Russians Are Being Forced Back at Every Point and in One Instance the Loss Was 1500 Men and Six Guns

Kuropatkin Advises Emperor That Russian Forces Are Being Concentrated at Liao Yang—Will Be Able to Risk an Engagement

ST. PETERSBURG, Aug. 3.—The correspondent of the Associated Press hears Emperor Nicholas has just received a telegram at Peterhof containing alarming news. It is also reported that Viceroy Alexieff, who has gone to Harbin on his way to Vladivostok, returned to Liao Yang yesterday and conferred with General Kuropatkin regarding the situation.

TOKIO, Aug. 3, 10 a. m.—The Japanese defeated the Russians at Tomu Cheng (Simou Chang) and drove them toward Hai Cheng in a sharp fight, which began last Saturday and ended on Sunday. The Russians left 1,500 dead on the field and lost six guns.

The Russians occupied a range of high hills north of Tomu Cheng, which were strongly defended with covered trenches, fortifications and covered positions, which consumed months in construction. The Japanese seized a range of heights to the southward on Saturday. They began the attack at daylight on Sunday. The Japanese left wing encountered severe opposition. The Russians were gradually reinforced and their artillery was increased to twenty-one guns. The right, exposed to a severe artillery fire, was forced to halt.

The Russians, who were reinforced, assumed the offensive at 5:30 o'clock in the evening, but were repulsed with a heavy loss. The Russian artillery prevented the Japanese from pursuing and during the night the Russians withdrew toward Hai Cheng. The Japanese casualties were about 400.

General Kuropatkin telegraphed that the two days' fighting at Yang Tsu Ling and Yushulintzu, his losses were six officers killed, sixteen officers wounded and 550 men killed and wounded.

RUSSIANS RETIRING TO LIAO YANG

ST. PETERSBURG, Aug. 3.—In a dispatch to the emperor dated August 2, General Kuropatkin says:

"Our troops retired from Hai Cheng along the road toward Anshan Shan. The movement was accomplished in perfect order and the enemy did not disturb us. The terrible heat caused many sunstrokes and measures have been taken to diminish the equipment of the troops. Hitherto we have been obliged to carry it by transporting it in supply carts. There is no serious news from the eastern front."

General Kuropatkin's armies are now back respectively upon Anshan Shan, Lian Dian Shan and Anping as predicted, concentrating upon Liao Yang, falling in the dispatches of the Associated Press. These three points form a ring of closely knit defenses around Liao Yang and will enable General Kuropatkin to risk a general engagement. The only cause for anxiety is Anping and General Kuropatkin wires he hopes the troops have held that place. This indicates a misgiving that the Japanese evidently realized an advantage by attacking this point and directed the strongest advance along Samatza Liao Yang line.

The brief telegram from General Kuropatkin received this morning reports the evacuation of Hai Cheng and declares the Japanese did not continue the attack towards Liao Yang August 2, adding they evidently were unable to follow up the advantage of the previous day owing to the stubborn resistance of the Russians, roused with tropical heat.

The general says the soldiers threw away their overcoats and equipments and made everything possible was done to relieve them, but nevertheless there were a great number of deaths from sunstroke. He does not specify the casualties in battle and makes no mention of a loss of guns.

LOSE A THOUSAND MEN

LIAO YANG, Aug. 3.—Russian attempt to push back numerically superior force of Japanese from Kuchiatzu on July 31 resulted in an admitted Russian loss of 1,000 men.

EVACUATE HAI CHENG
HAI CHENG, Aug. 3.—In consequence of desperate fighting the last few days and the Japanese turning movement the Russians have been compelled to evacuate Hai Cheng and fall back on Anshan Shan.

REPORT OF THE PORT ARTHUR FIGHT

ST. PETERSBURG, Aug. 3.—The first Russian reports of the storming operations at Port Arthur are just received from the consul at Russia at Chefoo, dated today.

The report says a general attack began Saturday, with the Japanese in immense force. There were two days' bombardment of unprecedented violence. The Japanese at the time of sending this dispatch the consul adds that everywhere been repulsed with great loss. The Japanese casualties possibly will reach 20,000, but the Russian losses are insignificant. The consul further reports the Russians have abundance of ammunition.

The telegram does not mention the naval operations, but it has been considered possible the Russian warships participated in the shelling of the besiegers from the sea. The exact date of the events reported in this telegram are not clear. It is possible that it is by wireless message, depicting the events which occurred since last Saturday. On

the other hand, the message may have gone by junk to Chefoo, in which case it refers to the events a week ago and practically covers the reports mentioned in the Associated Press dispatches from Chefoo.

either case the reports have been received with considerable exultation at the pessimistic rumors spread abroad from foreign sources last week. It seems apparent the Japanese advance against General Kuropatkin is timed to occur simultaneously with the assault upon Port Arthur.

RUMOR OF A CRUISER HAVING BEEN SUNK

ROME, Aug. 3.—The Giornale de Italia today publishes an extra edition dispatch from Tokio announcing the Japanese armored cruiser Kasuga, formerly the Argentine warship Rivadavia, had been sunk. The announcement caused a great sensation here.

ASSASSIN MAKES A PARTIAL CONFESSION

ST. PETERSBURG, Aug. 3.—The assassin of Minister of the Interior Von Plehve is said to have made a partial confession in which he declared that at one time he was a school teacher in a rural district and was greatly interested in Zemstvo, for the curtailment of whose powers he blamed the dead minister. He still absolutely refuses to disclose his name. A watch is being kept on him day and night, not only in order to prevent him doing himself bodily harm but in the belief he may betray himself in his sleep. Thus far, however, he has only muttered two words in his sleep, endearing diminutives for Peter and Natalie, the names of comrade and sweetheart. The police discovered a third accomplice was concerned in the murder plot and that he was stationed on the quay on the Neva, where one of the imperial yachts moored on chance the minister might go to Peterhoff that day by boat.

SINKING OF THE GERMAN SHIP THEA

BERLIN, Aug. 3.—The foreign office is still without news of the reported sinking of the German steamer Thea, off the Japanese coast by the Vladivostok squadron, and assumes that if it is true the case will not prove important.

KIEL, Aug. 3.—The Kieler Zeitung says the German steamer Thea, sunk by the Vladivostok squadron, had Kiel for a home port and was chartered by an English firm under the express provision she was not to be sent to blockaded ports and that she would not carry troops or contraband of war. The Thea was built at Dumbarton in 1893, and was 2,000 tonnage.

BERLIN, Aug. 3.—The foreign office lack of information in regard to the sinking of the German steamer Thea by the Russians off the coast of Japan must be regarded as remarkable in view of the fact the Russian officials report was published by semi-official news bureau at 7 o'clock this morning. The only inference admissible is the Russian government omitted sending an official report to Germany.

A CRANK CALLS AND DEMANDS SOME MONEY

PITTSFIELD, Mass., Aug. 3.—Lenox has been much alarmed over the appearance of a deranged man at the country residence of the British ambassador, Sir Mortimer Durand, this morning, asking for money. He made a harangue when refused, and said he admired the assassin of Minister Von Plehve and that some day he would throw a bomb himself.

He was dissuaded from entering the embassy and after a time went away, to reappear later at the residence of Miss Adele Kneeland, of New York, where he demanded money.

A contractor, who was on the ground, attempted to detain the man, who ran and got away. The police were notified and searched the town for the man, who had made good his escape. The incident stirred up the diplomatic circles in Lenox.

REPUBLIC OF PANAMA IS LOANING ITS MONEY

NEW YORK, Aug. 3.—The republic of Panama has made another big loan on real estate in this city. A loan of \$900,000 at 4 1/2 per cent was made by the representatives of the republic on a large Broadway building. This sum is part of the \$10,000,000 which the Panamanian government has received from the United States for the Isthmian canal concession, and its representatives have already loaned out on mortgage nearly \$1,600,000 on real estate in this city.

The republic's representatives have on hand \$4,500,000 invest in mortgages, and will procure the balance of the concession money to dispose of in the same manner.

A VOTING TRUST FOR STEEL AND WIRE CO.

NEW YORK, Aug. 3.—Steps have been taken toward the creation of a voting trust for the National Steel and Wire Company. If this plan is finally adopted the trustees will be H. A. Huntington, Ogden Mills and Henry W. Munroe. The trust will be created for three years. The plan will be the first voting trust to be created recently.

Stock favoring the centralization of the administration will be deposited with the Knickerbocker Trust Company. The plan of the National Steel and Wire Company is at New Haven, Conn. and the company has a capitalization of \$2,577,800 of preferred stock and \$2,932,800 of common.

State Convention at Houston Sends Telegram of Congratulation to Judge Parker and Pledges Him the Texas Vote

LANHAM IS NOMINATED

Governor Makes a Speech in Which He Pledges Fidelity to Duty in the Future as in Past—Culbertson Makes a Speech to the Convention

HOUSTON, Aug. 3.—As indicated and as the permanent organization committee reported, S. B. Cooper of Jefferson county is chairman; Bob Parker of Bexar county, secretary and John McConnell of Tom Green county, sergeant at arms of the democratic state convention. Thirty-one vice presidents, six assistant secretaries and three assistant sergeant at arms were named.

A report was made declaring the result of the election on senator and endorsed Senator Culbertson. A telegram of congratulation to Judge A. B. Parker in the form of a resolution, was wired to Espous. It was adopted amidst applause.

The nominating speeches were limited to five minutes. Governor Lanham was nominated by E. P. Harris of Galveston amidst enthusiasm. Roll call was abandoned and the nomination was unanimously made by a rising vote taken amidst applause.

Governor Lanham spoke for an hour, saying his best efforts would be devoted to the state as in the past, and reviewing the record of two years of fidelity and pledged fidelity to the people. The following nominations were made by acclamation without speeches: For lieutenant governor, George D. Neal of Grimes county.

For comptroller, John H. Stevens of Limestone county.

For associate justice of the supreme court, Hon. T. J. Brown of Grayson.

For land commissioner, John Terrell of Wise county.

For associate justice of the court of criminal appeals, M. M. Brooks of Dallas.

For railroad commissioner, Hon. Allison Mayfield of Grayson.

Senator Charles A. Culbertson addressed the convention, but declined to discuss national issues, giving as his reasons that he should not do so until Judge Parker has accepted the nomination and the outline of the plan of the campaign has been issued from headquarters.

R. V. Davidson of Galveston was nominated by acclamation for attorney general. A resolution that the birthdays of Jefferson Davis and John H. Reagan be state holidays was carried enthusiastically.

A resolution commending the World's Fair commission and that the state legislature take steps to preserve the exposition exhibit at Austin was carried.

HOGG'S SPEECH TALKED OF

AUSTIN, Texas, Aug. 3.—The speech of Governor Hogg at the Houston convention yesterday is on everybody's

tongue. The consensus of opinion among Austin politicians is it will be liberally used in doubtful states and turn the current of public sentiment to the republican candidate for president.

HOLT IS OFFERED AS CANDIDATE FOR GOVERNOR

Democrats of West Virginia Want Harmony and Will Endeavor to Have It

PARKERSBURG, W. Va., Aug. 3.—The convening of the democratic state convention today was not under such harmonious conditions as anticipated, especially for minor places on the state ticket. The delegates are still disposed to subordinate everything in the interest of Henry G. Davis carrying his own state for the national ticket, but there are differences of opinion as to what is best for Davis and as how things should be done even after it is decided what is wanted. When importuned yesterday Former Senator Davis was reluctant about expressing preferences for candidates. His closest friends were insisting that Judge Holt of Huntington would head the ticket. Meantime the friends of other candidates, notably those of W. R. Thompson, also of Huntington, were very active and a strong sentiment was created that "the best thing for Davis was harmony" and that harmony will be assured by concession from the Davis men. At the same time it is desired to have the governor from a different part of the state than that in which Davis resides.

The radicals are all wearing white badges bearing the words "White Man's Party," and insisting that the platform should be "white." Former Senator Davis is engaged much of the time with the platform. He will not attend the afternoon session of the convention, but he might be present at the night session.

PANIC IN PERSIA RELIEF IS NEEDED

NEW YORK, Aug. 3.—The Presbyterian board of foreign missions of the Presbyterian church has received letters from the American missionaries in Persia regarding the cholera epidemic which has come into the country from the south and southwest and has extended as far north as the capital in Teheran.

On July 2 there were thirty or forty deaths a day at Teheran and recent cable dispatches have reported a great increase. The missionaries have opened four centers of cholera relief in Teheran, using both their hospital and their church, and have sent throughout the country directions, printed in English and Persian, for the guidance of the people during the epidemic. There is already great panic and much need of relief.

FAIRBANKS

Indiana Man in Formally Notified That He Has Been Selected as Vice Presidential Candidate by Republicans

A SPEECH BY MR. ROOT

He Takes a Hard Fall Out of Democratic Party for Having Nominated an Old Man. Reply of Nominee to the Address of Notification

INDIANAPOLIS, Ind., Aug. 3.—Charles W. Fairbanks was today formally notified of his nomination for vice president by the republican convention. The notification address was made by Elihu Root, ex-secretary of war, who was temporary chairman of the convention. The exercises were held on the wide veranda of the senator's beautiful home on Meridian street in the presence of members of the notification committee, the governor and other state officers of Indiana.

MR. ROOT'S SPEECH

Senator Fairbanks: The committee which now waits upon you was appointed by the national convention of the republican party, held at Chicago in June, and its agreeable duty is to notify you of your nomination as the republican candidate for the office of vice president of the United States for the term to begin on the 4th day of March, 1905.

We give you formal notice of that nomination with assurance of the undivided and hearty support of the great party which has executed the people's will in the government of this country for the better part of the last half century. The nomination comes to you in accordance with the best methods and practices of representative government. It was the result of long and earnest consideration and discussion by the members of the convention. It was not the chance product of an excited hour, and it was not upon the demand of any powerful influence—political or otherwise—constraining the judgment of the delegates. It was not made for the purpose of creating possible malcontents, or of swelling the campaign fund of the party. No bargains or intrigues contributed to it. No suppressions of the truth or misstatements of the convention as to your principles and opinions were necessary to bring it about. It was the deliberate, informed and intelligent judgment of the delegates from every state and territory, and it was their unanimous judgment.

It is a great office to which you are called, John Adams, and Thomas Jefferson and George Clinton, and John C. Calhoun, and Martin Van Buren, and many others whose names are illustrious in the history of our country, have filled it. It is an office of high dignity and immediate, ever present importance. The credit and honor of our country are greatly concerned in the character and conduct of the man who presides over the senate of the United States, that powerful and august body, of which you are

already so experienced, so useful and so honored a member. But the vice president has other grave duties, imperative and exacting, than the people elect a president under our political system, they do not merely select the man for the office; they give their approval to certain controlling principles and to a certain line of government, and the administration of which the vice president is a part is bound to give effect to these principles and policies. The primary duty of the vice president is to be always ready to take up the burden of the presidency if occasion requires, carries with it the duty to be always ready to continue unbroken the policies which the people have entrusted to the administration for execution. For the due performance of this duty the vice president should be familiar with the conduct of affairs by the administration as it proceeds, a part of its councils, and imbued with a knowledge of its labors, its perplexities and its motives, that can come only from intimate acquaintance and confidence and sympathy. Too often it has happened that after excited contests for the presidential nomination the candidate for vice president has been selected from the defeated party, and the result has been to bring resentment, and that after election he has remained antagonistic in spirit, and a stranger to the councils of the president whom he may be called upon to succeed. Happily we are now in no such case. The people would fain see again such relations of sympathy and loyal helpfulness for the public good, as existed between President McKinley and Vice President Hobart; and the personal relations between President Roosevelt and yourself, your mutual esteem and good understanding assure us that these happy conditions will come again after the fourth of next March. We count upon your wisdom and an experienced and tried aid as an element of ever present strength in the coming administration.

VICE PRESIDENT'S RESPONSIBILITY
As to the supreme responsibility of the vice presidency in case of success to the presidency, we shall all pray, and no one more earnestly than yourself, that it may not come to you. But we are not at liberty to ignore the possibility that it may come. Sad and bitter experience admonishes us that provision for succession to the presidency is no idle form. Of the last twelve presidents elected by the people of the United States five—nearly one-half—have died in office and have been succeeded by vice presidents. A serious obligation rests upon the political parties to provide for the succession to the office, to whom the people must choose, to see to it that they nominate men for that position who have the strength of body and mind and character which shall enable them, if occasion comes, to take up their burdens of the great presidential office, to endure its trying and exhausting demands, to meet its great responsibilities and with firm hand and clear vision to guide the government of the country until the people can express their choice again.

Our opponents of the democratic party have signally failed to perform this duty. They have nominated as their candidate for the vice presidency an excellent gentleman, who was born during the presidency of James Monroe, and who before the 4th of March next will be in the eighty-second year of his age. Before the next administration is ended, he will be approaching his eighty-sixth birthday. It is no disparagement of the gentleman for whom I believe we all have the highest respect, to say that he shares the common lot of mortals, and that the election of any man of such great age would furnish no safe guard to the government against the disaster which would ensue upon the death of a president with a successor not competent to perform the duties of the presidential office. It is common experience that very aged men, however bright and active they may be, are unable to perform the duties of the office for brief periods, can not sustain long continued severe exertion. The demands of the presidential office upon the mental and physical vitality are so great, so continuous and so exhausting, as to be beyond the capacity of any man of eighty-five.

A REMOTE POSSIBILITY

The attempt by such a man to perform the duties of the office would with practical certainty be speedily followed by a complete breakdown both of body and of mind. In contemplating the remote possibility of the election of the democratic candidate for vice president, the people of the country are bound to contemplate their burdens of the great presidential office in case of the president's death, that others, not chosen by the people, and who not who, would govern in the name of a nominal successor unable himself to perform the constitutional duties of the office; or, still, that serious doubt whether the vice president had not reached a condition of "inability" within the meaning of the constitution would throw the title to the office of president into dispute.

The serious effect of such an event upon the government and upon the business interests and general welfare of the country, and the serious effect even of the continual menace of such an event, must be apparent to every thoughtful mind.

In your election, on the other hand, this chief requirement will be fully met. In the full strength of middle life you are prepared for the exacting duties of the presidency. Your successful and distinguished career, the ability and probity with which you have already discharged the duties of high office, the universal respect and esteem of the people of Indiana who have delighted to honor you, the attachment of hosts of friends throughout the union—all assure us that you have the character and the ability to govern wisely and strongly should you become president. Many indeed among our people have already turned toward you as a suitable candidate to be elected directly to that great office.

It is the earnest wish of your party and of many good citizens who have no party affiliations that you shall accept this nomination, and that you shall be elected in November to be the next vice president of the United States. In expressing to you this wish, we beg to add an assurance of our own personal respect, esteem and loyalty.

MR. FAIRBANKS IN REPLY
"Mr. Root and Gentlemen of the Committee: I thank you for the very generous terms in which you have conveyed the official notification of my nomination for vice president of the United States. The unexpected and unanimous nomination by the republican party is a call to duty which I am pleased to obey.

"I accept the commission which you bring with a profound sense of the dignity and responsibility of the exalted position for which I have been nominated. My utmost endeavor will be to discharge in full measure the

Homer D. Call Claims Packers Will Never Be Able to Get Combine in Shape Again and That the Packers Are the Real Losers

CHICAGO, Aug. 3.—Homer D. Call, international secretary of the butchers' organization, said today:

"The greatest feature of the strike is that the meat trust has been broken instead of the packers disrupting the unions, disintegration from one of the greatest combinations the world has ever seen has already set in. For ten years from 1890 to 1900, consolidation of meat companies was carried on and from 1,741 packing plants in this country the number was reduced to 760. The tide will run the other way. The packers know they have already lost control of a large part of their business and that live stock dealers will do all that is possible to assist in their defeat. Since the strike independent plants in Chicago, Louisville, Cincinnati, Indianapolis, Pittsburgh and Springfield, Mass., are working night and day. This trade can never be recovered by the trust. My reports are the danger has already been realized by the big packers. It took the packers twenty years to build up the combination and now the fruits of victory will be snatched from them by the

labor unions. The public is supporting the independent plants because of damaging evidence secured by the government against the meat monopoly."

Determined to give all the aid possible to the strikers, the ice handlers and ice wagon drivers refused to supply the refrigerator cars of the strike affected plants. Without the ice, the packers are unable to ship meat, except for short hauls, and can not export any. Non-union men are being pressed into service, but the efforts are not sufficient. Armour & Co. begun using fruit cars for shipping meat, but this admittedly is a costly experiment.

Notwithstanding the claim of the packing house managers that they have no difficulty in securing workmen, they are said to be making very strong efforts to induce their former employes to return to work. The latest move made in that line is the distribution of cards among the wives of the strikers, urging them to induce their husbands to return to the packing plants and offering increased pay.

The firm of Schwarzschild & Sulzberger Company notified the county officials that it could not make the usual weekly delivery of meat, according to contract, and the superintendent of public works placed an order for \$4,000 worth of meat with an independent firm.

CATTLEMEN AND STRIKE

Captain John T. Lytle, secretary of the Texas Cattle Raisers' Association, who yesterday received a telegram from Zack Mulhall, advising the cattle growers not to ship to market during the pendency of the strike, was asked this morning regarding the situation. He said he thought few cattle should be shipped now. Even if there was no strike, he says, too many cattle are moving, which is demoralizing the market.

IDENTIFIED BY A WOMAN'S PHOTOGRAPH

NEW YORK, Aug. 3.—By means of a woman's photograph found upon him when he was arrested last Friday, the man who is alleged to have shot a Mount Vernon detective a few days before, and who was captured after a chase by an armed posse and a pack of bloodhounds, has been identified as Henry Wilkins of Buffalo, N. Y., a member of the United States marine corps and said to belong to a well known family.

George E. Waddy, the man who made the identification, says the photograph found on the prisoner was that of his wife, Mrs. Waddy.

DESPONDENCY THE CAUSE

SYRACUSE, N. Y., Aug. 3.—Hamilton White Swift of this city, a relative of Andrew D. White, former ambassador to Germany, shot himself with a rifle at Lost Lake, in the Adirondacks yesterday. Despondency and ill health were the causes. He was formerly engaged in newspaper work. He was nearly 40 years old.

Market Quotations

NORTH FORT WORTH, Aug. 3.—The morning market opened today with about 1,200 cattle yarded, the total supply for the day being increased to about 2,500 head by the arrival of thirty cars of mixed steers, cows and calves, which arrived during the noon hour.

Early trading as a rule was done at yesterday's prices, though the market at times showed marked symptoms of weakness. Steers ranging in quality from ordinary to medium good sold at \$3.99@3.40. These sales were mostly made during the forenoon, as the fresh arrivals received shortly after dinner had not been prepared for sale in time to secure the representative sales for this afternoon's paper.

Cows sold along at Tuesday's quotations while trading in calves was fairly active at unchanged prices. Bulk of calf sales were made around \$3.00 with occasional sales ranging both above and below that figure.

These girls have engaged the rink for every Monday morning from 8 until 11 o'clock. The skating rink is proving a success in every way and is becoming a very popular resort. None of the objectionable crowds which usually collect in public places have been evident. The patrons of the rink are among the best people of the city.

A horse hitched to a delivery wagon near the Union depot ran away this morning and created considerable havoc among the teams around the Texas and Pacific freight house. Luckily no one was hurt by the horse in its mad flight on the street.

The Rock Island today announced that a popular excursion to Colorado would be run from Fort Worth August 15. The round trip rate will be \$16.10 to Denver, \$14.50 to Colorado Springs and \$14.75 to Boulder, limited fifteen days. Summer tourist stop-over privileges will be granted.

The regular meeting of the Kindergarten Association will be held tomorrow at 3 o'clock at the Kindergarten College.

M'PEAK IS TO QUIT THE BROKERAGE BUSINESS

F. G. McPeak who has for several years conducted a brokerage business in this city, has disposed of the business, the purchasers being E. G. Scales & Company.

Mr. McPeak retires from the brokerage business to devote his entire time to the De Forest Wireless Telegraphy Company as its southwestern agent. The work of putting in stations in Fort Worth and Dallas is under way and will be completed early in September, at which time a grand opening will take place.

IN LADY'S ROOM TIE HER HANDS

DENISON, Texas, Aug. 3.—Last night two men entered the sleeping apartments of Miss Fannie Edwards, on Texas street, and tied her hands and then attempted other indignities. She screamed and frightened them off. The men fled, voice and county officers are trying to locate the parties.

THE BOARD WAITS FOR THE OWNERS

Few Citizens Are Calling on the Equalization Board to Regulate the Tax Levy

"The people do not seem to comprehend that although we have plenty of time now to attend to business, there will, as usual, be a bargain counter rush when the time approaches for us to adjourn about the first of October," said a member of the city board of equalization as the board sat with newspaper or magazine waiting for a client.

"Every year it's this way," he continued. "We meet people on the street and suggest that they come in early, but they never do, and as a consequence the same trouble and worry is experienced year after year."
"Another misunderstanding the public seems to have is this: They seem to think we take up the property in alphabetical order. We are frequently asked what letter we are working in and how soon we will come to such and such property. Others seem to have the impression that notices will be sent out to them when their property is reached. All of these impressions are erroneous. We are here at the service of the people to investigate their assessments at their request and only hope that they will come in early to avoid the unnecessary haste and crowding at the end."

CONSTITUTIONAL AMENDMENTS

There is now being published in every county of the state in which there is a newspaper three proposed amendments to the state constitution which were ordered submitted to a vote of the people by the last session of the state legislature.

There is one proposed amendment which provides for the chartering of state or private banks. While there will doubtless be some opposition to this amendment from the larger banking concerns of the state, the adoption of this amendment would no doubt be of benefit to the commercial interests generally.

As there are already hundreds of private banks operating in this state without any form or system of inspection, the wisdom of bringing all these institutions under some form of espionage should be apparent to all men, and such is one of the prime purposes of this amendment.

There is another amendment which proposes to permit the state legislature to grant aid to Confederate soldiers not to exceed eight dollars each per month, said aid not to exceed in the aggregate a total of \$500,000.

The effort to stir up a prohibition fight in Texas, as evidenced at the state convention, is most unfortunate and should be sat upon.

The Rock Island Railway and Wells Fargo Express Company have offered a reward of \$1000 each, dead or alive, for the train robbers who recently held up a Rock Island train in New Mexico.

must not be made to feel that they are being dealt with in a niggardly spirit and given the bread of bitter dependence. On the contrary, they must be made to realize they are receiving but a small portion of their due, and the mite that is given them comes as a love offering straight from the hearts of a loyal and devoted people, who appreciate them for what they so truly are—the salt of the earth, and the remnant of a Legion of Honor, crucified upon their own cross, but nevertheless, the objects of love and veneration of every true Southern heart.

The other amendment provides that by a two-thirds vote the resident property holding voters of a county, or subdivision of a county, or several counties combined, or any special district that may be created, may levy a tax and issue bonds not to exceed one-fourth of the value of the land in such district, for the purpose of improving rivers and other streams to prevent overflows and permit navigation of the same.

This is a brief explanation of the three amendments to be voted upon by the people of Texas at the November election. They are all in the line of progress and are worth the favorable consideration of our people.

The Katy telegraphers who are now out on a strike are hopeful of winning out, but the railway company claims to be able to operate its trains without much delay or hindrance.

Governor Hogg may prefer Roosevelt, but Texas democracy will continue to line up for Parker. Friends of the former governor will regret the bad break he made at the state convention, which was entirely uncalled for, unless the Texas statesman proposes to follow where Mr. Bryan leads the way, even if it takes him outside the party.

It is announced from Houston that Senator W. A. Hanger of this city, will present at the next session of the state legislature a complete scheme for the revision of the tax laws of the state, which will bring him fame and future recognition at the hands of the democratic party.

Judge Sam H. Cowan of this city, attorney for the Cattle Raisers' Association of Texas, is trying to stir the people of Iowa up on the matter of the existing necessity of amending the interstate commerce law.

In the first list of states claimed by the republicans in the national election, both New York and West Virginia are omitted and placed in the doubtful column.

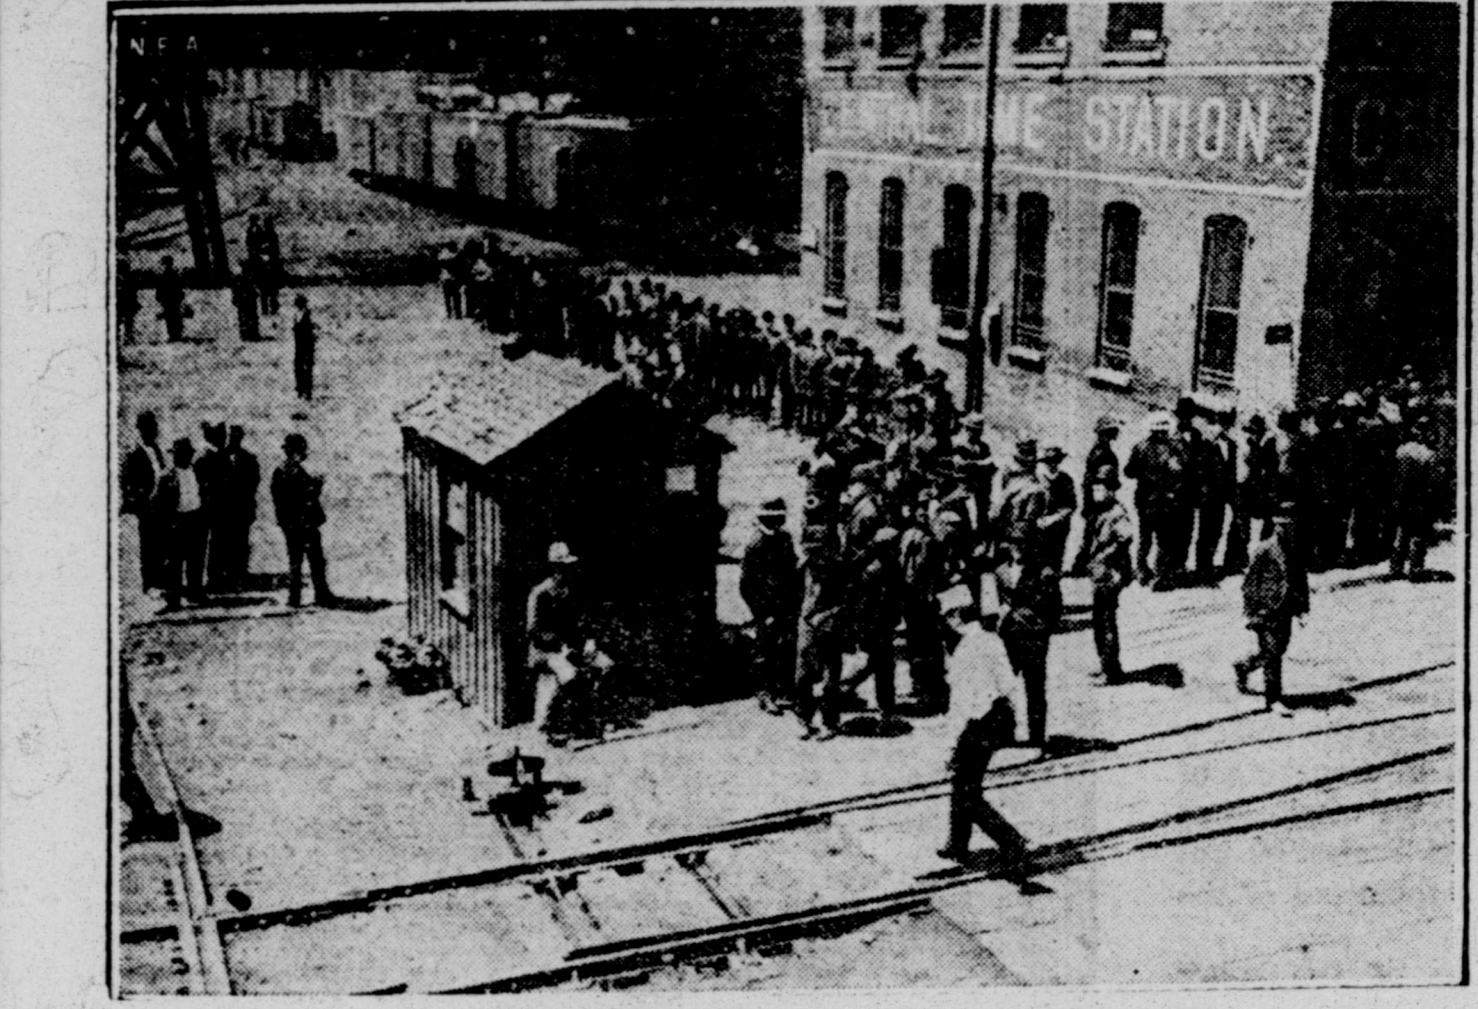

Harmony is said to be prevailing in large chunks down at Houston where the state democratic convention is in session, notwithstanding James S. Hogg says it is but the mask of the corporations who are seeking to rob the people.

The postmaster general has given the town of Vardaman, in Mississippi, the name of Timberville, presumably in honor of the fact that the republican party in the presidential campaign has already taken to tall timber.

The effort to stir up a prohibition fight in Texas, as evidenced at the state convention, is most unfortunate and should be sat upon.

The Rock Island Railway and Wells Fargo Express Company have offered a reward of \$1000 each, dead or alive, for the train robbers who recently held up a Rock Island train in New Mexico.

By Janet Ayre Fairbanks

Copyright, 1901, by Frank Leslie Publishing House. The smoke hung in thick clouds over our heads, the air was blue with it, but there were only six or seven of us in the smoking room, for the cotillon had begun. We were discussing Miss Marian Langley, or to be exact, the others were, I, having learned from sad experience that whatever I said of her was sure to reach that young woman's ears, sat silent, for I was angry with her, and had nothing pleasant to say.

My cigar was out, and before I had succeeded in lighting it, Farrington opened the door, letting in a burst of music. "Well," he remarked, with a beaming smile, "I must say that you 'stags' look pretty dull. What are you talking about—Miss Langley?" His face suddenly became grave for a moment; then he added, confidentially, to me: "You are all wrong, anyway. Will, he sent me for you. She wants her fan. Come along."

RHEUMATISM

JOINTS AND MUSCLES SWOLLEN AND STIFF

A disease so painful and far-reaching in its effects upon the human system as Rheumatism, must have a deep and well-laid foundation. It originates and develops in the blood, and, like other diseases of the blood, is frequently inherited. The poisonous acids with which the blood is charged circulate through the system, breaking down the health, irritating the nerves, settling in joints and muscles, and causing the sharp, cutting pains peculiar to Rheumatism.

I had a severe attack of Inflammatory Rheumatism. I was laid up in bed for six months, and the doctors I had did me no good. They changed medicine every week, and nothing they prescribed seemed to help me. Finally I left of their medicine and began the use of S. S. S. My knee and elbow joints were so swollen and painful that I could not close them when opened. I was discouraged when I began S. S. S., but as I saw it was helping me, continued, and to-day am sound, well man.

1355 Mt. Vernon Ave. R. H. CHAPMAN. Rheumatism, being a constitutional blood disease, requires internal treatment. Liniments, plasters and such things as are applied outwardly, give only temporary relief. S. S. S. is the recognized greatest of all blood purifiers and tonics, and in no disease does it act so promptly and beneficially as Rheumatism, neutralizing the acids and restoring the blood to a pure, healthy condition and invigorating and toning up the nerves and all parts of the system. It is guaranteed strictly vegetable. Write us should you desire medical advice, which will cost you nothing.

GEORGE A. BILYOU, THE VILLAGE BLACKSMITH, AND HIS SHOP, WHERE JUDGE PARKER WILL VOTE.

ESOPUS, July 31.—George Bilyou's blacksmith shop is used by the voting population of Esopus as the polls on election days and it will be in this shop that Judge Parker will cast his ballot for Parker and Davis.

There is always a crowd around the smith's forge, and if there is any place in Esopus where a seeker might find a straight line on the situation it is there. Industrious George Bilyou has been known to let the fire die out in the forge twice on the same day since the great news was received from St. Louis.

"George," said a playful cynic, "tell me the truth now, and say whether the fact that the judge gives you all his business ain't got something to do with your going to vote for him? If he lived out in Ohio, say for instance, wouldn't it be different?"

The handle of the bellows pump flew up with a thud. The blacksmith parted his leather apron and put one foot up on the anvil stump. Pointing a grimy finger at the questioner of his motives he said: "There ain't a man in Esopus who can say that I don't usually practice what I preach. Judge Parker's a friend of mine and I like the man, but I want to tell you that if I'd never seen him in my life and he lived in the Philippine islands he could have my vote. He's my kind of a man, and he'll make my kind of a president. No, sir, I'm voting for the man without regard to conditions about him, and I'm proud to be his friend."

The cynic retired precipitately and the sparks flew again in the forge.

SPORTING NOTES

DALLAS, Aug. 3.—The Panther's tail was twisted a bit here yesterday, when the Giants jumped on Pitcher Jackson in the eighth inning and got four runs, taking the game from Fort Worth by a score of 5 to 3.

Jackson was unsteady throughout the game, as may be seen—ten men passed to first, six on bases on balls and four batters hit.

Despite Jackson's weakness, however, Fort Worth kept the lead until the eighth inning, when Dallas got four runs and cinched the victory.

RAILROAD NEWS

A company which was organized several months ago in Texas, in which Oswald Wilson of this city, Colonel E. S. Peters of Calvert and others in Texas are interested, was organized to take over mining properties in the Parol district of Mexico, in the state of Chihuahua.

As a result of the recent sensational strikes in the Parol district in Mexico and the general development of mining interest in that section the owners of the Parol and Durango railroad have decided to extend that line into Guadalupe. Surveyors and engineers are now in the field in large force pushing the preliminary work for building the road.

The Parol road has been successfully operated for some time. The property is owned almost exclusively by Pittsburgh, Pa., people. The president of the road is J. E. Gill; S. H. Wilson is vice president, and the treasurer is S. H. Mazzy.

The road is now operated fifty-three miles extending from Parol to a point nine miles southwest from Ojito. The

Doctors Say Drink More Schlitz

The body requires ten glasses of fluid per day. Most people drink too little to flush the body of its waste. The result is bad blood, nervousness, disease.

Then the doctor says "Drink More;" and he knows this advice to be worth more than medicine.

That's one reason why pure beer is good for you. It leads you to drink more. And the beer is also a food and a tonic. But the beer must be pure. Schlitz beer is brewed in absolute cleanliness and cooled in filtered air. It is aged for months so it will not cause biliousness.

That's why doctors say "Schlitz." Ask for the Brewery Bottling.

SUPERINTENDENT FOR TEHAUNTEPEC.
P. H. Kilpatrick has been appointed superintendent of the Tehauntepec National Railroad company with headquarters at Rincon Antonio. His appointment is due to the resignation of E. M. ROCK ISLAND MOVEMENTS
From San Augustine comes the news that a railway engineering corps fully equipped with men and instruments are now in the vicinity of that place encamped. A line is being extended from Timpson to San Augustine. Work on the grade is now under way. It is said that the Rock Island is behind the extension, although nothing definite regarding this has been learned.

MAY ABOLISH POSITION
William Doherty assumed charge of his new duties as general passenger agent of the St. Louis, Brownsville and Mexico railroad. His duties for the first year will consist principally in industrial work, the booming and setting up of the country contiguous to that line. There are many thousand acres of it and it is regarded as among the best and cheapest land in the great southwest. Mr. Doherty will go into this country this week.

There were many forums in Rome, but the oldest and most famous was not created like a building, at a certain time. The "Forum Romanum" was originally the lowlands between the Palatine, Capitoline and Quirinal hills, used as a meeting place for barter and politics by the tribes living on the hills named and on other hills nearby. The development of this crude trading place and neutral ground into the Roman Forum of later times was very gradual and irregular.

TAKE A PLUNGE IN THE SURF!

ON SATURDAY, AUGUST 20 the excursion of the year will be operated from points north of Temple on the Santa Fe to Galveston.

This is an opportunity to enjoy the splendid bathing afforded by the surf on Galveston beach.

If you enjoy fishing you can make a trip to the North Jetty and have a good day's sport—there is a comfortable pavilion out there and this year the FARPON and other game fish are unusually abundant.

The work of raising the grade to a level with the great sea wall is now progressing and to see this work alone will well repay you for the trip.

To make it an object to take the trip, a rate unusually low even for excursions has been put on, but there is no room here to explain.

Fort Worth Business Men Discuss Plans to Get the Farmers to Bring the Staple Here for Marketing

PREMIUMS EVERY YEAR

Committee Appointed to Go Among the Merchants and Solicit Funds to Make Active Campaign to Advertise This City as a Cotton Market

There was an informal discussion yesterday afternoon at the rooms of the Board of Trade by business men of the necessity of doing something to bring the farmers to Fort Worth with their cotton, and to this end a decided move has been made by several of the leading merchants of Fort Worth.

The present conditions as they relate to cotton coming to this city were thoroughly discussed and it was the consensus of opinion that if a concerted move was made by the merchants the farmers would bring more of their cotton product here. It was stated by some of the merchants that Fort Worth should be made one of the leading cotton markets in this part of the state and it was the belief that if they were some of the cotton shippers offered the farmers a preference to taking it to the smaller towns around Fort Worth.

One merchant stated that he knew of several instances when farmers living near Springtown, west of this city, brought their cotton right through Fort Worth and took it to Arlington, where it was sold at from one-quarter to one-half a cent more than was offered by Fort Worth cotton buyers. This, it was contended, is wrong. Fort Worth should, in fact, pay more than the smaller towns. It was contended there should be more buyers in this city, and that Fort Worth should pay more than any other town.

The statement was made that farmers will sell their product where they can get the best price. They will then buy their goods where they sell their cotton, and as a result Fort Worth receives no benefit. It is the desire of the Fort Worth merchants to change this condition of things and induce the farmers to bring their cotton here where he is to receive even more than he can get elsewhere.

According to the decision of the meeting of merchants yesterday this system will be carried out when the farmers bring their cotton to market, which will result in the sale of a fraction more for it than was paid in Denton. As a consequence very little of the staple found its way to that place. He says that where the farmer sells his cotton he buys his goods.

It was suggested by Captain R. B. Paddock that an executive committee be appointed and that buyers and classes of cotton be selected by the merchants' organization and that they be put to work at once. His plan was that the selection of merchants do some advertising and let the farmers know at once just what they were going to do and what the farmers might expect when they brought their staple to this city.

General Freight Agent Stanley of the Denver road stated that another important feature connected with the effort was to induce a large percentage of cotton in this vicinity than was the case at the present time. For this reason he thought it would be an excellent scheme.

premium be offered for the first bales of cotton brought to Fort Worth each season. His idea was that this would induce the farmers to hurry up their work growing the cotton and get to market with the first bales as soon as possible.

NORTH SIDE AND ROSEN HEIGHTS

The City Council Has Inspected Much Work on the City Thoroughfares

Nash Furniture Company. The council of North Fort Worth held a regular meeting at the Rosen Inn last night, all aldermen being present.

An ordinance regarding dogs and the muzzling of them during certain periods of the hot season was passed.

The matter of selecting a suitable location for the proposed water works plant was thoroughly discussed, but no definite action was taken further than the appointment of a committee to choose a site and report at the next meeting.

City Engineer Hall was asked to figure the cost of grading several streets. A large amount of street grading is being planned by the council for the next three months. The engineer reported the cost of the work alone on Twenty-fourth street and Ellis avenue so far to have been \$1,362.25.

The council decided to meet twice a month hereafter, instead of four times. Alderman Conway suggested that the engineer take grade and stakes on Twentieth street and report to the council at the next meeting as to the cost of having the necessary work done on that street.

It was also decided that grade be taken on Prospect avenue and an estimate made of the cost of work to be done there. This is in reply to a petition presented at the council at its meeting a week ago.

THE POLICE FAIL TO LIFT GRATES ON SEWERS

Chief Rea Says the Officers on Main and Houston Street Are Instructed in the Duty

Different policemen on the Main and Houston street beats have been assigned the duty of opening the various grates to the storm drains during a heavy rain. Yesterday, during the heavy downpour, this was not done, and as a result several basements on Main and Houston streets were flooded.

City Engineer Hawley himself opened several of the grates, and it was due to the neglect of the policemen, to whom the task was assigned, that all were not opened.

WHAT CHIEF REA SAYS A Telegram representative saw Chief Rea in regard to the matter this morning. He said:

"Yes, I have assigned that duty to several of the officers on the downtown beats, and if the grates were not opened it was due to their neglect.

"Perhaps they were away from the particular locality when the rain started and did not want to get wet by going to them," suggested the telegram man. "That is no excuse," said the chief. "They are instructed to do it and it should be done."

GAMBLERS IN WACO WACO, Texas, Aug. 3.—It is claimed by many parties that the gamblers have returned to Waco in force and that operations are going on again on quite a scale. The matter is causing the usual amount of talk.

HOGG MAKES AN ATTACK ON THE NATIONAL DEMOCRATIC NOMINEE

Former Governor Makes a Wry Face When Parker's Name Is Mentioned—Crane Follows the Ex-Governor—Former Congressman Tom Ball Defends the Democratic Ticket and Delivers a Warm Reply to the Ex-Governor

HOUSTON, Aug. 3.—The feature of the Houston convention is the impassioned speech of former Governor James Stephen Hogg, to which was added a short talk by Hon. M. M. Crane yesterday afternoon.

To these there was a reply by Hon. T. H. Ball of Houston, former member of congress. Former Governor Hogg said he has retired from active politics and that he desires no office. He went into an elaborate discussion of the constitutional amendments which he championed four years ago and which were put into the platform at Waco after a stormy debate.

He denounced the legislature for failing to enact the demand by submitting the amendments and was free in the use of characteristic phrasing in rebuking the pass packers and the lobby. This argument is familiar to newspaper readers.

He denounced also in the same severe fashion various consolidation acts during the past four years and remarked that both Governor Lanham and Governor Sayers had allowed consolidation measures to slip by them, which greatly increased the burdens of the people; though he congratulated Governor Lanham upon his veto of one of the consolidation acts at the last session of the legislature.

He said in effect that efforts were being made or would be made to destroy the stock and bond law by amendment. A new line, he suggested, is no more than fairly started before it is absorbed under some act of consolidation. Such new lines must be built under the commission valuation of \$105,000 to the mile in stocks and bonds, but when such new lines are absorbed they are made to bear their part of the excessive bonds of the old lines usually amounting to \$30,000 or \$40,000 to the mile, and by the injunctions from federal courts the commission is compelled to allow rates which will meet the interest on such excessive bonds.

This, he argued, is the meaning and the peril of railway consolidation. The governor had about concluded when some one asked him what about Parker. He paused and repeated, "Parker, who is 'Parker'?" Then making a wry face he said: "He is going to be elected—that judge with a locked jaw which he unlocked only after the convention had gone so far that the situation could not be changed."

He went on to say that Mr. Roosevelt was not his friend, but he did not hesitate to express his admiration for the president and called him "the trust buster" while he characterized Judge Parker as the candidate of the party of trust bluster.

Mr. Roosevelt had, he said, enforced the trust laws in the Northern Securities case and if Judge Parker would do as well he would be among the most enthusiastic to sing his praises.

Answering another question about the Booker Washington dinner, he said entirely too much fuss was being made over that incident, that if the northern people wanted to dine and associate with negroes they should be allowed to do so. He said the poor southern people need have no fear of the negro question and paid a tribute to the southern negro, especially those of Texas, who, he said, were always respectful to the white race.

M. M. Crane of Dallas next spoke. He expressed the hope that the platform committee would declare strongly for the maintenance of the Terrell election law, and spoke mostly against the occupation tax. On both propositions he was manifestly in sympathy with the audience. He was then drawn out on Parker by questions from the audience and spoke of

commended him to all classes of citizens in New York that independent voters and even republicans joined in giving him their unqualified support.

"I have no manner of doubt but that a democrat who believes that the constitution should be strictly construed would bring his democracy with him upon the bench; and a republican who believes in a loose construction of the constitution would upon the bench carry his republicanism into his decisions. Go read Judge Parker's decisions and see how accurately and truly he balances the scales in justice to capital and labor alike; how strongly he insists in the maintenance of the integrity of the three co-ordinate branches—legislative, executive and judicial; how strongly he points out the menace which was feared in the early stages of our government of judicial usurpation of all the powers of government; how he warns against the encroachment of the executive power. If you want to know how he stands toward the cause of labor, you have only to go to his decisions and see in the leading case which he wrote to take their places, drawing the line only at acts which are unlawful in themselves, such as threats, violence or destruction to property; and no recognized leader of any labor organization will claim that he indorses or demands more.

POLICE NEWS

Seventeen new cases were called in the police court this morning. Twelve of these were passed, and in five pleas of guilty were entered. The old cases were disposed of as follows: Passed 7. Pleas of guilty 7. Discharged 3.

THREE SMALL NEGROES Two small negro boys, aged 12 and 9 years, were arraigned in the police court this morning for assaulting a third little black fellow of equally tender age. The 12-year-old boy pleaded guilty and was fined \$5 by Judge Prewett; the 9-year-old culprit was discharged on a promise not to be so quick with his fists the next time.

The little negro who made the charges against his assailants grinned broadly as his enemies were brought up, and although he still carried a bump on his head, a token of the recent fray, seemed satisfied with his revenge.

TOO MUCH DELAY Day after day cases are brought up in the police court and are passed because the "city is not ready," and as a result of this some defendants are forced to appear day after day, only to be put off because of the absence of some officer.

WICHITA VALLEY ROAD AUSTIN, Texas, Aug. 3.—The Wichita Valley Railway Company has reported to the comptroller the following passenger earnings and telegraph business transacted for the quarter ending June 30, upon which the occupation tax was paid: Passenger earnings, \$4,964.23; tax, \$29.64. Telegraph messages sent, day, 349, night 18; tax, \$5.8.

THE STATE DEFICIT AUSTIN, Texas, Aug. 3.—At the close of business hours last night the books in the state treasurer's department showed that 4,662 warrants had been registered against the general revenue fund aggregating \$150,670.77.

Bright's Disease and Diabetes News

SAN FRANCISCO, Feb. 9.—To the women of Fort Worth: Some of you have loved ones stricken with Bright's Disease or Diabetes. Let me give you hope. I can speak because I know. I was stricken with Diabetes myself. Only Diabetes can understand all the tortures—the hopelessness. I went to the Women's Hospital (one of our best). They told me I was incurable. I grew worse (sugar was 11 per cent) and went to the Cooper Medical College for examining. Some verdict—Incurable. Thoroughly discouraged I went home to die. A Mrs. Clark then living at 1013 Larkin street called to tell me there was a cure and where to get it. The third week the dreadful thirst diminished. I began to sleep better and in a year I was perfectly well.

I have a large boarding house on the corner of Powell and Sutter. One of the boarders is Mr. White, formerly Deputy City Assessor. He had to give up his position due to Bright's Disease—had been in both St. Luke's Hospital and the Waldeck Sanitarium without result when I learned what the trouble was and told him he could get well. He was swooping with dropsy, and his heart was involved and he felt sure he could not recover. In a month he began to mend and is now perfectly well. To the women of America I want to say that Chronic Bright's Disease and Diabetes are positively curable.

Sincerely, Mrs. Katherine Matthewson. The above is strictly true. WILLIAM WHITE. The above refers to the newly discovered Fulton Compound, the first cure the world has ever seen for Bright's Disease and Diabetes. We are the sole agents. Ask for pamphlet.

H. T. PANGBURN & CO., Free Delivery. Phone 31. When to suspect Bright's Disease—puffy ankles or hands—weakness without visible cause—Kidney trouble after third month—smoky urine—frequent urination—failing vision—one or more of these.

THE JEWELLED HAIRPIN

We were a happy family, two boys and three girls from sixteen to twenty-six years of age. Our summer cottage was large enough to accommodate the chums of all, and in July and August we usually kept it full.

One night, returning late from the city and being tired, I went to my room and threw myself on a divan. The boys and girls were skylarking in the hall, and some one put out the light. I dropped asleep, and when I awoke all was still save the scratch of a match which failed to ignite in my room.

What was my surprise at going into the breakfast room the next morning to see every girl in the house—there were six, besides my sisters—each with a piece of courtplaster on her cheek.

"Which of you girls lost a hairpin last night?" "Up flew half a dozen hands to as many heads, then were quickly lowered, none of the girls admitting a loss.

"Why do you ask?" inquired one of the girls. "Have you found one?" "No," I replied carelessly and opened my hand, showing nothing in it.

I was uncertain as to the value of my victory. I was half in love with Jennie Sayer, who had encouraged me, but from this time she showed a decided preference for one of my friends.

"I will give you my answer after you have returned a hairpin set with pearls I have lost during my stay here."

"That's your affair, not mine." It was plain that she was intending to punish me for my kiss in the dark and what had come of it.

"But I may be a long time finding it. I may never find it." "That's your affair, not mine."

It was plain that she was intending to punish me for my kiss in the dark and what had come of it. But there was hope. She had really lost a hairpin, and I might possibly find it.

The day before the party broke up I was called to the city. I kept an especial suit for traveling and, as usual, put it on.

It must have fallen there while I was struggling with Miss Sayer. If ever a man was inspired with the arrogance of triumph, I was that man.

"Which of you girls has lost a hairpin?" Miss Sayer looked at me with horror-stricken eyes. I opened my hand and displayed her pin.

"I am overjoyed," I added, "to announce my engagement to Miss Sayer, who accepted me conditionally on my finding this article. I am open to congratulation."

When I claimed the fulfillment of the contract Miss Sayer admitted that I was entitled to a favorable answer and said that she would take my offer under consideration. The mixer kept me on the anxious seat for a year.

The idea that east Texas is the only place in the world where fine Elberta peaches can be raised is all wrong. Yesterday afternoon Mrs. Charles Hess of 1014 Taylor street sent to The Telegram a basket of as luscious fruit as one would care to see. These peaches were raised at home at that address, and upon three trees she got six bushels of peaches. They were fine, large in size and of excellent quality. This cultivation of peaches within a few blocks of the business section of the city has proved successful in one instance at least.

JUDGE WEBB TALKS OF CORPORATIONS IN THIS STATE

He Says the Representatives Are in the Majority at Houston Convention

"There is a great gathering of corporation counsel at Houston now," said Judge B. R. Webb to a Telegram reporter while waiting this morning for a delayed train going to Austin; "one to be proud of, and with a fair sprinkling of representatives of the people sandwiched in between. But when corporation managers control 51 per cent of the stock of a given concern it is immaterial who holds the other 49 per cent; and the minority holders can be safely allowed to continue their holding until an appropriate time for a freeze-out is reached. Three years ago, just after the adjournment of the legislature, a corporation lobbyist remarked, while talking to a small party, all of whom he supposed to be 'sound on the goose':

"Boys, the legislature gave us everything we asked for, and—'with infinite regret in his voice—'would have given us more if we had only had the nerve to call for it. But we'll go back next time and get the balance."

"By the way, I notice that my bills for last month, those which I declared of life, are much higher in amount and price than for the month preceding, although prices have been steadily advancing for several years. It looks that eventually they are going to surpass the feat of the cow when she jumped over the moon. But when our friend Williams brought forward a bill in the legislature to make the property of corporations bear its share of public taxes, three months' hard work on the matter sufficed only to bring him to the end of the legislative session with the bill still up in the air; and the porters swept it up and carried it out in the waste basket when the session was over. The Scripture is truly where it declares, 'Behold, old things pass away, and all things become new.' However, it's a long lane that has no turning, and if we can elect Judge Parker he will fire the money changers out of the temple and put the people in control again; for we will go back to 20 cents, and meat to such a figure that a poor man like me can afford to at least have a beef steak for dinner on Sunday."

PARKER PREPARES

Draft of Letter of Acceptance Has Been Prepared and Has Been Carefully Gone Over by the Nominee

TO DISCUSS FINANCE

Will Enlarge Upon the Telegram Sent to the St. Louis Convention—Tariff and the Trusts Will Have a Place—Will Discuss Every Plank

ESOPUS, N. Y., Aug. 3.—Judge Parker is now within a few days of his official notification. He has discouraged callers between now and the time the notification committee will reach Rosemount, the party intervening he will use wholly in revising his letter of acceptance. The draft of it has been finished. He will begin going over it tomorrow and hopes to have the document ready by his stenographer by Saturday of this week. In putting the finishing touches on his letter of acceptance, Judge Parker will accentuate the following questions:

First—Money and the tariff. On the former, his friends say, he is soundly democratic, while on the latter he favors a reduction for the benefit of the masses.

Third—The right of the south to settle the race question without interference.

Fourth—A strong protest against the holding of colonies against the constitution.

There is nothing on the program to interfere with his work—no visiting delegations scheduled, no company, no committees that will encroach upon his time. By Saturday, too, it is believed that he will have sent in his resignation as chief justice of the court of appeals, or if he does not resign he will have notified his country of his refusal to do so and his reasons therefor.

It is understood that every plank in the platform that was adopted at St. Louis will be discussed in his letter. Even the most inconsequential feature of it is to receive notice. The financial question which his telegram to Mr. Sheehan has made an issue will, it may be said on good authority, be amplified and made the basis of an argument for an unequalled and positive stand on gold as the money of the country. This he will do without offending the adherents of silver any more than possible.

How he is to proceed upon the still greater questions of trusts even his closest friends confess they are wholly in the dark. As yet he has talked to no one; that is, he has not interchanged views of any considerable length with any of the local characters that have visited Rosemount since July 9. Probably he gave to Mr. Peabody more time for a discussion of economic matters than any one else. If Mr. Peabody is pleased with Judge Parker's ideas of democracy, and he says he is, it seems that as a good sign that he will go as far as practical politics will permit in his letter.

There is one thing certain, Judge Parker will not hedge when he speaks on August 10. He thoroughly opposes federal interference or legislative amendments to existing statutes that treat with the franchise of commonwealths lying south of the Potomac and the Ohio rivers. He promised Senator Daniel, who was at Rosemount last week, that he would explain his knowledge of the law and reaffirm his sympathies with the Anglo-Saxon race when it came time for him to speak

publicly to the democracy that had honored him with its confidence. It can be safely predicted that Judge Parker will make these his paramount issues:

First, money; second, trusts and the tariff; third, the right of states to regulate the elective franchise; fourth, American colonies.

Senator Joseph Bailey of Texas, whom Judge Parker regards as the best equipped constitutional lawyer in the country; John Sharp Williams and Grover Cleveland will be asked to read the document before Judge Parker delivers it. Already a long letter has been sent Mr. Cleveland. But whether that one asked for advice, or was on another subject, of course, is not known to the outside world.

WEATHER FORECAST

Good rains occurred at a number of places throughout the state yesterday and conditions this morning were about evenly divided as to cloudy and clear weather in the reports sent in by the government stations.

The heaviest rain fell in this city, where the total precipitation was .82 inches. The belt covered by the rain, however, was narrow, extending but a few miles into the country. Houston, San Antonio and Sherman each had good rains yesterday. Light rains fell at the government stations at Abilene, Brenham, Cuero, Kerrville, Tyler, Weatherford and Wharton.

Antelope, Texas, reports a fall of rain on Monday. Kaufman had a good rain yesterday and the night before. Putnam reports a good rain commencing yesterday morning and lasting well into the afternoon. Cotton and late feed crops are reported benefited by the rain. Anson also has a rain of several hours' duration reported to be general over that section. Marshall, Terrell, Graham, Hereford and Midland all report good rains.

Good rains are also reported from the other states in the cotton belt, average conditions prevailing in the rest of the country, with nothing to indicate heavy storms. Scattered showers are predicted for East Texas tonight and tomorrow.

"An effort is made by the department to have its observing stations and rain cans placed as nearly as possible in the center of every twenty square miles of territory, it being believed that the conditions at such point will accurately represent the weather throughout that district," said D. S. Landis, in charge of the weather bureau here.

"The person in whose care the instruments are put reports each day to his district center receiving a fee of 25 cents per day for this service and being provided with the rain can and two thermometers by the government."

FORECAST

The forecast for Texas east of the one hundredth meridian, issued at New Orleans, is as follows:

East Texas—Tonight and Thursday, scattered showers.

WEATHER CONDITIONS

D. S. Landis issued the following statement of weather conditions this morning:

Two high pressure areas are prominent on the chart of today, one being over the great lakes and the north-eastern states, and the other coming in from the northwest, being over Northern Montana. Each area is characterized by clear and cool conditions. Low pressure is noted over the middle northern tier of states and along the Canadian border, also a secondary low is in the southwest portion of the country.

POSTAL CLERKS TO NOT WEAR BADGES OFF DUTY

Many of These Articles Have Been Lost Recently and the Government Advises More Care in Handling Them

Superintendent Gaines of the railway mail service has issued an order to the clerks of the eleventh division ordering that the badges of the service be not worn by the men when off duty.

This order is the direct outcome of the complaints from the department of the large number of badges lost. The superintendent's order in full is as follows:

"Referring to the general superintendent's having called attention to the large number of R. M. S. badges lost, will say that it has been reported to me that a great many postal clerks wear their badges attached to their suspenders or vests when they are not on duty, keeping the badge with them all the time same as they do their keys. Clerks will please discontinue the practice at once. Such unnecessary use of the badges may account, in a measure, for the large percentage of loss."

That Uncle Sam is frugal even to the point of disposing of as waste paper undeliverable mail matter, is shown in the following amendments to the postal regulations contained in the general orders of the railway mail service, issued today:

Letters which do not contain valuable enclosures shall be returned to the writers, so far as circumstances and conditions permit, and no record will be kept thereof except the number so returned. Letters not returned to writers must be delivered daily to the disbursing clerk and superintendent to have the document to be sold as waste paper.

All matter unclaimed by the addressee reaching the dead letter office, shall, as far as circumstances and conditions permit, be returned to sender of the original matter of every character shall in like manner and under similar circumstances be returned to the senders, except such as is obviously of no value or is unmailable under the provisions of law, which shall be disposed of as the first assistant postmaster general may direct; but all registered matter shall be returned to the senders upon payment of any postage due thereon required to be paid before transmission.

Misdirected letters will as far as circumstances and conditions permit be corrected and forwarded to destination; and such as cannot be so forwarded, but can be returned to the sender, will be so treated.

R. J. WYNNE,
D. B. 742 Acting Postmaster Gen.

A new postoffice has been established in this state at Lamesa, Dawson county.

FRED A. WINCHESTER

The death of Fred A. Winchester of New Orleans occurred last night at St. Joseph's infirmary in this city, where he had been under treatment for several days. Mr. Winchester had been at Mineral Wells for several weeks under treatment before coming to this city. A sister of the deceased was with him at the time of his death.

Funeral services over his remains were held this afternoon at 3 o'clock from Robertson's undertaking rooms.

The Bavarian railway has just completed an American palace railway carriage from material imported for the purposes two years ago from the Euller factories in Pullman, Ill. This is the first railway car of the kind to be introduced into Germany.

SUNRISE MISSION HAS CONVERTS TO FAITH

Protracted Meeting Conducted by Rev. Luther Little Results in Numerous Additions

The mission services conducted by Dr. Luther Little in the tent on East Tenth street came to a close last night, with the addition of ten members, making a total of twenty-four pledged to join the Sunrise Chapel, branch of the First Baptist church.

The twenty-four members of this new organization will be baptized tonight, the services being held at the First Baptist church, under the direction of Dr. Little. The services of the Sunrise Chapel have been conducted in a tent heretofore, but a building has now been secured in which regular services will be held. It was also announced last night that steps would be taken in the near future to secure a pastor for the chapel. Dr. Little's duties precluding all possibility of his conducting the work.

The tent used for the Sunrise Chapel services will be moved to Mills street, north of Weatherford, and beginning with next Monday services will be conducted there under the auspices of the Trinity Chapel, another branch of the First Baptist congregation.

The music at these services as at the Sunrise mission will be under the direction of Mrs. Clark, who has also trained the children at the chapel.
