

Germany will recognize Panama—New England cotton mills reduce wages—Two Chicago strike sympathizers wounded—Steamer Discovery now known to have been lost—Club women meet here tomorrow.

FORT WORTH TELEGRAM

PRICE FIVE CENTS.

FORT WORTH, TEXAS, MONDAY, NOVEMBER 23, 1903.

VOL. XX, NO. 138.

SHOTS

From Pistols of Strike-Breakers Seriously Wound Two of the Sympathizers

NEAR LEATHER PLANT IN CHICAGO TODAY

Where It Is Said Men Applying for Work Were Attacked by Crowd

AND DREW WEAPONS IN SELF-DEFENSE

Making Good Their Escape in Confusion Which Followed the Shooting—Rioters Still Busy in Street Car Strike

CHICAGO, Nov. 23.—Two non-union men who applied for work at the plant of the American Hide and Leather Company, where a strike is in progress, shot and seriously wounded two members of a crowd of strike sympathizers today. The men who did the shooting escaped. It is claimed they were being attacked by the crowd.

STREET CAR STRIKE CHICAGO, Nov. 23.—While preparations were being completed for the opening of the State street cable line not operated during the present strike, rioters were engaged in cutting out of commission four lines which the company had been operating on a limited scale. Trolley wires were cut in half a dozen places on Halsted street and cars on that line were delayed over an hour, while repairs were made under police protection. Quantities of stone had been hauled in wagons and dumped on the track on Archer avenue. Fewer police were detailed to ride on the cars today than during the past week.

WHAT HE SWALLOWED Was Two False Teeth Which Were Removed by Operation NIAGARA FALLS, N. Y., Nov. 23.—Frederick G. Smith has had two false teeth removed from his stomach. Smith swallowed a plate with the teeth on it Friday night during a fit of coughing. He went to Buffalo, where friends advised an operation and Dr. Roswell Park, who attended President McKinley on his death bed, was called in. Two operations were performed, the second being successful. The X-ray was used to locate the teeth. The stomach was then cut open and the foreign matter removed. Mr. Smith is doing well.

LABOR

Party of National Scope Is Planned by a Union in New York City

IDEA COMING FROM ENGLISH POLITICS

May Result in Organization of Trades Union Members of the Country—Platform to Be Framed at Once

NEW YORK, Nov. 23.—The Central Labor Union of this city has inaugurated a movement to form a purely labor political party. A committee composed of democrats, republicans and socialists was named to draw up a platform. The action followed addresses by fraternal delegates from England to the American Federation of Labor at a meeting of the Central Labor organization. These delegates told of the success of trades unions in English politics. In England, they said, there were now five labor representatives in the House of Commons and at the next election it was expected that thirty more would be elected.

"We have the support of the Irish party pledged to us," said Mr. O'Grady, one of the delegates. "and with this strength in the British parliament we will hold the balance of power, and if we use it with wisdom we shall be able to meet the opposition to organized labor and

force recognition of the unions throughout Great Britain."

Some of the prominent labor men of the city say that as soon as a local committee formulates plans a national labor convention will doubtless be called—probably within a few days—and steps taken to make the movement national in scope.

AT AGE OF A HUNDRED

Mrs. Phoebe Gifford, Oldest Minister of Friends, Is Dead PROVIDENCE, R. I., Nov. 23.—Mrs. Phoebe Gifford, the oldest minister in the Society of Friends in the world, is dead here, aged 100 years and 5 months. When she celebrated her 100th birthday, last June, she received telegrams of congratulation from all parts of the world, as her work in connection with the missionary labors of the Quakers is historical. Mrs. Gifford was from a long line of Quaker ancestry, her forefathers being among the earliest settlers of Manhattan. She established frontier settlements of Friends in the west.

STROMBOLI IS ACTIVE

Reports from Catania Tell of Volcanic Eruption NEW YORK, Nov. 23.—Telegrams from Catania report that a series of loud explosions and the throwing out of incandescent matter show that activity of Stromboli is augmenting, says a Herald dispatch from Naples. The dense smoke and clouds which cover the mountain prevent exact observation of the phenomenon.

REWARD

Of \$5,000 Offered for Evidence Leading to Conviction of the Men

WHO PUT DYNAMITE IN VINDICATOR MINE

Causing an Explosion That Resulted in the Death of Superintendent McCormick and Shift Boss Beck

CRIPPLE CREEK, Colo., Nov. 23.—Sheriff Robertson, after investigating conditions in the sixth level of the "Vindicator" mine, where Superintendent Charles McCormick and Shift Boss Beck were killed Saturday by an explosion, coincides with the statements of the officials of the company that a deliberate attempt had been made to wreck the shaft with dynamite.

The executive committee of the Mine Owners' and Operators' association has offered a reward of \$5,000 for evidence leading to the arrest and conviction of the perpetrators. In a published statement the committee says: "The killing of Superintendent McCormick and Shift Boss Beck was one of the most diabolical crimes that ever darkened the annals of Colorado, and is another step in the trail of blood which has been made by the Western Federation of Miners in this state.

"The time has passed for selecting fine terms in which to speak of these matters, and we do not hesitate to say that this crime was devised and executed by the inner circle of this organization. The district executive committee of the Western Federation of Miners characterizes the explosion as a 'lamentable accident, regretted by all,' and adds: "But prejudiced individuals, who rarely know anything of what they talk, have already passed judgment and denounced it as a cold-blooded murder. Experience teaches, however, that these people are not above making capital out of any public misfortune."

MITCHELL TALKS. BOSTON, Mass., Nov. 23.—"In times of popular excitement incident to a bitter strike, accidents pure and simple are alleged to be the work of strikers," said John Mitchell, president of the United Mine Workers, when shown the dispatch from Cripple Creek, Colo., relative to the explosion at the Vindicator mine. He added: "I do not care to comment further on the charges of the operators until I know more of the details of the case. The Western Federation of Miners is affiliated neither with the American Federation of Labor nor with the United Mine Workers, but is a rival of the latter organization."

TO THE PACIFIC SLOPE

Members of the Columbia Football Team Plan a Trip NEW YORK, Nov. 23.—Columbia's football team, in all probability, will journey to the Pacific slope during the Christmas holidays to line up against the teams of the University of California and Leland Stanford University. Permission to make the trip is said to have been obtained from President Butler.

The trip is planned for the Christmas holidays because the men will have more time to make the journey without interfering too much with their studies, but it will be impossible for them to keep in training.

HEARST

Says He Favors No Particular Kind of Statehood for the Territories

BUT WILL SUPPORT WHAT MAJORITY WANT

And Use His Best Efforts to Secure Admission in Whatever Form Is Most Desired. Explains Recent Trip

WEATHERFORD, Okla., Nov. 23.—H. W. D. Cardwell has received a letter from Congressman Hearst, in which the latter states that his position on statehood has been misquoted, and that so far as the kind of statehood for Oklahoma and Indian Territory is concerned he will work for whatever the people want. The letter was in reply to a communication sent by Mr. Cardwell, in which it was stated that Mr. Hearst's declaration for separate statehood for Arizona and New Mexico had been misconstrued in this territory purposely by some in the attempt to show that he was in favor of separate statehood for Oklahoma and Indian Territories. The letter of Mr. Hearst's follows in full: "New York, Nov. 17, 1903. "Hon. W. D. Cardwell, Weatherford, Okla. "Dear Sir:—In response to your recent favor, I beg to say that some misapprehension as to my attitude on the statehood question, relative to Oklahoma and Indian Territory, seems to exist. Permit me to make my position clear. "The object of the expedition was not to impress any particular plan of our own upon the territories, but to learn the desires of the people and to express those desires in a bill to be introduced in congress and to be able to work for statehood intelligently after having seen the people of the territories and learned their exact wishes. Consequently, if the people of Oklahoma and Indian Territory want the two territories admitted as one state, it should be and will be my effort to secure their admission in this form. "Yours very truly, "WILLIAM RANDOLPH HEARST."

band of desperadoes who intend to liberate O'Day. It is almost certain that a fight will result. The sheriff and his officers with O'Day cannot reach the settlement before Tuesday night.

THE TOMB OF ENDICOTT

Is Discovered in Boston Burying Ground by Old Record BOSTON, Nov. 23.—A search of the old town records of Boston, family records and the original plan of the South Burying place has resulted in the discovery of the location of Governor John Endicott's tomb, which has been unidentified for more than 150 years. The tomb is in the northwest corner of the old granary burying ground, where the first tombs were built soon after the establishment of the cemetery.

CHICAGO METAL WORKERS

Many Strong Unions of Chicago Are Brought Together CHICAGO, Nov. 23.—By the organization of the Metal Trades Council another central labor body has been formed in Chicago. The council will bring together many of the strongest unions in the city, working in similar crafts. Its purpose is to enable the various unions represented to act in harmony in securing terms and contracts from employers. Eleven trade unions were represented at the first meeting of the council. The council will follow the lines laid down by the National Metal Trades Council with which it is affiliated.

FIFTY MILES ON FOOT

Drove of 300 Turkeys Is Taken With Loss of But One WEATHERFORD, Tex., Nov. 23.—The Weatherford Produce company during the past week dressed over 800 turkeys and today shipped one farm at El Paso thirty barrels of the dressed fowls. Yesterday afternoon W. J. Fisher drove into town on foot a drove of 300 turkeys covering a distance of over 50 miles, with the assistance of only one man. Out of the entire drove only one turkey was lost. Mr. Fisher sold the turkeys to the Weatherford Produce Co. for eight cents per pound.

Next Thursday there will be a union Thanksgiving service at the First M. T. church. The alarm of fire was turned in this morning from Sam Wing's laundry. The blaze was immediately extinguished by the fire department. Judge A. J. Hood and wife of Abledo were here today. H. W. Kuteam, E. H. Lysaght and W. A. Chew went to Cisco last night where they will go to Stephens county on an extended deer hunt. They will be joined at Cisco by Wm. Edleman.

EXPORTS SHOW BIG INCREASE

Breadstuff Exports from Texas Port Make 119 Per Cent Increase ST. LOUIS, Nov. 23.—Statistical reports show that out of the \$161,285,745 worth of breadstuffs exported from the United States in the ten months ending October 31, an increase of \$9,611,188 over the same period in 1902, from the three gulf ports, \$35,829,722 worth of breadstuffs was exported against \$34,109,748 from the five most important Atlantic ports. Compared with exports of 1902 for the same period the Atlantic port exports decreased \$1,223,246, while the gulf ports made an increase of \$15,678,632. Galveston making a gain of 119 per cent, and the combined exports of Galveston and New Orleans exceeding those of New York by more than \$500,000, though New York made an increase of \$2,797,740. The figures for ten months in 1902 and 1903 at these Atlantic and gulf ports are as follows:

Table with 4 columns: Port, 1902, 1903, Increase. Rows include Atlantic ports, Gulf ports, Galveston, Mobile, New Orleans, and Total.

UNDER AUSPICES OF FARMERS' INSTITUTE

And Will Afterwards Be Entered at Coming Fat Stock Show in This City—Agricultural Exhibit for Fair GEORGETOWN, Texas, Nov. 23.—(Special.)—Arrangements for the stock show here under the management of the Williamson County Farmers' Institute have about been completed for Nov. 25 and 26. There are 250 premiums offered on short-horns, Herefords, Jerseys and Durhams. The Riverside Cattle Co., J. B. Salver of Jonah, J. F. Yearwood and F. W. Carothers of Georgetown and J. M. Stapp of Gabriel Mills who have entered their cattle here including about fifty head expect to take them to the fat stock show at Fort Worth. The greater number of these cattle were purchased two years ago at Fort Worth and they have been grown in this section and the younger cattle are said to be some of the finest in Texas.

AGRICULTURAL EXHIBIT

A committee consisting of Hon. C. C. Hooper of Taylor, Captain J. C. Carmele of Graner, Judge C. A. Wilcox, Captain W. P. McNeill and Lee J. Rountree of Georgetown was appointed by the county institute to arrange to send Georgetown's San Antonio Fair agricultural exhibit to the World's Fair next year at St. Louis. The exhibit won \$500 in premiums at San Antonio and aggregates nearly two car loads and is valued at \$1,000. The exhibit was pronounced almost perfect at San Antonio and includes thirty varieties, the seed coming from Iowa, Indian and Oklahoma Territories, Kansas and Texas.

WED AT HILLSBORO

HILLSBORO, Texas, Nov. 23.—Steve Covington and Miss Lela Harold of Grandview, were married here last night, by Rev. J. G. Lane.

CUT

Of Ten Per Cent in Wages of New England Cotton Mill Operatives

PUT INTO EFFECT THIS MORNING

Affects Wages of 32,000 Employees in Southern New England

OTHER TERRITORY TO BE INCLUDED

Next Monday When the Rhode Island and Connecticut Mills Will Also Lower Their Scale of Wages

BOSTON, Mass., Nov. 23.—First of numerous reductions in wages announced in the cotton mills of Southern New England and at half a dozen points outside that territory went into effect in all but one of the Fall River corporations today and a number of the outside mills. Although 22,000 operatives had their pay cut down no general strike occurred. Today the cut averaged 10 per cent. The reduction affects 78 mills and some corporations elsewhere. Fall River works, operating four print cloth mills, will cut down the wages next Monday and on that day the Rhode Island and Connecticut manufacturers will adopt lower schedules, but in New Bedford the cut will go into effect in two weeks.

Proprietor of the Capitol Cafe Complains at Reduction of Profit WASHINGTON, Nov. 23.—(Special.)—Wouldn't it be funny if the national capitol has to worry along without a restaurant? The "burkeeps" who have been running a restaurant on the side declare that they cannot make a living by selling "grub" alone. They say that all their profit came from selling the drinks that went with the orders for food. They declare to keep even they will have to sell even an inferior quality of food. Those who have had to eat at the capitol will naturally wonder how it would be possible to set up a more inferior meal than has been served there for a number of years. A cup of coffee that is boiled from week in to week out costs ten cents. Rolls are ten cents a dozen, but it costs ten cents for two at the capitol restaurants. The best of pies cost twenty cents each; the capitol restaurants dele out the slices so that they make forty cents' profit on each. Oysters sell for twenty-five cents a gallon. It costs you twenty-five cents for six in a watery sort of a stew at the capitol restaurant. On oysters they make about 800 per cent.

RESTAURANT IS PROHIBITION NOW

Proprietor of the Capitol Cafe Complains at Reduction of Profit

WASHINGTON, Nov. 23.—(Special.)—Wouldn't it be funny if the national capitol has to worry along without a restaurant? The "burkeeps" who have been running a restaurant on the side declare that they cannot make a living by selling "grub" alone. They say that all their profit came from selling the drinks that went with the orders for food. They declare to keep even they will have to sell even an inferior quality of food. Those who have had to eat at the capitol will naturally wonder how it would be possible to set up a more inferior meal than has been served there for a number of years. A cup of coffee that is boiled from week in to week out costs ten cents. Rolls are ten cents a dozen, but it costs ten cents for two at the capitol restaurants. The best of pies cost twenty cents each; the capitol restaurants dele out the slices so that they make forty cents' profit on each. Oysters sell for twenty-five cents a gallon. It costs you twenty-five cents for six in a watery sort of a stew at the capitol restaurant. On oysters they make about 800 per cent.

While it was really a great joke—that of shutting out the selling of spirituous liquors in the capitol—it was done good and hard, and the joint resolution has now become a law. While many of those who voted for it or let it go without voting at all would very gladly have the thing undone, it is not at all probable that there is a single member of either body who dares to face the temperance sentiment of the country and vote to have liquors sold in the capitol restaurants. There will not be a majority for it anyhow.

Just what is going to happen no one knows. There are members of congress who want a drink about every half hour. Where are they going to get it? There is no drinking place within a half mile of the capitol where M. C.'s would want to carry a bottle with them all the time, for that might lead to complications. Really the situation is mighty serious—from a drinking man's standpoint. It used to be the fashion to have whiskey brought up in a teacup and placed on a member's desk

when he was going to make a long continued speech. From the galleries the stuff looked like cold tea or bouillon, but it smelled like—well—the odor told the story, and the sergeant-at-arms very often had to do the rest.

THE POWER OF A COURT

Is Invoked to Declare Woman Legally Dead or Alive READING, Pa., Nov. 23.—An appeal has gone from Berks county to the supreme court of the United States to determine whether Margaret Eunnis, formerly of Reading, now living in Sacramento, Cal., is legally dead or alive. For years she was supposed to be really dead, but she was not. The superior court of Pennsylvania decided she was legally dead. The supreme court of the state, however, decided she was dead again. She now asks the highest court in the land to make her alive in law.

THE SULTAN'S LATEST

Illness Is Said to Be the Result of a Cancer NEW YORK, Nov. 23.—The sultan of Turkey, frequently reported to be ill from one cause or another, is now alleged, by the Vienna correspondent of the World, to be suffering from a cancer in the intestines. He is said to have refused to undergo an operation.

DEAN

Of Marine Hospital Service, Dr. R. D. Murray, Dies at Laredo

FROM EFFECTS OF RECENT INJURIES

Received in a Runaway—Flags of the City Are at Half Mast and Fever Experts Are Grieved at Loss of Chief LAREDO, Texas, Nov. 23.—Dr. R. D. Murray, a yellow fever expert of international reputation and dean of the marine hospital service, died at an early hour yesterday from injuries which he sustained in a runaway accident one week ago today, while returning from the bedside of a yellow fever patient whom he had been visiting and treating. Dr. Murray, in company with Dr. G. M. Gutierrez, was returning from a visit on Sunday, Nov. 15, when the team of spirited horses attached to the carriage became frightened and ran away, the carriage colliding with a huge bowlder, precipitating both the physicians and the driver to the sidewalk. Dr. Gutierrez and the driver escaped serious injury, but Dr. Murray sustained several broken bones and internal injuries. When he had been in the hospital several days pneumonia set in, resulting in his death. Dr. Murray was a native of Ohio, 64 years old. A telegram was received from a son of Dr. Murray requesting that the remains be shipped to Bluffton, Ohio, for interment. In accordance with this wish, the body was sent to Bluffton this morning. A representative of the marine hospital service accompanied the remains to their destination.

FLAGS AT HALF MAST

All the flags on the public buildings both in Laredo and Nuevo Laredo are at half mast. Never before has there been so many expressions of regret as are heard on all hands over the death of Dr. Murray. He had worked night and day to alleviate the sufferings of the poorer classes, and many times he has been seen wending his way back to his hotel at an early hour in the morning after having spent the night at the bedside of some poor yellow fever sufferer. For his many acts of charity and kindness he has endeared himself to the entire community. The entire corps of the marine hospital service here is broken over the death of Dr. Murray. Just before his death Dr. Murray dictated how he wanted his estate disposed of, one of the bequests being to establish a Murray Free Hospital at Key West.

WEATHER WORKS WONDERS

The decidedly colder weather which has prevailed during the past week has worked wonders toward stamping out the yellow fever, and in all probability the end of the epidemic is not far away. Only a small number of cases have been reported daily for some time past, and the general opinion is that these will dwindle down and then gradually disappear. Then the embargoes against this city, which have been placed by the Federal and state governments will be lifted and Laredo can once more communicate freely with the outside world. The official bulletin issued last night at the headquarters of the state health department is as follows: New cases 6, deaths none, total cases to date 1,016, total deaths to date 97. Fever conditions in Monterey now show a slight improvement.

WRECK

Of Alaskan Coasting Steamer Discovery Is Now Declared Certain

THIRTY LIVES ARE KNOWN TO BE LOST

Mass of Wreckage Is Washed Ashore Near the Mouth of Seal River

IDENTIFIED AS PART OF THE MISSING BOAT

From Which No News Has Been Heard Since She Sailed From Yakutat, Oct. 29, Just Before a Terrific Storm SEATTLE, Wash., Nov. 23.—A despatch to the Post Intelligencer from Juneau, Alaska, announces that J. Bent, a passenger on the steamer Excelsior, which has arrived there, reports that a mass of wreckage from the Nome steamer Discovery has washed ashore at the mouth of Seal river, 30 miles below Yakutat. Bent's information makes it practically certain that the Discovery is lost and leaves little hope for either passengers or crew. It is believed that everybody on board perished. The wreckage found, the Bent says, consists of pieces of life boats, life preservers and a large portion of her hull. Bent states that a terrific storm prevailed for a week prior to November 16, on which date he boarded the Excelsior to Yakutat. The number of persons aboard the Discovery, passengers and crew, is estimated at thirty. The vessel left Nome early in October and sailed from Yakutat October 28. This was the last seen of her. The passenger list of the Discovery is in the possession of the steamer's agent at Nome and cannot be obtained. The following members of the crew are believed to have been on the vessel: Captain J. H. McGrath, master; Captain M. R. Walters, manager of the company which owns the Discovery; Edward Ford, first officer; Guy Tolfoord, chief engineer; Edward Vansice, purser; William Dangerfield, steward; Robert Carlson, deck hand; Albert Kissel, acting waiter; Henry Price, second engineer; William S. Hade, fireman. The Discovery was built at Port Townsend in 1898 for the Puget Sound trade. She has been in the Nome traffic for the past three years.

SCHLEY

Favored for Vice Presidential Candidate by Representative Henry

WITH JUDGE PARKER AT TICKET'S HEAD

Texas Congressman Tells the Telegram That the Combination Would Make a Strong Race in Coming Election WASHINGTON, D. C., Nov. 23.—(Special.)—Representative Henry of Texas in answer to a query of the Telegram, "I believe the majority of democrats in Texas favor the nomination of Judge Parker of New York for the presidency. Senator Gorman has a very strong following but not so strong, in my judgment, as has Parker. A poll of the state legislature several months ago showed that 50 per cent of the members favored Judge Parker's nomination. Without any wish in the slightest degree to disparage either Senator Gorman or Mr. Olney, my ticket for 1904 would be: For president, Alton B. Parker, of New York; for vice president, Admiral Winfield Scott Schley, of Maryland. I believe Admiral Schley would attract a lot of strength to the ticket. He is a sterling democrat, and his admirable record during the war with Spain would be worth hundreds of thousands of votes. I believe in conferring political honors upon our heroes."

MONNIG'S

1302-1304-1306 MAIN STREET.

THIS WEEK

We are in a position to offer the trade extraordinary values from our numerous lines. We are the largest buyers, consequently securing the lowest prices. We guarantee prices and quality and invite comparisons of same. We are showing very attractive new things this week and are confident that it will be of a mutual benefit to keep in touch with us.

OUR READY-TO-WEAR DEPARTMENT

\$1.50 Black Peau de Soie Silk, superb finish, reversible, warranted to wear—cannot be duplicated in Fort Worth for its price; no restriction on amount wanted—as long as it lasts, a yard \$1.19

SERMON DEVOTED TO SOCIETY CHILD

Rev. Robert H. Cotton Tells When and How to Spank It

Rev. Robert Hammond Cotton, rector of Trinity Episcopal church, in his sermon last night, considered "The Society Child," this being the fourth sermon in Mr. Cotton's series on "Society." His text was from the 137th Psalm: "Lo, children and the fruit of the womb are an heritage and gift that cometh of the Lord. Like as the arrows in the hand of the giant, even so are the young children. Happy is the man that hath his quiver full of them. They shall not be shamed when they speak with their enemies in the gate." He also read from the 128th Psalm.

He then read excerpts from the old version of the marriage service and expressed regret that these excerpts had been omitted from the American marriage service of the Episcopal church. The most important feature of the old version, according to the rector, was the statement that marriage was devised first for the procreation of children. "We must be struck with the difference between the Hebrew doctrine of marriage and the modern American doctrine. The great ambition of the Hebrew mother was to have a child; the great ambition of the American mother seems to be to evade the burden and responsibility," said the rector.

"As is well known, artificial methods are adopted to interfere with the law of nature and of God in this matter. I have been blamed for suggesting subjects for discussion in women's clubs. Notwithstanding, I will venture to suggest two others. The first: How to increase the size of the American family? The second: How to change the custom of bringing up babies 'on the bottle'."

"In regard to the former, two important articles during the year have appeared in the North American Review, confirming the truth of what I say and no words are more widely known than those of President Roosevelt on this important subject."

"In regard to the latter, I believe we ought to feel that the use of the bottle is the outward and visible sign of evil existing somewhere; I do not profess to locate the evil, but is there not a remedy? Surely our babies ought to be brought up, or reared, in the natural way, in God Almighty's pure, wholesome and sacred fashion."

FOUR CLASSES

He then spoke of modern childhood and said that there seemed to be four classes of children. "First, the neglected child, that is allowed to run wild in a savage and willful manner and when such a child comes into your house you are always afraid of some tremendous crash from the reckless conduct of the untutored little urchin who places everybody and everything in a condition of danger and terror."

"Secondly, the spoiled child, that is petted and permitted to have its own way to such an extent that it is of no use whatever and seems to have learnt the lesson that it should have everything it wants."

"Thirdly, there is the smart child. It is generally a delicate weakling, prematurely developed and brought up by its mamma to be early initiated in the ways of so-called society. There is nothing more pitiful than to see a child 5 or 6 years of age decked out for show among the performers of older people in trying to perform society dances and suffering too early the nervous strain which accompanies always the performance of such functions."

"Fourthly, there is the strong child—I was about to say the Christ child, but I should undoubtedly be misunderstood, because that term seems to imply a little goody-goody person with no character and nothing admirable about it. I would like to say more under this head. Our aim should be, parents, to produce strong children—sound minds and sound bodies, is the end and aim desirable in all education."

BOXING, FENCING, DANCING

He recommended boxing, fencing, calisthenic exercises of all kinds and dancing—in fact, what is called physical culture, generally, as the first and most important thing to be aimed at in the training of children.

"I am glad to know that the gymnasium is an essential part of the parish work of Trinity, and that our people are learning to regard physical culture as a means of grace and a help toward the attainment of temporal and eternal salvation," he said.

"We should make our children strong intellectually," he said. He added that he was a firm believer in the American public school system, although as fully sensible as any one could be of the deficiencies and errors in the way in which it is conducted. "It is a sad thing to think that our children have to be in school seven or eight hours every day and, not satisfied with that, that they have to carry under their arms great piles of books containing the home lessons for the next day and that the poor mother has often to sit down with the child, both tired out, for three hours after supper, working at these home lessons. The child is not able to go to bed until 10 or 11 o'clock at night. Where is the time for play so necessary to the child's development? And where is the time for God and Christ and spiritual culture? Fifty or sixty hours every week to train a child for the world and only one hour to train a child for God. My brethren, these things ought not to be so."

RELIGION AND SCHOOLS

"As regards the moral and spiritual training, that must, after all, be left to the pastor and the parents. The education of our public schools should be secular and unsectarian. The public schools have no right, according to the doctrine of the American constitution, to deal with religious matters. I object to the use of the Bible in day schools because the selections and sometimes even the explanations must be necessarily rendered by inexperienced teachers, and it should be remembered that the Jew, the Unitarian and agnostic parent, to say nothing of the church parent, ought not to be compelled to listen to the extem-

The Guardian of Our Body

SCIENCE UP-TO-DATE.

The foremost biologist of our day is M. Metschnikoff who has shown the world of science that there are leucocytes in our blood that act as scavengers or policemen. These policemen which are called phagocytes look out for the noxious or poisonous elements in our blood. It is of the highest importance to the long life of the human being that these policemen guard us from the attack of germs from the outside—who enter our bodies like burglars to take our lives. Various offending elements such as micro-organisms are picked out of the blood and tissues by these policemen and destroyed. Therefore our lives are protected by these blood-cell-policemen the phagocytes, and we enjoy immunity from disease so long as our blood contains plenty of phagocytes and red blood corpuscles. We can prolong life by keeping our blood in good condition—our circulation and liver active. In the above sketch the border shows types of red corpuscles which are degenerated, broken down blood cells—in healthy red blood the cells are round but when we get pale, thin and weak the round cells soon become irregularly shaped or like a dumb-bell. The policemen in our blood are represented by the dark irregular shaped cells within the circle showing healthy blood cells.

pure blood or it will not pump and keep the body supplied regularly like the beautiful automatic engine it is. The nerves must be fed on pure blood—or we suffer the pain of neuralgia, which is the cry of the starved nerves for food. Headaches, cold in the head, catarrh—and many other things are due to stagnation of the blood." Many of our common ills could be prevented and cured if the people only knew themselves and their bodily make-up. Study some good medical book, it need not be technical—a good one is the "Common Sense Medical Adviser" by R. V. Pierce, M. D. This book is a complete treatise on Physiology, Anatomy, Hygiene and Medicine and gives simple receipts for the cure of ordinary ills—and is within the reach of everyone for this one thousand page illustrated book will be sent, by addressing Dr. R. V. Pierce, Buffalo, N. Y., for 21 one-cent stamps in paper binding, or cloth-bound for 31 stamps.

HOW TO PUT THINGS IN ORDER.

"A new broom sweeps clean"—and in order to put our own house in order we must get rid of all the poisons in the blood with a new broom such as an alterative extract made from roots and herbs—without the use of alcohol. Alcohol only survives up the red-blood corpuscles and therefore it is unwise to try and brace up one's strength with cocktails or alcoholic tonics and compounds. Some thirty-eight years ago Dr. Pierce who was in the active practice of medicine and surgery found that an alterative extract could be made of certain herbs without the use of alcohol, that was a specific for making rich red blood—for eradicating the poisons from the blood. In some way the policemen in the blood are increased in number

and strength—so that we are put in the best possible shape to resist disease—in cure neuralgia, colds, catarrh, and incipient consumption. "I believe that it is generally conceded that Dr. Pierce's Golden Medical Discovery is the best medicine for a man to take suffering from indigestion, kidney trouble or any of the afflictions resulting from overwork or neglecting a cold," writes J. Russell Hill, of 332 Barrie Street, Kingston, Ontario, Recording Secretary Imperial Knights' Federation League of Kingston. "I have used it several times during the last few years and have always found that it gave me immediate relief. It expels excessive uric acid in the system due to improper digestion, relieves the kidneys from congestion, drives headache and backache away, induces appetite and tones up the general system. I consider it a fine remedy for young or old men, sure to build up a run-down condition of the system." "It gives me great pleasure to express my faith in the virtue of Dr. Pierce's Golden Medical Discovery," writes Mrs. Ellen Hayes, of Whittens Stand, Tenn. "For several years I suffered with stomach trouble. Had spells which were so bad no pen can describe the suffering I endured while they lasted. In November, 1901, I wrote to Dr. Pierce, describing my case, and he replied advising the use of his 'Medical Discovery.' I bought nine bottles, have taken six of them and have not had another spell since I commenced the medicine, although am not yet entirely cured. I have received much and lasting good from Dr. Pierce's Golden Medical Discovery, and know that if I continue with it that it will cure me. I thank you for your kind advice and the benefit I received from your medicine."

FOR A TROLLEY SYSTEM

Contract Is Given American Firm in England
NEW YORK, Nov. 23.—According to information received here, the Lorain Steel Company has secured a contract to put in a complete electric trolley system in the city of Wolverhampton, England. This is said to be the first contract ever given an American firm for establishing such a system. The granting of the contract marks the end of a two years' fight which has become almost national in its character in England. Two years ago the Lorain Company put in an experimental plant in Wolverhampton. There were a large number of English competitors, however.

LONSDALE IS IN BERLIN

English Lord Arrives to Pay Visit to Emperor
NEW YORK, Nov. 23.—Lord Lonsdale has arrived here on a visit to Emperor William, says a Herald dispatch from Berlin. A royal carriage was sent to the station to meet him. He stated he is not the bearer of a letter from King Edward, but has simply come on a private visit on the invitation of the emperor. He will go to Potsdam today.

SONS OF VETERANS

At the meeting of the Sons of Confederate Veterans held yesterday afternoon it was announced there will be a meeting in the meeting room of that organization next Wednesday night for the purpose of completing the organization of a drill team. A resolution was also passed to join Lee camp in its trip to visit Camp Sterling Price at Dallas next week.

Casey—Oh see there's bin another trol- road wreck due to an open switch. Cassidy—Ay, 'tis a pity some was not invent a switch that'll stay shut while it's open.—Philadelphia Press.

Today's Market Quotations

Latest and Most Complete Report Printed in North Texas

NORTH FORT WORTH, Nov. 23.—The heavy run of cattle were received at the yards today, the receipts up until a late hour this afternoon numbering close around 250 head, with still a good number in sight to arrive on late trains this afternoon.

The supply of steers was unusually light for a Monday market and the quality was hardly up to an average. The market however opened early and from the few sales made showed a little strength over last Saturday's close.

Cows were plentiful with all grades and classes offered. The general quality was some improvement over last week's average sales and with the demand good sold strong to a shade higher, some sales being quoted a dime higher. Best quality range cows sold readily around 2.45@2.55, with the bulk of sales at 1.75@2.00.

Calves were in good supply and sold steady at unchanged prices. The best brought \$4.00, but the average good sold around \$3.00@3.50. The bull demand was good and the small run sold steady and active.

Receipts of hogs fell far short of general expectations today for a big Monday run. At the opening of the market only three cars were yarded, a total, including four loads of wagon hogs, of 275 head, with seven cars in sight over the Rock Island for late arrival.

Kansas City came in early with a 15 to 20 cent decline and in the face of a still further decline the small supply on the local market sold early on a basis of 13 to 15 cents lower than last week's closes.

Babeok Bros., of Ripley, Ok., sold to the Houston Packing Co. 75 choice quality 210-pound packers at \$4.65, with the supply to the local packers generally selling between \$4.50 and \$4.60. Today's receipts include a small proportion of good quality pigs which were cut out of the mixed bunches and sold separately.

Best pigs weighing 135 pounds sold at \$4.57 1/2, with a bunch of medium quality 114-pound pigs selling at \$4.50. There is practically nothing doing on the stocker and feeder market. The rapid decline in fat hogs during the past month has put a check to the demand for feeders, farmers preferring to dispose of their corn on the market rather than feed it to hogs with the prospect of losing money on spring marketing.

One load of stockers and feeders were held on the market three days last week before a purchaser was found. Choice sorted hogs today are quoted at \$4.50 to \$4.70; medium weight good quality packers at \$4.50 to \$4.60, and pigs and lights at \$4.40 to \$4.75.

The official receipts of live stock at the Fort Worth Stock Yards company during last week were as follows: Cattle, 12,835; calves, 4,249; hogs, 3,578; sheep, 372; horses and mules, 186. The distribution of the week's receipts were as follows:

Sold to packers—Cattle, 7094; calves, 2099; hogs, 3058; sheep, 375. Sold to others—Cattle, 2336; calves, 166; hogs, 221. Shipped and driven out—Cattle, 2053; calves, 2235; sheep, 231.

Table with columns for 'The sales' and prices for various livestock items like cattle, hogs, and sheep.

TODAY'S SHIPPERS

Table listing shippers and their respective livestock sales, including names like R. S. Carruthers, Harris Bros., and Swartz Seed Co.

Notice to the Public: Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The Fort Worth Telegram will be gladly corrected upon due notice of same being given at the office, 1010 and 1012 Houston street, Fort Worth.

Welcome to Women: The State Federation of Woman's Clubs will meet in this city tomorrow, and already a large number of ladies who will attend are guests of the hospitable homes of Fort Worth.

To say they are welcome, but feebly expresses the sentiment of the people of Fort Worth. They are more than welcome and in saying so The Telegram would like to go a little farther and express why this welcome is extended.

Woman is the best of God's handiwork. She makes man better, she makes the world better, she makes brighter the sunshine and gives comfort in the darkness, she makes man considerate of his fellow man, she brings the world to a realization of the beauties of nature, and her very presence changes the atmosphere when she comes.

She talks for the best, she works for the best and she prays for the best. She wants no bad things to happen her boy or to another's boy. She is anxious, because she wants the ideal to be realized, and the ideal in her mind is a mark placed far above that which many reach.

Whether we all approve of the poll tax as a qualification for voting, we cannot get away from the fact that a provision of that character is now in the organic law of the state and the statute provides the manner in which that organic law shall be administered.

Humor and Philosophy

By DUNCAN M. SMITH

Copyright, 1933, Sampson-Hodges Co.

A STAY-AT-HOME.

I wouldn't care to take a trip To hunt the lost, expectant pole Upon a stanch and gallant ship That some day might run out of coal.

I'd rather go the other way. In my own natty, private yacht, And help discover Florida Or some such fair and favored spot; I think I would display more sense And save a rake off on expense.

The winter weather that we get Will do me, without hunting frost; I want no snowstorm for a pet— 'Twas won't grow on again if lost. Should January heat oppress I know the leeman's home address.

Supposing when I reached the spot Where exports figure stands the pole I should discover like as not A grinning and expansive hole Three feet across and ten feet deep— Say, wouldn't I feel mighty cheap?

Let others who would freeze to death; Let those who call it royal sport Go up against the icy breach That comes down from the arctic port. If I should want the doubtful prize I'll stay at home and advertise.

PERT PARAGRAPHS.

Often a soap factory looks well enough when it smells like 30 cents.

The man who really wants to break himself of the habit of smoking should let his wife buy his cigars.

Buy a good, clever hen, and she may lay the foundation of your fortune.

While a city man does not mean to be impolite he often looks into the mouth of a gift horse to see if it is needing hay.

Instead of taxing bachelors to encourage matrimony married men should be given a pension because they have been through the war.

Work when you work and play when you play, but don't whistle when you whistle if you want to keep your friends.

People whose business it is to mind other people's business generally mind that business of their own quite well.

Possibly the reason they are so slow in tropical countries is that time is only Mexican money.

If artists were pensioned they would all be able to draw that in an artistic manner.

The difference between an artist and a photographer is about \$3 a dozen.

The Modern Way.

Pay as you go. Oh, I don't know! The saying's crude and crass. The better way is not to go Unless you have a pass.

Couldn't Stretch It.

"Here is a good joke, a corker, a screamer. I picked it up in the orient and brought it all the way from China," said the young author, his eye gleaming like a dishpan that had been cleaned with scrubolite.

"Too far fetched," said the great editor, hardly glancing up from his work, and the young author fell out of the window on the cold and cruel pavement ten stories below.

Cheap, but Sure.

He did not advertise his goods, But still he did quite well; He simply told his girl the price And swore her not to tell.

The Honest Farmer.

How peaceful is the farmer's life, without perplexities or care, removed from bartering and strife, blessed with digestion of a bear, he and his children and his wife breathe every moment fresh laid air.

While he is slumbering his crops grow like a dude's expense account. From nature's tank the water drops in just the requisite amount, and that's the reason why he chops out worry and at woe can fount.

He rises at the peep of day, soon as the sun begins to blink, and bales a ton of new mown hay almost before the cat can wink, as gracefully and quite as gay as fairies in a skating rink.

Though horny are his ample hands, his heart is tender as a steak cut from a yearling. German bands no sweeter melody can make than when he in the gloaming stands and bids his hired men awake.

Then when he pails the gentle cow his wife prepares an ample meal, which he surrounds; then to the plow he gayly trips on toe and heel, light hearted as the laws allow, contented as the leeman feel.

Misfortune cannot keep him down, though it comes tapping at his gate and wears a Henry Irving frown, for he toils early, long and late; while others loaf about the town he pays his mortgage while you wait.

When it is raining on the farm he fits off to the village store, where dry goods statesmen with alarm view silver, tariff, peace and war and with a simple rustic charm save their beloved land once more.

O farmer, with your level head, your whiskered chin and twinkling eye, without you how could we be fed? We suffer when your crop is shy. 'Tis you that keeps the world in bread, though it must rustle for its pie.

The Safer Way.

To call a man a liar May sometimes bring a spat; Just say, "You are a fisherman," And let it go at that.

WASHINGTON GOSSIP

The members of the Michigan delegation in the House put on their long coats and wore their high hats and all went to see Speaker Cannon on Tuesday to ask about their committee places.

A dapper young man came to Senator W. J. Stone of Missouri and explained to him the benefits of a press-clipping bureau he was conducting.

There sat in one of the senate galleries on Tuesday an English attorney of some note. Mr. Thomas Fitzgerald, who threw bouquets at some of our congressional orators on the Democratic side such as should increase their chest expansion.

observe such things in my time. There was one speech in particular which interested me exceedingly. The man must be one of your leading orators. He was very forceful and able. Let me see. His name was—Swanson, Swanson. I think that was it. I looked this morning, you know, in the Congressional Record, and there I found it. Swanson must be one of your leading orators.

"Uncle Joe" arose. He seemed to feel the lack of a long coat and a high hat. He concealed the stump of his cigar in his hand. "Gentlemen," he said, "I appreciate all your eloquent spokesmen has said about Michigan, and I feel deeply the honor of this visit. I am sure you are all aware of the perplexities— Oh! what's the use? Boys, I'll do the best I can for you, and cut the oratory out."

"Ah!" said Gentleman Jack, the reformed safe-cracker, as he labored with the pie that his wife had baked for their Thanksgiving feast. "This seems like old times to me. I wish, though, that I hadn't destroyed my kit of tools when I decided to lead a better life."

The Habits of a Cracker

Little drops of water, Little gusts of dust, Make common soda crackers, Mighty hard to trust.

When crackers are dry or fresh they drink most. Moisture is quickly absorbed by crackers when they are exposed to the air.

SHEEP SECURING MUCH ATTENTION

Editor of Drovers' Journal
Says Many Will Be Raised Next Year

The discouraging conditions in the cattle industry in the United States that have prevailed for more than a year has had the effect to turn the attention of stockmen to the raising of sheep and from the present indications there will be more sheep raised and fattened during the next two years in the states of Illinois, Michigan, Indiana and Ohio than ever before.

This is the statement made here by F. E. Moore, editor of the Chicago Drovers' Journal.

Mr. Moore assigns as a reason for this venture the extremely low prices of cattle all over the United States. The stockman, he says, sees a better opportunity to save himself and make money in feeding sheep and many of them have decided to engage in that industry for the next two years.

PRESENT CONDITIONS

Regarding the live stock conditions over the country generally, Mr. Moore says: "Two years ago the prices of cattle went so high that stockmen fairly went wild and undertook to get rich in a single season by entering the business on an extensive scale. Prices went down and stockmen found that they had more fat cattle on hands than they knew what to do with. Despite these unfavorable conditions, hundreds of thousands of cattle were rushed to market from all over the country, particularly from the older states where farmers fed thousands of natives. The over-production still further reduced prices until the feeder became a heavy loser. Consequently the feeders have decided to try their luck with feeding sheep during the next year and thousands of head are being fed in many of the northern states, especially in the states named above.

IN THE NORTHWEST

"Conditions in the northwest last winter were so very hard on the sheepmen, rendering the feeding proposition so uncertain, that they lost heavily, and in order to save themselves they have been rushing sheep to the markets from the northwest, particularly from Idaho, Wyoming and Nevada. The sheepmen of that country have marketed their sheep much closer than ever before, and they will carry fewer over than in the history of that country. If there should be another hard winter, the losses in the northwest would be appalling. On this account there has been an unprecedented movement to market during the past three months, especially of the feeder class. Most of the sheep that have been bought by feeders in the middle and central states have been purchased on the Chicago market.

Don't have a falling out with your hair. Use Ayer's Hair Vigor.

J. C. Ayer & Co., Lowell, Mass.

There has been, in round numbers, about 500,000 head distributed among the feeders in the states named above during the past sixty days, and there are still large numbers yet to be distributed. This means that half a million fat sheep are to be placed on the market next season, and it also means that they will come into competition with other sheep that will also be marketed.

SMALL FEEDERS

"Another feature of the sheep business is that more small feeders are engaging in the business this season than ever before. Heretofore the heavy sheep feeders in the vicinity of Minneapolis, Minn., have carried on most of the sheep feeding, but on account of the increased prices of mill screenings this year, they are giving way to the men who are content with handling smaller bunches of sheep. This will result in more feeders entering the field and will give more competition to the business. Another feature about the feeding of sheep is the fact that there is a double revenue to be derived therefrom because the wool clip will bring to the feeder a desirable sum. These sheep have cost the buyers from \$2 to \$3.50 per 100 pounds on the Chicago market, while for lambs the price paid was from \$3 to \$4.50 per 100 pounds. It is estimated that it costs about \$1 per head to fatten a sheep, a double revenue to be derived from because the wool clip will bring to the feeder a desirable sum. These sheep have cost the buyers from \$2 to \$3.50 per 100 pounds on the Chicago market, while for lambs the price paid was from \$3 to \$4.50 per 100 pounds. It is estimated that it costs about \$1 per head to fatten a sheep.

"While there are many things to discourage the feeding of cattle at this time the sheep feeder sees that there is a growing demand for mutton, both on domestic and foreign account. The reason for the foreign demand for mutton is attributed to the prolonged seven years of drought in Australia which has almost annihilated the sheep industry in that country. It is estimated that fully 50 per cent of the sheep in Australia have been killed off by the drought, and the result is England will now be compelled to depend on America for her mutton supply. Another calamity exists in Argentine Republic in the shape of the foot and mouth disease among sheep and cattle which has also forced England to look to this country for her meat supply. This condition has caused an embargo and neither sheep nor cattle are now being exported to that country from South America.

"On account of these deplorable conditions the world's supply of sheep is at least 20 per cent less of the normal, thus stimulating the American feeders of sheep. A great many sheep are already contracted for in this country by exporters for the present winter delivery and also for next spring's delivery. These deliveries will extend as late as April and May.

Because of these unusual and deplorable conditions in foreign sheep-producing countries Mr. Moore believes that the American sheep feeders will reap a rich harvest during the coming year.

DENTON STREET FAIR

Ends With a Loss of Money to the Proprietors.

DENTON, Texas, Nov. 23.—The street fair closed here Saturday night. On account of the cold, inclement weather which prevailed all last week the patronage of the various attractions at the fair was very light up till Saturday night, but it was good Saturday. One of the managers told The Telegram Saturday morning that they hadn't made their board here up to that time.

The floral parade on Saturday which was postponed from Thursday on account of the weather, was a very interesting feature. This was gotten up by and participated in only by home people.

Music and Drama

THE WEEK'S EXPECTATIONS

Tonight—"East Lynne."
Tuesday Night—"Gambler's Daughter."
Wednesday Night—"Robert Mantell in 'The Light of Other Days.'
Thursday Night—"Human Hearts."
Friday Night—"Adelaide Thurston in 'Polly Primrose.'
Saturday Night—"When Reuben Comes to Town."

THE RETURN OF JOHN DILLON.

One of the most pleasing features in connection with the revival of "East Lynne" at Greenwall's opera house, tonight, is the return of old John Dillon. There is no question that his health always been robust as it is now in his seventy-second year. John Dillon would have been respected in dramatic history as the superior of Sol Smith Russell.

"A GAMBLER'S DAUGHTER"

"A Gambler's Daughter" comes to Greenwall's opera house Tuesday matinee and night, Nov. 24. It is the latest melodrama from the skillful and talented pen of Owen Davis, the author of several other highly successful melodramas, including "Lost in the Desert," "Through the Breakers," etc.

"HUMAN HEARTS"

The organization presenting "Human Hearts" is under the management of W. E. Nankeville, who has directed its tour most successfully for a number of years. "Human Hearts" comes to Greenwall's opera house Thursday (Thanksgiving) matinee and night, Nov. 26th.

"WHEN REUBEN COMES TO TOWN"

The newest and most successful musical comedy of the season, "When Reuben Comes to Town," will be the attraction at Greenwall's opera house Saturday matinee and night, Nov. 28.

IMMIGRATION TRAFFIC ADJUSTED

The troubles of the Western railroads over the division of the immigrant business have been settled, and in consequence the Rock Island will come back into the Western Passenger association and rejoin the Western Immigration bureau. The Rock Island withdrew from the organizations shortly after the completion of its new El Paso route because its demand for a share of the immigrant business over the new route was refused by the other transcontinental lines. Its competition has caused loss of revenue to all lines. After meetings lasting two weeks, both the Southern Pacific and the Santa Fe have agreed to give up a portion of their percentage of the business in order to allow the Rock Island a reasonable share for its El Paso route.

CLUB WOMEN TO MEET HERE TOMORROW

Program of the First Day's Session—Seventh Annual Convention—Many Are in Attendance

At 9:30 o'clock tomorrow morning the seventh annual convention of the Texas Federation of Women's Clubs will be called to order in the Tabernacle Christian church; prior to that time a meeting of the executive committee is to be held.

This meeting promises to be largely attended. They are here in numbers already, each train arriving today bringing some of those who are delegates. Others are expected tonight and tomorrow morning the late arrivals will reach here, and there will be a hurry and scurry, a rustle of silks and a hasty toilet, to reach the convention hall in time to hear the welcoming words which are to be spoken by the mayor and by others.

It can be expected that the gathering will be a fine one, and that flowers and perfumes will so fill the church in which they meet that it will be pleasant to every one attending.

The following is the program for the first day:

Tuesday, 9 a. m.—Meeting of the executive board.

Delegates to pay dues and report to credentials committee.

9:30 a. m.—Convention called to order.

Invocation, Rev. J. S. Myers.

Addresses of welcome, five minutes each: Hon. T. J. Powell, mayor of Fort Worth; W. E. Connell, president Commercial Club; Dr. George MacAdam, A. M., president Fort Worth University; Mrs. J. C. Terrell.

Response to address of welcome, Mrs. J. N. Chandler of Weatherford.

Greetings from Kansas Federation, Mrs. Noble Prentiss of Topeka, Kan.

Greetings from Colorado Federation, Mrs. Mary Bradford of Denver, Colo.

Report of credentials committee.

Report of committee on rules and regulations.

Election of new clubs.

Reports of Mrs. J. D. Osborne of Cleburne, presiding officer of north central district.

Report of Mrs. John B. Goodhue of Beaumont, presiding officer of southwestern district.

Report of Mrs. Edmund Key of Marshall, presiding officer of northeastern district.

Discussion.

Report of Miss Ella Cockrell of Abilene, presiding officer of the northwestern district.

Report of Mrs. M. W. Sims, Bryan, presiding officer of the southeastern district.

A visitor's impression of the district meetings, Mrs. Cornelia B. Stone, Galveston, first vice president.

Discussion.

Reports of federation officers:

Corresponding secretary, Miss Nola Dilworth, Austin.

Recording secretary, Mrs. W. A. Johnson, Greenville.

Treasurer, Mrs. G. A. Brown, Vernon.

Auditor, Mrs. F. B. Boydston, McKinney.

General Federation secretary, Miss Betty Ballinger, Galveston.

Adjournment.

Luncheon served to delegates in church dining room.

Tuesday, 2 p. m.—Music, "Intermezzo En Octaves" (Leshchitsky), Miss Shaw, musical department, Owl Club, McKinney.

Special order of business.

Proposed amendments to the constitution.

An address, DeWitt McMurray, editor Woman's Century, Galveston-Dallas News.

Report of educational committee, Mrs. A. H. Wilkins, Dallas, chairman.

Report of executive board concerning university scholarship, Mrs. H. C. Carter, San Antonio.

Roll call of clubs, each delegate stating amount her club has paid to the federation scholarship in the state university.

Adjournment.

Tuesday, 8 p. m.—President's evening.

Invocation, Rev. Junius B. French.

Music, vocal solo, "Chanson Provençal," Dell Acqua, Mrs. Maud Peters Ducker.

Address, Mrs. Dimas T. S. Denison, New York City, president of the National Federation of Women's Clubs.

Music, vocal solo, selected, Miss Schneider, Dallas.

Address, Mrs. Percy V. Pennybacker, Austin, Texas, president Texas Federation Women's Clubs.

Address, Dr. William L. Prather, Austin, president University of Texas.

Adjournment.

AMARILLO STIRRED BY THE REMOVAL

Temporary Suspension of the Sheriff May Cause Prohibition Fight

AMARILLO, Texas, Nov. 22.—Ever since prohibition went into effect in this county nearly two years ago, there have been existing doubts as to the strict enforcement of the law by the ardent adherents of the law.

Several cold drink stands have started up that did not exist before the law became effective, and conducted by parties who had hitherto been engaged in the saloon business. Many and sundry bills growing out of alleged violation of the law, were presented by the grand jury but at no time has sufficient evidence been produced to satisfy the minds of the jury selected to try the cases, of the guilt of the parties charged, and consequently no convictions have been had up to the present time.

The recent cold wave has evidently caused the prohibitionist to wonder at the success of "ice cold lemonade stands" at this season of the year, and during all this time no great advance in price of lemons was noticed. They called a meeting and devised ways and means to check this "lemonade habit." They called in prominent attorneys, and after going over the entire matter decided that the lemonade stands must go.

They first called on the sheriff and told him that if he could not suppress this element of winter-time lemonade traffic, to get out of the way and they would take the responsibility. To this he declined, stating he had summoned the identical juries drawn, had served all processes placed in his hand, and that he did not feel justified to go further. The result is that suit was filed against the sheriff of the county praying for his removal from office, and upon a sworn petition of several relatives, Judge Webster entered an order removing the sheriff, pending final hearing in February. This action has caused no little comment, as the sheriff is a very popular man, and is now serving his third term. Judge Webster appointed in his stead State Ranger Lieutenant Burwell, fixing his bond at \$5,000, which he made and entered upon the discharge of the duties as sheriff Friday afternoon.

Another fight is now on, as an election has been ordered for the 12th of December, upon the petition of the "antis" and the fight will be a warring one, and it is a conjecture as to how it will end, or which side will win.

County court is now in session and there are something like a hundred cases of alleged violation of local option to be tried at this term.

REGULAR MEETING OF THE VETERANS

Local Camp Accepts Invitation of Sterling Price Camp to Visit Dallas

There was a good attendance on the meeting yesterday afternoon of Lee camp, which was opened by prayer offered by Chaplain Fahey.

The minutes of the last meeting were read by Assistant Adjutant Ball and approved by the camp.

Commander Taylor again urged that comrades do a little skrimishing and locate any old Confederate soldier possible and bring him into camp affiliation. He said he was confident there were many old heroes of the Southern Confederacy in this city and that they should become members of the camp here.

Comrade John Murphy who was one of the committee to arrange for an old fiddler's concert, reported that he hoped to have the matter thoroughly under way during the present week. He asked the assistance of the Daughters in getting up the contest.

Historian Judge Cummings made reference to the late book of Gen. John U. Gordon, on the Reminiscences of the civil war.

The committee to arrange for beautifying the Confederate grave yard, announced, through Chairman J. J. Melton, that this work will take place on January 13, General Lee's birthday. The committee expect also to set out a number of trees on the grounds. On this same date additional crosses of honor are to be bestowed. This affair will occur at night.

Comrades Thomas Rattan, Rolly, Matkin, Thomas Montgomery and W. H. Haas were made the recipient of crosses of honor yesterday.

TO VISIT DALLAS

An invitation from Sterling Price camp of Dallas has been received by Lee camp to pay the Dallas camp a return visit, and this will take place on November 23. It was announced that a rate of 65 cents can be secured over the Texas and Pacific. Former Assistant McNeely was appointed to arrange for the trip in regard to transportation. It was decided to leave the Union station at 12:30 p. m. All parties going are asked to notify Mr. McNeely by Friday next.

S. P. Greene, K. M. Van Zandt, J. J. Massie and T. S. Able, committee, reported a resolution on the death of Hon. Peter Turney, former governor of Tennessee, which occurred at his home in Winchester, Tenn., a few days ago.

At the beginning of the civil war in 1861 he organized and carried into the service the First Tennessee regiment, of which he became colonel. This regiment was the first raised in Tennessee for the Confederate service, and Colonel Turney served as the commanding officer of this regiment almost during its entire service. When the war closed he returned to the practice of his profession and in 1870 was elected to the supreme bench of Tennessee, which position he filled nearly a quarter of a century. He resigned to accept the nomination for governor of the state. He served as governor four years, retiring to spend the balance of his life as a private citizen. Many of the old regiment are now citizens of Texas, and several belong to Lee camp.

Sympathy was extended by the camp to the surviving members of his family.

T. S. Able, John Rogers and one or two others of Lee camp fought under Colonel Turney.

The Judge—Supposing your automobile was running at the rate of 12 miles an hour, how quickly could you stop it?

The Expert—Why, Your Honor, while running at that rate I have stopped it time and again before the rear wheels touched the victim!—Town Topics.

She—She's really too young to go shopping alone.

He—Yes; she is rather impressionable.

She—How do you mean?

He—She's liable to get excited and buy something.—Philadelphia Press.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. STORIES OF THE DAY

By The Optimist

Edith and Ethel—you will remember that they are on a strike against their father, the particulars of which unique labor disturbance were faithfully reported by the Optimist several days ago.

In his man's way of reasoning he had quite made up his mind that the girls would change their minds during the night and that they would try to win him over by putting up a steaming hot and appetizing breakfast.

He kept his thoughts to himself, however, and his outward bearing was stern and repellent. "The shall not see how they are hurting me," he thought. "They can't hold out, and as for me—well, I can't afford to concede anything."

toward a cafe. The homeward bound crowds, looking hungry and happy, put him in a condition of mind where he felt lonely and outcast. He did not enjoy his meal and when it was over he vaguely wondered what to do next.

Meanwhile Edith and Ethel were passing an interesting afternoon and evening. At 4 o'clock the discussion between them was somewhat after this fashion: Edith—It is 4 o'clock, Ethel.

Edith—Yes, just 4. Edith—Was that 4:30? Edith—(Going over to the clock)—No, dear, it's just 4:05.

Edith—What shall we do? Edith—O, we can't keep this up; let's get up a big dinner and ask him to forget all about it.

Edith—Yes, but he probably won't come home, he would be terrible if he didn't come home to dinner, wouldn't it? Edith—Especially if we cooked one. Just think. We two sitting down to it alone.

Edith—Is that some one on the porch? Edith—(At the window)—No. (Looking at the clock) It isn't time for him yet; he never comes till 5:30.

Edith—Sometimes he comes at 5:15. Edith—It is only 4:15 now. Edith—O, dear me. Isn't it terrible? I feel as if I could cry.

Edith—(With fortitude)—So do I, but I'm not going to do it. Remember, we are strikers and strikers don't cry—they fight. Edith—(Weakly)—Yes, dear, but they are men.

Edith—I remember reading about a woman's strike. It was somewhere up north, but the paper said that the girls didn't cry. And they won the strike, too. The heading on the article was: "Women win without weeping."

Edith—I guess that editor thought he was saying something smart. After awhile: Edith—Do you feel hungry, Edith? Edith—Not a bit. Do you think he'll come? I don't.

Edith—I'm not hungry, either. I don't think he'll come. Edith—(Near to tears)—I don't think he loves us very much, do you? Edith—It's not that. It's just his way. Men are so peculiar—especially fathers. You can't understand them. Now I can understand Bob easily.

Edith—Yes, but he's such a simpleton. Edith—He's not a simpleton. Edith, you cruel girl, I'm sure I know a young man who is one, though. Edith—If you mean Jack you are spiteful and horrid.

When they made it up they were both in tears. The effect of the lackmymosal deluge was to strengthen them in the strike. They had tea and toast at 5 o'clock so that they could tell their father—if he should come—that there would be no evening meal for him.

SOME VISITORS HERE AND WHAT THEY SAY

By James Hays Quarles

Hon. A. B. Davidson of Cuero was in the city last night a guest of the Metropolitan hotel. In the Texas senate of which he is a member, he is known as "Davidson of DeWitt." This is to distinguish him from "Davidson of Galveston."

Ed. J. Hammer of Colorado was in the city Saturday. Judge Hammer was on the bench of the district court in his section of the state a long time. I have found him a man who studies well every proposition presented, and when he expresses himself it is on a sound idea.

"I notice The Telegram is fighting the free pass question. I thoroughly agree with you on that. It is an evil which should have the attention of the legislature. The free pass is nothing more than a bribe and it is not given until the railroads know what effect it will have."

Clem H. Allen was in the city last night en route to Haskell county on business. Mr. Allen lives in Austin now, his home formerly being in Washington county. For about a dozen years he has been sergeant at arms of the Texas senate, and no man is better known to those who attend sessions of the legislature.

John H. Bailey of Cuero was here last night en route to Oklahoma Territory on legal business. The first time I saw John Bailey was back in 1899, then he was a member of the Twenty-fifth legislature, and he was an active one. He was one of those who slept on the floor during the night and day sessions which were forced by a "call of the house," during the time when the fee bill and the general assignment law were being considered.

Let Us Pay

For a 50c Bottle of Liquozone, to Show You What it is.

If you suffer from a germ trouble, let us buy a bottle of Liquozone and give it to you to try. It is liquid oxygen—the best thing in the world for you. And in germ diseases it does what all medical skill cannot do without it.

We had faith enough in it to pay \$100,000 for the simple right to make it. We know its results so well that we will gladly pay for your test. Won't you, if you need it—in simple fairness to yourself—have faith enough to send us this coupon?

Liquozone is simply liquid oxygen—no drugs, no alcohol in it. It is the discovery of Paul, the great German chemist, who spent 20 years on it. His object was to get such an excess of oxygen in staple form into the blood that no germ could live in any membrane or tissue.

Oxygen is life to an animal—the very source of vitality. We would die in three minutes without it. In this liquid form its effects are exhilarating, purifying, vitalizing. But germs are vegetables, and this excess of oxygen is deadly to vegetable matter.

We Offer \$1,000 on every bottle of Liquozone for a germ that it cannot kill. And there is no other way to kill germs in the body without killing the tissues, too. Any

germ-killing drug is a poison to you, and it cannot be taken internally. Medicine never destroys inside germs. We spend 14 days in making each bottle of Liquozone, yet we offer you the first bottle free. And we supply it to physicians and hospitals everywhere at almost cost. In this fair way we are trying to introduce this product to everyone who needs it. If you will be as fair with yourself, we will gladly show you how any germ disease can be cured.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone kills the germs, wherever they are, and the results are inevitable. By destroying the cause of the trouble, it invariably ends the disease, and forever.

Asthma—Anemia Liver Troubles Abscess—Pneumonia Pleurisy—Quinsy Rheumatism Skin Diseases Scrofula—Sycchilia Stomach Troubles Throat Troubles Tuberculosis Tumors—Ulcers Varicocele Women's Diseases Colic—Croup Dysentery—Diarrhea Constipation Eczema—Erysipelas La Grippe Fevers—Gall Stones Leucorrhoea Hay Fever—Influenza Gout—Gout Malaria—Neuralgia Dyspepsia Many Heart Troubles

Any physician or hospital not using Liquozone will be gladly supplied for a test.

All diseases that begin with fever, all inflammation—all catarrh—all contagious diseases—all the results of pure or poisoned blood. In nervous debility Liquozone acts as a vitalizer, accomplishing what other drugs can do.

50c Bottle Free If you need Liquozone, and have never tried it, please send us this coupon. We will then mail you an order on your local druggist for a 50c size bottle, and we will pay your druggist ourselves for it. This is our free gift, made to convince you; to show you what Liquozone is, and what it can do. In justice to yourself, please accept it today, for it places you under no obligation whatever. Liquozone costs 50c and 50c.

CUT OUT THIS COUPON for this offer may not appear again. Fill out the blanks and mail it to the Liquozone Co., 221-229 E. Kinzie St., Chicago. My disease is..... I have never tried Liquozone, but if you will supply me a 50c bottle free I will take it.

PRIEST

Puts a Ban on Miss Helen Gould's Sewing School at Irvington, N. Y.

BECAUSE MEAT WAS SERVED ON FRIDAY

And Catholic Children Ate Sandwiches Without Remembering Rule of the Church.

Miss Gould Remains Firm

IRVINGTON, N. Y., Nov. 23.—Rev. T. J. Early, pastor of the Catholic church of Irvington, has forbidden the children of Catholic parents in his parish to attend the sewing school which for years has been maintained by Miss Helen Miller Gould. The school has some 200 children.

In the latter part of September, when Miss Gould gave the children their annual party and entertainment, the affair took place on a Friday. Miss Gould left the serving of the refreshments to her steward. He, without thinking, served sandwiches of which meat was a part. Some of the Catholic children ate sandwiches, probably not thinking what day it

was. As soon as Father Early learned of this he put the school under a ban. MISS GOULD'S LETTER When Miss Gould heard of Father Early's action she wrote to him, through her secretary. The letter said: "Miss Gould regrets that you felt it necessary to forbid the children of your parish coming to her sewing school because at the annual party which was held on a Friday in September some of them ate sandwiches. Since, however, the ban has largely affected the attendance of the school, she has decided in future to do what she has long wished but has refrained from doing on account of the presence of the Roman Catholic girls—that is, hereafter a short selection from the Bible will be read at the opening service. She thought it courteous to inform you of this, as she understands the church you represent discourages the reading of the Scriptures by the people."

EARLY'S REPLY Father Early in reply said, in part: "I beg to state, for Miss Gould's information, that it was most repugnant to me to find myself obliged to take notice of anything she, or any philanthropic lady, would undertake for the culture and welfare of the girls of this community. But when something was done contrary to your promise, when you called on me last spring in the name of Miss Gould, and that something tended not only to violate one of the fundamental principles of our faith, but also to make the children of tender and thoughtless age ashamed of the rules of their church before others, then, and then only, did I find myself obliged, in conscience, to do as I did. From information just reached, I believe Miss Gould knew nothing of what happened—that she left the matter in the hands of her steward. If that be so, Miss Gould should bring him to task for doing what he did."

In reply Miss Gould's secretary wrote, in part: "I note what you say in regard to Miss

Gould, and if you will re-read my letter you will see that what she regretted was your action in placing a ban upon the sewing school. She does not regret the sandwiches, for she had many Protestants in her classes, and she does not think they should have been deprived of the usual collation. She has tried to be considerate, however, and it was for this reason my former letter was sent you, as she thought her plan of harmony with the Scriptures might not be in harmony with the practice of your church. The children need not have taken the sandwiches if they did not approve of them; but there can be no choice about hearing the Bible, which she plans to read in the future."

FOR FAMILY LIQUORS Take your choice. The pure Green River Whisky, Martin's Best, Hill & Hill, Gardner Brook McBrayer, Old Crow, bottled in bond; Clarke's Pure Rye, Vandugard 10 years old, Mellwood, bottled in bond; Pure Apple Brandy, Fine Old Peach Brandy. BISHOP AT CLEBURNE

Confirms a Class and Addresses Veterans of Pat Cleburne Camp. CLEBURNE, Texas, Nov. 22.—The Right Rev. Alexander C. Garrett, bishop of North Texas, spoke to two large audiences here today. First he confirmed a large class at the Episcopal church and delivered a sermon. In the afternoon, he addressed Pat Cleburne camp on the Cause, typifying General Robert E. Lee as a brave soldier, a hero and a man of altruistic tendencies. He was the guest of Mr. and Mrs. H. P. Brown with him and returned to Dallas tonight.

A THIRD HAND TO THE BUSY HOUSEWIFE. ARMSTRONG'S RENOVATOR WASHING POWDER. WHEN YOU WANT WASHING POWDER, ASK YOUR GROCER FOR "RENOVATOR." It is the LARGEST PACKAGE for the money, and for SCRUBBING, CLEANING AND GENERAL HOUSEWORK, it has no equal. Look for the RED CROSS on every package.

LAWTON WANTS ROAD

Effort Will Be Made to Get Line From Wichita Falls. LAWTON, O. T., Nov. 23.—An effort will be made by this city to secure the Wichita Falls and Wichita railroad, now being built from Wichita Falls northeast. The city realizes that a failure to get the road means the building of a rival town on the Waurika branch of the Rock Island at a point where the two lines intersect.

The road is headed for Oklahoma City and it would be a diversion from the direct route to build by Lawton. The effort therefore will be made the greater. This line's survey crosses Red river near the town of Benning, Texas, directly south of the city, and runs in a northerly direction across the pasture reserve. Now that there is a strong probability of the opening of this reserve next year, it is to Lawton's interest to secure this line.

GROW MACARONI WHEAT

Secretary of Oklahoma Board of Agriculture Says It is Profitable. GUTHRIE, Okla., Nov. 23.—J. B. Thoburn, secretary of the territorial board of agriculture, is at his home in this city, sick. He was compelled to give up his trip of the territory visiting the annual sessions of the county farmers' institute, and it is not likely that he will resume his duties until after Thanksgiving.

TERRITORY BANK SHORT

\$5,000 Reported Missing From Private Institution at Ravia. ARDMORE, I. T., Nov. 23.—A telephone message from Ravia states that the Bank of Ravia, a private bank capitalized at \$10,000, was robbed late Saturday evening of \$5,000. R. E. Neal, president of the bank, is missing. He was last seen about 6 o'clock. The cashier, G. C. Helvey, seemed to suspicion that something was wrong and went to the bank tonight, when he found that \$5,000 of the funds were gone. Officers all over the southern district have been instructed to look out for Neal.

LIVE STOCK OF CANADA

May Not Be Exhibited at World's Fair Unless Regulations Are Changed. OTTAWA, Nov. 22.—It is understood that the officials of the St. Louis exposition are unwilling to meet representatives of the live stock interests of Canada until the latter decided whether or not they will exhibit at St. Louis.

In fact, the likelihood is that they will issue an ultimatum refusing to send stock to St. Louis unless there is a decided modification on the regulations under which Canadian animals are admitted into the United States.

Breeders in Canada freely express the opinion that those engaged in similar pursuits in the United States are afraid of Canadian competition. This fear, they say, is based upon the success which Canadian live stock exhibits achieved at the exhibitions at Philadelphia and Chicago and Buffalo.

MISS SWAN SENDS IN 11,000 VOTES AND TAKES LEAD TODAY

Who do you think are the four most popular ladies in the two territories? Ideas are bound to differ, but in one week more the story will be told. The Telegram has never conducted a contest where there has been so much interest taken as this one. It has been a remarkable success, and the management of this paper appreciates the work that has been done by the contestants.

STANDING OF THE CONTESTANTS

Table listing names and vote counts for the contest. Includes Ruby Swan, Duncan, I. T., Clara Goodhue, Hobart, O. T., Miss Gertrude Cheairs, Holdenville, I. T., etc.

The Sunday Telegram now has 8 pages of colored, comic and magazine sections every Sunday, besides pages and pages of humorous and fiction articles. The Sunday Telegram is mailed out of Fort Worth on late Saturday night trains, making it possible to reach every Oklahoma and Indian Territory town on Sunday morning.

The New Sunday Telegram contains a full Associated Press and Telegraph report and is equal to any Chicago, New York or St. Louis Sunday Paper.

THE AWARDS

- First—A \$400.00 Upright Piano. Second—A Handsome Diamond Ring. A pure white stone without a flaw, set in the latest style Tiffany mounting and valued at \$200.00. Third—A Ladies' Solid Gold Watch, Roman color satin finish, with seven whole cut diamonds set in the center of the case, valued at \$125.00. Fourth—Two Round Trip Tickets to the World's Fair at St. Louis, 1904. In addition to the latter award, The Telegram will furnish free, tickets to the exposition grounds.

HOW THE VOTES COUNT

During the contest for every cent received by mail or delivered at The Telegram office on a prepaid subscription to The New Sunday Telegram, one vote will be counted for the lady of your choice until midnight, December 1, 1903.

The price of The Sunday Telegram is as follows: One year, \$2.00, counting the schedule number of votes for the popular lady of your choice. Six months, \$1.00, counting the schedule number of votes for the popular lady of your choice. The same conditions will apply to The Daily Telegram. The subscription price is fifty cents per month.

CONDITIONS OF CONTEST

- First—The lady in Oklahoma or Indian Territory receiving the largest number of votes by midnight, Tuesday, December 1, 1903, will receive the first award, a \$400.00 Upright Piano. Second—The lady receiving the next largest number of votes will receive the second award, a \$200.00 Diamond Ring. Third—The lady receiving the next largest number of votes will receive the third award, a \$125.00 Solid Gold Watch. Fourth—The lady receiving the next largest number of votes will receive the fourth award, Two Round Trip Tickets to the World's Fair, 1904.

WEATHER CONDITIONS

FORECAST

Fort Worth and vicinity—Tonight, increasing cloudiness and slightly warmer. Tuesday probably rain and cooler.

For Texas east of the 100th meridian—North, tonight and Tuesday increasing cloudiness; warmer tonight except cooler in extreme west portion; cooler in west portion Tuesday. South, tonight and Tuesday, unsettled weather; warmer to night.

WEATHER CONDITIONS.

A storm of considerable energy is centered this morning over the Lake region, attended by high winds and rain over the southern portion and snow over the northern portion. A trough of low pressure extends from the lakes southwestward into Texas where there is a tendency to secondary storm development. Dense smoke prevails over the larger portion of east and north Texas due to forest fires in the eastern portion of the state. Considerable cloudiness prevails in the cotton region states but no rain. It is also warmer, the temperature is generally above the freezing point in all sections of the cotton region. In the Northwestern

THE LATEST IN RAILROAD NEWS

Walter M. Martin, who has been assistant and ticket agent of the Fort Worth and Denver City and the International and Great Northern railroads in this city, has resigned and accepted service in the general freight department of the Denver road under W. F. Sterley, general freight agent. The appointment is effective in a few days. Mr. Martin has been connected with the Denver road about a year and was before that assistant in the ticket office of the Texas and Pacific under J. F. Zurn. He is said to be one of the best posted passenger men in the city and very popular with his associates wherever he has been.

WORLD'S FAIR EXHIBITS FREE Information has been given out in St. Louis World's Fair from points in the United States will be returned free of charge to the point of shipment by the railroads which carried them to the Exposition. This is one of the important features covered by a recent conclusion reached by the traffic bureau of the exposition.

Paid freight bills or original bills of lading, naming the precise route used to St. Louis, and proper certificates must be shown to prove that exhibited articles paid freight one way and have not changed ownership. Exhibits must be returned over the same route, and must be consigned to the station from which they were sent on their forward journey.

The traffic bureau has just issued a book which contains a list of express officials, rates, routes and the names of railroad officials with whom the exhibitor must do business, and other interesting data. For the information of foreign exhibitors, the book contains the customs regulations formulated by the United States government and the regulations of the department of agriculture. The installation of exhibits will begin December 1, 1903, and, according to the book, exhibits will not be received after May 1, 1904, except goods to be consumed and renewals. The removal of exhibits will not be permitted prior to December 1, 1904, and must be completed before March 1, 1905.

WANT CHEAPER PASSENGER MILEAGE.

A battle is to be waged by the railroads operating in Iowa over passenger mileage which is to be considered by the legislature which convenes at Des Moines this winter. A bill is already being drafted to be presented in the upper house fixing the rate at 2 cents per mile. It is understood that a member of the lower house will take the lead in the fight for its passage there. There are now in Iowa 945 miles of road valued at \$51,307,950. It is said that the greater energy to the steam railroads in that state than threatened legislation is the rapidly increasing mileage of the interurban, which wherever found, is pulling from the patronage of the steam roads.

LOVE

Starts Work After the Tender Age of Three Years Is Reached

ACCORDING TO TABLE OF PROFESSOR BELL

Who Has Investigated Eight Hundred Cases and Declares That Woman's Heart Matures at 23 and Man's at 24

WORCESTER, Mass., Nov. 23.—A table of the ages of love in men and women has been compiled by Prof. Bell, a fellow in Clark University, and formerly an instructor at the Valparaiso, Ind., Normal school. He has reached the conclusion that neither sex is safe from cupid's darts after it has reached the age of three years. In fifteen years he has investigated 800 cases and his figures go to prove that the maturity of woman's heart is reached at 23 and a man's at 24.

KENNEDALE WEDDING

KENNEDALE, Texas, Nov. 22.—Eugene Powell and Miss Orea Glass were married at the home of the bride's parents at 10 o'clock this morning, by Rev. A. E. Heitt.

WRECK NEAR ABILENE

ABILENE, Texas, Nov. 23.—A freight car was derailed about three or four miles west of here early this morning, and it is reported that it took fire after derailling and was mostly consumed. No other damage reported.

HOUSTON TALKS OF HOME STATE

President of Agricultural and Mechanical College on Education

WASHINGTON, D. C., Nov. 23.—"Texas spent more money for higher education last year than any three of her sister states of the South," remarked President Houston of the Texas State Agricultural and Mechanical college to The Telegram correspondent while in attendance at the Annual Convention of the Agricultural and Mechanical College association. "In the aggregate, nearly \$1,000,000 was disbursed in this cause and about \$3,000,000 for her common schools."

President Houston is a young man, a native of North Carolina, and enthusiastically devoted to his great work in the Lone Star state. For several years he held the professorship of economics in the University at Austin and was dean of the faculty. Asked as to the conditions of agriculture in his state, Mr. Houston said: "While it is true that our chief crop, cotton, is seriously menaced by the ravages of the boll weevil, I do not think that its visitation will prove an absolute evil. It will cause our farmers to redouble their efforts in the way of selecting that kind of seed which will produce a crop earlier than the usual time for maturity. Best of all, it will cause them not to rely on cotton as much as they do now, but to grow a diversity of products. In some parts of the state much attention has been given with splendid results to the growing of fruit and early vegetables. The cutting down of the acreage devoted to cotton and the more general engagement in truck farming will redound to the benefit of the Texas people."

DAUGHTERS OF THE AMERICAN REVOLUTION

Annual Conference Is Held at the Residence of Mrs. W. B. Harrison in This City This Morning

The annual conference of the Daughters of the American Revolution was held this morning at the residence of Mrs. W. B. Harrison, No. 328 Adams street.

The meeting was called to order by Mrs. John Lane Henry of Dallas, state regent. Mrs. W. T. Scott made a delightful address of welcome, expressing the pleasure of the ladies of Fort Worth in having the visitors here. To this Mrs. John Lane Henry replied appropriately. Mrs. Henry presided and in the absence of the secretary, Mrs. Henry Stanbery of Dallas, Mrs. Cornelia Branch Stone of Galveston acted.

There was quite a lot of business disposed of by the meeting. One feature was a report from the Houston chapter which told of the contribution of \$25 for the preservation of the old stone fort at Nacogdoches and \$25 for the Alamo fund. George Washington chapter of Galveston was represented by Mrs. Lucius Junius Polk and Mrs. Cornelia Branch Stone. Thankful Hubbard chapter, Austin, by Mrs. Claybrook and Mrs. J. B. Clark. Lady Washington chapter of Houston, by Mrs. Cora Bacon Foster. Isham Keith chapter, Fort Worth, by Mrs. W. T. Scott. Henry Downs chapter, Waco, by Mrs. John F. Marshall. Weatherford chapter by Mrs. Egelhoff. Agnes Woodson chapter, Belton, by Mrs. A. D. Potts. Mrs. Huling P. Robertson of Belton reported that a chapter had been organized there.

SUNDAY SCHOOL RALLY

HILLSBORO, Texas, Nov. 23.—There was a Sunday school rally yesterday at the First Baptist church at which there were songs by the school and an address by Hon. C. F. Greenwood on the relation of the church to the Sunday school, by Rev. W. B. McGarity on the Sunday School as a soul winner. The Epworth League held a Thanksgiving service at 4 p. m. yesterday at which there were addresses by Misses Annie Spooner, Katie Sue Read, Mr. Morris and Miss Zuber. W. M. Lewis, state secretary of the Y. M. C. A., was here yesterday in the interest of an organization in the business section of town. He made an address at the Presbyterian church at 4 p. m. and last night at the Methodist church in behalf of the organization. There was no preaching in town last night on account of the night service. A committee was appointed to canvass the matter with the business men and citizens.

HILLSBORO BANK DEPOSITS

HILLSBORO, Texas, Nov. 23.—Times are looking up in Hillsboro, since September the deposits in the banks of Hillsboro amount to \$257,000. This is mostly the money of farmers derived from cotton. There is a good deal of cotton to be picked. Most of that which has been picked is marketed.

FUNERAL OF E. E. OVERALL HELD TODAY

Services Held This Morning at Family Residence on Calhoun Street—Members of R. E. Lee Camp Attend

The funeral of Colonel Edwin Elias Overall, who died at the family residence, 600 Calhoun street, yesterday morning, took place this morning from the deceased's late residence at 10 o'clock and was quite largely attended by friends of the family and especially by members of R. E. Lee camp, United Confederate Veterans, of which Colonel Overall was an honorary member, having been in the Confederate army from the beginning to the end. His service during the war was mainly in the capacity of war correspondent for metropolitan papers.

The funeral services were conducted by Rev. J. S. Myers, pastor of the Tabernacle congregation, of which church the deceased was a member. Miss Pearl Calhoun sang several solos, after which the remains were taken charge of by Lee camp and conveyed to the cemetery, followed by a large concourse of sympathizing friends and comrades.

Colonel Overall was the editor of the Texas Railway and Industrial Journal, a paper devoted to the interests of the railroads in the South and to industrial matters generally. The paper had an extensive circulation in Texas and was one of the leading papers of its kind in the South.

The deceased was actively engaged in the publication of the Journal, assisted by Mrs. Overall, for many years, but during the past several months his health began to fail and his physical condition was such that he was unable to devote his time to it, and the work has been creditably carried on by Mrs. Overall. Death resulted from dropsy and heart failure.

The active pall bearers were the following members of Lee camp: M. D. McNelly, James Gubanks, L. H. Atwell, B. C. Kirtley, W. T. Shaw and L. C. Vaughan. The honorary pall bearers were W. W. Dexter, A. J. Sandegard, James Hays Quarles, Frank Holland of Dallas, R. M. Johnson of Houston, Clarence Ousley and Dell Cobb.

BIOGRAPHICAL SKETCH

Colonel Overall was born in Mississippi, May 15, 1837, and was therefore 66 years old at the time of his death. His father, John Froman Overall, was a wealthy planter who moved from Virginia to Mississippi where the subject of this sketch was born. At the age of 20 he spent two years with the Walker Nicaragua filibustering expedition. At the outbreak of the civil war he enlisted from Mississippi and served throughout the four years of the war. He was a special friend of Jefferson Davis. After the close of the war he went back to New Orleans where he shortly left, and going to New York, spent ten years there in the journalistic field, with his brother, John W. Overall. From New York he came to Texas and engaged in the newspaper work. He edited and owned successively the East Texas News at Palestine, The Iron News at Jefferson, the South at Memphis and the Texas Railway and Industrial Journal, which he established in Houston, afterwards moving the paper to Fort Worth, in 1899. He was one of the organizers of the Texas Press Association.

He was married, the second time, in 1893, to Miss Ida Louise Meyers, who survives him. Of this union no children were born. He was prominent in the development of the iron industry of Jefferson and while there started the Iron News.
