BANDITS BATTLE FOR THEIR LIVES

Supposed to Be Men Wanted for Various Murders and Robberies

COMMITTED NEAR CHICAGO CAR BARN

Two Policemen Are Wounded and Reserve Force of Fifty Men Hurried From Chicago to Aid Indiana Officers

CHICAGO, Nov. 27.—Harvey Vandyn and Peter Niedemier, accused of sensational murders and robberies at the street car barns in Chicago, are supposed to have been trapped in a dugout near Miller's Station, Ind. The dugout is surrounded by local police. Urgent telegrams for help reached Assistant Chief of Police Schuetter and fifty men left at once for the scene.

LATER—A furious battle is said to have been waged between the men in the dugout and the local police, and that two of the latter were shot. A telegram has come, requesting a physician and a priest. Several volleys were sent into the dugout, but the bandits kept under cover. It is thought one of the bandits was injured. The wounded policemen were taken to Miller's Station.

A BAD FIRE AT EMORY

Total Loss of Yesterday's Blaze Will Reach \$11,000

GREENVILLE, Texas, Nov. 27.—The town of Emory was visited by a very destructive fire early yesterday morning. The flames started in the two-story brick building owned by Mrs. Henry and occupied by the Southwestern Telephone Company, an attorney's office and the Rains County Farmers' Union. Loss on building and contents about \$3,000.

Philadelphia Horse Dealer May Come in Possession of \$52,000,000

PHILADELPHIA, Nov. 27.—From dealing in horses to managing a \$52,000,000 estate is the jump that J. C. Strickler probably will make. He will go to York, Pa., today to begin his efforts toward establishing his claim to timber and mining lands now in possession of the state of Oregon and awaiting an owner. Those lands were the property of John Schelenberger, a former Pennsylvanian, who died in Portland in July, 1902. Schelenberger and Strickler's father were first cousins. Twenty second cousins live in York. In August the state of Oregon advertised for the Schelenberger heirs. Strickler's relationship has been established beyond a doubt, but legal action will be necessary to get possession of the fortune.

FROM A BURSTING CREAM SEPARATOR

In Bridgetown, N. J.—One Man Is Killed and Two Seriously Injured by the Flying Fragments of Huge Bowl

BRIDGETOWN, N. J., Nov. 27.—One man was killed and two others have been so injured that there is very slight chance of their recovery, by the blowing up of the separator bowl in an ice and milk plant here. The dead man was Nelson Woodruff, who expired after the amputation of a leg. John Waddington had an arm broken, his body and limbs lacerated, and injured internally. Charles Morton's skull was fractured, and he received innumerable lacerations.

The bowl, which was made of steel and copper, flew to pieces just as an exploding flywheel does, and the pieces were hurled in all directions. Some of them flying into other departments of the plant, doing considerable damage to the ice-making machinery. The walls of the building in which the bowl was situated were riddled as if by shots from a cannon. Pieces of the metal were picked up 200 feet from the plant. Not only were the men injured by the flying metal, but they were almost drowned by the suddenly released volume of milk.

NINE DENOMINATIONS

Represented at Remarkable Thanksgiving Service Held in Detroit Yesterday

DETROIT, Mich., Nov. 27.—Nine religious denominations joined in a union Thanksgiving service at the Detroit opera house today that was attended by a congregation which taxed the capacity of that auditorium. Ministers of the following creeds participated in the service: Congregational, Roman Catholic, Episcopalian, Jewish, Methodist, Presbyterian, Baptist, Unitarian and Universalist.

Mrs. Belle Kemp Sacrificed Daughter for Man of Her Choice

NEW YORK, Nov. 27.—Society is in eager expectation of news from Newport of the wedding of Mrs. Belle Kemp, daughter of Mrs. Frederic Nelson and sister of Mrs. Reginald C. Vanderbilt, and Hollis H. Hunnewell, whose engagement was recently quietly announced. Mrs. Kemp this morning received her decree of divorce from Arthur T. Kemp, and according to the laws of Rhode Island, where the divorce is granted, she is now at liberty to marry again.

ELECTION

At Meeting of the Texas Federation of Women's Clubs This Afternoon

OVERSHADOWS OTHER EVENTS OF MEETING

Nominating Ballots Give No Indication of What the Choice Will Be

CANDIDATES' FRIENDS INCREASING EFFORTS

And Many Prominent Club Women of the State Are Mentioned for the Office, Balloting This Afternoon

While the delegates to the Texas Federation of Women's Clubs are giving attention to the business of the session, yet there was an air of other interests overshadowing pending business. This other interest was the coming election, which was fixed for this afternoon.

During the morning session C. W. Connerly and Robert Littlejohn were busy counting the nominating ballots which for two days have been dropping into the strong box. No idea was given up to the noon hour who leads in this ballot, but as was stated in The Telegram yesterday, the box will cut a small figure as the nominating speeches from the floor will have the greater weight.

There is a "vest pocket vote" in this congress. While there are some who declare out and out whom they will support, there are many who are saying nothing about whom they will vote for. This is the proverbial "vest pocket vote" and the indication is that it will be large. It may be large enough to swing the election to one or the other of the candidates. The Goodhue forces are not discouraged, and are working like Trojans. The Stone forces are doing quiet work, and this morning a greater effort was put forth by those who have the interest of Mrs. E. P. Turner in charge. Mrs. Henry Exall will be mentioned among the nominees to be read from the strong box, but she insists that under no circumstances will she consider the office. Mrs. J. B. Dibrail of Sequin was mentioned in a louder tone this morning, but she insists that she cannot accept the honor. Miss Kate Friend has been mentioned quite a number of times. She is conceded to be one of the brightest women in Texas. She is editor of the woman's department of the Waco Times-Herald, and every Sunday has two pages in that paper. She is in close touch with the club women of the state, and is popular with them all.

Mrs. Kate Cabell Curry of Dallas announced that Dallas had intended to invite the convention to Dallas next year, but she was unavoidably absent at the time the selection was made. Mrs. Samuels of Greenville said some of the gentlemen of the city had expressed a willingness to pay for the opera house this afternoon for the privilege of seeing women elect officers. The chair—They can occupy seats in the gallery. The following telegram was read: "Professors Jacob Schreiner entertained the audience with a violin solo, 'Romance and Finale' (Elofson). Mrs. Maude Peters Ducker sang 'Chanson Provençal' (Del Acqua) in a delightful manner. The program was brought to a close with a choral number, 'Expectation' (H. Hoffman), by the Ladies' Trio Club of Fort Worth.

COUNTRY CLUB DRIVE

The drive to the Country Club yesterday afternoon was a delightful affair. There were vehicles sufficient for all the visitors, and through the crisp air of the cool afternoon, the journey along the boulevard was much enjoyed. Under the direction of Mesdames Winfield Scott and Bacon Saunders, the interior of the pretty club house had been transformed into a bower of beauty. They were assisted by a large number of ladies of Fort Worth clubdom. Tea was served in the library.

Total ..... \$1,208 51 Disbursements ..... \$515 39 Balance on hand ..... \$722 37 The report of the library committee was presented by Mrs. J. C. Terrell of Fort Worth. It showed the following: Total libraries in Texas, 144; public libraries, 55; traveling libraries, 41; club libraries, 48; annual funds raised for library work, \$34,107.09, of which \$28,300 was municipal control and \$1,600 was endowment, the balance being raised by the women; books in libraries, 105,353; reading rooms supported, 34; club engaged in supplying magazines to rural homes, 21; paid librarians, 20; professional librarians, 12.

The following companies were chartered today: Republic Mining and Milling Company of Dallas; capital stock \$50,000. The Wagner Drilling Company of Beaumont; capital stock \$3,000.

EXECUTIVE AT FUNERAL

President and Mrs. Roosevelt Attend Obsequies of Former's Uncle

NEW YORK, Nov. 27.—President Roosevelt and Mrs. Roosevelt arrived in Jersey City this morning and proceeded at once to the city, where they were driven to the house of the president's sister, Mrs. Douglas Robinson. They came to attend the funeral of the president's uncle. The funeral of Mr. Grace took place in the church of Holy Communion, in the carriage with the president and Mrs. Roosevelt, was a central office detective. A secret service man rode on the seat with the driver. The police to protect the president and to restrain the large crowd was very efficient, more than 800 patrolmen being on duty about the block in which the church is located.

FEEDING AT CRESSON

A Few Cattle Are Being Received, But Total Number Is Small

CRESSON, Texas, Nov. 27.—(Special)—It was decided this morning to give an entertainment in February in the assembly hall of the public school building here for the benefit of the Granbury Monument fund. The program will consist of recitations, readings and music by pupils of the school.

The Frisco has turned over to the Santa Fe more than 200 cars of cotton during November. Messrs. R. C. Kinder and W. H. Marvle, prominent feeders here, were asked this morning by The Telegram for information as to the status of the industry in Cresson. "I have nothing to say," said Mr. Kinder, "except that I unloaded 135 head something over 300." Fred Slocum brought in 140 head yesterday and F. O. Fidler will be in today with six cars which he had unloaded at Alledo. Most feeders have their seed barns full of seed, but up to this time no cake or meal has been bought. It is impossible to give an accurate estimate of how many cattle will be fed here this season at present, but the number will fall below what fed last season. Pastures are needing rain badly.

NEW YORK, Nov. 27.—The captain of the Royal Mail steamer Trent which has arrived at Colon from Cartagena reports, according to a Colon dispatch to the American, that while he was lying in the harbor of Cartagena the United States consul at that place, Luther F. Ellsworth, was invited to come aboard as his (the captain's) guest. Mr. Ellsworth responded to the invitation, but when half way to the gang plank was stepped by Colombian soldiers and turned back.

IMMIGRATION PROBLEM

Presented by Rev. Dr. McArthur in His Thanksgiving Sermon

NEW YORK, Nov. 27.—Restriction of immigration was argued as "The first great problem that confronts the American people," by the Rev. Dr. S. McArthur of the Cavalry Baptist church in his Thanksgiving day sermon. "In the last fiscal year," said Dr. McArthur, "nearly 1,000,000 foreigners have come to our shores. The illiteracy that they brought is astonishingly great and the vicious tendency corresponds to the illiteracy. They are for the most part from countries whose people are not readily assimilated to American ideas and ideals.

PRISONERS' THANKSGIVING

WAXAHACHIE, TEXAS, Nov. 27.—(Special)—The unfortunate who are confined in the county jail were not forgotten yesterday during the Thanksgiving festivities. The custom which has prevailed at the jail several years is to give the prisoners a special dinner on Thanksgiving day.

HILLSBORO GAMBLING CASES

HILLSBORO, Texas, Nov. 26.—(Special)—The county court is securing convictions right along in the gambling cases. The trial of the first case consumed several days, and four others were submitted to the jury yesterday. One other in a different house was tried, making six convictions. The cases will be appealed. The county attorney made the point that the rooms were not bona fide residences, but were prepared to evade the law.

"When Bright's Disease is Present I Always Prescribe Warner's Safe Cure."

-Dr. W. Hobart Curtis.

Dr. Curtis Uses SAFE CURE Exclusively in All Complications Caused by Kidney and Bladder Diseases.

The doctor is a noted specialist of Rochester, N. Y., and enjoys a wide reputation as an authority on kidney troubles.

"I am moved to write you because my success in treating diseases of the kidneys has aroused considerable discussion among my fellow-practitioners.

"You will please understand, then, exactly my position in regard to the use of your medicine. When the symptoms show a clogged condition of the kidneys, when evidences of Bright's disease are present, I write the prescription for Safe Cure, because I have found that the remedy is most effectual.

More suffering and deaths result from affections of the kidneys than from all other diseases, and principally because they are not discovered in time.

TEST YOUR KIDNEYS. Let some morning urine stand 24 hours: if a reddish or it is the least cloudy or smoky, your kidneys are utterly unable to carry the waste matter out of the body, and if allowed to run on without treatment will daily grow worse.

SAFE CURE PRESCRIBED BY DOCTORS. Warner's Safe Cure is absolutely the only complete, permanent and safe cure for Bright's disease and all diseases of the kidneys, liver and bladder.

Write to Warner's Safe Cure Co., Rochester, N. Y., for free medical book. REFUSE SUBSTITUTES. They are worthless and very often exceedingly dangerous. Ask for Warner's Safe Cure; it will cure you.

Music and Drama

LEAD MUSIC AND DRAMA. Tonight—Adelaide Thurston in "Polly Primrose."

"Human Hearts" was presented at Greenwall's last night. There is human interest in this play, the kind of human sympathy which starts the tear, excites the sympathy and holds the attention.

"Polly Primrose" Miss Thurston's new play for this season, is a delightful comedy-drama, and one in which she is provided with a role, that of Polly, of course, which fits her like the proverbial glove.

"WHEN REUBEN COMES TO TOWN" "When Reuben Comes to Town" comes to Greenwall's opera house tonight.

"THE FAST MAIL" Lincoln J. Carter's ever popular melodrama, "The New Fast Mail," will be seen at Greenwall's opera house Monday night, November 30.

DOCKSTADER'S MINSTRELS Seasoned by years of experience, years of strenuous effort in the cause of minstrelsy, years of approval well-earned from the amusement-loving public.

VIRGINIA DREW TRECOTT Virginia Drew Trecott, who will be seen in this city Wednesday, matinee and night, December 2, is one of the most accomplished and fascinating actresses on the American stage.

CHARLES B. HANFORD The coming engagement of Charles B. Hanford is being anticipated by the theatergoers of this city as an event of exceptional interest, as, indeed, the appearance of a true artist always is.

A SURE THING It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for Consumption is a sure cure for all lung and throat troubles.

All Humors

Are impure matters which the skin, liver, kidneys and other organs can not take care of without help, there is such an accumulation of them.

They litter the whole system. Pimples, boils, eczema and other eruptions, loss of appetite, and tired feeling, bilious turns, fits of indigestion, dull headaches and many other troubles are due to them.

Hood's Sarsaparilla and Pills

Remove all humors, overcome all their effects, strengthen, tone and invigorate the whole system.

"I had salt rheum on my hands so that I could not work. I took Hood's Sarsaparilla and it drove out the humor. I continued its use till the sores disappeared." Mrs. IAA O. BROWN, Rumford Falls, Me.

Hood's Sarsaparilla promises to cure and keeps the promise.

ance of a true artist always is. Mr. Hanford's name stands today as the synonym of dramatic art in its highest type. He is par excellence one of the greatest exponents of the legitimate drama on the American stage of the present generation.

WHAT CONGRESS IS DOING

(From Washington papers.) John Sharp Williams, the minority leader of the house, in closing the debate on the Cuban reciprocity bill, had occasion to refer to Charles Foster, former secretary of the treasury, and in quoting a letter, important from a democratic point of view, which Secretary Foster had written, Mr. Williams made a mistake of just one year in its date.

Senator Bailey of Texas, former democratic floor leader of the house, came over to the lower chamber the other day and hunted up John Sharp Williams, the newly elected minority leader.

## WEB OF POLITICS ABOUT INDICTMENT OF DIETRICH

Bill Returned by Federal Grand Jury But One Step in a Series of Complicated Schemes Which Involve Republican Affairs

LINCOLN, Neb., Nov. 27.—Joseph S. Bartley, ex-state treasurer of Nebraska, ex-convict, having served a term in the penitentiary on account of his memorable shortage of \$300,000, probably is the happiest man in Nebraska over the indictment of Senator Dietrich by a federal grand jury. Bartley, it is believed by those familiar with politics and affairs in Nebraska, is the man behind the punishment of Dietrich. Bartley wants revenge. It is asserted that he expected clemency in Senator Dietrich's short term of governor of Nebraska, and that when clemency did not come he vowed that he would have revenge.

Another man who is given credit for desiring Dietrich's downfall is W. S. Summers of Omaha, United States district attorney for Nebraska, a candidate for re-appointment. He is not Dietrich's candidate. The senator wants H. C. Lindsay, chairman of the state central committee, appointed in Summers' place, and it is charged that Summers has been pushing the case against Dietrich that he might force President Roosevelt to delay the appointment of Lindsay, which almost undoubtedly would have been made before this if it had not been for the investigation of charges against Dietrich.

If Summers fails to convict the senator, it is conceded that his political career in Nebraska is practically done. He expects the senator he may lay claim to reappointment, as Lindsay's principal support will have been eliminated from politics in this state.

The Dietrich case is interwoven in a perfect web of political schemes. It has a bearing upon the senatorial fight. The indictment is pretty sure to weaken his next senatorial chances, even if he is found not guilty. Those who have been wanting Dietrich out of the way in the senatorial fight have been trying not to offend him, as they desire his support. As this will be disappointed in the event of his conviction, it is hard to tell where the Dietrich strength will go.

Senator Dietrich is one of the richest men in Nebraska. His property holdings at Hastings are very large. He is not in need of such small sums as it is alleged he received for pocket money, and why he should accept bribes for political influence is a matter that Nebraska cannot understand. Few people believe he really did accept them. The trial is liable to lay bare the most sensational state of affairs that has ever been revealed in Nebraska.

## INFORMATION FOR THE HOMESEEKER

Latest Issue of the Frisco Magazine Full of Interesting Texas Facts

The latest issue of the Frisco Magazine is possibly one of the finest yet issued by the passenger department of that system, and contains exhaustive reviews of many subjects that are of interest to the homeseeker, who is looking for a desirable location. "The Evolution of Central Texas," "The Arkansas-Indian Territory Coal Fields," "The Texas Cotton Crop" by William R. Draper, "The Settlement of the Texas Range," and many other kindred articles, are well written and contain information that will be interesting to those not familiar with the greatness of the state of Texas.

The article on cotton states that the leading cotton markets in the state are at Paris, Houston, Clarksville, Waco and Galveston. Paris is mentioned as being the greatest inland cotton market in Texas, while Ardmore is conceded the largest and best cotton market in the Indian Territory—in fact, Ardmore is said to be the biggest market of the kind in the world. The further statement is made that the bulk of Texas cotton is exported through the port of Galveston, and that from Ellis county alone is shipped 150,000 bales annually, while Comanche and Earth counties export fully as much. It is estimated that in the two latter counties grow in 1903 three bales of cotton for every man, woman and child in the entire territory of the two counties. Twenty-seven counties in the state produced in

1902 2,600,000 bales, or over two-thirds of the entire crop of the state. The article also states that there are some counties in western Texas that do not grow over 200 bales.

"The Texas cotton crop for 1903, it has been stated by those who have traversed the cotton belt counties, will reach 3,000,000 bales," says the writer.

From the article entitled "Settlement of the Texas Range," the information is given that during the advent of the Frisco railroad into the state a hundred thousand families have settled in Texas, Oklahoma, Indian Territory and Arkansas along that line.

The magazine quotes many of the largest cattle and ranch owners in the Panhandle, and among them mentions W. T. Waggoner of Wilbarger county, who owns 50,000 cattle; the J. A. ranch, owned by Mrs. C. Adair, near Chrenodon, on which are in the neighborhood of 40,000 cattle, many of which are high bred. Cattle from this ranch took the premium at the Chicago cattle show two years ago, and extra habits will be made at the St. Louis World's Fair. The Capitol Syndicate property is another big proposition, the ranch at one time being the largest in the world, covering half a million acres in a single body, but portions have been sold off from time to time, until about one-half remains at this time. The Farwell interests of Chicago are the principal stockholders of the syndicate.

Mention in the magazine is also made of the big cattle and sheep properties of R. J. Klberg, Mrs. King, Driscoll and many others of equal importance in the live stock industry of the state. Flattering mention is also made of the Fort Worth market which, it states, has increased 100 per cent in importance during the past year.

**ROCK ISLAND'S NEW CALENDAR**  
The Rock Island system is among the first railroads to issue its 1904 calendar. It contains a cut of the world, showing the many branches and extensions of the system radiating in all directions. It reaches Minneapolis and St. Paul on the north, Brady on the south, Denver in the west, and Evansville, Ind., on the east. Besides these lines the map shows the many extensions contemplated principal among them being the line to the gulf. The Rock Island serves seventeen states and territories.

"The new calendar is a large affair, well printed in bold letters and figures, and is one that there will be great demand for by the merchant, and in fact every one else."

**YESTERDAY WAS A QUIET DAY**  
The fact that Thursday was Thanksgiving there was genuine quietness around all railroad offices in the city, all of which closed their doors at noon, in order to give the employes a holiday and a rest. During the early hours of the day, however, the city ticket offices did a rushing business, in contemplation of the fact that there would be nothing doing after "turkey time."

**MISTAKE JAILS A MAN**  
Expressing Clerk Makes an Error and Prisoner Has to Serve Sentence  
BIRMINGHAM, Ala., Nov. 27.—Linn Thayer, who was several months ago convicted of the killing of Mike Sullivan at Pratt City and given a twelve-year sentence in the penitentiary, appeared that case and the supreme court reversed the lower court. The endorsing clerk of the supreme court made the error of writing "affirmed" when it should have been "reversed," and this return was made to the lower court. The result was that Thayer was sent to Pratt coal mines, where he has been serving out his sentence ever since, a period of four months.

Attorney-General Massey Wilson, in the past day or so, discovered the error and immediately notified R. N. Bell, attorney for Thayer. Thayer will, of course, be given a new trial.

What action he may have against the state for making him work in the coal mines when his case was in abeyance is a new question in law. Some attorneys say he is entitled to damages whether he is eventually sent to the mines or not. Certainly he will be

**THE LATEST IN RAILROAD NEWS**  
Electrical Railroad in Mexico, 270 Miles Long, Is the Latest Project

The latest railroad scheme is the construction of an electric line to extend from Guaymas to Chihuahua, Mexico, and G. A. Albert of Uta, N. Y., is now en route to Mexico, where he goes to close a contract for the construction of the road. The line is to be 270 miles long. It will commence at Guaymas and pass through the towns of Misa, San Marcial, Tesquera, Onovas, Tuluaca, Temosachic and terminate at Chihuahua. It will cross three rivers—the Metape at San Marcial, the Rio Yaqui close to the city of Onovas, and the El Rosado at Tuluaca.

Mr. Albert says the object of building the railroad is to do away with the expenses of mule trains. He thinks that with an electric road between these two large cities and connecting with the

towns mentioned above, there is no doubt that the country will soon be developed.

**WANTS A GULF OUTLET**  
It is said overtures have been made by President Hill to President Harrison for the sale of the Kansas City Southern to the Burlington for a gulf outlet. Mr. Harrison, however, is said to be not inclined to sell, as he needs the road as an outlet for the Chicago and Alton and the Union Pacific. A Chicago dispatch, touching the matter, says: "The Missouri, Kansas and Texas would also make a good gulf outlet for the Burlington, but it would require the building of a connecting line. This road is controlled by the Rockefellers, and though they have no particular use for it, are said to be disinclined to give it up to Mr. Hill, except at an exorbitant price. Negotiations are said to have been opened by Mr. Hill with the management of the Santa Fe, and the latter appears to be favorable to granting the Burlington trackage rights over its line from Superior, Neb., to Galveston, Texas."

**ROCK ISLAND LINE TO ST. LOUIS**  
An engineering corps has commenced laying out a route for the extension of the Chicago, Rock Island and Pacific from Burlington, Iowa, to St. Louis. The proposed extension will run east from Burlington, a short distance through Henderson county, thence southwest through McDonough, Schuyler, Cass and Morgan counties, going through the towns of Macomb, Rushville and Beardstown. The line will probably touch Jacksonville, but its further direction is not yet positively settled.

The surveyors are now working through Morgan county, but whether they will be ordered through the coal fields in the east or sent directly south to Alton, is not yet determined.

**THE COLONIZATION AGENCY ENDS**  
The colonization agency which has been maintained the past year by the trunk line railroads that penetrate the south and southwest, and which has been the means of bringing thousands of homeseekers to Texas, is to go out of existence with the end of the present month by mutual consent of the railroad companies that have been interested in the enterprise.

At a meeting of the association held in St. Louis this week this action was unanimously concurred in.

The work so far done by the agency has been satisfactory, the tide of immigration having turned toward the southwest far beyond expectation at the beginning of the year. This fact being accomplished, the railroads constituting the association now desire to close its operations in an effort to further curtail expenditures.

Regarding the matter, the Globe-Democrat says:

"The work of the agency, so far as time has permitted, has had the result of stimulating real estate men and citizens' associations to make stronger and more concerted efforts for immigration into their territory, and it was considered that the lines in direct communication with the various sections where these efforts are now being made could now work more effectively by direct communication than through a central agency, and with less expense. The commissioner will, therefore, direct to take all necessary steps to close his work November 30."

**TELEPHONES FOR THE WABASH**  
The Wabash system of railroads is about to install a system of long distance telephones along its lines. The old road Toledo to St. Louis has already been wired, and operating forces are now at work on a central agency, and with less expense. The commissioner will, therefore, direct to take all necessary steps to close his work November 30."

SCIENCE AND FARMING Just at the time when the people of Missouri are in the throes of a boodle investigation and a purifying election, comes the announcement that they are threatened with the spread of the gloeosporium fructinum.

Gloeosporium fructinum has descended upon us like the proverbial wolf upon the fold, without warning, and is calculated to strike Missouri in a tender spot—that upon which the state's fame in large part rests.

Plains, the "disease" takes its place beside the cotton boll weevil in the extent of its destructiveness. Unlike the weevil, the government has devised a way of combating the rot. It is by the use of sprays, prepared for the purpose, and by a careful pruning of the trees.

Science enters into farming nowadays; though, possibly, it is as well to call rot, as to term it "gloeosporium fructinum."

BIRD PROTECTION The humane treatment of birds has received an impetus in the agreement concluded between the Millinery Merchants' Protective Association of New York and the Audubon Society of that state.

Birds, both song birds and others, are of value to human life. Apart from the sentiment and poetry associated with bird life, the sweetness of song and the inspiring liveliness of the bird creation there is a practical value in birds which makes it profitable to incur expense for their protection.

THEY ACTUALLY DO THE WORK

Food Eaten is Worthless Unless Digested—Some Stomachs Must Have Help. Food taken into the stomach which, from the nature of the food or the condition of the stomach, is not digested, is worse than no food at all.

Stuart's Dyspepsia Tablets actually do the work assigned to them. They relieve weak and overburdened stomachs of a great portion of digestive action.

On this account Stuart's Dyspepsia Tablets are perfectly natural in their action and effects. They do not cause any unnatural or violent disturbance in the stomach or bowels.

Stuart's Dyspepsia Tablets, by relieving the stomach of its work, enable it to recuperate and regain its normal health and strength.

OBERLIN CARTER FREED TOMORROW. Story of Famous Trial Is Recalled by His Approaching Release

LEAVENWORTH, Kan., Nov. 27.—The doors of the military prison at Fort Leavenworth will swing open tomorrow for ex-Captain Oberlin M. Carter, who has completed his five-year sentence for robbing the government. Deducing the allowance for good conduct their actual time served by Carter has been three years and seven months. It is probable that he will proceed at once to Chicago, where he has relatives who have looked after his business affairs during his imprisonment. Further than this his future movements are undecided.

When Carter was brought to the penitentiary he talked much of his anxiety for a civil trial. Recently he has not said much on this subject, but has paid more attention to a suit pending in the United States circuit court whereby the government was endeavoring to recover about \$723,000, alleged to be a part of the former captain's ill-gotten booty. Since his imprisonment the government has succeeded in making Carter turn over vast sums of money, but notwithstanding this he is believed to be still wealthy. He is possessed of valuable mining property, chiefly in Mexico, and it is thought likely that he will make that country his future home.

CARTER'S CASE

The case of Carter attracted such widespread attention at the time of his arrest, trial and conviction four years ago that the facts are still fresh in the public memory. Grant sent him to West Point from Ohio in 1876. He was graduated, at 24, at the head of his class, and went to the engineer corps by right of his standing. He served first in the east, where he married a millionaire's daughter, who died before his downfall. It was in 1899 that Carter, then a lieutenant, presented to congress his plans for the improvement of Savannah harbor. He had thought it all out unaided, and Savannah went mad, almost, with joy when the news was brought to the town that nearly \$2,000,000 had been appropriated to carry into concrete effect the ideas that originated in the mind of the brilliant engineer. Carter returned to Savannah to take up the work on the harbor. From that very moment, it was shown, the swindling began. He conspired with the contractors who were doing the work, realizing, with his accomplices, hundreds of thousands of dollars. After the work was fairly under way the young lieutenant fairly bloomed as an entertainer and a good fellow. He took parties of his friends down the bay in a government yacht, on which occasions the champagne flowed like water. Meanwhile his expenses grew at an amazing rate. It developed at the trial that he was in the habit of signing claims against the government that were totally false, and that the payrolls contained the names of innumerable laborers that did not exist.

In 1891 Lieutenant Carter became Captain Carter. He was later appointed military attaché to the American embassy at the court of St. James. He was occupying that post when informed that charges against him had been preferred by Captain C. E. Gillette, who was sent to Savannah to carry on the work. The papers made such direct accusations that Secretary Alger thought the matter should be thoroughly gone into, and therefore sent a commission to investigate. Its report led to the courtmartial.

The courtmartial was presided over by General Elwell S. Otis. The court labored four months, and Carter was convicted. After long and patient examination of record by distinguished jurists, President McKinley approved the sentence. On September 29, 1899, Carter was dismissed from the army, and the government advertised in the newspapers that he had conspired to be "an officer and a gentleman." The next day he was arrested and his imprisonment began. Afterward Messrs. Greene and Gaynor, prominent New York contractors, were indicted for complicity with Carter in the Savannah harbor frauds. They fled to Canada to escape arrest and are believed to be still in hiding there. Carter is said to be bitter against Greene and Gaynor and it is believed he would willingly appear against them if they were brought to trial.

JOCKEY CLUB OPENING

Fine Weather and Good Attendance at New Orleans Track. NEW ORLEANS, La., Nov. 27.—The meeting of the Crescent City Jockey Club opened yesterday with magnificent weather. The attendance was fully up to previous records, and the fourteen bookmakers had all they could do to handle the money.

Favoritism in the feature event was divided between the Hildreth entry, composed of Wifull and Irene Lindsey, the property of E. E. Smathers of New York. The race was a grand one and Irene Lindsey won in a driving finish from Big Ben, while Duellist just nosed Frank Bell out of show money. New York, who is a grand looker and a typical Sir Modred, ran a good race, but tired in the last eighth. Time, 1:14.

Exclamation, from the stable of S. S. Brown of Philadelphia, was unlucky to lose the 2-year-old race, being pinned on the rail by the winner, Foresight. Helgerson entered a mild protest against Cochran, who rode Foresight, but the judges' placing was undisturbed. Three favorites, two well backed second choices and one 6 to 1 shot won on a day in which the public held their own with the layers.

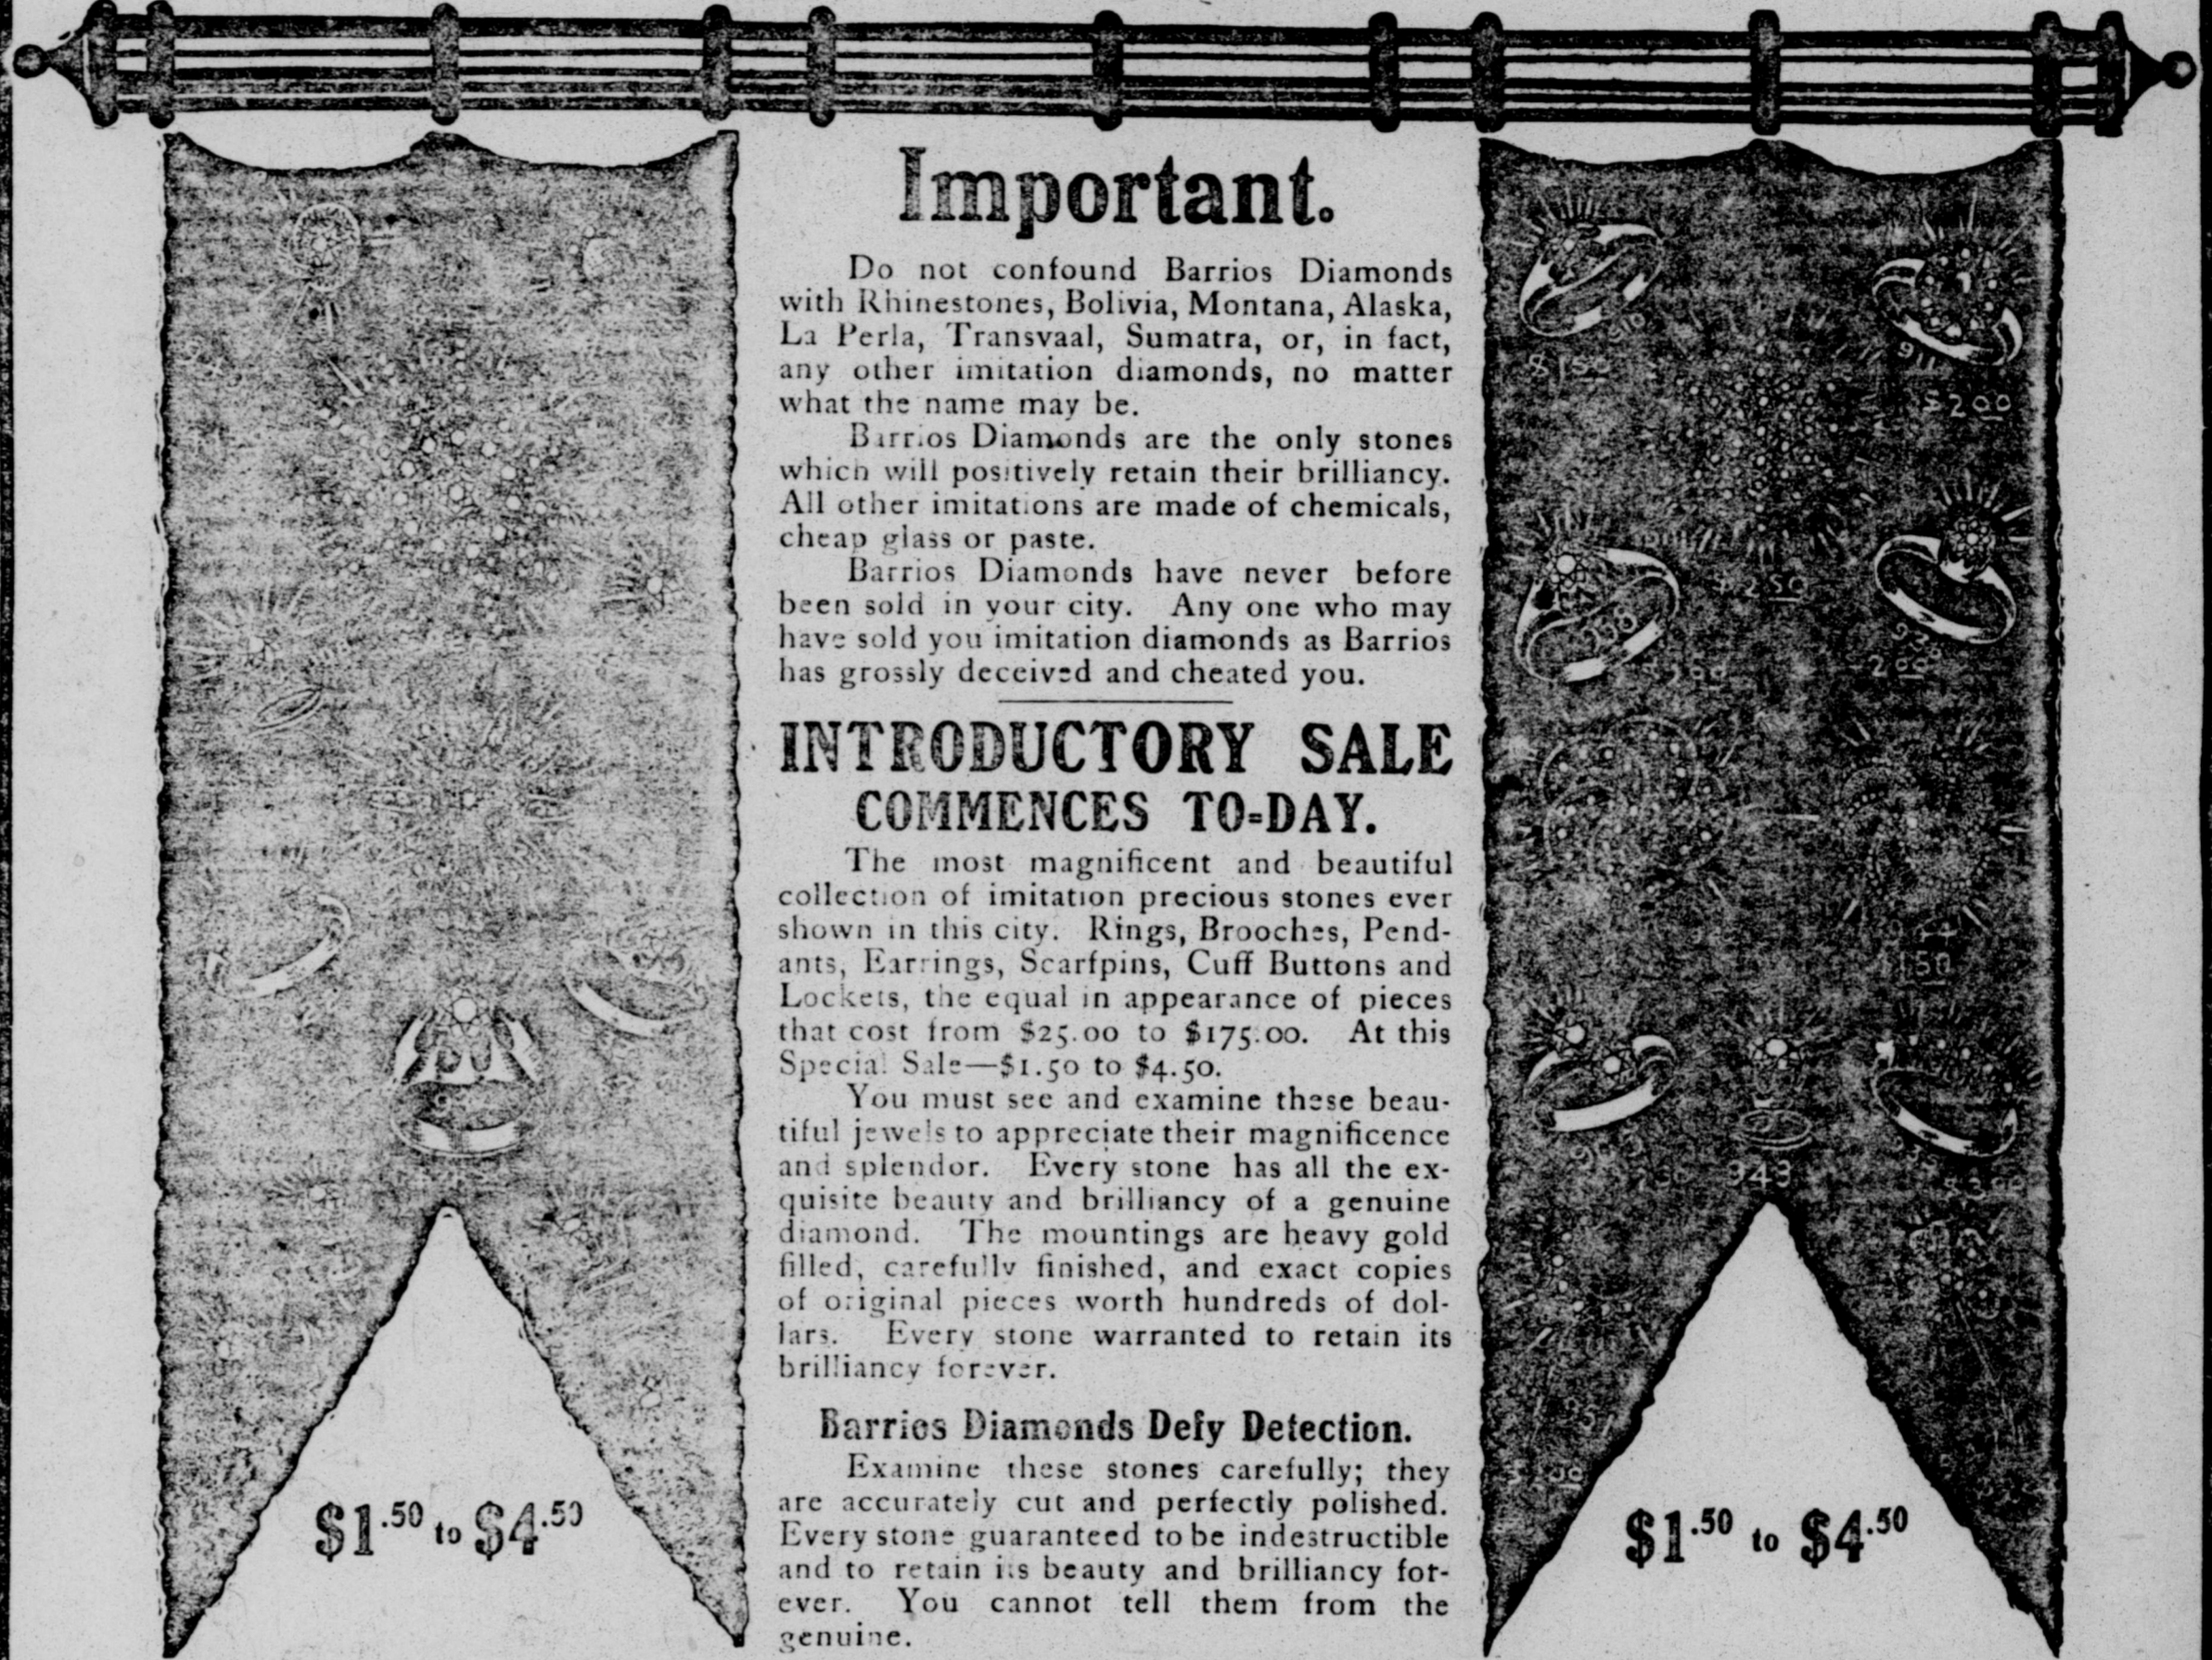

The last race of the day had a somewhat suspicious look, the favorite, Ivernia, getting a very bad ride from the stable boy, Sinclair. The race was won by Metal, the property of Senator Tim Sullivan of New York.

J. W. Robins, superintendent of the northern division of the Santa Fe railroad, headquarters at Cleburne, is in Fort Worth today, visiting the local offices. James Connor, fuel agent of the International and Great Northern Railroad Company, headquarters at Hartford, I. T., is in the city visiting friends.

RAILROADS DOING A BIG BUSINESS

Not in many years have the railroads of the United States been crowded with the amount of business as is the case at the present time. Every train is put to its capacity to carry the heavy loaded cars, and the movement of traffic is said to be gradually increasing. The present increase in the business is due to the approaching holidays and the delay in the commencement of the fall movement of traffic, which is said by railroad people to be about thirty or more days.

The Texas and Pacific is now having a heavy movement of cattle from the western ranges, and every day from five to six trains heavily loaded pass through Fort Worth, en route to the markets at Fort Worth, Chicago, St. Louis and Kansas City. It may not be generally known by the public, but it is a fact that the Fort Worth market is getting its share of the cattle movement. The Telegram is informed that orders for some 500 or 600 stock cars are registered by the Texas and Pacific company for additional cattle that are to move from the territory out west along that line. This movement is to be handled within the next three or four weeks. Other lines are also rushed with the shipment of fat cattle to market.

REYES IS ON THE WAY

Colombian General and Party Will Reach Washington Saturday. NEW ORLEANS, La., Nov. 27.—General Reyes and party left last night for Washington, where they will arrive Saturday morning.

Before his departure General Reyes gave out an interview much on the line of that cabled from Colon to the Associated Press. He said he was going to see the president with his colleagues, and hoped to have the United States decide low the Columbians to regain their lost territory. If the United States would not agree to this, then the Columbians would march an army of 100,000 men across the mountains to Panama and suppress the rebellion on the isthmus.

Then the United States would have to negotiate with Colombia or build the Nicaragua canal. He said the Columbians had no thought of declaring war against the United States, because they saw it would be a futile task.

ST. PETERSBURG FLOOD

High Water Has Been the Worst in 100 Years. ST. PETERSBURG, Nov. 27.—The food which has caused so much damage here was the biggest since 1824. The intense cold is causing much distress among the homeless and the dwellers in cellars. In

the factory quarter 20,000 persons have been driven into the streets, many of them losing their all. The authorities are doing everything in their power to relieve the suffering, and there have been few fatalities.

A pathetic case was that of parents, hurrying home at the sound of warning guns, who found their children drowned. The destruction of property was heavy, especially at Cronstadt.

The strangest freak of the flood occurred at a cemetery, where coffins were washed out of graves and floated away. Those which were recovered were reinterred haphazard.

The czar has donated \$5,000 in aid of those who have been reduced to destitution by the flood.

FIREMEN'S MONUMENT

DALLAS, Texas, Nov. 27.—The firemen's memorial monument in city park, erected to the memory of Fireman John Clark, who lost his life in the East Dallas fire of July, 1902, when thirty-two dwelling houses were destroyed, was dedicated and accepted by the city yesterday, in the presence of several thousand persons. Speeches were made by Mayor Callahan, Fire Commissioner Cockrell and Mrs. J. H. Shelly.

WASHINGTON, Nov. 27.—The president spent the greater part of Thanksgiving day with his family and personal friends, devoting only a few minutes in the forenoon to the duties of his office. The day was quietly observed throughout the city. Neither house of congress was in session and all the departments were closed.

### SITUATION IN COLOMBIA

Much Uneasiness Prevails Throughout the Entire Country

PANAMA, Nov. 27.—An American traveling man who has just arrived here from Buena Ventura, on the steamer Manavi, after a stay of twenty days in the department of Cauca, reports that the feeling of unrest in Cauca and Antioquia continues and that the secession movement here has the support of many prominent men, including many officials.

An outbreak was recently started in Cali, the business center of the Cauca department, but the authorities quickly suppressed it and arrested the ringleaders, who suffered no harm, probably because of the sympathies of the

officials with the movement. The secession movement, the man says, is serious, but it is impossible to foresee what will be done or when any steps will be undertaken. He also says there is no evidence of any warlike or aggressive movements against Panama, there is plenty of threatening talk, but no action.

The Americans at Cali have not been molested. The authorities at Buena Ventura, the traveler says, were inclined to be annoying when he left there, but nothing serious had happened.

The discontent in Cauca and Antioquia arises from the cause that led to independence on the isthmus.

## TRADE

Shows Improvement in All Lines, According to Reports Received

NEW YORK, Nov. 27.—Special telegraphic advices from correspondents of the International Mercantile Agency regarding the state of trade throughout the United States and Canada are summarized as follows:

Improvement is shown in industrial, agricultural and commercial lines. Pittsburgh looks for general gains in demand for iron and steel from now on, except for iron ore, pig iron and billets and in the latter after January 16 in finished forms. The situation is contradictory and buyers still hold off, although negotiations are on foot for billets, bars and rails for export. Neither cotton nor woolen mills have experienced an increase in demand. New England shoe and leather industries are quite active. Unfavorable influences are felt by reason of the prospect for a reduced Pennsylvania soft coal output next week, but the attitude of organized labor at Chicago, Fall River and elsewhere in accepting necessary reductions of wages is regarded as a favorable indication.

Farmers will not be hit by prospective trade depression owing to good crops. Southern planters will profit unappreciably through the high price of cotton. An enormous quantity of cotton is awaiting to be marketed. Cotton receipts are larger than anticipated at some points.

East of Chicago railroads report a notable increase of business, due in part to close of navigation. General trade shows more snap owing to the colder weather. This applies to the country generally. There is some dullness in parts of Texas and export demand for cereals is slack. Chicago reports that holiday buying throughout the west promises to exceed all records and that seasonable commodities are being ordered freely in spite of high prices. Philadelphia bankers look for a fairly favorable business for six months to come. Farmers and merchants in the region tributary to St. Paul, Minneapolis and Duluth have six years of continuous prosperity. New York grocers report a good demand for high class staples. Though the south jobbers are reported buying with conservatism.

Trade at Montreal is improved owing to the rush prior to the close of navigation. Collections are only fair. Holiday trade is brisk at Toronto and demand for seasonable goods is active, particularly furs and woolens. The bank statement shows that call loans have been contracted.

thorough respect in which it is held by the institution was evidenced by the ovation she received and the flashing of the university banners, as she arose to give "Reminiscences a Few, of F. W. U." Then followed a reading by Miss Clemens, which was greatly enjoyed. Of course pumpkin pie came next, and when the next toast was called everybody wore a by Corners New," the new members of the faculty. Professors Whitten and Lewis, very splendidly responded.

Coffee, nuts and raisins were followed by impromptu toast by Professor Pease, "The Football View, F. W. U." and George Nies, who became so tangled up in the events of the day that he couldn't get away, and to the delight of every one present, responded splendidly to the sentiment, "The Future View of F. W. U."

After a few words and prayer by the president, all sang, "Blest Be the Tie," and in a few minutes "taps" closed an eventful and delightful day.

## CONFERENCE IN DALLAS TODAY

Committee of Locomotive Engineers Meets Texas and Pacific Officials

There is an important conference being held in Dallas today between a committee of the Brotherhood of Locomotive Engineers and officials of the Texas and Pacific railroad company in an effort to finally adjust matters regarding wages, etc., that have been under advisement some time. Joke Weeman and John L. Baker of Fort Worth, members of the engineers' committee, are attending the meeting. They represent the Rio Grande division of the Texas and Pacific.

It is learned today that the basis of settlement of the matters in hand has already been agreed upon and the final decision in the premises is to be reached at today's conference.

The settlement of this question will affect the entire system of the Texas and Pacific and is of much importance to both the employees and the company.

The engineers asked for a general increase in wages, but it is understood today that there will be no general increase, and that the matter will be adjusted on the basis of runs and engines, rather than a settlement on the horizontal basis. The final arrangement will be along lines of the scale used on the Missouri Pacific system.

While it is not possible to ascertain just what per cent of increase will be it is stated that it will be less than 1 cent and will not apply to all employees among the engineers.

This re-adjustment has been under consideration some time and its final settlement will be good news to those most interested.

### IS SENT TO BELLEVUE

Writers of Letters to President Tried for Their Sanity

NEW YORK, Nov. 27.—Charles Threshon, who is charged with writing letters to President Roosevelt complaining that an influential person in governmental circles in Washington has an electric battery which is attached to the soles of Threshon's feet, and so militates against his seeing the president, was sent to Bellevue hospital, and an investigation of his sanity will be made. The prisoner when arraigned said he was a "double son." None of the letters made any threats. Threshon, it was said by secret service officials, has twice before been arrested, once on January 6, 1895, when he sent a letter to President Cleveland from Baltimore containing references to the electric current which prevented him from reaching the president, and again in 1901, when he sent a similar letter to President McKinley, and was arrested, declared insane and sent to a hospital in Washington.

Another arrest of the same nature was made later when Kalman Fogessy was taken into custody by officers of the secret service and sent to Bellevue for examination. Fogessy is a watchmaker, who came to this city from Budapest two years ago. For some time he has been writing letters to President Roosevelt, chiefly about police officials of Buffalo, and when arrested he told a rambling, disconnected story. At the time of his arrest he had a ten-page typewritten letter addressed to the president in his possession.

### A PLEA FOR ADMISSION

WASHINGTON, Nov. 27.—The annual report of Governor Otero of New Mexico makes a plea for the admission of the territory to statehood. The report says that during the past year the building of railroads continued with unabated vigor, and capital made extensive investments. The finances of the territory are in excellent condition, and so are those of the counties and cities, with a few exceptions, caused by loose methods many years ago, and the result of which methods the counties affected are making every effort to overcome.

The territory, as well as most of the counties, is reducing its indebtedness, while several counties are refunding their indebtedness at a lower rate of interest. The assessed value of New Mexico shows an increase of about \$1,000,000 over that of the preceding year, but as the average assessment is only about 20 per cent of the real value of the actual increase of taxable valuation, owing to the elimination of double assessments reported in former years, is almost \$3,000,000. The tax collections for the past six months by the territory exceeded those of the same period of previous years by about \$50,000.

### AGED LADY BURNED

HILLSBORO, Texas, Nov. 27.—(Special.)—P. H. Burkhalter of Mt. Calm was here today and reported that Mrs. Barnes was burned to death yesterday. She lived alone and was sitting by a stove and a coal of fire fell out without her noticing it. Her dress caught and she discovered the flames she ran into the yard and was burned to death before aid could reach her. She was 70 years old.

during the reception, by Mesdames F. M. Weaver, John Broad and Will Mitchell, I. H. Burney, Orr, Misses Mary Swayne, Virgie Paddock, Katherine Stripling, Margaret McLean and Lillian Fakes, and Miss May Evan of Sherman.

Those attending the reception wore the handsomest gowns of the season. Much of the success of the reception at the club is being credited by the local committees to Mrs. C. W. Conroy, who planned the drive to the club and saw to the carrying out of these plans. Local club women feel that great obligations are theirs in Mrs. Conroy's favor.

### MRS. DIBRELL'S OFFER

Mrs. J. B. Dibrell of Seguin is an enthusiast when it comes to patriotism. She believes the children of the state should be taught the history of the commonwealth and that every method of teaching should be adopted. Mrs. Dibrell has been one of the most energetic in the encouragement of the work of the sculptress, Elizabeth Ney of Austin. She has brought Miss Ney to the front by urging her work. Miss Ney now offers to make a plaster cast of Sam Houston and one of Stephen F. Austin for the schools for \$30 each. The regular price is \$100. Mrs. Dibrell now says she will give the first dollar to any high school which agrees to put in these statues or either of them. "They are companion characters and should go together. I will start the subscription by any high school in Texas with \$1. I would like to see these statues in every school."

### ROOT GETS DECISION

In a Fight With Jim Flynn of Pueblo Last Night

PUEBLO, Colo., Nov. 27.—In the eighteenth round of what was to have been a twenty-round go, Jack Root was given the decision over Jim Flynn of Pueblo. The fight took place at the Rover Club and was attended by a large crowd. The decision of Referee Floto of Denver was questioned by the crowd, as Floto counted nine and used the word "out" for his tenth count. The "out" found Flynn on his feet ready to continue the contest.

Excitement ran to such a high pitch that the crowd would have probably attacked Floto had it not been for the police. Order was soon restored and no blood was shed. Referee Floto made the statement that the correct manner of count was to use the tenth second as the word "out."

Flynn declared he had been robbed of the fight, as he was merely taking the time allowance. The crowd was with him in his stance.
