN BOAT

The Bogota Is Ordered to Go to Panama—Preparing for Trouble

NEW YORK, Sept. 11.—The Colombian gunboat Bogota, which has been stationed at Buena Ventura for some time, has left there for this port, says a Panama dispatch to the Telegram.

The real object of the government in ordering the Bogota here is not known. It is thought she may be bringing a large number of Colombian troops as a precautionary measure with the idea that their presence may be desirable because of the feelings of the isthmians on the canal question. She is also may be coming for the political situation on the isthmus appears to be normal.

President Marroquin has left Bogota for a few days. He is expected to return about September 15.

In his opinion, would be willing to go to work at the prices offered by the company if they would not be interfered with.

"Did the demand for the recognition of the union enter into your refusal of the demands?" Mr. Gordon was asked.

"We did not get that far," he answered. "It was impossible for us to grant the scale demanded and we, therefore, did not reach the matter of recognizing the union."

The demand presented to Mr. Gordon on yesterday was as follows: "We, the duly authorized representatives of the employees of the above coal company, respectfully present the following demands: 1. Price of mining to be \$1.25 per ton of 2,000 pounds of coal to be mined on the same basis as heretofore. Cross entries \$1.50 per yard, corner entries \$1.50 per yard, back brushes \$1 per yard, straights 50 cents per yard.

2. The inside day wage to be as follows: Timbermen \$2.50 per day, track-layers \$2.50 per day, alarmon or ventilators \$1.50 per day, drivers \$2.25 per day, motor drivers \$2.25 per day, cagers \$2.25 per day, greasers and priggers \$1.50 per day, trappers \$1.50 per day.

3. Outside Day Work Scale.—Car trimmers and slate dumpers \$2 per day, slate pickers \$1.50 per day, blacksmiths \$2.75 per day. 4. Dinner \$1.00 per day, same as agreed to and paid in Arkansas and Indian Territory.

5. Eight hours to constitute a day's work.

6. That we be paid in full every two weeks.

7. We demand the right to organize into the United Mine Workers of America organization, and respectfully ask the Texas and Pacific Coal Company of Thurber to recognize said organization."

Mr. Gordon, general manager of the Texas and Pacific Coal Company, when questioned about the company's position.

"We offered this advance, thinking that we could double the output and thereby afford to cut our profit in two. Our proposition was to pay \$1.25 a ton straight and an increase in the wages of other employees, the whole amounting to about 34 1/2 per cent advance. The company cannot pay this scale. We are told that if we did not pay it they would tie up. If we should agree to pay it we would be tied up through bankruptcy, so we cannot pay this scale. We are told that in the fourteen years that this company has been in existence we have had no trouble with our men. Some of them belonged to the union, but we made no objection. When there was trouble elsewhere we permitted collections for relief to be taken up in the camp, and the company generally contributed fifty or seventy-five cents a ton less for our people during these years have been happy and prosperous. Some of them have saved considerable money and have deposits in the company bank; others have extra trips made another dollar in New York. Now the men have joined the union. The union leaders tell them to make this demand upon us. They say that the company will not pay the scale, as the advance will cost it nothing, since we can raise the price of coal on the railroads and the public. We cannot do this, however. We are forced to compete with the mines of Indian Territory and Alabama, where the veins are thicker and where, and which mines enjoy inter-state freight rates, often more favorable than those of the Texas railroad.

"These men will not believe that we are obliged to do business on an exceedingly close margin. Nevertheless, we are now getting 85 cents a ton less for our product than we received fourteen years ago, and yet the scale which we announced to take effect Oct. 1 was the same as the scale we paid at first."

"I am sure the company will never grant this demand; that it will go out of business first, as it cannot operate at such prices."

Mr. Gordon said that at Strawn the miners receive \$1.10 a ton and at Bridgeport \$1.25 a ton. The prices, he said, are really on a ton the same basis as that paid at Thurber, the difference being due primarily to the fact that the vein at Strawn is thinner, and more difficult to work than that at Thurber, while the vein at Bridgeport is still thinner. Besides the vein at Bridgeport is small and most of it is sold for commercial purposes to near-by points. The vein at Thurber runs from twenty-six to thirty inches in thickness.

Mr. Gordon says that about 900 men are affected by the strike. Many of the men,

in his opinion, would be willing to go to work at the prices offered by the company if they would not be interfered with.

"Did the demand for the recognition of the union enter into your refusal of the demands?" Mr. Gordon was asked.

"We did not get that far," he answered. "It was impossible for us to grant the scale demanded and we, therefore, did not reach the matter of recognizing the union."

TELLS COTTON WILL SETTLE IT

The Admiral Telegraphs From Beirut That the Acting Governor General Is Anxious to Satisfy Uncle Sam

BEIRUT NOW QUIET; BUSINESS IMPROVES

Details of Firing Upon American Vice Consul Received Through New Sources—The Admiral Says Confidence Is Once More Being Restored

WASHINGTON, Sept. 11.—The following bulletin was posted at the navy department today:

Admiral Cotton telegraphs from Beirut, under date September 10, that the governor general of Damascus is appointed acting governor general of Beirut and that he expressed a desire to settle the case of the American vice consul satisfactorily to the United States government. Beirut is quiet, business is improving and confidence is increasing.

CAUSE OF THE OUTBREAK

A Christian Stabbed—Trouble Brewing in Three Cities

PARIS, Sept. 11.—A dispatch to the Temps from Constantinople, giving additional details of the outbreak at Beirut, says that when the soldiers and police sought to stop the encounter between the Muslims and the Christians, which occurred near the orthodox church, the fighting became general and resulted in thirty persons being killed or wounded. The soldiers lost one man killed and had three wounded.

The trouble, the correspondent of the Temps adds, began on the evening of Sept. 5, when three Christians were assaulted in the street, and continued on Sunday night, when a Christian was stabbed with a poniard by a Mussulman before the Italian consulate.

Official advices here give brief details of the outbreak at Beirut. The killed, according to these dispatches, number five or six, and many persons were wounded. The city is in an intense state of agitation.

The outbreak occurred on the night of Sept. 4 between Christians and Mussulmans. The fighting was furious, firearms and knives being used. The Italian consul rescued one Christian who had been stabbed, but had fallen in front of the door of the consulate.

The news has caused much apprehension in official quarters, as being an indication of a general insurrection in the Turkish empire. The presence of the United States cruisers Brooklyn and San Francisco at Beirut is regarded as a fortunate circumstance. It is expected that a number of other foreign warships will gather there.

The official reports further show that Beirut is one of three places which are quiet in the east of the Mediterranean. Smyrna, which hitherto had been comparatively quiet, is on the eve of an outbreak. Great excitement prevails there. The anti-union excitement in the city of Beirut, they are in constant fear of an outbreak, but they have been able thus far to prevent an encounter between the Christians and Mussulmans.

The Salonica advices are also again disquieting. It is expected that a general revolt in the province of Salonica will occur next weeks. It is the understanding of the foreign officials at Salonica that a general insurrection will be announced by the Macedonian committee. In view of this expectation, rigid police measures have been taken by the wali.

REVOLUTION IS FANNING

SALONICA, Wednesday, Sept. 10.—The police authorities, acting upon information received yesterday from the Turkish minister at Belgrade, have telegraphed to the wali of Kosovo, instructing him to guard the Serbian frontier more carefully, because the Serbian revolutionary committee was holding meetings at many places, organizing bands, distributing bombs and explaining the method of using them.

RECAPTURES VASILIO

CONSTANTINOPLE, Sept. 11.—An official dispatch received here announces that the imperial troops recaptured Vasilio on Sunday last.

HERRERA VS. McCLELLAND

FORTLAND, Oregon, Sept. 11.—The fight between Aurelia Herrera, the Mexican fighter, and Jack McClelland, the Pittsburg featherweight, which is scheduled for decision tonight, before the Pittsburg Athletic Club, is attracting much attention in sporting circles. The articles of agreement call for a twenty-round contest at 128 pounds.

Herrera has improved in the last shown great improvement in the last year and is expected to put up a good fight to win the decision over the Pittsburg boy. Both men appear to be in good condition for the go.

This plan has been outlined by Mrs. George M. Moulton, president of the commission, after seeing the popularity of the milk distribution among the pupils of the Thomas Hoyle school, where the pasteurizing plant was located.

The water has been shut off from the building while some repairs have been in progress. The thirty children were offered the pure milk at a cent a bottle, and more than 400 three-ounce bottles were taken the course of the day.

Many plans have been suggested to provide pure water in the schools. Last winter it was proposed to have plants put in to boil the water, and filters have been recommended. All reforms thus far advocated have been discontinued because of the expense.

Distribution of General Merchandise Is Quite Active, Notably So at New York, Boston, St. Louis, Chicago

GRAIN DELIVERIES ARE REPORTED LATE

This Checks Jobbers in Northwest—Fall Outlook in the East Is Excellent—Curtailment of Anthracite Output Predicted

NEW YORK, Sept. 11.—Telegraphic reports from correspondents of the International Mercantile Agency throughout the United States on the state of trade, are summarized as follows:

Distribution of general merchandise, on the whole, is quite active, notably so at New York, St. Louis, Boston and Chicago. Jobbers in the northwest are checked by late grain deliveries. Dry goods and clothing are most active at Baltimore, resting confidence at the south. The like is true in New England. Fall outlook at the east is excellent. Chicago dealers in implements, furniture, hardware and wearing apparel report gains in orders. Influx of country buyers into St. Louis stimulates dry goods and

FACTS ABOUT THE FASTEST GROWING CITY IN TEXAS

YOUNGEST BUT MOST VIGOROUS AND HEALTHFUL OF THE LEADING CITIES OF LONE STAR STATE MAKES SHOWING OF ITS STRENGTH—MOST ESSENTIALLY AMERICAN CITY OF ITS SIZE.

In view of the forthcoming Free Fall Festival, it will be interesting for intending visitors to know something about the city of Fort Worth. The Telegram has prepared some facts and figures with regard to this city, which will prove interesting not only to those residing outside the city, but to those who live here.

Fort Worth possesses the purest water in the world. It is artesian and is obtained by a tunnel system from 900 feet below the earth's surface. Fort Worth is situated on a high bluff overlooking the beautiful Trinity river, the West and Clear forks of which converge at this city.

Statistics show that Fort Worth, in proportion to population, is the second healthiest city in the world, and the introduction of artesian water is certain to become the most healthful. Although young in comparison with other leading Texas cities, Fort Worth is rapidly overcoming the advantages its rivals had by reason of their earlier starts.

Four railroad machine shops. Bank deposits over \$5,000,000. Annual business \$20,000,000. A \$100,000 steel viaduct across the Texas and Pacific reservation.

THE LATEST IN RAILROAD NEWS. The statement published this morning that D. E. Keeler, vice president and traffic manager of the Fort Worth and Denver City, had been offered the position of traffic manager of the Houston and West Texas Central and Houston East and West Texas Central, caused considerable stir in local railroad circles.

Mr. Keeler is considered a fixture in the official family of the popular Denver road, the reference made in the Houston report that he was "in the line" among the officials of the road, is an injustice to Mr. Keeler, when nothing of the sort exists or ever has existed.

From a reliable source The Telegram learns that perfect harmony prevails between Mr. Keeler and other high officials of the company and the statement to the contrary is without warrant, and shows venom on the part of some one. Recent appointments, the report states, have brought about a bad feeling among some of the Denver officials. This statement The Telegram also learns is untrue, as the addition of recent boards of directors is perfectly satisfactory to all Denver officials.

Mr. Keeler's visit to Chicago was not, as stated, for the purpose of attending President Frank Trumbull of the Denver road, but for the purpose of attending a general conference of traffic managers of western and northwestern lines west of the Mississippi river.

There has been a conference of the heads of the different lines comprising the Gould system in St. Louis, the meeting having been called by Vice President A. C. Bird. There were present besides Mr. Bird, Vice Presidents and General Managers Russell Harding of the Missouri Pacific, L. S. Thorne of the Texas and Pacific and Leroy T. Bird of the International and Great Northern; Assistant General Manager Everman of the Texas and Pacific; J. M. Johnson, assistant to Vice President Bird, and the officials of the Gould traffic and transportation departments.

Mr. Bird accompanied by several of the Gould traffic managers, by his way south and will probably arrive in Fort Worth in a few days.

The coming of Mr. Bird to Texas, the second time within the past two months, is considered significant in railroad circles and may have to do with the extension of the International and Great Northern from Fort Worth to Wagoner, I. T., at which point a connection with the Missouri Pacific could be had.

The Gould lines in Texas have been very anxious to reach the coal field of the Indian Territory, and the matter of extending the International is not an unreasonable proposition.

MADISON BRANCH OPEN. The Madison branch of the International and Great Northern has been completed and will be formally opened for traffic September 22.

From Fort Worth to Madisonville is 268 miles. The management of the International is arranging for a great time on the beginning of service on this branch and has issued circular giving distances from Madisonville to other points on the line.

COMPROMISED SUITS. The Galveston, Harrisburg and San Antonio has settled damage suits with three of the stevedores of the La Crosse week, by paying an agreed judgment.

TRAGEDY AVERTED. "Just in the nick of time our little boy was saved," writes Mrs. W. Watkins of Pleasant City, Ohio. Her husband had played sad havoc with him and a terrible cough set in besides. Doctors treated him, but he grew worse every day. At length he died. Dr. King's New Discovery for Consumption and our darling was saved. He's now sound and well. Every body ought to know it's the only sure cure for Coughs, Colds and all Lung diseases. Guaranteed by J. W. Fisher's drug store and Rexter Pharmacy. Price 50c and \$1. Trial bottles free.

DISTRESS AFTER EATING. Judge W. T. Holland of Greensburg, La., who is well and favorably known, says: "Two years ago I suffered greatly from indigestion. After eating great quantities of food I would be sick for an hour or so, and my nights were restless. I concluded to try Kodol Dyspepsia Cure and it cured me entirely. Now my food is refreshing and digestion perfect." Sold by druggists.

WORK OF EACH CLERK

New Railway Mail Service Order Requires Close Reports.

The following notes are gleaned from the weekly general order of the eleventh division railway mail service, issued today.

Hereafter clerks in charge will show separately on trip reports, the amount of mail worked by each individual clerk in the crew.

There seems to be a misunderstanding on the part of some postal clerks concerning the way in which runs should be protected when the regular order of runs is interrupted for any cause, such as washouts on the road, etc. In the absence of specific instructions, clerks should take up their runs in the order of first in, first out; that is, the clerk arriving first at either terminal of the run will be due out first, clerk next arriving terminal next after him will follow, and so on.

A clerk of class 3, this division, was suspended indefinitely, or until he makes a satisfactory case, examination. Said suspension was in effect from July 24 to August 24, 1903, inclusive.

POSTOFFICES ESTABLISHED. Indian Territory—Schuler, Creek Nation.

Oklahoma—Trammell, Roger Mills county; Wentworth, Beaver county. Texas—Gist, Uphur county; Sunshine, Nueces county.

NAME CHANGES. Oklahoma—Trotter, Greer county, to Vinson.

Texas—Hawley, Matagorda county, to Blessing.

DISCONTINUED. Indian Territory—Vickers, Creek Nation.

Oklahoma—Golden, Custer county. Texas—Ethel, Grayson county; state mail for this discontinued office superseded by rural free delivery from Collinsville, Kansas, Kansas county; state mail for this discontinued office superseded by rural free delivery from Forney, Garza, Hall county.

FAST FREIGHT RUN. A fast freight run has just been made over the Colorado and Southern to Fort Worth, and thence to Houston over the Houston and Texas Central, which is a record breaker. It was made in eighty-four hours.

A car loaded with vegetables started from Fort Collins, 100 miles north of Denver and was rushed through to Houston over the above lines, making the 1,200 miles in the time noted above, which would be considered a creditable run for a passenger train.

J. C. WILSON RESIGNS. J. C. Wilson, who has been private secretary to Superintendent Spilney of the Pullman Company in Fort Worth, some time ago tendered his resignation, effective at once. He is to be succeeded by Will Hoelle, who has been connected with the local Pullman office some time.

Mr. Wilson resigned to accept a more lucrative position.

TRANSFER OF A CONCESSION. The Southern Pacific has just secured a concession from the state government, which was originally given the promoters of the Cananua, Yaqui River and Pacific railway, which will permit the construction of a road 300 miles in length from a point on the Arizona border to the mouth of the Yaqui river in Mexico.

The following offices in Texas to be superseded by rural free delivery: Annetta, Wise county; Mays, Wise county; Chambliss, Collin county; Jellico, Tarrant county; Rhymer, Collin county.

A PIONEER OF FORT WORTH. One of the unique characters of Fort Worth is William Sanderson, who is the guest of Clint Barr, corner of Crawford and Ireland streets, accompanied by his aged wife. Mr. Sanderson is one of the pioneers of this city and once owned what is known as Glenwood addition, which he sold to Mr. Vickery several years ago, after which he removed to the Panhandle, where he made his home until recently, when he removed to Fort Worth and will at once build a home in Glenwood addition. He expects to make this city his future home.

THE END OF A FAMILY IS INVOLVED IN THE DEATH OF SUSAN SCHENK IN THE KINGS PARK INSANE ASYLUM, AT HEMPSTEAD, L. I., WEDNESDAY, PENILESS AND FRIENDLESS. Her brother Selah, who was once a prosperous lawyer, is now in the home for aged men at St. Johnland, 84 years old, and in the same destitute condition as his sister, who was only 71. Neither of them had married. They were wealthy only a few years ago, but sudden misfortunes in investment swept away their fortune.

THE GENUINE VS. COUNTERFEITS. The genuine is always better than a counterfeit, but the truth of this statement is never more forcibly realized or more thoroughly appreciated than when you compare the genuine De Witt's Witch Hazel Salve with the many counterfeits and worthless substitutes that are on the market.

W. S. Ledbetter of Singapore, La., says: "After using numerous other remedies without benefit, one box of De Witt's Witch Hazel Salve cured me." For blind, bleeding, itching and protruding piles no remedy is equal to De Witt's Witch Hazel Salve. Sold by druggists.

MARKET STILL STATIONARY

Receipts of Cattle Light—Receipts of Hogs Approach the High Mark for July

NORTH FORT WORTH, Sept. 11.—The cattle market was stationary today with light receipts, less than 500 head being on hand at the opening.

Things are beginning to look up in the hog division and receipts of 654 head this morning were the heaviest since July 13, when total receipts were 762. The market was active and strong and the packers paid as high as \$3.74 for the tops, though there were no outside buyers on hand to force the market.

STOCK YARDS NOTES

J. K. Rosson, of Campbell & Rosson, has returned from a business trip to St. Louis.

W. L. McLaughy, of the Panhandle Commission Company, went to Denison today where he will deliver an address at the fair now being held there.

Secretary O. W. Matthews of the Fort Worth Stock Yards Company, went to Denison this morning to spend a couple of days at the fair.

C. H. Robinson, the well known cattleman of Odessa, was a visitor at the yards today.

Sanson & Company bought a number of steers for feeders yesterday, one lot of twenty-five averaging 847 pounds, and fetching \$2.75.

F. J. Hovenkamp sent sixteen head of his short-horn to the Deason fair today to capture some of the premiums offered there.

The shipment of the Harburt Hardware Company of that place, to R. T. Davis of Marietta, I. T., who came in with a shipment of seventeen cows today, said they had a splendid lot of cows, which they had bought and the country will be much benefited as a result.

Max Mullins of Purcell, I. T., was at the yards today, coming down with a lot of cows from M. E. Parnell of Purcell.

At the meeting of the Fort Worth Live Stock Exchange held yesterday afternoon, a committee composed of O. W. Matthews, Sterling P. Clark and W. L. McLaughy was appointed to confer with M. Sanson, Jake Washer and Robert Flournoy of the Fort Worth Board of Trade to arrange for details in connection with the Fort Worth Fat Stock Show to be held during the cattlemen's convention next March.

Resolutions were also passed at yesterday's meeting inviting the members of the National Live Stock Exchange to hold their next session in this city. The headquarters of the Nonomac Exchange are in Chicago and the last national meeting was in Philadelphia.

The wool growers in the vicinity of North Yakima, Wash., have practically completed their shearing for the season, the last one being sent last week, amounting to 100,000 pounds. Washington sheep produce the heaviest fleeces of any in the country, those of Oregon the average weight of the Washington fleeces being 8.50 pound. The average fleece of a southern sheep is about four pounds. The clip from Washington this year amounted to 10,000,000, the heaviest ever made in the state.

A peaceful settlement of the new stock yards was made at Chicago, whereby about 20,000 employees will receive a 10 per cent advance, has been reached and the packers will grant the men's demands.

Sifting down the reports of grasshopper ravages in Montana, Oregon and Idaho, barbed-wire fences eaten by the voracious insects to the modest tales of damage to grass and forage crops, it would seem to follow that in many sections of the state small ranch owners will be compelled to sell their stuff this fall for lack of food to keep cattle through the winter. Big outfits which can move from one range to another, will not be such heavy sufferers.

NORTH SIDE AND ROSEN HEIGHTS

Nash Furniture Company.

Father Campbell of Tyler is the guest of H. A. Mulholland, and is here in the interest of the organization of a Catholic church for the north side. There are about twenty Catholic families on the north side, besides a number of individual members, and arrangements are being made for the erection of a church, to be built on Boulevard avenue and Twelfth street. The work on the new structure will commence in a short time and until it is completed Father Campbell will make his home at the Hotel In. On September 30, at the residence of William Mink, the priest will celebrate mass, at which time two babies will be christened.

RAIN FORECAST FOR TOMORROW

Scattered showers fell over portions of the south and east Texas district, and in Arkansas, with heavy local showers at a few stations as follows: Greenville, Texas, 2.20; San Antonio, 1.56; Brinkley, Ark., 1.95. Considerable cloudiness prevails this morning and in Texas, but brisk southerly winds.

The showers which have been promised for the last two evenings are still due. Forecaster Reeder does not expect a downpour now until Saturday. His remarks on the weather this morning are as follows:

Tonight and Saturday, partly cloudy weather; probably showers Saturday. No important change in temperatures. For Texas east of the one-hundredth meridian: North, tonight, increasing cloudiness, probably showers in west portion. Saturday, probably showers, cooler in west portion. South, tonight and Saturday, partly cloudy weather, probably showers Saturday in the west portion.

A storm of considerable energy is central in Utah this morning, having an eastward movement. This storm is noticeable for being the first early winter type. The results so far are high winds over the Rocky Mountain region, with snow falling in Wyoming this morning.

Showers fell yesterday at a few stations in the southern and eastern portions of the Texas coast, the heaviest reported fall at Greenville and San Antonio—2.20 and 1.56 inches, respectively. Elsewhere the changes were slight and unimportant.

More or less cloudiness will prevail in Fort Worth vicinity, with a probability of showers during Saturday or the following night.

SHE WILL ORGANIZE WOMAN'S LABEL LEAGUE

Mrs. Emma Lanphere, national organizer of the Retail Clerks Protective Union is in the city, a guest at the Delaware. When asked regarding the labor situation and union strength in this city she said, "I find that the clerks in this city are better paid than those of almost any city in the country with the exception of those in some of the extreme Western cities."

In speaking to The Telegram of the present Saturday night closing, she said that in most cities, especially in the North where labor is better organized and unionism recognized, the stores closed on Saturday evenings at the regular time and instead of half day doing their trading on Saturday evening they were given a half holiday during the week, usually on Saturday afternoon, which gave them ample time to do all buying they wished to do for the week.

THE POLICE IN POLITICS

The duty of a police officer should be performed so faithfully that the change of commissions should not affect him. Am I, gentlemen, to infer by this dissatisfaction, these reports of disorganization, that you are partisan in such a matter—that some of you are for the old commissioner, some for the new?

"No, in my opinion, should feel the least embarrassment attending the change. The nervousness growing out of such a change has, I feel, had result that a part, at least, of the police force has aligned itself on one side or the other of the late controversy."

"If I should be here for another term, and I should hear that any officer of this police force had been circulating a petition for my reappointment, that man's resignation could be in my hands quick enough. I want you to separate your duty as officers from all such questions so far as possible even in such things. A policeman is an officer of all the people—not of a faction. His duties should have been kept so faithfully and so honestly performed that all good men would insist that he be retained should he be contemplating that he be dismissed. His skirts should be kept so clean, so absolutely clear of any partisanship, that the will of the people would be brought into play to assist that he remain a member of the force."

The above remarks were made by Police Commissioner Blaylock of Dallas, in an address to the police force of that city. It is an indication of his policy in the management of police affairs, and shows that politics are to have no place in matters affecting that important branch of municipal affairs. It would be better for the entire state if such a policy could be enforced in every city. It happens every year there is a political campaign, that men wearing the uniform of the police departments of the various cities, join in partisan fights, feeling that if certain men are removed from office that positions will pay the forfeit. As Commissioner Blaylock says, there should be no such partisanship. Officers are employed by the city to preserve the peace, protect the person and property and serve all alike. Good officers should not be required to participate in campaigns, that their positions should be secure, and it is no credit to a police officer, a police chief or a police commissioner that unformed officers of all the people should be forced to the front with campaign schemes or petitions to keep the superior in office, thus making sure the "job" of the man who is engaged in the "ward heeling." Too much politics will ruin any police force, and from all sections of the state the same edict should go forth. Let the words of the police commissioner of Dallas be taken as a text, and let it be that in every city the officers be required only to do their duty as officers, leaving politics to politicians. The Telegram does not wish to interfere with the personal liberty of any man in the exercise of his right of suffrage. That cannot be abridged. The policeman has the same right to a vote and an expression of opinion as the banker, the lawyer, the merchant or the railroad ticket agent. But in expressing himself and casting his vote he should do so without participating in the scramble for the votes for one faction or the other. It happened some months ago in Austin, when the municipal election was on, that charges were made that members of the police force were gathering up poll tax receipts, that they might be used to run voters through the booths. In the interest of some candidates whom the members of the force desired to see retained in office. It was a disgrace. Let such ruling as that made by Commissioner Blaylock of Dallas be made everywhere and elections will be free from the taint of police interference.

THE INDIAN TERRITORY

While the president and members of congress are discussing financial affairs, and the suggestion of an extra session of congress is being heard, it might be well to suggest that from reports received from the Indian Territory, there is every indication that the situation there justifies an extra session of congress, to deal with that matter alone, if no other. The Telegram has taken occasion lately to discuss affairs in the territory, but whatever discussion is being made by the newspapers is without full information on the subject. Everything can not be learned, because too many wires have been laid by those who are involved in

the conditions affecting that country.

Up to the present time it has not been generally known that there was in the very heart of the nation a land inhabited by 500,000 American citizens ruled without even a semblance of a republican form of government. But now the people are aware of the Indian Territory which is being done, and so Indian Territory affairs will in all probability be one of the principal subjects for discussion and action in congress this coming winter.

The time, therefore, is ripe, says the Kansas City Journal, for taking the steps urged in the call which has been issued in the five tribes for holding a delegate convention at South McAlester next month. Should this convention be as well attended as it ought to be, and if the delegates assembled formulate a statesmanlike petition, calmly setting forth the import facts, showing the wrongs which are done and the rights denied them, there is little doubt that congress will act thereupon in some way which will bring order and system to the government in Indian Territory. This petition should be so worded that it will appeal not only to congress, but to the country at large. It ought to be a document of facts and not of rhetoric.

The people should be told that there are no free schools and asylums in the territory, nor public institutions of any sort; that there are no roads, no bridges, no police protection, no system of taxation, and no freedom; that order has been maintained simply by the peaceful spirit and voluntary submission of the inhabitants; that these inhabitants unaided have done their best to educate their children, to care for their insane and indigent, and to restrain the criminal elements; that this burden now, on account of the great increase of population, has become unbearable, and that the only redress lies with congress, and that great harm will result from further delay.

There should be no more reliance placed in agents, inspectors and commissioners. The day of their power and trustworthiness has passed. If anything is to be done in the nature of reform the people must act for themselves. A territorial government, or at least a delegate to congress, should be demanded. With the weight of recent disclosures back of it, there can be but little doubt that such a demand would either be granted or open the way to betterment in the conditions of Indian Territory.

Let us all hope that the report that Hog and Bailey are friends is untrue. With the two bosses at outs, the people will have a chance now and then to find out something, but if there is a political trust formed by the two leaders it will be disastrous to Texas.

Chairman J. F. Henderson of the police committee is going at the thing right. He wants every person with a complaint against the police department to come before the committee tomorrow morning and state all grievances. The investigation of the department is to be thorough.

President Roosevelt will be busy when the campaign opens. He will be called on to explain postal frauds, Indian Territory frauds, other frauds and then some more.

Is it not possible for the people to dissolve the political trust which has been selecting men for state offices for so long?

What does the Waco Times-Herald think of the reported friendship of Hog and Bailey, and what would the Times-Herald do under such circumstances?

FOND OF A JOKE

Dr. Chapin, the late alienist, was very fond of his joke and he used to tell the following story with great delight: "He was personally conducting a young and beautiful woman from her home to his private institution when a young physician who was known to him entered the parlor car. The young woman patient was of the quiet order, and her malady was not noticeable to the uniformed, save when certain subjects were touched upon. On the other hand, the young physician who joined them on the car regarded himself as a pronounced lady killer. Dr. Chapin introduced them and after directing the conversation for a moment or two, excused himself to smoke a cigar. When he returned his friend called him aside and whispered: "Chapin, do you know I believe that young woman is crazy?" "God heavens!" exclaimed the alienist. "What makes you think that?" "Why, this: I happened to remark upon what a fine man you are, whereupon she replied: 'Well, he ought to be. He's the only really sane man in the universe—at least that is his opinion.'"

CHAPTER XIX. MR. SHELF'S LITTLE SURPRISE.

Mr. Theodore Shelf had reached the end of his tether, and like a shrewd business man he knew it. There is a certain mad excitement in standing on a high ledge of an iceberg when the steps which you have clambered up by have splintered away and the hundred foot cliffs above are threatening every instant to descend in crashing avalanche. You know you have to jump into the cold water below or be crushed out of existence, and lingering to the very last second is not without its fierce pleasure. The dive is chilly, the waters beneath unknown, final escape most hazardous. But it is not these things which stay you, it is the nearness of the end, and that is fascinating beyond all words. Mr. Shelf was in a similar position. He knew that his commercial ledge was growing more and more dangerous every minute by reason of the law of the land which loomed above him, and yet for the life of him he could not tear himself away. He had waited for him that snug hacienda on the banks of the Rio Paraguay which he had time before made ready against a possible cataclysm, but it was not to be. The law of the land in London was meat and drink to him. His derring would be spoken about afterward, and though he might not be blessed, it is true, still he would not be forgotten. That last was perhaps the chief reason which made him stay on. The only of the man was colossal. He had been tickled by the improving young men, he had been tickled in his tabernacle, he had been tickled by a parliamentary constituency, but these did not gut him. He never more, for more and if he could not distinguish himself in the way his wife had hoped he would at least be famous in his fall. He had a scheme, too, in his waiting of taking a vengeance on his same wife who had made it necessary for him to fall at all. Without her wild extravagance he would have been able to weather the commercial depression which had weighed him down, but she had scoffed at warnings and berated the muster roll of her guests and fed them on bank notes. What this scheme was he confided to no one but George, and George did not split. George hated Mrs. Shelf to the extent of showing ivory whenever she was near him. "Whenever," said Mr. Shelf at the conclusion of one of these grim confidences, "I shall be a lonely man." And George poked out there with me. "And George poked a cold black nose into Mr. Shelf's hand and said that he should be vastly disappointed if he was left behind. Now, Mr. Theodore Shelf intended to have his vengeance on the night of a ball which his wife was going to give, and which for sheer gorgeousness and distinguished assembly was to rival by far all her previous efforts, and he was quite satisfied in his own mind that the action would be entirely justifiable. Still he was a man with natural affections. He was extremely fond of his ward, Amy Rivers, even though through the old-fashioned wooden headedness of his cotrustee he did not have the actual handling of a penny of her money. The cotrustee was a lawyer with an admiration for a 4 per cent corporation stock, and he insisted on Miss Rivers' fortune staying in these and showed cause why the script should remain in his own office safe. The money tempted Theodore Shelf to the sin of covetousness, and he could not have made such excellent use of it—but to the man's credit be it said he never visited his irritation on his ward. Indeed he was only known to be disagreeable to her once, and that once was the last time he and she had speech together, and what he said was entirely to her interest and without any profit to himself. It was on the morning of the great ball, and he called her to him in his study, and asked if Fairfax

The money tempted Theodore Shelf to the sin of covetousness, and he could not have made such excellent use of it—but to the man's credit be it said he never visited his irritation on his ward. Indeed he was only known to be disagreeable to her once, and that once was the last time he and she had speech together, and what he said was entirely to her interest and without any profit to himself. It was on the morning of the great ball, and he called her to him in his study, and asked if Fairfax

CHAPTER XIX. MR. SHELF'S LITTLE SURPRISE.

Mr. Theodore Shelf had reached the end of his tether, and like a shrewd business man he knew it. There is a certain mad excitement in standing on a high ledge of an iceberg when the steps which you have clambered up by have splintered away and the hundred foot cliffs above are threatening every instant to descend in crashing avalanche. You know you have to jump into the cold water below or be crushed out of existence, and lingering to the very last second is not without its fierce pleasure. The dive is chilly, the waters beneath unknown, final escape most hazardous. But it is not these things which stay you, it is the nearness of the end, and that is fascinating beyond all words. Mr. Shelf was in a similar position. He knew that his commercial ledge was growing more and more dangerous every minute by reason of the law of the land which loomed above him, and yet for the life of him he could not tear himself away. He had waited for him that snug hacienda on the banks of the Rio Paraguay which he had time before made ready against a possible cataclysm, but it was not to be. The law of the land in London was meat and drink to him. His derring would be spoken about afterward, and though he might not be blessed, it is true, still he would not be forgotten. That last was perhaps the chief reason which made him stay on. The only of the man was colossal. He had been tickled by the improving young men, he had been tickled in his tabernacle, he had been tickled by a parliamentary constituency, but these did not gut him. He never more, for more and if he could not distinguish himself in the way his wife had hoped he would at least be famous in his fall. He had a scheme, too, in his waiting of taking a vengeance on his same wife who had made it necessary for him to fall at all. Without her wild extravagance he would have been able to weather the commercial depression which had weighed him down, but she had scoffed at warnings and berated the muster roll of her guests and fed them on bank notes. What this scheme was he confided to no one but George, and George did not split. George hated Mrs. Shelf to the extent of showing ivory whenever she was near him. "Whenever," said Mr. Shelf at the conclusion of one of these grim confidences, "I shall be a lonely man." And George poked out there with me. "And George poked a cold black nose into Mr. Shelf's hand and said that he should be vastly disappointed if he was left behind. Now, Mr. Theodore Shelf intended to have his vengeance on the night of a ball which his wife was going to give, and which for sheer gorgeousness and distinguished assembly was to rival by far all her previous efforts, and he was quite satisfied in his own mind that the action would be entirely justifiable. Still he was a man with natural affections. He was extremely fond of his ward, Amy Rivers, even though through the old-fashioned wooden headedness of his cotrustee he did not have the actual handling of a penny of her money. The cotrustee was a lawyer with an admiration for a 4 per cent corporation stock, and he insisted on Miss Rivers' fortune staying in these and showed cause why the script should remain in his own office safe. Revealed as an Escaped Convict After Twenty Years of Mental Torture. C. F. Kelley, alias Felix Daly, who has just been returned to the Mississippi penitentiary from Birmingham, Ala., to complete his sentence, interrupted by an escape from the penitentiary twenty years ago, tells a remarkable story of remorse and inability to keep a secret.

HIS IDEA OF CHICAGO

Miss Gladys Deacon has been repeating of late, with considerable scorn, the characterization of Chicago that an Englishman recently made for her. "Of course," said Miss Deacon, "the Englishman was wrong, but he was rather amusing. He said: 'There are two classes in Chicago, the aristocrats and the common people. The common people are those who kill pigs. The aristocrats are those whose fathers killed pigs. Catch on, pork anywhere in Chicago and they all bristle up.'"

The common people are those who kill pigs. The aristocrats are those whose fathers killed pigs. Catch on, pork anywhere in Chicago and they all bristle up.'"

everyone he met and finally told his story to a man who investigated it, found it true and communicated the facts to the Mississippi penitentiary authorities. Daly was rearrrested, greatly to the surprise of his family, and taken back to the penitentiary. He made no denial, but confessed his identity at once and expressed great relief that the secret was off his mind.

"It has kept me in a condition of nervous excitement for the entire twenty years," said Daly. "Every day I expected the officers to come and arrest me. Every day I felt that I ought to confess to the authorities that I was an escaped convict and go back to the penitentiary and complete my term."

"I was twice in the Alabama state asylum at Tuscaloosa, for insanity, but when released was apparently as sane as anyone else, although a physical wreck and with his nerves unstrung."

"Daly was convicted of assault with intent to murder William E. Smith. The crime was committed in Moss Point, Miss., in 1879. He was convicted on May 26, 1881, and sentenced to the penitentiary for five years. He escaped on Jan. 9, 1882, after serving a little more than a year and a half. There was no trouble about the escape, but Daly never got over it."

"It is probable that he will be pardoned, as he has suffered during his twenty years of freedom more than 16 he had been confined all the time, and he is such a physical and nervous wreck that he could not possibly be of any service out of the remaining three and a half years of imprisonment he owes the state. Indeed, it would take a very short time in the penitentiary to kill him."

"Nobby, new goods; low prices. Open Wednesday night. W. S. Matney, tailor."

THE BISHOP REPLIES

Rear Admiral Charles S. Cotton sat one evening at a dinner party beside the bishop of Durham, a clergyman noted for his wit. Near the bishop was a millionaire manufacturer, a stout man with a loud, coarse laugh, who ate and drank a good deal. One of this man's jokes was leveled at the brilliant bishop of Durham, whom he did not know from Adam. It was enough for him that the bishop's garb was clerical. "I have three sons," he began in a loud tone, nudging his neighbor and winking. "The first is the bishop, 'three fine lads. They are in trade. I had always said that I ever had a stupid son I'd make a parson of him.'"

The millionaire roared out his discordant laugh, and the bishop said to him with a quiet smile: "Your father thought differently from you, eh?"

Dr. J. W. Russey's Reply to Judge B. R. Webb at Confederate Park Yesterday Brings About Scene

THE INCIDENT STIRS THE ENTIRE CAMP

Dr. Russey Declares He Is An Unreconstructed Rebel and Says Things About American Flag and Government Aroused by Webb's Views

An incident which was not on the program occurred at Confederate Park yesterday afternoon when Judge B. R. Webb of Fort Worth was in the midst of an eloquent speech.

When Judge Webb concluded, Dr. J. W. Russey mounted the platform. Dr. Russey was hot. He said he was opposed to young men who knew nothing about the war getting up and talking about the glorious government.

W. P. Lane also was down for an address. It was late when his name was reached and he said he would postpone his speech until today when he would have something to say in regard to Judge Webb's speech.

JUDGE WEBB'S SPEECH The speech of Judge Webb, which led to the excitement, was in the main, as follows: "I am glad to see that after congratulating the gallant old Confederate soldiers upon the blessing of a long life which permitted them to enjoy the happy occasion and rejoice here with their children and friends over the greatness and prosperity of the beloved country, and upon the fact that instead of the rude alarms of war they now heard the laughter of happy children and the songs of joy, Judge Webb entered upon a discussion of the nature and character of the war from a constitutional standpoint, first premising that in its ultimate the South had relatively derived more benefit from it than had the North.

Dr. Russey said that the world's opinion. The civil war was but an incident, and a necessary one, in the establishment and perfecting of this great constitutional government with which we are blessed. It grew out of a defect in the national compact which was unavoidable—the failure to more clearly define the respective rights of the states and the federal government.

But it was worth all that the war cost and more to have the question settled as it was settled, because of the many practical advantages in having one great united country, with the best government the world ever saw, and a large majority of the Southern people were now, in the speaker's judgment, heartily in favor of its remaining settled as it was, since the surrender of the seceding states involved more than compensated in the results therefrom. The war also, as an incidental result, served to abolish slavery and remove its incubus upon the industrial development of the South, and to give us a larger representation in the

IT SAVED HIS LEG

A PASSENGER MAN GETS A PROMOTION

W. A. Tuley, who was made general manager of the passenger department of the Frisco in the state, has just received a deserved promotion and will leave Dallas tomorrow for Wichita, Kan., to take charge of the business of division passenger agent of the Frisco at that point, which will be his headquarters from tomorrow.

national congress, and the speaker believed that Henry Grady voiced the sentiment of the Southern people when he said he was glad that slavery had been forever swept from American soil. The speaker declared the civil war to have been the greatest of ancient or modern times, the grandest drama ever enacted on the stage of human action, and prophesied that the day would yet come when the portrait of Lee would be cheerfully given a place in the gallery of the nation's great men.

BISHOP TUTTLE IS NEW HEAD

Becomes Presiding Bishop of Church Through Death of Bishop Clarke

NEW YORK, Sept. 11.—By the death of the Right Rev. Thomas Marsh Clark, bishop of Rhode Island, the Right Rev. Daniel Sylvester Tuttle of Missouri has become the presiding bishop of the Protestant Episcopal church in America. The success of Bishop Tuttle to the primary is by virtue of his seniority in the hierarchy of the church, having been consecrated a bishop thirty-five years ago.

G. W. BEAVERS ENDS THE SEIGE

NEW YORK, Sept. 11.—George W. Beavers, former head of the department of salaries and allowance, postoffice department, was arraigned before U. S. Commissioner Hitchcock in the federal building today on a bench warrant issued in Washington, charging conspiracy to defraud the government. Beavers furnished bond of \$5,000 for appearance Sept. 15. Beavers was recently arraigned on an indictment returned by the federal grand jury in Brooklyn.

DR. WILSON TO GIVE LECTURE

He Will Talk for the Benefit of the Charity Fund of Lee Camp

Adjutant W. M. McConnell of R. E. Lee camp, United Confederate Veterans, said today that arrangements have been completed for the coming address to be delivered in Fort Worth by Rev. Homer P. Wilson for the benefit of the fund for the indigent members of the camp. The speech is to be delivered at the Christian Tabernacle on the night of September 25, and will be an event of much interest to the members of the camp.
