TAMMANY IS TRIUMPHANT IN NEW YORK

George B. McClellan Elected Mayor by a Plurality of 70,000

COMPLETE VICTORY FOR THE DEMOCRATS

Mayor Low Sends Congratulations to His Successor on the Result

HUGH McLAUGHLIN IS WHOLLY CRUSHED

Veteran Leader's Failure Significant—Grout and Fornes Both Elected—Devery Polls Surprisingly Small Vote

NEW YORK, Nov. 4.—After a remarkable campaign, in which there was united against him nearly all of the newspapers and practically every minister of religion in the city, George B. McClellan, son of the civil war general, was yesterday elected third mayor of Greater New York, over Seth Low, fusionist, the present mayor, by a large plurality of about 70,000.

Edward M. Grout was elected controller and Charles V. Fornes, president of the board of aldermen. These two men were originally on the fusion ticket and were endorsed by Tammany.

A surprise was the low vote for William S. Devery, former chief of police, who ran on an independent ticket, which was given practically no support.

BUT ONE BOROUGH—Low carried only one borough—Richmond, about 200 votes.

The result was known early, and at 11:15 Mayor Low sent this telegram of congratulation to Colonel McClellan: "I congratulate you on your election. If I can be of service to you, pray command me."

Colonel McClellan, who is at present a member of congress, made the following statement: "I am deeply grateful to my fellow citizens for their confidence in me. I renew the promises which I made before my election."

"I have no bitterness of feeling for any one. I shall go at once to Washington to prepare for the extraordinary session, and as soon as the question of Cuban reciprocity is disposed of I shall turn my attention to the affairs of the city."

He invited the co-operation of every citizen, whether he supported him or not, and regardless of his political views, in the advancement of the city's good.

This victory should encourage and unite all democrats for the presidential contest in 1904.

slip of 142, almost three times as many as two years ago.

Chairman Dick says: "Hanna's personality did it." Today efforts are being made to ascertain if Johnson carried one-fourth of the counties, twenty-two out of eighty-eight. Ohio never exceeded the 100,000 mark but twice before.

BECKHAM'S MAJORITY LOUISVILLE, Ky., Nov. 4.—Returns received from eighty-three counties, a number of which are incomplete, gave Beckham, (dem.) for governor, a majority of 25,500.

SAN DIEGO, Cal., Nov. 4.—Captain Shurtleff of the United States collier Nero which arrived a week ago and which was waiting the arrival of the Pacific fleet to discharge her 2,000 tons of coal, has received orders to go to Panama.

MARYLAND Swings Into Line and Rhode Island Is Also Democratic—California Republicans Beaten on Every Hand—Colorado Is Still in the Doubtful Column—Nebraska Goes Republican—Beckham's Victory in Kentucky Is an Assured Fact

YESTERDAY'S VICTORS Democrats: California, Kentucky, Mississippi, New York City, Maryland, Virginia, Utah, Rhode Island. Republicans: Massachusetts, Pennsylvania, Ohio, New Jersey, Nebraska, Iowa, Colorado. Doubtful: In California the victory was divided with union labor tickets.

MARYLAND BALTIMORE, Nov. 4.—This morning returns from 25 precincts out of 308 in Baltimore city have been counted and show a majority of 4,542 for Warfield, (dem.), for governor. It is quite certain returns from the remaining precincts will increase this lead.

OHIO COLUMBUS, O., Nov. 4.—The republicans broke their record yesterday, electing Myron T. Herrick governor by a majority over Tom L. Johnson (dem.) of considerably over 100,000. The plurality

AN ATTEMPT TO WRECK A TRAIN MADE

Ties Placed Across Texas and Pacific Tracks Near Woodlawn, But Are Discovered by Freight Crew in Time

MARSHALL, Texas, Nov. 4 (Special).—An attempt was made this morning by some unknown party or parties to wreck a Texas and Pacific train just one mile north of Woodlawn, by placing two cross ties on the track.

PHILADELPHIA, Pa., Nov. 4.—Ideal weather prevailed yesterday, but returns indicate a light vote. The republican majority was about 150,000. R. O. Moon (rep.) was elected to congress from the Fourth district. The republicans carried the city ticket in Philadelphia and the citizens' ticket (rep-dem-fusionists) carried Pittsburg.

MISSISSIPPI JACKSON, Miss., Nov. 4.—As expected, the entire democratic ticket, headed by Major J. R. Vardaman, was elected. An entirely new legislature was elected and it will elect two United States senators. Senators H. D. Money and A. J. McLaurin, who were nominated in the August primary, will not be opposed.

NEW JERSEY TRENTON, N. J., Nov. 4.—The republicans in New Jersey yesterday elected four of the six senators and enough of the state assembly to claim both houses. The entire democratic assembly ticket was elected in Union county, which is a defeat for United States Senator Keam.

NEBRASKA LINCOLN, Neb., Nov. 4.—Barnes, (rep.) is probably elected judge of the supreme court over Sullivan, (dem.) supreme judge.

MASSACHUSETTS BOSTON, Nov. 4.—The republicans carried the state by about the same majority as last election.

IOWA DES MOINES, Ia., Nov. 4.—Excepting in a few localities the vote was light. Governor Cummins and the entire republican ticket was elected.

COLORADO DENVER, Nov. 4.—Chairman Fowler of the republican central committee

BOLL WEEVIL CONVENTION TOMORROW

National Meeting Opens Its Sessions in City of Dallas on Thursday

SECRETARY WILSON WILL BE ON HAND

Head of National Department of Agriculture Displays Much Interest

OTHER PROMINENT MEN WILL ALSO BE THERE

Convention Will Be the Most Important Industrial Meeting Ever Held in Texas. Nearly 2,000 Delegates

DALLAS, Texas, Nov. 4.—(Special).—The National Boll Weevil and Cotton Insects' convention, which is to open its session in Dallas on tomorrow morning, promises to be the most important industrial meeting ever held in Texas.

Prof. Connell said to The Telegram correspondent today: "I have just received a letter from Dr. B. T. Galloway, written at Houston on yesterday, in which he states that Secretary James Wilson of the National Department of Agriculture, and a party of the department's officials, will reach Dallas this evening at 6 o'clock and will remain until Friday morning."

ARMEDMORE, I. T., Nov. 4.—(Special).—J. E. Arnold, a mixed breed Indian attorney at law, etc., and who has imported nearly 1,000 Mississippi Choctaw Indians from Mississippi to this station with a view of enrolling and leasing them, was indicted in two counties by the grand jury, charging Arnold with perjury. He was arrested yesterday afternoon and gave bond in the sum of \$1,000 in each case.

FOREIGNERS MAY SERVE ON JURY According to Recent Decision of the Mississippi Supreme Court

JACKSON, Miss., Nov. 4.—The supreme court of Mississippi holds that an un-naturalized foreigner sitting on a jury does not invalidate the verdict in a criminal case wherein the attorney for the defense fails to make objection thereto. The decision was rendered in the case of E. J. Fulcher vs. state, convicted in the circuit court of Yazoo county on the charge of manslaughter and given a fine of seven years in the penitentiary. Situated on the jury was a Swede, who came to the United States when 21 years of age and took the preliminary oath looking to citizenship but failed to carry out the other necessary steps. He registered as a voter, however, and was to all intents and purposes a qualified suffragist. The appeal in the Fulcher case was based on this fact as the principal suggestion of error and the supreme court affirmed the lower court verdict. Fulcher killed an old man named McNeill during a quarrel.

REVOLUTION BREAKS OUT IN PANAMA

Independence of the Isthmus From Colombian Government Is Proclaimed

COLOMBIAN GENERALS THROWN IN PRISON

Three Thousand Armed Men Constitute Forces of the State

AMERICAN INTERESTS ARE WELL PROTECTED

Scene of Uprising Is in Poorest Portion of Colombia. Disturbance Is Caused by Desire for Canal

WASHINGTON, D. C., Nov. 4.—The following cablegram was received at the state department last evening from the United States consul at Panama: "An uprising took place at Panama to-night. Independence was proclaimed. The Colombian army and navy officials were made prisoners. A government is to be organized consisting of three consuls and a cabinet. It is rumored at Panama that similar uprisings were to take place at Colon."

Later the following official statement was made regarding the news from Panama: "A number of confused and conflicting dispatches have been received from the isthmus indicating rather serious disturbances at both Panama and Colon. The navy department has dispatched several vessels to these ports, with directions to do everything possible to keep traffic open and maintain order along the line of the railroad."

The sensational advices from the isthmus were not entirely unexpected, in view of other advices that had come to the department recently. The reception of the news caused a busy day in the secretary of the navy department, and at once on President Roosevelt's return he was made acquainted with the situation. Secretary Hay, Assistant Secretary Darling, Assistant Secretary Loomis and a number of others were summoned to the White House, and measures were taken at once for the protection of American interests at the isthmus.

PERJURY IS CHARGED TO E. J. ARNOLD

Mixed Breed Indian Who Has Been Moving Choctaws From Mississippi to Indian Territory Is Placed Under Arrest

WASHINGTON, D. C., Nov. 4.—Sensational advices were received here last night from the isthmus of Panama to the effect that a revolution had broken out and that independence had been proclaimed.

President Roosevelt at 9 o'clock sent for Secretary Hay, Acting Secretary of the Navy Darling, Assistant Secretary of State Loomis and Rear Admiral Taylor, chief of the bureau of navigation. A meeting of the cabinet was held after a conference lasting nearly two hours, orders were dispatched to the Dixie and the Atlanta on the Pacific coast, to proceed with all possible speed to isthmian waters to aid the Nashville in protecting American interests and in preventing a free transit across the isthmus, in accordance with the treaty of 1846.

Orders were also sent to Rear Admiral Glass, commanding the Pacific squadron, consisting of the Concord, Marblehead and Wyoming at Apaculco, to coal at once and hold himself in readiness to proceed on a moment's notice to Panama. When the Baltimore reaches San Domingo, orders will be called for to go to the isthmus if the situation demands her presence. The rejection of the Panama canal treaty is supposed to be the moving cause of the revolution, but no official information was given out.

The Associated Press, after the conference, was authorized to state that the sole purpose of the dispatch of the vessels was the protection of American interests and the maintenance of open transit in the isthmus.

The most explicit instructions were called to the American consuls at Panama and Colon and to the commander of the Dixie, who will be in charge of the vessels on the Atlantic side, to direct all their movements with this end in view.

The further statement was authorized that the state department regards the situation as serious, but that the arrival of the Nashville today and the immediate dispatch of the other vessels insures the protection of American interests.

At the conclusion of the conference the Associated Press bulletin from Panama was shown to Admiral Taylor and Assistant Secretary Darling, whereupon they immediately had another interview with the president, lasting a few minutes.

Neither would make a statement concerning the dispatch. The Dixie carries a detachment of 400

SIX NEGROES ENTERTAINED BY ROOSEVELT

Party of Enlisted Men From Mayflower and Sylph Includes Blacks

SERVED LUNCH IN STATE DINING ROOM

After Being Received by the President and Mrs. Roosevelt

NO STATEMENT IS MADE OVER AFFAIR

Presence of the Negroes Is Neither Affirmed Nor Denied—Politicians Talking Over President's Shoulder

MEMPHIS, Texas, Nov. 4.—A special to the Commercial Appeal from the Washington correspondent says: "Right on the eve for the election, within a few hours before the polls open in Maryland and Kentucky, where the negro issue is one of the most important before the people, several negroes were dined at the White House."

Monday afternoon the president decided to give a reception to the enlisted men of the Mayflower and Sylph, government vessels upon which he has been cruising around during the summer months.

In the crews are several negro seamen, but they stood in the White House on an equality with the whites and enjoyed the occasion immensely.

The seamen were first presented to the president and Mrs. Roosevelt in the east parlor and were then led into the state dining room, where lunch was served.

At the White House no statement could be obtained about the affair, and while the presence of the negro seamen was not confirmed or denied, the only answer was to the effect that it had not been noticed whether they were present. The declaration to admit the presence of the negro seamen is taken to mean that the president found out that he had made another blunder on the negro problem, and is trying to conceal it.

TWO WERE COOKS It is known that at least six negroes were in the party at the White House. This is the first time that private in the army have ever been received by the president and Mrs. Roosevelt. But this lunch-con was served in the state dining room. Two of the negroes were cooks on the Sylph.

Many politicians are of the opinion that the presence of the negro seamen at the White House was the result of a deliberate attempt of the president to show that he stands now just as he has already stood on the negro question.

GOV. SPARKS ON MARKET FOR MULES

Millionaire Executive of Nevada Purchases Stock for Texas Ranches From His Old Friends at Georgetown

GEORGETOWN, Texas, Nov. 4.—(Special).—The three saloons at Thordale are moving just over the Milan line into Williamson county since Milan went prohibition Saturday. This is a repetition of the cases in Barriett; when Bell county went dry six saloons just moved over the line into Williamson, as the line runs through Main street. All the adjoining counties are dry except Travis, hence the occupation taxes of Williamson county will be doubled next year.

The biggest day's business done in Georgetown for many years was recorded on Monday. The day was ideal for "first Monday." The streets were well jammed all day and until far into the night. Mules brought \$250 to \$300 per pair and many farmers were buying. One of the features of the day was the active buying of mules and horses by Governor Sparks, the millionaire governor of Nevada, for his farms and ranches in this and Milan counties. He met many of his old friends of twenty-five years ago when he was a regular buyer here on "first Mondays." He is a good judge of horses and mules and has not forgotten the art even though he owns some of the finest herds in the world. About three hundred bales of cotton were marketed and the merchants report the largest sales on any one day in the past three years.

NEW YORK, Nov. 4.—A peculiar development as to the tastes of the reading public has been reported on the lower East Side in this city. At the opening, in East Broadway, of the second of the branch libraries provided for by the five million dollar gift of Andrew Carnegie, Chairman Postwick of the circulating department of the New York public library, read statistics covering four years, proving that there are twice as many scientific books drawn in any other circulating library in New York City. Unlike the people in the wealthiest part of the city, he said, the population about Chatham Square rejects fiction to a large extent and chooses solid information on science and other serious subjects.

THE ALABAMA VETERAN

Estimated That Fully 20,000 Veterans Are in Birmingham

BIRMINGHAM, Ala., Nov. 4.—It is estimated that 20,000 veterans are here on the reunion of the Atlanta Division of the United Confederate veterans. The city is a mass of flags and bunting in honor of the occasion. Every day in the state has sent its delegates and the outlook is bright for one of the largest as well as most successful reunions held in this state in many years. During the forenoon the vision headquarters at the Hotel Hamilton were besieged by veterans anxious of registering. The reunion formally opened in the Auditorium noon, being called to order by the vision commander, Thomas H. Montgomery. Addresses of welcome and responses, the appointments of officers and other preliminary business occupied the opening hours. The feature of the afternoon was the delivery of the annual oration by T. Sydney Frazier.

TEACHER DROPS

NEW YORK, Nov. 4.—A teacher in a Brooklyn school dropped dead just as he was dismissing the scholars at the day's work.

Burns was only 21 years old and had been working hard in a factory where he had been pointed and it is supposed that he was attending his usual school.

SECRETARY

CLEBURNE, Texas (Special).—Assistant Secretary Blanchard, of the United Confederate Veterans, has been transferred where he will be the X. M. C. A.

**ARKANSAS NEGRO HANGED BY MOB**  
Henry Johnson Strung Up at Lake Village by Infuriated Crowd

LITTLE ROCK, Ark., Nov. 4.—A special to the Gazette from Lake Village, Chicot county, says:  
Henry Johnson, a negro, was taken from jail here at noon yesterday by a mob and hanged in the center of town. The act was due to a tragedy early in the morning, in which Frank Anderson was killed and Baldy Wilson, a lawyer from Little Rock, and several others were wounded. A row occurred between some negroes and whites and it is claimed that Ed Coleman, colored, pulled a pistol and began shooting. A fusillade followed, and when it ceased it was found that Anderson was dead. Wilson shot in two places, Joseph Frame wounded in the foot and Ella McWell, colored, shot in the back. Coleman fled and a posse started in pursuit.

suit. Johnson was placed in jail. Excitement ran high among the people and increased until noon, when the court house bell sounded and most of the white citizens assembled there. A number of speeches were made and a committee on law enforcement was appointed. The question was raised as to what should be done with the negro Johnson. It was announced that Circuit Judge Wood would be here to hold a special term of court, but the mob spirit was rampant and a large number of those present rushed out of the court house shouting, "Hang him!" Sledgehammers and railroad iron were quickly found and in thirty minutes four doors at the jail had been broken down and the mob secured the negro Johnson, taking him to the lake front, where he was hanged.

LONDON, Nov. 4.—Battle Abbey, the historic pile erected centuries ago to commemorate the battle of Hastings, was the scene today of a brilliant Anglo-American wedding. The contracting parties were Miss Margaret Grace, daughter of Michael P. Grace and niece of the late Mayor Grace of New York City, and Jay Phipps, a young London millionaire. The wedding attracted many well-known Americans resident in England and among those who signed the marriage register were Henry C. White, secretary of the American embassy, and H. Clay Evans, American consul-general to London.

## SHERMAN SCARED BY A MAD DOG

Madstone Clings When Applied to Wounds—Child Is Taken North

SHERMAN, Tex., Nov. 4.—Apprehension in the minds of those bitten by the ferocious dog that ran amuck in West Mulberry street Monday, biting four persons and causing excitement, has not been allayed, as it seems to be the general opinion of all who know anything of the dog's actions that he was afflicted with hydrophobia. The madstone owned by P. B. Dean was used by both Max Carrier W. D. Wharton and the little daughter of Rev. and Mrs. Forrest Smith. In the latter case it adhered for several hours together, once as long as two hours before it relaxed its peculiar suction and fell off.

Mr. Smith left for Chicago with his little daughter and will have her undergo a thorough treatment at the Pastur Institute in that city.

Colonel I. M. Standifer of Denison is here this morning on a business trip. Colonel Standifer is well known in politics and law in this state. During the last legislature he made a fight to work the short term convicts on the public roads, but the bill failed in the senate, when the Penitentiary lobby started its opposition. The denizens will soon move to Houston, where he will make his home in the practice of law.

Mr. Slayden is en route to Washington to attend the extra session of congress. He is accompanied by Mrs. Slayden. They left on the Frisco at 11:15 o'clock this morning.

Colonel Frank Grice of San Antonio, owner of the San Antonio Express and one of the best known newspaper men in the South, was here for a few hours this morning. Colonel Grice is on route east, leaving at 11:15 via the Frisco. Asked his opinion of the elections yesterday, he said: "The greatest victory for the democrats was in Ohio."

Mr. Burgower is vice president of the St. Paul, Minn., house, which is known as L. Epstein, Sons & Co. They are here looking for a location to establish another branch. While the salesmen of Grayson county have not given up the fight, it is generally understood the county will go dry. This will cause Mr. Epstein to move. He is attracted to Fort Worth, and says this is one of the best business points he has seen in the state. He has not decided whether he will locate here, but the chances are very favorable for such action.

With the knowledge of what America has to offer the summer tourist and the rest and health-seeker the thousands of summer travelers who spend their vacation in "The Highlands of Ontario," hesitatingly pronounce the Muskoka Lakes region the ideal, the perfectly satisfying summer resort. Such an ideal is a combination of two features—primal nature in a perfect bewilderment of beauty, charm and variety, along with the facilities for most of the modern necessities and conveniences. In addition to these, the even temperature, the high altitude (1,900 feet above the sea), the health-giving ozone from pine, hemlock and fir, and the dark, soft waters of innumerable lakes, teeming with the gamut of fresh water fish. What more has a weary, nerve-racked man or lover of nature to desire?

Handsome, illustrated, descriptive publications will be sent free on application to Geo. W. Vaux, room 917, Merchants' Loan and Trust bldg., Chicago.

There will be a large number from Fort Worth to Dallas tonight to attend the concert given at the request of many who will be of the party.

## WILSON IS TO BE INVITED TO COME HERE

Secretary of Agriculture Will Be Asked to Visit Fort Worth Tomorrow—His Tour of Texas

Oswald Wilson, field agent of the department of agriculture, and W. C. Forbes of the Northern Texas Traction Company will go to Dallas this afternoon to meet James Wilson, secretary of agriculture, to extend him an invitation to visit Fort Worth tomorrow. Mr. Wilson is to attend the boll weevil convention in that city, and it is announced from Dallas that he will remain there all day, but Oswald Wilson does not think he will spend the entire time in the convention, and that he can be persuaded to come here. He is making a tour of the state, making observations of conditions which are necessary to one in his position.

"I never saw such magnificent fields as I have seen in Texas. Today I saw one field of 20,000 acres of the finest cotton and rice lands, and it is virtually lying idle. A few cattle are being grazed upon it. This land will grow alfalfa, as well as cotton and rice.

"One becomes amazed when he contemplates the possibilities of Texas. Within an area 700 miles long and fifty miles wide you can produce enough from your lands to supply the United States. So far you are hardly scratching the lands. It is lucky for the people of Texas that they do not depend upon one crop. You grow in this state nearly one-third of the cotton produced in the United States. Notwithstanding this, there are other interests that you should study. You are losing many millions of dollars because of the ravages of the boll weevil, but you are also losing many more millions of dollars because of the apathy shown toward other staple crops.

"A few years ago the department of agriculture wanted a soil that would grow a fine filler tobacco. Scientists were sent to Cuba and the soils on which this tobacco was grown were brought to this country. Agents of the government were ordered to go forth and find this soil, no matter where it was. It was the desire to find it if it was in America. There is small wonder that this soil was found in Texas. Think about it. We are paying \$8,000,000 per year for that kind of tobacco. That is yours if you want it. We are ready to give it over to you.

There will be a large number from Fort Worth to Dallas tonight to attend the concert given at the request of many who will be of the party.

## CUPID'S MIRROR.

when life seems dark and gloomy, she should confide her troubles to a physician of standing in the community. One who has a national reputation, certainly it would not be the part of wisdom to confide in an ignorant person without medical education simply because she was a woman. There is every reason why she should write some great specialist, one who has made the diagnosis of women a specialty for a third of a century like Dr. R. V. Pierce, founder of the Invalids' Hotel and Surgical Institute of Buffalo, N. Y. All correspondence is held sacredly confidential, and he gives his advice free and without charge.

Very often find that it is repugnant to their feelings to consult their family physician. In such a case they can get perfect confidence in Dr. Pierce, who has made such a success in the treatment of women's diseases, for he will give the very best advice possible and without cost. To grow beautiful, healthy and happy should be the desire of every woman. It is then possible to hold a husband and to make him happy and bring contentment to it. In most cases Dr. R. V. Pierce's Favorite Prescription will fit the needs and put the body in healthy condition.

It is much easier for a woman to confide in the average man than in the average woman. She knows that the man will respect her confidences and keep them to himself. It is said that loyalty is usually lacking in the feminine make-up. Without a perfect understanding there can be no helpful advice, and not one woman in ten places implicit confidence in her own sex. The consciousness of her own weakness puts her on guard against the failings of all other women. In the same way a woman hardly feels like confiding her womanly troubles—her weakness, in increasing weakness, nervousness, backache, headache, loss of appetite and sleeplessness.

Dr. Pierce's Favorite Prescription restores weak and sick women to usual health, by curing the local womanly troubles which are generally responsible for the failure of the general health. A woman's entire being is centered in her womanly nature. When the delicate womanly organism is attacked by disease; when there is irregularity or disagreeable drain; when indigestion, nervousness, or nervousness gnaw the health will reflect the progress of disease, in increasing weakness, nervousness, backache, headache, loss of appetite and sleeplessness.

**Not Womanly to Suffer.**  
DAVITILE, IND., April 25, 1903.

Painful menstruation made life a burden for me for over three years. I suffered untold misery at every menstrual period, not simply bearing down pains, but cuttings, gripings, colic, cramps, and at times convulsions, causing me to dread the time which I knew awaited me every month. In vain had I used a dozen remedies, and had but little faith in Wine of Cardui when my cousin advised me to take it.

You can little realize the joy which came over me as I gradually began to improve. Month by month the troubles were lessened. The scanty flow increased, and after four months' use of Wine of Cardui I was relieved from all pain and was perfectly well.

For the past nine months my periods have been regular to a day and with no pain attending them. This speaks for itself as to the value of Wine of Cardui, in my estimation.

**WINE OF CARDUI**

The real woman is the well woman. The sick woman is less than a real woman. Sickness is no more a duty nor a necessity for a woman than for a man. Miss Thomas shows how "the untold misery" of painful menstruation and bearing down pains can be avoided by taking Wine of Cardui.

Wine of Cardui has cured many thousands of women who were in the same condition as Miss Thomas. This pure vegetable Wine, taken in the privacy of the home regulates disordered menstruation, which is the cause of bearing down pains, ovarian pains, convulsions, nervousness and hysteria. Wine of Cardui provides for a healthy and painless operation of menstruation at the proper intervals. And this important function becomes a healthful benefit instead of a dreadful torture.

The health Miss Thomas today enjoys was given her by Wine of Cardui. It is your privilege to secure health by the same treatment.

All druggists sell \$1.00 bottles of Wine of Cardui.

## AFFRAYS ARE VERY FEW

Troubles Attendant on Elections Are Remarkably Scarce

PITTSBURG, Pa., Nov. 4.—Lynching came near being the fate of Hugh Armstrong, a negro, who probably fatally shot Patrick Butler, a watchman at the polls in the jail voting precinct. After the shooting, Armstrong ran along the street followed by a mob of 500, which kept up a continued cry of "lynch him." Armstrong was finally captured by the police and with considerable difficulty placed in jail.

JOE WOLF'S FATE AGAIN WITH JURY

At 2 o'clock this afternoon Judge Irby Dunklin, presiding in the Forty-eighth district court, read his charge to the jury in the case of the state vs. Joe Wolf, charged with murdering Hendricks Long, and the twelve men slowly filed into the jury room to begin consideration of the case.

JUDGE'S CHARGE Judge Dunklin's charge in part was as follows: "If you believe from the evidence beyond a reasonable doubt that Joe Wolf, the defendant, did, in Tarrant county, Texas, at or about the time alleged in the indictment, either alone or together with some other person or persons, by assault or violence upon Hendricks Long, fraudulently take from the possession of said Hendricks Long any property with the intent to appropriate the same to the use of the person or persons so taking it, and if you further believe from the evidence beyond a reasonable doubt, that said defendant did, at said time and place, either alone or together with such other person or persons, with malice aforethought, either express or implied, and in the perpetration or in the attempt at the perpetration of such taking of property, if any kill said Hendricks Long by beating him with an instrument or instruments unknown to the grand jury at the time of finding and with the intent to kill, then you will find the defendant guilty of murder in the first degree and so say by your verdict, and assess his punishment at death or at confinement in the penitentiary for life; but unless you so believe from the evidence beyond a reasonable doubt, you will acquit the defendant."

THE ELECTIONS YESTERDAY

The democrats have some consolation in the elections yesterday. Victory perched on the banner in New York, and no states which were heretofore decidedly democratic went against the party—for instance Virginia and Mississippi. There is some doubt about some of the close states, but with it all the New York victory is the important one, as it may have an important effect on the national campaign—in fact it may be that it will turn the tide in favor of a New Yorker for the democratic nomination for president. Murphy has won in New York, and as the leader of Tammany he must be reckoned with. He is a half hearted leader, but is a man who holds a strong hand, and exercises all the power it controls. His aggressiveness was feared by some of his friends, as they believed it would injure the cause of which he was the head and front, but it did not. He turned Hill down, he fought McLaughlin, and he made claims which were out of all reason, but his reasoning appears to have been good, and he controls the greatest city in this country by a margin which looks good even when placed alongside the brutal vote the democracy casts in this state. He will no doubt dictate a Cleveland delegation to the next national convention.

SHYS AT THE ARGUMENT

The editor of the Young County News shys at the anti-free pass campaign, because he fears he will lose the support of a few county officials in his section of the state. Will he not get the people with him? Do the people of his county want to see officeholders administering affairs for the people while they are drawing pay from corporations in the form of railroad passes?

SEPARATE PULLMAN CARS

Governor Frazier of Tennessee has ordered the Pullman company to issue instructions that negroes shall not occupy the same sleeping cars as the whites. It is possible that a Southern state like Tennessee is as far behind as that. Texas has long ago provided that the races shall ride in separate compartments. The law went hard at first, but the negroes have become accustomed to it, and they are well satisfied with the conditions as they now exist. Sleeping and dining cars come under the same law, and the races in all things are separate. The Atlanta Journal comments on the action of the governor of Tennessee as very wise, and says: "It is said to be not unlikely that as a result of this meeting a general order will be issued by the company to the effect that negroes be excluded from all sleeping and dining cars occupied by white persons."

LEADERS THE SAME TODAY

The young lady receiving the largest number of votes by midnight, Saturday, November 4, will be elected sponsor of the Marine Band of North Fort Worth, and receive a \$400.00 horse and buggy.

CONDITIONS OF THE CONTEST

During the contest, for every cent received by mail, or delivered at The Telegram office on a prepaid subscription one vote will be counted for the lady of your choice until midnight, Saturday, November 7. The subscription price for The Telegram is as follows: Daily and Sunday, one week, 15c in advance, or 45 cents a month in advance, continuing the schedule number of votes for the popular lady of your choice.

STANDING OF CONTESTANTS

Table listing names and vote counts for contestants, including Miss Nannie Wells (89,100), Miss Mattie Cooper (85,332), Miss Totah Bishop (72,855), Miss Beulah Fulgham (69,448), Miss Myrtle Boyles (58,225), Miss Lizzie Moore (51,010), Miss Berta Johns (49,529), Miss Isabelle Nation (46,740), Miss Mattie Lee Lewis (45,390), Miss Cassie Boswell (43,600), Miss Mary Yarbrough (38,600), Miss Ethel Magoffin (35,209), Miss Minnie Hartman (17,300), Miss Kate Richie (17,275), Miss Nora Mudy (10,449), Miss Rebecca Cloud (10,309), Miss Cora Blank (9,000), Miss Neta Hensley (7,830), Miss Saunders (7,760), Miss Marguerite Hensley (7,680), Miss Nellie Williams (7,520), Miss Eva Housingsworth (6,480), Miss Beckam (5,440).

habits the association of the races in the manner under consideration. It seems to be pretty generally understood by the negroes. There are, however, cases where it is violated, although we believe not widely so. Governor Frazier was obliged to take direct and positive action to secure the enforcement of the Tennessee law. If the Pullman agents decide, as they should, upon making a general prohibitory rule they will save themselves a great deal of unnecessary trouble.

THE EX-PRESIDENTS

The Kansas City Journal asks: "What shall we do with our ex-presidents?" We haven't but one, and he seems to be doing pretty well for himself. We will probably have another after March, 1905, and with what he has on hand which he has accumulated during life, and the presents which have been given him, he ought to be able to live comfortably, if he has no rent to pay. Of course, ex-presidents may expect something from the people. Giving up four or eight years of valuable time at \$50,000 per year is a sacrifice, when the fellow might be holding a job at a higher figure as president of some big trust. But the ex-presidents ought to be able to weather the gale and keep the wolf from the door. With a rapid stenographer, a few interviews could be turned out each week, and these ought to bring a pretty good price, and then there is the lecture platform. Mr. Roosevelt could learn these things. There is, of course, no money in rough riding and being strenuous. Rough riding formerly paid on the plains, but you don't see it now except in Wild West shows. And if the people are ungrateful and neglect an ex-president like Roosevelt, his friend Booker T. Washington might give him a place down at Tuskegee. Roosevelt would like that. The association would be just to his caliber.

There is really no occasion for the Journal to worry about the thing right now. Mr. Cleveland won't be an "ex" very long, as he will have an engagement with Father Time within a few days. There is no chance for another "ex" before sixteen months have passed—sixteen months to the day. If Mr. Roosevelt happens to retain his hold on his present lucrative position, there will be no "ex" for at least four years beyond that time—so let the thing alone and posterity will figure it out. The ex-presidents belong to posterity any how. We pass them along to coming generations, and possibly they will be better appreciated.

OUR CLIENTS WON A MILLION DOLLARS

As it is well known that our clients have collectively won as much as a million dollars at a single race meeting, it is sometimes asked, "Why do not Maxim & Gay simply sit down and back their own selections instead of running a considerable clerical force and spending large sums in advertising in newspapers throughout the country?"

A Few of Hundreds of Recent Endorsements of the Press

Cincinnati Commercial-Tribune, March 1, 1903. "Maxim & Gay, who have been so successful in selecting winners at the New Orleans races, are in a class by themselves and have no relation in their systems of operation to the 'get-rich-quick' schemes that have recently gone to pieces disastrously to those who patronized them. Maxim & Gay do not guarantee their clients profit, nor against losses, but merely play the money for their subscribers and deduct a fixed percentage from winnings for placing the commissions. This point is made clear in all their announcements. What they guarantee to do is to confidentially handle all money forwarded them and place it on the races just as if it were their own. Why have in their employ all 'clockers' who are expert judges of track work in the country, and there is not a horse at the New Orleans meeting that they have not a record of? The information collected in this way is used to the benefit of their subscribers, and its reliable character is attested by the numerous winners they have picked in the past two weeks.

JOIN OUR WINNING ARMY.

The greatest race meeting in the history of the South begins at New Orleans within a fortnight. In magnitude it will eclipse all other turf gatherings of the past. The Crescent City Jockey Club knows this to be a banner year and has prepared for it. So have we. If there are more horses at the New Orleans race track than ever gathered there before we have more expert 'clockers' and handicappers than ever employed at any other meeting. They cannot make the game too big for us to handle. We move with the times.

THE FOLLOWING SUMS ARE THE MINIMUM ACCEPTED FOR PLAY:

The poor people do not have appendicitis. When they are afflicted they haven't enough money to have the vermiform appendix disposed of and when they die the doctors call it something else.

YOUR MONEY WORKS WHILE YOU SLEEP

Our famous corps of track sharps are up at break of day, "clocking" the horses in their morning tryouts and while you sleep they spot the winners that bring you steady income.—Our method puts you on a level with the most successful plunkers of the American turf.—We operate for you for 25 per cent of weekly earnings. We win only when you win.—Results obtained really "beyond dreams of avarice."

Again we scored heavily for all of our clients last month. Again we landed the money and landed it in chunks. The years of organization, with the best facilities that money and brains can procure to make our service of picking and backing winning trials, and in that way learn when they are ready to win, has had its natural sequence, and each week our showing demonstrates a good profit for every client.

HOW \$50 NETTED \$201.75 IN LESS THAN A MONTH.

Here is a complete statement, showing the result of a \$10 play on each horse given in our "Discretionary Series" during October. (Note: A capital to begin with of \$50 is required by us, as a matter of conservatism, to make a \$10 play on each horse that is considered by us a good betting proposition.)

Table showing weekly results for October: FIRST WEEK, SECOND WEEK, THIRD WEEK, FOURTH WEEK. Includes columns for Day, Horse Name, and Net Daily Result.

The above showing is no improvement over that of September, and is not remarkable, since we have exceeded it just about the past three years of our uninterrupted operations. Good as it is, however, we are confident we will make it "look sick" by comparison with the showing we are going to make at the meeting of 100 days which begins at New Orleans this month.

## FIXES BLAME ON TRAIN CREW

Big Four Employes on Football Special Charged With the Disaster

INDIANAPOLIS, Ind., Nov. 4.—After an official investigation by the Big Four officials into the cause of the wreck Saturday morning, which lasted until late last night, General Superintendent Van Winkle of the company said that the crew of the football special were responsible for the wreck because they failed to exercise the proper caution.

"All switching crews in the yards," said he, "are given rights of way and are not required to watch for specials. The collision was between a special passenger train and a switch engine and coal cars."

Mr. Van Winkle said the engineer, W. H. Schumacher, of the special, is to blame because he did not have his train under control. He said all engineers of passenger trains should run inside city limits with their trains under control in case they find switching engines ahead, and in this case the engineer was running twenty-five miles an hour with a heavy train and a light engine which did not have control of the train and it was impossible to stop in time. Coroner Tutwiler is still at work on his official investigation and is examining witnesses.

## AGED INVENTOR UNDER ARREST

Man Who Claims to Have Discovered Substitute for Lard Is Jailed

NEW YORK, Nov. 4.—Cornelius De La Vergne, aged 75, who talks hopefully of an invention he claims to have invented for a secret process to manufacture lard, butter, oils and fatty substances, has been arraigned before a police magistrate on the charge of failing to pay a bond bill amounting to \$189. The defendant is said to have incorporated, under the laws of South Dakota, the Northwestern Industrial company, with a capital stock of \$500,000, to take up his invention. Of this amount he received \$100,000 from the sale of stock to the benefit of the employees of the company. They were to have libraries and homes built for them and a generous amount to take care of them when disabled by accident or sickness.

He has been working on the scheme of this company since 1886 and says that he had retained a prominent lawyer here to draw up the necessary papers by which his valuable patent could be conveyed to the industrial company.

After hearing the complaint Magistrate Conner held De La Vergne in the custody of his counsel for a further hearing.

William S. Conroy, formerly private secretary to Police Commissioner Green, says he was engaged by De La Vergne last August to act as his secretary. His salary was large and he was to have a goodly block of stock in the new company, but alleges that up to date he has received exactly \$25 in cash.

## EXTRAS ARE RESPONSIBLE FOR TROUBLE

Appropriations Made by Last Legislature in Excess of Revenues Cause Present Deficiency in Funds

AUSTIN, Texas, Nov. 4.—(Special.)—Agent the deficiency of \$128,000 in the general revenue fund created during the past few days of the session is frequently asked as to the cause since the increase in the taxable values of the state being an increase in the general revenues of the state of 164,000, \$18,000 of which goes to the credit of that fund.

A partial answer to the question is found in the special appropriations made by the last legislature, extra of the amount of the expenses necessary to run the government for the next two years. Of these special appropriations, the following is a summary:

- Iron industry at Rusk, \$150,000.
- Agricultural and Mechanical college, \$50,000.
- Expense of a mineral survey of the university lands for year beginning March 28, 1902, to March 28, 1905, \$20,000.
- Bookkeeper at the Confederate home up to Sept. 1, 1903, \$500.
- Expense of text book board, \$1,000.
- Contingent expenses first called session of the twenty-eighth legislature, \$10,000.
- Pardlem first called session, \$20,000.
- Amount used of \$2,500 appropriated for

## TO DIVERT IMMIGRATION

NEW YORK, Nov. 4.—An effort is being made by Father P. Lynch, for many years vicar general of Florida, to divert Irish immigration. Many places in Manhattan and Brooklyn, upon which he has called, think favorably of the plan.

Father Lynch has 1,000 acres of this farm and in Allegany county, two miles from Gainesville, Pa., at which place is situated St. Patrick's church, of which he is now pastor. His scheme is to divide the land in plots of one or two acres and he expects to have at least five hundred families working on these farms before January 1.

## FOOTBALL AT WAXAHACHE

WAXAHACHE, Tex., Nov. 4.—A game of football will be played in Waxahache on Monday, November 16, between the Trinity university and the University of Texas teams. This announcement was made yesterday afternoon and was after a lengthy correspondence with the varsity boys. Since defeating the Agricultural and Mechanical college team the Trinity team is regarded as the second team in the state and the game with the varsity is expected to be a lively contest.

NEW YORK, Nov. 4.—Minister of Finance Limantour of Mexico, who has remained in this city for a few days after his arrival here from Europe, where he studied extensively the money situation on behalf of his government, has gone to the City of Mexico.

## A SURE THING

It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for Consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. Van Metre of Shopton, W. Va., says: "I had a severe case of Bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery cured me absolutely." It is infallible for Croup, Whooping Cough, Grip, Pneumonia and Consumption. Try it. It's guaranteed by W. J. Fisher, druggist, and Revolve's Pharmacy. Trial bottles, 25c; regular sizes 50c and \$1.

## FORT WORTH LADIES VICTIMS OF SWINDLE

If there is one thing above another upon which the prudent housewife prides herself it is on her ability to judge linen.

Also, if there is one thing above another which a housewife with a careful regard for domestic economy desires to consummate it is a bargain in the purchase of linen.

Thus for two recent seasons many of the wives of Fort Worth, and especially those residing on the South Side, are not having much to say these days.

Indeed, they are feeling wretched. Their purses have been hurt and it is a combination fit to make the gods weep.

And they haven't even the consolation of being able to repeat John L. Sullivan's historic remark about his happiness over the fact that "it was an American that did it."

There is no telling how many Fort Worth ladies have been taken in, but one thing is certain, they are legion.

The young man who is perpetrating the fraud upon them, for he probably is at it yet, is either an Italian or a Sicilian. When the door opens he bows low over his bundle of snow white "linen."

"O, de beautiful American lady will de me favor to buy some fine linen sheep?" he asks as he unrolls a bolt.

"Bring him from Italy—15 cent a yard," he adds while the lady crinkles the cloth, jerks it out, seeing that it looks like the real thing, is duly surprised at the price.

## SEVEN CARLOADS OF ASPHALT NEARING CITY

Manager H. K. McCullom of the Parker-Washington Paving company said today that he is expecting the arrival of the first seven carloads of asphalt from the Nevada mine at any hour.

"The asphalt was shipped more than a week ago, in fact, was billed in here last Thursday," he said.

He expects to have the asphalt plant in readiness to begin operations tomorrow or the day following. The machinery has been idle for about eighteen months and has required a thorough overhauling since arriving here. Men have been working on it night and day since it arrived in the local yards.

## A POKER GAME NIGHT

Results in Fatal Wounds to a Mexican—Negroes Arrested

AUSTIN, Tex., Nov. 4.—(Special.)—A game of poker which was being played in a cabin about one mile south of Garfield, this county, between some Mexicans and negroes, ended last night, resulted in a bloody duel. A Mexican named Bruno Cardez was shot three times and it is thought, mortally wounded.

Two colored men who participated in the game were lodged in jail here last night, charged with the shooting. There were a number of parties engaged in the fight, one side and for a time bullets flew thick and fast and several of the participants had their clothing pierced with balls.

## MILLIONAIRE'S POOR STOMACH

The worn-out stomach of the overfed millionaire is often paraded in the public prints as a horrible example of the evils attendant on the possession of great wealth. But millions are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the tolls. Dyspepsia and indigestion are rampant among these people, and they suffer far worse tortures than the millionaire unless they avail themselves of a standard medicine like Green's August Flower, which has been their favorite household remedy for all stomach troubles for over thirty-five years. August Flower restores the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter what your station. ## DUFFY'S PURE MALT WHISKEY

Mr. Rose was stenographer to Mr. C. P. Huntington and to Mr. J. E. Gates, Vice-President Southern Pacific Railroad, and later was private Secretary to Mr. Charles Crocker, President of the Southern Pacific Railroad of California.

"I was suffering from a severe attack of pneumonia, had pleurisy in my side, and had catarrh very badly. I was unable to attend to my business, and was under the doctor's care, but did not seem to gain strength or improve, and kept getting worse. I heard of Duffy's Pure Malt Whiskey and decided to try it. I felt I could not be in any worse condition, as the doctor had given me up. I commenced taking it, morning and evening, and soon gained the 25 pounds I had lost. Am now in perfect health, thank you, Duffy's Pure Malt Whiskey. I think it a wonderful cure. I am now able to attend to my real estate and insurance business, 74 West 85th St., N. Y. City.

7,000 doctors prescribe and 2,000 hospitals use Duffy's Pure Malt Whiskey extensively. It is the only medicinal preparation which cures all diseases of the throat and lungs. It is an absolute and powerful tonic, invigorating, stimulant tonic, builds up the nervous system, tones up the heart, gives power to the brain, strength and elasticity to the muscles and richness to the blood. It brings back the vitality and is the only whiskey recognized by the Government as a medicine. This is a guarantee.

CAUTION—When you ask for Duffy's Pure Malt Whiskey be sure you get the genuine. Beware of cheap imitations and so-called Malt Whiskey substitutes, which are sold to the market for profit only, and which, far from relieving the sick, are positively harmful. Demand "Duffy's," and be sure you get it. It is the only absolutely pure malt whiskey which contains medicinal, health-giving qualities. Look for the trade-mark, "The Old Chemist," on the label. Beware of refilled bottles and see that the seal over the cork is unbroken. Duffy's Pure Malt Whiskey is sold in sealed bottles only; never in bulk or in bulk. It is sold by all druggists and grocers, or direct, at \$1.00 a bottle. Medical booklet sent free. Duffy Malt Whiskey Co., Rochester, N. Y.

## FOR SALE BY H. BRANN & CO., 108 Main Street, FORT WORTH, TEXAS

signed my name and caused the seal of state to be hereon impressed, at the city of Austin this 24 day of November, A. D. 1903.

S. W. T. LANHAM,  
Governor of Texas.

By the Governor, J. R. Curl, secretary of state.

The annual report of the trustees and superintendent of the Institute for Deaf, Dumb and Blind colored youths for the year ending August 31, 1903, has been received by the governor.

The board of managers composed of Charles Stephenson, R. M. Thomsen, W. H. Cullen, Herman Pfesser and J. W. Graham, members Superintendent S. J. Jenkins and his wife for their spirit of progress, and say most of the industrial features of the institution are due to the superintendent's initiative energy. They say also that they are greatly gratified that Texas has so early and gladly decided to give these unfortunates an unfortunate race a chance to be educated in the "doing education," which is becoming so justly popular throughout the world for all classes, and is to be the education of the twentieth century. The girls are taught sewing and all kinds of fancy work, the boys the shoemakers' trade, and this year in broom factory, mattress factory, wheelwright and blacksmith shops they will receive instruction in all these industrial arts.

Superintendent Jenkins' report shows the attendance to be eighty-one. Of these the following classification is made: Blind girls, 17; blind boys, 16; deaf girls, 21; deaf boys, 23; total blind, 27; total deaf, 54.

The monthly expenses of the institution for the year the superintendent gives as follows:

- September, \$1,582.12; October, \$2,102.95;
- November, \$1,136.51; December, \$1,357.65;
- January, \$1,545.57; February, \$407.70;
- March, \$7,760.44; April, \$1,729.26; May, \$2,041.60; June, \$510.67; July, \$271.01;
- August, \$651.64. Total for the year, \$27,016.64.

Following these monthly and yearly statement of every dollar disbursed, the particular article purchased from whom, and the price paid, closing with a condensed history of the institution, and suggestions and recommendations of the superintendent and board of managers as to its future conduct and management.

## WAXAHACHE LIBRARY

WAXAHACHE, Tex., Nov. 4.—In the course of a few months Waxahache will be the proud possessor of one of the handsomest public libraries in the state. The board of trustees of the Sims library and Lyceum met yesterday afternoon and awarded the contract for the erection of the building to the Stephens Contract company of Dallas. The contract price was \$22,000. The building will be constructed of the famous Tiffany brick of New York. All the necessary arrangements were signed yesterday afternoon and ground will be broken for the foundation within a few days.

This library is to be built out of the estate of the late Nicholas P. Sims, a pioneer settler of Ellis county, who died about two years ago. His entire estate, consisting of notes, money and other collateral to the amount of about \$65,000, was bequeathed for the purpose of building and maintaining a public library and lyceum in the city.

**WILL EXTEND THE WICHITA VALLEY**

Contract Is Let by President Jones to Manley Brothers for Construction

President Morgan Jones of the Wichita Valley road has let the contract for the construction of twenty miles of the extension of the Wichita Falls and Oklahoma road, which is virtually an extension of the Wichita Valley line. The contract was awarded to Manley Brothers of Oklahoma City. The extension is to run from Wichita Falls to Red River, where the road will maintain its terminus for some time, or at least until it has been determined in which direction the line is to be built.

Colonel Jones says that it is the intention of the company to push the road on into Oklahoma and the Indian Territory as soon as final surveys can be made. While it is not definitely decided, it is believed that the road is to be constructed to Oklahoma City.

It is understood that the work of constructing the line from Wichita Falls will be commenced next week or just as soon as the contractors can unload their outfit at Wichita Falls.

**HAVE GUARANTEED THE BONUS.**  
The citizens of San Angelo have made good the guarantee of \$50,000 to secure the Kansas City, Mexico and Orient railroad, says the San Angelo Standard. The date on which the line was originally to reach San Angelo expired and the railroad company asked an extension of time of the citizens of San Angelo, and the guarantee fund just made good was in compliance with the company's request. The total guarantee fund is \$50,502.50, besides a surplus of \$10,000 on the right of way, making a total of more than \$60,000 in available subscriptions.

**TO COLONIZE HUNGARIANS.**  
The land and immigration department of the Southern Pacific Railroad company has plans under way for the colonization in Texas, probably along that line, of some 450 or 500 Hungarian families, or about 2,000 people all told. The matter has progressed to such an extent that the company has made the announcement.

A representative of the Hungarians in Southern Austria is now in the state looking for a location, and is being assisted by the Southern Pacific. The five hundred families have already disposed of their household effects in Austria and are waiting to hear from the representative regarding when to start for the United States.

The representative has been in Texas two weeks and Sunday next he will start over the state on a tour of inspection for the purpose of selecting a location for the colony he represents, but it is more than likely they will settle in the south part of the state on rice and fruit lands.

It is stated that the cause for these people leaving Austria is the fact that the Austro-Hungarian government has enacted a law which abolishes the Hungarian schools and which will eventually eliminate the Hungarian element from the government. The statement is made in this connection that thousands of Hungarians are preparing to leave their native country and come to the United States, where they will receive better treatment from the government. Every Hungarian who is coming to Texas is a practical farmer.

**QUEER CASE AT EMPORIA.**

Pett was ordered with his company to the maneuvers, and says he was told by Hette that if he went he could consider himself discharged. A test case will be made of the matter.

**CANADIAN LINES WORRIED.**  
An official of the Canadian Pacific is authority for the statement that the company will shortly inaugurate a system of retrenchment and will in a few days issue a circular laying off many men, the force being cut down in every department. The reason given for this action says the president of the company, is because the net profits for the month of September were \$39,188 less than for the same month last year.

**ATTRACTIONS THIS WEEK:**  
Tonight—"A Trip to Chinatown."  
Thursday night—Al G. Field's Minstrels.  
Friday, matinee and night—"The Chaperons."  
Saturday, matinee and night—"Way Down East."

There is something about Jack Campbell, who is the leading man in the Saylor & Miller Company, presenting "A Stranger in New York" and "A Trip to Chinatown," that makes the audience like him, applaud him, and then call him back just once more. Jack has the free and easy style, the "don't give a —" way about him that is delightfully entertaining, and the manner of his coming and going, at each entrance and exit, makes the play interesting. If it had no other good thing to recommend it, "A Stranger in New York" had quite a large audience, and through the three acts there was good singing, some dancing, and situations which were very amusing. The play of course is an old one. It made a great hit its first season, and it does not get shrewdly worn, because the audience always enjoys it. Every member of the company is a singer except Jack Campbell, and whether he is or is not is one of those "How old is Ann" puzzles. Miss Sylvia Starr is the leading lady, and as the "best fellow of them all" she makes a hit. She is tall and stately, a decided blonde, and at her first entrance in a fetching red gown and large red hat, she makes a decided impression. There are quite a number of songs throughout the action of the play, and they are all good ones.

But to return to Jack Campbell. He gave several vocal renditions, and each one was encored several times. His voice would never be used as a sample in a singing school, but something about it pleases. It may be that his hearers think he is making a burlesque of it, and appreciating it as a good burlesque more is demanded, or whether it is so musically painful that it is attractive, it is hard to figure out, but at any rate he is the comedian, and the license allowed that line of work give him scope to use the "pipes" whether they are well tuned or not, and the audience appears to be pleased with it.

Tonight the same company will present "A Trip to Chinatown." The play will include many musical selections, and Jack Campbell will have another try at solos. The prices are from 10 cents to 50 cents—no higher.

**WILL REMAIN VACANT**  
Announcement has been made that the position of secretary of the two railroads now under construction in the south part of the state. The roads are the Arkansas Pass and the St. Louis, Brownsville and Mexico. An Austin special to the St. Louis Globe-Democrat has this to say of the race:

"The most exciting race in railroad building is in progress through a stretch of country 160 miles long, situated in the extreme southern part of this state, bordering on the Rio Grande. The race is between the St. Louis, Brownsville and Mexico and the San Antonio and Arkansas Pass railway companies. The former is a Frisco project, B. F. Yoakum, president of the Frisco, being prominently identified with the building of the new line. The territory through which these two lines will pass is as large in area as two or three New England states. It is a comparatively unknown part of the United States. Brownsville is the most important town in that section. It is situated near the mouth of the Rio Grande and is 160 miles distant from the nearest railway communication with the outside world. There is an old Spanish railroad in operation between Brownsville and Point Isabel, the nearest gulf port, a distance of but a few miles, and on the opposite side of the Rio Grande is an isolated stretch of narrow gauge railroad, which runs from Matamoros up the Rio Grande to San Miguel, Mexico, a distance of seventy-five miles.

The San Antonio and Arkansas Pass was quick to decide to build its line to Brownsville when it learned of the plans of the Frisco. Both roads are now under construction. They will parallel each other for the whole distance. In addition to these two lines, which are being built from the north with all possible speed, Brownsville will obtain another railroad connection from Mexico. The National railroad of Mexico is building a branch line from Monterey to San Miguel, where it will connect with its isolated Matamoros line, which is now being converted from narrow to standard gauge. A joint railroad bridge will be built across the Rio Grande to connect Brownsville and Matamoros.

**BACKING MINNESOTA LINE**  
It is believed that the Rock Island system is backing the new corporation to be known as the Minneapolis Central railroad, the object of which is to build a line from Mankato to St. Cloud, a distance of 110 miles.

**RAILROAD CONSTRUCTION**  
In 1896 American railroads hauled 773,868,714 tons of freight an average distance of 124.47 miles at a cost of 82 cents per ton mile to the shipper. The mileage of American railroads in that year was 151,552.64 (single track). Their equipment consisted of 20,351 freight locomotives and 1,201,887 freight cars. For every mile of road 532,832 tons of freight were hauled one mile, for every engine 37,634 tons, and in every loaded freight train 198.81 tons.

In 1902 this mileage had increased to 292,471.85 (June 30), the equipment to 53,594 (freight) locomotives and 1,546,191 (freight) cars. The plant of the railroad measured by length of line and number of equipment had increased 13 per cent. The efficiency of the plant, however, had increased much

more rapidly. In 1902 for every mile of road 792,357 tons of freight were hauled one mile, every engine hauled 56,874 tons, and every loaded freight train 296.47 tons. In other words, the railway plant of the United States was about 15 per cent larger and 50 per cent more efficient. The result is seen in a lowering cost to the shipper of every important railroad in the country.

Thunders of applause followed Madame Patti's rendering of the Aria from Lina, which was succeeded by "The Last Rose of Summer" and "Home, Sweet Home," to which, in response to repeated recalls, she gave "The Last Farewell," a song written especially for this tour.

Selects Boll Weevil Committee and Transacts Other Business

The regular annual meeting of the Fort Worth Board of Trade was held yesterday afternoon, at which the following delegates to the boll weevil convention at Dallas were elected: Paul Waples, F. G. McPeak, Neil P. Anderson, E. L. Huffman, Felix P. Bath, George D. Bennett, H. C. Edington and Marion Sansom.

On motion Oswald Wilson of the agricultural department of the government was named to use his influence to induce Secretary of Agriculture Wilson to visit Fort Worth. It is stated that the North-Texas Traction Company will place at the disposal of the committee a private car on the Interurban line, in which to bring Mr. Wilson from Dallas to this city.

The meeting yesterday was to have been the annual coming together of the directors, but on account of the small attendance, Secretary Paddock was instructed to address letters to each member and urge his attendance on another meeting to be held Thursday night at the Board of Trade headquarters. Successors to the present board of directors are to be chosen at this meeting.

The following gentlemen were elected as a reception committee for the Board of Trade for the meeting of the Live Stock Exchange Association which convenes here soon: S. Dungee, Stuart Harris, Sam Davidson, W. E. Connel and George T. Reynolds.

TEXAS FACTS ARE BEING COMPILED

Much Data Has Already Been Received by Real Estate Association

The compilation of a statistical history of Texas, to contain information regarding each county in the state value of land, products and similar matters, to be published by the Texas Real Estate and Industrial Association, is receiving the unanimous endorsement of every prominent man approached.

Unsolicted letters from nearly a hundred of the most influential men of Texas have been received by Secretary A. N. Evans, all of them volunteering services in their respective districts. As only a few months remain in which to complete the work and get it ready for the printer, Mr. Evans stated that, if prompt returns were not forthcoming from the properly constituted committee in each district, special committees would be appointed to look after the matter. No time will be lost waiting for dilatory committeemen to report, as the work is far too important to permit of the slightest delay.

Statistics from several districts have been received, duly attested by reputable citizens of the localities from which the information comes. These will be condensed as much as possible, making a book filled from cover to cover with cold facts about Texas that will be of great interest, not only to the Easterner with his eyes towards Texas, but to the Texas man who would be posted on facts about his own state.

A mass of information relative to the early days of Texas has been received from special writers in the Southern part of the state, much of it too valuable to be left unpublished, as it comes in the form of personal reminiscence. This will be preserved for future use as the attempt to publish even a part of it in the book now under way would require more space than will be in the entire book.

A factory for the production of plastic plaster will be put into operation near South McAlester as soon as the lease on a quarter section of gypsum land has been granted by the department of the interior.

Sixty acres of land near South McAlester will be fenced for a fair grounds. A grand stand with a seating capacity of 2,000 will be erected and a landscape gardener has been given a contract for planting shrubbery and flowers.

After having been for sixteen years in the United States, Joe Fassino, an Italian of South McAlester, visited his native land, wood and married a fair country-woman and has brought his bride back with him to South McAlester, where he is proprietor of a macaroni factory.

BOLL WEEVIL MACHINE CO. CHARTERED

Dallas Company Secured Permission to Do Business—Guy Graham Is Acquitted of Murder by Jury

AUSTIN, Texas, Nov. 4.—(Special.)—The Methodist conference of West Texas district convened here today. The attendance is large. Bishop Duncan of Spartanburg, S. C., is presiding. The morning session was consumed in devotional and routine matters.

Court of civil appeals affirmed the cases of Houston and Texas Central railroad vs. G. T. Dugger, from Burnett, and D. A. Kelly vs. Farmers and Mechanics National Bank from McLennan. Reversed—M. H. Woolley vs. M. C. Bell, from Lee. Dismissed—Fort Worth and Rio Grande railroad vs. M. I. Seville, from Brown.

Chartered—The Texas Boll Weevil Machine Company of Dallas, capital \$10,000; Sentinel Publishing Company of Texas, capital \$1,500.

Jury in case of Guy Graham, charged with killing Allie Boswell, four years ago in Robertson county, returned a verdict of not guilty today. The case has been on trial ten days and over two hundred witnesses were examined. This is the fourth trial of the case, which was transferred here from Falls county.

PANAMA CABLES FOR RECOGNITION

United States Will Take No Action for the Present in the Case

WASHINGTON, Nov. 4.—The United States government this morning received a cablegram from Panama asking it to recognize the new government. The officials are ignorant what the new government consists of and have taken no official action on the request.

HOMESEEEKERS' RATES

The Santa Fe local office today received information from headquarters that on the first Tuesday of each month, from October to April, inclusive, cheap harvest excursions are to be conducted by this company. The one-way rate will be one fare of the first class limited rate plus \$2. These tickets are limited to continuous passage. The round-trip rate will be one first class fare plus \$2. These tickets will carry a fifteen days' transit limit on south bound trips, with final limit of twenty-one days from date of sale. These tickets will be sold in the states of Illinois, Iowa, Missouri, Kansas, Nebraska, Wisconsin and Minnesota.

KATY INTO SAN ANTONIO

The Missouri, Kansas and Texas Railroad company has notified its local offices that the sale of tickets to San Antonio may be resumed, beginning today for passage on trains Nos. 25 and 26. These trains will now be run into San Antonio on schedule time as before the quarantine restrictions. The Southern Pacific trains do not yet stop at San Antonio, and the St. Louis-Mexico sleeper will continue to run via Houston.

HON. TAMS BIXBY IS HOME AGAIN

MUSKOGEE, I. T., Nov. 4.—(Special.)—Hon. Tams Bixby, chairman of the Dawes commission, has returned from Washington, where he was called on account of business with the department. He says that he incidentally saw Mr. Bonapart, who will conduct the investigation to be made in the Indian Territory, and that he was assured by Mr. Bonapart that the investigation would begin very soon, and would be thorough and exhaustive. It is the desire of Mr. Bixby and the other commissioners that the investigation be made thoroughly, because they feel that the commission will thereby be exonerated of the charges preferred against them.

Mr. Bixby is of the opinion that the work of the commission will have been completed one year hence; the work in the Seminole and Creek Nations having been already completed, leaving only the affairs of the Cherokee, Choctaw and Chickasaw Nations to be wound up.
