

Hard work and persistent advertising have more fortunes to their credit than any other combination known in business. They're a pair that win.

Daring Robbery of \$290,000 Worth of Securities in Dallas

FORT WORTH TELEGRAM

Big robbery in Dallas—Pacific Company refuses to reinstate former employes—Germany opens diplomatic relations with Panama—No information received at Washington to effect that Colombia is sending troops to Isthmus.

PRICE FIVE CENTS.

FORT WORTH, TEXAS, NOVEMBER 14, 1903

VOL. XX. NO. 129.

THE PACIFIC COMPANY HAS MADE ANSWER

Reply to a Letter From Fort Worth Business Men Is Received

PRESENT EMPLOYEES NOT TO BE DISPLACED

Men Who Stood by the Company During Strike Will Be Retained

BUSINESS AND NOT SENTIMENT RULES

Those Who Voluntarily Quit Work Will Have to Make Formal Application and Take Chances for Places

Local Agent Edgell of the Pacific Express Company this morning received a letter from General Superintendent Rugg at Dallas, in reply to the petition recently presented Mr. Edgell by Mayor T. J. Powell and Rev. J. S. Myers impugning the company to reinstate the messengers and other employes who left the service of the express company some time ago because they were refused an increase in wages of 10 per cent.

Mr. Edgell at once addressed Messrs. Powell and Myers, informing them that the company would not likely discharge the new men unless they proved inefficient, and unless they proved such they would remain in the employ of the company, as it would not be justice to discharge them under the conditions and substitute the men who voluntarily left the company.

The letter received today from Mr. Russ is substantially the same and further states that unless the men receive the union to which they belong they will in no wise be considered for reappointment to positions.

The letter of Mr. Russ, in full, is as follows: "I am in receipt of petition of, I presume, the majority of the business men of Fort Worth, same presented to you by Mayor Powell of Fort Worth and Rev. J. S. Myers, and by you forwarded to me. "As a matter of course, Mayor Powell and Rev. Myers, as well as the signers of the petition, are well aware that when these men left our service, we had to replace them. Now, they surely can not ask us to be so unjust to the new men as to displace them to make room for men who voluntarily left their work, refused to work, and in a great many instances strove to prevent others from taking their places, although they did not want the places themselves.

"Those of our ex-employees who left the service October 15 and went out on a strike, who behaved themselves during the strike, we hold nothing against, and there is no reason why, if we needed their services, we should not take them back, but, surely, as a business proposition and as a right to the men who came in and filled these places, stood all kinds of abuse, we should not be expected to displace faithful men to replace men who left our service of their own accord, and as far as possible interfered with the conduct of our business generally.

"Briefly summing up: Those of the strikers who conducted themselves properly during the strike, we have nothing against, and when we have vacancies, that occur as vacancies do occur, there is no reason why we should not employ them—we must have men—but we are not going to displace a single man to make room for men who voluntarily left our service.

"We, of course, appreciate the spirit that prompted Mayor Powell and Rev. Myers, but, with us, it is not a question of sentiment. We are in duty bound to stand by the employes that stand by us."

It is said that the messengers and others who left the Pacific Express Company and went on a strike number something like 200 in Texas, and of this number about thirty-five or forty were in Fort Worth, while in Dallas there were only twelve. Of the total number who struck the company has reinstated only about eighteen or twenty. The majority of these were clerks and not messengers.

Those who struck represent only about 15 per cent of the men in the employ of the company in the state at that time. All those who wish to go back into service will have to make written application for situations according to the statement made by Superintendent Russ.

Mr. Russ also states that applications will not be considered unless accompanied by assurances that the applicant desires to withdraw from the messengers' union. In Fort Worth only two men are said

SAY THEY'RE FORGERS

Chicago Police Believe They Have Made Big Catch

CHICAGO, Nov. 14.—H. L. Kaines, alder C. H. Miller and H. L. Scott, said by the police to be two of the cleverest railway ticket forgers in the country have been arrested. Stamps, chemicals for altering tickets and blank order slips were found in their room by the police.

Among the complainants against the prisoners are: R. F. Mahone, general passenger agent of the Chicago, Great Western railroad; H. E. Smith, general passenger agent of the Chicago, Milwaukee and St. Paul railroad, and Passenger Agent L. D. Heusser of the Michigan Central. As a result of the arrests a number of ticket scalpers' offices will be searched.

The men, it is alleged, send thousands of dollars worth of transportation from the different roads by presenting a forged letter purporting to be issued by the superintendent of the Mexican Central railroad. The letter stated that Kaines was a railroad employ on a furlough. It was addressed to the passenger agents of the railroads requesting them to furnish the bearer with transportation.

According to the police the prisoners have operated all over the country. They employed the same methods, it is alleged, in St. Paul, Kansas City, Omaha, Milwaukee and Cincinnati.

The Western Passenger Association will prosecute the cases against the prisoners. It is alleged that they were making a business of furnishing clearance cards and letters of recommendation for employes of the various lines throughout the country as a means of defrauding the railroads of transportation.

COLLECTIONS ARE BETTER IN SOUTHWEST

Trade Conditions in Cotton Region Show Improvement. Week Somewhat Unsettled and Conservatism Is Shown

NEW YORK, Nov. 14.—Special telegrams regarding the state of trade from correspondents of the International Mercantile Agency throughout the United States and Dominion of Canada are summarized as follows:

The week has been marked by a somewhat unsettled feeling and renewed conservatism in commercial circles. Distribution of staples is smaller than a week ago at Chicago, materially so at Pittsburg, where industrial activity has improved except for millinery. Cooler weather has improved trade in New England, warm weather has dulled demand at Baltimore and at Louisville.

Collections are rather slow in territory tributary to St. Paul, but in the cotton regions they are growing easier. Flour makers report a good business, but moderate collections.

Kentucky has a medium tobacco crop, but prices are better than last year. Philadelphia merchants say trade in stables is smaller. October lumber shipments from Minneapolis were the largest of any month this year.

Encouragement is felt at the new policy of the steel trust. Consumers will no longer have to go abroad for steel. Ten thousand tons of rails have been sold to go to China. More mills are opening, and some are closing temporarily. Colorado's coal strike affects the settlement of Montana's copper war. Fall River's wage out was not altogether unexpected. Makers of prints have been losing money at late prices for material and rate of wages. But high cotton is making foreign exchange fast, now that Europe is demanding all it can get regardless of price—the most significant financial feature of the week, with cotton, not steel as being the tight money has checked the rising demand for bonds, but shrewd people are making large investments at bottom prices.

Trade conditions at Montreal are about the average and demand for reasonable goods is fair. Mild weather at Toronto has checked the distribution, but dealers report the beginning of holiday trade in fancy goods and jewelry. Canadian lumber cut will be less this year than last, owing to scarcity of labor. Canadian banks are loaning money in the United States, which makes it more difficult to secure funds here.

BRAZOS VALLEY REPORT

CLEBURNE, Texas, Nov. 14.—(Special).—Lumber is being placed on the ground for the Trinity and Brazos Valley freight depot. The road has been finished north as Osceola, and the construction is being pushed rapidly toward Cleburne.

A. C. Barber has returned from south-east Texas. While away he and his brother from Mississippi purchased a saw mill with a capacity of 40,000 feet per mill with 500 acres of long leaf pine land, and day; 500 acres of long leaf pine land, and day; 500 acres on 3,000 acres of pine land. Mr. Barber and his brother will establish a chain of lumber yards over Texas.

THE WELLS GETS NEXT CONFERENCE

Wins Out From Hillsboro by Majority Vote of Members

VARIOUS REPORTS RECEIVED TODAY

Regent of Southwestern University Talks of the Work There

CLOSING OF FAIR ON SUNDAY NOTED

Ruling of Louisiana Purchase Exposition Commissioner's Praise by Committee—Temperance Committee Reports

The Northwest Texas conference of the Methodist Episcopal church, voted this morning to hold its next session in Mineral Wells, that town being selected over Hillsboro by a rising vote.

It was announced this morning that it has been decided to hold services tomorrow at the Mulkey Memorial church, and Rev. J. S. Chapman of the Georgetown district will preach at 11 a. m. and Rev. A. V. Harbon at 7:30 p. m.

In answer to the question this morning, "Who are admitted into full connection?" these came forward and answered the questions in the diploma, asked by the bishop:

L. A. Reavis, Frank Huxben, James B. Berry, Thomas Hanks, James P. Curry, R. A. Evans, John A. Travis, W. M. Griffith, M. T. Dixon, J. T. Hicks and M. M. Hopkins.

During the morning session R. S. Heyer, regent of the Southwestern University at Georgetown, was introduced and made a short address on the success with which that institution has been blessed.

Dr. John G. McReynolds, dean of the medical branch of the Southwestern University, located at Dallas, told of the progress in the work. He made quite a lengthy talk, and went into detail. Bishop Duncan commended the work, and wished it success.

The conference opened this morning with the question, "Are All the Preachers Blameless in Their Lives and Official Administration?"

The roll call continued and the pastors reported from their various charges.

COTTON GIN IS NOT GINNING. I. T. Harris, in charge of the Cotton Gin circuit, in Navarro county, had a report of a deplorable condition of affairs. The people have not been able to pay up their obligations to the church because of the destruction by the boll weevil. He stated that up to this time last year at the town of Cotton Gin, between 800 and 900 bales of cotton had been ginned. This year when he left for the conference but sixteen bales had been ginned. The bishop said he was very grateful that under such conditions Mr. Harris was able to get here.

HAS SPECIAL WORK. Rev. J. Harabson asked to be referred to the committee on conference relations for a superannuated relation. He said he had a special work in which he wanted to engage, and at the same time he did not want to sever his connection with the conference.

"But have you no other reason than that you want to engage in a special work?" asked Bishop Duncan. "No, sir," answered Mr. Harabson. "Are you broken down in health, aged and infirm?" asked the bishop. "No, sir," he answered; "but the committee can pass on that."

"Well, if the committee reported you for any such reason, I would have to overrule R. S.," said the bishop. "I cannot sit here as the administrator of affairs of the church and see the laws violated."

The conference referred Mr. Harabson to the committee.

BOARD OF MISSIONS. The board of mission reported as follows: "Your board of missions would call attention to the matter of the policy adopted by it, that after this conference we will not appropriate money to city missions, when there are three or more pastoral charges, unless there shall be organized a city board of church extension, and then only in co-operation with said city board."

THE TELLER'S REPORT. R. H. Woods, teller of the conference, reported. He received a grand total of \$40,799.63. This has been disbursed as follows:

Table with 2 columns: Item and Amount. Foreign missions 9,910.00, Domestic missions 8,947.79, Bishop's fund 2,150.11, Episcopal claims 8,514.34, Episcopal residence 293.07, Education 3,824.17

COLOMBIANS FURIOUS AT REVOLUTION

Acting President Declares They Will Not Consent to Secession

LAST DROP OF BLOOD WILL BE SHED FIRST

Colombia Counting on Sympathy and Support of Other Republics

WASHINGTON HEARS NO FRESH REPORTS

Official Confirmation of Story That Troops Are on the Way to the Isthmus Is Lacking. Policy Is Outlined

NEW YORK, Nov. 14.—Cabling from Panama, the correspondent of the Herald says direct communication has been re-established with Bogota, capital of Colombia. He forwards the following despatch sent from that city under date of November 10:

Acting President Jorge Holguin said today that Colombia never will recognize the independence of Panama.

"My government will exhaust its last drop of blood and its last cent in putting down the rebellion," he said. "I wish to make the announcement to the world that we will not submit to isthmian independence."

General Rafael Reyes, who has been appointed generalissimo in chief of Colombia's fighting forces and who left today for the coast, has a large and well equipped army. He announced that he had left behind a force of 100,000 men ready for any emergency.

All the departments and parties have promised unconditional support and financial aid to the government. The people are furious over the revolution.

Bogota continues in a state of siege, but the United States legation is well protected.

It is asserted in Bogota that the isthmian movement is not unarmist. The government declares that it has assurance from the interior provinces of Panama that they are not in sympathy with the rebellion and can be relied upon to assist in putting down the rebellion.

The Colombian government and the people are satisfied that patriotic sentiments will prevail and before long "the isthmus will realize the error of its course and will return to the mother country before Colombian blood shall flow in torrents."

From reports received here the government is counting upon the sincere sympathy of all the South and Central American republics.

NO NEWS AT WASHINGTON. WASHINGTON, Nov. 14.—The state department has received no information to the effect that a large body of Colombian troops is marching on Panama. Officials here regard the present force on the isthmus adequate to meet any emergency. Nothing has reached the state department over night bearing on the isthmian situation. It is stated the original program of the government will be carried out. Upon information of the Colombian troops embarking for the isthmus the commanders of troops will be informed that troops cannot land, and in the event an attempt is made to land them the government will interfere. It is not thought the Bogota government can secure transports, in view of the attitude of the United States. It is further stated from the present naval force on the isthmus that 2,000 marines could be landed by the United States.

NEWS AT LIMA. LIMA, Peru, Nov. 14.—The Colombia minister to Peru has published here cables received from his government dated at Bogota, November 10, 11 and 12, respectively. The cables say that the Colombian government has taken measures to suppress "the isthmian traitors," and adds that all the parties and all classes have offered to the government their lives and property in defense of the national territory.

GREAT BRITAIN WILL WAIT. LONDON, Nov. 14.—From inquiries made by a representative of the Associated Press, it is believed that President Roosevelt's reception of Philippe Buncu Varilla as representative of Panama, will not affect the attitude of Great Britain toward Panama. While the British government is quite willing to leave the arrangements of affairs on the isthmus to the United States, it does not desire to commit itself to recognizing Panama's

TROOPS ARE ON THE WAY

According to Advice Received at Guayaquil, Ecuador

GUAYAQUIL, Ecuador, Nov. 14.—General Plaza, president of Ecuador, has cabled to President Marroquin of Colombia, sympathizing with him in the recent events on the isthmus of Panama.

President Marroquin has replied thanking General Plaza, and adding that Generals Reyes, Caballeros, Ospina and Holguin are marching on Panama with a large army to subdue the isthmians.

CONFEDERATE VETERAN Bill Providing for Privileges to Them Is Offered in House

WASHINGTON, Nov. 14.—The following, among other bills, were introduced in the house yesterday:

By Rixey of Virginia, extending the privileges of National soldiers' homes to veterans of the Confederacy.

By Smith of Illinois, reducing letter postage to 1c.

By Wiley of Alabama, providing a penalty of ten years' imprisonment for the crime of train robbing and imprisonment for life for the crime of obstructing a passenger.

By Loudenslager of New Jersey, authorizing the secretary of the treasury to reimburse governors of states for money expended by them toward the expenses of state troops mustered into the volunteer service during the war with Spain upon certificate by governors as to the accuracy of their claims.

By Lacey of Iowa, granting grazing privileges to homestead settlers and holders of small farms on the public domain.

By Stratton of Colorado, authorizing the issuance of currency redeemable in bonds of the United States. This measure is intended to cause the conversion of United States bonds into 1 per cent bonds.

By Gardner of Michigan, providing for "post check notes of denominations of \$1, \$1 and \$5." This bill is identical in wording to the one introduced into the last congress.

NEGOTIATIONS FOR CANAL TO BEGIN QUICKLY

Arrival of Panama Delegates Will Be Followed Immediately by Commencement of Work—Perpetual Lease

WASHINGTON, Nov. 14.—The state department has learned that Messrs. Boyd, Amador and Arosamena, the commissioners appointed by the Panama government to assist Minister Bureau-Varilla in the negotiation of a canal treaty with the United States, will arrive in New York next Tuesday, and in Washington on the following day.

The treaty negotiations are expected to begin formally almost immediately upon their arrival. In fact, a good deal of work of a preparatory nature in the construction of a new treaty has already been done, but of course this is all unofficial, though the work is a product of persons who will have some part in the preparation of the definitive treaty.

PERPETUAL LEASE. It is stated by some of those persons that the Panama government favors the making of a perpetual lease with the United States to cover a canal strip ten miles wide, across the isthmus. It is urged that this plan is more politic than the original proposition, to give the United States a fee simple title to the land, a proceeding which would go far toward confirming the suppositions of some of the South and Central American countries respecting the designs on the part of the United States.

Yesterday's report on the isthmus, through undoubtedly reliable channels, is to the effect that everything is quiet, and there is no apprehension of a hostile collision with Colombia.

The reported action of the Nashville in turning back to Colon a detachment of Panama troops bound for Porto Bello, is said at the navy department to be an indication of the position of the United States government, which is animated, it is stated, by the single purpose of preventing any one, whether from Colombia or Panama, disturbing the peace on the isthmus.

NEWS OF STROUD, O. T.

Rains Have Retarded Cotton Picking. Prices Are Higher Than Usual. STROUD, Ok., Nov. 14.—(Special).—Heavy rains have retarded picking cotton for past two weeks. Indications now are that we shall have some fair weather. Cotton prices are higher this year than any previous year in this section.

STARTLING ROBBERY IS COMMITTED

\$290,000 Worth of Notes and Bonds Taken From a Buggy in Dallas

THEFT OCCURED IN BUSINESS DISTRICT

Reported by President Alexander of Velasco, Brazos and Northern

NOTES AND BONDS RAILROAD SECURITIES

Left in Buggy While Mr. Alexander Went Into an Office, They Were Gone When He Returned—Police at Work

DALLAS, Texas, Nov. 14.—(Special).—President Charles H. Alexander of the Velasco, Brazos and Northern railroad company reported to the detective department of the city hall that thieves last night stole a valise from his buggy containing \$250,000 worth of bonds, \$30,000 worth of notes and two pistols. The bonds and notes were securities of the railroad. The entire detective force of the city is at work on the case. The buggy from which the property was stolen was hitched on one of the most prominent corners in the business district, while President Alexander was in an office consulting with other persons.

COTTON REPORT ALONG FRISCO

General Conditions Are Good and Weather Has Been Favorable

W. C. Preston, general freight agent of the Frisco railroad, has just issued a bulletin of the condition of cotton along that road. The report covers nineteen different points on the line between Sherman and Brady, and is as follows:

Sherman—Cotton being gathered steadily; weather favorable; slight frost.

Dorchester—Weather favorable; one-half bale to acre. Corn forty bushels to the acre.

Gunter—Cotton about all open; one-half bale to the acre. Corn forty bushels to the acre.

Celina—Weather favorable, and cotton being gathered steadily.

Prosper—Cotton about all out; one-half bale to the acre. Corn gathered. Wheat being planted. Corn forty bushels to the acre.

Frisco—Cotton coming in slowly; weather favorable. Corn forty bushels to the acre.

Correllton—Cotton nearly all picked; three-fourths of a bale to the acre. Corn thirty bushels to the acre.

Giapine—One hundred bales per day is being marketed; one-half bale to the acre. Weather very fine.

Cresson—General cotton condition good; one-fourth bale to the acre. Weather fine. Corn forty bushels to the acre.

Toler—Cotton one-half bales per acre, condition good and cotton coming in steadily. Corn 35 bushels to the acre.

Clanburg—Cotton conditions fine. Late June planting now safe. Larger receipts than expected.

Bluffdale—Gathering of cotton progressing nicely; will be all out by the 1st of December.

Stephenville—Weather continues fine; 9,511 bales received to date, with prospects good for 5,000 more.

Dubin—Cotton conditions good; one-half bale to the acre, receipts steady. Seventy-five per cent of the crop gathered.

Proctor—Cotton opening fast; one-half bale to the acre. Corn thirty bushels to the acre.

Comanche—Cotton coming in rapidly; half the crop is gathered.

Blanket—Crop about two-thirds out; one-third bale to the acre.

Drownwood—Cotton in good condition; one-half bale to the acre. Corn thirty bushels to the acre.

Brady—Cotton three-fourths picked; one-third bale to acre.

Today's Market Quotations

Latest and Most Complete Report Printed in North Texas

NORTH FORT WORTH, Nov. 14.—Receipt of cattle at outside points, as well as here, for the week thus far, show a decrease with the same period last week and has resulted in a better tone in the closing of the week's market.

The Llano Cattle Company had on the market from the "Curry Comb" ranch, near Stanton, Texas, 224 good quality cows, averaging 825 pounds, which sold at \$2.15, with a top price for three head of extra choice Durham cows, averaging 1,143 pounds, at \$3.50, with the bulk of sales on the fair kinds and grassers at \$2.00.

As a whole, all classes of cattle sold well today, with the prospect for better prices next week, providing the receipts keep in a reasonable limit of the demand. The receipts of hogs today was hardly up to the usual Saturday run, and at a late hour only one car had arrived for the market, with enough wagon hogs to make the receipts for the day figure close around 100 head. For a good strong early close buyers bought the light supply at strong and active prices, paying a top of \$4.90 for a small drive of choice sorted 197-pound butchers, shipped in by D. L. Bennett of Waxton, Ok. Fair quality pigs sold at \$4.80, with the heavy stuff, weighing around 300 to 350 pounds, selling at \$4.50.

With the exception of Kansas City, the light receipts at all northern markets today sold steady, with an early clearance. The receipts for Monday are estimated at 1,500 head, with the prospects for a steady to easy market.

TODAY'S SHIPPERS

Table listing shippers for cattle and hogs, including names like E. A. Estes, Odessa, and T. W. Taylor, Sulphur Springs.

COMPARATIVE RECEIPTS

TOP PRICES TODAY

Table showing top prices for various types of cattle and hogs.

REPRESENTATIVE SALES

STEEPS.—The only bunch of good steers offered on the market today sold a little above at \$2.50. They were common quality cattle, but were fairly well finished and averaged 1,041 pounds. A big string of steers, averaging 885 pounds, driven in by B. C. Smith from his Tarrant county ranch, sold on the late market Friday at \$2.55, with the average quality grass steers selling today at \$2.50. The sales:

Table of representative sales for steers, including names and prices.

COWS.—The quality of the light run of cows today was good and the small supply sold early at steady and active prices. The Llano Cattle Company marketed 224 good quality range cows, averaging 825 pounds, at \$2.25, with a top of \$3 for three head of choice heavy Durham cows, averaging 1,143 pounds. The sales:

Table of representative sales for cows, including names and prices.

BULLS.—A proportionately heavy run of bulls were in today and were disposed of at unadvanced prices. One heavy fat bull, weighing 1,280 pounds, brought \$2.50, with the bulk of sales at \$1.60. The sales:

Table of representative sales for bulls, including names and prices.

HOGS.—Choice sorted medium weight hogs, averaging 197 pounds, brought \$4.90 today, with the bulk of the light run selling active at steady to strong prices. The sales:

Table of representative sales for hogs, including names and prices.

FOREIGN MARKETS.—Following are the receipts at the four principal markets today:

COTTON QUOTATIONS

Published by F. G. McPeak & Co.

NEW ORLEANS, La., Nov. 14.—Cotton operators are now face to face with the difficulty which confronts all men of affairs in revolutionary times. Old prejudices must be flung aside, old creeds must be remodeled to conform with the new learning. Some of the novel dogmas are exceedingly hard to assimilate, for example, the patent fact that a big movement implies a big advance. Then, too, one must be prepared to admit that parities are a thing of the past. Also that the kin house instead of the mill is the headquarters. We doubt these fond paradoxes will become common places before long. Experience keeps a dear school, but its teaching is conclusive.

RECEIPTS

Receipts of cotton at the leading accumulative centers, compared with the receipts of the same day last year:

Table comparing cotton receipts for today and last year at various locations.

ESTIMATED RECEIPTS

The estimated receipts of cotton for tomorrow at the places named, compared with the receipts same day last year, are as follows:

Following is the weather record for the last twenty-four hours—minimum and maximum temperature, wind in miles per hour at 8 a. m. and rainfall in inches:

Table of weather record for various cities, including temperature, wind, and rainfall.

W. B. Frederick will open one of the largest implement and furniture stores in the territory in Tulsa about the first of the year. Mr. Frederick is in town this week and has rented a large store room 5x100 feet and bought a residence. He has for several years been selling implements for a big wholesale house.

Another gas well came in for the Guffy & Galey people this week. It is about two miles north of Tulsa and is one of the strongest in progress that have been found in this part of the country.

This week the big brick plant north of town was connected with a gas well by pipe and began to burn brick by the use of gas as fuel. This is the second plant in Tulsa to use gas as fuel. Several mills and factories are ready to use it as soon as it is piped into town. The Guffy & Galey people have a franchise to furnish gas to the town for both fuel and lighting purposes. They will probably not get their pipes in before spring.

FOREIGN AND LOCAL METHODS OF TEACHING

An Interesting Discussion of Dr. Klemm's Work on European Schools by Teachers' Institute

"Klemm on European Schools" was the subject of debate at the Fort Worth Teachers' Institute in the high school. The discussion proved unusually interesting and helpful it was led by Prof. R. L. Paschal and many of the teachers participated.

In opening the session, Superintendent Hoag drew attention to the near approach of Thanksgiving day and said that the occasion for the Fort Worth Benevolent Orphan home would be received this year as usual. He also said that he was gratified to note that the attendance in the high school during examinations was larger than at other times and that he supposed the same was true of the ward schools.

Before the business session was opened a delightful music program was rendered. Miss Helen Mardock and Miss Redef gave vocal solos. Miss Nadine Spoons a violin solo and Miss Charlotte Gregg a piano solo. Miss Mary Malone was accompanist.

TO CURE A COLD IN ONE DAY. Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. W. F. Grove's signature is on each box. 25c.

WEEK'S STOCK MARKET

Liquidation in Steel and Pennsylvania Has Had Small Effect

NEW YORK, Nov. 14.—The heavy liquidation in United States Steel stocks, followed by a similar movement in Pennsylvania, have been the dominating influences in the week's stock market. The selling of the steel is attributed to fear of a coming period of severe trade depression in that industry. The large interest of the Pennsylvania in steel traffic has made that a contributing cause to the weakness of that stock also. Depression of the coal trade is an added factor. Large issues of bonds by Pennsylvania's subsidiary companies is regarded as an important cause of the selling of that stock. The inauguration of the gold import movement has afforded assurance of security in the money outlook.

THE CEASELESS ROAR

Of Traffic in New York Has Driven One Woman Insane

NEW YORK, Nov. 14.—Mrs. Neekie Veselin, 40 years old, who lived until four months ago in an interior town of Russia and had never seen anything propelled by steam or electricity, has become insane because of the noise made by elevated trains passing the home of her daughter, with whom she lived. She began to complain a fortnight ago and finally covered her ears and screamed wildly when a train passed. At last, she attempted to leap from the window to escape the tormentor and was taken to a hospital.

SWITCHMAN IS INJURED

Day Foreman of Switch Crew at Stock Yards Badly Hurt

Yesterday afternoon Harry Stewart, foreman of the day switch crew of the Fort Worth Belt Railway Company, was injured by a moving car and seriously hurt. At the time of the accident one of the belt engines was pulling up to the cattle dock with a string of stock cars upon one of which Stewart was standing. In an attempt to climb down he lost his hold on the hand holds of the car, falling between the dock platform and the moving train. In striking the ground Mr. Stewart rolled a few feet and escaped with his back probably saved his life, as the rails are only about four feet from the dock platform. He was picked up by members of the crew and conveyed to his home, where he received medical attention.

TWO MORE DEATHS

Yellow Fever in San Antonio Not Yet Stopped

SAN ANTONIO, Texas, Nov. 14.—(Special)—Henry Krempkau died suddenly this morning at his home on El Paso street. Experts call it yellow fever. One other case is reported dead.

CARLYLE GETS FIVE YEARS TO THINK IT OVER

Bigamist Caught in This City, Excoriated by Federal Judge Who Passes Sentence at Kingfisher, O. T.

Robert E. Carlyle, who was arrested in Fort Worth some time ago and taken to Oklahoma for trial as a bigamist, has been sentenced by Federal Judge C. E. Irwin, sitting at Kingfisher, to five years in the penitentiary. It will be recalled by readers of The Telegram that at the time of his arrest in this city, Carlyle was accompanied by a young woman whom he had been married only a short time. She heroically announced that she would stand by him and that he was innocent. She accompanied him to Kingfisher. Upon reaching that city it began to develop that Carlyle had wives in a number of cities. Carlyle was a few doctor. Judge Irwin in passing sentence upon the man scathingly arraigned him. Copies of the speech have been printed and mailed to attorneys throughout Oklahoma. Judge Irwin said:

"I have no idea that any word of mine would be of any avail for good when addressed to a man of your age and apparent intelligence and a man of your experience. Your story as told by yourself from the witness stand shows conclusively that you are a person wholly devoid of humanity, without any spark of manhood, honor or principle. I listened carefully to it from beginning to end with a hope that somewhere in its dark, dastardly details I could possibly find something that would show that somewhere, some time in your checkered career, you may have been something better than what you have shown yourself to be. Your victims have ever been the innocent, the virtuous and the inexperienced. The robber, the burglar or even the murderer in the commission of their crimes have some elements of courage, but your crime is not only dastardly, but cowardly. Your crime is one of the most dangerous to society. It strikes a blow at that upon which the very foundation of society rests—the family relations. You have shown by your conduct as detailed by yourself that you have no regard for any of the sacred relations of home and family, or husband, father or child, and no regard or consideration for the innocent or the virtuous. You have trampled under your feet all the sacred relations of life, apparently guided and actuated only by your unlicensed greed.

"You have fitted from place to place in your devious career, leaving behind you a trail of broken hearts, weeping eyes and sorrowing families. You have left along your way blasted hopes and ruined prospects. According to your own story, after you had damned your soul with the basest of ruin and destruction a young, bright girl, who loved and trusted you, scarcely had the ink which evidenced that black and damning perjury dried upon the paper until you sought more innocent victims to destroy. You came here, selected another family as the mark for your destructive work, and wormed yourself into the good graces of that innocent and unsuspecting school girl.

"I only regret that the legislature of this territory in its mistaken wisdom has placed it beyond my power to give you the punishment you deserve. It is a sad commentary on our criminal system that a man convicted of bigamy can be awarded a sentence only five years in prison. The only advice I would give you now would be that, in the seclusion and solitude of that institution to which you are about to be consigned, you devote your time to prayer, to the goal of the Universe that He find it within His infinite mercy to excuse your dastardly crime. Ask Him to save such a polluted soul as yours."

Fort Worth As It Is Today

In the first place Fort Worth is the most essentially American city of its size in the United States. It has 4 per cent colored population, 1 per cent foreign born and 90 per cent American-born white population.

Fort Worth possesses the purest water in the world. It is artesian and is obtained by a tunnel system from 900 feet below the earth's surface.

Fort Worth is situated on a high bluff overlooking the beautiful Trinity river. The West and Clear forks of which converge at this city. Until the artesian system was installed Fort Worth's water supply came from the Trinity in part from artesian wells in part.

Statistics show that Fort Worth, in proportion to population, is the second healthiest city in the world, and with the introduction of artesian water it is certain to become the most healthful.

Although young in comparison with other leading Texas cities, Fort Worth has rapidly overgrown the advantages its rivals had by reason of their earlier started. Fort Worth today is acknowledged to be the most rapidly growing city in Texas.

If you are interested in Fort Worth, read the following: Population, 43,000. Good newspapers. Rural mail routes. Five kindergartens. A \$100,000 city hall. A healthful climate. Beautiful residences. A \$75,000 county jail. Many women's clubs. The Commercial Club. Five artificial ice plants. Four express companies. Responsible city government. Forty acres of public parks. Eighteen public schools. Several massed school buildings. Annual business receipts, \$100,000,000. A \$500,000 county seat. Fort railroad machine shops. Bank deposits over \$2,000,000.

"FIFI, THE IRRESISTIBLE."

A rill of gladness pure and simple.—New York Times. I defy the season to produce anything better than this romance.—Chicago Tribune. THE FORTUNES OF FIFI is the gayest, daintiest, most altogether charming story imaginable. A real master-stroke in the character of Fifi—an utterly irresistible little bit of French humanity. PREPARATION FOR SHAVING MINUS RAZORS

One Application of Lather, Ten Minutes' Wait, a Few Drops of Bay Rum and a Dash of Cold Water, 'Tis Done

Fort Worth As It Is Today

NEW YORK, Nov. 14.—Why use a razor? Why pay the barber 15 cents for a shave and 10 cents extra for not cutting your throat? The answer isn't "Let your whiskers grow," either, for Dr. Wolfram Dreyfus, chief chemist of the department of public charities, has compounded a hair mixture which, if rubbed over the face, will do the trick as quickly and as well as the finest Sheffield razor. This is the wonder-working compound: Barrii sulphidi, 25 parts. Saponis pulvis, 5 parts. Talcii veneti pulvis, 35 parts. Tritici farinae, 35 parts. Benzaldehydi, quarter solution.

It appears in the new hospital formulary which Dr. Dreyfus issued yesterday. This formula contains 387 formulas and is the most extensive ever issued by a hospital. Dr. Dreyfus has been working for a long time on this "pulvis depilatorius," or shaving powder, and after many experiments he says that he has found something that is satisfactory and harmless.

The several ingredients mentioned above, when mixed together, make a powder. For the new scientific razorless shave you take one teaspoonful of the powder and mix it with three teaspoonfuls of water, making a paste which you apply to the face in a moderately thick and even layer with a brush from your other hand. Change the shaving water. After you have shaved, rub the lather with a sponge for a few minutes more you will find that the hair is not leaving a trace.

It is not that this new shaving powder is so wonderful. It is that it is so simple and so effective. It is so simple that it can be used by anyone. It is so effective that it will save you the trouble of shaving. It is so simple that it can be used by anyone. It is so effective that it will save you the trouble of shaving.

WHAT SCIENCE DISCOVERS

Every day science brings out new theory to add to the terrors of everyday life, and following the announcement that mosquitoes are masters of transportation in the matter of yellow fever germs, comes a discovery which will make the average man dodge a fly as he would the strike of a poisonous reptile.

Professor William L. Underwood of the Massachusetts Institute of Technology has counted the microbes hatched in a colony planted by a single house fly, walking a single time over a single glass of jelly.

"The population of one of these colonies was counted," writes Professor Underwood, "and forty-six million germs were found to be present in a single spot. They had, of course, multiplied many times after the were planted on the jelly by the fly's tongue."

What are we coming to and how are we to avoid all this? Is it possible that with mosquitoes carrying one kind of a germ and the house fly another, that we have reached a population of something like 70,000,000 people? Even though we have been successful thus far, how are we to stay here much longer, with germs being found every day by science? Of course we did not know of these things heretofore, we were not bothered with the diseases which the germs will create, but now that science has told us the germs exist, that they are dangerous, and they are so numerous, we are, of course, susceptible to them, and there is no way out of it. We are trying to kill mosquitoes with crude oil, and we are catching flies with fly paper, but we do not get them all. We can only hope, as did the comedian in a comic opera production who continually asked if any one knew where the flies went in the winter time, always being answered in the negative. Finally some one asked him, "Where do flies go in the winter?" and he replied, "I do not know, but I wish they would go there in the summer." Now if we can persuade science to hold up the distribution of these germs among us until we can have the flies agree to go to the winter hiding place in summer and stay there, we may be saved. Otherwise we can only meet science with science, and try the Mary Baker G. Eddy method of being treated.

THE RAILROAD COMMISSION

The Railroad Herald of Atlanta, Ga., has this to say of the Texas railroad commission:

The Texas railroad commission has carried its open-handed enmity to the railroads to an interesting extreme. We say open-handed enmity, for nothing else will express the well-defined attitude of the commission; it obviously wants to exact of the railroads the best possible service, without permitting the private capital invested in them to earn a dollar out of the commerce of the state. It latterly seems to have conceived the determination of using the interstate lines that come within its borders as an instrument of discrimination against the commerce of adjoining states, in order to build up that of its own.

The people of Texas will hardly agree with the Railroad Herald that the commission is such an enemy of the railroads. There is not a railroad in this state which will be willing to see the commission abolished. In fact, they like the commission, and they will allow it to continue its rate making without interference as long as the rates are as satisfactory to the roads as they are today. At a meeting of the commission held in this city recently the commission submitted a new classification. Merchants were asked to come on and discuss these rates, and the only discussion was from a Fort Worth shipper who showed that the commission was endeavoring to double a rate which had been formerly made by the railroads themselves. If the classification is as much against the shippers as was this one item, the railroads certainly have no protest against such rulings. The Herald is talking at long distance, and evidently does not know that the railroads of Texas are thoroughly satisfied with the commission, and they take issue with no substitute.

The Hurry and Hustle of Work Often Causes Ill Results

People nowadays work the body too hard. Out-of-door work pushed to excess, is hard on the back and kidneys. So is sedentary work over a desk. The result is a weak kidney in every walk in life. People in Fort Worth are learning how to keep the kidneys well. Here's proof of it:

H. E. Mills of 1402 Main street, one of the oldest railroad men of Texas, who recently came here from Denison, says: "I am very glad to add my testimony to that of many other Fort Worth citizens who have publicly endorsed Doan's Kidney Pills. The everyday work done by railroad men is, as everybody knows, very hard on the kidneys. I was employed for years in the Denison yards on the Missouri, Kansas and Texas railroad and about two years ago I strained my back in some way and was laid up for several days. After that I hot only suffered from backache, but there were very marked symptoms of kidney trouble which told me that something ought to be done at once. A friend advised me to try Doan's Kidney Pills. I did so, and a short course of the treatment made me as strong and well as ever. I consider Doan's Kidney Pills one of the best kidney medicines on the market today. No one need suffer from kidney complaint when they are so easily procured at Weaver's Pharmacy, and I advise everyone to make the trial."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute.

2 1/2 doz. 50c. 1 doz. 25c. 50c. 25c. 10c.

with it only occasionally on special rulings.

MEN SHOULD READ

"Reading maketh a full man," has been written, and it is true. Bishop W. W. Duncan of the Methodist Episcopal church, South, evidently believed this, as he continually seeks to impress upon those attending the conference the necessity for circulating the literature of the church.

When a preacher had reported that the stewards of his church are behind with the salaries of the pastor and the presiding elder, the bishop asks: "Do your people read our literature?" The answer invariably is that but a few do so. "That is the reason. Get them to read the church literature and they will recognize the importance of the financial end of the work," says the bishop.

A lesson can be drawn from this. The good bishop, after years in the work of the church, realizes the influence which literature has upon men and women. He knows that men and women are controlled to a great extent by the reading which is put before them, and he wants to see that class of literature which is elevating and instructive put in the hands of every church member. Reading improves the mind, it betters the person in every way, and it makes him a better citizen. This reading need not be church literature altogether, but current literature of a good character. The daily newspapers are instructive, they are educating, and they raise the citizen from ignorance to a plane of learning which is beneficial. The man who reads from day to day those good papers which are to be had by him, finds himself taking more interest in things about him, finds himself better informed about his home and his country, and finds that he can do more for himself and for those with whom he comes in contact every day. "Reading maketh a full man" in many ways, and this fullness is of worth to the community in which that man lives. The man who does not read his daily paper, is living in ignorance, is existing in a continual passing of events of which he knows nothing, and he is not sufficiently informed about himself or his friends, his state or his town, to be of worth to himself or to the people among whom he is placed.

Let every citizen take this to himself, and let him think whether he has given sufficient attention to his reading, whether he has watched his own acts and the acts of his neighbors, by the reflection which comes from the daily press, so that he is competent to pass upon questions of importance which are ever presented to him. The bishop insists that church people read the church literature. The same point is good in regard to the general run of the citizenship as it is in regard to secular newspapers.

If it is demonstrated that crude oil is good "dip" for cattle, which are affected by ticks, then a greater value can be placed upon the product. It has already been shown that the oil will kill the yellow fever mosquito.

What about the auditorium? The Telegram believes if it is built Fort Worth can secure a democratic state convention next year.

Let every citizen take an interest in the work of building an auditorium, and the result will be gratifying to every one.

PROBLEM FOR DIVORCE COURT

A prominent judge declares that the majority of divorces can be directly traced to disease. The father overworked and care-worn takes to his home a somber countenance, and in vain the faithful wife and fond children wait for the loving embrace. Soon the disease that remains hidden from view makes its appearance and the poor victim writhes in the fetters of despair. Great misfortunes have been averted and deep grief silenced by taking Dr. Burkhart's Vegetable Compound. It cures Rheumatism, Neuralgia, Catarrh, Constipation, Sick Headache, Nervousness, Palpitation of the Heart, Kidney and Liver Troubles, Indigestion and all Diseases of the Stomach. It frees the blood of disease germs and imparts to the entire body fresh vigor and continuous health. Thirty days' treatment 25c; six months' guaranteed treatment \$1.00.

Letters to The Telegram

REKLAW, Cherokee County, Texas, Nov. 14.—Believing The Telegram is interested in discerning the merits of all Texas, I will give you a "birdseye" view of Cherokee county, in southeast Texas, the noted natural sphere of the famous Elberta peach and tomato, as well as being the best locality for all kinds of garden and field "truck" and fruit, with extensive forests of valuable timbers, such as the oak, hickory, walnut, ash and gum. Saw mills abound over the county and the prairies of the best place, exist in this county. The oaks and hickory yield a great deal of mast to be devoured by hogs, while grass and weeds keep cattle fat all winter. Then come the good sandy loam lands, rich in all the elements that make good crops of corn, oats, cotton, melons, potatoes, gooseberries and tobacco.

The health here is as good as elsewhere in Texas, because of the wholesome waters, Forestons and minerals, copper and iron abound all over the county.

The Texas and New Orleans railroad, from Dallas to New Orleans, via Beaumont, with connections with Lufkin, Hurtsville and Houston, give this section commercial outlets to Texas in particular and the world in general. The topography of the county varies, as well as lands and water. The ribbon canal makes from four to eight hundred gallons of fine syrup per acre. Here around Reklaw the land is level and fertile.

Mud creek valley and the uplands are very rich. The best breeds of hogs, cows and horses do well. Bees also are a great source of profit, as the honey is rich and of excellent flavor.

Brick and pottery are easily made here. This is the home of the berry. The dewberry, strawberry, raspberry and blackberry, as well as grapes of all kinds, thrive exceedingly well.

Lands sell from \$3 to \$10 per acre, on easy payments. There are none to rent. Jacksonville is our railroad center. Reklaw is just starting to grow. Lots sell at from \$25 to \$150 each. It is the best location for a big town in east Texas. The site is situated on a 100-acre tract of open level land, and the surrounding country is well supplied by farms.

A lumber and grist mill, with a gin, are needed here. A crate, basket and box factory will do well here. A good black-

smith shop and a wagon and buggy factory would thrive here.

I have no lands to sell and am not in the better answering business, but I will say that if you wish to farm, raise fine stock, engage in gardening, melons, or fruit culture, run a newspaper, merchandise, or lawyers, doctors, preaches, carpenters and what ever else, or to get married and get to heaven, come to Reklaw, Cherokee county, Texas. Don't take my letter for a fake or a fact, but come and see, and make your home here for three years and you are safe in all that makes health, wealth and wisdom appreciated. Yours "Cherokeely". CHARLES H. JONES.

### Gates Will Be Given Opportunity to Answer Charges Against Him

When John W. Gates reaches Texas he will have an opportunity of answering charges made against him that he has interfered with the construction of the Kansas City, Mexico and Orient according to the story that comes from Denver, which goes on to say that President Stilwell has gone to Holland to get more money with which to fight the Gates interests.

The Orient line was to connect Kansas City with the Gulf of California, or practically with the Pacific ocean. When Stilwell first announced his project many were skeptical, notwithstanding the fact that he built the Kansas City, Pittsburg and Gulf in the face of tremendous opposition and completed it during times of financial stringency. With indomitable energy, which has always been his chief characteristic, Stilwell raised a small amount of capital in Kansas City and then went to Holland to finance his great road. Rich Dutchmen who had made big money through Stilwell's manipulations, joined him in the construction of the Gulf road that made big profits, hence they were inclined to listen to him. In a short time Stilwell returned to Kansas City with all arrangements for finances completed.

Stilwell bought 125 miles of the right of way of the Chihuahua and Pacific road. Then he laid out 25 miles of tracks and leased other tracks from the Chihuahua and Pacific. He obtained options on terminal properties and got concessions from the Mexican government. Short lines were built in Texas, Indian Territory and Missouri. A few locomotives and cars were bought and wherever Stilwell had ten miles of road he put on a train. Other portions of the right of way were graded and work during the last year has been progressing as fast as other similar undertakings generally do. The plans were to complete the line between Kansas City and Chihuahua before extending it to Topolobampo on the Gulf of California.

Things were going on swimmingly until about two weeks ago when John W. Gates and his friends attacked the Guardian Trust Company of which Stilwell is president. Stilwell organized a new trust company and tried to take over all the railroad affairs, but

in the litigation which ensued the Gates people found a way to embarrass Stilwell to such an extent that the railroad enterprise was seriously affected. Stilwell then went to Holland to try to restore matters to their former status. As the new railroad was to be of great benefit to thousands of people in this country and Mexico, news of his negotiations are awaited anxiously.

### THE DENVER SHOPS

The matter of removing the shops of the Fort Worth and Denver City railroad company from Childress to Amarillo is being discussed along the line in the Panhandle by the places that are seeking their location. Wichita Falls is after them and is offering inducements and concessions, such as 100 acres of land and free water for twenty years. Amarillo is also seeking to have the shops brought there on the grounds that it is the logical location. That place proposes to help to defray the expense of removal and possibly give a bonus besides.

The monthly pay roll of the Denver company for these shops is in the neighborhood of \$20,000 or \$25,000, according to the season of year. Whether the shops are moved to Amarillo or not it is said that the Denver company will build an eight-stall round-house there immediately.

Denver officials seen here do not discuss the report that the shops are to be removed from Childress.

### DECLINED TO GIVE RELIEF

The Houston Chronicle, in referring to the matter of the Expressmen's union going to the Texas railway commission for relief, has this to say: The claim is made by the Expressmen's union in Houston that one of the express companies in Texas has inaugurated the policy of picking out the union leaders and dismissing them upon one pretext or another intending thereby to ultimately weed out the union employes altogether.

The union has taken action with reference to this grievance, having even gone before the railroad commission for relief, but that body declined to interfere, having no authority in the matter.

The attorney general has been consulted and advises that the express company has not been guilty of violating the blacklisting law and all employes regardless of their membership in a union or what-not, just so it does not in any way interfere with these discharged employes securing employment anywhere else in a similar line of work.

The Houston expressmen do not claim that they are being published to other companies, but complain that the management is making it warm for those employes who take an active part in the union.

### THE CANE BELT DEAL

Since the announcement was made from St. Louis in dispatches that the Cane Belt road had been sold to the Missouri, Kansas and Texas railroad company, there has been doubt in certain quarters as to whether the Katy has become the owner of the property or whether it is the Santa Fe.

The St. Louis Globe-Democrat of Thursday has this to say regarding the deal:

The Cane Belt railway of Texas, which until recently was owned almost entirely by St. Louisans, has just been sold by Jonathan Lane, president of the company that owned it, to one of the principal railroads in Texas.

A. A. B. Woerheide, president of the Lincoln Trust Company, which financed the Cane Belt road when it was built, three years ago, stated yesterday that the sale price was \$1,600,000. It is believed generally among railroad men that the Cane Belt went to the Missouri, Kansas and Texas system. The Cane Belt is but 110 miles

in length, running from Sealy to Matagorda, Texas, through the richest rice and cane country in the United States. The Missouri, Kansas and Texas railroad makes connection with the Cane Belt at the latter road's northern terminus, Sealey, Texas.

Mr. Woerheide stated that about ten St. Louisans were the principal stockholders in the Cane Belt railway, but that they recently sold their interest to Jonathan Lane, who, in turn, sold out to the present owners of the road. "Local men who invested in the road realized well on their stock," Mr. Woerheide said. "The success of the venture has been almost marvellous. In three years the country through which this little railway runs has been transformed into the finest rice and sugar cane fields in the world. There is a forty-mile stretch of country along the railroad as level as a parlor floor, and this has been irrigated until the soil is the most fertile in the south. The annual rice crop from this section is estimated at 2,000,000 bushels. There are five rice mills and two sugar mills located on the railroad. One of them, located at Lakeside, Texas, is the most modern and extensive sugar mill and refinery in the country. Its output is 100,000 pounds per day. I am not privileged to state what road bought the Cane Belt, but it is one of the largest roads that enters Texas."

### ST. LOUIS-TEXAS RATE

The hearing at Chicago now under way to ascertain the exact situation about the methods of the Southwestern freight bureau, before the interstate commerce commission, has developed little of any consequence as yet.

Sam H. Cowan of Fort Worth, is representing the commission as counsel and on Thursday piled questions to W. C. Stith, traffic manager for the Missouri Pacific and the Iron Mountain railroads. One question asked was regarding methods of railroads in making joint rates. The object was to show that the railroads maintained an association in St. Louis for the purpose of making and maintaining uniform rates. When Mr. Cowan asked whether rates were made by the combination and consultation of the traffic officials of the roads several lawyers vehemently objected to the witness answering the question. The commission ruled that the question was pertinent.

The witness answered that there was an association, or bureau, with Mr. Cole as chairman, but its purpose was to fix uniform rates and enforce their maintenance, but as a matter of convenience to publish joint tariff schedules and file them with the interstate commerce commission. The tariffs were made by each road independently, he said.

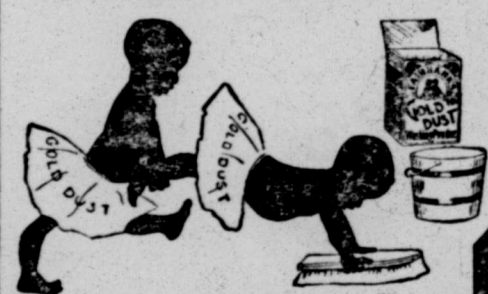

### ORPHANS ARE INVITED

Children From Masonic Home Are Guests at the Matinee This Afternoon

An invitation was extended to the children of the Masonic Widows and Orphans' home to attend the matinee this afternoon, at which time Miss Elizabeth Kennedy presented "As You Like It."

The invitation was sent to Dr. Rainey at the home yesterday afternoon by Manager Greenwall. Miss Kennedy had learned of the institution here. She is the daughter of a Mason, and is prominent herself in the Eastern Star work. She desired to extend the courtesy to the children at the home, and expressed that desire to Manager Greenwall. He readily agreed with the proposition, and Dr. Rainey was asked to bring them in for

"Let the GOLD DUST TWINS do your work"

**DON'T BREAK YOUR BACK** scrubbing your floors—there's a better way. **GOLD DUST** will do the work better, more economically and in half the time. Far superior to soap or any other cleanser. **GENERAL USES FOR GOLD DUST:** cleaning floors, washing clothes and dishes, cleaning wood-work, oilcloth, silverware and furniture, polishing brasswork, cleaning bath room, pipes, etc., and making the finest soft soap. **GOLD DUST MAKES HARD WATER SOFT**

the performance. Manager P. J. Kennedy of the company is a thirty-second degree Mason, and a Shriner, and it was a pleasure to him also to join in the invitation.

### HARD SEATS BEST

Cushioned Chairs Not Conducive to Cogitation, Says College President

ITHACA, N. Y., Nov. 14.—At a mass meeting of Cornell freshmen, President J. G. Schurmann has told the young students how he thinks they should study. Their day, he said, ought to be divided as follows: Ten hours' study, two hours for meals, three hours for athletics, one hour for recreation and the remaining eight hours for sleep.

President Schurmann said that not much hard work was accomplished on the soft chair and urgently advised the use of an ordinary hard wooden chair for study purposes.

### FOR FAMILY LIQUORS

Go or Telephone to H. Brann & Co. A full stock of whiskeys, liquors and wines for medicinal and family use. Sold at retail and wholesale. We are the only liquor house in Fort Worth licensed to sell liquor in any quantity. We deliver to your house. Satisfaction guaranteed or your money back.

H. BRANN & CO., 108 and 110 Main Street, Telephone 342.

### FOR A DEAD MAN'S WHIM

Widow is Compelled to Spend All Her Property in Building Monument

NEW YORK, Nov. 14.—Practically reduced to poverty because the courts insisted on her spending her money to build her husband a monument, Mrs. Elizabeth Weisen has been compelled to file a petition in bankruptcy. Her liabilities are placed at \$42,947, with no available assets.

When her husband, a wealthy resident of the Bronx, died, two years ago, it was generally thought that Mrs. Weisen would be able to live the remainder of her life in peace and comfort. But when his will was opened it was found he had decreed that a magnificent monument be erected for himself and his wife in Woodlawn cemetery, and that he had the plans drawn.

Whether he had over-estimated his wealth or whether he had underestimated the cost of the monument is even now a matter of doubt among his relatives. In either case it was found that the estate would not be eaten up but that the widow's own resources would be taxed heavily to carry out her late husband's wishes.

Mrs. Weisen appealed to the courts for relief but it was decided that so far as his estate was capable of bearing the expense, his wishes must be carried out.

### PAYS DEAR FOR AN EAR

Wealthy Mine Owner Will Give \$5,000 For Auricular Appendage

NEW YORK, Nov. 14.—Search by a local physician and surgeon for a human right ear of certain shape and size, the owner of which was willing to part with the organ in return for \$5,000, has been concluded. Hundreds of persons applied in answer to the doctors' advertisement. Each was examined and the right man was found in the person of a German restaurant keeper, whose turn of ill fortune recently had made him ready to sacrifice both ears, if necessary. The man to whom the ear will be transferred is a wealthy western mine owner and who lost his in an accident several years ago. The miner having acquired riches now wishes to marry and wants to have his beauty restored first.

In case the German fails to keep his agreement, an alternate has been selected. He is an Englishman, 29 years of age, who is said to have once been a broker, but whose partner fleeced him of all his property.

**PROSPERITY AT GORDON** GORDON, Texas, Nov. 14.—(Special.)—Everything in this section is in good condition. Gordon will ship about 1,000 bales of cotton and the crop is about three-fourths out at present. Buyers are paying 10.50 to 10.65 today. Farmers are paying up old debts, buying new homes and fixing up the old ones. Most of the large ranches will be cut into small farms this winter.

## WILSON KEEPS PROMISE MADE TO WORTHAM

Secretary of Agriculture Takes Steps to Learn Whether or Not Texas Cattle Can Be Shown at the Fair

Secretary of Agriculture James Wilson has kept his promise made while in Texas to L. J. Wortham, that he would investigate the ruling made by F. D. Coburn, chief of the live stock exhibit at the World's Fair in St. Louis, to the effect that no cattle from below quarantine would be allowed to exhibit at the fair. It will be remembered by readers of The Telegram, which published the exclusive story, that while in Dallas this promise was made by the secretary and it was made in such a way as to lead to the belief that the secretary would use every possible effort to have cattle from below quarantine represented at the exhibit.

A dispatch from Washington states that since his return the secretary has sent a letter to one of the experts of the bureau of animal industry to learn if it will be safe to exhibit Texas cattle which are free from ticks at the World's Fair. If a favorable reply is given, the dispatch states, the restrictions against the exhibition of Texas cattle will be removed. Otherwise the matter will be taken up to see if some way can be found to permit the exhibition of the cattle without danger to the live stock of other states.

The Telegram last night published a story showing the remarkable success of crude oil in rendering Texas cattle free from ticks to the satisfaction of government inspectors and the probability of crude oil adoption by the government. If the bureau of animal industry gets possession of the facts regarding the experiments made with oil in Texas in time, it is not unlikely that they will be included in the report made to the secretary of agriculture, and that Texas cattle will stand an exceedingly good chance of being allowed to be shown.

It begins to look as if Mr. Coburn will have to come down.

## 100 TURKEYS TO BE GIVEN AWAY

Arrangements for Annual Distribution to Express Employes

Assistant Superintendent C. L. MacKinnon of the Wells Fargo Express Company is here today from Houston headquarters and while in the city arranged for the annual present of a dressed turkey with all the necessary accessories, which is made each year to all employes of the company. It will require more than one hundred turkeys to supply the men in this city alone, and the turkeys will be purchased at San Angelo.

The Wells Fargo company has made it a yearly practice to give each employe a turkey on Thanksgiving day, and it is roughly estimated that the total expense entailed by the company for this little remembrance foots up an aggregate of nearly \$15,000. The turkeys are dressed and sent to the homes of the employes the day before Thanksgiving.

PREPARATORY SEASON OVER

Yale and Princeton Meet Today in Championship Contest

The preparatory period of the 1922 football season has passed and today the two strongest teams of the east meet at New Haven to do battle for the championship game of the year.

Except for the Harvard-Pennsylvania game nothing of any importance happened last Saturday. Pennsylvania, despite the defeat from Columbia, was once more over-confident.

Princeton only defeated Lafayette 11 to 0, but it was easily seen that a full team of the regular players would have done more.

Princeton is far superior to Bowman and besides Vetterlein, Foulke and Kafer can be counted on to send the ball nearly as far as the best Yale man.

In kicking, Princeton has all the best of it. DeWitt is far superior to Bowman and besides Vetterlein, Foulke and Kafer can be counted on to send the ball nearly as far as the best Yale man.

Yale defeated Syracuse in an easy fashion, not exerting themselves at all. Cornell and Lehigh played each other to a standstill, 0 to 0, chiefly because Cornell had not recovered from the Princeton defeat.

Yale defeated Syracuse in an easy fashion, not exerting themselves at all. Cornell and Lehigh played each other to a standstill, 0 to 0, chiefly because Cornell had not recovered from the Princeton defeat.

Michigan and Minnesota amounted to nothing, although it is very probable that a game will be arranged between Chicago and Northwestern, should both teams win all their remaining games.

Yale defeated Syracuse in an easy fashion, not exerting themselves at all. Cornell and Lehigh played each other to a standstill, 0 to 0, chiefly because Cornell had not recovered from the Princeton defeat.

Yale defeated Syracuse in an easy fashion, not exerting themselves at all. Cornell and Lehigh played each other to a standstill, 0 to 0, chiefly because Cornell had not recovered from the Princeton defeat.

and a little heavier. It will be a game of weight against speed and if Princeton wins it will be spoken of as a vindication of the new rules, while, if Yale should win, the rules will have to be still more altered in order to bring about the desired effect.

At ends there will be the prettiest contests ever witnessed on the gridiron, as Davis and Henry are counted as good a pair as there is in the country, when they are in condition, and this year both are uninjured. Shevin and Captain Rafferty were among the best last year, but this is the last year for the Princeton men and they will use all the knowledge that they possess and it looks as though they will have the better of the New Haven players.

At tackle Yale will have the best of it with the veterans, Kinney and Hogan. Cooney and Reed are both hard customers, however, and can be counted on to stay right with their opponents.

The Princeton center trio, DeWitt, Short and Dillon, will have about their own way, as it is there that Yale has been weak the entire year and no one of the men that have been tried in these positions has ever shown any extraordinary ability. The Princeton men are medium weight and very speedy, while the Yale players are very heavy and slow and awkward.

Rockwell at quarter, last year's All-American, is probably better than Vetterlein, but it would not be a surprise if the Princeton man outshines his opponent.

Kafer is as good a defensive half back as there is in the country and as a hurdler he is unsurpassed. His running mate, Foulke, undoubtedly the captain for next year, is at his best on plays outside or tackle and there he is a marvel. Miller at full back is a revelation. He is fast and twice this year has chased and pulled down men who have gotten free of the Princeton line. The Yale backs are good, but there is nothing about any of them that stamps them as the best players, individually or collectively, in the east, as there is about the Princeton men.

In kicking, Princeton has all the best of it. DeWitt is far superior to Bowman and besides Vetterlein, Foulke and Kafer can be counted on to send the ball nearly as far as the best Yale man.

ROOT WANTS TO TAKE ON MONROE

Chicago Man Awaits Reply to Challenge of Maher's Conqueror

Jack Root is anxiously awaiting a reply to his challenge to Jack Monroe.

"I am willing to fight Monroe at any weight and under any articles of agreement," says the Chicago light heavyweight. "I believe I can knock the miner out before the six rounds are up."

Root is in condition for a fight. He has been working along preparing for a battle with Jim Flynn at Pueblo, Colo. Root and Flynn are to box before the Rover Wheel and Athletic Club for a purse of \$1,800 on Thanksgiving night. The match with Flynn and the proposed one with Monroe will prevent Root from going to San Francisco to assist Bob Fitzsimmons in preparing for the coming contest with George Gardner.

Munroe's feat of whipping Maher has not given the Butte miner any high standing in pugilistic ranking. The only thing it has done is to give him a little more prominence. The general opinion of the local fight critics is that Maher is too far gone to put up much of a fight with any one, and that the former Irish champion took the count more through exhaustion than because of the blows that Munroe landed.

FITZSIMMONS PICKED AS WINNER

Much interest has developed in the Fitzsimmons-Gardner mill of this month, and Fitzsimmons is a strong favorite. On form there is nothing to the fight but the Cornishman, though those who have followed the game closely are somewhat skeptical about the endurance of a man 32 years of age who has been through many a hard-fought battle and has reached an age where most fighters are ready to hit the hay. In Gardner Fitzsimmons will meet a strong, shifty young fellow, a man of considerable promise and many notable achievements in his line, who will try to keep away for at least six rounds in hope of wearing the "old man" out.

GOSSIP OF THE RING

Kid McCoy, a one-time prize fighter, is in London. There are vague rumors that he intends to fight over here.

He has fought great fights in America and against the mighty representatives of an exalted period. Physically he has been at a great disadvantage, the burly giants of the Clin Shugovitch being overwhelmingly superior and strangely at variance with the greyhound type of the champion brawler.

McCoy is living a life of luxurious ease in old London, not trifling with trifles, treating the world with best thanks for past favors and more to come if fortune has any to spare.

Patsy Sweeney, the fighting Irishman, who disposed of "Shadow" Morris the other night in Boston in the tenth round, now wants to meet Champion Joe Gans.

If one of the Boston clubs will hang up a purse for a battle of ten or fifteen rounds Sweeney will sign at once. Sweeney has been after a match with Gans for years, but Gans always sidestepped him.

Jim Jeffries cannot be blamed for turning down a \$20,000 offer to fight Sam McVey before the Colma Athletic Club at "Prisco." It is just as Jeff says, McVey was easy for Jack Johnson and the latter is more eligible for the fight.

The next scrapper to try his hand on the "human punching bag," Joe Grim, will be Marvin Hart of Louisville. The mix will be enacted at Philadelphia. Hart will then fight in Boston, where he has accepted a good offer to meet Sandy Ferguson.

ABE FRANK'S DAYS OVER

Tennessee Derby Winner of 1902 Retires From the Turf

The racing days of Abe Frank are over. Abe Frank won the Tennessee derby of 1902. He was made winter favorite for the American derby of that year, was backed to win the Kentucky derby of the same year, but after his success in the Tennessee derby he failed to show any of the staying qualities needed to negotiate a derby route.

At Worth early in the season he fell and sustained injuries in the race which marked his final appearance in turf competition, for his remaining days will be spent on the Bennett farm, at Memphis, where he is resting now. Abe Frank will be retired for breeding purposes. He is one of the many sons of the immortal Hindover, his dam being an imported mare, Cheesestraw, who foaled Abe Frank after an artificial experiment used by a Bluegrass veterinary.

RACING IN CALIFORNIA

The Winter Season Opens at Oakland Today

The race season, which opens at Oakland today, has been anticipated with great anxiety by many patrons of the turf in California. It is generally conceded by people who follow the game that prospects are the brightest since the race

track war several years ago, says a special from San Francisco.

There will doubtless be more horses here than in any previous year. While there is no certainty at present in regard to high-class performers, there will be more shifty horses than ever before gathered at one track in California.

Doubtless many good performers will be developed during the meeting that are now not given much consideration. It looks as if there would be plenty of good material here for the California derby, and that, in spite of the oversight of the California Jockey Club in not offering a two-year-old stake for either November or December. Entries for stake races closed October 26.

There will doubtless be a good class of jockeys out there this season. Some of the top-notchers will do some riding, but there will be a chance for some of the coming pilots. California has turned out half a dozen good boys every year.

The big event of the opening today is the inaugural handicap at one mile, with \$2,000 added. There are fifty-eight entries, the majority of which are now at the track. Assignment of weights was made by Horace Egbert at the request of Colonel Letcher, the official handicapper, who last week left Latonia for California.

Kentworth occupies the post of honor. The son of Sir Modred is given 118 pounds, which is more than Beau Ormonde is asked to carry. Next on the list is Divina, who displayed such excellent form at the state fair meeting. Claude, the frequent derby winner, has 114 pounds, but the distance looks a little short for the son of Lissac.

It looks as if at least twelve or fifteen will sport silk for this handicap. The following are some of the weights assigned: Kentworth, 118; Beau Ormonde, 117; Divina, 115; Claude, 114; Landon Appleby, 112; Daisy Green, Alhida, Solon, 111 each; Even B, Futurita, 110 each; Ben Mac Dhui, Corrigan, 109 each; Orsina, 108; Faulconbridge, Jack Demund, Horton, Huntressa, Mechanus, Hagerdon, Yellow Tail, Horatius, Princess Titania, Royal Rogue, Incubator, 107 each; Warte Nicht, Arab, The Fretter, Fossil, Byron Rose, 106 each.

A TWO MINUTE YEAR

When the racing season of 1923 opened there was probably not a well-balanced man connected with light harness racing affairs, who would have taken the short end of a two-minute bet that one trotter would beat two minutes this year, to say nothing of betting that three trotters would perform that feat. That one pacer, Dan Patch, would do the trick was generally believed, but that he would beat it three and three-quarters of a second and that another pacer would beat it by three seconds, few if any would have been willing to have bet on.

During the season as is well known, three trotters, Lou Dillon, 1:58.4, Major Deemer, 1:59.4, and Crescens, 1:59.4, have beaten 2:00, the two first named have an excellent chance to reduce their records next season. In the pacing division, Dan Patch, 1:56.1, and Prince Albert, 1:57, are the two which have beaten 2:00 this year, and judging from the half-mile that Dan Patch paced in 56 seconds, he, at least, has not reached his limit of speed for the mile.

To show how wonderful has been the performance of these five horses, it is only necessary to state that together they have won during the season, scored fifteen miles in 2:00 or better. Dan Patch has won credited with eight, Lou Dillon with three, Major Deemer with two, Prince Albert with two, and Crescens with one. It has, indeed, been the two-minute year.

THE NEW DROP BALL

Baseball players are discussing the new ball California pitchers are bringing back with them. It is said that every pitcher, big and little, is working on it and before long fifty will have mastered it. It is called the "spit ball" from the fact that a pitcher moistens his finger just before delivering it. This act in some way takes from the ball all the twist which ordinarily gives the ball its curve near the plate. The result is that it leaves the pitcher's hand with all the speed, motion, comes in fair and fast, and then drops dully, all speed gone from it, all the twist washed out. It falls like a lump of lead, in fact, its qualifications are so phenomenal that the average player when he hears it described exclaims "pipe."

BASEBALL NOTES

Joe McGinnity will wear a Giant uniform again next season. Word has been received from the famous pitcher, who is now at his home in South McAlester, Ok., that the New York National League club had accepted his demands for an increase in salary and that he will sign with the team for 1924.

Billy Gilbert, second baseman of the Giants, has signed a contract to play with the team in 1924. It is said his salary was also increased. Gilbert denied that he had any grievance against the club.

New York and Chicago will in the future share equally the honor of holding the headquarters of the American League, President Dan Johnson says. "New York and Chicago will both be the headquarters of the American League after January 1. We will have offices in the Fuller building in New York, as well as in the Fisher building in Chicago. I shall endeavor to divide my time between the two cities equally thereafter."

In speaking of the prospects for next year's team, the Chicago Tribune has the following to say, which will be of interest to great many Texas fans who saw some of their favorites go to the major leagues the latter part of last season: The 1923 players who will undoubtedly be retained are Sullivan, White, Owen, Patterson, Altrock, Isbell, Callahan, Green and Jones—if he will stay. Slattery will have to contend for the position of change catcher with young Berry of the Texas league, who Ted Sullivan says, is a world better behind the bat, and Ted is the man who picked out Harry Clarke for Coombsky. Flaherty and Tannehill were just a bit short of American League class all last season, but showed enough to prevent their release unless really better men are found to fill their places. Magoon and Hallman probably will be released or traded, if possible. Holmes may be crowded out of the outfield by Callahan, who possesses the added ability of being able to hit in on the infield better than "Ducky" and is a better hitter the second round. Isbell will likely be retained even if "Jiggs" Donahue crowds him off the base, as is expected, for he, too, can hit in anywhere in the infield or outfield.

MAXIM & GAY CO.

(INCORPORATED UNDER THE LAWS OF THE STATE OF NEW YORK.) ESTABLISHED THREE YEARS. CAPITAL, \$50,000. BEFORE THE PUBLIC EVERY DAY.

NEW YORK, NEW ORLEANS, CHICAGO, SARATOGA, WASHINGTON. REFERENCES: ANY BANK OR BANKER IN NEW YORK, NEW ORLEANS, CHICAGO, SARATOGA OR WASHINGTON.

WIN AT NEW ORLEANS

No greater opportunity has ever been afforded the American racing public to earn a steady income with a small capital than does the Maxim & Gay Co. offer you at New Orleans, beginning Thanksgiving Day, November 26.

Everybody conversant with the history of the Maxim & Gay Co. knows that at New Orleans it has scored those sensational successes which have made its name a household word among patrons of the turf. No record approaches ours for the number of winners named at long prices at the Crescent City. Our experts are already on the ground preparing for the opening. Every indication points to us surpassing our best efforts in furnishing information from that track, and we are again certain we will enable patrons of the Company to win steady incomes on small investments there.

\$50 Netted 201.75

Here is a complete statement, showing the result of a \$10 play on each horse given in our "Discretionary Series" during October. (Note: A capital to begin with of \$50 is required by us, as a matter of conservatism, to make a \$10 play on each horse that is considered by us a good betting proposition.)

Table with columns: Day, Net Daily Result, Win, Lost, and Net Daily Result. It lists results for the First, Second, Third, and Fourth weeks of October meetings at Morris Park and Brighton.

Net profits on \$10 play for month...\$201.75

We Pick the Winners.

The system we employ to locate winners is identical with that used by "Hillsburg Phil," John A. Drake, John Gates, W. Langdon, Joe Yeager and other famous punters who win hundreds of thousands on the turf every year, and it proves just as successful.

We gather our information of prospective winners through a force of expert horsemen who hold a watch on the horses in their early-morning trials, and in that way learn when they are ready to win.

The money that is played into the game by persistent losers, such as the large mass of uninformed players who are bound to lose, goes into the pockets of the big operators, of which the Maxim & Gay Co. is to place the general public upon a level with the winning punters, and our success in this accomplishment has made us famous on two continents.

We do business only on the great race tracks of the U. S. We number among our clients some of the best known sportsmen, financiers and merchants in the country. Investment on the turf is now deemed as legitimate and the absolutely good faith in which racing has been brought to the country with as much confidence in racing as in the stock, grain and cotton markets, and this is one reason why transactions in the betting rings now rival in magnitude those of the stock, cotton and grain exchanges.

Another reason for the rapid growth of turf speculation in popular favor, is the rapidity with which all transactions are wound up. The speculator makes his investment at the race track in the afternoon through operators, and he learns quickly just where he stands. At the end of each week he receives a complete statement of his account with a money order for his profits, less 25 per cent, which we deduct as our fee.

This gives a wholesome tone to legitimate turf speculation which cannot be found in the more or less speculative transactions of the big exchanges, and this is why turfmen live more comfortably for weeks and sometimes months at a stretch.

Our Clients Won a Million Dollars.

As it is well known that our clients have collectively won as much as a million dollars at a single race meeting, it is sometimes asked: "Why do not Maxim & Gay simply sit down and back their own selections instead of running a considerable clerical force and spending large sums in advertising in newspapers throughout the country?"

The answer is simple enough if one stops to consider the situation. Maxim & Gay, by dint of ability, energy, immense capital. If we can pick winners for this immense number of investors, our profits mean the command of money for our own use only, for on a basis of 25 per cent. of winnings, which we charge for information and commission, one man out of every four of our customers is practically betting for us. The proof that this plan works is shown in the fact that every four of our customers who are cutting an important figure on the turf, began the game as mere novices, playing our selections through us.

The principle upon which we operate is such that we must of necessity do the best we can for you, our income, as pointed out, is derived solely from a percentage of the winnings of our clients, and if we cannot make you win, our entire income is cut off. That we have been successful in making our clients win, is amply proven by the fact that we have prospered for upward of three years, while imitators, pursuing more economical and less business-like methods have gone under by the score. Noting the success that was being achieved by Maxim & Gay, scores of "get-rich-quick" operators tried to break into the field successfully occupied by the legitimate and the illegitimate, and as a result we have continued to flourish uninterrupted, while in the ranks of our rivals there have been scores of enterprises initiated, only to end in failure.

Join Our Winning Army.

The greatest race meeting in the history of the South begins at New Orleans on November 26. In magnitude it will eclipse all other turf gatherings of the past. The Crescent City Jockey Club knows this to be a banner year and has prepared for it. So have we. There are more horses at the New Orleans race track than ever gathered there before, we have more expert "clockers" and handicappers than we ever employed at any other meeting. They cannot make the game too big for us to handle. We move with the times.

You want to get ahead our discretionary series, at New Orleans, in which we play daily those and only those horses we think are being propositioned, with the privilege of not playing any horses at all on days when we consider conditions unpropitious, fill out the following blank and forward your remittance to us at New Orleans as soon as you can. Play will be begun on the first day of the meeting, if your money reaches us in time; otherwise we will begin play the first day it reaches us after the meeting has begun. Money should be sent by bank draft, express money order, or currency in registered letter. Uncertified checks are not accepted.

TO MAXIM & GAY CO. (Incom.) 328 Canal St., New Orleans, La. In accordance with the terms of your ad in The Fort Worth, (Tex.), Telegram, I enclose Dollars. Please bet for me daily Dollars on each selection of your Discretionary Series at the New Orleans races. You agree to send me every day in a letter postmarked before the races start the names of the horses which will be played for my account that afternoon and to send me statement and check weekly for profits, less 25 per cent. of winnings. Post odds are guaranteed as published in the New Orleans Morning Newspapers. My account is subject to withdrawal in full on demand.

THE FOLLOWING SUMS ARE THE MINIMUM ACCEPTED FOR PLAY: For a \$5 play on each horse \$25 For a \$10 play on each horse 50 For a \$15 play on each horse 75 For a \$20 play on each horse 100 For a \$50 play on each horse 250 For a \$100 play on each horse 500

Remit direct to the Maxim & Gay Company, 328 Canal Street, New Orleans. All accounts received by the Maxim & Gay Company will be played at the track by the Maxim & Gay Co., and the Maxim & Gay Co. will make all settlements direct to its clients. The Maxim & Gay Co. assumes all responsibility for a proper execution of our clients' orders. Our clients are cautioned against sending money through the mails without registering.

Rev. W. M. Adams, pastor.

ASSOCIATION WONT TOUCH PROPOSITION

Cattle Raisers' Executive Committee Meeting Here Today. Independent Packing House Matter Discussed

The executive committee of the Texas Cattle Raisers' Association is in session here today passing on routine matters, the meeting being the regular quarterly coming together of the board. It was originally intended to hold the meeting on Nov. 20, but as members of the executive board desired to attend the exhibitions of the International Live Stock Show at Chicago which will be held about that time, President W. W. Turney of El Paso decided to call the members together today.

Nothing but routine business was transacted at the session held this morning—such matters as are not intended for the public. There were present before the president, R. J. Kuylenstierna, D. D., A. G. House and E. B. House.

and by-laws of the association prohibit it from taking part in any such enterprise. "Of course," said President Turney, "if any individual member of the association sees fit to take an interest in the new packing enterprise, he has a perfect right to do so, but as an association nothing will be done in the premises," he added. President Turney gave a glowing account of conditions in West Texas, particularly at El Paso, and thinks that the Gate City is the coming metropolis of Texas. Other members of the executive committee have nothing but praise for the present condition of cattle and the ranges, but are feeling blue over the low prices of cattle all over the country.

CITY IN BRIEF

Nash Hardware Company. Cut flowers at Drumm's. Phone 101. Broiles Electric Co., 1202 Main street. J. W. Adams & Co., Ice, Feed, Fuel and Produce, 102 W. Weatherford, Phone 530. It will always be found a little better and perhaps a little cheaper at the William Henry & R. E. Bell Hardware Co., 1615-17 Main and 513-15 Houston streets. J. M. Tisdal, cousin of N. R. Tisdal, commander of the Trans-Mississippi department of the Sons of Confederate Veterans, is here on a visit from Greenville. He is also attending the Methodist conference.

J. J. Bonner, former express messenger for the Pacific Express Company, will soon leave for San Francisco where he will enter the service of the Southern Pacific railroad company. The Epworth League of St. Paul's Methodist Episcopal church held an experience social last night in the parlors of the church. All the members have been asked to earn a dollar for the league and to tell in rhyme how the feat was accomplished. The program was varied by the introduction of unique numbers.

NEGOTIATIONS OPENED

Intimated That Germany Is About to Recognize Panama. BERLIN, Germany, Nov. 14.—Germany's consular representatives at Panama have opened business relations with the new government of Panama, which action it is said Germany will subsequently sanction. The German consular officers on the isthmus reported to the foreign offices that the cabinet of the republic of Panama is composed of men worthy of respect. It is intimated in official circles that when the Panama government makes Germany a notification of the organization of the new republic, Germany will give the usual recognition without delay.

CARBOLIC ACID

Taken With Fatal Results by Wife of Arizona Mining Man. TUCSON, Ariz., Nov. 13.—Mrs. Cora Casey, wife of Alexander Casey, a mining man and capitalist, committed suicide by taking carbolic acid.

THE TEMPERANCE UNION

Crowds Throng Church at Women's Convention in Cincinnati. CINCINNATI, Ohio, Nov. 14.—The attendance at the second day of the national convention of the Women's Christian Temperance Union was such as to rank the galleries as well as the auditorium of the large Ninth Street Baptist church. The only session of the mothers' department was addressed by Mrs. Nurah of Oregon, on the subject of "Scientific Temperance," and this was followed by a discussion of "Teachers' Problems." The only papers meeting was led by Mrs. Barney of Rhode Island.

IMPORTANT MEETINGS

One to be Held for Men Under the Auspices of L. V. M. C. A. The Young Men's Christian Association, cramped for room in its present quarters, has decided to go outside for its Sunday meetings. The largest room in the building will only accommodate one hundred men, and the committee has planned the men's meetings for the winter on a large scale. The first two of these will be held in the auditorium of the First Baptist

men only. It is the purpose of the committee to make this the evangelistic rally of the conference now in session. Mr. Hotchkiss is one of the strongest speakers in attendance upon the conference. The music for the occasion will be of especial interest. Miss Bird Strapp, of Chattanooga, Tenn., one of the sweetest gospel singers in the Southland, has been secured for a solo. The University Quartet will also sing.

On the 22d, the meeting will be held at the same hour and place. A splendid musical program is in preparation. The important feature of this meeting is the great subject discussed, Rev. G. W. Ray has in preparation a plain and forceful presentation of the important question of "Personal Purity." Admission to this meeting will be by ticket, which can be had free at the Y. M. C. A. Boys under 14 not admitted. This is the beginning of the winter's plans of great meetings for men, after these two the place of meeting will possibly be changed.

COLORADO COAL STRIKE NEARS A SETTLEMENT

Satisfactory Conference Between Miners and Operators Held and Work May Be Resumed Monday Morning

LOUISVILLE, COLO., Nov. 14.—Representatives of the miners of the northern coal district and the operators reached a satisfactory conclusion early today after being in conference for nine hours, and in consequence the mines probably will resume operation Monday morning. The matter will have to be referred to the various unions of the district for a referendum vote and the vote will be known Monday. It is believed that the agreement will be ratified with practical unanimity.

President Struby of the Northern Coal and Coke Company acted as chairman of the meeting and made the following proposition: "To settle the existing strike in the northern lignite field, the operators in that field offer to resume work on an eight-hour basis, with the understanding that if the miners lose the present against the principal operators in the Southern Colorado field, or if said operators shall not accept an eight-hour day, the miners shall go back to the hours prevailing before the strike."

He also announced the wage scale which the Northern Coal and Coke Company was willing to pay, and which was an increase of about 10 per cent. After a secret consultation the miners made a counter proposition, the principal difference being in the price for mining the coal in veins of different thicknesses. The final result was the acceptance of the miners' proposition by the operators practically as presented.

PICKING NEARLY DONE

Cotton Crop in Ellis County is Almost Gathered

WAXAHACHIE, Texas, Nov. 14.—James Thompson, who owns a good farm eight miles from Waxahachie, was in town yesterday to sell cotton. He said the cotton on his farm was making more than an average yield. He has six acres in one field, from which he has gathered six bales of an average weight of 515 pounds and there is yet a remnant of several hundred tons to be picked.

The cotton crop of Ellis county will soon be a thing of the past. During the fair weather of the past two weeks picking has progressed rapidly and many farmers have finished. In the southern part of the county where the crop was late there is considerable cotton yet to be picked, but more than two-thirds of the crop of the entire county has been gathered. As a rule farmers sold as fast as their cotton was picked, very few showing a tendency to hold for higher prices. At the close of business yesterday afternoon the receipts from wagons in Waxahachie were 19,171 bales. It is believed that there is yet enough cotton in Waxahachie's trade territory to run the receipts up to 25,000. The total receipts last season were between 28,000 and 29,000 bales.

CHICAGO CAR STRIKE MAY BE SETTLED

CHICAGO, Nov. 14.—Under practically the same police tactics as employed yesterday, four cars left the Westworth avenue yards at the southern outskirts of the city this morning, headed toward the business district, in patrol wagons and almost confronting each side of the street, made interference with the undertaking hazardous in the extreme. A large crowd shouted, jeered and hooted the police and the non-union crews all along the route, but no violence was

Century Building WASHNER BROTHERS. Eighth and Main. STORE OPEN TONIGHT UNTIL 10 O'CLOCK

Correct Apparel For Men

NEXT to showing the garments is to illustrate them....The cut shown today is the Loraine Suit, an exclusive fashion with us....There is "ginger" enough in it to appeal to young men and yet not too extreme for the older men ---a wide range of fabrics, including mixtures and plaid effects in Tweeds, Cheviots and Fancy Worsteds.

The Loraine, priced from \$15 to \$25 "Atterbury System" Suits \$20 to \$35 Other Good Makes ..... \$10 to \$20

The Correct Fall Hat Styles

In the Boys' Department

A very attractive showing of Suits and Overcoats for boys of all ages; also Boys' Hats, Shoes and Furnishings. The prices are absolutely the lowest that can be quoted on dependable merchandise. BOYS' FREE LIBRARY has met with the hearty approval of both boys and parents. One hundred and fifteen boys enrolled their names in five days. If you're not a member, come in and let us tell you about it.

FIVE PLAYERS HURT IN GAME

The Texas-Oklahoma Football Match Yesterday Results in Victory for Texans

OKLAHOMA CITY, Nov. 14.—Two thousand people from Oklahoma, Indian Territory and Texas witnessed the game yesterday afternoon between the football eleven of Texas University and Oklahoma University at Concord Park. Texas won by a score of 14 to 6.

While the game was fast and full of quick, snappy playing, ten fumbles were made by the two teams. Texas scored the first touchdown within seven minutes after time was called. Oklahoma fumbled the ball within twenty yards of the Texas goal, permitting Jones, a Texas man, to secure the pigskin and make a touchdown. The second touchdown was made by Robins after a kick of thirty yards. He was swift enough to fall upon the ball, thus scoring a second touchdown. Jones failed to kick the goal. In the second half McCreeley, for Oklahoma, made the only touchdown for Oklahoma, kicking a goal from the field.

WARM FOR AN ATTORNEY

DENVER, Col., Nov. 14.—District Attorney Lindley will be waited upon by a committee of those from the Honest Deal League who will urge that the attorney be removed from the prosecution of the case against the Texas players. Lindley was accused of having been in the front of the line of the Texas players' attorney when they were arrested. Lindley was accused of having been in the front of the line of the Texas players' attorney when they were arrested. Lindley was accused of having been in the front of the line of the Texas players' attorney when they were arrested.
