

DELEGATES ARRIVING ON EVERY TRAIN TO BE PRESENT AT THE OPENING OF REPUBLICAN CONVENTION

EVERYTHING IS IN READINESS AND THE COLISEUM WILL SEAT MANY THOUSANDS—A ROOSEVELT CONVENTION—VICE PRESIDENCY HANGS IN THE BALANCE—MANY LEADERS BUT NO LEADER—DOZEN MEN TO DO HANNA'S WORK

CHICAGO, June 20.—The stream of incoming delegations to the republican national convention set in with the early hours this morning and through the entire day train after train unloaded its quota of badged and buttoned enthusiasts. At the various downtown hotels headquarters have been opened for the delegations from nearly all of the states. A few of the delegations have been delayed, but all are expected to be on hand by this evening.

This morning inaugurated the serious work of the convention and witnessed the beginning of the real excitement attending an event of such magnitude and importance. Delegations and clubs are parading the streets and visitors are pouring in by thousands. All the clubs and hotels and most of the business houses in the central section of the city are gaily decorated in honor of the occasion, and when night falls Chicago will be a blaze of electric light.

Thousands of electric lights have been festooned along State street from Madison to Van Buren streets and tonight it will be the most brilliantly illuminated spot in the city.

As the visiting clubs arrived at the various railroad stations today they were met by committees of the Cook County Republican Club, the Hamilton Club and other republican organizations of Chicago and escorted to their headquarters, all of which had been selected in advance. Conspicuous among the visiting clubs are the famous Episcopate Club of Cleveland, the Columbia Club of Indianapolis, the American Club of Pittsburg and equally well known political organizations from Denver, St. Louis, Milwaukee, Minneapolis, Cincinnati, Buffalo, Philadelphia and other cities. An army of newspaper correspondents is being cared for by the Press Club of Chicago.

seating members of the national committee on a platform provided for the presiding officer and secretaries.

At the rear of this, at an elevation of three feet is still another platform which will be reserved for the accommodation of distinguished guests. Delegates themselves will be accommodated with chairs on the floor of the hall arranged in the shape of a fan so that all delegates will face the presiding officer. The places to be occupied by the delegations from the several states and territories, including Porto Rico and Hawaii, are designated by standards. The seats have been arranged in such a manner as to make access and egress easy, and the exits are sufficiently numerous to prevent any discomfort or crowding of those who have business before the convention.

A ROOSEVELT CONVENTION

The republican convention which assembles in Chicago tomorrow may be truthfully termed a "Roosevelt convention." It is doubtful if a dissenting vote will be cast against the nomination of the president. The selection of the candidate for vice president will afford the only contest in the convention and even this is not expected to be a very spirited proceeding. Several sections of the country have put forth favorite sons for the honor, but it is pretty well understood that the middle west will furnish the man.

The convention will consist of 939 delegates. Of this number 798 are under instructions to vote for the president, and of the remaining 280 a large number are tacitly instructed. A remarkable fact is that not a single delegate is under instructions to vote for any other candidate.

The states and territories which have sold delegations under instructions to vote for the president are: Alabama, 25; Alaska, 4; Arizona, 8; Colorado, 10; Delaware, 6; Florida, 10; Hawaii, 6; Idaho, 6; Indian Territory, 6; Iowa, 26; Maine, 12; Maryland, 16; Mississippi, 20; Montana, 6; Nevada, 6; New Mexico, 6; North Dakota, 8; Oklahoma, 6; Oregon, 6; South Dakota, 8; South Carolina, 18; Utah, 6; Vermont, 8; Washington, 10; and Wyoming, 6.

Of the states and territories which have party instructed delegations are: Arkansas, with 18 delegates, has 8 instructed; California instructed 4 of its 20. Six of the 14 delegates from Connecticut are instructed. Only 2 of the 26 delegates of Georgia are instructed. Illinois has 5 delegates, and 26 of these are instructed. All but 2 of the thirty delegates from Indiana are instructed. Kansas, with 20, and Kentucky, with 26, have only 2 each that are not instructed. Ten of the 18 delegates from Louisiana are instructed, and only 12

of the 32 delegates from Massachusetts are instructed, but the other 20 are vouchered for as friendly.

PROGRAM ARRANGED

CHICAGO, June 20.—The convention will be in session three days. The program to be followed has been arranged almost to the last detail. It will proceed about like this:

The delegates will assemble at the Coliseum hall at noon on Tuesday. They will be called to order by Vice Chairman Harry C. Payne, acting chairman of the national committee. Secretary Dover will read the call—which was Senator Hanna's last official utterance. Mr. Payne will make a brief address, presenting to the convention former Secretary of War Elihu Root who will be introduced as temporary chairman.

The choice of Mr. Root for temporary chairman is made at the suggestion of President Roosevelt, and for a specific purpose. Mr. Root's chief duty as temporary chairman will be to deliver a speech which will voice the general party policies, and will be what is popularly termed a "keynote" speech. It is already prepared, and has been carefully revised by Mr. Root, the president, and by other party leaders. The speech will occupy nearly an hour in its delivery, and will later form an important part of the campaign literature and be published in the official party publication known as the "campaign text book." Mr. Root was chosen for this important duty because he enjoys the entire confidence of the prospective candidate and will voice his sentiments. He has recently been a member of the Roosevelt cabinet and is in close touch with the administration.

Thursday's session will be devoted to the nomination of Theodore Roosevelt and the selection of some candidate for vice president. In the nomination of Roosevelt there will be a liberal display of oratory. The principal nomination speech will be made by former Governor Frank Black of New York, and no less than five second speeches will follow. Senator Beveridge of Indiana will come after Black and after him will come colored men from Baltimore, Md., and other orators, one from Minnesota, one from Georgia and one from San Francisco.

The roll of states will be called alphabetically, and the nomination of Roosevelt, and each state will be asked if it has a candidate to present. There will be none until New York is reached, when Black will respond.

After the second speeches have been delivered some orators will make the nomination of Roosevelt be made by acclamation, and it will be carried with a whoop.

INTRODUCE SPEECHES

This will end the second day's session. It is the plan to work in a few good-natured partisan speeches either on the first or second day of the session, merely by way of diversion, and the proceedings may be lengthened somewhat for this purpose. J. Adam Bede, the humorist from Minnesota, has been mentioned as one of the spell-binders.

INTRODUCE SPEECHES

This will end the second day's session. It is the plan to work in a few good-natured partisan speeches either on the first or second day of the session, merely by way of diversion, and the proceedings may be lengthened somewhat for this purpose. J. Adam Bede, the humorist from Minnesota, has been mentioned as one of the spell-binders.

JOHNSON FOR SECRETARY

The name of Charles W. Johnson of Minneapolis will be presented as temporary secretary of the convention, this selection having been made by the national committee, and later on Mr. Johnson will undoubtedly be chosen as permanent secretary of the convention. He has served in this capacity for republican conventions for the past twelve years.

The chairman will call upon the different state delegations and ask each to send to the platform the selections made by the delegation for membership on the committees on resolutions (platform), credentials and permanent organization and order of business.

In the meantime each delegation will have met and made its selections for these places, and the names will be sent up. Also each delegation will send up the names of its selection of a member to act as the state's representative on the national committee, on committees to notify the candidates who shall be chosen and to some member to serve as honorary vice president of the convention, one from each side.

When these names have been furnished to the presiding officer the latter will have before him the membership of these various committees, and after announcing them will direct that the committees on credentials, platform and order of business retire and proceed to the business which they were chosen to perform.

The committees will go to work, and, if necessary, will labor all night so as to be

able to report to the convention when it meets the following day.

Having accomplished this much the convention will adjourn and wait for the various reports from the committees. This will end the first day's session of the convention.

CANNON PERMANENT CHAIRMAN

The committee will select Joseph G. Cannon as permanent chairman, W. E. Stone as sergeant-at-arms and Charles W. Johnson as permanent secretary.

Wednesday the convention will be called to order by Temporary Chairman Root, who will receive the reports from the committees on credentials and permanent organization, and order of business, and these reports having been adopted a committee will be named to escort to the chair Joseph G. Cannon.

Permanent Chairman Cannon will then deliver a preliminary to the Root, dealing with the issues of the campaign. This speech has been carefully prepared, and will also form a part of the campaign literature and be embodied in the text.

After the report of the committee which has framed up the platform, Senator Lodge will report the resolutions which have been agreed upon in committee, and it is safe to predict that these resolutions will be in favor of no modifications of the present tariff schedules. The platform will be adopted with cheers.

A PLATFORM FORECAST

Seldom if ever before in the history of the republican party has it been possible to make so accurate a forecast of the platform in advance of the assembling of the national convention as is the case this year. A draft of the platform was completed weeks ago, after a series of White House conferences among the party leaders. If any changes are made by the committee on resolutions they will be of the most minor character.

After the usual expression of confidence in the eternal principles of the republican party, the platform will specifically commend Theodore Roosevelt, as president for his faithful adherence to the policies of McKinley, for his fearless discharge of the duties of his high office, for the important part he played in the crisis of the anthracite coal strike, and for representing the highest ideals of American manhood.

The platform will then review the foreign relations of the United States under President Roosevelt's administration, asserting that no function of his office rendered an untired and unsafe president more liable to involve the nation in grave and inextricable complications than the administration of his foreign affairs. Among the achievements of Theodore Roosevelt's administration will be enumerated the accomplishment of Cuban reciprocity and the ratification of the treaty with Cuba for the approval of the Platt amendment. The wise and conservative course of the administration in the Venezuelan affair, which resulted in the most signal recognition by the foreign powers of the Monroe Doctrine, and an important triumph for arbitration and the protection of Venezuela's American creditors, will be so exhibited as to throw into strong contrast the Venezuelan message of President Cleveland.

The settlement of the Alaskan boundary dispute, another triumph for American diplomacy and for arbitration, accomplished by peaceful means, under critical circumstances, will be made the basis for further approval of Mr. Roosevelt's administration.

The skillful and farsighted diplomacy which effected the negotiation and ratification of the treaty with China, whereby the United States, in the face of subtle but powerful opposition, acquired rights in Manchuria, will be cited in substantiation of the assertion that Theodore Roosevelt is an exceptionally conservative and wise executive.

The administration and congress will be warmly commended for the acquisition of the Panama canal, the completion of which must accrue so largely to the advantage of the United States and to the world at large.

The president will be praised for his successful enforcement of the Sherman anti-trust law, which was enacted by a republican congress and first applied by a republican president. Special attention will be given to the phraseology of this plank of the platform. It will say in effect that it is not the policy or intention of the republican party to assail legitimate industry and business or to infringe on the rights of persons or property, but to attack only those monopolies which are in the nature of a conspiracy against commerce.

Grateful comment on the extraordinary prosperity of the nation will be followed by a brief contrast of existing conditions with those of 1892 and by the assertion that the monetary system of the nation is on such a stable and satisfactory basis that we look back with wonder and amazement when they recall the wild vagaries and still wilder democratic theories of 1892.

The section of the platform which deals with protection will proceed to a review of the Massachusetts plank. It will read substantially as follows:

Protection, which guards and develops our industries, is a cardinal principle of the republican party. We insist upon the maintenance of this principle, but we recognize that particular tariff schedules are neither sacred nor immutable. Rates of duty may be altered when changed conditions demand their alteration, but no revision should be undertaken unless it is clear that the benefit will more than compensate for the disturbance of business which inevitably attends a revision of the tariff schedules. Nor can such revision be instructed with safety to any other than the party of protection. To intrust it to the democratic party is again to invite the democratic disaster and panic of 1892.

Other planks deal with the nation's debt to those who imperiled their lives for the preservation of the republic, which will be declared to have been faithfully paid; with the responsibilities incurred by the treaty of Paris, which will be declared to have been sacredly kept, as witness the prosperity of Porto Rico and the Philippine Islands; with the sacredness of the ballot, the equality of all citizens, etc.

NEW LEADERS—NO NEW LEADER

CHICAGO, June 20.—Time was when the republican national committee was composed of M. A. Hanna of Ohio and about fifty others. The fifty others were among those present and voting. That's about all there was to say about them. They were in no sense a group of political nonentities, for in their own states and territories they wielded great political power and influence; but in the national committee their individualities were lost in that of the acknowledged leader, whose word was the law.

Hanna is dead, and as in the other burdens of which death relieved him no one man has been found who can take up that which he has laid down behind him. The business cares which he carried on his own shoulders have been assumed by eight individuals, if the information possessed on that subject by Elmer Dover, secretary of the committee, is correct; it takes three men to manage the political machine of Ohio, which he governed single handed; one man succeeded him in the United States senate, another is to take his

place, the other two are to take his place in the senate.

Michigan sends eighteen of the twenty-eight delegates under instructions, and of the total delegation of twenty-two from Michigan twenty are instructed. Twenty-eight delegates from Missouri are instructed, and that state is entitled to thirty-six. Fourteen out of sixteen are instructed in Nebraska, and four out of eight in New Hampshire. New Jersey which is entitled to eight delegates has instructed ten. North Carolina instructed ten delegates, twenty-four Ohio thirty-six out of forty-six and Pennsylvania twenty-four out of sixty-eight.

All of these states, however, endorsed the president. So did Rhode Island, which is entitled to instruct its eight delegates. Tennessee instructed twenty of its twenty-four, Texas instructed thirty-two of its thirty-six and Virginia eighteen of its twenty-four. Only two delegates from West Virginia would be free to vote for any other candidate, and of the twenty-six from Wisconsin twelve are instructed.

retary will be either Elmer Dover or Charles W. Johnson of Minneapolis.

HOGG AND DAILEY FIGHT MAY CAUSE TROUBLE IN SANTONE

WACO FRIENDS OF THE LITTLE GIANT PROPOSE TO PUSH HIM TO THE FRONT, IN WHICH EVENT THERE WILL BE OPPOSITION FROM THE FORCES OF THE GOVERNOR, WHICH WILL DESTROY THE HARMONY OF THE MEETING

SAN ANTONIO, Texas, June 20.—Representatives of the democratic party of Texas are gathering in this city from every quarter of the state. It appears that practically every county will have representation in the state convention, which assemblies at noon tomorrow, but the crowd will not be half so large as ones which have attended other state conventions. The overwhelming victory of the Parker forces and what seemed a lack of all excitement compared to cut down the attendance and residents of San Antonio are rather disappointed at the slowness of the hosts that have so far arrived.

Still the crowd is far from small and it numbers among its members nearly all the chiefs of the state in years gone by. There are Bailey and Culbertson, Crane and Gunter, Lanham and Robbins, and Blanchette, and Ball, and Johnston, and scores of others almost as well known. In fact Colonel James S. Hogg is the most conspicuous of all the absentees and it is possible that he may come in before the convention convenes.

It had been expected until this morning that there would be no break in the chain of harmony that would surround the gathering. But the determination of Pat M. Neff, W. L. Redney and other Waco democrats to make George Clark a delegate at large causes a distinct discord. All efforts to persuade them not to enter Clark in the fight have so far been unavailable. If Clark is nominated Hogg's name will be put before the body and there will be a break in the Parker ranks, with the result that Hogg will again defeat his old adversary.

Most of the delegates would like to honor Clark, but they are afraid of a revival

of the feud of 1892. For this reason the biggest and most potential of the leaders will take further steps to prevent the "little giant" from thrusting his personality before the Hogg men. If they succeed there will not be a row worthy the name. If they fail, as they may, a political shoo will break over the convention hall.

It looks today that both Bailey and Culbertson will be forced to attend the national convention as delegates at large, and that six others will be sent to keep them company.

Robert C. Duff of Beaumont is in the lead for temporary chairman, and either C. L. Potter of Gainesville or Clarence Ouseley of Fort Worth will be the permanent presiding officer.

The state committee is scheduled to meet this afternoon for the purpose of selecting the temporary officers and to transact other ante-convention business. Colonel R. M. Johnston has no fight in his desire to be national committee-man again, and most of the other plums will go as the Parker leaders think they should.

There is no further hint of a struggle against Parker instructions and the state's thirty-six votes will doubtless go in the Parker column.

Hon. M. M. Crane and Charles A. Ransbury of Dallas both want to be a delegate from that district. W. E. Shell of Hillsboro will probably be one of the delegates and the Parker men are trying to line up Hill and Ellis counties against General Crane. They may succeed, as was to be expected. There is no harmony in the ranks of the Dallas delegation, and at least one of her candidates for delegate at large seems doomed to disappointment.

DEMOCRACY TO MAKE HIM GUEST

Judge Reagan Will Be Elected a Delegate and His Expenses Paid

START MOVEMENT FOR IT Grand Old Roman Cannot Go to St. Louis Because of Financial Condition

AUSTIN, Texas, June 20.—The eyes of a number of state officials are now turned toward San Antonio, where the democratic convention meets tomorrow.

As the matters to be disposed of by the convention are discussed, more interest seems to be shown in the selection of delegates from the state at large and congressional districts to the St. Louis convention than in the platform which is to be formulated.

From what is heard from those who came to the capital from other cities during the week, the selection of delegates to the national democratic convention in St. Louis will be the question exciting and claiming the greatest amount of interest in San Antonio.

So far as the delegates to the St. Louis convention from counties and congressional districts is concerned, it has excited no great amount of comment or interest, from the fact the disposition is to leave this matter largely with the district delegations, but when it comes to the selection of delegates at large from the state, then it is expected a scrap will be precipitated. There are many Texas democrats who are ambitious to attend the St. Louis convention, and since the state's delegation by districts has been agreed to, the only hope of those who have not been named from some one of the congressional districts is to go from the state at large, and it is here that it is expected the row at San Antonio will be precipitated.

A great many statements have been made during the past week in Austin, and the personnel of state representatives have been written out many times, but of course no one knows, but judging from precedents and the well known disposition of the most influential members of the party in the state, the following named gentlemen have the best prospects of being selected to represent the state in St. Louis of any of the numerous party leaders.

Senators Charles A. Culbertson and Joseph W. Bailey, Judge John H. Reagan, James E. Wells, Judge Howard Templeton, T. H. Ball, E. B. Perkins and T. D. Cobb.

It is well known that all these members of the party aspire to the honor of representing the state in the national convention and since all have many warm personal friends and numerous political admirers, and are men of admitted ability, the probability is they will be named in San Antonio tomorrow.

No stronger name appears on this slate than that of Judge T. D. Cobb of San Antonio, but since he is comparatively a new man in the councils of the party, it may be that the San Antonio convention will substitute the name of some party leader who is more of a veteran in the party ranks or who has rendered more service in the party's campaigns in the state and nation.

Again, it may be urged at San Antonio tomorrow that both Judges Cobb and Perkins are railroad attorneys and an effort to defeat them would be made for this reason. Both, however, are loyal democrats, and the day has long since passed in Texas when to shout in the cars of the people

a lawyer is an attorney for a railroad is sufficient to encompass his defeat for a position of honor.

Both Judge Cobb and Judge Perkins are loyal to Texas and loyal also to the democratic party, and something more will have to be shouted at San Antonio to accomplish their defeat than to say they are the attorneys of great railroad corporations.

The San Antonio convention is likely to be a very remarkable convention in one respect, and that is this: Judge Reagan has indicated that he would like to attend the national convention in St. Louis, but said plainly that his financial condition would prevent him from doing so, and it is possible that he will be invited to attend the national convention as a guest of the state democratic convention, and the delegates at San Antonio tomorrow given an opportunity to "drop in the collection box" for this purpose.

Of course, any railway in Texas would be only too glad to furnish him with transportation, but it would be a most graceful thing for the democratic hosts in San Antonio to say: "Here is an old Roman who has been fighting the battles of democracy in Texas since 1839, and we esteem it our duty and regard it as our pleasure to send this noblest old Roman as our guests to the first democratic convention which will be held in the twentieth century."

NON-PARTISANS ARE TO MEET IN AUGUST

WACO, Texas, June 20.—A call was issued Saturday night by John R. Spencer, chairman of the Texas Non-Partisan Federation for Majority Rule, signed by Secretary R. C. Johnson, for a state conference of all adherents of this idea of government, to be held in Fort Worth on August 9, to discuss the best means of forwarding the propaganda and make such other action as may come before the body. Members of all parties are invited and there will be no party discussions.

STANDARD GETS THE BAKU OIL FIELDS

ST. PETERSBURG, Russia, June 20.—According to the Nevoe Vremya, Russian oil combinations have capitulated to the Standard Oil Company and the whole output of the Baku wells are at present in American hands.

SODA WATER BOTTLE EXPLODES IN A BOX

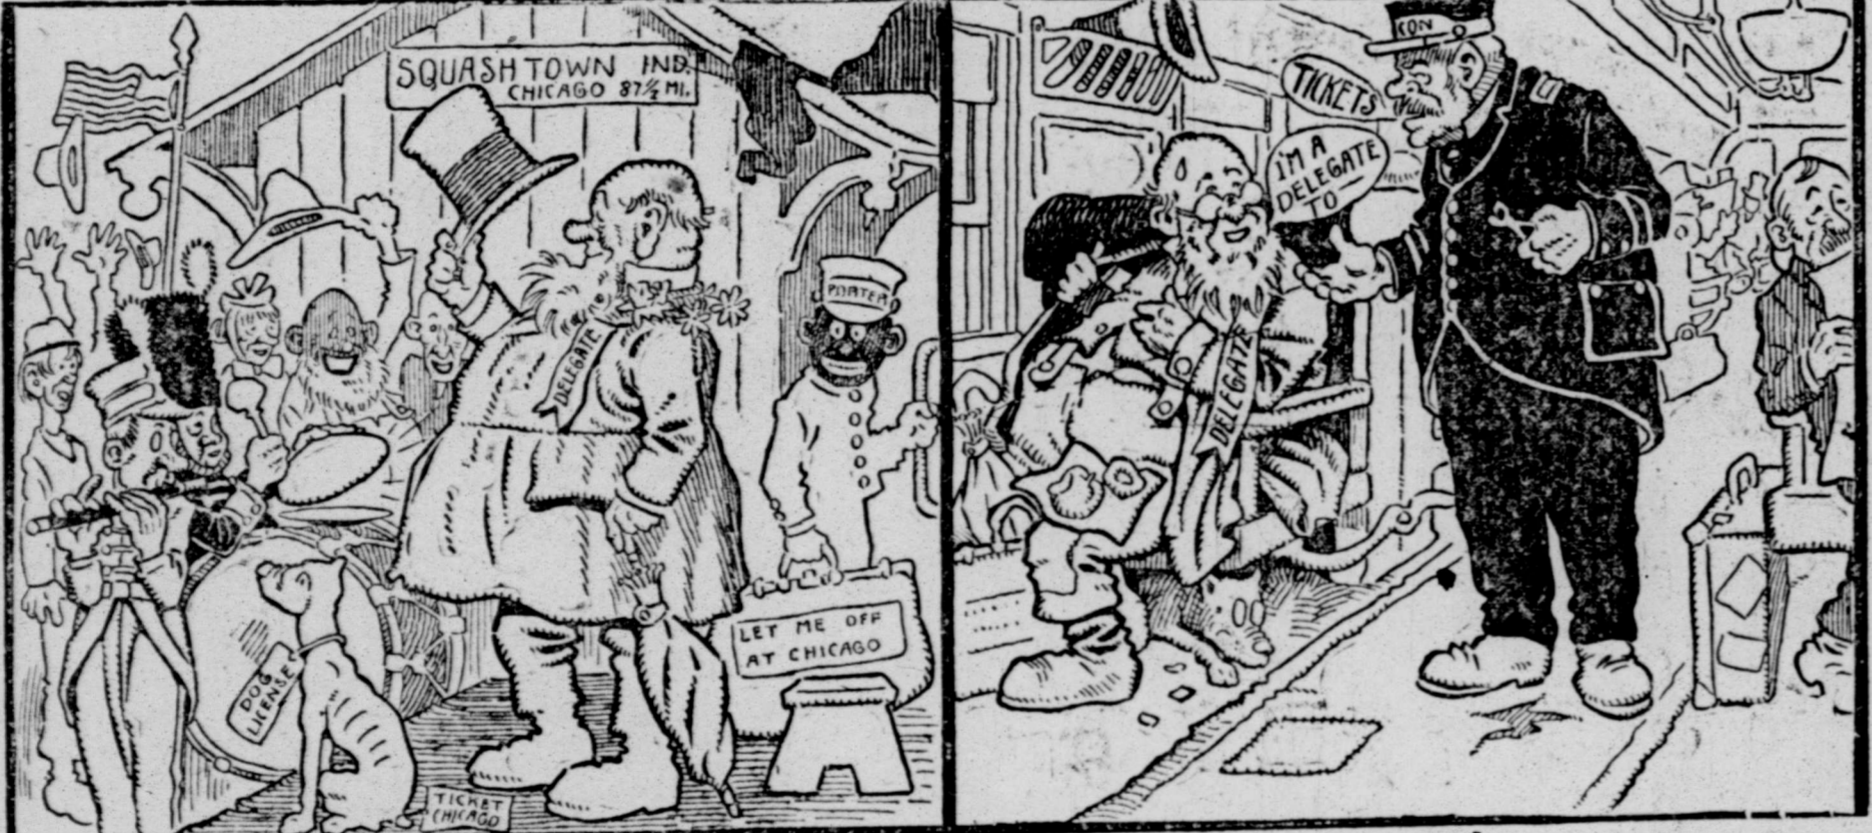

WAXAHACHIE, Texas, June 20.—The wife of Jerry Reager, colored, was badly injured Saturday night by the explosion of a bottle of soda water. The explosion occurred while the woman was lifting a case of soda water from the floor of a cold drink stand to the counter. Her face was fearfully cut by the pieces of glass and the sight of one eye was entirely destroyed.

NEWLY HIRED HAND STEALS A HORSE

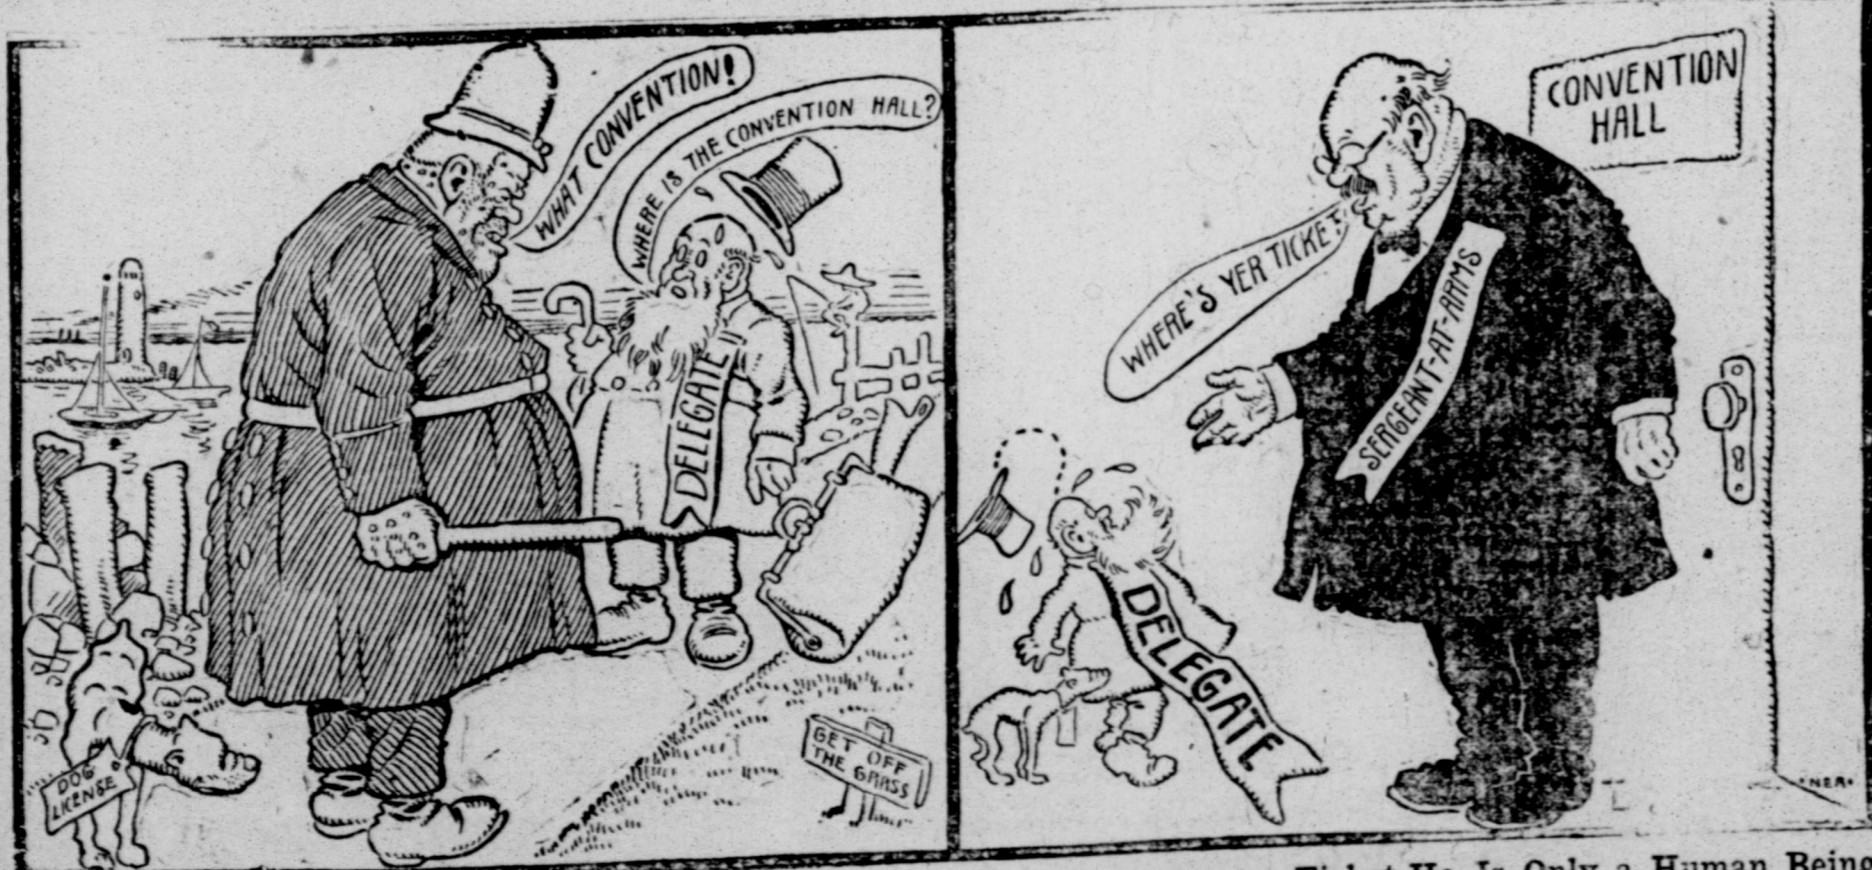

WAXAHACHIE, Texas, June 20.—L. Lee, a farmer living eight miles south of Hillsboro, was in the city yesterday looking for a horse stolen from him Saturday morning. Mr. Lee said a young man stopped at his house last Monday and asked for work. As he needed hands and help with threshing grain he gave the young man a job Saturday morning. The hand borrowed a horse from Mr. Lee to ride to a store nearby, saying he would be back in an hour or two. Mr. Lee has not seen his horse or the rider since.

WASHINGTON FORECAST
Arkansas, Oklahoma and Indian Territory—Tonight and Tuesday, scattered showers.
East Texas—Tonight and Tuesday, partly cloudy to cloudy weather; probably scattered showers.

THE DIMINUENDO OF THE DELEGATE.

Biggest Man in Town as He Leaves. People on the Train Don't Seem to Quite Appreciate His Importance.

Chicago Didn't Even Know He was Coming. And Without a Ticket He Is Only a Human Being.

THE RUSH OF BUSINESS CONTINUES and is Unprecedented at the Great Opening Sale of the Hardie Store

Tomorrow morning we will remain closed until 9 o'clock in order to get stocks in proper condition. Ten cases more from the Waco store will be placed on sale at the opening of this store tomorrow. These goods had been shipped to Waco and were in warehouse for the opening of the new store. Fire demolished the building, so it will be impossible to open under six weeks. These goods must be disposed of and the larger portion of them were sent to us with instructions to sell at cost. They consist of summer goods of every character. The same prices will be continued as advertised in Sunday's paper.

SOME PRICES OF OTHER LINES NOT QUOTED SUNDAY

100 pieces, 3,600 yards, Point de Paris Laces, Insertions and Bands, ranging in width from 2 to 5 inches. Just the kind of laces so much used at this season of the year. Ordinarily they would sell at 10c and 15c yard. We place the big lot on sale at two prices. Purchasers will do well to see them and buy liberally, as they are at wholesale prices—

1 lot, yard5c 1 lot, yard.....8c 25 dozen Ladies Black, Tan and Brown Lace Hose, all sizes, superior quality and finish, the kind that sells at 30c and 35c. The lot is offered until sold a pair23c 25 dozen Tan Lace Hose, in sizes for women, misses and children, the regular price a pair is 19c.

Offered during this sale under manufacturer's cost, all sizes, pair10c Choice of a big table of Men's Ties, in four-in-hands, teeks, bows and strings, each10c All of the fine Batiste Lawns in splendid patterns, regular price 10c and 12 1/2c, in this sale, yard. 8c 10 dozen White and Black Silk Chiffon Stock Foundations, in all sizes, regular 15c quality; on

sale at, each10c \$5.00 Walking Skirts, in mohair, Sicilian, blues, browns and blacks, very popular; in this sale at, each\$3.50 One lot of pretty White Waists, with small black figures. Harris' price was \$1.49. In this sale, each89c

For further prices, see Sunday papers. Remember that this is a sale where money goes a long way and where no one goes away disappointed. Open in the morning at 9. Plenty of salespeople—quick service—you don't have to wait. Don't forget the new goods that go on sale and that prices will continue as at present until further notice.

A Sale Where Money Goes a Long Way

Successor to W. R. HARRIS Dry Goods Co.

Market Quotations

NORTH FORT WORTH, June 20.—The supply of cattle at the yards today was represented by ninety-nine cars, two-thirds of which were consigned for the local market, with the other one-third shipped in on through billing.

As usual, a good assortment of grades were included in the offering, but buyers were loath to offer any encouragement for a steady market and trading started slow and dragsy.

There was practically no demand whatever for steers and the bulk of this class of the offering went over without a bid, some of the salesmen claiming that buyers refused to look at their cattle.

The few sales made showed a loss in values from last week's close of from 10c to 2c, with trading on this basis erratic.

The general offering in cows ranged around good medium and sales ranged between \$2.30, with the loss in values aggregating \$c to 1c.

Calves were weak, but under the strain on the general market, the light run was disposed of at more satisfactory prices than any other class of killing stock.

With a light supply yarded and fair general quality offered, the hog market opened early with packers conceding the usual small advance of \$c. Trading got under headway early and the good grade of stuff sold at prices ranging between \$4.95 and \$5, with top hogs of good weight and quality selling at \$5.05.

The run today included very few pigs and immature hogs, and salesmen did very little sorting to obtain best results.

Indications are for a continued light run of hogs during the remainder of this month, with every prospect for steadily increasing values.

DELEGATES ARRIVING (Continued from page 1.)

place at the head of the civic federation with the assurance that a successful conclusion when Argentine raised the question under what flag they were to be transferred, she being unwilling to let directly to belligerents. The medium through which the negotiations were conducted suggested that the Argentine legation would turn them over to Russia, but President Roco rejected the proposal, insisting that a bona fide maritime power should be the purchaser. Then Turkey began negotiations through the Argentine legation at Paris. The result of these negotiations is not known.

REPORTS FROM OKU WASHINGTON, June 20.—The Japanese legation has received the following cablegram from Tokio:

AN ENGAGEMENT PROCEEDS LIAO YANG, June 20.—An engagement is proceeding near Kai Chou. The first train bearing wounded men passed through here going northward.

CANNONADING IS HEARD TOKIO, June 20.—There is a possibility that the Russian Vladivostok squadron is again in the Korean channel. A report from Shimonski states cannonading was heard there today.

THE PEASANT REFORMS ST. PETERSBURG, June 20.—The St. Petersburg Provincial consultative committee is proceeding near Kai Chou. The first train bearing wounded men passed through here going northward.

old Hanna following John Edward Addicks of Delaware, whose fight for the control of his own state against the faction of republicans that opposes him has made him famous, or notorious—it depends upon whether the characterization is made by friend or foe—assists them to the limit of his ability in the task they have set for themselves. Another one of the stalwarts in the work, whose influence is felt beyond the recording of his vote in the committee, is John W. Yerkes of Kentucky, commissioner of internal revenue. He, too, was a Hanna captain, powerful in his native state, the only man who could keep in check the counter-ambitions of ex-Governor Bradley. For years he and Bradley were bitter political enemies, but continued defeats brought Bradley to terms, he surrendered the gun that had been spiked and which was practically useless, and a public reconciliation resulted, as dramatic an incident as is recorded in the annals of blue grass republicanism. But Yerkes maintains strict control and represents, now that Hanna is dead, the administration in Kentucky affairs, so far as they affect his duties as a committee-man. Where he leads, a dozen others follow—and again a title of the Hanna influence is accounted for.

CORTELYOU HURRIES WEST NEW YORK, June 20.—Secretary Cortelyou of the department of commerce and labor will arrive in Chicago Tuesday night. It is reported he is summoned suddenly to meet the republican leaders, it having been his previous intention not to go west until after the national convention had adjourned.

LOSS IS SEVEN THOUSAND NEW CHWANG, June 20, 6 p. m.—A Russian officer who was wounded in the battle of Vafanow told an Associated Press correspondent that the losses on both sides were severe. He places the Russian casualties at at least 7,000. He says no soldiers in the world could withstand the Japanese as they have been fighting lately. Their artillery, he claims, is marvellously effective. The Russians fought stubbornly and desperately, but were unable to withstand the enemy's dashing persistency. Several hundred wounded Russians have been sent north through a lack of hospitals and surgeons. All the available transportation has to be used for supplies at the expense of the sick and wounded. The Japanese buried most of the Russian dead after the battle.

It is estimated upon information obtained that the Japanese force moving northward is 70,000 strong, with 90,000 men in the aggregate engaged in the operations at Port Arthur.

COL. E. K. BAKER IS DYING IN AUSTIN AUSTIN, Texas, June 20.—Colonel E. K. Baker, division superintendent of the Southwestern Telegraph and Telephone Company, is dying at his home here in South Austin. He is suffering from complications of the stomach and this afternoon is in a delirious condition. He is not expected to live until tonight. General Manager Farnsworth of the company is here from Dallas and at the bedside. He has been connected with the company many years.

On application of defendants six cases of the state against all express companies doing business in Texas, with forfeiture and penalties of alleged violations of the anti-trust laws by forming exclusive contracts with railroads, was continued today in the Twenty-sixth district court until the next term.

THE VISITING RAILROAD MEN WILL PROBABLY REMAIN IN THE CITY UNTIL TOMORROW BEFORE RETURNING NORTH.

THE DEATH OF MR. B. C. BASSHAM, aged 47 years, occurred this morning at 2:30 o'clock at his late residence on Grove street, between Central avenue and Twelfth street, North Fort Worth. Mr. Bassham, who has been a resident of North Fort Worth for several years, is survived by his wife and four children. Funeral services were held this afternoon at 4 o'clock.

PARTS OF THE WRECK OF THE SIRIUS, the first steam vessel to cross the Atlantic, which was lost off Ballycotton, County Cork, in 1857, have just been recovered. The Tien Tau Hui, or Society for National Feet, is making many converts in China. In some regions young men sign a pledge not to marry girls with artificially-crippled feet.

ST. PETERSBURG, June 20.—The Patriarch of Jerusalem has appointed Viceroy Alexieff knight of the True Cross and has sent to the viceroy a decoration containing a piece of the True Cross with a letter expressing the hope it will preserve him from all harm and enable him to come out victorious in the fight for the Orthodox church.

TOKIO, June 20.—General Oku reports he buried 1,516 Russian dead on the field after the battle of Vafanow (Tashiro) and then the work was incomplete. The natives say the Russians themselves buried and also carried away many of their dead.

LIAO YANG, June 20.—The correspondent of the Associated Press who spent the night at Hai Chen reports having heard heavy firing to the southward and believes it to be an attack upon Tashi-Chiao or the Japanese fleet again bombarding the coast near Kai Ping. The firing continued from 10 o'clock at night until 2 in the morning. No explanation of the act or cause of it has been obtained.

LONDON, June 20.—The schooner yacht Ingomar, owned by Morton F. Plant of New York, was the first of the yachts entered in the race from Dover to the Island of Heligoland, for the Emperor William cup, to reach the finish, arriving at twenty-one minutes past 2 o'clock this morning.

LOSS IS SEVEN THOUSAND NEW CHWANG, June 20, 6 p. m.—A Russian officer who was wounded in the battle of Vafanow told an Associated Press correspondent that the losses on both sides were severe. He places the Russian casualties at at least 7,000. He says no soldiers in the world could withstand the Japanese as they have been fighting lately. Makes Men Vigorous

Valuable Prescription by Which Any Man Can Make His Own Remedy to Cure Himself at Home - Sent Free to All. Write for it. WILL MAKE A MAN OF YOU.

For the return of that youthful feeling of manhood a prominent Detroit physician and scientist in possession of a receipt which he has

himself used in his own extensive private practice with the most startling success. Through the years he has passed his equal has never been found with it thousands of weak men have brought about the cures they so much longed for. The doctor willingly sends the formula entirely free to any man who writes him for it, and they will find it a gift of lasting value. It is good for sexual weakness, lost manhood, nervousness, weak back, emissions, varicocele, lack of force, prostatic trouble, night sweats, inability and the many other embarrassing conditions that befall the sexually imperfect man. It creates an immediate social feeling, warmth and good nature, forces active blood to the muscular tissue, tones the nervous system and arouses bodily confidence. It makes the man of 65 as good as 35, and the young man again eager for society and fit for marriage and parenthood. Satisfactory results are produced in a day's use, and a perfect cure in a few weeks, regardless of age, or the cause of your condition.

If you need such a remedy send your name and address today to the Dr. Knapp Med. Co., 156 Hull Bldg., Detroit, Mich., and in an unmarked envelope the doctor will at once send you the receipt, as promised, explaining in detail all what ingredients to use and how to compound them so that any weak man can cure himself in his own home without being under obligations to anyone. It costs you nothing and the sooner you write the sooner you will be cured.

REV. ABE MULKEY CLOSES MEETING

Evangelist Gets One Hundred Converts and Lifts a Debt on the Church

LAST OF THE SERVICES

So Pleased Were Stewards of the Church That the Pastor Was Given a Vacation

The last service of the most successful revival meetings ever held in Fort Worth was concluded by the Rev. Abe Mulkey at the Glenwood tabernacle last night. The first revival of the series was begun Saturday, June 11, and the last sermon was delivered on Sunday evening, June 19. During that time 100 persons were converted and \$1,500 raised to cancel a debt of the Glenwood Methodist church.

THE MEETING LAST NIGHT After the customary songs and prayer Rev. Mulkey began his sermon, taking for his text Proverbs 29:1. "He that after being reproved hardeneth his neck shall suddenly be destroyed and without mercy." The evangelist then made an earnest appeal to the people to hear God's word and to heed. He gave illustrations from the Bible where the people refused to hear and were destroyed. He told how Noah warned the people of the coming flood, but they turned a deaf ear. "The scientists of the day said the ark would not float and, Oh, my friends, there is a class of people in this city today who are the same way; they will not have faith. For them the ark will not float, for they will not believe."

The evangelist then related the case of a man in Galveston who scoffed at God and was that same night destroyed by the explosion of a kerosene lamp. "Oh, my friends," said the preacher in conclusion, "take heed while yet you may. Think of the souls in hell today that are suffering while they lived."

"Hear my words, and may God bless the efforts of this meeting and every soul present."

CALL FOR CONVERTS While the choir sang the evangelist made his customary call for converts, telling all who wished to lead a better life to rise. Several persons rose and received the blessing of the evangelist. Fifteen penitents were converted.

THE CONTRIBUTIONS Rev. Mulkey then made a call for contributions to discharge a debt of \$1,500 on the Glenwood Methodist church. In his inimitably funny way he stationed the collectors and after getting the audience good humored by his funny stories, started the collection.

In just forty-five minutes the \$1,500 was raised. The largest contribution, \$50, was given by the Epworth League. The children of the Sunday school and the Woman's Missionary Society also made handsome donations. When all contributions had been received the people all sang, "Praise God from Whom All Blessings Flow."

RECEIVED IN THE CHURCH The meeting was concluded last night with the receiving into the church of all those who had professed religion during the week. Twenty persons presented themselves to Rev. J. D. Young, and before the great congregation the sacred rite of baptism was administered.

A VACATION So pleased were the stewards of the church at the successful work of Rev. Young that at the close of the baptismal service they voted him and his wife a month's vacation. The couple will take a trip east and take in the World's Fair

RAILROAD NEWS

The Katy fair special was inaugurated yesterday under very pleasant circumstances, and the train will be continued as a fast traveler between this state and St. Louis during the fair.

This is the train which was to be named in competition with the one being given a free trip to the fair for suggesting that which was selected.

Yesterday Randolph Daniels, chief clerk in the office of General Passenger Agent W. G. Crush, and G. M. Samuel, trainmaster of the Dallas division, went to Waco to make the first trip with the new train. They were met by a party of newspaper men, including Homer D. Wade, secretary of the Waco Business Men's Club and a newspaper man; Frederick Lueders, editor of the Waco Post, a German publication, and Germany's consular agent; Colonel W. M. Woodall, editor of the Waco Rambler; W. A. Ownby, city editor of the Waxahachie Daily Light; W. M. Manchester of the Waco Transfer Company; George C. Robinson, editor-in-chief of the Waco Times-Herald; J. P. Daley, special agent in Waco; G. M. Samuel, manager of the Dallas division of the Katy; A. R. Brashear, freight agent at Waco; A. A. Morrow, city passenger and ticket agent, Waco; Charles Eubank, depot assistant, Waco; M. B. Davis, R. Daniels, chief clerk in the passenger department of the Katy division; W. G. Crush, general passenger and ticket agent; Hugh Taylor of the Dallas Times-Herald.

They made the trip to Dallas in the train, and there a fine banquet was served to the writers. The equipment of this fast train is very handsome. The chair car of the Pullman character of construction, the interior finish being very handsome. These chair cars will provide seats for fifty-two people, which is more than an ordinary car. The seats are of comfortable style

and the entire arrangement is to the comfort of the passengers. The sleeping cars used on the train are a class of first-class construction, which is very attractive.

The train will make very fast time. It will make but one stop between Waco and Fort Worth and is to make the fastest time ever attempted by a Texas railroad. GENERAL DODGE COMING General Dodge, President Frank Trumbull and part of the Colorado and Southern Railway system, who were due to reach Fort Worth Sunday night, will not get here until this afternoon. Vice President and Traffic Manager J. E. Keeler, Superintendent Dolan and Hal Sperry, Mr. Keeler's private secretary, are with the Colorado and Southern officials. A trip was this morning made over the Wichita Valley road to Byers, near Red river, to which point that line was recently extended.

While it is not so stated, the impression seems to be that General Dodge and President Trumbull are very much interested in the extension of Colonel Jones' road into the coal fields of the territory. The strikes in Colorado have naturally put railroads to any amount of trouble in securing coal fuel, and it is believed the situation has forced them to seek a supply elsewhere. If the Wichita Valley is extended from Byers it will tap an inexhaustible field of coal. Should this be the case there is a big head that the Colorado and Southern may have to do with the fuel problem, or it may not, but the belief is that it has.

NO POT. NO PAN. NO COOKING.

DISGRACEFUL WAS CONDUCT OF THE BALL PLAYERS

Visiting Team Did Not Act Right and Umpire Crowell Gave the Game to Panthers

As rudely an exhibition as ever disgraced a ball field was contributed by Corsicana to the game yesterday at Haines park. McCarthy, Shelton, Maloney, Coyle and Thibeau put up an article of ball-doing tactics that were execrable, and tried to the limit the patience of fifteen hundred spectators. The trouble arose over a decision by Umpire Crowell on an infield ball hit by Dugan, which was first pitched by Doyle in the air about twenty feet. Salm started to field it, but failed and the ball rolled on four ground. The umpire called the ball fair. Thereupon broke out a fierce controversy, and to a fury by some spectators who had money up on the game, and Corsicana's ball team who waxed increasingly wrath and were violently vehement in words and gestures toward the umpire. A time limit of five minutes was given, but this failed to cool the Celtic tempers that go with the Celtic names known as "Micky" Coyle, Maloney, McCarthy, etc.

At the expiration of the time limit the umpire declared the game forfeited to the visiting team.

CATCHERS' RECORD TO DATE The following is a record of the catchers, according to the reports received at the office of the secretary of the Texas League:

Table with columns: Name, C., PO., A., E., Total, Chances Accepted, Per cent. Includes Markley, Hunter, Westlake, Quessier, Blanton, McMurray, Moran.

TO THE CONVENTION The Rock Island has put on a cheap round trip rate from points on the line to the democratic state convention to be held at San Antonio this week.

Under the date of June 16, 1904, a communication was signed by the minister of public communications in Mexico and the Licenciado Alonso Fernandez, representing the Kansas City, Mexico and Orient Railway Company, by which the company is allowed to construct an extension of line to the second section of fifty kilometers on the Chihuahua and Presidial del Norte, or Ojinaga Railway, of which the Kansas City, Mexico and Orient is the concessionaire under the charter of June 27, 1903.

DEMAND FOR ROLLING STOCK A. C. Hutchinson, superintendent of the Zacautes Railroad, which line operates between Salt Ho and Conover, a distance of 156 kilometers, says that the road is in better physical condition at the present time than at any time before. Mr. Hutchinson says that traffic has increased to such an extent that it is necessary to place orders for new rolling stock and expend a large amount of money for new equipment. He adds the next extension to San Pedro Ocampo has been about completed and when put in operation and everything else running smoothly the road bids fair to be one of the best paying railroad properties in the republic.

TIMBER LANDS IN THE TERRITORY Report of a Man Who Has Investigated the Situation in Choctaw Country DENISON, Texas, June 20.—J. M. Brunwell, who has spent several weeks in the eastern part of the Choctaw country, is spending a day or so in the city. Mr. Brunwell is prospecting in the interest of an English firm which is after natural timber.

He states that there is yet thousands of acres of virgin natural timber forests worth millions of dollars. There is almost no end to the cedar forests. The Choctaw woods are very rich in valuable timber. It is almost impossible to get the timber to the railroad, the country is so rough and the distance so far.

To a great extent the timber country east of the Frisco railroad is little known, now and then penetrated by hunting parties. It is no doubt the greatest game country in the southwest. The fishing in the mountain streams is unsurpassed in America.

Bears and panthers are very plentiful. Mr. Brunwell says that there are many mountain lakes that are literally alive with game fish. The Indian settlements are few and far between. He saw the best quality of coal cropping out from the hillsides. There is granite as valuable as to be found in the New Hampshire hills.

Mr. Brunwell intends to spend all next fall and winter in that section of the country. BUILDING PERMITS Building permits have been issued to E. P. Beauchamp to erect a \$2,500 residence at Terrell and Potter avenues, to the Fort Worth Furniture Company to erect, a boiler and engine room at a cost of \$1,000, and to John Donahue to erect a store room at Twelfth and Houston streets, at a cost of \$1,000.

Increase the quantity and quality of your milk by feeding your cows on Texas Star Dairy Food. Fifty per cent better and cheaper than bran—Texas Star Dairy Food. Bugler Martin, who was with Custer in many of his fights, has been retired after thirty years' service in the United States army.

AN EVEN BREAK DALLAS, June 20.—The tallenders, Paris, took a brack yesterday and in the second game of the double-header, shut out the locals by a score of 3 to 0.

In the first game Dallas had an easy time of it, the local batters finding Tuller easy to solve and hitting him hard and often. Doyle, in the fourth inning, knocked a home run with the bases full. Moran did creditable work at the bat, while Dugan's fielding was the feature for the visitors.

SECOND GAME Cy Mulkey took the slab for Paris in the second game and the locals found him a pretty stiff proposition. Only four scattered hits were gotten off his delivery. Reagan, in this second game, was literally batted to pieces. It is strange that Paris did not run up even a bigger score than 3 to 0.

Table with columns: Name, AB., R., BH., PO., A., E. Includes Moran, Clarke, Hunter, Coyle, Russell, Doyle, Johnson, Corcoran, Boyd, Reagan.

DISGRACEFUL WAS CONDUCT OF THE BALL PLAYERS

Under the date of June 16, 1904, a communication was signed by the minister of public communications in Mexico and the Licenciado Alonso Fernandez, representing the Kansas City, Mexico and Orient Railway Company, by which the company is allowed to construct an extension of line to the second section of fifty kilometers on the Chihuahua and Presidial del Norte, or Ojinaga Railway, of which the Kansas City, Mexico and Orient is the concessionaire under the charter of June 27, 1903.

DEMAND FOR ROLLING STOCK A. C. Hutchinson, superintendent of the Zacautes Railroad, which line operates between Salt Ho and Conover, a distance of 156 kilometers, says that the road is in better physical condition at the present time than at any time before. Mr. Hutchinson says that traffic has increased to such an extent that it is necessary to place orders for new rolling stock and expend a large amount of money for new equipment. He adds the next extension to San Pedro Ocampo has been about completed and when put in operation and everything else running smoothly the road bids fair to be one of the best paying railroad properties in the republic.

TIMBER LANDS IN THE TERRITORY Report of a Man Who Has Investigated the Situation in Choctaw Country DENISON, Texas, June 20.—J. M. Brunwell, who has spent several weeks in the eastern part of the Choctaw country, is spending a day or so in the city. Mr. Brunwell is prospecting in the interest of an English firm which is after natural timber.

He states that there is yet thousands of acres of virgin natural timber forests worth millions of dollars. There is almost no end to the cedar forests. The Choctaw woods are very rich in valuable timber. It is almost impossible to get the timber to the railroad, the country is so rough and the distance so far.

To a great extent the timber country east of the Frisco railroad is little known, now and then penetrated by hunting parties. It is no doubt the greatest game country in the southwest. The fishing in the mountain streams is unsurpassed in America.

Bears and panthers are very plentiful. Mr. Brunwell says that there are many mountain lakes that are literally alive with game fish. The Indian settlements are few and far between. He saw the best quality of coal cropping out from the hillsides. There is granite as valuable as to be found in the New Hampshire hills.

Mr. Brunwell intends to spend all next fall and winter in that section of the country. BUILDING PERMITS Building permits have been issued to E. P. Beauchamp to erect a \$2,500 residence at Terrell and Potter avenues, to the Fort Worth Furniture Company to erect, a boiler and engine room at a cost of \$1,000, and to John Donahue to erect a store room at Twelfth and Houston streets, at a cost of \$1,000.

Increase the quantity and quality of your milk by feeding your cows on Texas Star Dairy Food. Fifty per cent better and cheaper than bran—Texas Star Dairy Food. Bugler Martin, who was with Custer in many of his fights, has been retired after thirty years' service in the United States army.

AN EVEN BREAK DALLAS, June 20.—The tallenders, Paris, took a brack yesterday and in the second game of the double-header, shut out the locals by a score of 3 to 0.

In the first game Dallas had an easy time of it, the local batters finding Tuller easy to solve and hitting him hard and often. Doyle, in the fourth inning, knocked a home run with the bases full. Moran did creditable work at the bat, while Dugan's fielding was the feature for the visitors.

Table with columns: Name, AB., R., BH., PO., A., E. Includes Moran, Clarke, Hunter, Coyle, Russell, Doyle, Johnson, Corcoran, Boyd, Reagan.

the-second game of the double-header, shut out the locals by a score of 3 to 0. In the first game Dallas had an easy time of it, the local batters finding Tuller easy to solve and hitting him hard and often. Doyle, in the fourth inning, knocked a home run with the bases full. Moran did creditable work at the bat, while Dugan's fielding was the feature for the visitors.

SECOND GAME Cy Mulkey took the slab for Paris in the second game and the locals found him a pretty stiff proposition. Only four scattered hits were gotten off his delivery. Reagan, in this second game, was literally batted to pieces. It is strange that Paris did not run up even a bigger score than 3 to 0.

Table with columns: Name, AB., R., BH., PO., A., E. Includes Moran, Clarke, Hunter, Coyle, Russell, Doyle, Johnson, Corcoran, Boyd, Reagan.

MAJOR MAUD HAS A CATTLE RANCH ON AN ISLAND

British Officer Who Was Formerly in this City Makes a Find of Wild Live Stock

Richard Walsh, manager of the famous "JAY" ranch owned by Mrs. Cornelia Adair, located in the Texas Panhandle, has just returned from the coast of South America, which is said to have on it 40,000 head of wild cattle, said Mr. Walsh. "The cattle were discovered some months ago by a person who reported the matter to Major Maud, and he organized a company in New York with a large capital stock and purchased it. It is said to be about eighty miles across. Just how the cattle got on the island is a matter which no one seems to be able to explain. They got there in some mysterious way, and that Major Maud seems to know about it is that the person who made the investigation of the island, which is said to be about 200 miles from Fuquima, is that the cattle are there and that they are as wild as the buffaloes were in the early days of Texas. It is surmised by some that a ship was probably wrecked and that about a hundred head escaped to the island and have been increasing steadily since. As it says, Major Maud has been advised that there are now something like forty thousand head in the herd, and he left last Tuesday from New York in a yacht, accompanied by others interested in the company, to land at the island and ascertain just what the situation is. Major Maud informed me that his intention was to supply the beef needed during the construction of the Panama canal if the cattle were there as had been reported, which he has every reason to believe, were on the island. All of the animals will have to be handled by boats and it will not be an easy task to rope the wild animals that have been raised away from civilization and get them in shape for food. However, this is the task that Major Maud is taking upon himself, and he thinks he has the greatest money-making scheme of his life," concluded Mr. Walsh, discussing the matter.

Major Maud was distinguished during the Boer war and was recognized in a substantial manner by the English government for bravery on the battlefield.

LETTER TO BROWN & VERA FORT WORTH, Texas, June 20. Dear Sirs: You are agents for Devote lead and zinc for your town and country. The whole doctrine of it turns on these three points:

- (1) It is all paint and true paint; (2) It is the strongest paint; (3) It is full measure.

Because it is all paint, true paint, proportionate to strength and full-measure, (1) It takes best for a job; (2) Looks best all the time; (3) Lasts longest;

(4) Gathers the trade, and holds customers. There is no such argument for any other paint; there is no other such paint; there is nothing but talk for any other paint. Devote is the paint, if you want the facts on your side.

MEMBER ASSOCIATED PRESS. NOTICE TO THE PUBLIC. Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The Fort Worth Telegram will be gladly corrected upon due notice of errors being given at the office, Eighth and Throckmorton streets, Fort Worth.

The Telegram absolutely guarantees a much larger paid daily circulation in the city of Fort Worth and surrounding territory than any other daily newspaper printed.

VICE PRESIDENTIAL NOMINEE

There has been so much talk over the man to head the democratic ticket this year that the fact that there must be a vice presidential candidate has almost been lost sight of.

Ex-Congressman Benjamin F. Shively of Indiana.

Circuit Attorney Joseph W. Folk of St. Louis.

Ex-Governor David R. Francis of Missouri.

Allen C. Braxton of West Virginia.

Ex-Governor James S. Hogg of Texas.

Mr. Hill wants Mr. Shively to be candidate for vice president because he lives in a close state, has served several terms in congress and ran for governor of Indiana on the Democratic ticket in 1896.

Mr. Hill wants John Sharp Williams to be the candidate because the congressman, as leader of the house, has demonstrated ability of the first class, and his nomination would wipe out sectionalism.

Mr. Hill desires Mr. Wall of Wisconsin as candidate for vice president because the delegates from the Badger state are held fast and sure by Mr. Wall.

Mr. Hill wants ex-Senator William A. Harris of Linwood, Kan., to be the candidate for vice president, because, it is said, he is an ex-Confederate general, a railroad builder and a breeder of Shorthorn steers, and the Wolfert's Roost statesman is said to be a little short on steers of the right kind.

Mr. Hill wishes Circuit Attorney Folk to be Judge Parkers' running mate because Mr. Folk is a terror to election thieves and a terror to persons of shady reputation, and the manager in chief of the Parker boom has been insistent about purity in elections ever since the Maynard campaign.

Mr. Hill wants ex-Governor David R. Francis to be on the ticket in second place because Francis has a "bar" and is a "good fellow."

Mr. Hill wants to carry West Virginia and for that reason he has persuaded Allen C. Braxton of that state, that he is the only candidate for second place in sight. Mr. Braxton never has been a senator or congressman, but he "has hopes," and also he has the West Virginia delegates.

Mr. Hill did not forget that Texas is a large state, and that ex-Governor Hogg is a man to be considered. He wants Mr. Hogg to run for vice president, because, presumably, while he is at it, he wants the cotton and corn belt well represented. Also, he wants to catch the Bryan vote, and Mr. Hogg is a Bryan man.

Anyone that doubts the prosperity of Fort Worth should stand at the corner of Eighth and Houston streets and view the building operations in that vicinity. A handsome three-story building of yellow pressed brick is nearly completed at the southwest corner of the intersection of the streets named, while diagonally opposite it is a new store and office building that is several stories high. Just east of here is the lofty Wheat building, that is being added to by another story. On Throckmorton, just a block west, two new buildings are planned to be erected respectively a short distance north and south of Eighth street. The construction of these five buildings reflects the demand for increased accommodations by local mercantile houses, and may be taken as a certain indication that conditions behind the city are stable. It marks also the fact that Houston street is rapidly

forging to the front as the retail street of the city, while Throckmorton is advancing to the position heretofore held by Houston street.

It is said by persons who claim to be close to President Roosevelt that he has offered the secretaryship of the navy to Paul Morton, vice president of the Santa Fe, and that the offer has been refused. Morton just flopped from the democracy into the republican ranks, and even he, merry as he is known to be, no doubt balked at the idea of his reward taking such immediate and convincing form. Possibly, however, he preferred being a big toad in the railway world than an exceedingly diminutive one in the republican official mudpuddle.

The shooting of three men by Zack Mulhall on the pike at St. Louis in front of Cummings' wild west show may have been but a preliminary to the performance inside. If all the performers are as conscientious as Colonel Mulhall in the discharge of their duties the entertainment within the ranks must be exceedingly worth while to the spectator that doesn't mind intercepting a stray bullet occasionally. It is to be recommended to those that cry for realism in their drama.

Folk's chance for the presidential nomination at St. Louis rests mainly on his reputation for courage and honesty. It is rather a melancholy commentary on the character of the men in public life that so much is being made of Folk, whose experience and qualifications otherwise do not particularly fit him for the highest honor the people can bestow.

A medical authority states that it is radio-activity and not a mythical law of gravitation that drives all things in the solar system to a common center. It seems then that all that time Sir Isaac Newton spent lying on his back under an apple tree watching the apples fall to the ground was, judged by results, nothing better than pure idleness.

With the heavy increase in the price of meat in the northern and eastern cities people have ceased to look askance at chuck steak, and some even are considering the nutritive qualities of the lowly soup bone. And the man in a restaurant who orders a port-house creates more excitement than one with a champagne bucket at his table.

Uncle Sam has reorganized Panama's currency system, making its dollar equivalent to that of this country. Why doesn't he make a quick meal of the isthmus instead of partaking of it in small pieces as he is now doing?

Philander Knox still has time to "hust" a few trusts before his resignation takes effect. If he will kindly demolish the beef combine Texas will look charitably on his connection with the steel trust.

Commissioner Ware says that the statements that pensions are being used for party purposes is a "stupid campaign lie." Nobody expected the commissioner to affirm the report.

Steamship companies are bringing Italian immigrants to this country for \$9.60 a head. Nine dollar citizens are not the kind this country stands in need of.

The lesson of the Slocum disaster is to avoid cheap excursions. Wherever there is a crowd that taxes the accommodations made for it there is danger.

The public will view with equanimity the threatened passenger rate war of the railroads leading to St. Louis. And all the better if they fight it out on that line all summer.

The recruiting office at Dallas is having good success in enlisting men for the army. Thirteen dollars a month looks good to a man in that city.

Meat prices in Port Arthur are almost as high as they are in this country. Over there it is the Japs; here it is the beef trust.

Santos Dumont has reached this country with his dirigible balloon. He didn't ride in it.

Cannon is still in the corner and fighting hard. It is probable that Lord Curzon could give some amusing instances of English as it is written by subordinate officials in India. But it is not likely that any of them would cap the experience of a certain high official out there who once received a letter commencing "Your most striking excellency." The scribe simply meant distinguished.

A DRUGGIST'S TROUBLES.

Prescribed for Himself and Overlooked the Only Remedy Which Would Cure Him.

A west side druggist tells a good story on himself, which illustrates very aptly the fact that those who should know the most do not always do so.

Mr. Druggist was a chronic sufferer from stomach trouble—a dyspeptic of the worst type. He had all the dyspeptic's skepticism, for the various so-called cures, and preferred to "take his own medicine," in the shape of pepsin and other drugs which he considered as suited to his needs.

One day he noticed a customer and friend of his who had purchased several boxes of Floyd's Dyspepsia Tablets, was looking very much better than usual, and upon speaking about it was told that Floyd's Dyspepsia Tablets were the cause of the improvement.

Upon such honest recommendation the druggist tried them himself, with the result that today he not only SELLS Floyd's Tablets, but RECOMMENDS them heartily for every case of stomach trouble.

NEW YORK LETTER

NEW YORK, June 17.—Thousands of people who thought they were reveling in an Oriental luxury when they ate chop suey will be surprised to learn that the yellow mystery is a dish of American make, though not of Yankee conception. Len Sen, who arrived in New York the other day, claims that he invented chop suey to fill what he thought was a long-since-framed-up was Sen's copyright. No Chinaman ever eats the dish or ever will eat it, save in the seventh subcellar of the Chinik hotel, to which the unspicable Chinese are sent who spit upon the grave of their grandfathers. So Len Sen says, at least. The recipe for making chop suey reads like the dying confession of a boxer. Just a few of the thirty-nine ingredients are pigeon's blood, sprouts, onions, chicken discard, chopped pork and punk.

NEWSPAPER EXTRAS BREAK THE RECORD

The record for newspaper "extras" was broken Wednesday along Park Row. One afternoon paper issued three between hours of 2:30 and 10:15 and another, which rarely enters the "extra" field, issued two in the same time. All of the five afternoon papers had extras on the street at 10 o'clock. The occasion was the awful disaster on the Hudson river, which cost 700 lost their lives. The estimates in "extras" varied from 500 to 1,000, official authority being quoted in every instance.

WOMEN DETECTIVES ON THE FORCE

Captain Cotrell, the newest of the many Tenderloin "czars," is following in the footsteps of his predecessors in the matter of introducing new schemes for detecting crime. Cotrell has engaged five female young women detectives. No results from the work of the good-looking, active young slouts has yet appeared on the blotter of the West Thirtieth street police station. It has been suggested that they are employed to secure evidence against certain men who order bean soup, which is a specialty of the Tenderloin, and which is not known to be a fact.

BOOTBLACKING MACHINES DOOMED

The new bootblacking machine recently introduced here does not promise to be as popular. Those immediately affected, the hand artists, have already discovered a fatal defect in the contrivance. In the words of one of them, "De machina is bada on de corns." Besides, the artists here who boast of their work in their work. One shine may differ from another as a Whistler from a pot boiler. In the hands of the artist truly proficient the same materials may be made to yield results of splendid possibilities of attainment to the journeyman. A machine which would reduce all shines to a dull uniformity of mediocrity would lower the standard of bootblacking. The first of these machines set up in this city was just been put in order in the store in Nassau street on the edge of the financial district. "Shoes Shined by Electricity" went first on the windows in big letters, and a curious crowd watched the machine go on the floor inside until the proprietor had to scarp the windows to stop annoyance.

KICKS ON SLOT MACHINES

Tiring for awhile of making protests against the gas meters, and of protesting when the gas is shut off a portion of the public which finds diversion, if not satisfaction, in kicking about things is now turning its attention to the slot machines. One zealous person actually drove 500 miles in New Jersey to surround the ferry waiting rooms and on elevator stations and he claims that 29 pennies were wasted. He lost 8 cents on chewing gum machines, 4 on weighing devices and the rest on moving pictures and phonographs.

IMMIGRANT AGITATION GROWS

The agitation against the "39 immigrant" continues to grow in New York, and the steamship companies are being sharply criticized. A detail indicating how the burden ultimately falls on the taxpayer is shown in the fact that practically all of the sixty men and twelve women arrested for begging in this city last week were foreigners and not one was a citizen. They all claimed that they were willing to work, but could not get it. They were nearly all sent to the workhouse. That institution is now nearly filled with able-bodied men who can not get work. If the influx of beggars continues the city authorities will have to take some action to compel the government to enforce the immigration laws more stringently, so as to keep out the alien hordes of paupers. The aliens crowd out the natives because they are willing to work for less than the American can.

THEATERS TO OPEN EARLIER

All the New York theaters will open earlier this fall than is the usual custom. The theaters are ready this moment, all having complied with the building commissioner's demands, and August, as every one knows, is one of the best months of the year in New York theatricals, the town being full of strangers.

PRIVATE YACHTS COMMISSIONED

Nearly every yacht in the immense private yacht flotilla in New York harbor is in commission. Some idea of the vast

amount of money spent annually by New York millionaire yachtmen can be gained at this season by a visit to South Brooklyn, where most of the floating palaces are made ready for the season. These docks are used as winter quarters for scores of the yachts of various classes, and about this time of the year they begin to shed their storm coverings and take on life and new color. For a few weeks there is no busier place around New York. It is estimated that between \$10,000,000 and \$15,000,000 worth of yachts were put into commission within the last two weeks.

Good Stories of The Day

A LAWYER'S SCALE

Attorney General W. A. Anderson of Virginia was in Washington the other day and met Judge Goode, who was a member of the Confederate congress. They became reminiscient. The name of Judge P. Benjamin, once United States senator from Louisiana and afterward the Confederate secretary of war, was mentioned. Mr. Anderson remarked how he had heard Benjamin make, after the civil war, a remarkable legal argument before the English House of Lords. "He stood at the head of the English bar," said Mr. Anderson. "His success in England was little short of wonderful."

"I used to have a little business with Mr. Benjamin while he was secretary of war," replied Judge Goode. "One day I had entered his office, when he surprised me with a question. 'You are a lawyer, Goode?' said he. 'I have humble pretensions to that profession,' I replied.

THE DIFFERENCE

Philip Hale, the Boston musical critic and annotator of the symphony program books, was talking not long ago with a woman who is strenuously pursuing musical culture. "What is the difference between the first and second violin in an orchestra?" "About \$10 a concert, madam," replied the critic.

HOPPER'S JOKE ON GOODWIN

DeWolf Hopper is in his usual good spirits, rejoicing in the successful revival of "Wings" and in a fall of humor and anecdotes. Seated in the center of a party of choice spirits he told the following amusing trick which he played on Nat Goodwin last summer: "I don't know," said Hopper, "owns a beautiful place over in England on the banks of the Thames, and was always talking about how glad he would be to get rid of his property, which was more or less of a white elephant to him. When we met at Larchmont over Sunday I heard him talking about this house and expressing his desire to sell it. He was at that time engrossed in his study of 'Bottom,' and a few weeks afterward started on his tour. I like to get a rise out of Mr. Goodwin. As a matter of fact, I like to get one out of anybody, and when he was at Buffalo I sent him the following telegram: 'Will you take \$100,000 for your English riverside house? Reply, Morris Hoffman House.'

THINGS THAT HAPPENED TO SMITH

Some entertaining reminiscences of John Thomas Smith, author of the "Book for a Rainy Day" (1766-1833), are recalled by "E. P." Smith had seen and heard much that was interesting. In a friend's biographical album he wrote that he could boast of "seven events, some of which great men would be proud of." Here are six of the "seven events": "Was patted on the head by Dr. Johnson; 'Have frequently held Sir Joshua Reynolds' spectacles; 'Partook of a pint of porter with an elephant; 'Saved Lady Hamilton from falling from the melancholy news arrived of Lord Nelson's death; 'Three times conversed with King George the Third; 'And was shut up in a room with Mr. Keen's lion."

FISH ON THE FARMS

DENISON, Texas, June 20.—Parties from the Territory report that the late overflow of Blue river was very disastrous. A great many farms were under water for many days, and crops are ruined. The overflow has formed a number of lakes, which are said to be literally alive with fish.

NOTABLE WOMEN OF THE SOUTH.

SOME EXPERIENCES.

The following letters from grateful patients speak louder than words of the great benefits derived from the use of Dr. Pierce's remedies: "I have found Dr. Pierce's Favorite Prescription of inestimable value," writes Miss Ellen Alma Bryan (Treasurer Memphis Century Club), of 193 Vance St., Memphis, Tenn., "as a tonic for over-wrought nerves, or when one is troubled with general lassitude and an irritable condition, hardly knowing what the trouble is. I was advised to use it by a number of our Club, and the effect on me was truly wonderful. Within two weeks I was like a new woman. I could eat and sleep as I had not been able to for months, my nerves became strong

and the mental equilibrium was restored as well as the physical. Your medicine has my highest endorsement." "I have thought for some time I would write you and tell you of the great improvement in my health since taking your 'Favorite Prescription,'" says Mrs. H. S. Jones, of Forest, N. C. "When I began its use I was a physical wreck and had despaired of ever having any health again. Could not sit up all day, and was so weak I could not walk one-quarter of a mile. I noted a great improvement in my health before the first bottle was used. Was suffering with almost every pain that a woman is subject to; had inflammation of the ovaries, painful and suppressed periods, and other symptoms of female disease. After taking six bottles of 'Favorite Prescription,' I felt like a new person. Can ride horseback and take all kinds of exercise and not feel tired." Dr. R. V. Pierce in the course of a long experience in the treatment of woman's ills found that a preparation

of roots and barks which he elaborated was a specific for the treatment of female suffering. After having used it in his private practice with great success, he placed it on the market and it rapidly became known as "Dr. Pierce's Favorite Prescription." By relieving the pelvic congestion, giving tone to the organs and stopping weakening drains, Nature was given a chance to repair damages and restore the body to a healthy condition again. The use of the alcoholic preparations found so abundantly on the market, was always disparaged by Dr. Pierce, who found that alcohol merely imparted a temporary stimulation, while it dried up the blood and diminished the restoring power of the organs themselves. There is not a particle of alcohol or narcotic in any of Dr. Pierce's medicines, and this fact he will substantiate by the most exacting analysis. If you are suffering and sick, write to-day to Dr. Pierce and tell him your troubles. You can tell him freely all you feel, as all letters are regarded as sacredly confidential and are never printed without the full written consent of the patient. Do not be persuaded to write to a woman because you are told "A woman best understands a woman's ills." It would be as reasonable to say that a child best understands the ills of childhood, simply because he is liable to be afflicted with such trouble. The important feature in treating disease is experience, and for forty years Dr. Pierce has been ranked as America's most famous specialist in the treatment of diseases of women, and his advice always leads to good results.

If yours is a case that will be benefited by his proprietary remedies, he says so frankly; but as frankly tells you what to do in case yours is one requiring special attention and treatment. Many women have blessed the day when they wrote to Dr. Pierce for advice. Backed up by over a third of a century of remarkable and uniform cases, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States for any case of Leucorrhoea, Female Weakness, Protrusion, or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure. No other medicine for the cure of woman's peculiar ailments is backed by such a remarkable guarantee as Dr. Pierce's Favorite Prescription. No other medicine for a woman's ills is possessed of the unparalleled curative properties that would warrant its makers in publishing such an offer; no other remedy has such a record of a third of a century of cures on which to base such a remarkable offer. Dr. Pierce's Common Sense Medical Adviser, over 1000 pages, is sent by Dr. R. V. Pierce, Buffalo, N. Y., on receipt of twenty-one cents in one-cent stamps for the paper-covered book, or thirty-one stamps for the cloth-bound.

We guarantee that Dr. Pierce's Favorite Prescription does not contain alcohol, opium, or any harmful drug. It is a pure compound of medicinal plants scientifically combined. Persons making false statements concerning its ingredients will be prosecuted. World's Dispensary Medical Association, J. W. Pinkerton, PRESIDENT.

FORMER PREACHER IN DIVORCE COURT

His Wife Alleges Criminal Intimacy With Five Different Women

KANSAS CITY, June 19.—W. T. S. Barnes, formerly the Rev. Dr. Barnes, has been sued for divorce in the circuit court in Independence. Mr. Barnes was for ten years one of the leading Methodist preachers in Southwest Missouri. He was pastor of a church in Springfield for several years. Four years ago he gave up preaching and went into the real estate and fraternal insurance business in Kansas City. He is head of the Barnes Investment company, with offices in the Century building.

Mr. Barnes was married in 1886 in Harper county, Kansas. He has three children, 16, 14 and 12 years old. Mrs. Barnes and her children live at 126 Linwood avenue.

In her petition for divorce, Mrs. Mollie Barnes gives the name of five women and asks divorce upon the ground of infidelity. She says Barnes has \$3,500 in the National Bank of Commerce, \$3,000 in the German-American bank of St. Joseph, \$5,000 in good notes and he owns the house and lot in which she lives at 126 Linwood, which is worth \$2,000, and a house and lot at 2729 Brooklyn. She alleges that he has threatened to put her out of the house. She asks the court to enjoin him from doing so or from disposing of any of his property or money until her rights can be adjudicated. She asks for such alimony as the court may see fit to give.

Mr. Barnes said his wife was very jealous of him, but wholly without cause. They had found it impossible to get along together, so they had been living apart. He said that when the case was tried it would be shown that he had done nothing wrong. He said the petition would be amended so as to eliminate the names of the co-respondents.

PRIVATE PRACTICE IS NOT ALLOWED

Mayor of Kansas City Says the City Is Entitled to an Officer's Full Time

KANSAS CITY, June 19.—The city attorney hereafter is to have his offices in the rooms of the city council at the city hall when police court is not in session. The arrangement was brought about by Mayor Neff, who insists that the city attorney should be available at all hours of the day to receive and act on complaints that may be made by citizens, the board of public works, the health board or any of the departments for the enforcement of the city ordinances through the agency of the police.

KNOX MUST TAKE A BACK SEAT IN SENATE

New Member Is to Be Put in the Cherokee Strip on the Democratic Side of House of Representatives

WASHINGTON, June 19.—Although Philander C. Knox, attorney general, will enter the United States senate, lauded by his friends as an able statesman and as having had one of the most successful administrations of the department of justice in the history of the government, yet when he takes the oath of office he will be obliged to conform to the rules regarding the choice of seats and he will be located in the democratic side of the senate chamber in what is known as the "Cherokee Strip." It is one of the immutable rules of the senate that the new-comer in that body must take whatever seat is available. This usually is the most undesirable one in the chamber. No exceptions are made to this rule. Mr. Knox will be assigned to the seat formerly occupied by Senator Allee of Delaware, on the end of the next to the last row. Senator Dick of Ohio is the only republican who fares worse than Mr. Knox, as he will retain the seat he now has on the end of the last row. As changes occur in the membership of the senate both Senator Knox and Senator Dick eventually will secure seats among the brethren of their political faith.

Senator Quay's seat, which was the third one from the end on the republican side, in the front row, will be occupied by Senator Penrose, who had the end seat in the row and merely moves up two places. The seat that Senator Quay had was the one formerly occupied by Senator Cameron, and was held by a Pennsylvania senator many years. It was the desire of Senator Penrose to secure it, which he did by making application to Captain Ransdell, sergeant-at-arms of the senate, who looked up the records and found that there was no prior claim on it. By carefully studying the situation Mr. Allee of Delaware, although only a short time a member of the senate, filed a claim on Senator Penrose's seat and got it.

When a senator wishes to secure a better seat, he looks about and fiddling

The Great International Question

NATIONAL BISCUIT COMPANY

a possible vacancy, files with the assistant sergeant-at-arms a claim for that seat as soon as it is vacant. This claim is entered in a book with the date upon which it is filed and the senator has the first chance at it. Senators watch the politics in the states of their colleagues for indications of a vacancy and even study the physical condition of the older members. If an aged statesman develops a bad cough, there probably will be several applications filed for his seat. Senator Beveridge secured Senator Hanna's seat and escaped from the "Cherokee Strip" by making a prompt claim on it soon after Mr. Hanna was taken ill. Senator Fairbanks has a seat in the front row on the republican side, one of the best in the chamber. Senator Chandler formerly sat there and when there were indications that he might not come back, another senator filed a claim on it and Mr. Fairbanks got a second mortgage. By the shifting of the political chances, the first claimant also failed to come back to the senate, and Mr. Fairbanks secured the seat.

FIFTH COURT OF APPEALS.
DALLAS, Texas, June 19.—The following proceedings were had in the court of civil appeals, Fifth supreme judicial district, at Dallas:
Affirmed—T. C. Carlock vs. Edgar Sweeney et al. from Dallas county; St. Louis Southwestern Railway Company vs. Z. T. McIntyre, Fannin county; Maggie Blount vs. Gulf, Colorado and Santa Fe Railway Company, Hill county; A. L. C. Hurst vs. G. H. Barb, Dallas county; Cora Gatt et al. vs. Mrs. Martha Shive, Kaufman county.
Reversed and remanded—G. Hausmann et al. vs. Trinity and Brazos Valley Railway Company, Hill county; H. B. Rankin vs. Steve Hooks, Ellis county.

Wood, Dallas county; Texas Portland Cement and Lime Company vs. Pearl Lee et al., Dallas county; Charles Temple et al. vs. Watkins Land Company, Kaufman county; P. J. O'Brien vs. Missouri, Kansas and Texas Railway Company, Grayson county; John Drew et al. vs. J. W. Morris, Camp county.

Don't wait until September to make room reservations at the World's Fair. Phone 229, Cotton Belt office. No charge for service.

The Small women put myrrh with water into a bottle, which on being well shaken produces a lather that they use as a dressing for the hair. The Abyssinians, when they go elephant hunting, smear themselves with this gum or a solution of it, as it is supposed to keep the elephants from attacking them, possibly on account of the odor.

A curious old custom is said to be still kept up at the picturesque Wensleydale village of Bainbridge, England, where every winter's night at 9 o'clock a large horn is blown on the village green to aid any wayfarer who might chance to be lost on the surroundings fields to find his way to the village. The fine horn now in use was presented to the village some years ago and at one time adorned the head of a huge African bull.

FAST TRAIN ON THE KATY WAS WRECKED IN TERRITORY

Initial Trip of the World's Fair Special Results in a Wreck at South McAlester

DENISON, Texas, June 20.—The Katy World's Fair special, northbound, was badly wrecked near Skunk Hollow, near South McAlester, I. T., about midnight. The train was going at a high rate of speed and dashed into three work cars on the main line at a siding. The engine, No. 408, pulling the special was wrecked. Engineer Doak is reported to have been seriously injured. Also Conductor John Tygard.

NO ONE IS KILLED MURKOGEE, I. T., June 20.—The Katy fair special, northbound, on its initial trip, was wrecked in the yards south of South McAlester at 1:30 o'clock this morning. The wreck was caused by the freight car leaving the box car on the main line. Nobody was killed. The engine and about five coaches were smashed.

NONE SERIOUSLY HURT DENISON, Texas, June 20.—Conductor Tygard and Engineer Doak of the World's Fair special arrived here at 12:30 p. m. They are not seriously hurt. The engine turned completely over and went down an embankment. Two sleepers and two chair cars were derailed. The passengers were shaken up, but no one was injured. It took several hours to clear up the wreck.

DETAILS OF WRECK SOUTH McALESTER, June 20.—The northbound Katy World's Fair special with two stock cars on the Skunk Hollow switch, one mile south of here, this morning at 1:30 o'clock. The cars were too close to the end of the spur. The engine was knocked from the track and ran forty-five yards on the ties and plunged over a seven foot embankment. The tender broke loose and stopped across the track. The combination car crashed into the tender and is a total wreck. Two chair cars left the rails but did not turn over. The sleepers remained on the track.

Engineer J. M. Doak of this city, staying at the residence of H. N. Conner, at 2440 E. 10th, was injured. His left leg was buried in the mud and his body pinned next to the boiler. He extricated himself with great difficulty, crawling through the cab window. His injuries are not serious. Fireman George Whiteacre was thrown on top of the boiler and only slightly injured. Fortunately for both the boiling water escaped through the front end of the engine.

OKLAHOMA CITY IS AFTER FRANCHISE IN LEAGUE

May Be That Corsicana Team Will Be Transferred There. O'Connor Released

There are rumors that the Corsicana franchise in the Texas League will be transferred to some other city. Several men were over there yesterday from Oklahoma City, making overtures for the transfer to their town. The deal is not yet concluded. It is claimed that the territory town has not only a lot of money to back the team but a baseball citizenship that turns out three and four thousand next on Sundays.

MCLENNAN COUNTY CORN WACO, Texas, June 20.—Edwin Bradford McKenney, the young son of Mr. and Mrs. E. A. McKenney of South Ninth street, has just sent a sample of Texas raised corn to the World's Fair which will be thought, take a front seat in the exhibits. It is early corn and was raised this year, in the back yard of the family. The ear of corn is perfectly enormous, with the grains filled out thoroughly. A number of exhibits have been sent from this section to the fair, and McLennan county will be represented to the world.

PERDICARIS IS TO BE FREE TOMORROW WASHINGTON, June 20.—The navy department received a cablegram from Rear Admiral Chadwick at Tangier, saying Perdicaris and Varley will probably be released tomorrow.

RAILWAY MAIL SERVICE Promotions have been made in the railway mail service for this district as follows: William P. Crump of the Tulsa and Enid R. P. O., from class 1 to class 2. Lawrence Blanchett of the New Orleans and Houston R. P. O., from class 3 to class 4. Superintendent Gaines has returned from a trip to Kansas City and St. Louis. A Minneapolis investigator reports what may surprise some people—that the milling industry of the United States is the third largest in the country.

The Arcade 1204-6 Main Street

WEATHER FORECAST

The hottest morning of the year is the record made this morning on the instruments of the weather bureau, the reading at 7 a. m. showing a temperature of 73 degrees and steadily rising from that time on, getting up into the 90s and still going.

Yesterday's hottest point was reached about 4 o'clock when the government thermometer registered 91 degrees. This figure, however, is way below the readings of the thermometers on the streets, which show more nearly the amount of heat a person feels, being situated so as to get the benefits of the reflected rays.

No rainfall occurred yesterday at the government stations in the state, with the exception of a .01 inch fall at Corpus Christi. Cloudy conditions, however, prevailed this morning in many sections and rain is expected at those points tonight.

Scattered showers are reported from various portions of the country, the maximum rainfall being at Little Rock, Ark. Thunderstorms occurred at Little Rock, St. Louis, North Platte, Dodge City and Huron.

The weather is in an unsettled condition. The high pressure area is over the northwestern portion of the country, with another passing out over the southeast Atlantic coast. Low pressure conditions are over the great lakes extending to the Mississippi on the west, and to the Alleghenies on the south and east. Southern Arizona is under the influence of a low of considerable gradient.

Scattered showers are reported from various portions of the country, the maximum rainfall being at Little Rock, Ark. Thunderstorms occurred at Little Rock, St. Louis, North Platte, Dodge City and Huron.

DISTRICT AVERAGES

Table with columns: Station, No. Temperature, Rain-fall. Lists averages for Atlanta, Augusta, Charleston, Galveston, Little Rock, Memphis, Mobile, Montgomery, New Orleans, Oklahoma, Vicksburg, Wilmington.

REMARKS

Texas is on an average in a partly cloudy condition this morning. It was raining at 7 a. m. at Corpus Christi, no other place in the state reporting rain. No measurable quantity. Light showers occurred at nearly all of the cotton district centers. Spartanburg, S. C., reports 2 inches rainfall.

THE RACE NOT ALL ONE WAY IN JOHNSON

It is not all one way in Johnson county on the congressional race, as appears from the following: With Johnson county solidly lined up for him, Judge Poindexter will win out hands down over Congressman Gillespie. Cleburne Enterprise.

INDIAN TERRITORY CROPS

ARDMORE, I. T., June 20.—One week has passed since the heavy rains ceased falling in this section and the farmers have caught up with their work. There was never before a time in the history of the Chickasaw Nation when crop prospects were more flattering.

COTTON BLOOMS PLENTIFUL

WAXAHACHIE, Texas, June 20.—Cotton blooms are plentiful and little bolls are not at all uncommon in this section now, though most of the cotton has not reached that stage. The plant has made wonderful progress during the past few days, and in nearly all cases fields are clean, and if not, a force is at work getting rid of weeds and grass.

OIL STRIKE WILL YIELD BIG RETURNS

WACO, Texas, June 20.—Everything in connection with the oil strike at South Bosque looks brighter even than it did at the outset, and between one and two hundred feet of stands in the well. It is thought certain that the well is a good producer of fine oil and plans for developing the field are being laid by Bart Moore, L. Mikel, John Spencer and Mr. Grimm.

The people of South Bosque continue in a state of feverish excitement and speculation, and land options and prices are hopping about like turkeys after grasshoppers, and covering a wide range. It is not thought that the field will be anything more than a pumping proposition, but the shallowness of the well—only 450 feet—makes the situation very encouraging. Another well will be sunk at once very close to the present hole, and some experiments will be conducted with it, in order to find out the exact thickness of sand etc. This will not be done with the present well, lest some mistake be made and water allowed to come in and spoil the well.

It is not generally known, but it is a fact that some of the first searching for oil ever done successfully in Texas was in the South Bosque region several years ago, when a number of shallow wells were bored, but there were some little distance from the present site. The surface indications have long caused speculation as to what was below.

GRAPEVINE, Texas, June 19.—Miss Mittie Weatherly who has been at Mineral Wells for some time for her health, has returned very much improved.

Society in this town is very quiet now as so many of the young men have gone off with the threshing machines and every evening groups of young ladies are seen strolling all alone.

Miss Morris of Fort Worth is visiting friends here this week. J. A. Morris and family left last Thursday morning for a visit to St. Louis to take in the World's Fair.

The Farmers and Merchants Milling Company sold a car of flour this week to the Henderson County Lumber Company at Lufkin.

J. J. Osterhout of Fort Worth has been here several days and at present is engaged with the Grape Vine Sun. J. L. Morehead had business in Fort Worth Monday.

Clyde Weatherly who is in Fort Worth Thursday. B. R. Hall was in Carrollton Thursday. Mrs. Will Mays is quite sick with fever. Bradley Winfrey was in Dallas Thursday.

HARDING POLK IS THROUGH SCHOOL

Fort Worth Boy Graduates with Good Record at Virginia Military Institute

Captain James H. Polk yesterday received a letter from his son, Harding Polk, who is attending the Virginia Military Institute at Lexington, Va., in which he refers to the fact that he will graduate from the above school with a record from 88 to 97, 100 being the percentage basis. Young Polk also gave a brief resume of the Decoration day program. The cadets of the Virginia Military Institute took part in the observance of the event and helped decorate the graves of Confederate soldiers. In the same cemetery is buried General Jackson. The cadets wore in full dress. Following the decoration services the cadets were subjected to a review, one of the prominent spectators being Sir Mortimer Durand, ambassador of England. When he reached review grounds a salute of thirteen guns was fired by the artillery.

Young Polk will start home on his vacation in two weeks, accompanied as far as St. Louis by two coach loads of boys. He will probably be met at the World's Fair by his parents.

GOOD REVIVAL AT ROSEN HEIGHTS

Services Have Been Successful and It Will Continue for One More Week

The services at the Rosen Heights Methodist Episcopal church yesterday were great blessings to all present. After the morning sermon, which was preached by Mrs. W. H. Chamberlain, the doors of the church were opened and a goodly number were received into membership by presenting letters of transfer from other churches. The work of Rev. W. H. Chamberlain and wife closed last night. They have been detained a week longer than they had intended to remain, owing to the unsettled condition of things. It has been the best revival Rosen Heights has ever had. The meetings go right on through this week. Rev. J. M. Jackson and Rev. R. L. Seale, from Thursday on over Sunday, will preach good sermons and continue the revival spirit. Tonight Rev. J. M. Jackson will preach upon the subject, "What Does it Cost Not to be a Christian?" The song service precedes the preaching service by a half hour.

MAYOR VEToes THE RESOLUTION

Action of the Council at Last Meeting Is Not Approved by City's Executive

Mayor Powell this morning vetoed the resolution passed by the city council the regular session last Friday night, instructing the city engineer to enlarge the storm sewer at Robinson's branch, on West Fifth street.

The veto was as follows: To the Honorable City Council of Fort Worth—Gentlemen: I herewith return to your honorable body the attached resolution authorizing and instructing the city engineer to properly enlarge the storm sewer, Robinson's branch culvert, at West Fifth street, passed at your last regular meeting, June 17, for the following reasons to-wit:

Because it would be useless to repair and enlarge said culvert unless a private storm sewer drain culvert be enlarged at the same time, and final arrangements have not yet been made to enlarge said private storm sewer.

Because there is a suit now pending against the city for damages alleged to have been caused by said culvert being too small, and I am of the opinion the city will be better able to defend said suit by allowing conditions to remain as they now exist. Respectfully,

T. J. POWELL, Mayor.

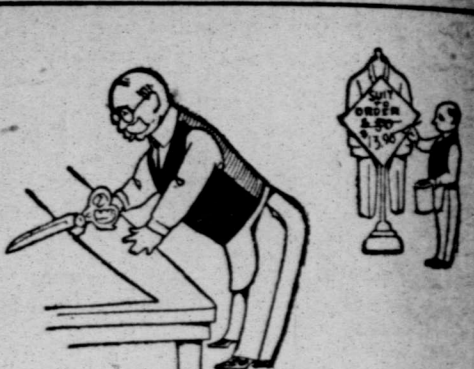

FEWER GALLONS, WEARS LONGER

Fewer gallons, takes less DeVoce Lead and Zinc than mixed paints. Wears longer; twice as long as lead and oil.

IN THE COURTS

VITAL STATISTICS The following births were reported to the county clerk's office this morning: To Mr. and Mrs. W. Thomas of North Fort Worth, a girl to Mr. and Mrs. T. J. Simmons of North Fort Worth, a girl; to Mr. and Mrs. Henry Chappell of Handley, a girl; to Mr. and Mrs. Ed Blackman of Handley, a boy; to Mr. and Mrs. J. W. Martin of Handley, a girl; to Mr. and Mrs. J. H. Hoover of Handley, a girl; to Mr. and Mrs. T. R. Redman of Handley, a girl; to Mr. and Mrs. L. K. Smith of Handley, a boy; to Mr. and Mrs. Allen Handley, a boy; to Mr. and Mrs. Allen Woods of Handley, a girl; to Mr. and Mrs. L. F. Hester of Handley, a girl; to Mr. and Mrs. Tom Hart of Handley, a girl; to Mr. and Mrs. B. Morrow of Handley, a girl; to Mr. and Mrs. M. F. Hines of Handley, a boy; to Mr. and Mrs. Allen Rogers of Handley, a girl; to Mr. and Mrs. W. T. Redman of Handley, a boy; to Mr. and Mrs. F. L. Strickland of Handley, a girl; to Mr. and Mrs. Andrew Clark of Handley, a boy; to Mr. and Mrs. J. Bratcher of Handley, a boy; to Mr. and Mrs. N. N. Rasbury of Handley, a boy; to Mr. and Mrs. T. S. Maxwell of Handley, a boy; to Mr. and Mrs. J. W. Borne of Handley, a girl.

Not a death was reported to the county clerk today.

We're Cutting Clothes

That's because our Prices always were right for the sort of tailoring we make, and because we make the kind of clothes the trade is glad to pay our price to get. We won't make any other kind. We won't slight materials or findings. We won't cut our tailors or our help—or we won't sacrifice our customers. We maintain our assortment. We maintain our standard and we keep on cutting clothes. Suits \$20.00 to \$40.00
